

War God 1151

Chapter 1151: Spare Your Life!

"Great Enemy?"

Du Le and his partner were initially stunned, then greatly shocked.

With a formidable figure like Lin Wudi saying 'great enemy,' what kind of overpowering existence could this be?

Lin Mu ignored the Rune Master's advice against using the memory transmission technique, pressing his fingers on Du Le and Chen Xue's foreheads.

Boom!

Two streams of information flooded into their minds.

Only after a full cup of tea's time did the two recover from the shock.

"Thank you, World Master, for granting us these cultivation techniques!"

Du Le and Chen Xue bowed simultaneously in gratitude.

Chen Xue had a bit of bitterness on his face; he finally understood why Lin Wudi didn't accept his allegiance earlier.

With Lin Wudi's vast knowledge and skills, casually bestowing powerful cultivation techniques could shock the Heavenly Realm.

Such an existence, given his status as just a Five Tribulations Overlord, indeed wasn't qualified to become his follower.

Recognizing Lin Wudi as his master was actually to his own great benefit.

"Quickly familiarize yourselves with the cultivation techniques; the enemy is here!"

With a point of Lin Mu's finger, the speed of the three increased, closing in on Qi Xue.

"Senior, save me!"

Qi Xue was scared to the point of having his courage shattered.

He had never imagined Lin Wudi could be so terrifying.

He could track him down using a divination method.

Even more frightening was his ability to empower Chen Xue and Du Le to possess strength not inferior to a Six-Tribulation Overlord.

This Lin Wudi was indeed as fearsome as legend said!

Boom!

A distant lightning approached, and five figures appeared on the horizon.

Du Le and Chen Xue's expressions changed, finally understanding what Lin Wudi meant by 'great enemy'!

These five were actually Five Tribulations Overlords!

When did the Holy Lands of the Southern Region have so many Five Tribulations Overlords?

"Qi Xue, what are you playing at! Why use a Sound Transmission Talisman to send out a distress signal? Don't you know this breaks the rules of our organization."

Leading the group, a woman's face turned unpleasant as she loudly berated Qi Xue.

Qi Xue hung his head low, speaking solemnly: "The matter of the Gathering Star Stone has been exposed! Moreover, those who came accurately stated the name of Gathering Star Stone, so I had no choice but to flee with it!"

"What?"

The five overlords were simultaneously shocked.

The existence of the Gathering Star Stone was something they were all aware of.

Initially, no one took this unrefinable so-called mystical treasure seriously.

In the end, it was the Seventh Tribulation Overlord within the organization who accidentally uttered that this object was called the Gathering Star Stone.

Their inquiry into the uses of the Gathering Star Stone went unanswered; the Seventh Tribulation Overlord only said that if anyone from the Heavenly Realm knew the name Gathering Star Stone, they should immediately be apprehended.

Over the past hundreds of thousands of years, this matter was nearly forgotten.

Unexpectedly, it suddenly erupted today!

"You are a dignified Five Tribulations Overlord, yet you ran away with your tail between your legs? In the South Region of Divine Continent, is there anyone who can threaten you?"

With icy cold eyes, the leading woman spoke.

She, along with the four other Five Tribulations Overlords beside her, were members of the assassination group lurking in the South Region of Southern Spirit Divine Continent.

Unless it was related to Nine Cauldrons Age Fragment, they would not act easily.

Regardless, Qi Xue broke the rules this time.

Qi Xue quickly explained: "The person who mentioned Gathering Star Stone is Lin Wudi!"

"Lin Wudi?"

The five overlords were all puzzled as they were unaware of Lin Wudi's reputation due to their long seclusion.

Seeing this, Qi Xue urgently recounted Lin Wudi's illustrious legends.

After listening, the five were all horrified.

The leading woman furiously exclaimed: "You fool! Truly deserving of death! Such a formidable enemy, and you dare lead them here!"

The elderly man behind the woman chuckled bitterly: "Don't bother complaining! Lin Wudi is already here!"

Upon hearing the old man's voice, the group simultaneously looked over.

Indeed, Lin Wudi, along with Du Le and Chen Xue, stood in the void, gazing at them from afar.

"Qi Xue, after this matter, you must accept severe punishment!"

The woman sent an unhappy sound transmission reprimand, then swiftly moved through the air toward Lin Mu.

"Greetings, Lin Wudi!" The woman cupped her hands respectfully.

Slaying three Five Tribulations Overlords in a single battle; even she couldn't accomplish that.

A strong individual is naturally deserving of respect.

Lin Mu glanced at the five overlords indifferently, saying: "If he hands over the Gathering Star Stone, I can spare his life."

The woman was momentarily taken aback; she hadn't expected the legendary Lin Wudi to be so straightforward.

The woman's expression subtly shifted, and she chuckled seemingly unintentionally: "So that mystical treasure is called Gathering Star Stone, huh? This is the first time we've heard of it..."

Clang!

At the very moment the woman spoke, a faint sound of a blade emerged from Lin Mu's body.

The humming sound made the five overlords tremble simultaneously.

They all sensed the horrifying energy contained within the blade's hum.

In an instant, all five's expressions changed.

Not only them, but even Qi Xue hiding at the back was startled, looking at Lin Mu in disbelief.

At this moment, the expressions on all six faces were extremely vivid.

There was shock!

There was disbelief!

There was delight!

There was killing intent!

There was resolution!

"Kill!"

Almost in an instant, the ruthless word 'kill' was shouted from the mouths of the five overlords!

Nine Tripod Fragments!

They all sensed the aura of the Nine Tripod Fragments from the blade's hum.

The purpose of their organization was to gather Nine Tripod Fragments.

As long as there was information about the Nine Tripod Fragments, they could receive resources from the organization, advancing to Eight Tribulations!

If they could obtain the Nine Tripod Fragments, they might even get a chance to elevate to the legendary Ninth Tribulation!

In their path of cultivation, they had only seen one Nine Tripod Fragment within the organization.

Now, with the legendary Nine Tripod Fragments before them, how could they pass this up!

Even if the person before them was the legendary Lin Wudi, who once killed three Five Tribulations Overlords with three strikes, they were willing to take the risk!

If they could seize the Nine Tripod Fragments, they would be close to the elusive Immortal Path.

Such an opportunity was worth risking their lives for!

Du Le and Chen Xue were also secretly astonished.

If not for Lin Wudi's warning, they would have been unprepared.

Who could have anticipated that the overlords who were courteous just moments ago would mercilessly attack them in the next?

"Tian Xue!"

"Destruction!"

Du Le and Chen Xue struck simultaneously.

Within the flickering Thunderbolt, the Tribulation Thunder Thought took form!

Before Chen Xue were six thousand tribulation thoughts from Five Tribulations, forming a Snowflake Array Pattern.

Before Du Le was a cluster of illusory flames made of all his five thousand Five Tribulations thoughts.

This was the attack technique Lin Mu imparted based on their own cultivation techniques.

"Impossible!"

"How is this possible!"

"This isn't the cultivation technique of the Holy Land of Flying Snow!"

Including Qi Xue, the six overlords were astonished.

They were awed by the cultivation techniques Du Le and Chen Xue displayed, sending shivers to their very souls.

In the Heavenly Realm, the techniques of the Heavenly Realm Guard and the Enforcement Team were already the strongest, but they only consisted of four thousand thoughts!

The special attack methods inherited within their organization barely utilized five thousand tribulation thoughts.

Now, Chen Xue had formed an array with six thousand tribulation thoughts!

Even Du Le had five thousand tribulation thoughts!

How could the two of them have acquired such a secret technique!

Among the six, Qi Xue was the most shocked.

Having infiltrated the Holy Land of Flying Snow for years, he had no idea Chen Xue possessed such methods.

If only he had known, he wouldn't have betrayed his sect to join the organization!

Sadly, it's too late for regrets now!

Qi Xue could only grit his teeth and use the Tribulation Thought Blade against Lin Wudi's trio!

Meanwhile, the Nine Cauldrons and Thirteen Stars appeared triumphantly.

Clang!

The dragon-like hum of the blade resonated throughout the world.

Six Nine Tripod Fragments emitted brilliant light, channeling their energy into the blade.

"Ah!"

"How is this possible!"

"Six Nine Tripod Fragments!"

