

Chapter 1631 Moon Of Devouring

Long Chen has own self-confidence. Six big monster emperors change into beast shape, how that can, in his eyes, this rank, be able not to be his match. But he still survived several thousand years of desolated Great Emperor to feel the awe to that. At this moment, wreck the event in his main house gate! Why no matter desolated Great Emperor has not appeared, that also has the huge battle efficiency four big monster emperors, at this moment could not endure patiently, in the chest the anger combustion, launches the attack to Long Chen! The Tun Yue monster emperor, that walks randomly the monster wolf in darkness, most excels is the [say / way] of swallowing, Tun Yue is one of his Divine Ability, but Tun Yue is the passive skill, he has more terrorist one move, is his killing incurs. But Kunpeng monster emperor, the golden ape ancestor and peak turtle, have the for several thousand years to quenching kills certainly! After facing Long Chen this terror Divine Dragon, each monster Yanjing went crazy. They are unable to tolerate itself by so huge disparity shame, they are unable to tolerate injuries of two monster emperors, Long Chen makes their deep rampantly is angry! Lived for over ten thousand years, makes Long Chen so maltreat unexpectedly? This fight passes on, absolutely is in the middle of six big monster emperor lives the biggest stain. At this moment, can only with going all out to describe them! The Tun Yue monster emperor, the surroundings darkness covers, ghost numerous. During the Kunpeng monster emperor in Crazy Wind sweeps across, huge Golden double covered in the middle of the Golden flame crazily, in the middle of his wing, the massive Golden strange marks reappeared, dense and numerous, looked like the religious texts is the same, was walking randomly on his body. Golden ape ancestor, then has put out a diameter enough yo two kilometers huge Golden stone, this stone actually together said that had eight Dao Mark, this weight estimations must be over weight several times of that peak turtle, if were pounded, met a cruel death ironclad, turns into the meat sauce the result! As for that final peak turtle, revolves, that giant mountain peak transforms into the sharp spheroid, these edges and corners sparkled the soul-stirring ray, in within the body of peak turtle, the strength of Nirvana have been forming huge Formation, was rushing to well up in this Formation, seemed like the simple attack, in fact be more terrorist than other monster emperors! Long Chen contemptuously visits them to prepare. He is motionless, but for all this, nobody dares to neglect his invincible might. But, that angry Desolate Emperor

Palace Monster Clan, that moment of anticipation approached finally. „True Martial Emperor Palace Saint Martial Emperor Monarch is no doubt fierce, however under the collaboration attack of monster emperors, he so is unexpectedly negligent, is so rampant, immediately arrives at the time that he has made a boner!“ „My Desolate Emperor Palace monster emperor, is not four Sword Grandmaster that pustule, they can certainly win!“ „I and others are first Emperor Palace, dares first Emperor Palace to act unruly unexpectedly, gets what one deserves is killed, even if the monster emperor has not killed him, our emperors, will make him remnantly!“ „Depending is Dragon Warrior, thinks one are great!“ Blotting out the sky clamoring sound, looks like tide is the same, sweeps across. Long Chen understands that true Expert, does not need to care about any slander, in the life journey, always some eats to the full the person who has been all right to be, slandered you with the unpredictable heart of villain, smeared you. But, own road, clenches teeth is, why must to care about clamoring of weak one! Expert, being doomed lonely vanguard. In this moment, remaining four monster emperors, to redeem own dignity, the strength that even in the middle of the stimulation bloodlines hides, does not hesitate to consume the life, must Long Chen defeating! This is also desolated Great Emperor gives their duty! Swallows Moon Devouring Demonic Wolf, has put out a huge black moon! That is Moon Of Devouring is, everywhere one visit, no matter air or clouds, even is below construction, was swallowed, the tearing strength of that terror, can make all lives be torn into shreds! The Kunpeng monster emperor, the both wings cut, has formed two pieces of sharp knife edges, gathers by Moon Of Devouring, everywhere one visit, the space was torn completely! Golden ape ancestor's [gold/metal] stone-paved road, the world grinding pan of peak turtle monster emperor, at this moment is arriving, they raid in the same direction, but has actually blocked Long Chen any route of running away! „Shame my Desolate Emperor Palace, can encounter the most serious fate inevitably, Long Chen, we treat you like the guest, you actually with us for the enemy, my Desolate Emperor Palace, are first Emperor Palace, how to allow below you to defy superiors!“ „Said right, must cope with Tragic Death City Lord, your request we help, with your present manner, I and others, if will help you, that felt strange!“ „You can be rampant in Sword Soul Emperor Palace, but must remember surely, this is my Monster Clan domain, this is Desolated Emperor's Domain!“ Four big monster emperors, combustion Blood Essence, must give Long Chen heavy losses inevitably! That hides terror Divine Dragon in the middle of scarlet fog, by the indifferent look, looks that 4-

layer kills arrival that incurs! Especially follows after 3-
layer attacks the peak turtle, he comes personally, on that day the strength of grinding
pan, if hits itself, definitely will be torn bulk flesh and blood. The body of Ancestral
Dragons, how allows you to blaspheme. „Several fellows who was really intelligent.....” At
this moment, the Long Chen whole body covers in the middle of the strange fog,
the strength of time has substituted for the strength of slaughtering,
the body of his Ancestral
Dragons, started the transformation of part, from the scarlet body, starts toward the illusor
y direction transformation. The body of Imaginary Universe
Dragon, shows! This change, making four big monster emperors have many premonitions. „H
e must display to defeat the Ling
Wu sword main that move!” The Kunpeng monster emperor said heavily. That move, vibrat
es their innermost feelings. At this moment, in Long Chen that giant dragon, along
with his eye color transformation, when the scarlet completely vanishes, becomes the empt
y incomparable time, the illusion bubble appeared. The strength of time, turned
into the illusion mighty current, flows rapidly to
go toward the attacks of four big monster emperors,
that bubble visionally, appears under the mighty current of time, this is a wonderful ripple,
the air shivers gently. But in the middle of this ripple, the time is
confused, has the terror tearing strength. Moon Of
Devouring with the attack of that Kunpeng monster emperor, on has faced
immediately the illusion bubble, the terrifying time strength, Moon Of Devouring wait /
etc., has torn into shreds completely, the collapse of force system caused this attack to be
completely confused, seemed like decomposed was the
same! Then, that [gold/metal] stone-paved road, on sweeping across of time strength,
the golden ape ancestor affects above strength, the complete volume compared
with decomposing, [gold/metal] stone-paved road under Moon Of Devouring and offensive
force of Kunpeng monster emperor, reverses, goes toward the peak turtles and another thr
ee monster emperors! All
these only occur in the flash! The attacks of four big monster emperors, were
explained by the Long Chen flash! Entire Desolate Emperor Palace, covers in a bursting out
laughing environment. These Monster Clan, shock looks that this has
surmounted the attack of their general knowledge. This is the what
kind strength! The decomposition, reverses, the attack of opposite party, turned
into own attack! That peak turtle bears the brunt, flickers to explode the blood,
the attacks was hit to fly upside down by Tun Yue monster emperor and the others,
the huge incomparable body, falls toward, in landings,
the transformation became the whole body cruentation human form. Otherwise, it is
estimated that Desolate Emperor

Palace must by his body destruction most. The remaining strengths, toward three monster emperors who does not guard against, the long-range raid go. At this time, three big monster emperors were scared. Their true fearful and apprehensive, scared shitless, hurries to run away! In their eyes, Long Chen at this moment already was the true devil. All people are shocked. However, the strength of illusion bubble is unable to reverse, three big monster emperors did not escape. In three big monster emperors soon the hit moment, in the beast god main hall in that distant place, had the sound finally, the Yellow ray has swept together, arrived instantaneously, keeps off in front of illusion bubble, time that this delayed, three big monster emperors successful escaping, but the strength of that illusion bubble, exploded in the middle of the starry sky, vibration world! By a person of prestige, can compel this degree six big monster emperors, Long Chen is unprecedented, latter did not have the future. Can rescue people that to shock innermost feelings only, is that came from the ray of beast god main hall. In the painful desperate moment, they had found the hope. That is desolated Great Emperor! Desolated will Great Emperor, definitely defeat Long Chen? Such rampant Saint Martial Emperor Monarch, making him in Desolate Emperor Palace so act without regard for authority, at this moment desolated Great Emperor appears, certainly maliciously will teach him! For such idea, after failure, knelt down the ground that all Monster Clan roused, shouted said: „Pays a visit the Emperor!“ That hid for a long time desolated Great Emperor, finally appeared. Long Chen restored the person, dropped from the clouds, falls outside the beast god main hall. Three monster emperors who survives by luck, saved their three partners hastily. Innumerable frantic Monster Clan, hissing exclaimed: „Emperor, this Human Clan item does not have the law of the land, does not place in my Desolate Emperor Palace the eye, has injured six big monster emperors, making my Desolate Emperor Palace face countenance sweep the floor, the Emperor must punish him maliciously!“ „Yes the Emperor, Human Clan dares to provoke unexpectedly I and others, is really the heinous crime!“ Dares to say these words, at least was also the Nirvana Calamity Realm master. The Long Chen vision is indifferent, stands before the beast god main hall. At this moment, in the middle of the beast god main hall, the desolated Great Emperor kind sound, passes on finally. „Child, what is your goal?“ Desolated Great Emperor asked. He had not said matter that fought a moment ago, has not blamed, punishes Long Chen, instead is so friendly, this made all Desolate Emperor Palace disciples silly, why didn't the Emperor vent anger for the person on one's own side? Certainly has severer penalty method! They are thinking like this. Long Chen in fact is also having doubts, in his impression, this fellow very much entrains. He replied: „I want to go to antiquity monster territory, comes out the Mo

Xiao Lang belt."He must have a look but actually, how desolated Great Emperor will reply himself.Cannot think that the opposite party actually said: „This grade of matter, said one with me directly and that's the end. Does not need to make such big scene, such being the case, you go."Long Chen was scared, is this also good?He also thinks that needs to threaten the opposite party.So with ease served own purpose, Long Chen had doubts, this antiquity monster territory, what unique element but also there is, was actually does not know?.....War.

Chapter 1632 Difficult choice

After desolated Great Emperor appears, has disrupted immediately the Long Chen step and plan.During this desolated Great Emperor, imagines him must appeared much kinder, looks like ordinary Elder, in chatted with oneself, in the middle of the spoken language, did not have the slight spunk.But other one side, Tun Yue, Kunpeng and golden ape ancestor, is helping the injured three monster emperors therapy.The so serious matter, desolated Great Emperor actually has not considered a matter.This lets these ordinary Monster Clan, almost must explode with rage. But but the opposite party desolated Great Emperor, they do not have the means to request anything, can only this angry pressure in the moral nature.„You determined that can go to the antiquity monster territory really? Tun Yue, Kunpeng, you are taking my Emperor command, leading him to go to the antiquity monster territory."Desolated Great Emperor he he smiles, very generous saying.Long Chen had doubts, what does this old foggy hit to pay attention? The world is impossible with no reason at all the falling down meat pie, makes itself probably be careful the opposite party including the True Martial Yanjing.But at this moment, including other monster emperors, does not understand the meaning of desolated Great Emperor.The Kunpeng monster emperor gets angry: „Emperor, this boy has injured their three, not one month cannot restore, this is provoking my Desolate Emperor Palace, so was unexpectedly simple on then his hoping, my Desolate Emperor Palace dignity where?"Desolated Great Emperor is unhurriedly, said: „This Desolate Emperor Palace, is you takes responsibility, do I take responsibility?"Desolated Great Emperor this saying said that in the Kunpeng monster emperor heart had the big air/Qi, he also can only swallow. The person who they always most awe, is desolated Great Emperor.Long Chen had pondered, has interrupted their dialog, asked: „Great Emperor, I want to ask understand, why before , is not willing to summon me, now so is generous, Great

