

Uzumaki 85

Chapter 85 - Ninja and Civilians

"How is the situation?" Din asked the Ninja next to him. "Is there anything unpleasant?"

You must know that this is only the first step.

Let the common people get along with the Uzumaki Shinobi and merge with each other, because when technology finally develop, the balance of power between common people and Ninja is will start to tilted.

And by then, the role of Ninja will become weaker and weaker, if the Ninja do not make any changes, the Ninja Job may disappear in the future.

So when they still have enough prestige, they need to start to get along with each other now so in the end it won't be weird.

Moreover, Xin doesn't want to take purely technological path, he also prepared some path that is new to this world or to old to be usem

He want to blaze a path that belongs to the world he already see and incorporate the path of this world.

For example, the Navy System that he already using, this is the first step and because of well planning the combination of Navy System and Shinobi is perfect.

As for the path of technology, this is only good for people who can use the other path, it's the weakest but also the mose useful path from all the path he planning.

"In the beginning, the civilians feel scared, but after a while, they can get along with each other in peace." The Ninja who served as the secretary next to him said respectfully.

He did not expect that Young Patriarch Xin could actually make the civilians and ninja get along.

Get along with each other in peace, you know this is simply unimaginable in the Shinobi World.

The Ninja is aloof and in control of the life and death of the civilians, and the civilians are afraid of the Ninja, and this is true, they are afraid that they will die for no reason.

Now because of the joint work, the Ninja can actually get along with the civilians in peace, this is hard to believe.

Perhaps the era of peaceful coexistence between civilians and ninja will appear in the hand of Young Master.

Uzumaki Shinobi looked at the ten years old boy in front of him in admiration.

Maybe his Young Master Xin will become a great person in Ninja World, just like the Six Path Immortal who founded the Ninja Sect in the legend bringing peace.

A real peace

.....

Regarding on what he said, Uzumaki Xin nodded, he had already guessed that this would be the case.

Because of the current strength and power, Uzumaki is very obedient, so now is the best time to integrate the class contradictions in the Uzumaki Kingdom.

While thinking, Xin feels weird somehow, the secretary that coming to him is all temporary, but the weird thing is everyone of them is a man, either from CPO or from Uzumaki Shinobi.

It seems he needs to change to a better one, he feels weird having a man as his secretary, he planned to change to a female secretary, they are more pleasing to the eyes and the sweet voice can make his work even more pleasant.

But there were too few female ninja, and basically they were left by the other and working to more delicate job.

He then thought of the CPO Members, but they are too busy to send one or two secretary.

He then thought about Kushina, she is also good in making things but not in doing paper jobs, she is more like doing hardwork than working with papers.

Well nevermind, maybe he can find a better candidate in the future like.

Samui of the Hidden Cloud Village, he is the trusted aid of Third Raikage.

Yugito Nii, Two Tail Jinchuriki, Samui's best friend and own of the hidden guard of Third Raikage.

Temari of the Hidden Sand Village

Uzumaki Karin of the Hidden Grass Village.

Konan of Hidden Rain Village

Shizunr of Hidden Leaf Village

There so many candidate, but almost all of them are still not born or too young and staying at home.