Qi Xue and the six were wide-eyed in disbelief.

Chapter 1152: Try to Take My Blade!

They have been part of the organization for years, yet they haven't obtained any clues about the Nine-Star Fragments.

The entire organization, according to rumors, won news of only one Nine Tripod Fragment long ago.

All these years have passed; if not for the continuous distribution of resources by the organization, they would have doubted its purpose.

They even felt that there weren't any Nine Tripod Fragments in the Heavenly Realm at all.

Unexpectedly, today six Nine Tripod Fragments appeared at once!

In an instant, the souls of the six began to burn!

They couldn't imagine what kind of resources they'd gain after acquiring these six fragments!

Progressing to the Eighth Tribulation, even the legendary Ninth Tribulation, would not be a problem!

"Hahaha! Heaven helps me!"

"I, Qi Xue, am indeed the Child of Destiny!"

"Kill!"

The six overlords instantly had red eyes, each taking a desperate stance and unleashing Tribulation Thought Blades.

For the six Nine Tripod Fragments, it's worth it even if they perish!

Du Le and Chen Xue were puzzled, not understanding why these six people suddenly seemed mad.

The reputation of Nine Cauldrons and Thirteen Stars is well-known.

This blade once killed nearly ten overlords!

Facing such a weapon, they not only had no fear but even seemed to see it as a treasure!

Are these people crazy!

"Oh? So they're in the same organization as Gu Luo Saint Lord?"

Lin Mu glanced at the expressions of the six and guessed something.

This organization truly is everywhere.

In just a few days, encounters back-to-back!

It seems the people behind this organization are indeed relentless for the Nine Tripod Fragments!

If so, then let's eliminate these six people to see if we can draw out the people behind them.

"Try taking a shot from me!"

"Nine Cauldrons Technique, First Form!"

"Heaven and Earth Sunder!"

The six Nine Tripod Fragments shone simultaneously, a beam of blade light extending across the heavens, slashing towards Qi Xue six.

The terrifying pressure suffocated all the overlords present!

Du Le and Chen Xue couldn't conceal the shock in their eyes.

Is this the blade Lin Wudi used to kill the Overlord Level of the Five Tribulations?

Indeed terrifying!

As this blade was unleashed, they could feel the tremors of heaven and earth shattering.

Their Five Tribulations Thunder Thought seemed to tremble beneath the blade's edge.

Even for the two of them, facing the blade edge, what would happen to Qi Xue six can be imagined.

The terrifying blade light seemed like an axe opening the sky, capable of shattering the earth.

In the moment when the blade light was revealed, they seemed to hear a mournful cry of heaven and earth shattering deep within their souls!

Rumbling!

The unmatched blade light slashed at the Tribulation Thought Blades of the six overlords.

These six people, from the mysterious organization, each could control over four thousand Tribulation Thunder Thoughts!

Six people, that's more than twenty thousand Tribulation Thunder Thoughts!

Such terrifying power could destroy the Earth Blessed Land in an instant.

The power within can be imagined.

However, in facing the Heaven and Earth Sunder, these Five Tribulation Thunder Thoughts appeared incredibly fragile!

Crack!

Crack!

The sound of Thunder Thoughts shattering echoed in everyone's ears.

One blade can sunder heaven and earth!

One blade can shatter thoughts!

The Five Tribulations' Overlord Level thoughts contained boundless power within.

Yet under this blade, they were shattered.

The crackling sound, like the final lamentation of extinction, caused the faces of the six overlords to change drastically.

"No!"

Qi Xue was the first to bear the brunt, clutching his head in pain.

With Thunder Thoughts shattered, his Sea of Consciousness was in turmoil.

"Die!"

For the Nine Tripod Fragments, Qi Xue, seemingly hypnotized, was fearless.

Screaming, he unleashed nearly five thousand additional Thunder Thoughts!

Rumble!

Lin Mu's Heaven and Earth Sunder blade shattered over ten thousand Thunder Thoughts before gradually losing power!

The strength of these six overlords clearly surpasses that of Xu Hun's group!

The Tribulation Thought Blades they used were far more potent than those of the Heavenly Realm Guard or even the Enforcement Team!

Meanwhile, the attacks from Du Le and Chen Xue arrived.

Buzz!

A buzzing sounded as Chen Xue's Snowflake Array Pattern suddenly enveloped the scene, freezing everything with its ice power in an instant.

The air, Spiritual Energy, Divine Sense!

Everything around was frozen.

Even the Five Tribulations Thunder Thoughts of the six main overlords were frozen for a moment.

"What technique is this, able to utilize Dao Methods!"

"Impossible, Tribulation Thought Blades cannot contain Dao Methods; these are the laws of heaven and earth!"

"Qi Xue, does the Holy Land of Flying Snow have such a method?"

All the overlords were bewildered.

Qi Xue widened his eyes in disbelief.

The combat power and new Cultivation Technique displayed by Chen Xue shocked him time and again.

He no longer knew how many times he'd regretted.

If only he'd known the Holy Land of Flying Snow had such powerful techniques, he wouldn't have betrayed...

Boom!

A gray flame arose on the Tribulation Thought Blade of the six overlords.

The once indestructible Tribulation Thought Blade began to show signs of cracking.

Each of the six felt the power of Desolation and destruction emanating from the blade.

This was once again an attack method fusing Dao with Thunder Thoughts!

Qi Xue and the others suddenly realized that the one possessing this strange attack method wasn't Chen Xue and Du Le, but Lin Wudi!

Only under Lin Wudi's guidance did they possess such terrifying attack methods!

This person must die!

All six overlords spat out a mouthful of essence blood.

The Thunder Thoughts were cloaked in a layer of blood.

Utilizing the power of essence blood, the six Tribulation Thought Blades escaped the suppression of Chen Xue's ice power.

However, at this moment, Lin Wudi's second blade arrived.

Second Form of the Nine Cauldrons Technique.

One blade, Cleaves Through Time and Space!

The decaying power of time spread over tens of miles around.

All six overlords felt the power of time and space.

"Not good! Space-time power!"

"Quickly dodge!"

The six wanted to evade but were already too late.

The blade of time was swift.

With one blade, there's nowhere to hide!

Under one blade, time and space froze, everything lost its ability to move.

Everyone appeared as if frozen in amber.

Using Thunder Thoughts, driving the power of the Nine Tripod Fragments.

Lin Mu unleashed a blade unbound by this time and space.

Bam!

A loud crash, like shattering glass, the frozen space-time was broken. Along with it, the Tribulation Thought Blade of the six main overlords.

Under the erosion of Chen Xue's ice power and Du Le's desolation force, the six's Tribulation Thought Blades were already fragile.

This time, it shattered instantly!

The six blades could not withstand Lin Mu's blade of time for even a moment.

All six showed horror, wanting to dodge.

But their speed couldn't surpass time.

Buzz!

A streak of the blade of time swept past one overlord's chest.

The overlord's black hair turned white, and decay emanated.

In less than a single breath, his body turned to ash.

All his lifespan was erased with one blade!

The Five Decays of Heaven and Man exploded instantly.

He didn't even have time to scream before dying from the Five Decays of Heaven and Man!

As the cultivation level increased, Lin Mu's control over the blade of time erased more lifespan.

Buzz!

The blade light continued!

Two!

Three!

Six!

All six overlords had their chests cut by the blade of time.

The other five didn't die, but all lost most of their lifespans, becoming exceedingly old.

Their defense measures were useless before the blade of time.

Their cultivation level, their Thunder Thoughts, were equally vulnerable.

"Ahhhh..."

The remaining five Overlord Levels of the Five Tribulations held their heads, wailing painfully.

Chapter 1153: Heaven's Mandate Organization

The remaining five overlords only heard rumors about Lin Wudi from Qi Xue.

Themselves, they didn't feel it deeply.

After all, the idea that a Second Thunder Tribulation could kill a Five Tribulations Overlord seemed unbelievable.

They thought there must be some trick to it.

But now, no one thinks that way anymore.

With just two swings, killed one and crippled five!

This Lin Wudi is even more terrifying than the legends!

Continuously shattering nearly ten thousand Five Tribulations Thoughts, their Sea of Consciousness was in turmoil, with explosions everywhere.

