

## War God 1641

### Chapter 1641 - Choice of Life and Death

Crack! Crack!

To Long Chen, this voice was a nightmare!

Long Chen could clearly hear Mo Xiaolang let out a low cry of pain.

The destructive power of the Dimension of Despair was much stronger than what Long Chen had imagined.

"Long, didn't you say that you value your brotherly love the most? You don't even have the will to die for him, what kind of brother are you now? Your brother, he can only endure pain for a quarter of an hour at most. After that quarter of an hour, he will be squashed into minced meat, and maybe he won't die then, but he will have to endure endless torture. Can you really bear to see all of this? "

The Great Emperor of Desolation continued with her despairing smile, and continued: If it was me, I would have been a heartless and heartless guy, I would have chosen to escape immediately. Look, this land is so wonderful, why should I send myself to my death for this so-called brother? So, what would you, Long Chen, choose? "

"You have to do it as soon as possible. If you were a little bit late, your brother would have been squashed into minced meat." Hurry up, let's just do it. Go into my stomach, my stomach is unable to endure the thirst! "

The voice of the Great Emperor of Desolation was like a nightmare, causing Long Chen to feel heavy pain time and time again.

He could see that Mo Xiaolang had already started to grit his teeth, but could it be that he really had no other choice but to throw his life away!

He was unwilling!

Why did brotherhood need to be tested?

Why would the Great Emperor of Desolation be the final victor!

Other than sending him to his death, Long Chen wanted to save Mo Xiaolang, so as to not let him die, and even more so, not allow him to suffer such a heavy torture.

What if he died, just like that? Yang Lingqing needed him, Ling Xi needed him, the whole world even needed him!

Countless difficult choices caused Long Chen to collapse!

"Big brother, leave quickly, I know that you are good to me, but you must not fall for his trap, even if you are sacrificed, so what? Don't forget, you are lucky enough to have important things to do, they need you, your father, he has given you such a huge mission, and you have not completed it, the city lord's calamity has not begun, you choose death like this, no one can forgive you, and I will not let you off either!"

"This is my, Mo Xiaolang's, life! In my life, no matter how you choose, you are still my biggest brother. I know that you risked your life to let me live, but this is already a dead end, big brother, you should make the right decision. As long as you take revenge for me in the future, I will have no regrets! "

"Big brother! "Hurry up and leave!"

Under the pressure of that space of despair, Mo Xiaolang's appearance was berserk, his eyes were bloodshot, but his delicate and pretty face had become tragic and hideous. He roared crazily, roared, and was intending to wake Long Chen up and let him understand the severity of this situation!

I, Mo Xiaolang, personal matters are small, so all the other people who need you are the most important. The relationship between us brothers, we do not need to use death to prove ourselves, we use death to defend ourselves, you are not a child either, you are more mature and decisive than me, you could have already made this decision easily! "

Mo Xiaolang was about to go insane.

However, Long Chen's hesitation and indifference, had caused his heart to be constantly tormented.

"Stop it!"

Long Chen's eyes were also astonishingly blood-red.

The Primordial Blood Spirit Dragon was rolling in the sky, the blood in its entire body was burning fiercely, the blood in Long Chen's body was boiling, his heart was filled with a huge knot. He wanted to release it, he did not want to lose, he could not lose like this!

A mere Dragon Devouring Beast dares to anger a Ancestral Dragon!

Long Chen withstood the energy that almost crushed him to pieces. He let out a world-shaking roar, and in that instant, the mountains and rivers ruptured, while Long Chen raised his gigantic dragon claw. Amongst his dragon claw, Slaughter Dragon Seal that was several times his strength appeared!

"Great Emperor of Desolation! I want you dead! "

The Slaughter Dragon Seal that carried the power of a hundred million killing intents, began to suppress them!

With Long Chen's activation, they reached the most perfect state. That golden Demon Pillar fell from the sky, like a sharp spear, it stabbed onto the back of Great Emperor of Desolation and formed an array diagram that was used to seal him!

The moment he was suppressed by the golden pillar, the Great Emperor of Desolation was unable to move, unable to move!

A Dao artifact with eight dao patterns, even if it displayed all of its strength, it was still quite terrifying!

When the Slaughter Dragon Seal struck Great Emperor of Desolation's body, it tore off a huge chunk of flesh from his gigantic body. With this claw, it tore off almost one twentieth of Great Emperor of Desolation's body!

Long Chen tore apart the blood and flesh that was almost comparable to his own physique, and the blood and flesh that filled the sky began to rain down heavily, dyeing the entire large half of the gray desert red!

At that moment, Great Emperor of Desolation was truly injured, and he screamed in pain!

Long Chen realized that this Great Emperor of Desolation was not that powerful, he was only good at dodging, good at dodging!

"Go to hell!" Long Chen's Divine Dragon Body was spinning rapidly in the sky, and the golden Demon Pillar merged together in that instant, forming a gigantic golden Demon Pillar that was more than ten thousand meters long. Under Long Chen's Dragon Tail's sweeping motion, it caused the heaven and earth to explode, and caused the mountains and rivers to explode, causing the golden Demon Pillar that was more than ten thousand meters long to crash onto Great Emperor of Desolation's body, causing her gigantic ball of flesh to be blown away, blood spewing everywhere, forming a river on the ground!

After rolling a few rounds on the ground, Great Emperor of Desolation was finally able to stabilize his body, the current him was already badly mutilated.

"Dragon, you're underestimating me." Great Emperor of Desolation laughed out loud. At this moment, his wounds were actually recovering at a terrifying speed.

"I, the Dragon Devouring Beast, am a genius. I've swallowed five Dragon Fighter, I have all of their divine abilities, my physique will not be any worse than a Divine Dragon. Compared to the Sun Devouring Demonic Wolf, we are even more favored by the heavens.

By the time these words were said, the Great Emperor of Desolation had already recovered completely.

"I won't die, but the wolf cub won't die!" Great Emperor of Desolation laughed loudly.

Right at this moment, Long Chen heard Mo Xiaolang scream in pain.

He lowered his head to look, only to see that at this time, a space of despair had tightly surrounded Mo Xiaolang, that terrifying energy had squeezed his blood out, and his bones had been repeatedly shattered. His handsome face was also being squeezed out, and he was in unimaginable pain!

"Big brother, I beg of you, hurry up and leave!" I'm not worth it for you to risk your life for! You have a more correct choice, and are extremely smart. Why are you being so stupid right now!?"

Long Chen could only shake his head in pain.

He didn't know what he should do, and he knew that escaping was the best choice, since there were still many people who needed him. However, he couldn't watch Mo Xiaolang die just like that, because if he did, he would live in pain for life, and he would never be able to calm down!

"Father, tell me, should I have any choice?"

The crisis this time, had actually caused Long Chen to completely lose his composure.

Great Emperor of Desolation was unable to defeat him.

Mo Xiaolang was continuously being pressured by the other party. Perhaps after a while, he would lose his life.

The Great Emperor of Desolation's voice was filled with temptation, as it continuously resounded in his ears.

"Dragon, I can swear to the heavens that the wolf cub is my foster son and I can't bear to kill him. If you just obediently enter my stomach, how nice would that be? You're dead, and the wolf cub is alive. Can the wolf cub help you to complete your task? "This is the perfect ending!"

"For the sake of your brother, why should you care about your life? "Right, right, I think that someone as emotional as you should die for your brother!"

This voice was like poison, entering Long Chen's body and making him go insane.

"Shut up!"

The space of despair became smaller once again, and Long Chen almost collapsed.

His eyes were bloodshot, the baleful aura of an Ancestral Dragon pervaded the air around him. Honestly speaking, the current Great Emperor of Desolation was also extremely fearful and fearful.

Ling Xi's sword appeared around Long Chen.

Long Chen fixed the tip of his dragon tail on Ling Xi's sword.

"What is this?" Great Emperor of Desolation laughed loudly.

And at that moment, Long Chen released a world-shaking roar, and thrust his violent dragon tail, which seemed like a long hair, towards Great Emperor of Desolation, his tail carried Ling Xi's sword, and pierced into Great Emperor of Desolation's body one thousand meters!

At that moment, when the Great Emperor of Desolation's primordial spirit was injured, it let out a scream that shook the entire Desolate Imperial Domain!

The surrounding thousand miles of ground began to crack open!

The might of Ling Xi's sword, at the critical moment, displayed an even more terrifying effect.

This move almost caused Great Emperor of Desolation to die from the pain.

He was infuriated. He was incomparable rage, and a vicious and bloody aura spread out in all directions!

"Dragon!" Damn dragon! I give you time to choose, but you just don't want it. I give you a chance to let Xiao Lang live, you pretentious hypocrite, yet you want your own life. You don't deserve to be Mo Xiaolang's brother, since you ignore his life and death, then I will let Mo Xiaolang die right now! "

"Space of despair, shrink!" "Shrink for me!"

In that moment, Mo Xiaolang screamed in pain. He controlled himself with all his might, preventing himself from acting too vainly, but the pain of his entire body being squeezed was too terrifying. No one in this world could endure that!

The speed at which the space of despair shrank was several times faster than before!

"Mo Xiaolang will die in ten breaths of time. I'll give you one last chance!"

"Ten!" Nine! Eight! "Seven!"

Mo Xiaolang's body had already been squeezed out and deformed, covered in blood!

Long Chen had lived through the most excruciating ordeal that he had ever experienced.

He made his decision.

## Chapter 1642 - Dragon's Hell

The current Mo Xiaolang was enduring incomparable pain. Such inhuman torture could be said to be a rare occurrence in this world.

"Brother, please kill me! Kill me! "

As long as Long Chen attacked the space of despair, the power would be able to pass through and he would no longer be able to endure for another ten breaths. Under the pressure of the space of despair, the current Mo Xiaolang was badly mutilated. His appearance was extremely frightening, and even Long Chen was bleeding from the bottom of his heart when he saw this.

His eyes were bloodshot and his breathing was heavy. In the past ten years, he had not been as angry as he was now when he saw tens of thousands of people die!

"Six!"

Great Emperor of Desolation smiled and said another number.

Mo Xiaolang's body was about to be crushed into pieces.

That tragic state was indescribable!

"Big brother, kill me!" His voice had already become vague, and there was even a hint of him crying. Mo Xiaolang had always been a strong person, but at this moment ...

Long Chen's mind was a complete blank. He had nearly lost all power to think and his entire person was in a dazed state. His gaze was tragic as he let out an incomparably angry and miserable roar.

He really admitted defeat.

This was the first time he admitted defeat since he started cultivating.

When he faced the Sword Master Ling Wu back then, he did not feel so powerless, because the one who was killed back then was himself. He could have fought with his life on the line and could have ignored the consequences.

He was on the verge of hysteria as he shouted at the Great Emperor of Desolation, "Let him go.

At this time, Great Emperor of Desolation had already counted to five.

When he heard Long Chen's words, the space of despair finally stopped shrinking, and even expanded a little, allowing Mo Xiaolang to stubbornly live on, and have the chance to catch his breath. But it was in time, because Mo Xiaolang was currently on the brink of death, and it was only because of his strong vitality that he could still hold on temporarily.

At this time, his body was no longer able to see his head or his four limbs. He was almost crushed into a monster like the Dragon Devouring Beast. From this, one could see just how terrible the pain had been.

"Long, I don't like lying children. If you go back on your word now, I will kill him in an instant. Remember, it was an instant. "

There was an unconcealable joy in the Great Emperor of Desolation's voice.

Long Chen firmly held onto the gigantic Long Chen, the blood-red Primordial Blood Spirit Dragon's eyes flashed with a bloodthirsty radiance. Around him, a large amount of dense blood-colored fog pervaded, causing the sky within a radius of several tens of kilometers to be completely dyed blood-red!

"I've said it before, I won't go back on my words!"

Long Chen didn't know what he was doing. He didn't know how many missions he had on his shoulders, he only knew that he couldn't let Mo Xiaolang die, and he couldn't let his brother die. If he died, he wouldn't be able to live a peaceful life.

