Chapter 2191 - Seven Star Penetration

That depends on yourself

Long Chen kept the star talisman.

"It seems that Yang You is becoming more and more mysterious. "It seems like her story and world isn't as simple as I imagined ..."

Long Chen thought.

However, he was sure that Yang You was definitely on this side.

It could be seen from a sincere gaze.

Every time he saw this scene, Long Chen could not help but be furious, especially that painting that should have been eternally shattered.

Yang You recognized Cang Ya, so he told Long Chen to kill him.

Cang Ya should be a super divine dragon.

If it was a Ultimate Dragon, it would definitely not have this little bit of Inherent Skill.

There was a faint roaring of wind and thunder in his body, as though he was a gigantic beast soaring in the sky. Long Chen had been waiting for this moment for a long time!

Those people who were still wreaking havoc in Qinglan Hall were like flies, like the feces of mice. They were ruining the beauty of this place, destroying the memories that once belonged to Long Qinglan and Yang You. Before today, Long Chen had been patiently enduring, but today, this moment had finally come!

He gently opened the door of the Green Serenity Hall, then closed it and walked in the direction of the pavilion. In these few days of Long Chen's closed door cultivation, they had nearly flipped the entire Qinglan Hall over and became even more unscrupulous. Since they still hadn't found the Dragon Binding Bow and Dragon Bolt, they had already gradually lost their bottom line.

Along the way, they saw the entire Qinglan Palace as a mess, and it was as if those damages and damages had landed on Long Chen's body. He had been very quiet the entire way, but the killing intent in his eyes was getting stronger and stronger.

He had already said that if they didn't stop there, they would pay the price sooner or later. Today was the day to witness all of this.

From the Green Serenity Hall to the pavilion.

After days of not being able to find the Dragon Binding Arrow, they gradually formed a group and discussed their thoughts. Most of the time, they would gather around the two intertwining trees. Unfortunately, even now, they didn't see anything strange about the two trees!

"Brothers, come come come, come drink! After finishing this cup, let's dig three feet into the ground and raze it to the ground. I want to see if we still can't find the Dragon Binding Bow!"

Cang Ya was already slightly drunk. His face was slightly red as he called out to everyone.

Everyone saw Long Chen behind him, and their expressions became serious.

"What are all of you doing!?"

The killing intent had cleared his mind by quite a bit. After being startled for a moment, he shook his head and saw the pitch-black dragon arrow that Long Chen was holding in his hand. The Emperor Dragon Arrows had a total of six hundred runes. Right now, each of these runes were flashing with a black light.

A strong killing intent surged in his face.

The youth was like a huge fierce beast, and his pair of eyes caused Cang Ya's scalp to go numb.

"Haha, I haven't seen you for a few days." What did you do? It can't be that you really want to kill me, right? " Cang Ya started to laugh loudly. He had fought with Long Chen before, so he was roughly clear of Long Chen's strength.

Therefore, he didn't think that there would be any changes after only ten days had passed.

"Get lost!"

Cang Ya helplessly waved his hand.

Everyone quietly stood there. They were different from Cang Ya, but after a closer look, there was indeed a huge change that had occurred on Long Chen's body.

"Cang Ya!"

Suddenly, someone shouted.

At this moment, Long Chen suddenly took action, his entire person escaping into the state of the Time Traversing Dragon, instantly appearing in front of Cang Ya, the moment he appeared, the six hundred pattern tools that contained a supreme power suddenly rushed out, instantly covered with millions of dragon silhouettes, the sharp tip of the spear piercing straight towards his head!

Cang Ya never thought that Long Chen would act so decisively!

At that moment, Cang Ya was so scared that he broke out in a cold sweat and hurriedly retreated. His hands formed many star formations, only then did he manage to block Long Chen's attacks, but the violent aftermath still caused the pavilion to be completely destroyed, and sent the people around flying out of the arena as well!

Weng! *

A loud sound echoed out.

Everyone separated, and looked at Long Chen fiercely.

Of course they were standing together with Cang Ya!

Amongst the crowd, Cang Ya was shocked. He dusted off the dust on his sleeves and coldly snorted, "So you've made some progress. No wonder you want to fight with me! But let me warn you, there are casualties in the battle. If you accidentally die, then don't blame me! "

Long Chen transformed the Emperor Dragon Arrow into a spear in his hand, holding it in his hand, he asked: "You make it sound so nice, do you have the guts to fight me one on one?"

Cang Ya laughed loudly and said, "Alright. Everyone, he probably really wanted to kill me, so I gave him this chance. Let's see how much you can improve in ten days. If everyone were to intervene, then I wouldn't be considered as your friend! "

When everyone heard this, they all dispersed.

They were still very confident in Cang Ya. After all, he was one of the sons of the Sky Dragon Emperor. Although his talent was average, it still surpassed others. When his brothers had already achieved quite a bit of the semi-divine body, although his strength was average, he could be considered the pinnacle of the entire Seven Star tribulation of reincarnation.

It was equivalent to the power of both Primordial Chaos, Cangwu, and Lin Ming. It was actually a bit more tyrannical than the Illusory King or the others.

Cang Ya had completely awoken from his drunken stupor. His face was filled with a mocking expression. Without saying anything further, he took out another 600 dao patterns worth of dao tools!

The Heavenly Halberd!

A Dao Artifact that was personally bestowed by the Dragon Emperor of the firmament had accompanied Cang Ya for several thousand years, and had killed a large number of his opponents for him.

This halberd that was covered in starlight was extremely gorgeous. The blade edge was bright like the stars, with nine very precious Dark Meteorite stellar nucleus embedded in the middle. Every single black stellar nucleus contained the power of a sea of anger. It was as if there was a warrior practicing martial arts, his silhouette was swaying, and his movements were profound and violent.

The halberd was raised, shining with starlight!

Cang Ya laughed out loud as he fought against Long Chen with his Emperor Dragon Arrow while wielding the Crest of Heavens Halberd. Two Dao weapons with 600 dao patterns on them, no one could gain the upper hand. This close combat battle was instantly set ablaze. The two figures flew up and down, violently clashing against each other!

One month ago, during the battle between Long Chen and Cang Ya, when the opponent's divine power was too complete, he was still unable to block his attack, and could only use the Time Traversing Dragon. But this time, a huge change immediately occurred. The explosive increase in power caused the divine power in Long Chen's body to increase greatly, and he was already able to block the enemy's attack!

Thus, in actuality, the more Cang Ya fought, the more shocked he would be.

The current Long Chen seemed to be a completely different person from the Long Chen of one month ago.

He was also calm, but his performance was completely different. Before, he could only dodge, but now, his attack was even more ferocious than the cliff!

The Emperor Dragon Arrow turned into a long spear and clashed against the halberd in the sky time and time again. The Emperor Dragon Arrow contained a dragon soul and was extremely fierce, like a fierce beast in Long Chen's hands.

"Eternal!!"

Long Chen dodged, and using the Great Void Cosmic Dragon's move, he instantly locked onto Cang Ya. In that split-second of life or death, the Emperor Dragon Arrow was like a dragon drilling through poison, and under Cang Ya's all-out resistance, it still pierced through one of his arms, and under a ripping motion, tore off one of Cang Ya's arms!

"AHH!"

Under the wild gale of fresh blood, Cang Ya let out a miserable cry.

BOOM!

The Emperor Dragon Arrow took advantage of this opportunity and swept out, sending Cang Ya flying. He crashed into the ground, blowing up a cloud of dust!

At that moment, everyone's expression could only be described as wonderful.

Of course, this kind of advantage wasn't that big of a deal, and the outcome couldn't be determined.

When Long Chen withdrew the Emperor Dragon Arrow, Cang Ya had already rushed up to the sky once again. At this moment, his arm was quickly growing back, his face ashen as he looked at Long Chen.

"Let's call it a day!"

He raised the halberd in his hand and pierced it straight into the heavens!

"Heaven and Earth, Seven Stars Ancient God, grant me the power to reach the Perfection Stage!" "Seven Star Body Penetration!"

Atop the halberd, a beam of starlight exploded outwards as it shot towards the sky, emitting an ear-piercing screech. Cang Ya's expression was cruel, that incomparably strong starlight began to rise from his body, and Long Chen seemed to see a star form right in front of his eyes, born!

However, the most important thing was that it was still in the sky!

Buzz! Buzz! Buzz!

At this moment, the clouds began to shine. Endless amounts of clouds rolled down like the sea. The stars in the sky started to appear as endless starlight poured down.

"Ancient Seven Stars Ancient God!"

In the farthest horizon, the seven brightest stars appeared. They were extremely large, and were even growing. The seven stars were arranged in the shape of spoons. They were known as the Big Dipper, and were respectively: Tianshu, Tianxuan, Tianji, Kai Yang, Yuheng, and Yao Guang. They were extremely far from the Dragon Sacrifice Continent. In the Dragon Sacrifice Continent, or perhaps in the Immortal God Realm, they had a new name, the Ancient Seven Stars Ancient God!

According to legends, these seven stars were formed by divine beings. They were extremely powerful, and even surpassed the number one divine emperor. They shone in the night sky, transformed into divine beings during the day, and when they looked down on the common people, they shone brightly at night. It was because of this ancient Seven Stars Ancient God that he could control the Seven Stars Calamity, allowing more experts to reach a higher level.

At this moment, the seven stars lit up, and every star seemed to have a pair of huge eyes, looking down upon Long Chen, bringing him an endless pressure.

Looking through the layers of starlight, Long Chen seemed to see seven men and women with wooden faces, looking at the living beings of heaven and earth, and unleashing their powers!

Seven streaks of starlight instantly pierced through the heavens and earth, descending onto Cang Ya's body. Seven layers of starlight had refined him into a single star, which was the unique power of the Seven Star tribulation of reincarnation, known as the Seven Star Body Penetration. Only when they used the Seven Star Body Penetration would they truly be at the Perfection Stage of the Divine Powers!

Therefore, during the forging of starlight, the power of Bluecliff increased yet again!

His star-like eyes coldly looked at Long Chen, and flickered as he said, "You seem to be afraid?"

Long Chen was expressionless.

Was he really afraid?

No.

The real battle had just begun.

He hadn't even used the true power of the Emperor Dragon Arrow yet!

Chapter 2192 - Boundless Star Dragon

Whether it was in the form of a dragon or in the form of a human, all of them were, after all, in the body of a half-god at this moment.

Seven layers of astral light shone around his body as dark draconic scales appeared. Astral light shone from them, as though there were endless galaxies. The surging star power formed a map of the starry sky on his dragon's scale, outlining an ancient symbol filled with power.

The halberd shimmered with the light of the constellations, intertwining with each other.

The image of warriors who were practicing martial arts was even more prominent. It was as if they had already entered Cang Ya's body, and the close to twenty thousand years of cultivation had brought him enough strength and combat experience. Facing the son of his former enemy, Cang Ya felt a lot of unwillingness in his heart, and this unwillingness even made his heart go crazy!

Why are people's fates so different!

Why did the father and son pair have such extraordinary talent and become unrivalled in the world while he was being surpassed by a single person?

Didn't he work hard enough?

All these years, there had been too many grievances in his heart.

This anger was released with the Seven Star Body Penetrating Fist and the Crest of the Sky halberd!

The current him was like a space war god!

On the halberd, on the Dark Falling Iron stellar nucleus, every warrior was practicing their own movement.

Those were the most basic hacking, chopping, lifting, chopping, sweeping, piercing, etc!

However, every time these shadows attacked, they were like stars transforming, roaming about, falling. They streaked across the sky in an incomparably strange and dazzling manner, instantly penetrating through the world!