Making it impossible for them to control their bodies and command their Thunder Tribulation Thoughts!

Du Le and Chen Xue were filled with shock!

This was the power with which Lin Wudi killed the Five Tribulations Overlord!

Truly terrifying!

Two swings, killed one, disabled the other five!

Such strength is not even weaker than an average Six Tribulation Overlord!

And Lin Wudi is merely a Second Thunder Tribulation.

"The art of nurturing weapons, is it really this strong?"

The two unconsciously looked at the hovering legendary Nine Cauldrons and Thirteen Stars above Lin Wudi!

"Hmm?"

They suddenly discovered that the Nine Cauldrons and Thirteen Stars was actually covered with cracks, almost breaking apart.

This treasure that could kill a Five Tribulations Overlord was about to shatter?

The two could hardly believe it!

"What are you staring at, kill them!"

They heard Lin Mu's gentle voice in their ears!

Du Le and Chen Xue snapped out of their shock.

"Kill!"

They roared, commanding their Thunder Tribulation Thoughts, and charged forward.

Buzz!

The five Thunder Tribulations Overlords were covered in a layer of white ice.

Boom!

Flames rose, and the bodies of the five overlords began to perish.

Crack!

Crack!

The protective Thunder Tribulation Thoughts shattered under their continuous assault!

Qi Xue and the other four just started recovering from the explosion in their Sea of Consciousness, only for another explosion to occur.

The protective Thunder Tribulation Thoughts were shattered, damaging the Sea of Consciousness of the five once more!

"Damn it!"

"Chen Xue, I'm going to kill you!"

"Not good!"

The brains of the five overlords were somewhat chaotic, realizing things were going badly.

They were now trapped in their Sea of Consciousness without any capability to retaliate.

If Lin Wudi struck again now, they would surely die!

Lin Mu did not swing his blade but wielded the Nine Cauldrons and Thirteen Stars, using a Martial Way cultivation technique from the secular world, he swung it down.

Thud!

A Five Tribulations Overlord's head was split in two, and his Sea of Consciousness shattered instantly.

Before the Divine Soul could escape, it was obliterated by Du Le's Desolation Force!

Witnessing this, Du Le and Chen Xue were astonished, could someone truly be killed like this!

This Thunder Tribulation Overlord probably died the most undignified death of any Thunder Tribulation Overlord.

Being killed by a magical treasure!

"No!"

The leading woman, stronger than others, forcibly regained her consciousness, commanding her Thunder Tribulation Thoughts, attempting to escape.

Lin Mu softly hummed and pointed a finger.

Three thousand Second-stage Tribulation Thoughts formed an enraged dragon, roaring as it charged toward the woman.

Boom!

The three thousand Second-stage Tribulation Thoughts exploded directly.

The terrifying blast shockwave was even more dreadful than when the six overlords were in action earlier!

Everything within a radius of tens of miles around was destroyed once again!

Du Le and Chen Xue were once again left with their mouths agape in shock.

Self-Detonating Thunder Calamity Thoughts?

Is there an attack method like this?

How is this different from suicide?

The two simultaneously looked at Lin Wudi.

Only to find that apart from a slightly pale face, Lin Wudi had not changed much!

In the next moment, the three thousand Second-stage Tribulation Thoughts once again took the form of an enraged dragon.

"This... Just how many times has Lin Wudi been through the Thunder Tribulation? Are his thoughts endless?"

"Unbelievable!"

Du Le and Chen Xue were merely shocked, but the female overlord was nearly collapsing.

She was barely holding on after the explosion in her Sea of Consciousness, recovering just a bit of awareness.

Then, consecutive explosions made it impossible for her to control her Thunder Tribulation Thoughts.

Crack!

Du Le's Desolation Force struck again.

The Thunder Tribulation Thought the female overlord used to escape was shattered.

"Ah..."

The female overlord let out a heartrending scream, falling into chaos once more.

Almost at the instant she lost consciousness again, Lin Mu's blade arrived.

Thud!

The female overlord's Sea of Consciousness was directly penetrated.

Another Five Tribulations Overlord dying in humiliation!

Crack!

This time, Chen Xue used the Ice Power to freeze and annihilate the female overlord's Divine Soul!

Chen Xue knew very well that he and Du Le killing the Thunder Tribulation Overlord was their pledge of allegiance.

There is no love without reason in this world.

Lin Wudi imparted so many methods to them, wasn't he afraid they'd leak them?

Killing the Thunder Tribulation Overlord was Lin Wudi's way of maintaining balance!

Hereafter, if they dared to reveal Lin Wudi's secrets, Lin Wudi didn't even have to act, just spreading the news of their feat today would make the Heavenly Realm Guard make their lives a living hell!

But, Chen Xue didn't dare not kill!

If he didn't declare allegiance now, he would be the one to die later!

Du Le understood this point clearly, which was why he didn't hesitate to kill first!

Thud!

Crack!

The remaining overlords didn't even get a chance to revive from chaos, and died in confusion!

Only Qi Xue survived by chance.

Slap!

Lin Mu heavily patted Qi Xue's face with the blade of the Nine Cauldrons and Thirteen Stars.

Qi Xue came back to his senses from chaos, only to see the five corpses beside him!

Dead!

All the helpers he had hired were dead!

Six against three, yet they lost!

He had seen with his own eyes the others in action, having once killed ten Five Tribulations Overlords on the Heavenly Battlefield!

These people were elite among elites, each a Proud Son of Heaven!

Yet, in front of Lin Wudi, they couldn't even mount a counterattack.

Two swings, and everyone was dead!

"Lin Wudi, don't kill me, here's the Gathering Star Stone, I'll return it to you!"

Qi Xue regretted immeasurably now.

If he had known it would be like this, he would have given up the Gathering Star Stone earlier and reported back to the organization only after Lin Wudi left.

But now, not only did he lose the Gathering Star Stone, but his life also was about to end!

Lin Mu took the Gathering Star Stone, glanced at it, and stored it in his Space Ring.

"Tell me, what is your organization called..."

Lin Mu's gaze was indifferent.

The Nine Cauldrons and Thirteen Stars hovered over Qi Xue's head.

"What organization..."

Before Qi Xue could finish his sentence, the Nine Cauldrons and Thirteen Stars, under Lin Mu's control, pierced his skull.

He could resist, but he didn't dare!

Regardless of the terrifying power of the Nine Cauldrons and Thirteen Stars, there were still two Five Tribulations Overlords eyeing him!

Qi Xue had no doubt that as long as Lin Wudi gave the word, Chen Xue would kill him without hesitation!

Among the three, Chen Xue likely hated him, the traitor of the Holy Lands, the most.

"Heaven's Mandate! Our organization is called the Heaven's Mandate Organization, but I'm just a low-level member, I don't know much!"

Facing a stronger force, Qi Xue had to confess.

Moreover, he had great confidence in the Heaven's Mandate Organization.

Within the organization, Eight Tribulations abound.

If Lin Wudi dared to confront them, he would surely die.

Giving away this information was a way to lure Lin Wudi to his death.

A way to avenge himself indirectly.

"Why does the Heaven's Mandate Organization collect Nine Tripod Fragments?"

Lin Mu asked this by voice transmission.

Qi Xue's expression shifted, just as he was about to speak.

Thud!

The Nine Cauldrons and Thirteen Stars pierced another inch deep!

Qi Xue's mouth twitched, nearly losing control, almost commanding his Thunder Tribulation Thought to attack Lin Wudi.

Chapter 1154: Forbidden Sand Sea

At the moment Qi Xue wanted to make a move, he saw the faint smile at the corner of Lin Wudi's mouth.

He shivered involuntarily.

To have achieved the status of Five Tribulations Overlord, Qi Xue had gone through countless hardships.

Now, with just one thought from Lin Wudi, everything he possessed would be reduced to ashes in an instant.

This was something he could not accept.

"Lin Wudi, do I have a chance to live?"

Qi Xue abandoned the idea of counterattacking and spoke seriously.

Lin Mu didn't care about Qi Xue's change in attitude and replied indifferently, "That depends on how much you know."

Qi Xue was silent for a while before speaking, "In two months, there will be a Six-Tribulation practitioner leading an assassination squad to the Southern Spirit Divine Continent to hunt you down!"