Emperor did not fear that I went to the antiquity monster territory, Xiao Lang carrying off?" Desolated Great Emperor with very ordinary laughter, he he has smiled the period of time, then asked: „This is matter that you request. Your Saint Martial Emperor Monarch invincible might was invincible, has defeated my six big monster emperors, can't I only obey at this moment? Saint Martial Emperor Monarch does not want to go , don't you dare?" Long Chen made this old ghost making silly. Is the matter that strive, he like this has actually delivered his at present..... Why always thought that doesn't suit? Two possibilities, its one, this is the opposite party rejects own method, he is mysterious like this, Long Chen instead met does not dare the going in antiquity monster territory, like this he succeeded. Second, the antiquity monster territory had part that Long Chen did not know, Long Chen, if listened to him, at this time went, very likely had the irretrievable crisis. These two completely opposite possibilities, let Long Chen first two big. This is most should be careful time. Long Chen asked: „What thing Great Emperor definitely also hid not to say right?" Desolated Great Emperor said with a smile: „Can I have something to hide the truth from you?" Fellow who this always annihilates the arch villain, may not be really good to cope. Long Chen knows that he can only in that mirror, not threaten itself at present, therefore he courageous, said: „If Great Emperor does not talk clearly, then I can only continue to disturb, Great Emperor such being the case is tolerant, should not mind that I the pulp that Desolate Emperor Palace pounds!" Threat! The so bold threat, made Desolate Emperor Palace all disciples be shocked simply. This has Long Chen eaten the bear heart leopard balls? Long Chen has not drawn back slightly timidly, like this is waiting for the reply of opposite party. The Desolate Emperor Palace disciples, are more resentful. At this time, desolated Great Emperor has laughed, said: „Really takes your this kid not to have the means that since you threaten me, I also can only tell you, was Xiao Lang told you that your strength, can lead him to leave the antiquity monster territory?" The Long Chen vision is cold, he with the extremely calm mentality pondered that the desolated Great Emperor words, on the mouth said: „Truly so." Desolated Great Emperor shakes the head with a smile, said: „It is not easy, is not easy, Xiao Lang did not understand the antiquity monster territory, therefore, even if by your strength, after going , was also not necessarily able to lead him. Such being the case, words that you must go, why don't I make you go in?" Since he knows that Xiao Lang told himself the matter of antiquity monster territory, should also know that oneself knows he can only treat the matter in mirror, will therefore be threatened by oneself. This is very probably

reasonable. Then, the antiquity monster territory, has definitely surpassed the expectation of Mo Xiao Lang. When the Long Chen calmly pondered, the sound of opposite party starts to enforce, said: „Your potential is huge, I do not want with you for the enemy. But Xiao Lang is my emperor's children, he promised me to dive to cultivate for 500 years, this is his commitment, therefore I made his going in antiquity monster territory not excessive. On the contrary is you, is True Martial Emperor Palace Saint Martial Emperor Monarch, actually comes my Desolate Emperor Palace to deliberately create trouble, if you want to go to bring really him, must pay the price, but the price is, perhaps you will also be stranded on for 500 years.” To this time, desolated Great Emperor spoke finally earnestly. This moment Lingxi stands in own side. Long Chen has faced instantaneously a difficult choice. At the same time, is Xiao Lang to own request. On the other hand, was not possibly able to leave the antiquity monster territory, must be stranded on 500 years of crisis. If were stranded on for 500 years, when come out, here already life Tu Tan? What is most important, Yang Lingqing by that time, definitely died certainly. This is the matter that Long Chen definitely is unable to withstand. However, if do not complete the request of Xiao Lang, making Mo Xiao Lang be stranded on for 500 years in inside, what Younger Brother are oneself? The choice that so is in a dilemma, making the Long Chen head want to hurt. Always decisive he, this time actually indeterminable, desolated Great Emperor this is wants him to take a huge danger . Moreover, desolated Great Emperor does not arrive at the situation of non- having no other choice but unable to leave that mirror, but is not cannot leave truly, if act unruly truly, he definitely will come out. Desolated Great Emperor continues saying: „Your status key, causes trouble in my Emperor Palace, I can forgive you, even gives you one to look for the Xiao Lang opportunity, but whether can come out, has not related with me, this must look at your decision-making, if your having courage quantity, I can hit a gambling with you but actually.” Gambling? Long Chen asked: „First approximately talks clearly this gambling.” „Is very simple, if after you go, can come out to the belt Mo Xiao Lang, I promise you, does not control his freedom. Meanwhile, three territories nine have difficult, my Desolated Emperor's Domain can contribute own strength. But if you cannot come out, even if pays the price for today's behavior. You soon are on trapped|sleepy 500 years, this is I to your penalty. Naturally, you can choose walk immediately, I do not have any so-said.” This gambling makes..... If successful, oneself this line of goals of were completed. But if failed, oneself will be stranded on for 500 years, Lingqing must die! Three territory nine demise, Long Chen estimated that cannot see. Can choose walks directly, but Desolate Emperor Palace will be separated in the following fight, the request of Mo Xiao

Lang, oneself are unable to complete. Both sides both are especially important the thing to Long Chen, is simply indispensable. „How do you decide?“ In the middle of the desolated Great Emperor words, has been full of the enticement. „Brother Chen, I think that.....“ Lingxi stands in not participating, at this moment she in a soft voice said in the Long Chen ear. „Xiao Xi, how do you think?“ Long Chen urgently needed others' opinion. Lingxi saying quietly: „Generally, if no any important matter, Xiao Lang will not want you to help, I believe Xiao Lang very much. Moreover you must unite Desolate Emperor Palace, this is the duty, if walks away, in your surname standard, you will not be resigned..... Therefore.....“ Here, she, said: „In fact, its one, by your strength and potential, even if the short time is unable to come out, but how many months later, who knows that what degree you will grow to? Second, True Martial Great Emperor will not be idling, your disaster to the Great 3 Emperors' Domain is so important, if you were stranded, he should also be able to save you. But its three, do not forget the heart of Tragic Death City Lord, his heart in your body, thinks, if you disappeared, perhaps he compared with your worry, when the time comes, Tragic Death City Lord can with the desolated Great Emperor resistance.....“ Listens to a Lingxi such analysis, Long Chen immediately to have the feeling of suddenly seeing the light. That time, Long Chen does not believe itself, spells to create! If this time is not price is too big, he so will not hesitate. But now had the analysis of Lingxi, he thought that probably is more relaxed, particularly that Long Chen believes finally, if Tragic Death City Lord cannot obtain the heart, he will be will not give up absolutely, even if the antiquity monster territory can surround itself, but can surround Tragic Death City Lord? Desolated isn't Great Emperor does not want with the Tragic Death City Lord contest? That makes them dispute! Xiao Lang will not request itself with no reason at all, definitely has the important matter! Otherwise, he will not trouble Long Chen, after all he also knows, the important surname of Long Chen to world common people. Long Chen grasped Lingxi, on her face deep has kissed one, critical moment, the Lingxi comparison is effective. If this is a challenge, this is a unrestrained gambling, in the Long Chen surname standard, he like this will not give up! Then, fight! Therefore, his vision is firm, said: „Great Emperor, I choose, since antiquity monster territory!“ These words, demonstrated his astonishing guts. „Is very good, then the gambling is approximately tenable. So long as you can come out, then your Long Chen potential and strength, to have let the degree that I awe inevitably. You have about the qualifications the Xiao Lang life.“ Desolated Great Emperor said seriously. The decision of Long Chen, surprising six big monster emperors somewhat. They may be clear, Long

Chen relates to three territory nine following catastrophes, does he responsible person, for Mo Xiao Lang, he dare to go in this antiquity monster territory to rush to unexpectedly? He did not fear, he 500 years later can come out? Who can know, 500 years later, what appearance can be? „Brother Chen, I must accompany you to go.” Lingxi firm saying. „You cannot throw me in Desolate Emperor's Domain, many person, many means.” Long Chen sees her to insist that can only comply. „Kunpeng, Tun Yue, you hold my Emperor command, leads Long Chen, went to the antiquity monster territory.”

Chapter 1633 Devouring Dragon Monster

Antiquity monster territory, not in Desolate Emperor Palace, but beside Desolate Emperor Palace, was quite remote, was almost the place of Desolate Emperor Palace border. But fortunately, has Universe transmission that special arrives. This place, it may be said that was three territory nine northwest places. At present is a deathly stillness wilderness, the sky covers in the middle of the dead Ash Grey mist, in the middle of the wilderness only then the Ash Grey fine sand, does not have the wind, appears very pure. Several days later, Long Chen Lingxi, the Tun Yue monster emperor and Kunpeng monster emperor arrived here. Four people together toward the entrance of antiquity monster territory. Walked after some time, Long Chen asked suddenly: „The Tun Yue senior, how you and do Xiao Lang relate?” Tun Yue monster emperor astonished. Regarding Long Chen, he also very much hated before, but Long Chen displays to caring of Mo Xiao Lang, making him realize that Long Chen real surname standard, is not that rampant and domineering. Therefore his manner has relaxed much. He said: „Emperor's children are my wolf clan people, relates with me, naturally is best.” Long Chen access road: „The Xiao Lang news is Su Yan tells me, this you also know probably, but after I do not hope me to come out, saw that this small girl was bullied.” The Tun Yue monster emperor understands that his meaning, fears the Desolate Emperor Palace person to retaliate him, punishes Su Yan, he said: „Absolutely so, we are not the monster emperors, how can haggle over with her small girl . Moreover, she and Xiao Lang relate unusual. We will not move her, this point you felt relieved.” So, Long Chen feels relieved. Difficulty that before because chose, actually this matter forgetting. Therefore raised has selected, as Tun Yue monster emperor, will not feel embarrassed Long

Chen in this issue. „In the final analysis, I very admire your, I very much have doubts, do you watch that importantly that Tragic Death City Lord matter, why must take risk for the emperor's children?“ This issue, Long Chen is only fluent: „Because I trust him . Moreover, I owe Xiao Lang to be too many. This time, should anything not haggle over, only complies with his request.“ „Good, does not know really the sentiments of your this Younger Brother, how train, I can feel that in the emperor's children eyes, your important surname must above the Emperor, therefore he does not hesitate to revolt against the Emperor for you.“ Ten years fight shoulder to shoulder, does he understand? Goes forward probably fast more than three time of double-hour, finally in the middle of this boundless Ash Grey desert, rushed to the destination, Long Chen has gained ground, front skeleton Aura store front. What heaving in sight is in the middle of a desert dead wood forest, this is a giant dead wood forest, the trees is very high, mask line of sight, but does not have any leaf, the entire dead wood forest covers in the middle of swing of Ash Grey, indistinct middle, including many hundred meters, even a kilometer skeleton. The trim world, unexpectedly everywhere is the skeleton outline. „Outside antiquity monster territory, was my Monster Clan Expert the place of burying bone, was my clan sacred place, generally speaking, forbade Human Clan to come to blaspheme absolutely, does not know how really the Emperor actually thinks, will let your this bystander unexpectedly, arrived here, but also lagged behind that gambling to make with you.“ Kunpeng monster emperor ill-humored saying. Front, what everywhere is the skeleton, optional is placing, has not buried under the land, these in the skeleton of vicinity, are still glittering the death ray, some appalling feelings, the Lingxi complexion is somewhat pale, is pulling the arm of Long Chen hastily. „Some how many years, having Human Clan to come to here?“ Long Chen asked. The Tun Yue monster emperor replied at will: „Has several thousand years. In any case, basically is forbids Human Clan to come.“ According to this logic, desolated Great Emperor somewhat is probably strange. „Does he want also to imprison 500 years me?“ Long Chen pondered that what the goal is? At this time, the Kunpeng monster emperor has put out ,Emperor command'. He said: „Do not leave my ten meters places, otherwise your intrusions will cause to guard awakening of skeleton, will let the ancestors rebellion of this entire corpse skeleton forest, exterminates and others. This is also the reason that other people do not dare to come, does not have the Emperor command, who arrived here, will be torn into shreds by our ancestors, this is the prestige of Yuan god thought they keep.“ No wonder wants that this Emperor command, so that's how it is. Also no

