

Uzumaki 65

Chapter 65 - The Upcoming Negotiation

Originally, Hidden Mist Village can easily dominate the Uzumaki Kingdom by strength, population, and even number but now....

They failed.

It's not only Uzumaki Kingdom, but the other four Great Ninja Village.

All this is due to Konoha's conspiracy.

The Shadow Representative sighed. "You shouldn't believe the hidden message from Konoha, they won't watch everyone to take their own allies."

"Get ready to negotiate."

"Hidden Mist Village is one of the Five Great Ninja Villages no matter what, and it cannot be controlled by just small Uzumaki Kingdom."

"You must always have a bottom line, try to pay small and prevent them from taking lead."

"Yes!"

.....

Hidden Cloud Village Team

Raike who is leading the team can't still understand, how such a small kingdom won the fight when they don't have anything else except Sealing Technique.

"What do you think?"

"I think there's a trap Konoha put for everyone, I don't know kind of trap but it seems the hidden message last time from Konoha is suspicious."

"Nevermind, we can get Sealing Technique if we use money, and don't ever try to ask compensation to us or else I will run straight to Uzumaki Kingdom and pull the head of the leader of Uzumaki."

"Please don't be rush Raikage-sama!"

"I know, I know!"

....

The other Great Ninja Village also send people to negotiate, of course like the other who send more people, they don't take Uzumaki Clan seriously.

With their strength, they can intimidates that Small Clan easily, its not hard if they want to get couple of Sealing Technique if they want.

But even so, not single one bring ransom to pay, as if they can get their own people with jait their own fist.

What they don't know is, the other side have bigger and stronger fist.

.....

"Woke up?"

Early in the morning, Xin saw his father and the Elders gather together, they are drinking tea while sitting on recliner enjoying the cool breeze of the morning.

It seems they are discussing something, Xin don't know what they talking but form their expression and look on their eyes, this will be a trouble for him.

The Old Patriarch nodded his head with great satisfaction, and seemed to have agreed to something, but the Elder shook their head and seemed to disagree.

'What are these people doing?'

Uzumaki Xin walked over with confused look on his face, he is to busy doing some important job around so he don't really remember if he miss something.

"Father, Elder, good morning.'

Although he was puzzled inside, it was still better to say good morning to them to start the day.

And Thai day is the most important negotiation day, the compensation should coming now.

"Ho nwo?" Great Elder asked.

"Hidden Mist Shinobi seems to have reached the negotiation site."
