

Uzumaki 81

Chapter 81 - War is Over

In the second negotiation, there were no many twist and turns, after Xin passed yhr condition, the Mizukage signed it with stern face and promise to deliver the cast in just one day.

After all that, they left, Uzumaki Clan don't care, not worried that Hidden Mist Village will not going to pay them back.

This is not the transition period of the Second World War, there no such thing as forgetting the negotiation, and besides, the Hidden Mist Village is facing more problem so they will never brake their promise.

And if ever Hidden Mist Village don't hand over the money within the time limit, Xin plan to arrange Uzumaki Shinobi to the edge of Water Kingdom to announce the news that they did not pay the money.

For sure those Hidden Mist Village can't bear such disgrace, and with bad reputation, for sure no one will help them if they asked for help.

And also, Second Mizukage said that he would pay back the money in a day, with small time, Xin sure that he will it going to lose his face in time they going to face stronger opponent.

As for the Hidden Mist Village going to face the Hidden Rock Village, Xin don't care, he even want the other to enter their Kingdom so he can sell all his food on higher price.

War is the most productive and profitable day for doing business, selling goods is higher than the normal day, and this is the day every business man want to happen as Uzumaki too.

And according to the news from the CPo, Mizukage led the Kiri Shinobi to cross the sea, planning to go to Konoha, the nearest Village, it seems that they want to borrow the way from Konoha.

But, Xin don't know if Mizukage will seek compensation from Sarutobi Hiruzen, after all, base on the news he gather, some people from Konoha release the news when this people invade the Uzumaki.

For sure Sarutobi Hiruzen will pay any kind of price just to hide such scandal, this will effect the face of Hokage at same time the Konoha.

Betraying your own Allies in the middle of the War, and sending important information to the enemy is embarrassing and inhuman.

It is estimated that the Konoha Shinobi all over the Uzumaki Kingdom saw that the Shinobi crossing the sea were actually the Ninja of the Hidden Mist Village, surely their expression must be very strange, especially most of them know Hidden Mist Village attack their own allies.

The picture must be exciting, Xin even want to go and check it, well, he will do it later.

There is no ship left for Hidden Mist Village, and the water in the country is poor that it doesn't even ship available to any village near the sea, and as Ninja, it seems normal to swim across to sea right?

Running is also possible, but running is not a solution, maybe they will take some plank and push it to the sea as ship.

Hidden Mist Village's life is so hard, but all this has nothing to do with Uzumaki.

Xin don't care about them, what he care most is Uzumaki, he don't have time to care to them but this not stop him from seeing the great embarrassment.

Looking up the sky, Xin seems we the bright light coming from the sun, he can't help but to whisper." The war is finally over."

It's finally over, and his plan is going to start, the great change is about to happen and he is going to start.

Maybe there will be wat in the Uzumaki Kingdom, but that will be few years later, and the Uzumaki Kingdom will definitely stronger by then.

Compared to those Great Ninja Village that are getting weaker and weaker, Uzumaki will continue to strive to catch up.

"Announced to everyone, the War is Over!"

"Yes!"

A shadow come out from a tree and disappear, few minutes later, you can start to hear the cheers of everyone in distance.

...

Underground Cave

Because of the war for nearly a month, the people in the cave begin to panic, and their hearts were full of worries.

They afraid that their relative will die on the battlefield, they are afraid that the Uzumaki Kingdom will be destroyed, they are afraid that they will become refugees, and even be killed by ninjas.

The civilians of Ninja World is scared to war.

"The war is over

And finally, the good news come, their excitement can't hide anymore, it exploded showing how they are joyful to the good news after long time.