wonder so many skeletons, unexpectedly have not buried in the land, because on these skeletons is also remaining the strengths before these Monster Clan bodies, before they die, definitely has displayed any Secret Skill, will come here, forms this corpse skeleton forest faithful guardian, making the small part the strength be able to preserve. Moreover the innumerable skeletons, are extremely really giant, inexhaustible, who knew Monster Clan from ancient to present, died many people. Is following the Kunpeng monster emperor, four people start to enter the corpse skeleton forest. Peripheral, Ash Grey Aura, congeals the large snake to walk randomly, throws toward the people, but at this time, the Emperor made to form a radius ten meters aperture in the surroundings, these Ash Grey Aura did not have the means to approach. Corpse skeleton forest that will seethe soon with excitement, peaceful. In this dead wood and skeleton sea, four people lead the way quickly, little spoke, Long Chen looked up on these probably to skeleton within one kilometer in 100 meters, grotesque, had the beast such as the oppressor and so on, had the birds such as the Péng bird, there is in a water Flood Dragon, the crazy shark piranha, had the insect clan, with the skeleton of small partial tree clan, numerous skeletons, congealed this skeleton sea. More walks toward inside, Long Chen is the heart startled, because this skeleton was really too many. After walking half double-hour probably, basically the people can only fly, crossed the skeleton to lead the way, more walked toward inside, the strength that in the middle of the skeleton hid was very big, it is estimated that also few individuals, can rush in the middle of this antiquity monster territory. After arriving at the place of Ash Grey richest place, the front presented a stretch of open area suddenly, but in the middle of the open area, a head length reaches 10,000 meters large snake skeleton, encircled a circle, this large snake was not the dragon, but was extremely terrorist, particularly that thick head, endured compared with true Divine Dragon, it is estimated that and Long Chen changed into Ancestral Dragons time, the body was similar. The large snake skeleton, altogether is divided into nine parts, in the middle of Knowledge Sea actually is also remaining the color. „This is a desolated Great Emperor skeleton, his main body is the great antiquity nine color snakes.” The Tun Yue monster emperor introduced. Long Chen remembers a matter suddenly, asked: „That, what is this desolated Great Emperor main body?” He uses the optional tone to ask. „I do not know.” The Tun Yue monster emperor has avoided this issue, then said: „Entrance in the encirclement rings of great antiquity nine color snakes, inside is bonedust sea, you fall into the middle of this bonedust sea, can arrive at the antiquity monster territory, can come out, looked

at your good fortune, I am unable to guarantee.” Arrived here, is impossible to retreat. Long Chen makes Lingxi enter in the middle of the god country, without demur, rushes to the sky, crossed the skeletons of great antiquity nine color snakes, discovered that its skeleton is surrounding a small surface lake, this lake is the pure white, inside does not have the liquid, one type was ground to the skeleton of powder on the contrary, at this moment is shivering gently, quite scary feelings, making the person not dare to approach. Always feelings, after probably go, will turn into the bone dust. This is only the misconception, Long Chen realized that in this possibly leads to a small Universe world. Deeply inspires, Long Chen flushes away toward inside. After he goes, two big monster emperors then leave. „You know that the Emperor does deceive the reason that he goes in?” The Kunpeng monster emperor said suddenly. The Tun Yue monster emperor shakes the head. „He has gone, True Martial Great Emperor will definitely worry, moreover three territory nine disasters will be near, the Emperor is unable to cultivate one's own moral worth, but actually does such one, coax this boy, what the Emperor is actually thinking?” „Where I know, but, True Martial Great Emperor came, there is a Emperor to cope with him, we could not think that many. Looks at the situation?” The Kunpeng monster emperor turns head saying: „You said that this has created the fellows of many miracle, can come out from inside?” „Nonsense, the Emperor deceives him to go, but can also make him come out?” At present, similarly is a Ash Grey world. But this piece of Ash Grey, is more peaceful, does not have a sound. Long Chen stood in the middle of piece of Ash Grey cloud layer, the surroundings were covered by the fog, do not see clearly other place to have any thing. This is one peaceful soon suffocating environment. Lingxi is not a weak one, they because of are also together good to take care, Long Chen make her come out, is sizing then up the surrounding situation. „Front has the glimmer probably.” In Lingxi heart a anxious, said in a soft voice. Long Chen without demur, is pulling her small hands, goes toward the front, walks above the cloud layer, does not know cloud layer about can be any thing. After reaching the destination, the front presented the cloud layer wall, in the middle of the wall, presented many white door, walks, discovers in these door, writes some writing, this should be some the first name of Heavenly Dao method. „Approximately is this? If entered this door, so long as through the test, can study this in inside the first Heavenly Dao method, or tests, while studies that the first Heavenly Dao method?” The Long Chen doubts asked. „Approximately so?” Lingxi is indefinite. They walk toward under. „Guard chamber, one year, two years.” In the white door, started to have guard

chamber these three characters. Long Chen picked up the speed, finally finally, found one to write, guard chamber again, 500 years' room. The following small character writes: „Enters the guard chamber, 500 years are unable to come out, the world of mortals strength indestructibly, cautiously enters.” „Brother Chen, do you look?” The Lingxi sound from behind conveys. Following his vision, Long Chen sees a 500 years of guard chamber entrance small statue, this is a strange small beast, Ash Grey, does not have the four limbs all over the body, the mouth is very big, this exquisite appearance looks like very adorable. „This thing, probably is in the middle of legend, Devouring Dragon Monster appearance.....” Lingxi surprised saying. „Devouring Dragon Monster?” This name makes Long Chen very uncomfortable, he asked: „What ghost thing is Devouring Dragon Monster?”From the click list first, was very near. To!

Chapter 1634: Smelting trial duty

A strange name. According to words that this name comes to see, can the dragon swallowing? Lingxi recalled a while, said: „I like reading some strange books since childhood, studies Formation Restriction these, does not like Cultivate. Saw in an old book has the introduction about Devouring Dragon Monster, approximately described was Devouring Dragon Monster, did not have the four limbs, was only a meatball, the mouth and eye is very big, looks like very adorable, in that old book had the Devouring Dragon Monster schematic diagram, seemed like approximately similar to this statue.” Long Chen, has compared with oneself, Lingxi is the knowledge is profound, after all long ago, she knows Antiquity Blood Spirit Dragon is one of the Ten Great Ancestral Dragons. He continues to ask: „This does Devouring Dragon Monster, what strange place have?” Lingxi said: „That is the words that introduction Divine Dragon multiplies, because Divine Dragon is the life of summit of all living things, under the Heavenly Dao rule, their multiplication abilities is quite bad, moreover in Long Ji Continent of ancient times time, the environment was bad, slaughtered frequently, causing the overall quantity to drop, had Devouring Dragon Monster part of reasons.” She, said: „Devouring Dragon Monster excels at the [say / way] of concealment, the digestion swallows the ability to be specially strong, their only hobbies are the young dragons that to swallow these was just born, the young dragon specially formidable strength, just had not been born after all, this Devouring Dragon Monster looks

like the hateful young thief, is one antiquity Variation that Divine Dragon most hate. They with the aid of swallowing the young dragon stiffen, some luck good Devouring Dragon Monster, even can grow to and ability of true Divine Dragon same rank, what are more receives venting anger of Divine Dragon, basically wants is a Divine Dragon clan, meets Devouring Dragon Monster, immediately gave to kill."Long Chen understood approximately.Originally is antiquity Variation that one type does things stealthily specially. This type of thing is quite in fact common, in the middle of birds, one type special stealing food bird's egg, is nothing unusual.,,This antiquity Variation, basically few personally knows how here will have its statue?" Asking of Lingxi doubts.Long Chen has sized up the period of time that Devouring Dragon Monster appearance, asked: „This type of thing, but can also live the present?"Lingxi shakes the head, said: „Is absolutely impossible, before Divine Dragon exterminates, Devouring Dragon Monster already exterminated, their behaviors received strangling to death of Divine Dragon, it may be said that is exterminates completely. It is not having Divine Dragon Long Ji Continent, they are impossible to live, is more impossible to have the formidable strength. This is in that old book records."The Divine Dragon time, the distance now was really too far, that Xiong dominated Long Ji Continent trillion Divine Dragon, in addition did not have one to live, then Devouring Dragon Monster, was it is estimated that more impossible to live.A statue, is not enough to prove any thing, Long Chen with all one's heart on the body of Mo Xiao Lang, at this moment he places in the attention that last white door.,,Since later, the strength of world of mortals, indestructibly, this world of mortals..... Refers to is under Immortal God Domain?" The Long Chen doubts said.,,Is, regarding the Immortal God Domain person, they are the keeping aloof Spiritual God, but here is a world of mortals, is the world of mortals. They are control."Lingxi said in a soft voice.From leaving Sword Soul Emperor Palace, in bustling about and in the middle of hurrying along, particularly the eastern emperor territory that time was exhausted her simply, but she does not have any complaint, but also braves the huge danger, accompanied Long Chen to arrive at this damn antiquity monster territory.,,Goes in!"Long Chen set firm resolve.They nod, in the vision of opposite party, had found the trust.Long Chen pushes to the front, takes the lead, his deep breath one breath, shoved open that white door, in the gate presented a Ash Grey vortex, Long Chen has held on the Lingxi fair small hands, protected her in the bosom, then flushed.The strength of vortex, causes dizzily, but Long Chen at this moment, so-called world of mortals, already not many strength can threaten him, he has adjusted

quickly the body, shuttled back and forth. A moment ago was a small Universe world, but the present is in the middle of the small Universe world small Universe world. Short instant, Long Chen lived in own body on the stability, in his presents one piece at present the channel that not having five fog comprised, the air has been filling the massive Ash Grey dense fog completely, making people very difficult to see the thing of distant place, these dense fog look like the insects, mounts on the body, will feel that is specially disgusting. The wall of channel, is comprised of big piece of Ash Grey Rune, after Long Chen approaches, discovered that this Ash Grey Rune is having very strong strength, the structure is stable, Long Chen attempted to attack, displayed this Ash Grey Rune, worthily was under the Monster Clan ancestor cloth, stable degree toward the imagination of Long Chen. „First found Xiao Lang to say again.” Here is only a channel, only then 100 meters, but outside the channel, is giant air, inside made the Ash Grey fog filling up completely. They walk toward the front. „Gravity was actually getting bigger and bigger.” The Long Chen keen feeling said. „Front should be a gravity scheme, looks words that only walks, wait s to arrive at that gravity scheme, the gravity is very definitely terrorist, the psychedelic effect specially is also strong.” Lingxi said in a low voice. Has her help, Long Chen can know the much information. To the place of almost close gravity scheme, by the Lingxi present mortal body, endured compared with 4-layer Nirvana Calamity Realm, but still somewhat could not support, obviously here gravity, powerful to any degree. Only Long Chen, but also like is bystander. Although Lingxi can support the first half month not to have the issue ironclad, but Long Chen loves dearly her, making her treat in the middle of the god country, oneself, the dangerous surname also reduced. Then, Long Chen has stepped into the middle of the gravity scheme again. Really, the gravity is huge. This is the most formidable gravity of Long Chen bitter experience, moreover in the scheme, the average person absolutely cannot withstand, will choose to come to these 500 years of guard chambers, it is estimated that is the strong person. „Spacious, but is inexhaustible, Xiao Lang in which place?” Long Chen is thinking at heart, in this strange gravity scheme, slows pace the advance. Here is very similarly peaceful, making one who be only the Ash Grey fog rolling up and pushing along time sends out felt that the absolutely terrified sound, Long Chen has to plant to enter some biological belly feeling. „This gravity scheme was antiquity scheme, Brother Chen, you gave me much time, making me study, you can walk first everywhere, can perhaps bump into Xiao Lang, but was careful.” Lingxi clever saying. After Long Chen nod, then here wanders. Has not walked the progress, he has anchored the footsteps suddenly, what makes his pleasantly surprised is, the rear