Every attack contained the essence of the revolution of the stars!

In truth, this was the innate Tao technique brought by the six hundred Dao Veins Heaven Halberd. It was called the Celestial Battle Song!

And today, as Cang Ya silently recited the song about the circulation of the stars, countless numbers of rage and hesitation to vent it out, his eyes stared fixedly at Long Chen!

Seven Star Body Penetration was very strong?

The blood red flames were like a blood sacrifice, spurring him to increase his strength jointly. The more he burned the flames, the higher the level of the flames, and under the effects of the God Refining Flame, Long Chen could never stop fighting!

The Divine Flame of Refinement had caught up to his opponent's Seven Star Penetrating Body!

The stars and the flames faced each other!

The Emperor Dragon Arrow thrust forward, like a dark black Emperor Dragon roaring at Cang Ya, at the moment, the countless dragon scales on the Emperor Dragon Arrow slightly raised, forming a sharp edge, as countless dragon shadows rushed out from the Emperor Dragon Arrow and revolved around Long Chen, the dark black might of the Divine Dragon was incomparable, the surging power of the Emperor Dragon Arrow flowed into Long Chen's body!

"It is an arrow to begin with. Only when it is an arrow can it display its full power!"

Long Chen glanced at the two trees that were hugging each other. Only after he chased these people away would he be able to take away the Dragon Binding Arrow and Dragon Bow. By then, even Emperor Draconic Arrows would be able to bring out their true power!

And now, it was only for the sake of killing Cang Ya!

BOOM!

Cang Ya brandished the halberd in his hands, rushing towards Qin Wentian.

The halberd fell from the sky like a falling star, creating an incomparably bright trajectory. It was as if a heavenly river was crashing down!

This was the power of the Celestial Battle Song!

In fact, no one present was able to receive such power because even though Cang Ya did not have any talent, after all these years, he was still the person who was closest to becoming a demigod!

"Bluecliff has shown his power."

"The battle situation will soon become very clear. I don't believe that this little fellow can undergo such metamorphosis in just ten days. Even if it were to increase by a level, it would still be impossible. "

Because they were more or less clear that Long Chen was actually still far from reaching the Seven Stars tribulation of reincarnation.

But now, when Long Chen was facing the Sky Battle Song, without saying a word, the Emperor Dragon Arrow in Long Chen's hand pierced upwards, the sharp spear tip piercing straight into the blade of the Sky Dragon Halberd. At that moment, the two great Dao weapons clashed, causing an ear-piercing sound, and countless of light rays spread around!

The Heavenly Halberd danced out, shaking the Heavens, shaking the starry sky. Even the whole world had been turned upside down!

However, the halberd did not hack down, but rather remained in mid-air.

This was because the tip of the Emperor Dragon Arrow had blocked it!

Time seemed to stop at this moment!

But in truth, everything happened in an instant. In the next moment, an explosive lightning sacrifice condensed in Long Chen's left hand. The purple lightning instantly surged explosively, becoming a ball of lightning dozens of meters in diameter. Under Long Chen's control, it smashed towards Cang Ya with a loud bang.

BOOM!

In the sky, the lightning exploded, and countless lightning bolts flashed like snakes.

Everyone watched with their own eyes as Cang Ya was blasted up into the sky and Long Chen chased after him.

Long Chen's real goal was to stay far away from Blue Tide Palace, so that he wouldn't damage this place. Then, he could no longer be polite!

After the lightning had shattered, Cang Ya looked at Long Chen in shock.

"Its power is quite good. It's progressing at an amazing speed!"

He gritted his teeth and said those words with incomparable hatred.

Long Chen was expressionless, and said: "You shouldn't have said that you tore that painting apart."

"I said, I tore it up!"

Cang Ya roared.

What answered him was Long Chen's attack.

"Let's welcome him!"

This was when Long Chen would truly go insane!

At this moment, his blood was boiling and his anger was burning. Within his body, countless divine dragons were roaring!

He held the Emperor Dragon Arrow in one hand and manipulated the other.

"Sky Battle Song!"

Cang Ya continued to train in the Star Martial Arts, combining it with the Sky Halberd, and at this time, Long Chen flipped his hand, his dragon scales shining!

"Blood Weeping Dragon Soul!"

They were densely packed, charging towards the endless Cang Ya. Cang Ya was extremely shocked, fighting against this strange divine ability, although the countless killing dragons were not particularly strong, but there were too many of them, no matter how strong they were, they would not be able to do it, not even with the Chaos royal clan's three heads and six arms sacred art!

Killing the little dragon through every orifice, brought Cang Ya a devastating blow.

A hundred thousand dragons had fallen, but they tore off pieces of flesh from his body!

Cang Ya was anxious.

He knew that Long Chen was hiding amongst these little slaying dragons.

When he had just realized this, Long Chen had already used the Time Traversing Dragon to move behind him.

And then, the tempest!

Buzz! Buzz! Buzz!

The Blood Weeping Dragon soul instantly disappeared.

Cang Ya was unable to escape under the enveloping of the time storm and was even the first to bear the brunt of the impact. In an instant, he suffered the heaviest of blows and the time disorder smashed his body, bones and internal organs into pieces.

But even so, he still fell from the sky, heavily injured, and crashed to the ground!

BOOM!

A large amount of smoke and dust was sent flying.

High up in the sky, Long Chen landed. The Emperor Dragon Arrow was not merciful at all, and directly pierced towards the opponent's body!

At this moment, Cang Ya no longer had the strength to resist!

Such a reversal of events simply caused those martial practitioners who were at the same level of strength as Cang Ya to be dumbstruck. They thought that they could completely suppress Long Chen, and thus could leisurely search for the Dragon Binding Bow. However, what made them completely unable to guess was that the strongest one among them had actually fallen at Long Chen's feet just like that!

That young figure with the impossibility written all over his body

"Quick, save them!"

Everyone exclaimed as they resisted Long Chen's final attack, forcing him back into the sky. Several people attacked at the same time, and Long Chen was indeed not able to hold on. He had missed the best opportunity to kill Cang Ya!

"All of you, scram!"

On the ground, the bloody Cang Ya actually stood up.

The blood on his forehead was already in his eyes.

As if he had gone mad, he chased away everyone around him as though they were crazy, then looked at Long Chen with incomparable fury and hatred. His entire person was in a deranged state. The scene today was familiar. Back then, when he was defeated by Yang You, he seemed to be in such despair and powerless.

From Long Qinglan to Yang You, and then to the current Long Chen, it was really enough, enough!

Cang Ya's entire body was trembling. The one that he couldn't stand the most was Long Chen looking at him from above.

Roar!

He transformed into a gigantic Stellar Dragons and soared into the sky!

Super Dragon, Boundless Star Dragon!

The Boundless Star Dragon was a Dao Artifact that Long Chen used to own. It was a higher level existence than the Dragon Soul Boundless Star Dragon in the Boundless Star Dragon Diagram. The Boundless Star Dragon was a high level dragon, and a small part of it would evolve into a Boundless Star Dragon.

Cang Ya's inherited blood essence was the Boundless Star Dragon.

The purest Stellar Dragons shot into the sky, carrying all of his fury and unwillingness as it rushed towards Long Chen!

There was no right or wrong, only each other.

Long Chen had never specially targeted him, but he had offended him time and time again. Right now, although he looked pitiful as he carried out the final killing, in truth, there was something a pitiful person should hate!

The Boundless Star Dragon broke through everyone and soared into the sky!

Long Chen stood in the starry sky, and calmly looked at him.

During this process, he gradually turned into an Archaic Blood Dragon. In its icy red eyes, the Boundless Star Dragon grew larger and larger.

The elegant divine dragon, however, became the devil of hatred.

Long Chen sized him up, and in the end, wanted to give Yang You an explanation.

Give that painting, give her memory an explanation.

In the end, Long Chen stood on the ground in his human form. As for Cang Ya, he similarly stood in his human form, and fell from the sky. A small bloody hole appeared on his forehead.

All of this seemed to have happened in an instant.

Everyone's minds were blank as they watched Cang Ya fall from the sky.

It could only be said that all of this happened too quickly.

It was so fast that no one could resist it.

At that moment, Long Chen couldn't help but look towards the starry sky, and felt that there was someone looking at him.

"Father, save me!"

With his last bit of consciousness, Cang Ya spoke to the star in the sky that was closest to him.

"Save me, save me! I don't want to die!"

Cang Ya continuously struggled. He was not afraid of death, he thought that under his eyelids, that star in the sky would not let him die. However, at this moment, the star remained unmoved.

"Cang Ya, I have no impulse to save you."

In the end, he seemed to have heard these words.

Chapter 2193 - Deity Only

He died with grievance.

BOOM!

He fell to the ground for the last time and stared blankly at the sky.

The reason why he dared to take such a risk was because he felt that he definitely wouldn't die no matter what. But now, he had actually encountered death.

What made him despair the most was not death, but that star in the sky, he actually did not save himself!

He already knew that he was cold-blooded and emotionless, but he still held onto a sliver of hope. He felt that he should care about matters of life and death. After all, he had not paid attention to his own children for more than ten thousand years. He had focused on his cultivation so that he could become a Deity!

The Dragon Emperor of the firmament would always be at the place closest to the sky, where he would turn into a star and cultivate. Since he was young, Cang Ya had known that there was no such thing as feelings in this man's heart. There were only two words in this man's heart.

Eternal life, or becoming a Deity.

As a result, among the Everlasting Dragon City, other than the other two Dragon Emperor s, practically no one else had seen the Sky Dragon Emperor. Dragon Emperor Yongye could be considered to be mysterious, and the Dragon Emperor of the firmament was even more so.

But it could also be said that everyone had seen the Dragon Emperor of the firmament, because everyone knew that he was the brightest star in the night sky.

He was like a cold and detached god, looking down at the Everlasting Dragon City and the surrounding land.

There weren't many things that could distract him from his cultivation.

Even if it was Cang Ya's death, he only said one sentence, and then was forever silent.

Cultivation!

Becoming a Deity!

Finally, he closed his eyes.

Of course Long Chen did not know about the Dragon Emperor in the sky.

Defeating Cang Ya and even killing him, he similarly did not have the slightest hesitation. As early as fifteen days ago, he had already made this clear to Cang Ya.

Now was the time to achieve his ultimate goal.

Cang Ya was only the beginning.

His calm eyes swept across the warriors one by one. Most of them were his elders, some were even Long Qinglan's elders.

"Everyone, you guys have had enough of this time. Qinglan Hall does not belong to you." It's time to go.
" Long Chen said in a serious tone.

His voice was not loud, but it carried an irresistible killing intent.

Everyone looked at each other.

Amongst them, one of them took Cang Ya's corpse away.

"Dead?"

They could not believe that a warrior who had cultivated for more than ten thousand years would die in Long Chen's hands. Thus, right now, his mind was completely blank. They looked somewhat dumbstruck at Long Chen.

"You killed him? Aren't you afraid of death? " An old man asked.

Long Chen said: "That's right, I am someone who isn't afraid of death. As long as I stay in Blue River Hall to cause trouble, I would dare to kill anyone. I might hide myself and secretly make a move on you all, until you all leave this place, that is, until you all possess at least the strength of Cang Ya, otherwise, you would very quickly be played to death by me."

He was not polite at all.

Of course, there was no need to be polite.

"Long Chen, why do you say that, we are your seniors! This is the Everlasting Dragon City, the ones in charge are the three Dragon Emperor s, not you. Since you killed the son of the Sky Dragon Emperor, you should just wait to be killed by the Sky Dragon Emperor! "

They said angrily.

