

Uzumaki 70

Chapter 70 - Foolish Action

"Little Sheep, what are you doing?" Kizaru asked the Kiri Shinobi Leader who lying underneath of his feet.

He looks like gloating and mocking while watching the painful expression of the Ninja.

"You!"

"How can you be fast!"

Kiri Shinobi Leader can't understand, with couple of feet away from his target, there's actually fast enough to block his attack.

So fast that he only see darkness before being subdue, he can't even react at all when the enemy appear in front of him.

"Let go of me!"

"Ohh~ so scary ~."

Kizaru's size twelve shoes start to press the unfortunate leader, his head start to sink as he try to fight back.

He realizes something wrong, he can't pull his body out, the foot on his head is like unmovable mountain that he can't carry.

"Leader!"

"Give us our leader back!"

"Damn you Red Hair Demons!"

The Kiri Shinobi finally react, everything is fast that everyone left standing, in the fight start and end at same time.

Pulling their weapon, they try to fight back but in instant, everyone of them hold by Uzumaki Shinobi.

They then realized something.

It's not that Uzumaki Clan is arrogant, but Uzumaki Shinobi have the capital to be arrogant in front of them.

With just single second, each of them are stop by different people, the only one left untouched is the Kiri Negotiator who sweating and hard.

'Damn! What kind of head this Leader have!?'

'The most embarrassing is they move first but still lose the fight, heo embarrassing!'

Kiri Negotiator don't know how to speak, it's fine if they successfully eliminate the target but before they can even retaliate, everything is alright over

"Can we start now?" Xin calmly said looking at the Kiri Negotiator with calmly look, as if the attempt just now is just a simple joke.

"... Yes.." Kiri Negotiator nervous answer, he know they already lose the momentum for this negotiation, the only thing left is lose more.

"The condition of ou village is here, please take a look." Kiri Negotiator politely pass the scroll that the Elderly gave to him.

What inside is the compensation that the Hidden Mist Village can give.

Xin look at th scroll, he look at the Kiri Negotiator weirdly as if he is looking at a idiot.

"Do you know what is your Village position in this negotiation?"

"Yes?"

"You are the loser of the war, the one who will going to give the condition is the winner, now tell me, how can a loser have guys to give the condition to the people who defeat them?"

Kiri Negotiator suddenly feel chill, he almost forgot, because of their own pride as member of Great Ninja Village, they all think that anyone who under them don't have right to ask anything.

Xin is right, the one who will give the condition is the winning side not the loser side.

Loser don't have right on a negotiation, the only thing they need to do is to try minimize the lost not to give their own condition.

Xin throw the scholl, he pull another scroll from his waist and pass it to the Negotiator.

"This is our condition, check it, whatever you can accept it or not, I don't care."