"Big Brother!" Mo Xiaolang's breath was weak as he said those two words unwillingly. He truly did not wish for Long Chen to do this, if not for the fact that he was currently in a coma, he would have strongly scolded Long Chen, scolding him for making such a stupid life.

He actually wanted to use his own life in exchange for Mo Xiaolang's life.

Furthermore, what Long Chen shouldered wasn't only his own life, he also shouldered too much of a responsibility, the fate of all living things!

Why was he so stupid at this moment, so reckless?

Long Chen himself did not know, but he knew that in his heart, there was an intense desire. He absolutely could not let his brother die just like that.

Perhaps this desire, could be called brotherhood. To the current Long Chen, it was something that he would trade for with his life, and perhaps, even his rationality was exceptionally luxurious.

Laughter came from the Great Emperor of Desolation.

"Truly two moving little fellows. But sadly, you are too important to me. Otherwise, I might truly be moved by you two and let you two go."

The ball of flesh covered in dragon scales rolled about on the ground. The large bloody mouth was extremely wide, and one could clearly see the deep throat, which was filled with thorns!

"Dragon, I advise you not to think too much of me. Let me tell you, my Great Emperor of Desolation's words are true, after I finish speaking, I will let Mo Xiaolang go, and I will definitely let him go. But if you do something funny, I believe that Mo Xiaolang will die a miserable death. "Also, the space of despair is not something that can be released just by killing me. If you kill me, then no one can stop the space of despair from shrinking!"

"So, since you've made your decision, you can give me your life! You will only die! You are a great man, you have given your life for your brother, I think Mo Xiaolang will remember you for the rest of your life! This is truly a moving brotherly relationship! "

"Can you shut up?" Long Chen stared coldly at him with her blood-colored eyes.

Behind Long Chen, Mo Xiaolang was in incomparable pain. In the midst of the flesh and blood, a pair of bloodshot eyes was staring at Long Chen in a daze, and the current him was so weak that he could not even say a single word.

"Wolf, one thing." Long Chen's voice sounded beside his ears.

"I am an ancestral dragon, I don't believe that this grandson will be able to swallow me. I have no other choice, I can only do it with my life, and can only do it with my life, so I will pass Ling Qing to you, if I am truly not here, Ling Xi, please help me take care of her, and don't let her do anything stupid. "

Mo Xiaolang was extremely unwilling, but he could not reject it, because Long Chen did not give him the authority to do so.

"No." In the God Kingdom, Ling Xi was incomparably resolute.

She bit her pale lips and said: "I'm not, definitely not, even if it's an adventure, I will choose to go with you. If you're not here, you have no way to stop me from following you, Brother Chen, this is the first time I have rejected you. I think if you go, there's no one in this world can stop me from going with you! "

As she finished her sentence, her eyes filled with tears.

Perhaps that was what their love was like. It was to follow them to the death.

Ten years ago, when they were still in the Realm of Myriad Kingdoms, they were hunted down by the Biyang Royal City Royal Family, and were united by life and death.

Ling Xi was simply unable to reject her decisiveness.

At that moment, he could only helplessly close his eyes.

From the very beginning, he had already plotted against Long Chen and Long Chen, and everything was going according to his plan. This included Long Chen guessing whether he was a Dragon Devouring Beast or if he was going to release him from the hundred thousand year confinement.

"Dragon!"

Great Emperor of Desolation's voice was filled with greed. His huge and bloody tongue stretched out and green saliva dripped down like a waterfall, filling the air with a disgusting stench.

"Come. My stomach is the legendary 'Dragon's Infernal Realm'. No matter what kind of dragon it is, it can't escape my joke. Our race of dragon devouring beasts is the most perfect race in the world! We are the invincible Dragon Devouring Beast! "Come on!"

With his voice, his mouth opened wide, and rows of sharp teeth flashed with a terrifying light, like a sword.

A huge suction force acted on Long Chen's body.

From the Great Emperor of Desolation's mouth all the way to where Long Chen was, a passage formed by gray runes. Inside the passage, the great ripping power of the Dragon's Infernal Realm felt like countless tentacles resting on Long Chen's body.

"Do not resist, once you resist, I will shrink the space of despair. If I shrink it even a bit, Mo Xiaolang will die, and at that time, you will not be worth it."

Great Emperor of Desolation's sinister voice sounded beside Long Chen.

From the very beginning, the enormous dragon, brimming with killing intent, was completely suppressed by the Dragon Devouring Beast.

"Big brother!" Mo Xiaolang shouted out once again in dissatisfaction, but these two words of anger had already caused him to lose the power to continue speaking.

"Phew ..."

A huge force was used on Long Chen's body.

"Remember, it's my sister." Long Chen whispered the last sentence into his ear.

He used the power of rebirth to surround Yang Lingqing's statue and send her out of Ancient Demon Region. At the same time, he also let Mo Xiaolang land on the ground, and after Mo Xiaolang escapes, he would go and take her statue away.

Long Chen didn't have a choice. He didn't even have the chance to doubt Great Emperor of Desolation, he could only choose to believe him.

Long Chen did not dare to resist. He had already made his decision, if he resisted, then it would be the same as falling flat on the ground with his efforts. The Great Emperor of Desolation had precisely grabbed onto Long Chen's fatal weakness.

In the Divine Kingdom, Ling Xi used the six Immortal Swords to suppress the City Master's heart, but there were no tears in her eyes. To her, if she really had no choice, but Long Chen had gone to the underworld together, this was also a happy ending.

She did not blame Long Chen, as Mo Xiaolang was a brother that was worth Long Chen.

"No!" The Sun Devouring Demonic Wolf that was lying on the ground released an earth-shattering roar.

Then, the giant ancestral dragon was swallowed by the Dragon Devouring Beast with its mouth wide open. The Dragon Devouring Beast was extremely hungry, and he didn't even have time to chew before devouring the ten thousand meter long divine dragon into his so-called dragon hell.

Then he burped.

A blood-red glow began to shine in his fat stomach.

"He's starting to digest it. This is truly a great tonic. Digesting this fellow will bring about great benefits in the face of my upcoming Nirvana Tribulation." Great Emperor of Desolation smiled proudly.

After lying in seclusion for so long, he had been waiting for this day.

As he was feeling extremely pleased with himself, his gaze shifted to the dumbstruck Mo Xiaolang.

## Chapter 1643 - Hellfire Star Colossus

"Wolf."

Great Emperor of Desolation had already swallowed Long Chen into her stomach. Her huge body wiggled, and her sinister face revealed an extremely satisfied expression. As he activated the Dragon Devouring Beast's unique ability of digesting divine dragons, she said to the dumbstruck Mo Xiaolang, "Don't misunderstand me, I was just helping you. You must be very resentful towards that Long Chen. After all, you are an exceptional genius, yet a mere Dragon Fighter is suppressing you at all times, preventing you from displaying your brilliance. And now, you are the number one genius of the Three Regions Nine Realms. And I, am also the strongest in Three Regions Nine Realms. "

He ignored the hatred in Mo Xiaolang's eyes and continued to speak proudly: "He has already entered my stomach. For the sake of the strength of my Desolate Imperial Domain and the space for the two of us to go forward, I could only let you suffer for the time being. But now, I have given you a chance to make great progress. I can make you undergo another transformation, and even surpass Long Chen. To let your injuries completely recover, all you need to do is to forget about Long Chen.

That monstrous beast that covered the sky kept chattering away in front of Mo Xiaolang.

Great Emperor of Desolation was a cautious person, he was clear that the current Long Chen was still struggling in his stomach. Before completely digesting Long Chen, he would not let him out.

But at least, Mo Xiaolang already had a chance to recover.

It could not be described with words how Mo Xiaolang felt right now.

His mind was a complete blank. The scene of Long Chen entering the stomach of the Dragon Devouring Beast without hesitation, was constantly replaying in his mind. He unceasingly recalled every single word that Long Chen had said.

Mo Xiaolang's heart was set ablaze.

If there was a chance, he would be willing to say a few words to Long Chen. He was willing to follow Long Chen throughout his life, and fight to the end, but now, he didn't even have that chance.

"Wolf, I know you hate me, but everyone is selfish, aren't they? Except for that stupid dragon just now, he is the most foolish person in the world. All the emotions he thinks are actually jokes, and you can understand the future as well. I will give you a chance to work together with me. There will be a great change in the future. I need your help to overcome the Nirvana Tribulation!

"Don't worry, this is a very simple task for you, because you are a Sun Devouring Demonic Wolf. "You are the natural enemy of the flames, and you are their nemesis!"

"Starting from the fifth stage, every single stage of the Nine Layered Nirvana Tribulations is a nightmare. The strength and lethality of the fifth stage of the Nirvana Tribulation, cannot even be compared to the fourth stage. In the millions of years that I have passed, there have only been a few emperors who have truly acquired the first stage of the Fifth Stage of Nirvana Tribulation. Heaven is cruel, so no one can easily survive.

"However, even I was unable to face the even more terrifying sixth stage of the Nirvana Tribulation after the fifth stage of the destructive disaster — Giant Thunder Beast of the Ninth Heaven. All three of us chose the side door method to extend our lives, and I locked myself in that confinement room for a hundred thousand years, until I was confident that I had the power to face the sixth stage of Nirvana Tribulation. Little Wolf, do you know how happy I was when I found out that you were actually a Sun Devouring Demonic Wolf? "

Great Emperor of Desolation went insane as he laughed loudly, "That's because the chances of me surviving the sixth stage of Nirvana Tribulation is even greater. Perhaps what you do not know is that throughout the entire history of Three Regions Nine Realms, there have not been many people who have been able to pass through the sixth stage of Nirvana Tribulation.

"Just like the Giant Thunder Beast of the Ninth Heaven, the gigantic Purgatory Flame Star Beast is also a gigantic beast that fell from the sky. The power of the Inferno Star Colossus was countless times stronger than the Eclipse Demon Flame, and what was different from the previous four stages of Nirvana tribulations was that the Giant Thunder Beast of the Ninth Heaven and the Purgatory Flame Star Colossus were spirits of heaven and earth, and they had their own intelligence. Fighting against them would be much easier than fighting against the previous four stages of the Nirvana Tribulations. The

difficulty of the fifth stage of Nirvana Tribulation had strangled almost all the Fourth Stage of Nirvana Tribulation warriors of the Three Regions Nine Realms to death. And the sixth stage, the Inferno Star Colossus, has basically trapped all of the emperors in history to death. "

"You now understand how terrifying the Giant Thunder Beast of the Ninth Heaven and the gigantic Hellfire Star Beast are, right? The Heavenly Dao was killing intent! In this world, no one can escape death anymore. Even if they can resist the gigantic Hellfire Star Beast, they can only live for at most another thousand years, because a thousand years from now, there will be a Nirvana Tribulation that will be ten times more terrifying! "

"Every martial artist's greatest enemy is not their enemy, but the Nirvana Tribulation!"

"So, on the road of cultivation, we have all gone mad. For the sake of survival, for the sake of everything, love, kinship, friendship, love, everything is useless. Living is the most important thing."

In the end, his gaze landed on Mo Xiaolang, and he said: "And you, you are the beloved child of the heavens, the nemesis of flames, that caused us to feel fear from the wind. For millions of years, no one has been able to pass through the sixth stage of the Nirvana Tribulation.

The deranged him looked towards the sky and said, "Today, with your help, I will have an even better chance of fighting against the gigantic Hellfire Star Beast!"

"Rumor has it that when the Inferno Star Beast descends, 30 million miles away in the Scarlet Earth, one-tenth of the Desolate Imperial Domain will be burnt to ashes, absolute ashes. This is where the ancestors of the demon race are buried, everything will be destroyed. And because of this, they have seen everything, and will be proud of me! "

The sixth stage of the Nirvana Tribulation was about to descend.

Mo Xiaolang did not know that Nirvana Tribulation that was above the fifth stage would change its form. But what did all this have to do with him?

Mo Xiaolang only thought of hatred, he was not willing to let Nirvana Tribulation kill the Great Emperor of Desolation, and was even more willing to kill him.