Long Chen waved his hand and said, "Dragon Emperor of the firmament is naturally able to see what has happened. I'm still alive and well. That means he won't touch me. As for you being my elders? To be

honest, you are not qualified. "Even if it's an elder, if they were to run amok in my Qinglan Palace, I will still kill them all!"

He needed to be intimidated.

Otherwise, in front of these greedy people, Qinglan Hall would never be at peace.

They did not want to know how important this place was. Every blade of grass and every tree had something to do with it.

Even if it was for Yang You's sake, Long Chen couldn't let them destroy this place. To be able to endure until today, that was already his limit.

"Enough, Long Chen!"

Just then, a cold shout came out, causing Long Chen's ears to ring.

They had heard about the battle and had rushed over, but because Long Chen's movements were too swift and violent, he managed to kill Cang Ya very quickly, so they were too late.

In a short moment, over a hundred experts had gathered in the sky, and the number was still increasing rapidly.

Among them, there were truly high ranking figures, such as the Azure Fire Emperor who spoke just now, the Heavenly Moon Emperor, the Hundred War Emperor, the Buddha, the Heavenly Fate Emperor and more, and more than ten other emperors. They were all famous Overlords of the Everlasting Dragon City!

This battle had drawn the attention of many experts of this level!

As everyone knew, Cang Ya's strength was very close to that of a demigod, and if he only had enough things, he would definitely break through. He could almost be considered the strongest person in the Everlasting Dragon City, who was under the level of an Overlord and a demigod.

In the entire Immortal God Realm, he was an absolute top-level character.

But now, a youth that had cultivated for less than a thousand years had killed him.

This meant that this young man had already crowned the world. In the entire Immortal God Region, besides the few demigods and Emperor level powerhouses, there weren't many who could be his match!

In the younger generation, he was a peak-level Ascendant cultivator!

Aside from the few famous emperors, everyone else had already been stepped on by Long Chen.

In actuality, this was already an extremely terrifying matter. Even back then, when Long Qinglan was this age, he still wasn't at this level yet.

Only by carefully thinking about it would one know how terrifying it was!

In a short while, everyone present was shocked and terrified of Long Chen, and could no longer leave his body.

Hearing the sounds of battle, the number of experts that had gathered here grew more and more. In the blink of an eye, the entire sky was filled with a sea of people.

More than ten practitioners with the body of a half god landed on the ground, right in front of Long Chen.

In the absence of the three Dragon Emperors, the Bluefire Emperor was practically the highest ruler of the Everlasting Dragon City.

He looked at Cang Ya's corpse and his eyes burned with cyan flames. He was almost gnashing his teeth in anger and hysteria as he said to Long Chen with an incomparably sharp voice, "Bastard, do you really understand that this is the Everlasting Dragon City, not you killing the Dragon City!? You actually killed someone, and even killed the son of the Celestial Dragon Emperor. You really don't know how to write the word death! "

The ear-piercing sound was like a sword.

He pressed on and continued to speak with a voice as sharp as a knife, "I have told you before, the fact that the Azure Dragon Arrow and Emperor Dragon Arrow can be given to you is already a gift from us. You have not forgotten about the Dragon Bow and Dragon Arrow, they are not yours, they are mine from Everlasting Dragon City. If you really don't understand these concepts. I can teach you right now! "

Not only was Long Chen not scared, he said with a smile in front of everyone: "Alright, Bluefire Emperor, it's good that you know that I'm not your junior. I don't have to listen to your arrangements and bullshit. This matter of killing was something I wanted to kill. As for the matter of the Dragon Confining Arrow, I only need this place to be my father's Qinglan Palace. Killing Cang Ya is also a warning to all of you. From today onwards, do not rashly come in. "

To say such words in front of the Emperor of Heavenly Moon, the Emperor of Heaven's Mandate, the Emperor of Hundred Battles, and so on in such a lineup, it was simply too inconceivable. Everyone thought they had heard wrongly.

But Long Chen's expression was indifferent, obviously not the least bit afraid.

That was because he wasn't afraid of death.

What people mourn the most is not death, but so many things they want to do, want to experience life, but not a single one of them, muddleheaded muddle through life.

In order to protect this place, he had no regrets.

Being humiliated in such a way, the chaos blue fire in the Bluefire's eyes burned even more fiercely as a terrifying killing intent leaked out. If it wasn't for the Eternal Night Dragon Emperor and the others, he definitely wouldn't have been able to stop himself from killing Long Chen. However, he was still so angry that he couldn't endure such an insult!

He suddenly said in a clear voice, "Everyone, you have all heard me clearly. Long Qinglan was a monster, an incarnation of sin. brought about an endless calamity to our Everlasting Dragon City. His son is also talented. You may still have a glimmer of hope for him, but after hearing what he said, he is clearly an incarnation of evil. If such a ruthless person were to possess the power to rule the world one day, would he be able to become the other Long Qinglan? "

His words caused countless people to respond.

The entire Everlasting Dragon City was filled with malice towards Long Chen.

Even the Immortal Dragon Emperor was the same.

Except for two people.

One was the Dragon Emperor of the firmament, the one who stood forever in space for the sake of becoming a god. He was cold.

A Dragon Emperor of Eternal Night that was as gentle as the night. She was the only one who cared.

"Enough, Bluefire!"

At this moment, the faint voice came from the void, and without any obstructions, it entered everyone's ears. For a moment, everyone was enchanted by this voice. No matter how much hatred and anger they had, they had actually disappeared without a trace, leaving behind only peace in their hearts.

Even the Azure Fire Emperor, and even Long Chen was the same!

The face of the Bluefire Emperor suddenly turned respectful. He silently knelt on the ground and kowtowed as he said, "Bluefire pays his respects to Dragon Emperor Yongye!"

The others followed suit. With a gaze filled with holiness, they all fell to the ground and prostrated themselves in worship.

Long Chen did not expect that Dragon Emperor Yongye would have such power. It seems that the status of the three Dragon Emperors is quite high.

For a moment, everyone submitted.

Long Chen knelt on the ground respectfully, no matter what, the other party had appeared for his sake, to make the Green Fire Emperor stop, he had to express his gratitude.

In the dark night, that gentle voice continued to sound out.

"Causality, sin. Everything was unclear. Before the truth really came to light. Any accusation would be a false accusation. So don't assume that whoever is guilty is a hero. Please calm your hearts and face the development of all these things with a peaceful heart. At the very least, in my opinion, Long Chen is a hot-blooded and sincere child. Maybe we can get along peacefully. "

Long Chen was a little confused.

This seemed to be the first time he heard such a thing.

Anyone who spoke of it would seem very laughable, and very rebellious. However, from the mouth of the Eternal Night Dragon Emperor, it seemed to be especially powerful.

Chapter 2194 - Supreme Prison Dragon

Peace.

To almost everyone in Everlasting Dragon City, everything the three Dragon Emperor s said was basically orders. Because they were all the pillars of the Everlasting Dragon City.

Immortality, the firmament, and eternal night were their beliefs.

There are no real events, they basically don't happen.

But now, the words of the Eternal Night Dragon Emperor was actually used to justify Long Chen and they wanted to live peacefully together with him.

What they were truly shocked about was that it was said that the three Dragon Emperor s of the Slaughter Dragon City were very optimistic about Long Chen, and now, even the three Dragon Emperor s were the same?

This Long Chen, what kind of ability did he have to be able to do such a heaven defying thing?

Even to the extent that the Dragon Emperor of the firmament could watch his own son's death with his own eyes without moving.

Cang Ya was not qualified to ask the Dragon Emperor of the firmament to save him, not even his son. After all, the one who had killed him was Long Chen.

After some careful thought, everyone finally understood the most terrifying part of the technique!

They hated and envied Long Chen the same way they envied him back then. Back then, Long Qinglan had become the Eternal Dragon Emperor and became the ruler of the human race. Only then did they completely give up on their jealous thoughts and thoughts.

For example, Long Qingyue or the Bluefire Emperor.

However, when the Eternal Night Dragon Emperor personally appeared for Long Chen and spoke up for him, they finally started to truly understand just how great of an amount of energy Long Chen possessed. Even though his strength was already heaven defying, it could not be counted as the strongest in the entire sect, but in other aspects, he definitely had an advantage that no one could imagine!

Shock, shock!

This youth completely frightened them.

They looked at Long Chen, their throats dry and their backs cold, as they silently retreated. Those who previously wanted the Dragon Binding Bow and Dragon Binding Arrow had now completely given up on this idea.

"Dragon Emperor Yongye is right. I think he has a good personality and should live in peace with us."

Someone said in fear.

"Yeah, with such innate talent, he is already invincible under an Overlord. In the future, surpassing Long Qinglan won't be a problem at all. "Therefore ..."

Everyone murmured. Some of them were so at a loss that they didn't know what they were talking about.

Until now, the expressions of the Bluefire Emperor and other emperors finally became stunned. They looked at each other, but in truth, they did not understand the decision that the Eternal Night Dragon Emperor had made. In the beginning, everyone thought that Long Chen was the son of a traitor and deserved to be looked down upon and punished. He shouldn't have the fate of being equal to ordinary people and should be beaten like a mouse that was being shouted at on the streets, but why was it that when he was standing in a dignified Everlasting Dragon City, there was actually a Dragon Emperor speaking up for him?

Long Chen used his current strength to prove a position that no one could shake!

Even the Bluefire Emperor shut his mouth.

In the midst of each terrifying breakthrough and advancement, Long Chen had proven to the entire world that this was his era!

Dragon Emperor Yongye's voice sounded once again.

"Other than that, there is another matter. Long Qinglan obtained the four Dao tools, and they were not bestowed to him by my Everlasting Dragon City. He had the right to leave it to his son, and Long Chen also had the right to inherit it. Everyone, please leave this place quickly. There is no need to disturb the peace and quiet of this place. "

In truth, the Bluefire Emperor also knew that this was Long Qinglan's personal property.

Only, he did not want Long Chen to become stronger again and again.

With the words of Dragon Emperor Yongye, the situation had been set.

They did not continue to be unwilling, but instead left this place with a heavy heart. They kept looking back at the young man, who was standing there calmly. However, his eyes were shining with a powerful light that pierced the hearts of people, proving that this was his era!

The incomparably bright stars suddenly rose up!

It was only after everyone had left this place that peace was finally restored to the Blue River Hall, which had been in an uproar for a long time.

"I'm sorry, I just got you out of trouble today."

Dragon Emperor Yongye said.

As one of the three great Dragon Emperor s, Long Chen was already grateful that she was willing to stand up for such a small matter.

Thank you.

"Something happened the other day, perhaps a day or two after you went to see him. He had already grown from a baby to a teenager, and his appearance was very similar to Long Qinglan's back then. Most importantly, he almost tore open the time seal and escaped. We three Dragon Emperor joined hands to finally imprison him. "

This news made Long Chen's heart even heavier.

To think that it would take such a short period of time to go from being a baby to a teenager.

He was also increasing in strength, and now, he needed three Dragon Emperor s to join hands. If he really became an adult, wouldn't that mean that he had truly recovered all of the strength he had when he was at the peak of Long Qinglan's level? Then, if this monster escaped, there would be no one in the world who could subdue him, right?

"We are all worried that the future Dragon God Domain will be thrown into chaos because of him. We can't sit still. After a period of time, if he can still cause trouble and grow stronger, we can only think of a way to kill him. "With no chance for future troubles."

From their point of view, this approach was not wrong.

Those who saw this monster would not feel at ease.

Long Chen also experienced that kind of terror.