"Oh?"

Lin Mu showed a bit of interest.

Seeing that his words had an effect, Qi Xue quickly continued, "It's Gu Luo Saint Lord. He sold you out to the organization. The organization ordered us to cooperate with the assassination squad's actions! That's how I got the information."

This answer somewhat surprised Lin Mu.

When he was in Gu Yuan Ancient Land, he hadn't revealed the Nine Cauldrons and Thirteen Stars. Why would Gu Luo Saint Lord betray him?

Why would Heaven's Mandate Organization want to hunt him down?

"It seems there's an issue with Ancestor Tianyuan's corpse. Heaven's Mandate Organization actually has the capability to detect the Nine Tripod Fragments' power."

Lin Mu held Heaven's Mandate Organization in higher regard due to their abilities.

This organization very likely wasn't established by people from the Heavenly Realm.

Knowing the name of Gathering Star Stone and able to detect the energy of Nine Tripod Fragments, this organization likely originates from the Immortal Realm!

"I wonder if this information is enough to spare my life?"

Qi Xue cautiously probed.

An organization that was obscure and almost devoid of any real power clearly wasn't worth dying for.

"Not enough!"

Lin Mu's tone was indifferent.

It's merely an assassination squad. After obtaining the Gathering Star Stone, the Nine Cauldrons and Thirteen Stars can be used hundreds of times, even to kill a Six-Tribulation practitioner!

Qi Xue was stunned, and rage surged as he felt Lin Wudi was toying with him.

However, he quickly thought of the Nine Cauldrons and Thirteen Stars lodged in his own head!

This blade might even be capable of killing a Six-Tribulation practitioner!

The assassination squad might not necessarily be able to kill Lin Wudi!

Suppressing his anger, Qi Xue's mind raced as he tried to think of life-saving information.

After the incense had burnt down, Qi Xue suddenly had a flash of insight and remembered something.

"Lin... Lord, there is something I don't know if it can help you. A long time ago, Heaven's Mandate Organization got hold of a message concerning the Nine Tripod Fragments! The message is absolutely true, but for some reason, they never found the Nine Tripod Fragments..."

What Qi Xue was talking about was the time when that lucky Tribulation-Crossing Ancestor obtained a clue about the Nine Tripod Fragments and ascended to the Eighth Tribulation.

This message was used by Heaven's Mandate Organization to win people's hearts.

But everyone in the organization knew the message was absolutely authentic.

Because back then, many members within the organization had witnessed that Eighth Tribulation Overlord accepting resources.

"Do you know the location of the Nine Tripod Fragments mentioned in the message?"

Lin Mu was taken aback, surprised by the unexpected delight.

"In the Forbidden Sand Sea of the Southern Spirit Divine Continent..."

Qi Xue dared not hide the truth.

Besides, there was no need to hide it.

From the time the message got out, a million years had passed!

That place had long ceased to be a secret, and any member within the organization was aware of it.

Many people even went to try their luck, hoping to find the Nine Tripod Fragments.

If this outdated information could save his life, it would be a win regardless.

Lin Mu didn't continue the conversation, instead asking Du Le and Chen Xue beside him, "Do you know about the Forbidden Sand Sea?"

"You want to go to the Forbidden Sand Sea?"

"Forbidden Sand Sea?"

Both Du Le and Chen Xue suddenly changed colors.

Seeing Lin Mu's confusion, Du Le quickly explained, "The Forbidden Sand Sea is a forbidden zone in the Southern Spirit Divine Continent, where countless Tribulation-Crossing Ancestors have fallen! Even Overlord-level practitioners fall every few decades! Over the last tens of thousands of years, very few practitioners have dared enter the Forbidden Sand Sea."

Lin Mu pondered and asked, "Since it's so dangerous, yet people still go, there must be something special about it?"

"Within the Forbidden Sand Sea, there are Sand Sea Crystals. These crystals can refine Tribulation Thunder Thoughts and enhance one's aptitude!"

This explanation was provided by Chen Xue.

The Forbidden Sand Sea holds a very special place in the Heavenly Realm.

It's the only place in the Heavenly Realm where one can improve their aptitude.

An ordinary Tribulation-Crossing Ancestor with six or seven hundred Tribulation Thunder Thoughts would, upon obtaining a Sand Sea Crystal, be able to produce several hundred more Tribulation Thunder Thoughts.

Some even improved their aptitude from ordinary to Banished Immortal Aptitude using Sand Sea Crystals!

It's imaginable how alluring the Forbidden Sand Sea is to Tribulation-Crossing Ancestors.

But the allure is immense; the danger is equally immense.

The Forbidden Sand Sea is full of Ghost Specters.

Tribulation-Crossing Ancestors who died in the Sand Sea linger on as Ghost Charms tied to the Ghost Specters.

These Ghost Charms, once they kill a hundred practitioners of the same realm, can reverse Yin Yang and resurrect, making them exceedingly frenzied.

Initially, when Ghost Charms were few, entering the Forbidden Sand Sea wasn't that perilous.

The Forbidden Sand Sea had even been considered a treasure land in the Heavenly Realm.

However, as more Tribulation-Crossing Ancestors perished in the Sand Sea, the level of danger increased exponentially.

As Du Le said, in the last tens of thousands of years, almost no one dares to enter the Forbidden Sand Sea.

Lin Mu nodded in understanding, but stayed silent, having already decided to visit the Forbidden Sand Sea.

If he could obtain a Nine Tripod Fragment, along with the Nine Cauldrons and Thirteen Stars, he could even kill the Six-Tribulation Overlord!

He wouldn't miss this kind of opportunity.

Qi Xue, seeing Lin Mu's silence, grew extremely anxious.

Afraid Lin Mu would kill him out of dissatisfaction.

"Lord Chen Xue, he's yours."

Lin Mu flew away.

Qi Xue was first stunned, then angrily roared, "Lin Wudi, you're going back on your word! You'll face dire consequences for such a breach!"

He felt incredibly furious.

Lin Mu had already agreed to trade with him and spare his life, yet now he's sentencing him to die.

Noble Lin Wudi, to be so despicable!

Beside him, Chen Xue laughed and said, "Qi Xue, I think you're foolish! Lord Lin isn't going to kill you; he's just leaving you to me!"

Despite her smile, Lord Chen Xue's tone grew colder and colder.

"Lord, I know my mistakes. I promise I will..."

"Shut up!"

Qi Xue tried to plead for mercy but was directly interrupted by Lord Chen Xue.

Lord Chen Xue was filled with rage, even the muscles on her face contorted aggressively.

"Qi Xue! We entered the sect together, as senior brother and sister for hundreds of thousands of years! But what you've done has left me cold!"

What Lord Chen Xue resented the most was Qi Xue running away with the Gathering Star Stone!

If it had incited Lin Wudi's fury, the Holy Land of Flying Snow would no longer exist.

Everyone within the Holy Land would die as a consequence of Qi Xue's betrayal!

At that time, Qi Xue taking the Gathering Star Stone was to leave everyone in Flying Snow Holy Land to die!

Luckily, Lin Wudi wasn't as ruthless as the rumors suggest and didn't kill.

But Qi Xue's actions obliterated whatever brotherly bond Lord Chen Xue held.

"Die!"

Lord Chen Xue released Tribulation Thunder Thoughts to form a Snowflake Array Pattern, an icy aura instantly enveloping Qi Xue.

"No..."

Qi Xue released Tribulation Thunder Thoughts trying to resist, but his head was struck hard by Du Le's Tribulation Thunder Thought.

Crack!

Qi Xue was frozen by Lord Chen Xue's icy force, then shattered with a punch.

Chapter 1155: Seven Tribulations Talisman

Southern Spirit Divine Continent, Dark Moon Holy Land.

In the Middle Thousand Worlds, a Five Tribulations Overlord sat cross-legged, nurturing the Tribulation Thunder Thought.

This person is Qing Dang, the Saint Master of the Dark Moon Holy Land, who is somewhat renowned among the surrounding Holy Lands.

She has been in seclusion here for five thousand years.

In just a few thousand more years, she can go to the Heavenly Battlefield to undergo the Six Tribulations.

Buzz!

A jade talisman at her waist suddenly vibrated.

Qing Dang Saint Master's expression slightly changed.