While the Great Emperor of Desolation was going crazy, Mo Xiaolang calmed down.

He thought about what Long Chen had said before, that Great Emperor of Desolation's stomach was still rolling, which meant that Long Chen might not even be dead now.

Long Chen had the body of a double dragon, a Dragon Devouring Beast. He actually had the guts to challenge the most powerful bloodline in the world!

After a short moment of pain, Mo Xiaolang's eyes radiated with the determination to fight.

He believed that he didn't lose!

Long Chen did not lose!

"Little Wolf!" A chance to become a top-level expert is right in front of us. You can secretly devour the power of the gigantic Hellfire Star Beast without making a sound, and the Heavenly Dao cannot detect your existence. We will all become top existences. We are going to the Immortal Divine Region to see the homeland of those deities! Are you willing? "

He lived within desires and dreams, and in his opinion, Mo Xiaolang had the potential to become someone like him.

When he looked at Mo Xiaolang with a gaze filled with desire, Mo Xiaolang's eyes radiated with a fervent passion. He said, "If you don't open up this space of despair, how can I help you devour the Inferno Star Colossus?"

Great Emperor of Desolation laughed: "There's no rush, no rush, the treasure in my stomach has not been completely digested yet. Look, he's screaming and struggling, gradually disappearing, waiting for his strength to be digested by me, for her blood to be absorbed by me, I will follow the agreement and let you go."

Mo Xiaolang knew that he was a cunning old fox.

In actuality, why would he trust Mo Xiaolang at this moment?

He just had to make sure that Mo Xiaolang would immediately want to take revenge for Long Chen, and he would be able to turn the situation around. As long as Mo Xiaolang was willing to devour the gigantic Hellfire Star Beast, he would be able to get through the Nirvana Tribulation even more smoothly.

After that, even if Mo Xiaolang possessed power, he still had to digest it. If he could continue to live, that was not certain.

"How is decision-making good?"

"Promise him that once he opens the Dimension of Despair, I will escape. I will only appear when you are about to be hacked to death by the Nirvana Tribulation. Devour the Inferno Star Beast!" This was a method that Mo Xiaolang came up with in a short amount of time.

But he hoped for another possibility to appear, and that was that Long Chen was still alive.

"Don't move, don't move, let me obediently digest you, isn't that better?" Great Emperor of Desolation continued to laugh loudly.

And in his stomach ...

Swallowing a divine dragon was the innate ability of the blood of a dragon devouring beast, so there was a natural born existence in his stomach that was able to disintegrate a perfect creature like a divine dragon.

Long Chen felt that he was in an illusory world.

He could not see anything. His will was gradually being worn away. In fact, he felt very comfortable. It was as if he was undergoing a happy process. This process was like a dream, and a happy dream at that.

No matter what kind of creature it was, it would die more easily in a comfortable situation.

He dreamt of peace in the world, and he realized his dream, and played with Ling Xi in the mountains and rivers. He seem to have a child of his own, a family, and so on

But Ling Xi at the side, seemed to be a little worried.

He kept asking what exactly you were thinking, and Ling Xi told him.

"If you don't wake up now, you're going to die!"

"What!" Long Chen didn't understand what he meant. If he was fine, why would he die?

Ling Xi shed tears as she looked at Long Chen with a painful expression, and said: "Have you forgotten everything? Your body is currently being digested. One day, you will die and completely disappear. "

"What!"

As if he was struck by lightning, Long Chen suddenly woke up.

The first thing he noticed was that his over ten thousand meters long body was crawling with Phantom Beast s, densely packed together like aphids.

## Chapter 1644 - Dragon Swallowing Art

Phantom Beast.

Something that caused Long Chen to fall into an illusion, something that caused Long Chen to euthanize himself to death.

This was a parasite from the body of a Dragon Devouring Beast.

With its weak stomach, the Dragon Devouring Beast was actually able to digest the divine dragon. This had a lot to do with the Phantom Beast.

There were at least hundreds of thousands of Phantom Beast crawling all over Long Chen's body.

In that moment, Long Chen felt a piercing pain all over his body, causing his scalp to go numb.

Its entire body was in pain because of the Dragon Swallowing Beast's ability to digest dragons. The disgusting digestive juices had already drowned Long Chen completely.

"Brother Chen!" Ling Xi, who was anxiously shouting, finally cried tears of joy when she saw that Long Chen had woken up.

When Long Chen had entered and was swarmed by the Phantom Beast, she had been trying his best to wake Long Chen up. Unfortunately, it wasn't effective in the beginning, but it was fortunate that Long Chen's willpower was strong as well.

However, the Dragoneater Beast's terrifying digestion ability had already swept through the area.

Long Chen's originally hard dragon scales had become weak and fragile under the Dragon Swallowing Beast's digestion process. If the digestive juice attacked his flesh and blood, he might really be destroyed!

Hundreds of thousands of Phantom Beast, when they realized that Long Chen had actually awakened, all of them let out sharp hisses, as if they were going to completely confuse Long Chen.

Overflowing rage exploded in his mind!

He was a dragon, yet he was being devoured?

In this world, were there really living beings that could make a joke out of an ancestral dragon?

In that moment, Long Chen's body went through a huge struggle, he endured the pain, and his entire body rolled, the hundreds of thousands of Phantom Beast were flung away by his terrifying force. The explosion of his Nirvana Power formed countless blood arrows, which pierced all the Phantom Beast to death, and at the same time, he also stabbed into the Dragon Swallowing Beast's body!

The Dragon Swallowing Beast that was luring Mo Xiaolang suddenly let out a world-shaking scream!

His entire body was rolling in the air, his blood and flesh trembling as he desperately tried to catch his breath. With the massive body of the Dragon Devouring Beast, as well as his breathing, the sand and dust in the desert immediately began to flutter.

"Dragon!" The Dragon Swallowing Beast was scared silly, he did not expect Long Chen to wake up at this moment!

No reason!

Generally speaking, young dragons did not have the power of the primordial spirit to resist the attacks of so many Phantom Beasts. What he did not know was that Long Chen had Ling Xi's reminder, and the primordial spirit of the Great Void Cosmic Dragon!

Long Chen only needed to slightly turn his body in his body, and that would be enough to make the Dragon Devouring Beast feel despair!

The thing that he longed for finally appeared. Mo Xiaolang, who was slowly recovering, finally revealed a joyful smile.

How could a dignified Ancestral Dragon be digested by such a disgusting demon like the Dragon Devouring Beast!?

He would digest it, and the blood of the Ancestral Dragon would cause him to explode!

"Dragon!" Stop! If you move again, I will kill the wolf cub right now! "Immediately!" A space of despair still shrouded Mo Xiaolang and the Great Emperor of Desolation still had the power to threaten him.

"Big brother, he wanted me to help him survive the Nirvana Tribulation. Therefore, he did not want to kill me!" Mo Xiaolang said loudly.

What the Great Emperor of Desolation did not expect was that after she told Mo Xiaolang this, the other side would retaliate at this time.

Long Chen immediately understood. He used the power of Nirvana to wash away the disgusting digestive juices of the Dragon Swallowing Beast, and then said coldly: "Great Emperor of Desolation, I think it's best if we don't do anything. You've already seen it, right now, it's easy for me to kill you. Inside your body, I can immediately make your entire body explode, causing you to die without anything remaining under the Nirvana Tribulation! You have already missed the opportunity and are no longer

able to swallow me, so we will each take a step back. If you let go of Little Wolf, I will let you go, how about it? "

Great Emperor of Desolation fell into silence.

Mo Xiaolang's plan to devour Long Chen did not succeed, and at that time, Mo Xiaolang would definitely not devour the gigantic beast. That was to say, the chances of him surviving the sixth stage of Nirvana Tribulation was very low, and Great Emperor of Desolation had planned for such a long time, so he did not want to take the risk.

He was unwilling!

However, if he did not take the risk, Long Chen would not be able to digest it. He could only let him out, otherwise, it would be easier for him to be killed by his opponent! The enemy in his body was definitely the most terrifying.

To this day, he still could not understand, why Long Chen was not drugged by hundreds of thousands of Phantom Beast?

Long Chen's primordial spirit was actually strong to this extent? Isn't he a young dragon? No matter what kind of dragon it was, as long as it was a young dragon, none of them would be able to resist the Phantom Beast with the power of the primordial spirit!

In truth, the fact that a Dragoneater was able to devour a divine dragon depended on two things.

The first was his own powerful digesting and absorbing ability that could break down Divine Dragon Body and absorb the power of his bloodline. The second was the countless number of Phantom Beast that had accompanied the birth of the Dragon Devouring Beast. Their numbers would rapidly multiply as the Dragon Devouring Beast grew. The strongest Dragon Devouring Beast even had over a hundred million Phantom Beasts in its body. That kind of Dragon Devouring Beast almost had the might of a divine dragon.

By killing the Phantom Beast, Long Chen basically meant that the Great Emperor of Desolation had already lost the ability to normally swallow divine dragons.

This made Great Emperor of Desolation want to cry but she had no tears. He did not expect that such a situation would actually happen.

But, Great Emperor of Desolation did not want to lose!

Although he had to rely on the strength of Phantom Beast to swallow a Divine Dragon, the fact that the Dragon Devouring Beast could have such a great reputation made the relationship between them even greater! When a large number of Phantom Beast had already died, the Great Emperor of Desolation could only take this risk.

Long Chen and Mo Xiaolang were both anxiously waiting for his decision.

Great Emperor of Desolation said in an exasperated tone: "Alright, I promise you, as long as you come out, I will free this space of despair."

"Who would believe you. As long as you remove the space of despair, I'll come out." Long Chen said coldly.

Just as they were waiting for the Great Emperor of Desolation to make her decision, at this time, the Great Emperor of Desolation suddenly said sinisterly: "Do you really think I would let you out? Go to hell! My Dragon-Devouring Tribe is born to be the bane of dragons. Even if you were conscious, do you really think I wouldn't be able to eat you!?"

The unforeseen event happened again!

Before Great Emperor of Desolation finished her last sentence, she had already used the Dragon Swallowing Art.

If the Phantom Beast used warm water to boil Long Chen to death, then this Dragon Swallowing Art was using fire to boil Long Chen dry!

Relying on the Phantom Beast and not directly using the Dragon Swallowing Art was because the Dragon Swallowing Art needed to squeeze out more than 50% of the Dragon God's body from the vital essence. This was a way to kill and hurt oneself, and if it succeeded, that would be earning, but if it failed, that would be losing!

When Long Chen was discussing with him whether to remove the space of despair first or come out first, the crafty Great Emperor of Desolation had actually burned fifty percent of the vital essence in order to unleash this Dragon Swallowing Art!

"Great Dragon Devouring Array, open!"

The stomach was the center of the formation, and a grey formation was forming inside his body. There were countless grey symbols inside the formation, and the symbols were like wild beasts opening their mouths and roaring like crazy beasts.

His internal organs, bones, meridians, muscles, and blood were all burning brightly, forming a gray flame and channeling into the stomach of the Dragon Devouring Beast, which was where Long Chen was at right now. The stomach of the Dragon Devouring Beast was incomparably huge, occupying almost half of the body of the Dragon Devouring Beast!

On the inner wall of the Dragon Devouring Beast's stomach, there were actually runes that were similar to the five hundred years old forbidden room. At this time, countless gray flames surged out from the wall.

"Die!" Don't be suspicious. If I kill the Phantom Beast, I will lose to you. If my Dragon Devouring Beast is so easy to deal with, would we be the divine dragon's nightmare? "

The arrogant and wild laughter of the Great Emperor of Desolation echoed out crazily.

When that grey flame touched his body, Long Chen felt a hundred times the pain!

The pain penetrated his heart!

This pain came from all over his body. Long Chen could clearly feel his Ancestral Dragon body smiling. They were still young dragons after all, and their bodies were not that powerful yet!

"Slaughter Dragon Seal!"

At this juncture, Long Chen used all the strength in his body and released Slaughter Dragon Seal. The Slaughter Dragon Seal struck Great Emperor of Desolation's stomach, causing her stomach to tremble.

