Chapter 63 - Hero are Fools

Through the war, Konoha won every fight.

But, after the war, the winner village looks more loser village because of strange decision of the Konoha Elder.

Winning and not asking for compensation is stupid, choosing a piece of paper hoping for peaceful end is most idiotic idea you can do on a war end meeting.

And this thing actually appear not to the losing team but opposite, Konoha compromise and use a piece of paper to gain peace when they already win the war.

No compensation, no other development.

As if the war start, the war end, so easy as if war is just couple of letters.

Not only that, not only they gained nothing, but also they start doing infighting, pinching their own people while making lose to their own enemies.

If it weren't for the later people appear in the late stage, Konoha wouldn't be enough to stay for another war

So instead of letting those people divide the legacy of the Senju Clan, it is better to get them on their own team while letting the alliance of two Clan stronger.

"What so you thing of Konoha now?" Uzumaki said as he looked at the people of the he Senju Clan

Senju Hen sighed when he heard Xin's voice.

"In any case, this is also the Shinobi Village established by Lord Hashirama and Lord Tobirama. It's hard for Senju to left the place that our previous Lord established."

He knows what Xin means, but he can't say anything bad about Konoha even he knows what the real situation of them.

The Senju Clan worship Senju Hashirama and Senju Tobirama very much.

Even though Hashirama and Tobirama pass away, the Senju Clan still carries out the concept left behind by the two Lord.

The Reputation and the Blood Senju give to Konoha is so heavy to just throw it away, this is hard decision, maybe even all Senju for, no one will throw Konoha.

Otherwise, when Senju Clan wipe out without any news, Senju Nawaki still alive, when Tsunade's boyfriend Kayo Dan, she still chose to fight for Konoha.

And when she already left for so many years she still chose to go back and become Hokage in the end.

Senju Clan have a good character, they will never betrayed their own friend and village, they will use their own life to protect them even they know they going to be betrayed in the end.

Even if they use their own blood to maintain the current Konoha, they will gladly accept it, this show how they value a single Village who already starting to destroy them.

"Then what do you think you and yoeht will get when you return to Konoha Village?"

Since it's not good to change their own believe, then change the way they look to the thing they care most.

It's harsh but this is the only thing left if they want to survive, the great destruction is already start and the end is already near, there so many of them die just to maintain the balance, Ixn think it's time for them to become selfish in the end of the line.

Senju Hen was really shocked at first, who can't he knows what will they end if they come back, the people who already judge as 'DEAD' how can ',DEAD' come back alive, isn't that stupid?

But in the end, even if he already look like a fool, he firmly answer." Since we violated the order of Hokage-sama, then we should be punished.'

"... Aren you just a fool?"

"You know what I'm trying to say, but you still chose the ending those people want to see."

"Aren't you guys trying to become a Hero?"

"Do you know Hero never live longer?'

"Hero is the last title I don't want to get from Konoha, Hero is the highest title you can get but also the deadliest almost having terminal I'll.'

"You still want to go back and hold the believe in that you know will kill you and everyone on you're clan."

Senju Hen bite his lips, he look force but in the end, he helpless said." Yes.... We are fools of Konoha.... "