This jade talisman is a Sound Transmission Talisman from Heaven's Mandate Organization, almost never sounding.

Since she acquired the Sound Transmission Talisman, it has only sounded twice.

The first time, it called on her to cooperate in the assassination of a traitor within the organization.

The second time, she took office as Saint Master, and Heaven's Mandate Organization delivered top-tier Cultivation Techniques for her.

It is precisely with this Cultivation Technique that she reached the pinnacle of the Five Tribulations in a short time and is now about to reach the Six Tribulations realm.

Today, this Sound Transmission Talisman rang for the third time.

Before entering seclusion, she reported her advancement matter to Heaven's Mandate Organization.

At such a crucial time, the Heaven's Mandate Organization, despite affecting her advancement, assigned her a mission, suggesting it's no small matter.

"Proceed to Holy Land of Flying Snow and cooperate in the assassination of Lin Wudi from Earth Blessed Land! Time is of the essence. On mission success, reward: one share of Seventh Tribulation Resources, two Cultivation Techniques!"

With one simple sentence, Qing Dang Saint Master's eyes lit up.

Setting aside the two Cultivation Techniques, just the Seventh Tribulation Resources alone are enough to tempt her.

Without Heaven's Mandate Organization's aid, she fears she would have no hope of advancing to the Seventh Tribulation in her lifetime.

Don't underestimate the gap between Six Tribulations and Seven Tribulations.

With Six Tribulations, one can only guard the Upper Continent; with Seven Tribulations, one can guard the Divine Continent!

The difference is definitely not as simple as just one Tribulation!

How could she miss such an opportunity?

Boom!

A flash of lightning.

Qing Dang appeared within the grand hall of the Dark Moon Holy Land.

"Where is Hongdang Chief Seat!"

Qing Dang Saint Master's voice echoed throughout the Holy Land.

Moments later, a figure appeared, conspicuously another Five Tribulations Overlord.

"Saint Master, why have you come out of seclusion!"

Hongdang Chief Seat was quite confused.

Qing Dang Saint Master was on the verge of breakthrough, at the crucial moment of advancing to Six Tribulations, yet here she was, emerging from seclusion.

Could it be some major event she wasn't aware of?

"Do you know of Lin Wudi from Earth Blessed Land?"

Qing Dang pretended to unintentionally ask without revealing Heaven's Mandate Organization.

Hongdang Chief Seat paused, then in astonishment said, "Saint Master, you were in seclusion. How did you learn of Lin Wudi?"

Qing Dang Saint Master's gaze slightly shifted, calmly saying, "Do not concern yourself with the matter; I only ask if you are aware of this person."

Though they were of equal rank, Qing Dang was, after all, the Saint Master, so Hongdang couldn't inquire further and relayed the intel on Lin Wudi.

Lin Mu's divine battle record has spread throughout the Southern Spirit Divine Continent.

Now no one is unaware of Lin Wudi's terrifying power of defying suppression, overcoming Five Tribulations with his Second Thunder Tribulation, and killing four overlords with just three strikes.

"Defying suppression with Second Thunder Tribulation against Five Tribulations and still slaying four overlords?"

Qing Dang Saint Master somewhat understood why Heaven's Mandate Organization wanted this child dead.

Such talent, should it grow, might become the next Daoist Master Yellow Springs.

However, Heaven's Mandate Organization usually only cares about Nine Tripod Fragments, ignoring everything else.

This time, they shouldn't be breaking the rule.

Could it be that Lin Wudi holds clues to the Nine Tripod Fragments?

Thinking this, Qing Dang Saint Master's heart ignited.

If she could access clues to the Nine Tripod Fragments, the reward wouldn't be Seventh Tribulation resources but Eighth Tribulation!

Heaven's Mandate Organization's rewards for Nine Tripod Fragments clues would never disappoint!

"Was Lin Wudi fighting those four Five Tribulations overlords alone?"

Qing Dang Saint Master added caution.

If Lin Wudi possessed such terrifying combat prowess, she had to consider whether to stake her life for a chance.

"That's not it. When Lin Wudi killed the five Five Tribulations overlords, he had a Five Tribulations practitioner named Hu Sanniang assisting him. Although Lin Wudi's magical treasure is immensely powerful, he, after all, is only Second Thunder Tribulation, and cannot match the speed of Five Tribulations. Someone had to assist from the side, preventing the Five Tribulation overlords from fleeing."

Hongdang Chief Seat also took great interest in that battle.

Indeed, all the overlords in Southern Spirit Divine Continent were paying attention to this matter.

A Second Thunder Tribulation defying suppression against an overlord; such a record would certainly enter the annals of history.

Every detail of that battle would be scrutinized.

Without Hu Sanniang back then, Lin Wudi might not have had the chance to kill Xu Hun and the others.

Not to mention slaying the Demon Race member!

As a Five Tribulations Overlord, Hongdang had once imagined a battle with Lin Wudi in her mind.

The conclusion was, one must die, two can fight.

If Lin Wudi had no helper, three united could kill him!

Qing Dang Saint Master listened to the analysis, her heart assured.

"I want to capture Lin Wudi and seize the Defying Heavenly Treasure Nine Cauldrons and Thirteen Stars from him. What do you think?"

Qing Dang Saint Master directly expressed her intention.

Hongdang Chief Seat paused, surprisedly looking at Qing Dang Saint Master.

She didn't expect Qing Dang to come out of seclusion for Lin Wudi's magical treasure.

"This..."

Hongdang Chief Seat's expression moved.

After the battle at Qu Fang Holy Land, many overlords had analyzed the magical treasure Lin Wudi held.

Even when activated by Second Thunder Tribulation strength, it could slay a Five Tribulations Overlord.

If a Five Tribulations Overlord activated it, it might kill the Sixth Tribulation or even the Seventh Tribulation!

If such a secret treasure were obtained, the Dark Moon Holy Land would surely become a top-tier Holy Land in Southern Spirit Divine Continent!

"Don't worry, I will invite close friends to join us!"

Qing Dang Saint Master casually said.

It wasn't actually her close friends, but members from Heaven's Mandate Organization.

She herself only had a Five Tribulations cultivation level; Heaven's Mandate Organization couldn't possibly send her to die alone; there would definitely be other Tribulation Thunder Overlords to cooperate.

Also, Qing Dang Saint Master's goal wasn't Nine Cauldrons and Thirteen Stars, but rather the secret of the Nine Tripod Fragments that Lin Wudi held...

Wait!

"Nine Cauldrons and Thirteen Stars, Nine Tripod Fragments... Could Lin Wudi's magical treasure be related to Nine Tripod Fragments? This name might not be a coincidence! It's even possible that Nine Cauldrons and Thirteen Stars are forged using Nine Tripod Fragments!"

Qing Dang Saint Master felt her heartbeat accelerating.

This might be Lin Wudi's biggest oversight.

Lin Wudi might have thought no one in the Heavenly Realm knew the name Nine Cauldrons, which is why he openly named it Nine Cauldrons and Thirteen Stars!

If the Nine Cauldrons and Thirteen Stars really contain Nine Tripod Fragments, then...

Qing Dang Saint Master's entire body trembled, unable to control her emotions.

Just the clue to Nine Tripod Fragments alone could earn her Eighth Tribulation resources.

If she offered up the Nine Tripod Fragments, wouldn't she gain the opportunity to advance to the legendary Ninth Tribulation!

"Hongdang Chief Seat, this matter is immensely vital for Dark Moon Holy Land and can't afford any losses! I hope you will follow me!"

Qing Dang Saint Master was impatient, not wanting to wait another moment.

If others in the organization seized the opportunity first, the loss would be immeasurable.

Hongdang was slightly surprised, didn't expect Qing Dang Saint Master would be so relentless.

Bear in mind, Lin Wudi has killed nearly ten Five Tribulations Overlords!

To forcibly seize a treasure from such a defying existence, must be a life-and-death gamble!

"Hongdang, look at this!"

Qing Dang Saint Master flipped her palm, revealing a talisman glowing with a bluish hue.

"Seven Tribulations Talisman!"

Hongdang was greatly astonished.

Chapter 1156: Heaven's Laws Cannot Be Taken, Earth's Laws Cannot Be Spoken!