"I'm using seventy percent of the vital essence in my body to digest you, so I don't believe that you can still persevere!" The Great Emperor of Desolation was hysterical as she laughed maniacally.

Great Emperor of Desolation had hibernated for tens of thousands of years, and 70% of the vital essence s were her greatest and most frenzied attacks. Among them, a large majority of their Nirvana Qi were used against Long Chen.

He was furious and resentful, but he was completely suppressed by Great Emperor of Desolation, who had gone insane.

"I'm going to die here!"

In the midst of the terrifying burning of the gray flames, Long Chen thought about this problem.

He was extremely unwilling and extremely unwilling. He still had too many things to do. If he died here, it would be too regretful and too useless!

He couldn't accept it!

Even if it was for the sake of the little wolf, all of this was worth it.

The Great Emperor of Desolation was a Dragon Devouring Beast!

This was a filthy race that the dragon hated!

Long Chen's body contained the deepest pride in his bones, and he was actually going to eat it in this filthy stomach. At this moment, not only his primordial spirit, but every particle in his blood and body was resonating with each other!

He wanted to reverse it!

Chapter 1645 - Limitless Star Dragon Diagram

Anger!

Hatred!

Death!

He couldn't accept it!

When his dignity was trampled upon, when his blood was tainted by something dirty, the blood in Long Chen's body began to resonate, the pride in his blood burned up, and exploded again and again, each time more intense than the last!

Inside the body of the Dragon Swallowing Beast, even though it was engulfed in the gray flames, Long Chen was still doing his best to resist. This made it so that the Great Emperor of Desolation did not even have the chance to talk to Mo Xiaolang, instead, using all his strength to resist Long Chen.

"As long as I can digest him, I can take another step forward!"

"Since the time of the baby dragon, Long Chen has been around tens of thousands of meters. This Long Chen is definitely a rare, high level divine dragon. After I devour his bloodline, I'll ascend to the heavens in a single leap!"

Great Emperor of Desolation was immersed in hope for a better future.

However, he discovered that no matter how much he burned the vital essence and the Nirvana Qi, Long Chen still did not die.

BOOM!

Long Chen let out a heaven-shaking roar inside the Dragon Swallowing Beast's body. Under the disintegration technique of his Illusory Mirage, the structure of the grey flames were destroyed one by one, turning around and colliding with the Dragon Swallowing Beast's stomach!

Long Chen's blood-red eyes were currently filled with endless fury!

"A mere filthy thing dares to stain my bloodline!"

A blood red fury was blazing on Long Chen's body.

Other than Long Chen, the other young dragons would probably not be able to resist it, but who was Long Chen? He had a double ancestral dragon body!

Not only was it a Primordial Blood Dragon of flesh and blood, it is also a Great Void Cosmic Dragon of the Primordial Spirit!

When his anger and pride reached its peak, another type of sleeping thing within Long Chen's primordial spirit finally awakened under the impact of Long Chen's primordial spirit which was growing stronger and stronger!

In the depths of his primordial spirit was an ancient piece of parchment. After Long Chen transformed into a dragon, he discovered his existence, but was unable to summon it back.

It was a heaven-defying art.

The only thing left behind by the Inverse God Church.

Many of the former sects were also powerful forces!

This piece of parchment had already been hidden in Long Chen's body for a long time.

However, he was already dead. When Long Chen's surging primordial spirit power, in the midst of madness and unwillingness, was poured into the parchment, the nine words that had reversed were actually gradually awakening!

He was absorbing the power of Long Chen's primordial spirit!

Of course, this absorption would not harm Long Chen, or even give him feedback. It was just like how Long Chen's primordial spirit power had formed a strong resonance with the reverse of his mental will and this parchment!

Under the double stimulation, the thing that had been sleeping for a long time finally woke up.

Deep inside Long Chen's primordial spirit, the nine words on the parchment gradually lit up, and truly turned into nine Dao patterns!

It really was a Middle Ancient Dao Artifact with nine Dao patterns!

A Dao weapon, if it had ten dao patterns, would be a palaeogeostats that had lived for over a million years. As for the nine dao runes, they were all at least a million years old, equivalent to when the True Martial Imperial Palace and the others were establishing their own sects.

Ling Xi's six immortal swords, were the things from that time.

There was also the Haotian Tower of the Five Elements in the True Martial Imperial Palace.

And on Long Chen's body, at this time, unexpectedly appeared nine Dao Rune's artifact. In theory, it would be even stronger than the Golden Demon Suppressing Pillar!

On the parchment paper, the nine reverse Dao patterns started to dissipate.

The old parchment paper, on the other hand, was now shining with a brilliant light. On the parchment paper, a picture of a starry sky appeared.

This was a vast starry sky.

At this moment, countless stars in the starry sky were converging and changing.

When those star groups were successful, they became nine Stellar Dragons soaring in the sea of stars. The body of the Nine-headed Dragon was completely made up of stars. The nine headed Stellar Dragons howled proudly at the world, extremely shocking. This power shook her soul, as if it had truly appeared in front of her eyes.

Just like the Golden Demon Suppressing Pillar, it was also a Dragon Fighter Dao Artifact.

A Dao tool exclusive to the Dragon Fighter!

This must have been forged by a Dragon Fighter a million years ago.

In Long Chen's mind, the name of this middle aged dao tool appeared.

Boundless Star Dragon Diagram!

A Dao artifact with nine dao runes was comparable to the Six Daos Immortal Swords and the Five Elements Clear Sky Pagoda!

Long Chen's Nirvana Power penetrated deep into the Everlasting Star Dragon Diagram and those nine Stellar Dragons were a type of dragon from the The Age of Dragons. Their name was Everlasting Star Dragon, and their rank when they were alive was even higher than the Void Refining Demon Dragon!

Of course, these nine Boundless Star Dragons were all incomplete Ancient Dragon Souls. But even so, the might of the nine Limitless Star Dragons still surpassed the power of ninety-nine five-clawed Golden Dragons!

And among the green dragon halberd that they had obtained in the Realm of Myriad Kingdoms back then, the dragon soul was not even one in ten thousand of each Golden Demon Pillar's five-clawed golden dragon!

The Divine Dragon's Soul was vast and vast. After death, it could even split into a million parts!

When Long Chen's Nirvana Power and the Limitless Star Dragon's power communicated with each other, because of the ancestral dragon's bloodline, he easily obtained the acknowledgement of the Limitless Star Dragon. Within the nine skulls, Long Chen quickly familiarized himself with the star array formation on the Limitless Star Dragon Diagram and controlled the first ability of the Limitless Star Dragon Diagram!

Primordial Spirit Control!

In the past, Long Chen had cultivated the soul-controlling technique, but compared to the primordial spirit controlling the Boundless Star Dragon Diagram, it was like a world under the heavens!

The control over the Boundless Star Dragon Diagram was overbearing and forceful.

At this moment, Long Chen was still fighting against the Dragon Swallowing Beast's Dragon Swallowing Art. With the Great Void Cosmic Dragon's illusion, Long Chen could probably block part of the attack, but this was not a long-term solution. At this rate, as long as the Great Emperor of Desolation was crazy enough, there would be a time to engulf Long Chen.

The awakening of the Limitless Star Dragon Diagram could be said to have coincidentally solved this huge problem called Long Chen.

Moreover, didn't they say that even if they killed the Great Emperor of Desolation, there was no space of despair that could be removed? But now, after familiarizing himself with the Everlasting Star Dragon Diagram, Long Chen had a crazy plan in his mind.

This plan was aimed at the Great Emperor of Desolation that had occupied the Desolate Imperial Domain for tens of thousands of years!

An angry flame silently spawned inside Long Chen's body.

"Still not dead? Looks like I need to burn another ten percent of the vital essence! " The Great Emperor of Desolation roared crazily!

In front of him, Mo Xiaolang had already returned to his human form, but he was still under the control of the Great Emperor of Desolation. He watched nervously, and at this time, he had no way to help in any way, so he could only pray silently for Long Chen.

He saw Long Chen's struggle, so there must be hope!

Just at this moment, Mo Xiaolang realized that a glimmer of starlight had appeared in the huge stomach of the Great Emperor of Desolation!

The body of the Great Emperor of Desolation!

"Limitless Star Dragon, go!"

At that moment, Long Chen's gigantic dragon head emerged with a virtual image of a Boundless Star Dragon. The nine-headed Stellar Dragons circled around his dragon scales, roaming all over the place!

Under Long Chen's control, the Everlasting Star Dragon Diagram shrunk to a very small dot and formed the sharpest thorn. Under Long Chen's crazy control, it pierced through the Great Emperor of Desolation's stomach wall with its terrifying strength and headed straight for his head!

At that moment, Great Emperor of Desolation felt that heart-wrenching pain. She was in pain again, but at the same time, she was also enraged!

"What the hell is this?"

However, he quickly noticed that an even greater calamity descended upon him.

Those star spikes were like Phantom Beast s as they pierced through his body and entered his sea of consciousness!

In his Sea of Consciousness, the Primordial Spirit of the Dragon Devouring Beast saw the star map that contained the Nine-headed Dragon heading towards him!

"This is the Limitless Star Dragon which is proficient in the control of primordial spirits and the Dao of star array formations!" After recognizing the appearance of the Limitless Star Dragon, Great Emperor of Desolation was screaming in fear!

His primordial spirit retreated in panic, but where could he hide in his sea of consciousness?

The nine heads of the Boundless Star Dragon emerged from the Mythical Star Dragon Diagram, and in an instant, it wrapped around the Dragon Devouring Beast's primordial spirit, forming a spherical array formation and completely controlling the Dragon Devouring Beast's primordial spirit, preventing it from seeing what was happening outside!

The method of controlling the Boundless Star Dragon was similar to the method of controlling Phantom Beast.

But in truth, the star-array formation of the Limitless Star Dragon was more stable and difficult to break!

The Primordial Spirit of the Dragon Devouring Beast howled in pain as it struggled with all its might in the encirclement of the star array formation. He tried to surround herself with the Boundless Star Dragon Diagram, but as Long Chen became more and more familiar with the diagram, the probability of him breaking it became smaller. And under the suppression of the diagram, his consciousness, and all of his consciousness, was quietly changing!

The owner of the Boundless Star Dragon Diagram was Long Chen. Long Chen's will was the will of the Boundless Star Dragon Diagram. At this moment, Long Chen was relying on the Boundless Star Dragon Diagram to fight the Dragon Devouring Beast!

"Stop the refinement!"

The instructions from the Boundless Star Dragon Diagram passed through the Dragon Devouring Beast's primordial spirit.

"No!"

The Dragon Devouring Beast let out a last struggle, but it was quickly drowned out.

Outside the Great Emperor of Desolation, Mo Xiaolang blankly stared at the star dragon diagram that appeared on Great Emperor of Desolation's forehead. It was a vast picture of a star world and Nine-headed Dragon s were all gathered from the stars, flying high in the universe.

"Stop the Dragon Swallowing Art!"

Long Chen's will, with the help of the Everlasting Star Dragon Diagram, had defeated the will of his opponent. At that moment, Long Chen succeeded.

The gray flames that surrounded Long Chen quietly dispersed.

"Let me out!"

Long Chen ordered again.

Under his control, Great Emperor of Desolation's throat moved.

Mo Xiaolang saw that the Great Emperor of Desolation's enormous body had already been completely controlled by the Everlasting Star Dragon Diagram. The Nine-headed Dragon flew and swam on the surface of his body as they whistled arrogantly between heaven and earth.

At that moment, Great Emperor of Desolation opened her mouth wide.

In that moment, a blood-colored dragon rushed out!

## Chapter 1646 - Armageddon

In the endless gray wilderness, a divine dragon shrouded in blood-red clouds flew above the Great Emperor of Desolation, dominating the world. The majesty of the Divine Dragon once again descended upon the world.

Below, Mo Xiaolang, who had just recovered his body, looked at the divine dragon that could not see its tail, and finally shed tears of excitement. He had finally escaped from this disaster.

Mo Xiaolang was naturally clear that the Stellar Dragons shining on the Great Emperor of Desolation was the key to this transformation.