He gritted his teeth and said, "If you give me more time, I will definitely find out what happened. Please don't rush to kill him first!"

Dragon Emperor Yongye shook his head and said gently, "It's up to fate. I am mainly asking you, what changes can you see on the day you see him? "

On that day, the monster cried out to him, claiming to be his father.

Long Chen still could not forget the scene from that day, and how conflicted he was at that moment. Even until today, he was still hesitating over the original solution, and did not know if his choice was correct.

"Nothing."

Long Chen could only reply like this.

Otherwise, the Immortal Dragon Emperor and the others would probably want to kill him even faster.

Long Chen wanted to leave an additional opportunity behind.

"Sure." In a few more days, I'll take you to see him again. "

After he finished speaking, Dragon Emperor Yongye left.

"What is the answer to all these mysteries?"

Long Chen was deeply confused.

Qinglan Palace had finally calmed down, and settling this matter had relaxed Long Chen's heart by quite a bit. Now that everyone had left, he was about to gather the Dragon Bow and Dragon Bolt. With the

words of the Eternal Night Dragon Emperor, even if they took away the Dragon Binding Bow and Dragon Bolt in front of them, it was likely that no one would dare to snatch them away.

His gaze landed on the two trees that were hugging each other.

The vigorous old tree was now almost dead, but even now, the two trees were still tightly wrapped around each other, like a pair of lovers.

Long Chen walked forward, and only when he stood under the two trees did the two golden specks of light in his hands start to tremble. At the same time, he realized that the flow of time within the two trees had indeed slowed down, otherwise, he wouldn't have found this place.

"Go!"

The two drops of golden light gradually left his palm, heading towards the two ancient trees. It seeped in.

The light gradually extended until the last two trees turned golden. Under the light's illumination, the two ancient trees seemed to have been reborn back to life, and when they were full of vitality, circles of golden dragon scales began to appear on the ancient tree.

Just like the stellar nucleus that Ling Xi had obtained, Ling Xi had spent such a long time to fuse with the stellar nucleus, but she had not succeeded yet. The Dragon Binding Bow and Dragon Prison Arrow were neither weaker than the stellar nucleus, but in the end, Long Chen did not feel any form of violent resistance or struggle from them.

The two trees were still entwined and beautiful.

They started to evolve from two trees into two golden divine dragons. It was difficult to see their actual appearances under the light, but Long Chen was curious to find out, although these two divine dragons only had one dragon horn and two dragon claws.

The dragon's horns and claws were on the left side and the right side. Their bodies were still entwined, just like the ancient trees, and only when they were combined did they look like dragons with a pair of horns and two pairs of claws.

The two Divine Dragons were still entangled with each other, releasing streams of divine light that swam before Long Chen's eyes, as if bringing Long Chen into a dream-like world.

The surroundings were gradually covered by a golden light.

Long Chen was situated atop a stretch of golden colored clouds, but the two divine dragons in front of him had already expanded by a million times. They soared below Long Chen, as if they were an entire piece of land, and every single piece of golden colored dragon scale was as large as the entire Everlasting Dragon City, to the extent that they were even equivalent to the size of the entire ocean of time.

The most obvious feature was that each of them had only one dragon horn and two arms.

Just like the legendary Winged Birds, they were in pairs as they roamed the horizon in a beautiful and peaceful manner.

"Their names are all 'Dragon Confining'. They were the supreme Unparalleled Dragon among all the Divine Dragons. They were an existence only second to the Ten Great Ancestor Dragon. These two Dragons are the concomitant dragon of one of the Ancestral Dragons in charge of 'Fate'."

Suddenly, a melodious voice came out from the sword and surrounded Long Chen's ears.

The dragon was still dancing below.

"Father, is that you!?"

Long Chen's entire body was in a daze, that voice was familiar, but was younger than he had imagined, so he could still hear it clearly.

No matter how he asked, the other party seemed to not have heard his question. He laughed heartily and said, "Archeozoic era, there is an expert who obtained the bones of these two 'Dragon Confining Boards' and refined them into Dragon Bows and Dragon Confining Arrows. It was a Dao item with 700 Dao patterns on it. "When combined, its power surpasses the usual 700 Dao patterns and is extremely powerful. I once used it to kill a Demigod rank expert."

Chapter 2195 - Future Life

It was indeed Long Qinglan.

But Long Chen knew that this was only what he said between the two dao tools.

Moreover, it was when he was young, before he seemed to have become an eternal Dragon Emperor.

At that time, he was at his most high-spirited. Just like the tone he used, he was carefree and unrestrained, full of unstoppable energy.

At that time, he would definitely not have imagined that he, who became the ruler, would encounter such a miraculous fate, causing his reputation to be ruined. Right now, everything was a mystery.

Long Chen looked at the golden mist around him.

The divine dragon beneath his feet danced as if the entire continent was swimming.

"I've looked through the material. Find out some stories about the The Age of Dragons. Of course, it was just a rumor. Rumor has it that amongst these two dragons, one was called 'Blast' and the other was called 'Bind'. They had mastered two supreme laws; one possessed terrifying offensive power, while the other possessed terrifyingly restrictive power. When both of them came out, even the Unparalleled Dragon on top of them were not a match for the other. "

"But that prison dragon that controls' explosion 'has a violent temperament and has frequently caused trouble, killing innocent people. Finally, one day, he angered the Ancestral Dragon that controls' fate '. The Ancestral Dragon desired to break all of his dragon horns and dragon claws, making him lose them for eternity. This has taken almost half of his strength, and is a fatal blow to the Unparalleled Dragon. "

"And at that time, the other Prison Dragon who controlled 'Binding' had knelt in front of the Ancestral Dragon, and was willing to bear the punishment together with the offending Prison Dragon. That was why half of their dragon horns and dragon claws had been cut off by the Ancestral Dragon. But because the two of them loved each other, the dragon that committed the crime had been reborn. Even though

they had lost half of their power, their coordination was even more flawless, and their fighting strength had instead increased by leaps and bounds, becoming a legend in an instant. "

"In the Dragon Sacrifice Continent, there are also legends of caged dragons, which symbolizes the perseverance and dedication of love, as well as vows of death. On many wedding occasions, there will even be a couple of dragon imprisonment sculptures carved into many of the items as a show of beauty. "

Long Chen listened quietly until the voice disappeared.

This voice was young, warm, and filled with confidence. This was Long Qinglan from his youth. He was full of energy, and his potential was monstrous. No one could match him, and this was when he was in the limelight.

But now, everything had disappeared.

The divine dragon also gradually disappeared into the distance.

"And where is my love?"

Long Chen originally thought that it was already over, but he never thought that Long Qinglan still had one last sentence.

His love?

At least in Long Chen's impression, it was a complete blank. The only woman who was closest to him was his maid, Yang You. Of course, there were so many of his most fervent pursuers in the world. It was just that at that time, Long Qinglan was probably so outstanding that no one was worthy of him.

After finishing his last sentence, the golden radiance gradually disappeared.

One of them had turned into a golden dragon bow, and the other into a golden arrow. The two Dao artifacts with 700 lines on them had been covered in golden dragon scales, looking extremely lifelike, and their divine auras were extremely similar to the two divine dragons. As they intertwined, it was impossible to imagine just how powerful of a power the two Dao Artifacts were filled with, Long Chen could imagine how huge the Unparalleled Dragon he saw just now were.

With his current strength, he definitely wouldn't be able to fully display the dual strength of Dragon Bow and Dragon Confining Arrow.

He had originally thought that it would take a lot of strength to take them back, but the reality was different from his imagination. These two Dao artifacts were floating before his eyes very meekly, without any signs of resistance.

Long Chen reached out both of his hands and grabbed onto the arrow that was shot out by the bow. When he felt the warmth from it, he could carefully sense the terrifying power that seemed to come from the golden ocean, the power that came from the Unparalleled Dragon and the highest grade of forges. It was only after the arrow was forged into a Dao Artifact that it could be released and controlled by Long Chen.

Seven hundred Dao patterns!

Upon closer inspection, each of the draconic scales was covered with a ring of Dao patterns, known as a circle.

Each golden circle carried a golden power similar to that of a lake.

Seven hundred lakes, forming a sea.

The moment he grabbed them, Long Chen already had a familiar feeling. He was already the owner of the two Dao Arts, and there was no need to retract them, because Long Qinglan had already planned long ago to give the two Dao Arts to him.

"I really wonder, when was it that I was given these two Dao artifacts?"

There were some words that Long Qinglan had left behind for him regarding the two dao tools, but those were things that he had left behind when he was young. He would never have expected to leave it to his son.

Probably later.

However, why did he not leave a single sentence for her?

Grasping the Dragon Confining Bow in his hand, Long Chen fell into deep thought.

"From today onwards, practice archery!"

Only an expert with a body of a demigod would be able to truly control seven hundred dao tools. However, the Dragon Binding Bow and Dragon Binding Arrow were extremely compatible with Long Chen, and Long Chen also possessed the equivalent to the power of a god. Thus, he was somewhat confident in being able to control seven hundred Dao artifacts.

Of course, using the Dragon Bow and Dragon Bow together would consume a lot of energy.

"I will try my best to use the Dragon Binding Bows to shoot out a large number of Azure Dragon arrows within a month, and also be able to use the Dragon Binding Arrow. As for coordinating the Dragon Binding Bows with the Dragon Binding Arrow, that can only wait until I reach the next level, or even the next level!"

Long Chen had already set a goal.

He had to figure out what was going on with that monster.

Thus, what he needed was strength! Strength! Strength!

Time had already stopped for him to take it slow. Everything about his father was now a mystery, including the Dao items he left behind for himself. However, he could not deny that an unimaginable calamity had befallen him, and he had placed all his hope on himself!

As the son of a human, he had to fulfill his responsibilities.

It's not just responsibility. That thing was called kinship. During this journey, the word 'father' had occupied an increasingly important place in his heart. Perhaps one day, when he became someone else's father, he would understand it better!

His desire for power drove him to forget himself.

Controlling the Dragon Binding Bow, Blue Dragon Arrow and Emperor Dragon Arrow actually took a very, very short time.

With his control over time and the control of the entire world, he could easily lock onto his target. In the end, he could just imbue the arrow in his hand with his strength and shoot it out.

When combined, even if it was just an Azure Dragon Arrow, if it was shot out by a Dragon Binding Bow with 700 patterns on it, it would still be a terrifying killing intent.

Time passed quietly.

The story of the two Dragons had also caused Long Chen to miss Ling Xi more and more. Under Ling Xi's efforts, the day of their reunion seemed to be getting closer and closer.

Almost every day, Long Chen would find some time to contact his most beloved person.

"Brother Chen, do you want a baby?" Ling Xi would say this very naively sometimes.

Long Chen certainly wanted it. Although according to the algorithm of the Immortal God Realm, he was still a child, but according to the algorithm of the White Poplar Town, he was not young anymore. It was just that the inheritance of the Dragon Fighter was extremely difficult. It took the people of the Immortal Dragon Emperor tens of thousands of years to produce more than ten descendants. The nobler the existence, the harder it was to pass on.

So he didn't think too much about it.

Even though he had been with Ling Xi for a long time already.

"If there is a child, I will protect you. Maybe it will even help me grow." Long Chen was also immersed in his dreams.

"I don't know why, but I always have a feeling, or an intuition, or something fated for me recently. It's as if there is a new life, as if in the future, it will be born in my body ... His growth will be very slow, but in reality, it seems like we are still in the Dragon Sacrifice Continent. That time when I found you in the Nether Realm, it started ..."