The Seven Tribulations Talisman can unleash a strike comparable to that of the Seven Tribulations.

This kind of talisman is extremely rare in the Heavenly Realm.

Because within the talisman is sealed a genuine Tribulation Thunder Thought of the Seven Tribulations!

If an ordinary overlord held onto this, they would absolutely tear apart the talisman and refine the Thunder Thought within.

Qing Dang Saint Master holding such an item shocked Hongdang greatly.

Because Dark Moon Holy Land has never had an existence of a Seven Tribulations Overlord in its history!

Where did she acquire this talisman from?

"I am determined to get the Nine Cauldrons and Thirteen Stars in Lin Wudi's hand!"

Qing Dang Saint Master was full of confidence, and a plan was already forming in her mind.

Hongdang Chief Seat said no more.

If they manage to obtain the treasure in Lin Wudi's hand, it would be changing fate for Dark Moon Holy Land.

"Let's go!"

Within Dark Moon Holy Land, two bolts of lightning exploded.

...

Blackflame Cliff!

Located within the Hundred Thousand Mountain Range of the Southern Spirit Divine Continent, its terrain is perilous.

Many dangerous areas are contained within, where even a Second or Third Tribulation Ancestor could encounter danger.

Besides being a danger zone, it is also the headquarters of the Black List in the Southern Spirit Divine Continent.

Boom!

Within a cave in Blackflame Cliff.

Lights flickered as black light flowed from the eyes of a giant statue.

Boom boom boom!

One sound after another resounded, and gleams of light shone forth.

The thirteen statues within the cave all lit up.

These thirteen statues represented the supreme thirteen leaders of the Black List in the Southern Spirit Divine Continent.

Each one possessed a Six Tribulation Cultivation Level.

As for the Seven Tribulations, at such a realm within the Heavenly Realm, one would be an overlord, and even those originally from the Black List could wash clean their slate.

Hence, the most robust within the Black List is the Six Tribulations Overlord.

"Have you heard about Lin Wudi yet!"

"Hehehe, Fei Tuo, are you joking? Is there anyone in the Southern Spirit Divine Continent who hasn't heard of Lin Wudi's name?"

"Speak, Fei Tuo, what matters have you gathered us for?"

"I will be heading to the Heavenly Battlefield in two months, Fei Tuo, I might not be able to partake in your matters."

"Alright, quiet everyone!"

With Fei Tuo speaking out, everyone quieted down.

Though all were almost at the same realm, Fei Tuo was extraordinarily talented, elevating to the Six Tribulations with an exiled immortal's grace, making him the strongest among the thirteen leaders of the Black List.

Fei Tuo was quite content with this outcome.

"I want to capture Lin Wudi and wish for your assistance."

Fei Tuo stated his intentions.

The cave remained silent for a while.

"Fei Tuo, have you gone mad? Lin Wudi is a Great Fate Bearer! We, the guys on the Black List, are already short on luck, mixing with such a monster definitely doesn't benefit us!"

"I disagree too!"

"Lin Wudi is clearly the next Daoist Master Yellow Springs, I haven't lived long enough yet."

"Fei Tuo, are you setting us up for disaster?"

"Looks like it; otherwise, why let us meddle in the affairs of a Great Fate Bearer..."

Among the thirteen leaders, relations were not harmonious.

Fei Tuo's words were like stirring up a hornet's nest.

To reach the level of a Six Tribulation Overlord, especially as a Black List leader, none of them were fools.

The process of Lin Wudi's rise was laid plainly before them.

During the First Tribulation, those at the Third Tribulation thought they could kill him, yet the Third Tribulation fell instead.

At the Second Tribulation, the Five Tribulations Overlord believed he could kill him too, the result speaks for itself.

With such an entity, whoever interferes dies.

Even though they were Six Tribulations Overlords, none had the confidence to meddle.

Every rise of a Great Fate Bearer is a bloody storm.

Moreover, Lin Wudi had risen for several years now; probably news had reached those at the Seven Tribulations or even Eight Tribulations.

If those people act, standing by would be akin to seeking death.

Currently, Lin Wudi's freedom in the Southern Spirit Divine Continent and little disturbance is because many understand the karma of a Great Fate Bearer should not be lightly meddled with.

Otherwise, how could Lin Wudi's magical treasures remain so peaceful and quiet?

Long ago, countless would have besieged Lin Wudi.

"I can make a deal with you all!"

Fei Tuo had anticipated their refusals, maintaining a calm and steady tone.

"Huh! What good stuff can you offer, you're still just a pauper!"

"Alright, let's disperse unless there's something pressing!"

The thirteen leaders, none believed Fei Tuo's words.

These Black List experts were always at risk of being hunted by the Heavenly Realm Guards and Enforcement Team.

Even upon reaching the Heavenly Battlefield, tranquility was elusive.

Compared to those who have a Holy Land, these Black List Overlords are actually quite poor.

Their assets are even lesser than some top Holy Land's Five Tribulations Overlords.

"One piece of Eight Tribulations Thought! Resources to advance to the Seven Tribulations! Enforcement Team level top-tier Cultivation Technique!"

As the other twelve leaders were about to leave, Fei Tuo threw out his bargaining terms.

The cave instantly went silent.

"Fei Tuo, don't joke around with such matters!"

"Fei Tuo, joking like this could lead to death!"

"Hehe..."

Everyone was shocked at Fei Tuo's terms but somewhat disbelieving.

Fei Tuo was merely one among the thirteen leaders of the Southern Spirit Divine Continent's Black List.

Neither heads nor tails laughed at each other, all being paupers.

Where did he get so many resources?

Not to mention advancing to Seven Tribulations resources, an Eight Tribulation Thought is a treasured item hard to find even in the Heavenly Realm!

No Eight Tribulation Strong One would leave a Thunder Thought upon facing death.

At that level, these strong ones all have their own pride.

If they know they are overmatched, they often self-detonate their Thunder Thought to injure the enemy!

"Heavenly Law is imperceptible, Earthly Law cannot be uttered, therefore..."

Fei Tuo didn't waste words explaining, he directly read out half of the Cultivation Technique.

The twelve leaders were all top-notch talent, upon hearing the Cultivation Technique, could roughly gauge its level.

Fei Tuo hadn't lied, it was indeed a top-tier Cultivation Technique comparable to the Enforcement Team's.

Capable of using five thousand pieces of Thunder Thought to form the Blade of Thought!

"Fei Tuo, who exactly are you?"

"With so many resources, why don't you transcend the Seven Tribulations?"

"Just one Cultivation Technique isn't enough, how can you prove you..."

The twelve leaders were speaking when a talisman suddenly flew out from one of the statues.

Within the talisman was precisely sealed an Eight Tribulations Thought!

Again, the cave fell silent.

A long time later, a voice emerged again.

"Half a month ago Lin Wudi appeared in the Holy Land of Flying Snow, Zai Si Patriarch is closest there, this time it seems it will benefit him."

"Damn, Zai Si's damn luck!"

The thirteen leaders each managed a direction of the Southern Spirit Divine Continent.

Zai Si Patriarch now closest to Lin Wudi, merely less than half a month's distance.

If a Six Tribulation travels at full speed, maybe it takes six days to get there.

"Zai Si, then it's up to you this time!"

Fei Tuo saw the deal concluded, with excitement in his voice.

Yet Zai Si Patriarch wasn't as thrilled as the others.

He remained silent for a while, then slowly spoke, "As part of the deal, I want to know your true identity, Fei Tuo! If you don't tell, I will refuse this deal."

Fei Tuo hesitated.

He hadn't expected Zai Si to propose such a condition.

After a brief hesitance, Fei Tuo solemnly uttered a word.

"Fine!"

For Lin Wudi's Defying Heavenly Treasure, he spared no effort.

Including revealing his identity.

Chapter 1157: Upgrading the Magic Artifact!

Holy Land of Flying Snow.

"It's been half a month already. What kind of Magic Artifact is Lin Wudi crafting that causes such a tremendous commotion!"

Lord Chen Xue and Du Le Saint Lord have guarded outside this Middle Thousand World for a whole half month.

During this half month, there have been five heavenly phenomena, three Heavenly Tribulations.

All these mystical occurrences have greatly broadened their horizons.