When Long Chen came out from Great Emperor of Desolation's body, Great Emperor of Desolation's previously restless and tumbling body finally came to a stop. At this moment, Long Chen had already used the Boundless Star Dragon Diagram and completely controlled the Great Emperor of Desolation's body.

The Limitless Star Dragon Diagram covered the Great Emperor of Desolation's primordial spirit, blending into it and completely seizing it. Long Chen could command his opponent using the Limitless Star Dragon Diagram, and the most powerful part of the Limitless Star Dragon Diagram compared to the soul-

controlling technique was that the soul-controlling technique was only used to confuse his opponent, while the Limitless Star Dragon Diagram transformed the Great Emperor of Desolation into something similar to Long Chen's avatar.

As long as Long Chen willed it, the Great Emperor of Desolation would react.

What Long Chen wanted to do, with just a thought, the Boundless Star Dragon Diagram would immediately issue this order, telling the Great Emperor of Desolation to do it.

For example, Long Chen wanted him to remove the space of despair.

The space of despair could only be used once. After exploding, it would no longer exist.

Not only that, Long Chen could hear everything the Great Emperor of Desolation heard, see everything the Great Emperor of Desolation saw and feel. This Great Emperor of Desolation that had ruled over the entire Desolate Imperial Domain for tens of thousands of years had now become Long Chen's clone, or something that looked like a puppet.

This was the most impressive aspect of the Boundless Star Dragon Diagram, which had a total of nine dao patterns.

At this moment, the space of despair shattered, and the traces of the Limitless Star Dragon Painting gradually faded away on the Great Emperor of Desolation's body.

Long Chen transformed into his human form, and landed in front of Mo Xiaolang.

Mo Xiaolang stood up. At this moment, they could be considered to have completely walked up the stage before the gates of hell.

"Big brother, he ..." Mo Xiaolang was worried about the Great Emperor of Desolation's counterattack.

"Don't worry, he can't move without my order."

Long Chen said with certainty.

His thoughts and thoughts could easily interfere with the Great Emperor of Desolation, and cause confusion for the Great Emperor of Desolation.

Mo Xiaolang did not know the reason behind it, he only knew that Long Chen had revived.

This was something worth being overjoyed about.

Although there were still wounds in his eyes, he could not help but exclaim, "This time, I was able to survive all thanks to your help, big brother!"

Long Chen shook his head and said: "That's not true. If it wasn't for me, he wouldn't have used you to threaten me."

Regardless of how it happened, after today's battle, determination and passion had filled his heart.

The first thing Long Chen did was to bring back the sculpture that Yang Lingqing had transformed into. Now that he was fine, the disaster had passed and it was extremely dangerous.

He turned around and looked at the Great Emperor of Desolation's huge body, and said: "I used a Dao Artifact with nine dao patterns, called the Everlasting Star Dragon Diagram, and used the Immortal Soul Controlling Technique to control the Great Emperor of Desolation, turning him into something similar to my clone. You respect him, and call him your foster father.

Mo Xiaolang shook his head and said: "That won't happen, he isn't a person that deserves my respect. "But big brother, you are truly amazing. You even have a Dao Artifact with nine Dao patterns, and you even have such powerful abilities!"

The method of the Everlasting Star Dragon Diagram could be said to be heaven defying.

If Long Chen didn't need this Great Emperor of Desolation in the future, he could take back the Boundless Star Dragon Diagram at any time and attack someone else's body. As long as they weren't anyone that was much stronger than Long Chen, it wouldn't be a problem for him to be hit.

Furthermore, the fighting strength of the Great Emperor of Desolation was still not fully unleashed, so she was definitely very strong. Before the calamity that killed the City Lord, Long Chen could rely on his identity as the Great Emperor of Desolation to control the Desolate Imperial Domain.

Because of Ling Xi, the Imperial Domain of Sword Soul was basically under her control.

It could be said that the Desolate Imperial Domain was under his control because of Little Wolf and Long Chen's Great Emperor of Desolation Avatar.

There was even less of a need to talk about True Martial Imperial Palace.

Long Chen had never thought that he would be able to grasp Three Great Imperial Domains in his hands so quickly. From today onwards, he would practically have become people who were similar to three great emperors!

The strength of the Great Emperor of Desolation was also a great strength!

Hearing the miraculous ability of the Everlasting Star Dragon Diagram, Ling Xi and Mo Xiaolang were both happy for Long Chen.

"Now that you have the Great Emperor of Desolation, it can be said that the entire Desolate Imperial Domain is under your elder brother's command. With that, everyone will have to work together to defeat the City Lord, and our chances of success will be higher. "

He had been in a dire situation, but from the looks of it now, his future seemed bright.

"Big Brother, there's one more thing ..." Mo Xiaolang said in a trembling voice when he suddenly thought of that terrifying matter.

Long Chen stabilized the Everlasting Star Dragon Diagram and firmly grabbed the Great Emperor of Desolation within his hands. When he looked back and saw that Mo Xiaolang's expression was still a little gloomy, his heart stirred and he raised his head. It seemed that the sky which was shrouded in gray clouds had undergone some changes.

Mo Xiaolang said: "Just now, Great Emperor of Desolation said that he is about to pass through the sixth stage of the Nirvana Tribulation, the Hellfire Star Colossus is about to descend. If it is really as scary as he described, then out of thirty million miles in the Scarlet Earth, one tenth of the desolate Imperial Domain will turn into ashes.

Previously, Long Chen was in a hallucination, so he naturally didn't know about the Giant Thunder Beast of the Ninth Heaven and the Hell's Inferno Star Beast. He quickly asked, "The Inferno Star Colossus?"

Mo Xiaolang then repeated what the Great Emperor of Desolation had said before.

Long Chen inhaled a breath of cold air, and said: "So that's how it is, this old fellow sure is scheming, killing two birds with one stone, wanting to swallow me whole and then letting you help him pass through the sixth stage of Nirvana Tribulation. If he really succeeds, there really would be no one who can control him anymore. Fortunately, he had chosen this place. Within the circumference of three thousand kilometers, there should not be many people around. If it was in Desolate Imperial Palace, then it would be troublesome. "

However, even after hearing Mo Xiaolang's description, Long Chen still felt how terrifying this Purgatory Flame Star Beast was.

"Big brother, what should we do?"

Long Chen thought for a while and said, "Something like the Nirvana Tribulation can't be avoided. Let's hide far away so that we won't be affected. When the time comes, I'll do my best to control him while you try your best to increase his strength as much as you can. Let's live first. If he can't take it, then we can only count him as unlucky. If we can survive, then we will be the ones to benefit. "

Although he was a little ruthless towards the Great Emperor of Desolation, it was his own choice and he couldn't blame anyone else.

Mo Xiaolang originally respected him, but after this matter, the position of the Great Emperor of Desolation in his heart plummeted. Such a person, there was no need for Mo Xiaolang to respect him anymore.

The Great Emperor of Desolation had burnt the majority of her vital essence to deal with Long Chen, so this could be considered his weak state. Amongst the three of them, only Long Chen's situation was slightly better. As for Mo Xiaolang, it was basically equivalent to him being on the verge of death.

If the Hellfire Starbeast was so terrifying, then it could basically be considered as a core area even if it was a thousand miles away. However, Long Chen and the others could roughly endure it, and it was also convenient for Mo Xiaolang to devour flames, strengthen himself, and recover from his injuries.

After arriving at this place, Mo Xiaolang used his immortal spirit to heal his injuries as he waited.

This was the first time he had encountered the sixth stage of Nirvana Tribulation. Even Long Chen himself was feeling a little nervous. In reality, even he himself had underestimated the power of the fifth and sixth stages of the Nirvana Tribulation.

It seemed that for all practitioners, even if it was himself, the Nirvana Tribulation was the most terrifying thing in the world.

Of course, there would also be the reincarnation tribulation that would occur in the future.

When the Giant Thunder Beast of the Ninth Heaven descended, the area of three million miles was affected by the raging thunder. The Inferno Star Colossus had descended, leaving a red trail behind it.

Long Chen reckoned that he would be facing Giant Thunder Beast of the Ninth Heaven directly during his next stage of Nirvana Tribulation. Not only him, Mo Xiaolang thought so too.

Today's viewing could also be considered as future experience.

Whether it was the weather or the temperature, there were minute changes.

In the desert, it started to get hot and dry. In the endless sand, hot steam started to rise, like a steamer. And in the sky, the clouds had already started to disperse, revealing the bright stars.

A vast starry sky appeared in front of Long Chen and Mo Xiaolang's eyes.

The stars in the starry sky revolved quietly, but nothing happened.

Long Chen used the Boundless Star Dragon Diagram to control the Great Emperor of Desolation, but he could feel that the suppression in his heart was nearing a great calamity and his heart demon was about to descend.

The Great Emperor of Desolation was not one bit weaker than him, and was even much stronger than him. The reason why he did not attack in the beginning, was because Long Chen was not necessarily swallowed by him, because he was about to undergo her Nirvana Tribulation and did not want to waste any energy on him.

He didn't expect that he would end up in such a miserable state.

The Great Emperor of Desolation had prepared for tens of thousands of years. At this moment, after coming out of seclusion, even if they did not successfully devour Long Chen, they had a lot of confidence to survive the calamity that was the Purgatory Flame Star Beast.

While quietly waiting, in the endless starry sky, all of a sudden, one of the brightest stars suddenly ignited, emitting a distant light, instantly lighting up the entire starry sky like a small sun.

And at this time, the little sun had actually rushed towards Dragon Sacrifice Continent.

In the process of advancing, Little Sun transformed into the Hellfire Star Colossus!

Chapter 1647 - divine might of heavenly tribulation

The Inferno Star Colossus!

This was a Cosmic Flaming Star. Under the summons of the Heavenly Dao, its heart was set ablaze, and it surrounded its entire body, turning it into a gigantic beast that descended onto the Dragon Sacrifice Continent. It was here for the sole purpose of destroying a living being.

Everyone in the Three Regions Nine Realms was shocked by the appearance of that gigantic Purgatory Flame Star Beast. At this moment, the night had turned into day and the entire sky seemed to be filled with blazing flames.

In the blink of an eye, the sky and the earth rumbled, the sky was already being burnt into a sea by the gigantic Hellfire Star Beast. That shining fiery star passed through the endless space as it traveled endlessly towards the distant Dragon Sacrifice Continent.

The Great Emperor of Desolation was the person the Inferno Star Beast was going to hunt.

Under Long Chen's Infinite Star Dragon Diagram's control, the Great Emperor of Desolation was absolutely loyal to Long Chen and his. Long Chen could also almost treat him as his own clone and control the other party, but, if Long Chen didn't have that order, he would still be the Great Emperor of Desolation, possessing his original intelligence and fighting ability.

In order to deal with the Inferno Star Colossus, Great Emperor of Desolation prepared for a long time.

At this moment, other than the vital essence's burning which had caused him to lose a large amount of his life force, the other aspects had not changed much. As long as the Great Emperor of Desolation succeeded in surviving this Nirvana Tribulation, it might be possible for her to recover that portion of the vital essence. After all, this Purgatory Flame Star Beast was also made up of Nirvana Power.

Around Great Emperor of Desolation, countless steam rose from the desert, making his huge body seem like it was placed inside a steamer. In that grey desert, flames were already erupting.

In the sky, the huge rumbling sound was getting closer and closer.

Countless people raised their heads and looked up in terror at the fiery planet that was getting closer and closer!

Ninety-nine percent of the people didn't know what it was. Only one percent might have heard of some legends.

True Martial Imperial Palace, War God Palace, Five Elements Clear Sky Tower.

The True Martial Great Emperor, who was hiding within his Dao Artifact, had no choice but to shrink his body even more tightly when he heard the sound of rushing flames. The sound of burning flames was simply a nightmare for him. In order to avoid this nightmare, he had already spent tens of thousands of years within the lonely Clear Sky Tower.

The Sword Soul Imperial Palace, countless of experts in the Three Regions Nine Realms all felt this nightmare in their lives.