That time, Long Chen seemed to have owned Ling Xi for the first time.

"Only now?"

Long Chen could not help but smile bitterly.

But at the same time, he felt an indescribable excitement, or a feeling of longing and fear. He asked blankly, "Xiao Xi, is what you said true? "Don't try to fool me. I don't have much experience in this area, so I'm still very afraid ..."

What would it be like to be a father?

And what did Long Qinglan feel toward him?

Hearing Long Chen's words, it was hard to imagine that a man who could support the heavens and earth would actually be so cowardly. Ling Xi was so happy that she started to giggle. I think I'll be the first to tell you. Now I'm just guessing. Cultivation was a very mysterious thing. When one's life reached a very high level, it was as if everything had become different from normal, especially your physique. Who knows, if you gave birth to a baby, what would it be? "

"Then only God knows."

Long Chen laughed awkwardly.

This news suddenly made him feel that life and longevity were actually so wonderful. His entire life was filled with anticipation. He was filled with an indescribable excitement. It had been many years since he had had the feeling of wanting to jump up and announce it to the world.

Long Chen carefully withdrew his wild joy and panic. After all, this wasn't something that had truly appeared, so he couldn't be happy too early.

However, he felt that in order for his son or girl to be born in the future, he would not appear to be so foolish, and would not lack the strength to protect him or her.

"I hope he won't have so many troubles like me when he was born!"

For the sake of his father, for the sake of his future children, what other reasons could he have?

Chapter 2196 - Vast Time

After some time, he had almost mastered the new Dao Tool.

Before the arrival of the Four Symbols tribulation of reincarnation, Long Chen had already placed his gaze on the cultivation of the Way of Time.

After all, this place could be the Everlasting Dragon City, and outside the Everlasting Dragon City, it was a time sea that was thrown into disarray.

To him, the chaotic time there would help him feel the changes in the ocean of time even more. To him, it would help him tremendously. In fact, he should have gone to the Sea of Time long ago. It was only because of the Dragon Confining Bow that they were delayed.

Thus, he left Qinglan Hall and left the Everlasting Dragon City.

Even Dragon Emperor Yongye was famous for Long Chen. In an instant, the Everlasting Dragon City was stirred, and against Long Chen, no one dared to righteously criticize him anymore. At most, they would say a few bad things behind his back.

Even the Bluefire Emperor could not do anything to Long Chen, so the others could not.

When Long Chen appeared in the Everlasting Dragon City, for a moment, everyone along the road took note of him. If it was before, everyone would definitely watch and mock and curse at him. However, all of their expressions were strange now. After glancing at them from afar, they stopped moving closer.

"It's that Long Chen ..."

"How awe-inspiring, even Dragon Emperor Yongye is protecting him!"

"Enough is enough, no one can do anything to him now. With his talent, can you imagine what will happen ten years from now? After ten years, you probably won't even be able to reach the Four Symbols tribulation of reincarnation. I reckon that he has already become an expert with a body of a demigod. "

In their hearts, they gave in.

At the same time, there was also a faint sense of admiration.

As for their jealousy, they could only carefully retract it.

They were not unfamiliar with this feeling.

There were many people who were jealous of Long Qinglan back then. They never thought that Long Qinglan's rise to power would become even more terrifying, and it seemed that not many years had passed since he had become the ruler of the entire human race.

Everyone who saw it would pay close attention, but no one dared to express their hostility towards Long Chen in this kind of open and aboveboard situation.

They walked all the way to the entrance of Everlasting Dragon City. Outside, they could see the sea of time.

"Where are you going?" "Your identity is special. In order to enter and exit the Everlasting Dragon City, you must have the approval of the higher ups," a general of the 'Everlasting Army' of the city guards braced himself and walked forward, blocking in front of Long Chen and asked.

Just as he finished speaking, the Bluefire Emperor appeared right behind him. He quickly took his leave, handing the place over to the Bluefire Emperor.

When he thought back to one month ago, the Azure Fire Emperor had still tried to do everything possible to get Long Chen to leave, but now that Long Chen was standing here, and he was blocking his way, this scene was indeed very funny.

"You want to leave? What was going on? Is it because we have already obtained the Dragon Binding Bow and Dragon Binding Arrow? "

The Bluefire Emperor said coldly.

Long Chen laughed lightly: "You are too sensitive, I only want to go out and cultivate in this nearby time sea. There is a natural advantage here, which is of great help to me. You should be able to understand the path of training time as well. "

Time was an extremely profound and profound dao and its laws.

Eternity was time.

As such, there were many people in the Everlasting Dragon City who cultivated in the sea of time.

Even now there are a lot of people.

This was very normal, but because Long Chen was special, they were too nervous. If it was the past, the Green Fire Emperor would definitely make things difficult for Long Chen, but now, he dodged it immediately. Without saying a word, he disappeared from Long Chen's sight, and the Everlasting Army also gave way for Long Chen. Long Chen came out from the Everlasting Dragon City, flying towards the horizon. The clear water in front of him was extremely beautiful, cool, and refreshing, to the point that there were two extremes compared to the sea of blood in the Slaughter Dragon City.

Below, the clear water was calm and rippled with microwave energy. Of course, there were quick and slow places that could form waves.

"This is a real ocean of time!"

Long Chen closed his eyes and slowly immersed himself within, allowing the time and water to surround him. He let himself sink in, and at the same time, let himself drift.

Time passed by, turning into seawater as it passed by. It was either fast or slow.

Long Chen swam in this ocean of time, like a fish swimming in water, free and at ease. He was comfortable and free.

There was no place that Long Chen could so intimately feel the strangeness of time.

Even though he was still young, at this time, under the guidance of the ocean of time, he had gradually gained the talent that he deserved. In the past, most of the time, it was the body of the Primordial Blood Spirit Dragon that grew, but now, the Great Void Cosmic Dragon's primordial spirit was also growing.

Everything seemed like a dream.

Time quietly slipped away. As Long Chen's fingertip passed by, his appearance had already changed from a human into a young and illusionary Divine Dragon. He began to recall, from the initial time disorder, to the creation of a divine ability like the Mirage Bubble, then to the eternal moment when time stopped, then to the Time Traversing Dragon, and then to the origin of the time reversal dream. And finally, the level of time disorder, that was the storm of time!

All of these things could be found in the sea of time, and the circles which formed the divine abilities.

The Grand Void Divine Dragon waved its dragon claw and the river in front of him suddenly changed directions.

He stretched out his dragon claw and held down a portion of the water, preventing it from flowing.

His body went against the current, and that was his time reversal. It was his dream back to its origin.

He rolled and stirred, causing the surrounding water to vibrate. Disturbance, that was the storm of time!

Every single change could lead to an ability that belonged to the Great Void Cosmic Dragon, something that he could obtain through his manipulation of time. After understanding some of the changes that he was familiar with better and better, several days had already passed. Within these few days, Long Chen had gained a lot.

Then he wondered if he could still have a higher level of divine ability.

The flow of time and sea water here could speed up the growth of Great Void Cosmic Dragon, turning into an opportunity for new abilities to appear.

But it also required reflection and experimentation.

In the following time, Long Chen was constantly pondering, experimenting, and gaining insights. He kept trying new ideas. Although the repeated failures proved that his thoughts were wrong, the more mistakes he made, the closer he got to the truth that he wanted to understand. Finally, after repeated failures, he gradually found the right path.

He had found a new development on the path of 'time reversal'.

Reversal was an attribute of the Dao of Time.

Among the counter-current attributes, the origin of the dream was developed. That was Long Chen's reverse flow of time, which could help him recover.

But the reverse flow of time was far more than this.

What made him have an even bigger idea was that when Cat used Great Void Dragon Symbol, she reversed the time of the entire White Yang Town. That was the most terrifying reversal of time.

Not only to the surroundings, but to tens of thousands of lives.

Even now, it was completely impossible for Long Chen to accomplish that.

But he had already set foot on this road.

The origin of the dream was the beginning of the reverse flow of time, just his body moving forward in the direction of the flow of time.

Furthermore, a higher level of time reversal should be to reverse the flow of the water around him and himself, allowing them to flow back to their original position within a certain period of time.

As for the most terrifying level, if the ocean of time was an entire Dragon Sacrifice World, then when it was strong enough and huge enough, could one control the ocean of time and allow it to flow backwards, which was to let the entire world return to its previous state?

The Dao of Time was the pinnacle of all Heavenly Daos. This was the most mysterious aspect of it. Once the peak of time was reached, it would be terrifying.

Of course, Long Chen was only thinking about how to let the flow of time and water return to the past with him!

He tried his best to beat up the time and make it turn back. However, the limitation of his strength was not that easy either.

This was different from a dreamlike bubble, a dreamlike bubble was the simplest form of time disorder. It only caused some of the seawater to become slightly chaotic, while some of it returned back to normal. However, the time reversal technique was to drive them back, and the further they went, the faster they would go, and they wouldn't even need to go back on their own, but directly causing other people's time to reverse!

If he found the right direction, then he would need to ponder over and over again.

A man of faith would never stop.

Long Chen was like this, he kept thinking tirelessly, the thoughts in his head were getting clearer and clearer, and he had learnt more and more about this new path. The range that could affect the reverse flow of time also had a force that could make the sea and time flow back, which was getting stronger and stronger with practice.

This is the Great Void Cosmic Dragon's new ability, it's taking shape!

Long Chen longed for that day to come, when he could achieve the grand spectacle of the Great Void Dragon Symbol at the time, and could even reverse the entire world's time!

It was said that Great Void Cosmic Dragon had such power.

Days and nights passed.

It seemed that it was almost time to see Long Qinglan again. Long Chen was already prepared to return. After meeting his father, he continued to work hard.

He opened his eyes. He was now at the deepest part of the ocean of time.

He began to climb upwards in the clear sea.

Seeing Long Qinglan again, his emotions were undoubtedly rather complicated.

However, at this moment, he encountered the most terrifying feeling he had in his life. It was similar to when he was still very weak and had met the City Lord's death. That sort of terror could not be described with words.

The person who was targeting him was right behind him.

He could see the water gently stirring behind him.

At this moment, he took a deep breath and turned around. When he turned around and saw the enormous creature behind him, to be honest, his heart trembled.

He still couldn't believe what he was seeing.

The thing that was the most impossible to see actually appeared right in front of his eyes.

The seawater before him rippled gently.

The black shadow enveloped Long Chen's entire body.

In the twinkle of his eyes, one could see hundreds of black octopus tentacles waving slowly in the sea of time ...

Chapter 2197 - The Second Monster

The thing that had suddenly appeared behind Long Chen could be said to have long been deeply engraved in his mind.

In front of him were hundreds of thick octopus tentacles dancing in the sea of time, stirring up the sea water.

In the middle was a huge black meatball covered with goosebumps, it was people with only the upper half of their body. Those people were all covered in the black mist, it was hard to see what they looked like.

That thing that could only be in the well of Weiyang Palace actually appeared in front of Long Chen.

Long Chen couldn't help but wipe his eyes, thinking that he saw wrongly.

But seeing it with his own eyes, it could not be so simple! At least the fatal crisis was not false.

"Father!"

Long Chen could not help but say in a daze.

But then he noticed something was wrong.

Due to Long Chen's familiarity of Long Qinglan, he was able to tell at a glance that this was not Long Qinglan at all, but another person. It was as if Long Chen had seen his appearance before, but to say who it was, Long Chen was unable to see clearly for a moment!

This was the second monster!

In this world, there was actually another existence like Long Qinglan.

The Immortal Dragon Emperor and the others would definitely not know about this.