area transmitted to make him feel very familiar Aura unexpectedly. Turns head suddenly, the Mo Xiao Lang look is peaceful, the long hair grips one bunch, wears the black vigor attire, the complexion is fair and clear, bridge of the nose tall Ting, the vision is pure, appears the young handsome, good pure youth. Has not thought that such quickly has run into him. „You have not thought that I such quickly did come in?“ Long Chen said with a smile, after seeing Mo Xiao Lang, the pressure in his heart has been short of some. „Is you, although is the imaginary technique, but this time also changes to me a nice point match?“ Mo Xiao Lang has smiled suddenly. „What meaning?“ Long Chen was stunned. „Brother Chen is careful!“ Lingxi reminded hastily. When Lingxi said these words, Mo Xiao Lang has used Ten Thousand Fire Burning God Divine Ability unexpectedly. All he has swallowed the flame, flaming is burning on his body at this moment unexpectedly. That scalding hot temperature, compels toward Long Chen. Mo Xiao Lang without demur, drinks one lightly, the whole person turned into a shadow, shoots to come toward the Long Chen wind, a twinkling between, Ten Thousand Fire Burning God condenses on the fist, has formed a flame giant beast, under the prestige of Mo Xiao Lang fist, raids loudly toward Long Chen! Suddenly, the surrounding Ash Grey air current blasted open. The flame might, sweeps across toward Long Chen. But these, have the vortex ability of [say / way] of swallowing. Has the reminder of Lingxi, Long Chen knows approximately that Mo Xiao Lang had the problem absolutely, therefore he steadily deals, Behead Divine Sword appears in the hand, a sword chops, the redundant or duplicated character Secret Art starts, nine Sword Qi under the Long Chen that incomparably precise control, block the attack of opposite party, that over ten thousand flame, gave to truncate to fly. „Xiao Lang!“ Long Chen explodes drinks one, violent Aura takes away as many things as possible toward Mo Xiao Lang, such giant roar enough the average person eardrum shattering, but Mo Xiao Lang just liked had still not heard, exuded one to sneer, said: „It seems like this test, but also very interesting, can block my this move unexpectedly.“ What is this? Long Chen cannot control that many, since the opposite party left the situation, that the first uniform he, Behead Divine Sword often kills, Long Chen takes on the contrary Golden Guard Demon Pagoda, under gathers into one, Golden Divine Dragon sweeps across, they start the fierce battle, compares, when Sword Soul Emperor Palace, the Mo Xiao Lang battle efficiency has the promotion slightly, however under Long Chen that intense fiercely attacking, Golden Guard Demon Pagoda displays that golden slaughter demon, the Mo Xiao Lang thorough imprisonment! Several sticks get down, hits him is hard to move, Long Chen again by Golden Guard Demon Pagoda suppression stubbornly he, preventing him to turn into the beast shape, such is not good to cope. By own vast strength,

after forcing suppresses the opposite party, Long Chen in careful observation Mo Xiao Lang, discovered that the opposite party is in fact sober, was not confused likely, but doesn't he probably know himself? Or has regarded as itself another person? Did he lose recalls? Is this impossible? This absolutely is real Mo Xiao Lang, because in the world, only then his bites to say the monster wolf. Therefore Long Chen asked: „You did not remember me, was I your Elder Brother Long Chen?“ Under the suppression of Golden Guard Demon Pagoda, Mo Xiao Lang furiously is struggling, exclaimed: „Is this time Trial duty strong to this degree? Does not have the means resistance completely, made a mistake?“ Long Chen is stunned, this what's the matter?.....At noon 2. During 2-4 : 00 pm 1. 18.2. Today looked that top whether crosses 6000. 1635: Black small beast

Did this time Trial duty make a mistake? What bird meaning is this? He walked up, has pulled taut the Mo Xiao Lang front piece, has flung his two palms of the hand, the violence exclaimed: „Xiao Lang, you see clearly, who I am!“ Really, Mo Xiao Lang peaceful, in the eye also revealed the look of doubts. Long Chen thanks heaven and earth, finally had the favorable turn, these two palms of the hand hit the value very much. But at this time, Mo Xiao Lang suddenly, to near at hand Long Chen, has been putting out he most fatal Cultivator, Nine Nether Demon Ancestor Flame! This grade of flame, can only be repulsed including present Long Chen, under panic-stricken, he backs up hastily, very thrilling has evaded the opposite party motive, but also in this moment, Mo Xiao Lang uses Nine Nether Demon Ancestor Flame fires Long Chen that to suppress his Golden Guard Demon Pagoda, has caused the Golden Guard Demon Pagoda surface, tied thick solid ice, even also destroyed small part! This is Long Chen now strongest Cultivator, cannot make Mo Xiao Lang destroying, but, Long Chen can only Golden Guard Demon Pagoda receiving, but at this time, Mo Xiao Lang seized the chance to launch the maximum speed to run away. Long Chen received Golden Guard Demon Pagoda, hurried to pursue, by the speed, he was Mo Xiao Lang several times, but in fact was actually, in this gravity scheme, the thing of distant place could not see, moreover during the time was transforming, Long Chen next flushed some time before the suppression of gravity furiously, actually the discovery in the transformation of scheme, Mo Xiao Lang quickly lost the trace. Long Chen can only be incapable stopped, the look cold severe glance all around, was asking Lingxi: „You can look, what's the matter?“ Lingxi said: „Issue should leave on the body of Xiao Lang, he should in the middle of something by this gravity scheme confusing, him had regarded as others you a moment ago obviously, and cannot hear your sound, cannot see your look, but has

regarded his Trial duty you.....”Long Chen said keenly: „We are the same with Xiao Lang, Xiao Lang has encountered such situation, definitely has any thing to be up to mischief, the thing that then this is up to mischief, thinks that also in a short time, will look for our two!”In the brain just presented this idea, Long Chen had discovered that this idea became the reality immediately.In the middle of the Ash Grey fog, is mixing with some black dense fog at this moment unexpectedly, when Long Chen and Lingxi exchange, this black dense fog, absolutely does not have the life condition, actually arrived at Long Chen.When Long Chen realized that issue, the black dense fog, has pasted quietly on his cerebellum, Long Chen suddenly, felt a fierce pain, occurred in the forehead, this makes him call out pitifully to make noise!Under Immortal God Domain, can make him send out the pitiful yell the thing, does not have many seriously.Also only this strange antiquity monster territory, possibly existed.„Brother Chen, you how!” Lingxi has flustered all of a sudden, the complexion drastic change, the small heart and liver splash is jumping.Long Chen has been incapable of answering her issue, because he feels that the thing irresistibly, is going toward his Knowledge Sea, in the flash of that stabbing pain, that group of black dense fog, entered Long Chen Knowledge Sea.Big Knowledge Sea, illusory Imaginary Universe Dragon, has opened the control world invincible might eye.That black dense fog, went toward a Long Chen Yuan god, but when it discovered that Long Chen Yuan god, unexpectedly after is a dragon, that black dense fog sent a squeal of beasts, but already late, Long Chen at this moment incomparable Pure Brightness, in the middle of the Imaginary Universe Dragon eye projected together the illusory ray, hit that black mist, immediately, the black mist keenly blowing running away, was just leaving the head of Long Chen, was used Behead Divine Sword by Long Chen, pierced the body instantaneously!„I am all right Xiao Xi!” Long Chen makes her feel at ease first, then with single-hearted devotion looks that by thing that Behead Divine Sword pierces, this is a black small beast, does not have the hair, the whole body is smooth, looks like a rubber ball, big eyes, at this moment piteous looks at Long Chen, sends out baby the crying aloud sound.Is begging for mercy likely.Long Chen is impolite with it, he imprisoned this stubbornly a moment ago almost a oneself Yuan god gave to swallow the terrifying thing, said to Lingxi: „Xiao Xi, what this is what? Whether was causes Xiao Lang to turn into a moment ago such chief criminal? He entered my Knowledge Sea in the flash ambush a moment ago unexpectedly.”Lingxi a moment ago was soul-stirring, at this moment relaxed with great difficulty, this antiquity monster territory everywhere was still high-risk.She examines carefully, said: „This beasts, definitely are not Monster Beast, has this and other mysterious methods, I do not know that is any thing..... However, I thought that it as if must enter your Yuan god, then causes your anaesthesia, psychedelic in you, thinks that now Xiao Lang was makes this small beast psychedelic live, thinks one in Trial, his any feeling, sense of hearing, vision, sense of touch, sense of smell wait / etc., it is estimated

that in grass of this small beast vertical , will therefore unable to hear your sound, could not see your look.”,,, Fortunately my Yuan god is Imaginary Universe Dragon, otherwise I will become will be also same as Xiao Lang.”,,What to do then should?” Lingxi somewhat anxious asking.,,First gave to find Xiao Lang, then thought the means making in the middle of his Knowledge Sea the black small beast, finally inquired him again, how can take away him.” Long Chen said decisively.Lingxi nods, then said: „During this scheme has been transforming, but the eye is quiet, has not transformed, we found an eye first, I estimated that Xiao Lang possibly stays in that place, you give me to select the time, I try to find out this Formation path.”Has the Lingxi help, is more convenient.If Long Chen, take certainly one to move from side to side to no purpose, one year later can find Mo Xiao Lang here, was his luck is good.In this as for the hand has not died small beast certainly, Long Chen hangs it on Behead Divine Sword, lets its wail, making it call out pitifully, this gravity scheme is so big, definitely also has its similar, this its similar must come, to see the pitiful condition of this small beast, it is estimated that will also run away in fear.Long Chen discovered that the courage of this small beast is actually very small.This perhaps is a breach.With the efforts of Lingxi, they have circled for three days three nights of time, finally had found only together the peaceful place. Here was the eye institute, in a diameter ten meter s circular range, did not have the Ash Grey dense fog and gravity probably exists.After Long Chen this eye, Long Chen relaxed finally.Because of him here, saw Mo Xiao Lang, he is doing in that eye, the whole body flame, has formed the giant vortex, is pasting on his body.He in Cultivate.The Trial duty adds Cultivate, looks like with really almost, but in fact the so-called smelting trial duty, is the false appearance that black small beast creates.Long Chen does not dare to approach Mo Xiao Lang temporarily, he worried that Mo Xiao Lang gave to run.Small beast on Behead Divine Sword, after experiencing for three days three nights of crying aloud, finally died certainly.The Long Chen vision is dense, is thinking the method of solving the problem.He has a Imaginary Universe Dragon Yuan god, but Xiao Lang does not have.....Uses the Lingxi Sword words, will injure to a Xiao Lang Yuan god, after all this small beast is not Devouring God Insect, but compared with a Devouring God Insect Ghost God Insect fiercer thing.When the Long Chen ponder, the malignant influences transmit.Turns head to look, one group of huge black dense fog, well up toward oneself.Long Chen carefully looked, really has over a hundred black small beasts.To be honest, from the beginning Long Chen was really also daunted.But he smiled immediately.In the middle of the Mo Xiao Lang Knowledge Sea small beast, saw after over a hundred similar were killed, will timid it, have what kind of choice?Long Chen as if found the means of explaining.Therefore at this time, he chose resolutely, approached in the Mo Xiao Lang direction.That black small beasts, come in swarms at this moment.Their it does not have what battle efficiency, such large-scale sending out, simply does not have any means that a Long Chen sword, can cut to kill several at will to get down.Naturally, when Long

Chen goes well, several small beasts have crashed in the middle of his Knowledge Sea, while they prepare the big show hands and feet time, Long Chen relaxed gave to compel them. „Non- character Secret Art!“ When discovered fiercest taking advantage, to Long Chen unexpectedly invalid time, all small beast incomparable startled, the pitiful yell again and again, prepares to run away! But at this moment, Long Chen is displaying final killing to incur! Behead Divine Sword, on the body of each small beast, punctured. Long Chen has not killed them, therefore at this moment, in Mo Xiao Lang at present, over a hundred small beasts, is exuding the pitiful crying aloud sound, is tumbling on the ground. At this moment, Mo Xiao Lang flame recycling, he stands, looks at Long Chen with the indifferent look, said: „The smelting trial duty of this meeting, turned into you, beautiful.“ He regarded as Su Yan Long Chen. The Long Chen eye is narrowing the eyes, without demur. But at this time, Mo Xiao Lang came out from the scheme, body flame combustion. „Do not think that is my intimate person, can confuse me, I will not be swindled!“ Mo Xiao Lang is sneering. Long Chen has aimed at the opposite party Behead Divine Sword, said: „Hurries to come out from him, otherwise, I your complete similar, will give to kill.“ Mo Xiao Lang is aloof, comes toward the Long Chen attack. Long Chen at the remarkable speed, fends the opposite party, simultaneously a sword chops, immediately, several small beasts had ended the pitiful yell. Long Chen may, no matter they are full of wisdom, the wisdom low biology, saw the similar deaths, will feel frightened. Mo Xiao Lang continues to attack. „Has not come out, you well look that I kill them, you attack one time, I kill one time.“ At the Long Chen speed, he with Mo Xiao Lang to the war, Mo Xiao Lang cannot overtake him. Under Behead Divine Sword, black small beast dies in the Long Chen under foot one after another. After dying probably 30 small beasts, Mo Xiao Lang stopped finally, the whole face is panic-stricken, this is that black small beast most real performance. „Go away, I can forgive you to be surnamed the life.“ Long Chen said. At this moment, on the Mo Xiao Lang head, the black mist ascends, Mo Xiao Lang falls down softly. Long Chen has supported him.....The click list first, cannot be exploded.