Immortality was just a dream.

All living beings would be wiped out on their path to immortality. No one would be able to survive, unless they could survive through the great calamity of the eighteenth stage, and to the Dragon Sacrifice Continent of today, the Divine Spirit was just a legend.

Dragon Fighter was even more heaven-defying? In front of the Nirvana Tribulation, most of the Dragon Fighter s would die even faster. For example, the Dragon Fighter s would possess astonishing talent, but the first stage of Nirvana Tribulation was already equivalent to the fourth stage for others. Doesn't that mean that when he passes through the seventh stage of Nirvana Tribulation, he would be as powerful as other people?

No matter what, the Inferno Star Colossus is getting closer and closer!

The entire Dragon Sacrifice Continent seemed to be trembling, and when he raised his head, the Hellfire Star Colossus looked to be at least a meter in diameter. If it was a gigantic star, it would evolve into a gigantic flame beast, and let out an earth-shaking roar, charging towards the northernmost region of the Desolate Dragon Sacrifice Continent.

Weng! \*

When the Hellfire Star Beast descended above the Dragon Sacrifice Continent, the Great Emperor of Desolation was the center. Within a radius of five million kilometers, flames emerged out of nowhere and shot up into the sky, enveloping almost one twentieth of the Desolate Imperial Domain.

Of course, it was only a twentieth of the most sparsely populated ones, with very few demi-humans.

This was when the Inferno Star Beast didn't descend.

He could only use his own Nirvana's power to protect himself and at the same time, give Mo Xiaolang some pointers. As for Great Emperor of Desolation, Long Chen could only order him to go through the Nirvana Tribulation with all his might.

If he died, then that would be what would be deserved. Long Chen could summon the Everlasting Star Dragon Diagram back to him before he died.

Mo Xiaolang's gaze was blazing hot as he looked up at the flames that were rushing over from the depths of the starry sky.

Long Chen said: "This is Great Emperor of Desolation's Nirvana Tribulation, you must not devour too much. You must not attract the attention of that Hellfire Star Colossus, otherwise, it will come for you."

Mo Xiaolang nodded.

In that moment, the world trembled!

What Long Chen could see was that the Star Colossus had already expanded to the point that it could block out his entire sky. This was a super behemoth that was covered in flames, and had a body made of stone and stars. Before he even descended, Long Chen felt a terrifying burning sensation on his body.

He quickly pushed away from the core area again.

And Mo Xiaolang was still staying in this place.

To him, fire was just food. He could even devour the flames of the Ancestral Devil Fire, much less this gigantic Hellfire Star Beast.

When Long Chen left again, the skies descended with divine flames, and the desolate Imperial Domain had a tenth of the area, completely submerging the raging flames. The ocean of flames rose to a height of almost three thousand meters, and the scorching aura spread to the surroundings, causing the temperature of the entire desolate Imperial Domain to rise to a terrifying level.

This was the power of a calamity!

This was the first time Long Chen had easily endured the Nirvana Tribulation. However, the power of the Hellfire Star Colossal Beast had moved him even more. Relying on the Boundless Star Dragon Diagram, he could easily see the calamity that had befallen Great Emperor of Desolation at this time!

The entire world was a sea of flames!

This was not the most important thing, the most important thing was that right at this moment, the gigantic Purgatory Flame Star Beast suddenly crashed into the Dragon Sacrifice Continent.

It was impossible to use words to form this shock.

In any case, Long Chen was sent flying at the first possible moment.

All the liquid was evaporated at the first possible moment. This tenth of the land of the Desolate Imperial Domain began to shake intensely, and even Long Chen could not hear anything clearly for a moment.

He could feel the ground under his feet collapsing!

If his prediction was not wrong, that Hellfire Star Colossus had almost smashed through the Dragon Sacrifice Continent. The one-tenth area of the Desolate Imperial Domain was completely destroyed by the heavenly tribulation, there were even large amounts of land that broke down and entered the Broken Star Sea.

Almost everything was engulfed by the terrifying flames and turned into ashes!

This was the true divine might of the world!

This was an ordinary Sixth Layer Nirvana Tribulation!

The Heavenly Dao really didn't want any martial artists to survive!

It was no wonder that all three emperors would use the method of hiding to endure the several tens of thousands of years of loneliness in order to avoid the calamity that was the Hellfire Star Beast. Great Emperor of Desolation was even more terrifying, locking herself in that hundred thousand years of confinement.

Why did Ye Futu want to rely on the City Lord?

The biggest benefit was eternal life! With the City Lord's transformation, he could completely escape from the Nirvana Tribulation. Even though he had turned into an unhuman and a ghost, he did not retreat.

It was evident that immortality was a huge attraction for everyone.

And at this moment, Great Emperor of Desolation had used all of her skills to deal with this gigantic Hellfire Star Beast!

Countless fiery star particles swarmed towards him!

The surrounding flames burned his body in a fiery red color, and some of it even started to rot, but Great Emperor of Desolation still had a strong recovery ability, and his flesh and blood was rapidly regenerating!

The Great Emperor of Desolation was a Dragon-Devouring Beast, she was proficient in the way of concealment and the way of illusions. This could cause the Purgatory Flame Star Beast to lose its target in a short period of time, and the Great Emperor of Desolation used the way of dodging to fight it head on!

Of course, it was not that the Great Emperor of Desolation did not have any methods of attack, it was just that fighting against the heavenly tribulation was not a wise move to begin with.

The star fragments that were carrying the hellfire were charging towards him nonstop. Any one of these fragments could pierce through the Great Emperor of Desolation's body!

Not many people could survive such a violent attack!

This was just the beginning.

In a distant place, looking at the flames in front of him, Long Chen suddenly heard a long wolf howl. He knew that Mo Xiaolang had already begun to move.

"I hope Little Wolf can succeed" was yet another crisis. Ling Xi leaned on Long Chen's side, his nervousness still not dissipating.

The power of the Inferno Star Colossus had far surpassed Long Chen's imagination. It was just the beginning of the play, but it had already caused the Great Emperor of Desolation to flee in panic, almost running out of tricks!

He had devoured five divine dragons and had the offensive abilities of five divine dragons. He was proficient in wind, fire, lightning, and everything else, but he was still being attacked by the Inferno Star Colossus!

Just those flaming stars were enough to kill Great Emperor of Desolation.

But at this time, a terrifying roar appeared.

In front of the Great Emperor of Desolation's gigantic body, a huge beast that was twenty thousand meters tall, made entirely of broken stars and raging Hellfire, finally appeared. The fragments of these stars were the stellar nucleus s of the flame star, and the toughness of the material was extremely rare in the entire Three Regions Nine Realms!

The astonishing Hellfire burned fiercely in the space between the rocks of the fragmentary stars, blossoming into large amounts of sparks!

This was the Inferno Star Colossus.

The huge beast released a world-shaking roar. This was the true heavenly tribulation, and at this moment, it was pouncing towards Great Emperor of Desolation!

The color of the sky and earth changed!

Great Emperor of Desolation let out a painful cry. He had already lost all courage to fight against the gigantic Hellfire Star Beast.

However, for the destruction of that gigantic fire star beast, this sort of escape was completely useless.

And right at this moment, Mo Xiaolang was absorbing a large amount of Hellfire, so his injuries quickly recovered.

## Chapter 1648 - Wrath of the Swallowing Behemoth

The Hellfire that was born from the body of the Cosmic Flaming Star Beast was from the Hellfire. Compared to when Mo Xiaolang swallowed the Thunder Flame Emperor's dragon fire, the Hellfire that was produced from the inside of a star and was known as the hellstar fire, it was actually more terrifying. However, at this moment, the amount of Hellfire brought by the Hellfire Star Colossus was even more terrifying!

At the same time Mo Xiaolang was crazily devouring hellstar fire at the edge to recover from his injuries and increase his strength, through the Everlasting Star Dragon Diagram, Long Chen could clearly feel what Great Emperor of Desolation had experienced and felt. At this moment, Great Emperor of Desolation was doing her utmost to dodge the attack of the Inferno Star Behemoth, and at the same time, wearing down the opponent's strength!

This Purgatory Flame Star Beast's destructive ability was rarely seen in the world. Long Chen reckoned that even if it was him, he would be engulfed in a few moves.

In order to pass the tribulation, the Great Emperor of Desolation had prepared many treasures. Until now, Long Chen had only seen him use two or three of the eight Dao Rune Dao Artifacts, but they were all torn to shreds by the Purgatory Flame Star Beast!

To be honest, Long Chen still hoped that Great Emperor of Desolation could survive this calamity. The power of the Great Emperor of Desolation was now a part of his own power. As long as the Great Emperor of Desolation was strong, then he would be strong enough to deal with the City Lord!

Long Chen was also secretly shocked. If Great Emperor of Desolation only wanted to start a fight with him, then even if she was a Divine Dragon Body, he would probably be killed by him as well. The might of a Monarch was indeed not to be underestimated.

It was purely luck that he had survived today.

"The wolf cub is gradually approaching the center."

Long Chen felt it.

At this moment, one tenth of the Desolate Imperial Domain s were enveloped in a sea of fire. Countless experts were watching the situation over here.

The surging sea of fire had created a terrifying natural disaster, making history remember this moment for all to see.

The flames were like demons that were engulfing other places. The demons closest to them had all moved away, fleeing in panic. The Desolate Imperial Palace had sent a large number of warriors over to restore order.

They knew that the person currently resisting the gigantic Hellfire Star Beast was definitely the Great Emperor of Desolation.

Long Chen could only wait silently.

The power of the Nirvana Tribulation is limitless, unless the Great Emperor of Desolation were to kill this gigantic beast, otherwise, this level of the Nirvana Tribulation will continue for the rest of her life.

"In order to digest me, this old geezer has consumed over 70% of his vital essence. This kind of loss is extremely harmful to him. Although he has already made his preparations, this time around, he is clearly not going to be able to endure the first stage of Nirvana Tribulation!"

Until now, the Great Emperor of Desolation only used up a third of the opponent's power. This third of the Nirvana power was not even absorbed by the Great Emperor of Desolation, because he was currently fleeing in a sorry state.

The remaining energy basically flowed between heaven and earth, and blended into the endless amount of hellstar fire, and was devoured by Mo Xiaolang.

After absorbing a large amount of Nirvana Qi, Mo Xiaolang became stronger again.

Even though he was holding on with all his might, he could only hold on for a day at the very most. After one day, if the Hellfire Starbeast was still not destroyed, he wouldn't be too far away from death.

In the midst of this painful struggle, the Great Emperor of Desolation's body was destroyed countless of times but she still relied on her tyrannical regeneration ability to continuously struggle on the edge of death, using all of the methods she knew to fight back.

Previously, he did not take the Nirvana Tribulation to heart, but now, seeing how terrifying the Nirvana Tribulation was, there was an additional layer of respect in his heart. Thinking about it, the thing blocking his path wasn't his enemy, but the deadly Nirvana Tribulation.

"It has already been two days and two nights. The wolf cub's injuries have completely healed. This hellstar fire has given him another layer of space to improve. If this goes on, he will probably be able to face that Giant Thunder Beast of the Ninth Heaven even faster than me in the future. "

In the entire world, the only person who could compare to Long Chen was only the Sun Devouring Demonic Wolf.

At this moment, the Inferno Star Colossus only had a third of its power left.

One third of it disappeared, while the other third became the power of rebirth. The power of rebirth was absorbed by the Great Emperor of Desolation, allowing him to recover her own body.

If he could hold on for another day, Great Emperor of Desolation would definitely succeed.

However, the current him was covered in wounds, and there was no longer any room for battle. His heavily injured body fell onto the ground, and the Hellfire Star Beast pounced on him, using its sharp hands to hold down Great Emperor of Desolation's body. The claws that were filled with hellstar fire s, pierced into his opponent's flesh.

However, the Great Emperor of Desolation did not have the strength to fight back. Although she had accumulated a large amount of Nirvana Qi, he was already on the verge of death, and could not even open her eyes.