Furthermore, the feeling this monster gave him was even more terrifying than the feeling Long Qinglan gave him in the well!

"Long Chen, haha."

The hundreds of human shaped bodies called out Long Chen's name at the same time, and laughed sinisterly.

This monster gave Long Chen the same disgusting feeling as when he first saw Heavenly Blood Hell.

"He hasn't made his move yet. I'm not in a hurry to escape. Maybe I can find out more about my father's current condition from him."

Long Chen was crazy.

Therefore, due to his extreme shock, he did not flee in panic, but chose to face him and challenge him!

"And who are you?"

He tried his best to remain calm as he faced this terrifying opponent.

The black monster laughed and said: "Who am I? I know you definitely want to know everything about me and your father. I'm the one who knows all these secrets, but it's not easy to get the answer from my mouth, unless ... "

"Unless what?" Long Chen asked.

He actually knew the truth.

Even the Immortal Dragon Emperor was kept in the dark, and no one in the entire Dragon Sacrifice World could understand this, but he knew the truth!

This news made Long Chen unable to suppress the excitement in his heart.

However, the other party's reply soon jolted him back to his senses.

One must know that the identity of the person who knew the truth must be very, very high. If Long Chen wanted to get the answer from him, it could basically be said that it was impossible!

Sure enough, the other party said, "It's very simple. If you want me to eat it, I'll tell you! Haha!"

His strange laughter rang out continuously, it was the sound of hundreds of mouths opening at the same time.

It was as if the entire surrounding world was controlled by this monster. If not for the fact that Long Chen was in the ocean of time and had a huge advantage in understanding of time, he would probably have been trapped by this monster even at this moment.

He suppressed the waves in his heart and angrily said, "Alright, stop talking in front of me. Tell me your real purpose for coming to find me."

As the monster moved about in the shadows, it sneered and said, "It's very simple. I want to make you my kind."

Same kind!

Hearing this word, Long Chen could not help but feel his blood run cold.

This opponent gave him the same feeling as the previous City Lord. His strength back then when he faced City Lord DuDu, was actually the same as today's monster!

After saying that, the hundreds of octopus tentacles had already spread out, surrounding Long Chen.

He made his move.

With every step he took, Long Chen's heartbeat quickened. This was no ordinary battle, it was just like the Heavenly Blood Hell.

Time passed silently.

The monstrous Demon Claw stretched out.

Right at that moment, Long Chen suddenly moved!

He used the power of the Fourteenth Sacrifice to control the sea water around him, and instantly rushed towards the monster. Instantly, the water within five kilometers of him were all under his control, forming a ball that trapped the monster, while Long Chen did not dare to stop at all.

He was sure that as long as he left the ocean of time, the Immortal Dragon Emperor would still be watching him from the sidelines. This monster would definitely not dare to show its face!

Due to the lack of time, the other party must be harboring malicious intentions.

Long Chen did not want his body to become that of the second Long Qinglan, so the father and son duo would truly be defeated in its entirety.

"Do you want to leave?" Surely it won't be that easy? "

Behind him, the hundreds of octopus tentacles actually extended infinitely and chased after Long Chen. They were extremely fast, and even though Long Chen had created a good opportunity, they were still behind Long Chen in a short period of time!

"Dragon Binding Bow, Azure Dragon Arrow!"

At the same time as he charged upwards, he quickly took out the two tools, a total of 700 dao tools with lines on them shot out the Azure Dragon Arrow, the Azure Dragon Arrow finally released the power that the arrows should have, and with the support of the Dragon Binding Bow, the shaking power shot out, actually shattering the few octopus tentacles close to Long Chen!

Using the recoil force, Long Chen attacked again.

The monster also revived quickly and chased after Long Chen once again.

At this moment, the Dragon Binding Bow and the Azure Dragon Arrow had displayed their enormous capabilities. They were actually able to cut off the tentacles of the octopus. The other artifacts might not have reached this level!

"It's really quite interesting?"

That strange voice came to Long Chen's side once again.

Shua! The gigantic monster's body suddenly appeared next to him, countless of tentacles swished over, without saying a word, Long Chen immediately switched to God's Dragon Arrow. When the six hundred inscriptions aimed at his opponent with their seven hundred bows, after shooting out, they shot out and exploded the tentacles again!

But Long Chen realized that the other party's body was getting stronger and stronger.

With regards to the details, Long Chen was no longer able to dodge. Although he was already very close to the surface of the water, the monster seemed to be teasing him previously, but in that moment, such a huge monster suddenly appeared right in front of him, blocking his path to escape.

"The game is over, you listen to me obediently." The monster sneered.

Long Chen decisively turned into a Divine Dragon, becoming a being as huge as the other party. His body quickly rolled, raising the ocean water in the sky, Long Chen turned into a sharp Blood Spirit Spikes, rushing towards the body of the monster!

This was his most powerful attack!

The Blood Spirit Spikes had the reputation of destroying all living things in the world!

Wherever he went, a whirlpool appeared in the sea of time as the Blood Spirit Spikes charged towards the monster.

"I've said it before, I was only joking earlier."

The monster said coldly.

When the Blood Spirit Spikes rushed towards him, he actually took his time, extended out an octopus tentacle and fiercely whipped the Blood Spirit Spikes, wanting to throw Long Chen into the ocean of time once again!

The octopus tentacles that could even explode with a single Blue Dragon Arrow were now as hard as seven hundred dao tools. Under this kind of attack, Long Chen's Blood Spirit Spikes was actually broken!

This was the first time since he had activated the Blood Spirit Spikes that there was no effect.

This result did not scare Long Chen, because he had long understood how terrifying this monster was, and how little of a chance there was to deal with it.

When the Blood Spirit Spikes was broken into pieces, he instantly summoned a total of three million Blood Weeping Dragon souls, which instantly filled up all the surrounding seas and blocked him from falling into the deep sea. Long Chen took advantage of this time to bypass the monsters and had countless Blood Weeping Dragon souls surround his opponent.

In that instant, three million Blood Weeping Dragon souls turned into ashes.

To Long Chen, this was a huge loss, a huge drain on his strength.

However, he had finally found a sliver of hope to escape.

He could already see the light in the sky above the ocean of time.

"Alright, come!"

Right at this moment, one of the octopus tentacles grabbed towards Long Chen's waist, and arrived behind Long Chen in the blink of an eye.

If it was a painting that was entangled by him, Long Chen would have to make it into a 'similar type'.

He turned his head in horror and saw that the octopus's tentacles had broken through the layers of seawater, giving him a creepy feeling.

The fluctuations of the sea of time, the unwillingness to give up, the conviction, and the deep responsibility in his heart.

With the arrival of the octopus's tentacles, everything was in a state of collapse. There was no way it would return this time, and it might even become a monster similar to Long Qinglan in advance.

This was a terrifying blow!

Long Chen bit on it tightly, and his eyes instantly turned red!

"Go back!"

The tentacles of the octopus brought a large amount of seawater from the sea of time.

It was as if time was rushing towards him.

After days of hard work and experimentation, today, before the octopus's tentacles arrived, Long Chen had developed that kind of heart piercing insight before his fatal crisis. He used the power of Time Reversal in his recklessness, and his only thought was to get the octopus's tentacles back!

And then, he actually did it.

The octopus's tentacle instead of moving forward, it retreated, and followed its original trajectory to a distance of around 10 meters away. Although it was only for a split second, Long Chen was able to rely on that moment to rush out of the ocean of time!

The water below was filled with black shadows!

He was out of danger!

The first thing Long Chen did was to notify Dragon Emperor Yongye.

He immediately activated his Star Talisman and said: "Quickly come to the entrance of Everlasting Dragon City. Monsters are killing me!"

This was the fastest way to call Dragon Emperor Yongye over.

Long Chen did not believe that the two Dragon Emperor s could not do anything to the ghost.

"Well, you're lucky."

The monster's voice came from deep within the sea of time, sounding further and further away ...

Chapter 2198 - Black Yan Beast

At that moment, the monster completely disappeared.

Long Chen had taken human form, his body still dripping with water as he stared at the ground below him in a daze.

He had finally made it to the gates of hell.

If he hadn't made a breakthrough in the reverse flow of time under the suppression of the opponent at the last moment, and had successfully pushed back the opponent's final binding, he would have lost track of where he would have gone to.

There won't be any good results.

The place he was currently at was still a distance away from the Everlasting Dragon City's city gate.

As such, not many people saw what happened here.

Of course, Long Chen had already told the Eternal Night Dragon Emperor what happened here, so in an instant, a man and a woman appeared in front of Long Chen. They were the Eternal Night Dragon Emperor and the Eternal Night Dragon Emperor.

"He went down!"

Long Chen hurriedly pointed downwards.

The Immortal Dragon Emperor didn't say anything further and rushed down. However, the Eternal Night Dragon Emperor still stayed by his side and asked, "What is the monster you're talking about?"

Her expression was cautious.

Long Chen answered without hiding anything: "It is the exact same as the thing below the dry well in Weiyang Palace. Just now, you wanted to capture me. "

He did not really admit that the one down there was Long Qinglan, so he used the word 'father' instead.

"What?" Dragon Emperor Yongye's shining eyes widened slightly as he looked at Long Chen with an inconceivable look.

In that moment, she disappeared from Long Chen's sight and probably chased after the monster. The surroundings became quiet again.

Long Chen definitely hoped that they could catch the monster this time.

After all, he was the only person in the world who knew the truth.

After waiting for a while, there were still no sounds of fighting below them. Dragon Emperor s were definitely very scary, but since there were no sounds, it seemed like they did not have time to grab onto the monster.

From the moment Long Chen escaped from danger to the moment the Immortal Dragon Emperor arrived, there was only that moment of time.

In just a split-second, this damned thing disappeared without a trace?

As expected, fifteen minutes later, the Immortal Dragon Emperor and Eternal Night Dragon Emperor appeared in front of Long Chen.

The mist surrounding the Eternal Night Dragon Emperor's silver hair dispersed and she hurriedly asked, "Can you explain exactly what happened? We've searched the entire time sea for the monster you were talking about. "

The Immortal Dragon Emperor at the side had a gloomy and cold face, he was even impatient, probably thinking that Long Chen was messing with him.

Long Chen said: "If we can't find him, then he probably escaped."

The Eternal Dragon Emperor snorted and said: "Bullshit, how long will it take for you to notify us to hurry here? When we came here, we still didn't find him, which meant that he was already very far away after we arrived. I also asked the Dragon Emperor of the firmament, he was monitoring from the sky, and I didn't see that kind of monster you're talking about! "

Dragon Emperor of the firmament?

Is he in the sky?

Long Chen recalled that a few days ago, he had still killed Cang Ya and the result was that the Sky Dragon Emperor was still in the sky ...

This was not the most important thing, probably because of the existence of the Sky Dragon Emperor, that monster did not appear.

"Alright Long Chen, tell us the details of what happened first. Also, return to Weiyang Palace first."

If not for Long Chen's summons, they would not have left Weiyang Palace at the same time.

On the way, Long Chen narrated everything that had happened.

"To change you into someone similar to them, that is to say, it isn't a problem with Qinglan himself." Dragon Emperor Yongye muttered.

The Immortal Dragon Emperor by his side sneered: "You actually believe his lies? Yongye, among the strong in the world, how many can escape from our sight so quickly? This is the Everlasting Dragon City, the territory of time, do you think his words are reliable? Or could it be that he had deliberately fabricated this story and excuse for Long Qinglan in order to help him explain himself? "

This suspicion made Long Chen very angry.