Chapter 1636 intermediate total

The Long Chen method is accepted. During this black small beast innumerable years survive here, definitely have some sentiments, their wisdom is low, there is a similar this concept. When saw own similar dies under the Long Chen sword, but Long Chen also when threatens itself, that grass vertical Mo Xiao Lang black small beast, finally chose has drawn back timid, stampede. Long Chen has not pursued, for him, the Mo Xiao Lang safety issue, was much more important compared

with other matters. Mo Xiao Lang this moment stupor in the past, but is quick, he is spooky the extension to wake, when sees Long Chen unexpectedly here, he broke away unexpectedly immediately, has drawn back several steps, sneered: „Turned into my Elder Brother?“ Mo Xiao Lang does not know one once were confused by that black small beast. The Long Chen vision is quiet, said hastily: „Xiao Lang, I really am your Elder Brother, you calm down first, waits for me carefully with interpreting.“ Mo Xiao Lang said with a smile: „Will confuse unexpectedly also me in the spoken language? The method is really high.“ Saying, he attacks unexpectedly once more. Long Chen has fended his attack, said: „I under the order of True Martial Great Emperor, come Desolate Emperor Palace, wants to let Desolate Emperor Palace and three territory nine union same places, resists Tragic Death City Lord, but after arriving at Desolate Emperor Palace, cannot see you, then Su Yan told me, you made desolated Great Emperor bring this antiquity monster territory, therefore I came.“ Here, Mo Xiao Lang called a halt, he had doubts looks at Long Chen, saw how to think, therefore he asked: „Are you really my Elder Brother? Good, do not approach me first, I asked your several questions.“ „You asked.“ Long Chen said. Mo Xiao Lang visits him calmly, asked: „You said a moment ago who told you, I in the antiquity monster territory? Beautiful? How beautiful knows that I in antiquity monster territory, I was led secretly by six big monster emperors. Can your this rumor be not much?“ Long Chen is stunned. Probably, a little issue..... His calm getting down, some not a good premonition, he has gained ground at heart suddenly, asks: „Xiao Lang, you said that you haven't made the beautiful signalling give me? Has not told me, making me come in this antiquity monster territory, leading you to exit?“ Sees Long Chen that shocking complexion, is not installs likely, Mo Xiao Lang has been startled, said: „First did not say this issue, do you hold true by proving you are my Elder Brother, you were a moment ago beautiful to come.“ Mo Xiao Lang was confused thoroughly. In the Long Chen direction ground, there has the corpse of black small beast, he said: „Is this black small beast, they will turn into the black fog, hides in the middle of the Ash Grey fog, will invade your Knowledge Sea, makes the fantasy before your Yuan god, you saw all before, the vision, sense of hearing or the sense of touch wait / etc., is this black small beast makes, I a moment ago with slaughtering these small beasts, threaten that to control the ghost thing of your body, you a moment ago whether dizzy, that was the black small beast left your body. Trial of this guard chamber is a fraud, indeed you Cultivate in this, will have progressive, but is also not necessarily have the too big effect.“ Listens to these, is looking at Long

Chen that sincere appearance, if Long Chen is also only the Trial duty, probably does not have the means to have so rigorous logical thinking.....Thinks of here, the Mo Xiao Lang look is excited, said: „Really are you my Elder Brother?“ „False?“ Long Chen said with a smile.„Really is you!“ Mo Xiao Lang relaxed the alert finally excitedly, look looks at Long Chen, he has resounded a matter suddenly, the complexion becomes strange, he asked: „Elder Brother, you said a moment ago that is beautiful tells you, I in the middle of this antiquity monster territory, moreover requested that you do come to rescue my?“ Long Chen was startled.He transmitted that day Su Yan to his words, completely with the statement of Mo Xiao Lang, included desolated Great Emperor only to treat in the middle of the mirror, the Long Chen strength can break this guard chamber wait / etc. to vanish.Listens to these, the Xiao Lang delay, he said excitedly: „I do not know that the Emperor can only treat this matter in the mirror, had not said your strength can break here, at that time the time was urgent, I comes back after Sword Soul Emperor Palace is brought to come to here, has not seen beautiful, Elder Brother, this what's the matter?“ Heard this saying silly, Long Chen.He realized that he was deceived.„Desolated Great Emperor has deceived me!“ Long Chen has an absolutely terrified feeling, his thought has been very keen, extremely little to be deceived, but this time, arrives at Desolate Emperor Palace to start from oneself probably, fell into the middle of the opposite party careful Bu Hao bureau.From letting Long Chen knows that Mo Xiao Lang that 500 years cannot leave the Desolate Emperor Palace condition. To did not respond to the news of True Martial Great Emperor union, initiated Long Chen to arrive at Desolate Emperor Palace, then received Long Chen with six big monster emperors, the words were ambiguous, then made Su Yan tell Xiao Lang to request one rescued, and told itself desolated Great Emperor not to have the means to leave the matter of that mirror, finally and six big monster emperors to the war, as well as desolated Great Emperor came out finally, approximately deceived oneself by a gambling.....All these, are the careful prepare bureaus.„This matter possibly was not I said absolutely, I so will not have the discretion, you need with the Tragic Death City Lord resistance, to need to reactivate your younger sister now, but here was so dangerous, will I possibly make you look for me? Elder Brother!“ Here, the Mo Xiao Lang complexion change was very big, he also guessed correctly that was desolated Great Emperor supposes the general situation, deceived this antiquity monster territory Long Chen step by step, he let a Mo Xiao Lang confinement 500 years of goal, always for Mo Xiao Lang, the true goal, unexpectedly was not Long Chen.....Why desolated can Great Emperor aim at itself?He truly to train Mo Xiao Lang from the

beginning, but afterward knows that own news, does deceive oneself using Mo Xiao Lang? Why will Long Chen come in? That is because, he thinks in the Xiao Lang surname standard, if has not had the important matter, will not request own. Therefore he thought subconsciously certainly is important matter, therefore he must come. But, desolated Great Emperor held Long Chen this thoughts. „Certainly is ghost who the Emperor does? Why does he want also to deceive you? Also wants to make you treat for 500 years in this damned place? What advantage does he have?“ Mo Xiao Lang is quite resentful, he all responsibility, summed up to his body at this moment. He fell in the middle of deep remorse. The Long Chen racket his shoulder, said: „First should not be excited, do not lose the discretion, is not all right.“ At this time, has looked at Lingxi that they talked, remembered a matter suddenly. „Brother Chen, I know these black small beasts probably.....“ At this moment, the Lingxi sound becomes incomparably frightened, her complexion is getting more and more pale, certainly has thought of the fearful matter. „What are they?“ Lingxi came out from the god country, Long Chen and Mo Xiao Lang also asked. Lingxi somewhat startled shaking the head, said: „Hopes that I guess, during the old book record, the Devouring Dragon Monster body had a thing of similar parasite mistakenly, the name was called the ghosts and demons imaginary beast. Is one type can confuse the small beast of person, is Devouring Dragon Monster Cultivator, sometimes ghosts and demons imaginary beast and Devouring Dragon Monster coordination, even can make Divine Dragon short time be confused, then the young dragon was stolen by Devouring Dragon Monster. Before presented a Devouring Dragon Monster statue, but here presented the living ghosts and demons imaginary beast.....“ Long Chen holds breath a cold air/Qi, said: „In other words, this place possibly has Devouring Dragon Monster, but I just melted the dragon, I at this moment am a young dragon, but is returns alive a few days after young dragon. Desolated Great Emperor deceives oneself to come me, therefore very possible..... The desolated Great Emperor main body, is Devouring Dragon Monster!“ „What is Devouring Dragon Monster?“ The Mo Xiao Lang delay asked. The Lingxi complexion was very flustered, she having the introduction about Devouring Dragon Monster, said to Mo Xiao Lang. „Anything!“ A Mo Xiao Lang head blank, is heavy such as mountain desolated Great Emperor to his graciousness, the main body unexpectedly is Devouring Dragon Monster. Moreover, he must have the idea of oneself Elder Brother Long Chen unexpectedly..... This speculation, likely is the fact. If this is the fact, then definitely will have the huge impact on Mo Xiao Lang, because both

sides are the people who he respects. „Elder Brother, sorry, was I have harmed you, sorry!” In the Mo Xiao Lang eye covers entirely the blood thread, excited looks at Long Chen, whooshes in a low voice: „I have not thought that desolated Great Emperor unexpectedly is such fellow! Really has not thought!” „Shut up!” Long Chen drank to stop him, then calmly said: „Let alone what sorry, the opposite party always annihilates the arch villain, this matter does not have any relations with you, what not to rebuke oneself, I am also all right now . Moreover, Devouring Dragon Monster, wants to swallow my Long Chen, does that certainly swallow under?” Lingxi also comforts Mo Xiao Lang, said: „Is Xiao Lang, now is not remorse time, since has clearly recognized his true colors, we not, when he is the good person and that's the end, moreover from now on he will be an enemy, we must hurry to find the way to leave here.....” In Long Chen drinking stopped with the Lingxi gentle spoken language, Mo Xiao Lang sobered gradually, he has closed the eye, when an extremely intimate person plotted to murder a oneself more important person by the scheme unexpectedly, his time innermost feelings, were really uncomfortable. „Is Xiao Lang, now good to select?” Long Chen asked in a soft voice, was concerned visits him. „Um, I somewhat was a moment ago excited.” Mo Xiao Lang nods gently. Long Chen observes the situation around, said: „Some people play a trick, we revolt, we pass through these many years the roads, between had already not been unfair to these three characters. Xiao Xi said right, the present is we seeks for the means the matter, if the opposite party disregards another's feelings, we do not need to leave behind the face.” The Mo Xiao Lang nod said: „I understood. If he is harbors evil intentions, even if bestows I big future, that is also only the bestowment of hypocrisy.” This danger, actually deepened among them the sentiment of Younger Brother.