From the Everlasting Star Dragon Diagram, Long Chen could feel the despair this dying guy had in his heart, and the terror he had towards this Nirvana Tribulation. No wonder he was unwilling to come out

and fight this Nirvana Tribulation even though he had sealed himself in a cell for a hundred thousand years!

"It's such a pity. If we can cross over, perhaps we can become a great force in resisting the City Lord's death." Long Chen could only sigh.

Mo Xiaolang was still crazily devouring the hellstar fire.

At this moment — —

That Purgatory Flame Star Beast was just about to bite Great Emperor of Desolation, but it suddenly became vigilant. Its pair of eyes shrouded in flames was actually looking in the direction of the Sun Devouring Demonic Wolf.

Long Chen was startled, and his expression immediately changed greatly!

"Little Wolf, run!"

When the Great Emperor of Desolation was defeated and the scene quieted down, Mo Xiaolang, who was still very far away, was discovered.

The Hell Fire Star Colossus, executing the power of the heavens, had actually been blocked by someone. Although it was secretly devouring the flames, it still made the Hell Fire Star Colossus extremely angry, as he let out an earth-shaking roar that shook the entire world. Landing on the ground, his entire body was engulfed in flames, as he charged towards the direction of the Sun Devouring Demonic Wolf.

This Purgatory Flame Star Beast's appearance was somewhat similar to a wolf's, but it seemed even more savage!

Mo Xiaolang had already heard Long Chen's reminder.

However, the other party's speed was too fast. In the blink of an eye, the gigantic Hellfire Starbeast, which was twice the size of Mo Xiaolang, had already appeared in front of him, glaring at him like a tiger.

The two beasts looked at each other!

"You can't run!" Mo Xiaolang knew that he would definitely not be able to outrun the other party. If he showed his back to the other party, he would definitely be mercilessly slaughtered. Unfortunately, his body was now exposed.

In order to devour the hellstar fire, Mo Xiaolang had long since become a beast!

Since the other party had already discovered him, he, who was in peak condition, became bold. He immediately opened his mouth and sucked in a large amount of surrounding hellstar fire in a vortex in front of the Inferno Star Colossus. In that short moment, all of the surrounding sea of flames was completely engulfed by the pitch-black Sun Devouring Demonic Wolf!

hellstar fire had also been set on fire by that pitch-black fur. The two demon wolves faced each other, but when they saw that Mo Xiaolang was still engulfing the flames, the Inferno Star Colossus became furious and revealed its sharp claws. It charged towards Mo Xiaolang!

Just like that, the two huge wolves began to fight!

"Thousand Burning Fire God!"

At this moment, over ten thousand flames were burning on his body. Although they were all flames that were inferior to hellstar fire s, the advantage was that the flames, which had different types of energies, could combine together and unleash a power that could be calculated multiple times.

Long Chen was extremely nervous as he hurriedly approached them.

Although Sun Devouring Demonic Wolf were born to be the enemy of fire, the Hellfire Star Beast was still too terrifying!

When Long Chen got closer, he discovered that Mo Xiaolang was actually fighting with this gigantic beast passionately. Although he was far inferior to the other party in terms of Nirvana power, Mo Xiaolang's immunity to fire made him feel that he was invincible!

This was an even more exciting battle!

The two wolf-shaped beasts roared out again and again in the sea of flames, shaking the world, biting each other. Mo Xiaolang knew how to fight better, but the power of the Hellfire Star Beast was decreasing.

Long Chen was initially worried, but now his horizons had widened.

If it was a Giant Thunder Beast of the Ninth Heaven, even Mo Xiaolang might not be able to fight so much, but since the other party was a flame, then it would be different!

That vast hellstar fire had condensed into a ball of flame with a diameter of a hundred meters, which was spat out by the Inferno Star Beast. It smashed towards Mo Xiaolang with a loud bang, but was all swallowed up by Mo Xiaolang.

"Moon of Engulfment!"

After it was swallowed, it became a black, full moon. When the black moon came out of Mo Xiaolang's mouth, the surrounding flames crazily rushed into the black moon.

"You come in here too!" The Sun Devouring Demonic Wolf roared, and the Moon of Engulfment smashed onto the Purgatory Flame Star Beast, causing the Purgatory Flame Star Beast to scream in pain, as its body was almost smashed to pieces. This was not the most terrifying thing, the most terrifying thing was that the hellstar fire on its body was completely sucked in by Mo Xiaolang!

The body of the Hellfire Star Beast became smaller and smaller.

Finally, it let out a roar of unwillingness, its entire body was swallowed by the Moon of Engulfment, and the Moon of Engulfment became even more powerful, the hellstar fire ignited, and rushed into the sky, reaching a total of more than 1000 meters.

And at this time, the Sun Devouring Demonic Wolf leapt up into the sky, and like a heavenly dog eating the moon, it bit down on the moon and swallowed it into its stomach!

The Inferno Star Colossus disappeared!

The sea of fire that had enveloped the entire Desolate Imperial Domain suddenly dissipated at this moment, and everything returned to normal. On the other side, there was only the Divine Wolf who was bathed in flames, and Long Chen who didn't know whether to laugh or cry.

## Chapter 1649 - Double Cataclysm

To be honest, Long Chen had underestimated the Sun Devouring Demonic Wolf's resistance to fire. It was only today that Long Chen finally understood that Sun Devouring Demonic Wolf was also a kind of demon. As long as it was a fire type attack, he was not afraid at all.

The supreme king.

At this moment, while he was bathing in a huge ball of hellstar fire, Mo Xiaolang was undergoing a huge transformation. Long Chen could feel that his Nirvana's Strength was quickly expanding, and very soon, he had reached the same level as Long Chen.

When Long Chen had just passed through the Nirvana Tribulation in Sword Soul Imperial Palace, the two people had roughly the same amount of Nirvana Qi. To this day, after Mo Xiaolang had swallowed a few hellstar fire, his Nirvana Qi had increased exponentially.

Long Chen had originally thought that after devouring so much Nirvana Force, he should have surpassed Long Chen and reached the standard that could attract Giant Thunder Beast of the Ninth Heavens to descend.

When Mo Xiaolang's strength had increased to be almost the same as Long Chen's, it had completely stopped.

A large amount of the Nirvana Power from the Inferno Star Beast was still accumulating in his body.

The originally strong Great Emperor of Desolation became stronger and stronger at this moment. He was different from Mo Xiaolang, although she had only absorbed one-third of the Nirvana power, he could still digest everything.

His primordial spirit became even stronger, and even the Boundless Star Dragon Diagram was almost washed away. Fortunately, Long Chen had sealed him previously, so if he were to use the Boundless Star Dragon Diagram on him now, he might not be able to succeed.

Great Emperor of Desolation could not be considered to have truly endured the sixth stage of Nirvana Tribulation. The power he received did not meet the standard of a normal Sixth Stage of Nirvana Tribulation.

The current Great Emperor of Desolation was undoubtedly the strongest warrior within the entire Three Regions Nine Realms, yet Long Chen was able to control him. When the Great Emperor of Desolation was still refining and absorbing the energy, the little wolf woke up in advance. It had transformed into human form and didn't reveal its edge anymore as it stood in front of Long Chen.

Even though it was done in time, Long Chen could still feel how powerful he was.

Moreover, a ball of fire was still piled inside his body.

Mo Xiaolang looked at him with a wry smile and said: "The power of the Hellfire Starbeast is too strong, even though it is only one third of the power, I still can't digest it. But I have tamed it, at least it will be a good helper for me before I devour it."

On his tongue, a miniature Hellfire Star Beast crawled there. Although it looked extremely small, it possessed a power that could cause one to tremble, and with just a thought from Mo Xiaolang, this Hellfire Star Beast could turn into a destructive disaster!

"Good!" Very good, one more trump card to use against the City Lord! "

Mo Xiaolang and Long Chen seemed to have grasped an extremely strong power. It was similar to a clone where Long Chen controlled the Great Emperor of Desolation who was a Dragon Devouring Beast and Mo Xiaolang controlled the Nirvana Tribulation!

Speaking of which, Mo Xiaolang was the one who found it the most unbelievable.

As expected of Sun Devouring Demonic Wolf, to be able to tame even a Nirvana Tribulation. Since ancient times, no one had been able to do such a thing.

A tenth of the Desolate Imperial Domain s were in complete disorder, and all living things were destroyed.

Looking at the Great Emperor of Desolation, Mo Xiaolang had a complex expression on his face.

"This fellow's heart isn't right. He's plotting against us, and it just so happens that he's using his strength to save the common people. If someday the City Lord's calamity disappears, I'll let him go, how about it?" Long Chen said quietly.

"That would be for the best. After all, he had also helped me before." Mo Xiaolang nodded seriously.

It was a pleasant decision.

After two hours or so, Great Emperor of Desolation had completely absorbed the energy of the Nirvana Tribulation, and her fighting strength had reached an unfathomable degree for Long Chen. Compared to before he consumed seventy percent of the vital essence's energy to absorb Long Chen, the current Great Emperor of Desolation could be said to be much stronger and more powerful.

This was the most crucial trump card Long Chen had. Under the manipulation of the Boundless Star Dragon Diagram, it was almost equivalent to his clone. Unless absolutely necessary, Long Chen would not easily reveal himself.

"Before something absolutely important happens, let's just let him be the Great Emperor of Desolation and take charge of the Desolate Imperial Domain."

At this time, Great Emperor of Desolation had already returned to her normal state, it was just that his appearance was simply too slovenly. Long Chen let him organize herself for a long time before she finally recovered the appearance of a great Emperor.

Ling Xi also came out from the Divine Kingdom.

The danger had passed just like that.

The three of them had a feeling that they had seen the light of day again.

"Let's go back to the Desolate Imperial Palace first."

They found a Universe Teleportation Formations that was outside of the area of destruction, left the northwest of the Desolate Imperial Domain, and began to travel through space. After about one to two days, the Great Emperor of Desolation brought Long Chen and the other two, and returned to the Desolate Imperial Palace.

At this moment, countless disciples of Desolate Imperial Palace were welcoming them.

The Six Great Demon Emperors was so excited that tears fell from his eyes!

Their Monarch had finally fulfilled his own wish, and had survived the Nirvana Tribulation!

Seeing the living Great Emperor of Desolation in front of their eyes for the first time, all of the higher ups teared up. They kneeled on the ground and said respectfully: "This subordinate greets Imperial Palace!"

Cheers that were like the tidewaters came crashing in from the faces of the onlookers.

What they did not know was that Long Chen, who was behind the Great Emperor of Desolation, was the real controller.

In the face of such a grand scene, Long Chen commanded the Great Emperor of Desolation. The Great Emperor of Desolation's majesty shook the heaven and earth, he lightly waved her sleeves and said: "All of you, get up. When I pass through the Nirvana Tribulation today, the entire Imperial Palace will celebrate with me. Also, the Six Great Demon Emperors will follow me into the Beast God Hall. "

Long Chen could not stand such a huge scene.

Amidst the millions of fervent stares from the crowd, Long Chen followed Great Emperor of Desolation and entered the Beast God Hall. Six Great Demon Emperors was a little suspicious of Long Chen and the other two, but he did not dare ask.

Great Emperor of Desolation sat in the highest position, sweeping away the bronze mirror. His eyes swept across the people and said, "The contributions of the three people here today are not small for

me going through the Nirvana Tribulation. Little Wolf is my foster son, so there is no need to mention it. I have made a bet with Long Chen before. If he can bring Mo Xiaolang out, I will promise him to no longer restrict the little wolf. At the same time, the entire Desolate Imperial Domain will assist the True Martial Imperial Palace and the Sword Soul Imperial Palace. The Three Regions Nine Realms will work together to face the defeat of the City Lord together! As the leader of the six Great Leaders of the Desolate Imperial Domain, the Six Great Demon Emperors should take on this responsibility. In the future, when you go after the City Lord who has died a horrible death, the six of you should be the main force. Before the calamity strikes the common people, even though you guys and Long Chen have a small grudge, you should be done with it.

Six Great Demon Emperors hurriedly kneeled on the ground.