He sneered, "Is the dignified eternal Dragon Emperor only this narrow-minded? I didn't bother to explain. I wasn't afraid of the shadow slanting. I'll prove anything I have to prove. I am also disdainful of using such petty tricks. Furthermore, you won't fall for it, right? "

The Immortal Dragon Emperor only hated him.

"Long Chen, you go back first. We will ask the other Dragon Emperor about this matter to see if they understand anything. We'll let you know. Cultivate well. You have made great progress in terms of cultivation, items, and time. Your future is limitless. If you escape this calamity, you must treasure it even more. "In the future, I still need to go to the Time Sea. I need to be more careful."

Dragon Emperor Yongye said cordially.

To be honest, Long Chen did not dare to go there alone.

After bidding farewell to the two Dragon Emperor s, he returned to Blue Tide Palace, and the two Dragon Emperor s also returned to Weiyang Palace.

He didn't know why, but maybe the consumption today was too much. Long Chen kept feeling dizzy, as if he was extremely tired.

The next few days seemed to be normal.

Perhaps it was because he was too preoccupied with too many things, but the appearance of that monster had caused him to be greatly shocked. It made him understand that there were still many secrets in this world that he was not qualified to know.

"If I have the strength to completely dominate this monster, then naturally I want him to say what he wants to say. He will have to say what he wants to say!"

Thus, he once again cultivated assiduously.

From the use of a Dao weapon to the advancement of the Dao of time.

On the new road of time reversal, Long Chen had finished arranging everything, and had walked further and further. Now that he had reached a certain level, he named this move 'Space-Time Reversal'. This was because the scene was akin to time and space falling back, but in reality, it was only time falling back.

When the Spacetime Reversal was used on a true battlefield of the strong, the effect of time was simply unimaginable.

His days once again fell into silence, until Dragon Emperor Yongye fulfilled his promise and brought him to see Long Qinglan.

"It seems like it's the third time, but he's different now, so I'm going to take you in."

Following the Eternal Night Dragon Emperor, Long Chen once again entered the dried up well.

Every time he entered, the feeling was actually different.

The mood this time was especially complicated.

Reaching the bottom, Long Chen finally saw what Long Qinglan looked like when he was a teenager, but it was just that now, he was even closer to the monster, becoming lean and dark. Only the outline of his face was similar to Long Qinglan's.

He did not move an inch and naturally wouldn't speak to Long Chen again.

"Father!"

All of Long Qinglan's head were lowered, not moving an inch.

Long Chen looked at him silently, feeling emotions that outsiders couldn't understand, until an hour later. Then, Dragon Emperor Yongye gently patted his shoulder and said, "Child, let's go. I'll take you out."
"

"Yes."

Long Chen nodded.

He suddenly realized that he still hadn't figured out what had happened. It was as if he didn't even have the face to see him anymore ...

Just when he turned around to leave.

He felt someone speaking into his ear.

He said, "Welcome to our Black Yan Beast's team!"

That was Long Qinglan's voice.

Long Chen turned his head and saw that there was not the slightest change in Long Qinglan's monster's body. That sound sounded like an illusion and it had never been heard again.

Black Yama Beast?

What was this name that had popped out of thin air from his brain?

In a daze, Long Chen left the dried up well and arrived at the center of the courtyard where the Immortal Dragon Emperor was standing under the black willow tree, lost in thought.

"I'll send him back first."

The Eternal Night Dragon Emperor said before bringing Long Chen back to the Qing Lan Hall. However, that Eternal Night Dragon Emperor's eyes suddenly glared at the direction Long Chen left in, and even sucked in a breath of cold air.

Even after the return of Eternal Night Dragon Emperor, he still had that shocked and puzzled look on his face.

"What's the matter with you?"

Dragon Emperor Yongye asked curiously.

"Junior Sister, do you think that a person like me will have illusions?" The Eternal Dragon Emperor said in a daze.

"If you have anything to say, just say it."

Dragon Emperor Yongye said with slight anger.

The Immortal Dragon Emperor looked towards Long Chen and said, "When you were bringing Long Chen away, I took a look behind him and saw something strange on his back. But then it disappeared, so I suspect I'm seeing things. "

Dragon Emperor Yongye was startled for a moment, and asked, "What did you see?"

"The tentacles of those monsters were like octopus tentacles. They were waving at me from his back, but when I looked carefully, there was nothing there." Even the Immortal Dragon Emperor was a little uncertain.

Dragon Emperor Yongye was silent for a moment before he shook his head and said, "Something may have gone wrong with you. Even the strongest person will hallucinate if they think about something everyday."

"I hope so. If I don't kill this thing below me in a day, I won't feel at ease."

"He's your son!"

"He's not!"

It was day time when he returned to Qing Lan Hall, but Long Chen felt a little tired.

Perhaps he hadn't recovered from the intense training he had recently.

When he opened the door, what Long Chen did not expect was that there were dozens of young and beautiful girls standing outside. Looking at them, Long Chen could see that they were all exceptionally beautiful, with each of them being young and beautiful, with delicate bodies, with exquisite curves, and beauties. They were extremely alluring, some were young and others were young, and each had their own beauties.

When they saw Long Chen, they immediately revealed looks of admiration and admiration. Several tens of beautiful girls hurriedly greeted him, they were the most outstanding girls amongst the Everlasting Dragon City s, some were young Dragon Palace warriors, and some had already joined the 'Eternal Army', etc.

Long Chen also saw that Long Haoge and the others were gnashing their teeth in anger in the distance, probably because even the beauties had all come to Long Chen's side.

"What's the matter?" After he finished introducing himself to this group of charming and charming women, Long Chen hurriedly asked.

"Big Brother Long Chen, we heard that you even defeated Cang Ya, so we came over to get to know you."

"You are really powerful, far more powerful than Long Haochen. Furthermore, all three Dragon Emperors think highly of you. Such a person is located in our Everlasting Dragon City, we sisters have wanted to get to know you a long time ago. What, Big Brother Long Chen still wants to kick us out? "

"That's right. We finally managed to convince our elders to come here and play. You can't be so heartless as to chase us away."

For a time, a fragrant aroma wafted into the air as the young ladies rushed into the palace.

Chapter 2199 - Dream Fearsome

Long Chen turned his head to look, and what he saw were all the beautiful girls that were filled with vitality.

They had all entered Qing Lan Hall, and then surrounded him with looks of worship on their faces. Ever since Long Chen chased Cang Ya and the others away and when the Dragon Emperor spoke up for him, his position in the Everlasting Dragon City had greatly changed. The image he held in the hearts of the girls had instantly changed.

"Actually, we heard that some people were looking for a Dao Artifact here, making Blue River Hall look dirty and messy. That's why we bravely organized it for a bit, to come here and help Big Brother Long Chen clean up this place. I wonder if you can give us a chance?"

"Don't worry, we won't disturb you for too long."

They said in a delicate voice.

Honestly speaking, to be able to see the people here accepting him was also something to be happy about, and was even one of Long Chen's dreams.

Of course he wouldn't chase them away. After all, he was helping them out with good intentions.

"Thank you everyone."

Long Chen said.

With his permission, the girls were in high spirits as they surrounded Long Chen, asking about him nonstop. Of course, they had also carefully cleaned up Blue Tide Hall, making everything here look completely new, no longer having the appearance of having no one to stay for a long time, and looking even more elegant than when Long Chen had arrived.

Since Qingyou Hall had Long Chen's instructions, they also tidied up the matter very carefully. Long Chen was meditating and recuperating in one of the training rooms. Recently, he felt a little tired from his body.

Outside, dozens of girls were busy.

They were both young ladies with their first love, and had heard of Long Chen's story before, only that the outside world had rendered him into a state of terror. Now that they had truly seen it, in their hearts, Long Chen, who possessed extraordinary strength, was simply perfect. In the past, they thought that Long Haoge was the world's strongest genius, but now, compared to Long Chen, he was nothing at all.

They weren't even on the same level.

As a result, while they were tidying up, they would also often peek at Long Chen, quietly discussing, laughing and scolding each other, or chasing and playing around, full of youthful vigor.

Although Long Chen was the same age as them, he had a different life from them.

As time passed, he actually started to get tired.

Even though he was sitting cross-legged, the scenery before his eyes started to gradually become illusory.

It was getting more and more blurry.

It was unknown when he had suddenly entered into a dream that had not appeared for a long time, but as he fluttered in the boundless darkness, it was as if he had no form. His surroundings were filled with a pitch-black mist, which was extremely viscous and also like a swamp.

"Why am I here?"

He had forgotten how long he had been floating in this world of darkness.

He didn't know when, but a little light appeared in front of him.

Long Chen was quickly approaching this black speck, and the closer he got, the more uneasy he became. This was because he had already vaguely seen that the black speck under the light was not something good, and it was even very painful for him.

When he saw the thing clearly, he couldn't seem to control himself and could only fly towards it.

Hundreds of black octopus tentacles danced in the light, like a demonic snake. In the center was a black ball of flesh, the ball of flesh pulsing like a heart, and on the ball of flesh grew humanoid figures.

"Who is that!"

Long Chen felt a sense of familiarity.

In the blink of an eye, he had already arrived before his freak's eyes.

He was shocked to see the humanoid form of the monster. That appearance was not Long Qinglan nor was it the monster he saw in the ocean of time.

Hundreds of pairs of eyes were looking at him, giving him a strange smile.

"Who are you!"

That kind of terrifying sense of danger surrounded Long Chen. He felt a sense of danger in front of the monster.

"Who am I? I am you! "

Suddenly, the monster said in front of Long Chen with its mouth wide open.

"Bullshit!"

Long Chen wanted to tear him apart.

However, even if he struggled with all his might, he could not do anything about it. He realized that his body was still charging towards the monster, only until a moment later, he suddenly crashed into the monster's body, shattering the flesh and blood that filled the sky.

"Hah!"

Long Chen saw that his body had merged with that monster, and even connected his blood vessels and meridians together. Long Chen felt very disgusted, and also very terrifying, he had a kind of hair-raising feeling, he tried his best to tear off the sticky substance on his body, but broke through each and every one of them, until they were completely connected!

"What's going on!"

In the midst of the extreme struggle, Long Chen woke up.

His head and body hurt a little, and when he came to, he realized it was a dream. It was a very terrifying dream, and from the moment he saw Long Qinglan, that kind of monster had surrounded him and wouldn't leave his side.

He began to open his eyes and look around.

Surrounding him, there seemed to be waves of terrified screams.

Long Chen was a little confused.

But when his eyes became clear again, the scene that he saw shocked him greatly, even striking him. It was almost the same as in his dream, even more frightening than in his dream!

He saw that Qingyou Hall had already been razed to the ground, and even within a few thousand meters, it was still in ruins.

He saw that there were many bloodied corpses on the ground, and they were all the girls who came over to clean up Qinglan Hall for him. Their faces were ashen, and their bodies were bloodless.

What he also saw were some people dying in other places, while others were still struggling!

Although these octopus tentacles were not thick, there were only twenty odd of them, and they surrounded and danced around Long Chen. On top of them, there were one or two girls who were entangled with them, and a black pipe extended out and plunged into their bodies. Some of them had already died with pale faces, while some were even painfully struggling!

Those people who had died, their fearful eyes were actually looking at him!

When the people who were struggling saw that they had opened their eyes, they became even more terrified and cried out with ear-piercing shrieks.

Long Chen's first reaction was to see the monster again.

What he did not expect was that, those octopus tentacles had actually extended out from his body, extended out from his flesh and blood, and had already completely merged with him, just like a part of Long Chen's body!

Of course, unlike the other parts of his body, Long Chen couldn't control them at all!