1637: 100,000 years of guard chamber

Desolated is Great Emperor, what kind of person? To be honest, even if Long Chen and Mo Xiao Lang at this moment, is not the special understanding. Perhaps he is Devouring Dragon Monster, perhaps but may also is not. All these, guessed. What we definitely know is that the opposite party plays a trick to deceive oneself, this actually real. Then, he for what? „We cannot sit waiting for death. First has a look whether to have the method to leave here.” Long Chen has played the role of pillar at this moment. In Lingxi gradually under ponders over, had the preliminary understanding to this gravity scheme. After a period of time, people in the middle of channel that returned to come from the

beginning, actually discovery that white door already vanished, in fact Long Chen came, also has not discovered the white door. He has put out Golden Guard Demon Pagoda, sought for the moment in , does anything have the discovery. „I try to shell this Rune wall.” Falls back on beside the channel, Long Chen in that instantaneous, elongated over a hundred meters distance Golden Guard Demon Pagoda, the vast strength divided loudly, in that instantaneous, Golden Guard Demon Pagoda hit loudly above the Rune wall, but, that Ash Grey Rune structure was quite it is a pity that astonishing, entire gravity scheme Rune linked completely, Long Chen, although rapped place, what coped was all Rune strengths. Long Chen finds out the disparity approximately. This disparity, is he melts the dragon, very difficult this Rune tearing. Moreover, who knows beside that Rune is what? „Transfers the extension to look again everywhere.” After this direction is invalid, three people continue to transform the direction, attempts to seek for to feel strange the place, or essential point. The gravity scheme in fact is very big. Three people have spent 45 days, finally this gravity scheme transferring, but has not actually discovered any exit / to speak. The place of that entrance once said that the strength of world of mortals, is unable to open these 500 years of guard chambers, in other words, they must depend on the destruction the words, is very difficult. Basically has not hoped. In the almost desperate moment, they in this gravity scheme, had finally found a quite strange place. At present, is one gate that is congealed by the Ash Grey fog, inserts in the middle of the Rune wall, this is quite big, long and wide has over ten meters. At this moment, on the gate that in this Ash Grey fog congeals, still has many Rune, Long Chen has attempted with Golden Guard Demon Pagoda from the beginning, he discovered that here gate, must be hard to destroy compared with these Rune walls, but key point, definitely in this gate. Since is unable to break this gate, Long Chen focused on the body of other same thing. Devouring Dragon Monster. Right, before this gate, a Devouring Dragon Monster statue, but, this statue is actually much bigger, no longer is a small beast, but is a giant beast. This Devouring Dragon Monster appearance is clearer, what can see, its body grew similar Divine Dragon Dragon Scale unexpectedly, has one to make one feel that disgusting and terror big mouth, is unlovable, appears the evil spirit is shameless. Why does not know, after seeing this Devouring Dragon Monster statue, Long Chen discovered own detesting especially, this possibly is the relations of bloodlines. This made him have one type to immediately this statue pounding impulsive. „If this place has exit / to speak, that exit / to speak definitely in this gate.” The speculation of Mo Xiao Lang said. „Therefore, we must think means to break this gate are good.” Lingxi is crooked the head, she used the Six Dao immortal sword to try, is still not actually able to break out this gate. Even Xiao Lang has burnt with Nine Nether Demon Ancestor Flame, the discovery still did not have any effect. „Brother Chen?” Lingxi turns head to look that actually sees Long Chen to stand in front of that Devouring Dragon Monster statue, lowers the head the ponder. „Brother Chen, what are you thinking?” Lingxi curious before walking. „I try.” Long

Chen advances her behind, has brandished Golden Guard Demon Pagoda, pounds toward that Devouring Dragon Monster statue overhead, the Golden Guard Demon Pagoda enough 50 Divine Dragon strengths in roaring, are having an anger, pounded loudly on that Devouring Dragon Monster statue, that Devouring Dragon Monster pounding pulp. Bang! The massive crushed stones explode to shoot. At this moment, Mo Xiao Lang and Lingxi, why did not know Long Chen to this Devouring Dragon Monster moving. When they in astonished, the discovery behind fog front door, at this moment unexpectedly is actually dissipating. „Fog dispersed!“ Mo Xiao Lang pleasantly surprised saying. Long Chen has turned head cold, three people look, waits for that fog completely dispersing the time excitedly, the discovery appears in oneself at present, is another white door. „Above has the character.“ Three people approach together. In that white door, writing: 100,000 year guard chamber. Altogether six ancient characters, the present white door looked like has filled the trace of years, was very unusual. Thinks that the history quite rescued. „100,000 year guard chamber? Here is 500 years of guard chambers, but inside unexpectedly is the 100,000 year guard chamber, the words that we must go, are unlikely hard!“ The Mo Xiao Lang doubts said. These words said that was hugging also three people of hope, became very discouraged. They think had found the exit / to speak, has not actually thought that presented a 100,000 year guard chamber unexpectedly. „The span of time was too big.“ The Long Chen vision is calm, suddenly said one. „From one year two years, ten years 20 years, to 500 years. The span is not very big, but this 100,000 year, enough is 500 years of 200 times. Moreover, general in 1000 lowers 1-layer Nirvana Calamity, ten 8-layer great misfortune, 18,000 years can handle. If in the middle of this guard chamber, the 100,000 year is unable to come out, that can only say that is the same with the True Martial Great Emperor Five Elements sky tower, stays, can avoid Nirvana Calamity.“ This is the Long Chen doubts place, why in 500 years of guard chamber, but also is hiding a 100,000 year guard chamber. Lingxi asked: „Brother Chen, can we go in this?“ Long Chen shakes the head, said: „Temporarily did not consider, when has had no way out then comes, I thought actually that has the possibility very much we, if goes here, has fallen into a deeper pit, could not come out.“ They thought that is also so. Since is this, they then gave up here, saunters in this gravity scheme once more, these time passed ten days, is unable to discover other exits. „Is unreasonable, desolated Great Emperor deceives oneself to come me, still did not begin.“ Before three people returned to that 100,000 year guard chamber, once more. Long Chen stretches out the finger, aims at that 100,000 year the guard chamber, said: „In other words, his goal is to let us enters here, if we do not go, that affirmation, will be stranded here, 500 years later. However if we go, on meeting at his scheme.“ Lingxi and on the Mo Xiao Lang face has the worried look. Mo Xiao Lang said: „If so, does not have other choices, Suo fights, perhaps also hopeful, if treats for 500 years in this, definitely will harm Lingqing.“ Because of the relations of Yang Lingqing, Long Chen the too much time, was unable to consume here. This time, Long Chen lowers the

head to rack one's brains.„Elder Brother, I have means.” Mo Xiao Lang said suddenly.„You said.” Long Chen gains ground.„The desolated Great Emperor goal, should be you are right? I did not make him achieve wishes, I went in this 100,000 year guard chamber to have a look at the situation, looked that I can solve the trap under his cloth, if I can solve, perhaps I had or inform your method, but if I unsolvable, that on over one month time, you have decided again.....” Mo Xiao Lang this surname standard is this, regardless of any matter, wants to rush by oneself in front, offers for others.„This is not good, we are Younger Brother, since does not have other methods, only has this final striving for success, why doesn't go in together? Many person many strength.” „It is not good Elder Brother, the goal of Emperor is you.....” Mo Xiao Lang said anxiously.„Everybody fights together, how could it not be? Xiao Lang does not need to say again.” Lingxi said in a soft voice. Sees them so to request, Mo Xiao Lang can only , but nods.„Xiao Xi, you enter my god country.” „Why, I can also offer the strength.” Lingxi not according to eternal principles.„It is not this, if there is matter, two people I am not good to look, moreover you in the middle of the god country, can ponder clearly when the time comes regards the dark move you, to be just right?” Long Chen coaxes her to say. In fact main goal, does not want to make her take risk. After all by the fight, she compares to Mo Xiao Lang, was inferior slightly. Finally convinced her, Long Chen and Mo Xiao Lang they looked at each other one, Long Chen pushed to the front, take the lead, they walked outside that white door, at this moment, Long Chen deeply inspired, shoved open the white door gently, when he that door opening, an overwhelming enormous force, the impact came, attacked to fly him and Mo Xiao Lang! „Be careful!” They were shaken fly hundred meters, just now has stabilized. They have not entered that 100,000 year the guard chamber. At this moment, they are shocked looks at that white door, sees only that white door to be pulled open gently, a miserable white palm, covers near the gate. When the gate was pulled open completely, a miserable white person's shadow, from that 100,000 year guard chamber, walked, from the beginning his whole body in the middle of winding around of fog, comes out until him completely, the fog clears, his appearance, clear development before Long Chen and Mo Xiao Lang body. This is the age looks like with Long Chen their similar youth, the appearance is ordinary, even is somewhat ugly, the mouth somewhat is slightly big, the skin color is pale, the eye socket is very big, two atheistic eyeballs sways, in the top of the head is remaining several white, sticky building above. This man..... On him, Long Chen felt that by Aura that oneself suffocated.....

1638: The brothers test

This person, who is he? Long Chen did not know that Mo Xiao Lang did not know similarly. However, was he in the middle of the 100,000 year guard

chamber, detained for at least several thousand years? On his body, Long Chen felt Aura of beasts, if guessed that good, this person thinks that was Monster Beast, Monster Clan. At this moment, he gains ground, that atheistic eye has sized up Long Chen and Mo Xiao Lang a while, twists the mouth sidewise that big mouth, suddenly, he hey has smiled. Long Chen and Mo Xiao Lang by in the same place, the intuition told them, this absolutely was a dangerous character. „Don't you you, know me? Couldn't Xiao Lang, including me, you recognize?“ That ugly pale youth said with a smile. This sound, Long Chen naturally remembers. In Desolate Emperor Palace, that mirror desolated Great Emperor, the sound that makes is so, is very kind, is very genial, little makes people feel the repugnance. With his present appearance, does not match. He is desolated Great Emperor! Desolate Emperor Palace, three territories nine, the first person of recognition! However, he how in this antiquity monster territory, in the middle of this 100,000 year guard chamber! After discovering this person unexpectedly is desolated Great Emperor, Mo Xiao Lang dumbfounded simply. Desolated Great Emperor that he knows, not on that mirror of beast god main hall? Why, will he appear here? At this moment, that desolated Great Emperor is approaching them unexpectedly. Long Chen and Mo Xiao Lang subconscious vigilant backlash. „You are afraid me unexpectedly, why?“ Desolated Great Emperor received the smiling face, strange saying. Long Chen visits him indifferently, the innermost feelings were actually pondering. „Looks at this, obviously true body in the middle of this 100,000 year guard chamber, had been detained very long time, is the same with True Martial Great Emperor, from the beginning I hit to explode the Devouring Dragon Monster statue, he has not come out, until I have shoved open that white door, in other words, he is unable to come out, was I gives to put him.“ This is almost a dead end. If Long Chen does not put him, then can only wait for 500 years later can leave. Because of the relations of Yang Lingqing, his one year, cannot wait. Since the opposite party putting, then rebukes oneself to be useless, only 1-layer wants how to cope with this old monster. Is he Devouring Dragon Monster, what is his goal? They have not answered the desolated Great Emperor issue. Desolated Great Emperor has smiled, said: „It seems like your two children were frightened to fear by me, right, is I uses the idea roaring your Long Chen, however, my goal makes you rescue from this 100,000 year guard chamber me, you possibly do not know that Devouring Dragon Monster statue, is the institution under my Monster Clan ancestor cloth, is the Dragon Warrior weapon to break, can save me. I am absolutely well-meant, you do not need to

fear me."Long Chen and Mo Xiao Lang were stunned.Like this according to words that spoke, oneself before guessed that he is the view of Devouring Dragon Monster, is wrong?The opposite party wants to make Long Chen solve, comes out from this 100,000 year guard chamber?Although this view, does not have any too big loophole, but Long Chen always felt that has probably the incorrect place.Saw that they were still vigilant, desolated Great Emperor turns head, sees that Devouring Dragon Monster fragment, he cannot help laughing, said: „Children, you actually think that I am Devouring Dragon Monster? Too was really naive, if Devouring Dragon Monster can live now, that has real Divine Dragon to live inevitably the present. As for these ghosts and demons imaginary beasts, truly is my ancestor breeds, special being used lets Cultivator Cultivate in clan, the ghosts and demons imaginary beast and well-meant, but simulates a combat environment to you."Are their beforehand guesses, wrong?Desolated hasn't Great Emperor harmed their meanings?They in fact had guessed from the beginning desolated Great Emperor true body possibly in the middle of this antiquity monster territory, has not thought that meets unexpectedly real.The Long Chen ponder moment, said: „I think what is not clear, if you need me to help, so long as you spoke frankly, I looked in the Xiao Lang face, will not reject inevitably, but why did you deceive me? Can't this be justified probably?"The ugly desolated Great Emperor hollow laugh, said: „I was sorry about this point very much that I was not clear you are what kind of person, reason that because I certain cannot talk about, must hurry, therefore then sets up the next small bureau to make you come, but I can guarantee, I absolutely to you well-meant....."Although the innermost feelings are unable to trust this fellow.However, since he said like this, leeway that Long Chen has not refuted.Therefore he then asked: „Such being the case, you definitely have the method that leads us to leave, right?"Asked this issue, desolated Great Emperor has held down with the spacious pale palm suddenly own head, laughed saying: „That was natural, was only, before departure, I must ask my Xiao Lang very slightly very small question."He spoke, started to have an appalling feeling.Long Chen and Mo Xiao Lang were also anxious.Because they thought that this desolated Great Emperor somewhat goes crazy.,„foster-father, you asked." Mo Xiao Lang said.After desolated Great Emperor smiles, look becomes strange, he said: „I ask you, if between I and Long Chen, must die a person, you hope that who can be?"Hears this issue, the heart that they just slightly relaxed, tightens once

