

Uzumaki 92

Chapter 92 - Join Plan

A true businessman is not giving up anything even if it's a single cent.

And that's what Xin do, for couple of days he try everything to help raise the price of the food he selling.

From four times into whooping ten times the market price, the amount is astonishing, no one in right mind will pay such huge price.

Anyone who hear this will think that the person who want to pay such hefty amount of price is crazy or mentally ill.

But there's actually one, and this is all because of the help of Xin and his new found comrades Mizukage.

Two days ago when Mizukage send a message saying that he want to buy the food and weapon for huge amount of price Xin got an idea.

Why not join the competitor scamming the other one to get the highest price without knowing that he is already getting scam.

This thing only works if the competitor have another competitor who don't want to let other get what he want.

That's why Xin ask Mizukage to come up with simple trick, and that is to make the price of the food inflated.

Xin idea is simple, he asked Mizukage to ack like he want to buy all the food to let the Iwagakure die in hunger.

Of course he did not go and said that to the enemy but he use the spy inside of his own Village to send the message without him telling them the message.

Using various means like late meeting, a suddenly crowdfunding, asking othe clan to donate their money, selling the Jutsu of the village and so on.

He also send some of his loyal retainer to ack a beggars and hungry mobs to show that Kirigakure is having problem feeding their own people.

This small details will tell that Kirigakure is having tight in money, and this also think that Kirigakure not only have problem with food but also with money issue.

And half day later, the spy they send in the lwagakure send a secret messages that the they having meeting to counter and try to hurt the Kirigakure.

The simple plan is to buy everything that Uzumaki Clan sell with huge amount of price, whatever the price they asked they will pay it higher.

And just like that, the food war continue for almost a week.

To prevent the lwagakure from dying in hunger, Xin 'reluctant' send enough food for them to sustain, of course with huge amount of price and delivery fee.

With heavy hearted, Iwa Shinobi Leader thank them and pay huge amount of money to feed his troops.

This small deal last for more than four days before Xin and Mizukage end the food eat with the price of ten time she market price.

Hearing this lwagakure did not even bother to find any alternative solution and ask the Village for money.

Of course the Village did not send money first, they are suspicious at first, who can a simple food worth ten time swhat they consume.

With the Iwa Shinobi Leader's patience he told them everything, but not like the Leader, Tsuchikage and the senior of the village is confused.

How can Kirigakure suddenly have problem with food, even the snow will not give them food problem because every village have their own food storage.

Iwa Shinobi Leader told them what the spy said, he said that Uzumaki Clan raid the Kirigakure last time and burn all the food storage of the Kirigakure.

And not only that, because of suddenly snow fall the Kirigakure did not have time to collect food to fill up their own food storage that's why they are having problem with food.

This reason is passable, but there still a problem, there so many businessman selling food with lower price but why not buy to them?

Iwa Shinobi Leader said that Uzumaki Clan is enar, and because Kirigakure is already have report of people dying in hunger they can only bite their lips and chose the nearest place they can find.

And because the nearest is Uzumaki Clan, and the path around them is the path the merchant use, they know Uzumaki Clan hold the biggest power right now.

They don't want to suddenly get attack by Uzumaki while delivering their own food so to prevent anything from happening they can only closed their eyes and buy the food Uzumaki Clan sell.

With such perfect reasoning, Iwa Shinobi Leader feel he already win a war, the higher ups accept it he plan and send money to buyout the food and let the Kirigakure die in hunger.

A perfect plan but no one noticed the real deal.