The art of artifact refining in the Heavenly Realm is not well-developed.

Yet, there are quite a few master artifact refiners.

However, even the most renowned master could not cause such a stir as Lin Wudi during artifact crafting.

The various Thunder Tribulations and phenomena showcased in this half month rival the five tribulations at the least.

At this moment, thunder and fire collide within this Middle Thousand World, and dark clouds densely gather.

The entire world is bathed in the hue of flames.

Boom!

A loud explosion scatters all the dark clouds with a thunderbolt.

Within the Middle Thousand World, lightning flashes, and the world slowly changes color.

Brilliant starlight appears in the sky, covering the entire world.

Lord Chen Xue and Du Lei Saint Lord simultaneously feel the pressure from the starry sky.

"Is this the Gathering Star Stone?"

"Using the Gathering Star Stone, does it mean...?"

Both recall the colossal commotion caused and realize with the Gathering Star Stone, the Magic Artifact crafted by Lin Wudi might be the Nine Cauldrons Thirteen Stars?

In an instant of epiphany, they exchange a quick glance and then move away in unison.

Both are perplexed.

Up until now, Lin Wudi has always shown his abilities with the Nine Cauldrons Thirteen Stars.

Now, crafting the Nine Cauldrons Thirteen Stars, isn't he afraid they might strike when vulnerable?

If they acted now, without the Nine Cauldrons Thirteen Stars, Lin Wudi might be powerless!

Dare to gamble?

No, they do not dare!

Both are unwilling to take the risk!

Firstly, because they restrain each other.

If Lord Chen Xue wants to act, Du Le Saint Lord would not stand idle.

And vice versa.

They both understand clearly, neither would let the other live if they obtained the Nine Cauldrons Thirteen Stars.

Moreover, they cannot be sure if Lin Wudi has other tricks up his sleeve!

Lin Wudi dares to use the land of Holy Land of Flying Snow for refining artifacts, surely he has some cards to play.

Boom!

As their thoughts were shifting, yet another Thunder Tribulation descends.

Simultaneously, the starlight in the sky begins to converge, gathering below.

Four Thunder Tribulations, six phenomena.

Both silently exchange glances once again, realizing one issue.

Even without the Gathering Star Stone, the Nine Cauldrons Thirteen Stars can kill a Five Tribulation Overlord.

Now with the Gathering Star Stone added, will the Nine Cauldrons Thirteen Stars become even stronger?

Could Lin Wudi seek to use the Second Thunder Tribulation to counterattack the Sixth Thunder Tribulation?

Both feel chills down their spine.

Previous small thoughts dissipate into thin air.

Such a defiant existence, it's better to befriend than to enmity.

In the Holy Land of Flying Snow.

Everyone watches the closed-off area of the Holy Master within the sacred land.

There, dark clouds gather, and phenomena occur frequently.

In just half a month, multiple occurrences have arisen.

This time, starlight covers the sky, as if the entire world enters a night-like ambience.

More terrifyingly, the pressure caused by this starlight grows stronger with resistance, even making Fourth Tribulation Practitioners feel suffocated.

From the Second Thunder Tribulation onwards, people of Holy Land of Flying Snow started to relocate, distancing themselves from the Holy Master's closed-off sanctuary.

By the Third Thunder Tribulation, even Tribulation-Crossing Ancestors dared not remain.

This reborn Thunder Tribulation, even core experts like Lin Rou begin to retreat.

Boom!

Lightning strikes, as if heralding an apocalypse, enveloping all directions.

Bolts of lightning, like raging dragons, roar as they rush towards the Middle Thousand World, towards the Nine Cauldrons Thirteen Stars before Lin Mu.

The Nine Cauldrons Thirteen Stars Precious Blade, truly lives up to its name this time.

Its crystalline blade adorned with countless stars.

Each star seems to possess boundless energy, not erupting but consolidating.

The entire blade, gathered by stars, becomes even more solid, more stable.

The blade shakes, emitting radiant light, as if stars flow within the long blade.

Six Nine Tripod Fragments, at this moment, are not stars but suns!

Perhaps, calling the blade Nine Cauldrons Thirteen Suns is more fitting.

"Is this the Nine Cauldrons Thirteen Stars? Truly terrifying!"

Du Le Saint Lord feels a suffocating sense of danger from the Nine Cauldrons Thirteen Stars.

"This terrifying pressure, even without activation, with its sheer lethal edge, could kill the Fourth Thunder Tribulation, right?"

Lord Chen Xue stares unblinkingly at the apparition in the sky.

As if seeing through the apparition into the Secret Realm, watching the Nine Cauldrons Thirteen Stars taking form.

Indeed, the magical treasure capable of killing the Five Tribulation Overlord, is truly remarkable upon its debut!

They assumed the Nine Cauldrons Thirteen Stars was complete, not knowing this was just the beginning!

In several uses of the Nine Cauldrons Thirteen Stars, Lin Mu realizes one issue.

That is, the speed of the Nine Cauldrons Thirteen Stars is not fast enough.

He must rely on the collaboration of Zhen Ying, Hu Sanniang, Du Le, and others to have a chance to kill a Five Tribulation Overlord.

Without their cooperation, a Five Tribulation Overlord has plenty of opportunities to escape.

The root cause is the powerful energy of the Nine Tripod Fragments, making it difficult for him to control.

The solution is to infuse Tribulation Thunder Thoughts into it.

Then, use Tribulation Thunder Thoughts to steer the Nine Cauldrons and Thirteen Stars, using them to drive the Nine Tripod Fragments.

In this way, the speed will at least double!

Even without an Overlord's assistance, he can perfectly unleash its power to capture the target for elimination!

Boom!

Three thousand Tribulation Thunder Thoughts invested into the Nine Cauldrons Thirteen Stars.

Like hot oil dripping into cold water, the Gathering Star Stone is fully activated, each starlight shimmering within.

Every Tribulation Thunder Thought merges into the starlight, becoming nodes within the Nine Cauldrons Thirteen Stars.

"This...the Artifact Nurturing Method?"

Du Le Saint Lord reveals an astonished expression.

Originally as a secret treasure, the Nine Cauldrons Thirteen Stars was already powerful enough.

Now, refined with Artifact Nurturing Method, its power advances yet further.

This terrifying might seems akin to a full-power strike from a Third Thunder Tribulation Practitioner.

"Has Lin Wudi put all Tribulation Thunder Thoughts into nurturing the artifact?"

Lord Chen Xue's face turns pale, his eyes barely concealing shock.

The Artifact Nurturing Method is highly detrimental to Tribulation Transcenders themselves.

Because the lost Tribulation Thunder Thoughts from nurturing are extremely difficult to recover, requiring much time.

Hardly any Tribulation Transcenders would nurture artifacts during their growth period.

Could Lin Wudi have foresighted some crisis, forcing him to employ such a reckless method to enhance strength?

Before they could understand, Lin Mu once again invests three thousand Tribulation Thunder Thoughts!

Unlike others, Lin Mu's thought regeneration is a matter of moments.

His replenishment of Tribulation Thunder Thoughts is as effortless as drinking water.

Unless as in nurturing the Dragon Tamer Sword, pouring in millions of Tribulation Thunder Thoughts, it causes not the slightest harm to him.

Boom!

Boom!

Boom!

Waves of Tribulation Thunder Thoughts pour into the Nine Cauldrons Thirteen Stars Precious Blade like torrents returning to the sea.

On the blade, starry brilliance flashes, luminous and resplendent.

...

While Lin Mu crafts the Nine Cauldrons Thirteen Stars, outside, especially around the Holy Land of Flying Snow, winds of change gradually rise.

Teams of Five Tribulation Overlords harness Tribulation Thunder Thoughts, swiftly heading this way.

Moreover, a Six-Tribulation Overlord hides among them.

In the Southern Spirit Divine Continent, a storm brews.

Chapter 1158: The Great Foe Approaches!

In the Heavenly Realm, incidents of the Third Tribulation overturning the Fourth Tribulation have occurred a few times.

However, it is almost unheard of for the Fourth Tribulation to overturn the Fifth Tribulation Overlord.

The only time it happened was with Daoist Master Yellow Springs.

Below the Fifth Tribulation, overturning an overlord is extremely rare.