"Subordinate Kun Peng is willing to sacrifice his own strength for the calamity of all living things!"

"Subordinate Tun Yue is willing to do the same!"

Although they were a little confused, they still had to accept the Monarch's order immediately. In reality, they had thought that Great Emperor of Desolation was going to plot against Long Chen and Mo Xiaolang, could it be that everyone was wrong? They were all helping Great Emperor of Desolation to survive the Nirvana Tribulation

The result now was that everyone seemed to be overjoyed ...

Since this was the case, they didn't say anything else.

The reappearance of the Great Emperor of Desolation was a grand occasion for the entire Desolate Imperial Domain. From today onwards, the status of the Desolate Imperial Palace in the Three Regions Nine Realms would be even more unparalleled. The Great Emperor of Desolation was also the strongest being in the world.

Long Chen used Great Emperor of Desolation's mouth to say a lot of words of gratitude to the three of them, proving that their relationship was on good terms. He bluffed the Six Great Demon Emperors for a bit, then said: "Monarch, I've left the True Martial Imperial Palace and Sword Soul Imperial Palace for a very long time already, I don't know how the situation is over there, I need to quickly return now, other little wolves are also willing to go with me, I wonder how Monarch would like that?"

Great Emperor of Desolation laughed loudly, "Of course you can."

This generosity was something that was hard for Six Great Demon Emperors to believe.

"The six Demon Emperors shall send off the Sacred Martial Emperor Lord and the future Great Emperor of the Sword Soul." Great Emperor of Desolation said.

Although he was still confused, Six Great Demon Emperors did his best to send Long Chen and the others out of the Desolate Imperial Palace. Long Chen and the other two sat on the teleportation formation and came out from the borders of the Desolate Imperial Domain, then they teleported through the Broken Star Sea and prepared to return to the True Martial Imperial Palace.

The words that he had said in the Eastern Emperor Region had truly caused Long Chen's hair to stand on end.

Long Chen was panicking in his heart. It was at this time that the jade pendant that Little Cat had left for him in the God Nation trembled!

"Cat!" Long Chen immediately stopped in his tracks and held the jade talisman in his hand. Upon closer inspection, sure enough, the jade talisman was trembling.

"Big brother, what's wrong?" Mo Xiaolang and Ling Xi curiously looked over.

"The kitten may have some news." Long Chen said, and waited for the movement of the jade talisman, just at this time, the light from the jade talisman changed, and Cat's chubby face appeared.

Long Chen did not want to tease the kitten, because he saw its expression that was unexpectedly anxious and heavy.

"Boss!" Let me tell you some unfortunate news, I realised a little too late. There was a traitor within the Nine Realms, the grandson of the Ancient Spirit Realm. They saw the news of me announcing the Eastern Emperor Region in the Sword Soul Imperial Palace and told my existence to City Lord Bastard! "

"What!" Long Chen and the other two were all stunned.

"Right now, the Master of the Ancient Spirit World has led the experts of the Ancient Realm and the ten great hidden Spirit Kings to the Sword Soul Imperial Palace. They are preparing to use eighty million of the Sword Soul Imperial Palace's disciples to create eight super strong Spirit Kings that can't even fight against the late stage of the fourth stage of Nirvana Tribulation!"

## Chapter 1650 - Dual Line Combat

### Sword Soul Imperial Palace!

City Master Bastard once said that he would kill every single person that was close to Long Chen one by one. And this time, the target he chose was actually the Sword Soul Imperial Palace. Upon hearing the news that the kitten told them about, the faces of the three of them immediately underwent a huge change, especially Ling Xi, who gave a startled cry as his face turned pale.

"The people from the Ancient Spirit Realm, are actually the same as Ye Futu, have they also pledged their allegiance to the City Lord?" Long Chen clenched his fists tightly, and the veins on his hands popped up. He could not tolerate this kind of person the most. Back then, when he was in the Sword God Palace, he had also noticed that the Sector lord was a little strange, but he didn't suspect that they had already sided with the City Lord!

Their eyes were all filled with anger.

"Crap, my father and the others did not know that they were traitors. That Ancient Spirit Realm has many tricks up her sleeve, his strength is also around the same as my father's, adding that there are ten Ghost Kings, they have already surpassed my Sword Soul Imperial Palace. If they were to cheat and sneak attack my Four Sword Sovereigns, then that would be terrible," Ling Xi said worriedly.

The kitten looked solemn, and said, "That's right, City Lord Bastard is very ambitious. He planned to use the Sword Soul Imperial Palace as his other base and with eighty million disciples of the Sword Soul Imperial Palace, raise ten great Spirit Kings. They brought eight seeds of the Demonic Tree, intending to turn the entire Imperial Domain of Sword Soul into hell on earth. With Ancient Spirit Realm clearing the way for them, and Sword Soul Imperial Palace not being prepared, I advise you all to hurry back as soon as possible. If you are just a little bit late, I think it will be the nightmare of all the people! "

He, who was usually careless, could no longer tolerate this matter. However, this time, there was finally a big fight. His first ambition was actually not True Martial Imperial Palace, but Sword Soul Imperial Palace that did not have any Monarchs overseeing it!

Only the Sword Soul Imperial Palace could become a huge base of operations.

If it really allowed him to succeed, then one third of the life force in the Three Great Imperial Domains would probably die.

This old geezer's cruelty was truly terrifying.

"Big Brother, let's move quickly!" Mo Xiaolang said with a sullen face.

"Brother Chen!" Ling Xi was even more nervous. After all, her parents, everyone he knew, were all there ...

If that place really became the Sixteen Prefectures of the Eastern Emperor Region, then no matter how capable she was, she, Ling Xi, would be unable to save everyone. Furthermore, this place was probably where the City Lord wasted his revenge on Ling Xi.

"They should be arriving at the Sword Soul Imperial Palace soon. I advise you all to hurry up." The kitten said.

Just as Long Chen was about to leave, he suddenly thought of what Little Cat had said at the beginning. "Little Cat, you just said that because of the Ancient Spirit Realm's snitch, you were discovered by the Master of Bastard City, right?"

This was what Cat had said at the beginning, but due to the great matter of the Sword Soul Imperial Palace, the three of them had temporarily forgotten about it.

"I'm fine, that old ghost can't find me." The kitten said proudly.

Long Chen was relieved, and just as he was about to wait for the kitten to disappear, a huge change happened!

The scene on top of the jade talisman was actually changing rapidly. A tragic sound rang out and the sound of a kitten cursing could be heard. With a dang dang sound, it was as if a jade talisman had landed on the ground.

"Cat!" Long Chen didn't know what was going on, and with a loud shout, he had an extremely bad premonition in his heart.

But Cat was far away in the Eternal Hell, so she couldn't see what was happening!

At this moment, a breathtakingly beautiful face appeared from within the jade talisman!

Long Chen was naturally familiar with this face. It belonged to the blue beautiful girl in the God Kingdom's crystal ice coffin. She had skin whiter than snow, long blue eyelashes, a small exquisite nose, and long, blue hair like water. Everything about her looked so beautiful.

In Long Chen's mind, he thought back to the moment when he had used Ling Xi's sword to pierce through his opponent's eyes in the Grand Moon Demon World.

When he thought of this face that resembled a heart, the identity of the person in front of him became obvious.

He was the nightmare that Long Chen dreamed of eliminating, the nightmare of the City Master!

He appeared beside Little Cat and took away her jade talisman. It was already clear what the Little Cat's current situation was. In that moment, Long Chen's heart tensed up.

"Good child, I saw you again." That was the original voice of the City Lord. After not seeing him for more than a year, the greatest change was in his appearance, he was probably close to being reborn.

~ It is not important whether or not City Lord Wa is a man or a woman, Long Chen is really confused, what is most important is that in that moment just now, the little kitten has already landed in the other party's hands.

This unexpected occurrence made both Ling Xi and Mo Xiaolang panic. Long Chen took a deep breath, and asked in a stern voice: "What did you do to Little Cat!"

It was a pity that it was just one empty space with only one grey misty eye. That smile was extremely frightening, especially the old man's voice, which would only appear on the old man's body ... ..

"Cat? Is it this little thing that has ruined my plan time and time again? If he is your good friend, I naturally won't hurt him. Long Chen, you haven't come to my Eternal Hell for a long time, I think I'm missing you? Come quickly. If that girl prevents you from making up your mind, then come immediately. This time, I will give you ten days. Within ten days, if you still haven't arrived, how about I turn this little guy into a Spirit King? "Let him be like my men, only able to eat the same kind of flesh and blood, but still able to obtain eternal life. What a wonderful thing!"

Long Chen almost suffocated, he firmly clenched his fist, and his eyes became bloodshot. No matter what, this prisoner from the Realm of the Gods was firmly suppressing Long Chen, and Long Chen did not believe that he did not hate him, but he had taken away his fighting seal, took away his God Slaying Sword, and even destroyed one of his eyes. More importantly, Long Chen still possessed his most important heart, so towards him, he absolutely wished for nothing more than to kill him as soon as possible!

The reason why Yang Lingqing threatened him to go to the Eternal Hell was definitely for his heart. City Lord Bastard couldn't wait any longer, as Yang Lingqing's statue that year would take at least half a year to arrive. However, City Lord Bastard didn't have the patience to wait for Long Chen for that half a year ...

Just then, he caught the kitten

Remember, I will only give you ten days of time. You also have two pieces of information in my hands, one for you as a girl in the Divine Kingdom, the other for this little thing. If you don't even come ten days later, I will have one more Ghost King.

The blue girl let out a frightening smile from within the jade talisman.

"Let me see the kitten." Long Chen was not sure if the kitten was truly in his hands or not.

It was possible that she had always been communicating with Long Chen. He did not expect that she would suddenly come, but before he could even have the time to enter the Great Void Dragon Symbol s, he had already been subdued. Although Cat was a Reincarnation Godly Beast and he had lost too much, he could be considered to have started from zero.

A tiger being bullied by a dog.

"How is it? Do you believe it now? "Remember, ten days." The voice of the City Lord became harsh.

He already had two sources of information from Long Chen. In any case, Long Chen would go to the Eternal Hell one day, and the two kinds of information from his hands were fatal for Long Chen. City lord would not mind destroying the kitten at any time, but Long Chen had to pay attention to that!

Who would have thought that just as he came out of the Desolate Imperial Domain, he would encounter such a big incident!

The image on the jade talisman disappeared under the city lord's strange laughter, leaving behind three young men whose faces were filled with hatred and anxiety.

Right now, there were two big matters in front of them. Both of them were extremely important to them!

Just a small decision had a lot to do with it.

Although Mo Xiaolang and Little Cat played around a lot, their relationship was actually very good. Although the great matter of the Imperial Domain of Sword Soul was important, it made it even more impossible to just give up on the matter of Little Cat.

"The moment of the final battle, is it just like this? Brother, what should we do? Both sides need to be resolved? We split up? Just like this, I will go to the Eternal Hell to save Cat. But because you bear the burden of the City Lord's heart, you absolutely cannot fall into my trap, so you will accompany Big Sister Ling Xi to the Sword Soul Imperial Palace! "

Mo Xiaolang gritted his teeth and said as his head burned.

Facing such an expert, he wasn't afraid of death. Cat was Long Chen's brother and also his own brother. He had risked his life to head to the Eternal Hell for Long Chen, because the Master of the Ancient Spirit World had already been discovered.

"No way!" Long Chen rejected the offer flatly, he tried his best to restrain himself to calm himself down, so that he wouldn't be affected by the City Lord's ability to think. The other party was indeed very scary, but if he was scared stiff, then nothing had come of it.

At this moment, Long Chen looked at Ling Xi and said: "Come like this, Xiao Xi, this time, I want to hand you an important matter, you must return to the Sword Soul Imperial Palace to help them, I will ask the Great Emperor of Desolation to bring the Six Great Demon Emperors now, with the Great Emperor of Desolation's power, as long as you endure until he arrives, the danger to the Sword Soul Imperial Palace will be resolved in an instant. As for me and Little Wolf, we will immediately go to the Eternal Hell, the two of us will take care of each other.
