"Don't worry, I will explain my self back to Village." Kiri Shinobi Leader said and continue their way back to village.

'That kid... That kid is dangerous, I need to tell this news back to village.' This is not his own personal opinion but the sense he got from that kid.

He is sure that if they can't eliminate that kid, maybe a powerful Clan will rise after couple of years.

The Ninja World is already divided to different powerful group, another group can't emerge because it will lessen the part everyone holding.