This was simply like a dream!

Even Long Chen thought that it was a dream when he was in a daze. In reality, when he was dreaming, he would try to guess whether he was dreaming or not. However, if it was reality, as long as one had a little bit of brains, they would know that it wasn't fake!

Real existence!

It was impossible to describe Long Chen's current state of mind.

Horrifying, indignant and helpless, but with his personality, even if he could not accept this fact, the first thing he did was to take out the God Slaying Sword and hack down!

Pch!

Those new tentacles were very tender, when Long Chen chopped them down with his Godly Slaying Sword, it simply cut off all their roots, causing a large amount of blood to spurt out. But at the same time, Long Chen also felt a pain that was almost equivalent to losing an arm.

Just like connecting all ten fingers to the heart, the pain was so clear.

As a result, a piece of the octopus's tentacle that had been cut off quickly rotted away and turned into black smoke before disappearing. The girl controlled by the tentacles fell to the ground. One of the survivors was so scared that he was trembling, unable to stand up and flee.

"Don't be afraid!"

Compared to fear, he hated them even more. This was definitely not his last wish and he was being framed, which did not matter. But now, he had harmed these innocent girls!

Long Chen gritted his teeth as he continued to swing the God Slaying Sword. This time, he clenched his teeth and displayed his powerful and terrifying willpower, causing the sword to fall. In the blink of an eye, all of the black tentacles on his body were cut off, and the terrible pain made him feel as if he had lost countless of arms, causing Long Chen's face to turn the color of a pig's liver!

After it was chopped into pieces, the remaining broken roots on his body quickly slipped back, all the way until they disappeared, as if they had never appeared on Long Chen's body before.

Long Chen returned to his original appearance.

However, what had happened seemed to be beyond redemption.

It was just that today's incident would definitely deal them a huge blow in the future. At this moment, they all stood up in a daze, looking at Long Chen with eyes filled with despair and fear.

"Ugh ..."

Long Chen also looked at them in a daze.

It was only then that Long Chen realized that actually, after he had woken up, there were already many people in the sky. The Azure Fire Emperor, Heaven's Mandate Emperor, Heaven's Moon Emperor, Hundred Battles Emperor, and several hundred strong warriors had already arrived, and amongst them, almost half of them had personally witnessed Long Chen slash apart the strange things on his body.

It was those girls who hadn't died that had sent these people here.

This was an unimaginable scene.

They had seen everything.

That was more than twenty fresh young lives, yet at this moment, they had died in fear. And Long Chen, whose reputation had finally been reversed with great difficulty, did not expect that it would actually be something like this ...

The surroundings were deathly silent.

Chapter 2200 - Demonic Possession

The Azure Fire Emperor's pair of eyes that burned with green flames moved from the corpses of the girls to Long Chen.

No matter how much he hated Long Chen, he would never have imagined such a scene. He did not know about the changes in Long Qinglan's body, but he had personally seen the changes in Long Chen. Everyone had seen it with their own eyes.

"Do you still need to explain?"

The voice of the Bluefire had already reached the deepest level.

At the same time, the eyes of practically everyone were filled with wisps of blood, which was incomparably deep shock, and even loathing and hatred. The scene from before had indeed shaken the hearts of everyone, and now, it was as though they had finally unearthed Long Chen's true face, and their hearts could not help but tear Long Chen apart!

If this fellow wasn't a monster, how could he have levelled up so quickly?

If it wasn't a monster, how could he, a mere tribulation, defeat a Seven Star tribulation of reincarnation!

So Unparalleled Dragon was not the truth. This was the true truth!

Long Chen was such a terrifying demon, and his father, Long Qinglan, was once the eternal Dragon Emperor, but he was also such an evil demon!

This matter would definitely cause a true upheaval in the world!

As long as word got out, this matter would have a great influence. Long Qinglan and Long Chen's true identities finally surfaced. They weren't human after all, but rather a terrifying creature, a terrifying evil demon!

Today, they gritted their teeth and looked at Long Chen, as if they were looking at the Evil Demon!

In fact, several Overlord Emperors had already spread out in the surrounding area, completely sealing off Long Chen's escape route. As long as the real culprit arrived, they could make their move!

Shock, hatred!

More and more people came, and after hearing the words of the old man, more and more people knew what had happened, and they used the star talismans to spread out, so it could be estimated that in less than a quarter of an hour, it would spread across Dragon God Domain!

Facing such heavy oppression and internal criticism, Long Chen indeed had a feeling that he was about to collapse.

"I can't be scared!"

He took a deep breath and adjusted his state of mind, trying his best to stay awake as he tried to recall the events that had transpired.

"That must be the case. When I was attacked in the Sea of Time, the monster did something to me and said that it wanted to make me its kind. I thought that I had escaped, but to think that I was still hit by it. This monster has such a terrifying ability. I believe that the change that has happened to my father right now is related to him! "Black Yan Beast!"

Long Chen recalled that the name of this monster seemed to be Black Yan Beast.

Furthermore, the last time he entered that dried up well, Long Qinglan seemed to have told him the same thing, that he would become his own kind!

This was obviously the truth.

Of course, no one here could understand the truth. Not even the Bluefire Emperor. When they were already prepared to kill Long Chen, Long Chen activated the star talisman and contacted Dragon Emperor Yongye.

"Come to Blue Tide Palace, there's a very important matter."

Long Chen said.

In fact, the Azure Fire Emperor was unable to decide on the things here, so he had already informed the Eternal Night Dragon Emperor and the Immortal Dragon Emperor.

"Long Chen, kneel down first!"

This time, he was no longer polite. The green flames engulfed Long Chen and he only needed to give an order to completely burn him down. The blue flames were simply too scorching, and even though it only surrounded Long Chen, it still caused his dragon scales to crack and he was in extreme pain.

In the blink of an eye, two more balls of empty figures appeared in the sky.

At that instant, countless people from the Everlasting Dragon City knelt in midair and shouted in unison, "We greet the Immortal Dragon Emperor, Dragon Emperor Yongye!"

"Get up."

The Eternal Dragon Emperor's voice already contained a kind of anger that could endure, as though he would explode at any time.

Without saying a word, the Azure Fire Emperor used the power of time and time, and used the power related to time reversal. Of course, it was not as profound as Long Chen's "space-time reversal", and only displayed the previous scene using the method of time reversal.

Everyone raised their heads and looked up to the sky. In the clouds above, the terrifying appearance of Long Chen, who had just woken up and cut off the black tentacles, was clearly displayed before their eyes. When they saw this scene once again, the entire place was deathly silent.

The Green Fire Emperor took a deep breath and said respectfully to the two people: "Father, and Dragon Emperor Yongye, the truth is above all else. Back then, when Long Qinglan's cultivation was so fast, I had already suspected whether there was any kind of evil monster in this world, let's temporarily call them Evil Demons. They possess terrifying innate abilities and evil hearts. They were brought here by us, the human race, and they have brought us great calamities over and over again. And today, Long Chen, who has the same heaven-defying talent as Long Qinglan, has appeared. He has shocked us countless times, and has surpassed the limits of what a human can reach. I am also suspecting that, but today, the things that I have guessed have finally borne fruit, and the result is, this kind of evil demon, is a real existence! "

"Look, that octopus-like tentacle is evil, merciless, disgusting as a reptile. He can face the attacks of this weak young lady without any mercy, so evil, just like how Long Qinglan was back then. It's hard to imagine, if he really became strong, then it would be a calamity.

Basically, he told everyone what was on their minds.

The other hegemony of the Royal level also voiced their opinions. They had personally witnessed everything from the very beginning. Seeing is believing.

"Kill the Evil Demon! Let him never reincarnate! "

"Such a terrifying evil thing actually snuck into our human race. They are simply a nightmare. This time, they accidentally revealed themselves, so we must kill them quickly, or else we'll be done for." If he had other brethren, wouldn't we be in even worse shape? Absolutely do not show mercy! "

"If you show mercy, you will be annihilated!" Such an evil demon was even scarier than the devils of the devil star! This is a monster! "

The crowd burst into an uproar.

For a moment, it was as if everyone was thousands of kilometers away from Long Chen.

The gazes of hatred and resentment were even more exuberant than when he first came to the Dragon God Domain. This time's accident had completely destroyed all the reputation and image that he built up previously, this was definitely a thing that would cause people to collapse.

It was all because of that shameless monster!

But Long Chen was not one to easily admit defeat!

Everything would depend on the two Dragon Emperor's decision!

Long Chen immediately looked towards the two Dragon Emperors and used his primordial spirit to communicate directly with Dragon Emperor Yongye. He said urgently, "Dragon Emperor Yongye, I have already found out the reason why my father turned into such a state. It's just like the change I went through earlier, that he was harmed by someone. As long as they could find him, or even kill him, everything would be settled! As for my transformation, that day, he said that he wanted to change me into his own kind. I thought that I would escape, but I never thought that I would still fall for his tricks! "

He clearly stated the time in a short amount of time.

"A good story." The Immortal Dragon Emperor said with a cold expression. It could be seen that he was no different from the Bluefire Emperor. Deep down, he didn't like Long Chen. Now that something like this had happened, it was similarly difficult for him to believe in Long Chen.

"We'll talk about it when we get back!"

Eternal Night Dragon Emperor glanced at the Immortal Dragon Emperor angrily.

Previously, they had been chatting in secret.

Currently, Dragon Emperor Yongye said to the Bluefire Emperor and the others, "There are still many other doubtful points that you cannot come into contact with. I brought Long Chen to Weiyang Palace and will not let him out until the matter is resolved.

Hearing this news, the crowd didn't quite understand what was going on.

The Bluefire Emperor said in a daze, "Dragon Emperor Yongye, the matter has already become so clear. Shouldn't you kill him on the spot? Was he going to show mercy again? That is a calamity without end, who knows how strong this boy will become after a few days? "

The others started to shout as well.

This was the first time they dared to raise objections in front of Dragon Emperor Yongye.

"Shut up! Go back! "

Yong Ye was too lazy to explain anything to them, directly grabbed Long Chen, and carried him towards Weiyang Palace along with the fierce wind. The Immortal Dragon Emperor stayed for a while and followed after them, leaving everyone looking at each other in dismay.

The crowd's eyes were still filled with rage and hatred.

"This won't do. We absolutely cannot let him live. Otherwise, we'll be in trouble."

The Bluefire Emperor sighed: "Everyone, don't worry too much. I believe the three Dragon Emperor s will deal with it correctly. After all, they know far more than us. We've only taken a glance, and we may

not know enough. Of course, Long Chen and Long Qinglan are both evil monsters, that's for sure. In order for all human beings to clearly understand what kind of terrifying thing Long Chen is, everyone should quickly spread this matter to the world. I believe that not long from now, even the other Dragon Emperor will personally come, and when that time comes, it will be time to judge Long Chen together! "

"Bluefire's words make sense. Everyone, hurry up and spread them!"

For a time, the great events that had occurred in the Everlasting Dragon City had swept through the entire Dragon God Domain like a violent storm, passing down into the ears of countless practitioners, even affecting the Spirit Realm, Demon God Area, and chaotic star field!

This was only a short two hours.

Five Dragon Cities had received the news as well.

The word 'evil' caused the world to tremble. Countless people understood the truth and came to a realization. So this was the heaven defying truth of this father and son duo!

They were actually not human beings, but the terrifying creatures that had infiltrated the human realm!

On this day, the entire human race was discussing this matter. Of course, it was impossible for those people that Long Chen knew to not know about this. Including Li Xuanji, the Dragon Battling Clan of the Young Dragon Palace.