Yet Lin Mu, with the Second Thunder Tribulation, overturned the Fifth Tribulation, and it was a one-time kill of four!

Such battle achievements caused a sensation across the entire Heavenly Realm.

Not to mention, Lin Mu, when killing the four overlords, relied on the power of a magical treasure.

In this way, this heavenly-defying magical treasure became the focus of the Southern Spirit Divine Continent and even the Heavenly Realm.

In just two months, the Southern Spirit Divine Continent, especially the various Holy Lands of the Southern Domain, began to stir.

Many overlords, unable to resist the lure of the magical treasure, started gathering at the Holy Land of Flying Snow.

In the void above, several figures flashed.

"Qing Dang?"

"Hui Ye!"

Eight figures gathered, precisely the group including Qing Dang Saint Master.

Hongdang was quite surprised to see six overlords appear, glancing at Qing Dang Saint Master in astonishment.

She never knew that Qing Dang Saint Master had so many close friends.

In the past, when forming teams for hunting on the Heavenly Battlefield, she hadn't seen Qing Dang Saint Master able to gather so many overlords.

However, Hongdang quickly came to terms with it.

Compared to the Heavenly Battlefield, Lin Wudi's Nine Tripods and Thirteen Stars Magical Treasure was evidently more enticing.

These overlords were all here for the magical treasure.

Indeed, the next words of the Overlord Hui Ye confirmed her suspicion.

"We have three factions here; if we obtain that magical treasure, how should it be distributed?"

But Hui Ye's words were soon interrupted by another leading overlord.

"Hui Ye, you're overthinking! Lin Wudi has a record of overturning four Fifth Tribulation Overlords in a battle, including a terrifying feat against a member of the Demon Race! Of us eight, how many can survive is uncertain; isn't it too early to discuss distributing the spoils?"

With these words, everyone became silent.

Lin Wudi's formidable battle record was evident; no one could ignore it, no one dared to ignore it!

Even though they were all Fifth Tribulation Overlords.

If they were to battle Lin Wudi, it was uncertain how many would survive!

"What Shi Feng said makes sense, so let's kill him for good! We'll talk after the battle!"

Hui Ye laughed heartily, displaying a wild and carefree demeanor.

Just, when Hongdang and others didn't notice, Hui Ye, Qing Dang, and Shi Feng exchanged glances and silently nodded.

Among the eight, the three of them were all members of Heaven's Mandate Organization.

The remaining five were just helpers they invited!

Their goal, from start to end, was only the Nine Tripod Fragments!

...

On the Imperial Sky Flying Boat.

Zai Si played with the talisman in his hand, his gaze flickering unpredictably.

Although the exchange terms given by Fei Tuo were tempting, the frightening nature of a Great Fate Bearer could not be overlooked.

If things go wrong and he gets himself involved, then no matter how good the trade is, it's pointless if he loses his life.

"Jin Fang!"

Zai Si Patriarch called softly.

A Fifth Tribulation Overlord appeared in the secret chamber.

"Greetings, Patriarch!"

The overlord named Jin Fang was very respectful towards Zai Si.

He had been saved by Zai Si when being hunted by the Heavenly Realm Guard, and since then, had been steadfastly loyal to Zai Si.

"When you arrive at the Holy Land of Flying Snow, lead a team to encircle Lin Wudi, and if it becomes unfeasible, retreat immediately!"

Zai Si still thought it wise to first test Lin Wudi's depth.

If Lin Wudi truly was a Child of Destiny, a Great Fate Bearer, then it might be better not to take on this task.

If Lin Wudi was merely relying on the magical treasure and not a Great Fate Bearer, then Zai Si wouldn't mind making a move!

The Overlord Jin Fang understood Zai Si Patriarch's intentions immediately, nodding respectfully and departing to carry out the order.

Being a Fifth Tribulation Overlord, he hadn't yet encountered the concept of fate.

Therefore, the Overlord Jin Fang wasn't aware of what special traits Lin Wudi might possess.

In his view, Zai Si Patriarch was overly cautious.

It's just a mere Second Thunder Tribulation after all.

No matter how strong the magical treasure is, could a Second Thunder Tribulation possibly threaten a Six-Tribulation Overlord!

He secretly resolved to kill Lin Wudi as a gift for the Patriarch.

To repay the Patriarch's life-saving grace.

...

In the Holy Land of Flying Snow.

"Lately, the undercurrents seem off."

Lord Chen Xue's expression appeared unpleasant.

The large-scale mobilization of Fifth Tribulation Overlords couldn't go completely unnoticed.

The spies of the Holy Land of Flying Snow, placed in various Holy Lands, had returned with quite a bit of information.

If one or two Holy Lands' Fifth Tribulation Overlords left their respective sanctuaries, it wouldn't be unusual.

After all, Fifth Tribulation Overlords also need to perform their duty of guarding the Heavenly Battlefield.

Out of five thousand years, they guard for two thousand.

But several Fifth Tribulation Overlords simultaneously leaving their sanctuaries was somewhat unusual.

"I have even worse news, the Myriad Treasures Overlord from the Heavenly Treasure Holy Land recently left the sanctuary as well, and there's no trace of them!"

Du Le Saint Lord's expression was somewhat tense.

In the Heavenly Realm, where Seventh and Eighth Tribulation Overlords don't emerge, the Six-Tribulation Overlord was almost the peak force.

The Myriad Treasures Overlord was among the best of the Six-Tribulation Overlords.

The Heavenly Treasure Holy Land is the only artifact sect in the Southern Spirit Divine Continent!

Being named for Heavenly Treasure, it's evident that this holy land brimmed with magical treasures.

And this generation's Saint Lord Myriad Treasures possesses numerous powerful magical treasures.

It's said that at the time of the Fifth Tribulation of the Myriad Treasures Overlord, they single-handedly slew beasts of the same rank with their magical treasure!

That was definitely an outstanding achievement in the Heavenly Realm!

"The Myriad Treasures Overlord? I never thought he would also join the fray! This is troublesome now!"

Lord Chen Xue was also aware of the prowess of the Myriad Treasures Overlord.

This overlord alone might be equivalent to two or three Six-Tribulation Overlords!

"Even though Lin Wudi's Nine Tripods and Thirteen Stars is formidable, it may not be capable of killing a Six-Tribulation Overlord. If the Myriad Treasures Overlord is truly here for Lin Wudi, then Lin Wudi might be in great danger."

Although when refining his artifact, Lin Wudi's phenomena were frequent.

Magical treasures that could threaten a Six-Tribulation Overlord are scarce in the Heavenly Realm.

Du Le also couldn't be sure if Lin Wudi's Nine Tripods and Thirteen Stars could genuinely threaten a Six-Tribulation Overlord.

Even if it could, Lin Wudi would only have the strength for one strike!

With the power of a Six-Tribulation Overlord, if one strike doesn't succeed, a casual blow from a Six-Tribulation Overlord could obliterate Lin Wudi!

"Alas! We are now proverbial grasshoppers tied together with Lin Wudi, hopefully his Nine Tripods and Thirteen Stars can slay the Six-Tribulation."

Lord Chen Xue sighed.

Du Le was not as worried, as the Kujia Holy Land wasn't situated here.

However, their Holy Land of Flying Snow would be the battleground for the Fifth Tribulation Overlords, and possibly the Sixth Tribulation!

If mishandled, the Holy Land of Flying Snow might cease to exist!

This left Lord Chen Xue extremely conflicted.

He didn't dare propose that Lin Wudi leave the Holy Land of Flying Snow.

By now, Lord Chen Xue discovered for the first time that even a Fifth Tribulation Overlord could feel so stifled.

In the Middle Thousand Worlds, Lin Mu's artifact crafting was reaching its final stage.

Even after injecting thoughts of the Second-stage Tribulation, it couldn't operate as desired.

"Originally, I intended to use it during the Third Tribulation breakthrough to immediately reach the Fourth Tribulation, but now it seems I have to use it early!"

With a thought, Lin Mu's mind unleashed the thoughts of the Fifth Tribulation from the depths of his Sea of Consciousness.

Swish!

The thoughts of the Fifth Tribulation entered the Nine Tripods and Thirteen Stars.

Millions of Second-stage Tribulation Thoughts seemed activated, instantly radiating brilliant light.