more, they realized that probably desolated Great Emperor the reason that Long Chen deceives, not only radically puts him to come out to be so simple. Mo Xiao Lang said earnestly: „foster-father, this issue any significance, you and my Elder Brother has not been my side important person, by me and your relations, among you are impossible to have this situation.” Desolated Great Emperor becomes angry, he a little acts like a madman looks at Xiao Lang, said: „I may, no matter, you if not give me an answer, my possibly temperament meets not well, may make to let your grieved matter.” Really, this fellow is not normal. They are vigilant once more. „I take an answer, otherwise, otherwise..... Ha Ha!” Desolated Great Emperor giant mouth. Mo Xiao Lang has gotten hold of the fist, he is unable to lie, access road: „If must choose, I definitely choose my Elder Brother, does not know that foster-father to this decides whether satisfies?” Regarding this reply, Long Chen did not have the means to say anything. He knows that this inevitably is the answer in Mo Xiao Lang heart. The people are unable to abandon the answer in oneself heart, therefore Mo Xiao Lang is so straightforward simple saying, he will not think Mo Xiao Lang to be stupid, will only think that the life can have such Younger Brother, is worth very much. Even if were threatened by the enemy, cannot say the words that is contrary to convictions! This is the sentiments of their Younger Brother. This reply, was makes desolated Great Emperor smile one, perhaps he already knew this answer, therefore his sigh with emotion saying: „Really is the enviable friendship, what a pity my this life, never has nice Younger Brother, really envies you? I a little want to know that the sentiments of your Younger Brother can accept the test really? I asked again your issue was good.” Here, he the vision became somewhat gloomy, said treacherously: „That, if among you, the person must die, you hope that who can be? Long Chen replied first.” This issue, let Long Chen and Mo Xiao Lang feels fight Scent. They almost can determine that desolated Great Emperor must begin to oneself, although unclear is really any reason, but he easily will as if not let off himself. Long Chen has prepared from the beginning fight, when desolated Great Emperor is staring at own place with the gloomy vision, Long Chen replied: „Great Emperor looks like has the interest very much, asked such question, I and Xiao Lang, if not, you really very much do want to know my answer?” „Naturally.” Desolated Great Emperor assured saying. Long Chen then speak unhurriedly and clearly said: „, I will choose to make that set two dead a regular person to us, who lets our one die, whom I make die. That person should not be desolated Great Emperor in any case, right?” „Naturally was not I, your this slippery fellow, evaded my issue unexpectedly.” Desolated Great Emperor has smiled, his expression looks like Elder,

was imprisoned many years of lunatic likely. Finally he asked Mo Xiao Lang, said: „Xiao Lang, your answer?“ Mo Xiao Lang clenches teeth, said: „foster-father, if you want to make our one die, we can only kill you with joint forces.“ His reply, compared with Long Chen directly. His vision intertwines, but pain, in fact, he respects desolated Great Emperor, but said now that he discovered this person, during is not imagines completely that appearance. The present person, is a lunatic. After listening to the reply of Mo Xiao Lang, desolated Great Emperor laughs once more, this time he smiles to bend the waist directly, until for a long time, him has stabilized own mood, said: „You leave are too anxious, I too, saw your Younger Brother sentimental such depth depressed for a long time, in society is rare, I envy extremely, therefore then tests you.

The result of obtaining makes me change countenance very much, makes me envy very much. Other meanings, have not thanked you to give to me to be free, then I lead you to leave, comes with me.“ Then, he really in the front guided. Long Chen and Mo Xiao Lang were made by him really ignorant, is really this? Does he want to tease itself really? „Follows him?“ Mo Xiao Lang asked. Long Chen nods. Desolated Great Emperor that last few words, look like probably real, should not be false, he tests them. In the middle of followed, desolated Great Emperor has not cracked a

joke again, but said that some young time trivial matters, said before him, has Younger Brother, but actually died in the middle of Nirvana Calamity, he fondly remembered him very much, but did not have the means that the life was this, in the future you must die in the middle of Nirvana Calamity, can live, needs to endure the lonely person without limits, for example True Martial Great Emperor, for example he. His loneliness and lonely, Long Chen can understand approximately. „exit / to speak in front.“ Desolated Great Emperor turns head suddenly. Long Chen is just about to lead the way, suddenly discovered that Mo Xiao Lang has anchored the footsteps. „Xiao Lang.“ The Long Chen doubts, turn head to look that actually sees Mo Xiao Lang to be covered covering by Ash Grey Rune light suddenly. „Enters in my belly, dragon. Otherwise I have killed your Younger Brother.“ That flash, the terrifying sound, resounds in the Long Chen ear.....5 finished. The week clicks on first, just pulled open the disparity opposite party to pursue. Younger Brother jack.

1639: Desperate space

Desolated Great Emperor, it may be said that is Long Chen has met until now the most deceitful opposite party. He can play a trick to deceive Long Chen, making the Long Chen little darling come, can also through flickering of spoken language, let Long Chen their being in doubt desolated Great Emperor status. From the

beginning thinks that he is Devouring Dragon Monster, but was overruled by desolated Great Emperor afterward spoken language, but at this moment, desolated Great Emperor these words, have exposed his status. However, he has also usurped the situation. When desolated Great Emperor turns head, on the face full is the fierce smiling face, has revealed one row like the shark same sharp tooth time, Long Chen brain inside blank, desolated Great Emperor is strange, Long Chen does not know how Mo Xiao Lang is the move! Only the critical moment, he thinks returned to the Mo Xiao Lang side! Behead Divine Sword in hand, gathers whole body the strength, furiously toward the Mo Xiao Lang detachment, Long Chen does not dare to have slightly negligently, therefore this sword he has used the Behead God Art true meaning, wants breaking out the transparent sphere that Rune forms! But Mo Xiao Lang in the interior, is also burning by that Nine Nether Demon Ancestor Flame! Their reaction rates, it may be said that are very quick, what makes both hands shock, the Long Chen sword chops above, that Behead Divine Sword strength suddenly unexpectedly easily penetrated that Rune to tie, attacked on the body of Mo Xiao Lang, chopped a scar on the body of Mo Xiao Lang! This is the accidental injury! But, this made Long Chen live silly. What strange thing is this? To say that oneself doesn't have the means to destroy this Rune to tie? Own strength, basic that Rune ties on function above, but will seep the past, affects on the body of Mo Xiao Lang? Moreover, Rune that desolated Great Emperor displays carefully ties, already considered Xiao Lang Nine Nether Demon Ancestor Flame, therefore at this moment, Long Chen suddenly discovered that does not have an effect Nine Nether Demon Ancestor Flame! One attack outside, is completely invalid, will only injure accidentally Mo Xiao Lang! Mo Xiao Lang attacks in inside, absolutely does not have the effect! They in this instantaneous, anxious red eye. Desolated Great Emperor has a good laugh, said: „Children, other futile effort, this is I meticulously prepares long time good thing. Very precious, the value is equal to same eight Dao Mark [say / way]. Three territories nine, only then, is called ‚desperate space‘, you will comprehend immediately, this thing, why must be called the desperate space.....” He, continued to say with a smile: „That is because, it is specially designs for your Younger Brother, he must make you desperate, this desperate space, he will be starting to reduce at this moment, after waiting for a double-hour, it will shrink a small accomplishment point, but almost only needs half double-hour, I estimated that inside thing, will be extruded into the meat patty, the meatball. But Long Chen, you soon with own eyes look at this, looks at you best Younger Brother, looks at his desperate vision, looks at gradual distortion of his mortal body in not resistible vision, turns into the meat sauce, Ha Ha..... Was I too evil a point, said that Xiao Lang was also my adopted son?” After

a double-hour, shrinks a point! In half double-hour, meets to contract, by not resistible strength, contracts into the meat sauce Mo Xiao Lang! Moreover, this moment Long Chen real feeling, that not resistible strength, is reducing fast, this so-called desperate space does not have how hardly, but on this thing is containing a [say / way], the [say / way] that one type is unable to break, the sharp weapon, the formidable strength, the strength will penetrate the past! This time, Long Chen by Behead Divine Sword, divided to chop again and again several times by the biggest strength, still did not have the least bit effect! In the middle of the desperate space, the Mo Xiao Lang vision hesitates, no one has thought that will present such matter, this so-called desperate space, is not desolated Great Emperor displays now, but is he before for a long time is very very long, before Mo Xiao Lang did not have is formidable, plants on the body of Mo Xiao Lang, until releases at this moment. Also, long ago, him had to let the Mo Xiao Lang inescapable meaning, now said that happen to applies! „Long Chen!“ Desolated Great Emperor has twisted the mouth sidewise giant mouth, he stretched out the pale finger, aims at own big mouth, said: „Satisfies me quickly, I tens of thousands years have not eaten the thing, I really quite hungry, I have soon starved to death, if you do not hurry to enter my mouth, your Younger Brother may probably within half the time of double-hour, be extruded into the meat sauce completely!“ „Aren't you among Younger Brother the sentiment profound meaning are heavy? At this moment, among you must die, chooses, Long Chen, you kept on proclaiming he was your Younger Brother, he is willing to give the life for you, but you? Can you achieve this point? So long as your little darling enters in my belly, making me digest well, I will bleed off him, after all Xiao Lang is also my adopted son, I and Xiao Lang directly are fathers' and sons' relations, the tiger toxin, in addition does not eat, you thought right?“ That desolated Great Emperor sound, looks like the disgusting mosquito, continuously in ear side ring around. „Elder Brother, you find way to run away quickly, he definitely was Devouring Dragon Monster without doubt, all that does, must swallow you!“ In the middle of desperate space, saying of Mo Xiao Lang hysteria. He feels once more that because, he has implicated Long Chen. Perhaps initially distinguished in Nether House, they go to True Martial Emperor's Domain and Desolated Emperor's Domain respectively, has been approximately doomed such result! The Mo Xiao Lang innermost feelings despaired, his strongest method Nine Nether Demon Ancestor Flame does not have the means that and is the desperate space is having how fiercely, but this Rune is the surname, can disperse their attacks to outside with ease, making their attacks hit completely probably on the cotton is the same, moreover Mo Xiao Lang in inside, Long Chen is impossible to go all out to destroy! He respects foster-

father, unexpectedly is Devouring Dragon Monster, he in the layout, must his Elder Brother swallowing from the beginning, to at this moment, in the Mo Xiao Lang eyes, the desolated Great Emperor status was nothing left, but at this time, they were the enemies! „Perhaps desolated Great Emperor, you train me, always for your benefit, now said that our graciousness breaks the righteousness certainly! From now on the future, I did not have your this foster-father! Moreover, I urged you should better to receive the hand, threatened is useless to us, we will kill you!” In the desperate space, Mo Xiao Lang roars. He knows that Long Chen is impossible to run away in advance, moreover in the middle of this 500 years of guard chambers, Long Chen is impossible to run away! They look like two small lambs, by desolated Great Emperor control stubbornly in the middle of palm. Listens to the Mo Xiao Lang words, desolated Great Emperor said with very distressed words: „Really is sad, my adopted son must cut off with me unexpectedly has related, I also can only visit you extruding into the meat patty by the desperate space helplessly, who makes your good Younger Brother actually not give a thought to your surname life, unexpectedly also in my mouth?” „Come comes, dragon, I am a person who observes the commitment, so long as you are willing to enter in my belly, I have put him, how?” Desolated Great Emperor with having sound of enticement said. At this important moment, the time are not much, Long Chen can only be calmed down by oneself, he realized that through convincing desolated Great Emperor, making him put Mo Xiao Lang, this was invalid, the only means fought! Why desolated Great Emperor did not swallow oneself directly, but can threaten itself? Because of his wicked interest, wants to test Long Chen and sentiment between Mo Xiao Lang Younger Brother, is his strength above issue? In the middle of the guard chamber, was imprisoned several thousand years of person. His present strength, is good or is not good, is similar to True Martial Great Emperor, can only erupt such 1-2 times strengths? Long Chen through the analysis, the guess is the latter. Therefore, this desolated Great Emperor should not be willing to begin with Long Chen truly, is not willing to consume the precious strength! But Long Chen not necessarily has the opposite party to be formidable, however his strength is inexhaustible! „Xiao Lang!” The Long Chen vision looked at the past cold, Mo Xiao Lang was at startled and desperate middle, Long Chen that firm vision, making in his heart have not the good premonition. „Elder Brother, do not listen to his words!” Mo Xiao Lang worries to say. Long Chen shakes the head, said: „No, I must kill him!” This is his courage, is the method that he goes all out! Desolated Great Emperor! Including the True Martial Yanjing awe lets the character! Long Chen does not know that he has how formidable, but at this moment, for the Mo Xiao

Lang surname life, for that half the time of double-hour, he has had to go maliciously put together a surname to assign! Therefore at this moment, the Long Chen slight hesitation, he has not shown himself directly has been over ten thousand ancestor Dragon Body bodies, that covers huge Divine Dragon in the middle of scarlet mist, circles in this huge gravity scheme, the whole body is bloody Aura! Bloody with the special surname of dragon of slaughtering, thorough h as shown! Long Chen stretches out huge Dragon Claw, has placed on Mo Xiao Lang the palm, he discovered that at this moment is unable to bring Mo Xiao Lang to the god country unexpectedly, definitely was that desperate space strength is fettering. Over ten thousand meters body, almost must pushing to explode this gravity scheme! After protecting good Mo Xiao Lang, Long Chen that giant bloody eye, stared was falling into crazy condition desolated Great Emperor at this moment.,,, The young dragon time, is over ten thousand meters dragon, what dragon you are, why I have not seen, what is?" During the desolated Great Emperor frantic, extreme hope, fell into extremely muttered, in the middle of that spacious mouth, remained including the saliva.,, Old ghost, you wants to eat me, when you can defeat me to say again!!" That fills huge Divine Dragon in scarlet, sends out the earthshaking long and loud cry, making the entire gravity scheme shiver, obviously Long Chen at this moment, the strength had is tremendous!,, Come, come, enters in my belly, Ha Ha! How delicious Divine Dragon, this is I have seen strongest Dragon Warrior, is not really easy, was I pick the treasure?" Has half the time of double-hour, even also! Long Chen vision blood red, huge bloody Dragon Claw, started the crazy attack!.....ps: Yesterday said the fresh flower: 2412. 1640: Perfect grand feast

Huge Dragon Claw, looks like toward that incomparably base and low desolated Great Emperor goes. „Child, you cannot project on my, you do not know that my this clan, in the antiquity years, the fiercest method was to go into hiding, why can we swallow Divine Dragon? That is because, we also want the perfect biology compared with Divine Dragon, we to high control!“ Desolated Great Emperor still smiled. „You are only the shameless thieves!“ At that moment, the Dragon Claw bombardment in the ground of gravity scheme, the earth shivered, but at that time, desolated Great Emperor lost the trace. Really, is not only the [say / way] of illusory concealment, including the speed is also quite astonishing! In the Long Chen heart had the unclear premonition! Really at this moment, the body of desolated Great Emperor, appeared on the body of his Divine Dragon, he stroked Long Chen that Blood Red Scales, to praise was sighing: „Really is a perfect young dragon, perfect grand feast! Ascends the sky to me, may not be really thin!“ Long Chen is angry! That piece of Scales that desolated Great Emperor strokes, the antique mark flashes, that scarlet mark flash hit on the body of desolated Great Emperor, shaking to fly desolated Great Emperor! Long Chen is rotating giant dragon head, that is full of the lethality Dragon Claw, kills once more toward desolated Great Emperor! „Child, you cannot move me, does not need to struggle, you have half the time of double-hour to decide that has missed this time, your Younger Brother will die, you are such selfish person, can only look at own Younger Brother death?“ Desolated Great Emperor continues to laugh. Really, Mo Xiao Lang that desperate space, reduced really much! The time is the life! The Long Chen whole person has been at the crazy condition! Did not make the best use of the time, Mo Xiao Lang is dying! This damn desolated Great Emperor, damn Devouring Dragon Monster! He already thorough has initiated the anger in Long Chen heart! Huge anger! He also most hates others' coercing repugnantly, particularly coerces with the surname life of oneself person, looks like Yang Lingqing that Tragic Death City Lord coerces, this is inviting the wrath of the emperor of Long Chen, always one said that Long Chen will retaliate, will make them pay the serious price! The anger of Divine Dragon, the world vibrates! Desolated Great Emperor actually still immersed to laugh. But at this time, Long Chen summoned close 60 Golden Guard Demon Pagoda suddenly! Here is 500 years of guard chambers, the heart of that Tragic Death City Lord revives, how can also? Long Chen at this moment already, no matter that many! After 60 Golden Guard Demon Pagoda were twitched, that crystal coffin starts to shiver gently, on the side of Lingxi is anxious the Long Chen matter, saw in the middle

of this crystal coffin sends the beautiful female blue, she Six Dao immortal sword with, the Six

Dao immortal sword also similarly had the ability of some seal and suppression, has the just strength help of Six Dao immortal sword, the crystal ice coffin cannot move immediately! „Brother Chen, you can put out the use all Golden Guard Demon Pagoda, I help you suppress her, three days three nights do not have the issue.” Lingxi assured saying. This was she can help the good Long Chen place only. „Good!” Long Chen gives a loud shout, 99 huge Golden Guard Demon Pagoda, each over 100 meters, regarding the body of his huge Divine Dragon, crazily is revolving, the Golden strength has filled the Long Chen whole body! The innumerable Golden rays, sprinkle. This is the Golden Guard Demon Pagoda first perfect condition, Long Chen instantaneously in this Golden Guard Demon Pagoda, felt the strength that greatly has completed, 99 Divine Dragon, have composed mysterious Formation, releases the massive strengths! „? Originally is eight Dao Mark [say / way], but also is good, Golden Guard Demon Pagoda.” The desolated Great Emperor sound, conveys from the gloomy place! „Golden Guard Demon Pagoda, seal, suppression!” Under the control of Long Chen that enormous force, that 99 Golden Guard Demon Pagoda encircled a circle instantaneously, will hide desolated Great Emperor instantaneous surrounding in darkness, among Golden Guard Demon Pagoda, the Golden thunder interwove became the huge network, was stranded desolated Great Emperor in stubbornly!

„„Suppression! Suppression!!” Under the Long Chen that output strength not awfully, 99 Golden Guard Demon Pagoda shake loudly on the ground, imprisons desolated Great Emperor in completely, desolated Great Emperor cannot move, but at this moment, Long Chen that huge Dragon Tail, swings along with the waist, in that flash looks like the world the biggest whip, falls loudly, racket body of maliciously desolated Great Emperor in the middle of Golden Guard Demon Pagoda, that flash, Long Chen saw the blood light scatters! Died? The tail is the body of mortal body most tremendous strength Long Chen Ancestral Dragons, the strength that Divine Dragon fishtails even be stronger than Dragon Claw, therefore these time hits desolated Great Emperor in the situation of seal directly, Long Chen only felt that the blood has only scattered, did not have other. Surroundings suddenly peaceful. Long Chen realized that desolated Great Emperor will not be definitely good to cope. The desperate space once more reduced. Mo Xiao Lang is not worried about own issue, since the Long Chen choice fight, he also can only look first, at this moment, he is also seeking for the desolated Great Emperor position. In that flash, startled Aura arrives! Desolated Great Emperor, has not

died! Under this living thing, how possibly makes Long Chen suppress with Golden Guard Demon

Pagoda, can kill? „Dragon, you can enter my belly now.” In time, that miserable the sound, makes a sound in this gravity scheme. Blood

splashes of these splashes, in the extreme expansion, desolated Great

Emperor must appear the true bodies at this time unexpectedly finally! Devouring Dragon

Monster! Similarly is one covers the biology in the middle of fog, actually be

huger than Long Chen! In a piece of dusky space, Long Chen felt that the flesh and

blood of opposite party is pulling out fast steadily, coming out that more and

more meatballs multiply baseless, making Long

Chen feel one type extremely dangerously, extremely frightened Scent. The body of his Divi

ne Dragon, it may be said that was big to the acme, but that Devouring Dragon

Monster actually huge, that piles up in the Long Chen present meatball, this

moment estimate including the diameter, almost must exceed the 20,000 meter! This is des

olated Great Emperor, this is Devouring Dragon Monster! Long Chen cannot

see his appearance for the time being, can only see that pendulum in the front

line, almost knows how things

stand a kilometer giant mouth, in that beast mouth, made one feel that

the disgusting smell store

front came, indistinct between can see that rows of shark same teeth, compared with Long

Chen Dragon Claw, made people feel soul-stirringly! „Here was too probably

small, you cannot display, then I gave you a huger space to be good.” The desolated Great

Emperor sound, approaches from darkness. After these words said that

the Rune wall of that 500 years of guard chamber, is breaking at this

time, massive disappearances. „To!” Desolated Great Emperor is

laughing, that endures compared with the giant meatball of mountain

peak, vanished in Long Chen instantaneously at present, ascends to go toward the place

above. Long Chen felt Long Ji Continent Scent. Above, is the exit / to

speak! Although the gravity scheme is not small, but by Long Chen and desolated Great

Emperor build, is truly small. The body of Divine Dragon, passed

through the numerous dense fog, finally arrived

at the entrance of that antiquity monster territory, this place lost to view desolate,

the mist covers, the space is huge, is the place of fight. It is estimated that desolated Great

Emperor also knows that Long Chen is obediently will not enter

how in his mouth. When comes out after that Long Chen soars in the middle

of the sky, finally saw clearly has gotten down the appearance of that giant beast. Is

similar on such as that second statue, the Devouring Dragon Monster whole body opens is

being domination of Divine Dragon, does not have the four limbs, is

only a giant and disgusting meatball, the body weight at least is Long

Chen over 50 times, his height, the height and body are wide, almost in the 20,000 meter about, but Long Chen also only then height 10,000 meters. Therefore, if this Devouring Dragon Monster Long Chen swallowing, it is estimated that the pressure did not have. Especially that pair of terrifying mouth, the length almost three kilometers, inside has the teeth of innumerable platoon, is the sharp canines, appalling. The so terrifying appearance, shows in Long Chen at present, general Divine Dragon, it is estimated that must be frightened fearful and apprehensive. This strange living thing, simply is the Divine Dragon nightmare. Naturally, is only restricted in the young dragon. True Divine Dragon, can be the Devouring Dragon Monster nightmare. To be honest, comes out after that Long Chen can bring Mo Xiao Lang to walk. But he cannot walk, because the desperate space outside Mo Xiao Lang body, reduced to the post on the body of Mo Xiao Lang, the words that contracts again, Mo Xiao Lang definitely while still alive will be extruded until death, Long Chen simply does not have the means to remove this desperate space, the only means are to let desolated Great Emperor remove. This is one is unable to know in advance the future crucial moment. Long Chen is nearly demented, how even if comes out? Now does not have the means to run away, can do, only then slaughtering maliciously! That over ten thousand meters body, dives from the sky, comes toward Devouring Dragon Monster once more. The hatred, has filled the eye of Long Chen. „I really am, felt incomparable excited, the dragon, can you come in my belly? Really wise choice!“ Huge Devouring Dragon Monster stays in same place, looks like, because the body is huge, cannot move. But when Long Chen Divine Dragon fishtails, is having the vast strength, pounds once more to his time, his body unexpectedly becomes illusory, that group of giant incomparable meatballs, appeared in another direction unexpectedly! „Can you overtake me?“ If not for Devouring Dragon Monster excels at illusory and speed, can steal the young dragon? Long Chen almost must be compelled by him insanely. „Makes you have a look at my achievement.“ Desolated Great Emperor has opened the mouth suddenly, in his mouth, altogether five Divine Dragon perfect skeletons appears, these Divine Dragon in Devouring Dragon Monster strength grass vertical, although only remaining skeletons, but actually still slaughtered toward Long Chen. „My clever treasure, you quickly became one of them, hurried to enter my belly, otherwise, your Younger Brother Xiao Lang, must start to meet with a disaster probably!“ In the middle of laughing of desolated Great Emperor, when only Divine Dragon of remaining skeletons popularize toward Long Chen, the desperate space, started to extrude the body of Mo Xiao Lang! Long Chen heard his bone, sends out the shatter resounding.
