

War God 2331

Chapter 2331 - Dark Side of the dragon sacrifice

In the eyes of an outsider, of the six colors of the enormous ball of light, only one was the brightest. The other colors had temporarily dimmed a little, which proved that Long Chen had already begun to contend against the first tribulation!

"God bless us! Destroy this monster of the human race!"

It was a cycle of reincarnation, and everyone experienced it. In this world, only those who died under the cycle of reincarnation were powerless, and even their loved ones would not be able to avenge them. Therefore, the Sea Clan members all hoped that the terrifying six tribulations would directly kill Long Chen.

Chen Xingyao was also among this group of people, but he was praying.

Now, to Long Chen, what he had to resist was the most genuine Immortal Divine Realm. This piece of land had condensed into a ball, then once again transformed into a huge cage.

No matter how huge Long Chen's body was, he was still small compared to the Immortal God Realm. The other party had turned into a big mouth.

Long Chen had a premonition that the six tribulations this time were more terrifying than the five elemental tribulations.

After the Immortal God Realm devoured Long Chen, it reformed into a ball, turned into a cage, sealed Long Chen within, and began to shrink!

If this continued, the Immortal God Realm would crush Long Chen to death!

Right now, Long Chen was like a prison, surrounded by the Immortal God Realm and all the powers above it. Countless rays of light flickered before Long Chen's eyes, crisscrossing and forming numerous scenes!

Heaven and Earth were cages.

This was Long Chen's first thought among the six trials that he had experienced.

Right now, the Immortal God Realm had truly turned into a cage and sealed him inside. It was like how Long Chen and the others could only stay in the Dragon Sacrifice Continent or the Immortal God Realm and could not leave this place for their entire lives. It was like they were trapped in a prison and it wasn't easy for them to cultivate.

Right now, the Immortal God Realm was even more obvious. It directly surrounded Long Chen and this was obviously another form of reincarnation tribulation.

"So that's how it is, so that's how it is!"

Long Chen saw this world even more clearly. That's right, the Immortal God Realm was more like a prison, and that Eighteen Major Tribulations was sweeping away too many creatures that were too strong or too many.

After ten million years, no one had been able to overcome all of the trials and tribulations. In the end, no one had been able to truly transcend the universe and become a Deity.

The sixth tribulation was one of them.

The first step.

No one had ever succeeded before, but that did not mean that Long Chen was incapable. He was still filled with the confidence and conviction of a god. How could he suppress the rampaging ancient trolls? How could he go to the Origin Dragon Palace to take a look?

The sixth tribulation was the first step in breaking through the pressure of Heaven and Earth!

"Immortal Divine Region! It was the Heavens! "But on this day, you want to imprison me?!"

Tearing apart the sky and splitting the earth!

He used the Primordial Blood Spirit Dragon's wrath to form the Myriad Death Claw!

This was his greatest rage, a kind of imprisonment, suppressed rage. He had inherited the will of the Primordial Blood Spirit Dragon, and deep down, he hated being restricted, suppressed, ruled, and the dragon had a reverse scale. To Long Chen, the world he loved was his reverse scale, and his freedom, his willpower, and even more so, was his enormous reverse scale!

The restriction and suppression of this divine retribution was destroying his will!

This was absolutely intolerable!

"If the heavens dare to stop me, I will tear the heavens apart!" I want to fall into my trap, I want to crack this land! If you don't break through the heavens and earth, how will you become a Deity?!"

The spirit refining fire surged through his entire body, increasing his strength to the greatest extent!

The Ten Thousand Deadly Claw was already prepared, all of his claws had a terrifying power of anger!

Like today's suppression, it was already within reach.

"Charge!"

For the sake of protecting people, for the sake of protecting the world, for the sake of dignity and for the sake of willpower, he had never thought of being cowardly and had never thought of stopping the battle. Fighting was a part of his life. It was his struggle, his unique quality. His battles were different from the others' fights.

The brave win in a narrow path.

Sometimes, the strength of one's will was even more soul-stirring than the strength of one's will. Under the influence of the Primordial Blood Dragon's will, Long Chen was now a monster with an iron will that would rather die than submit.

His faith was nourishing everything!

Carrying this angry power, he began to tear apart the sky formed by the Immortal God Realm. This was only the first trial, but how could a tribulation that was equivalent to Nine Palace Calamity be easy to deal with?

However, he still succeeded.

His claws stabbed deeply into Tian's body, penetrating his entire body with the power of fury. He gathered all of his willpower and strength into the dragon claw and furiously tore open a hole in the sky, allowing him to rush out!

The moment he came out, he had already escaped the control of the heavens.

The first tribulation was over!

Outside, everyone saw that one of the brightest colors had already disappeared, proving that Long Chen had passed through the first tribulation. This was not outside of their expectations. After all, even though this was a frightening event, it was still the first stage of tribulation. If he could not even overcome this, then he would no longer be Long Chen.

There were only five colors left.

What appeared below his feet today, was obviously an even bigger Dragon Sacrifice Continent.

It is the Earth.

The sky had been destroyed, and all that was left was the earth.

The ground holding up the sky was the foundation of the sky. The Dragon Sacrifice Continent was also the foundation of the Immortal God Realm.

The Dragon Sacrifice Continent was a dragon-shaped continent. It was incomparably huge, and had trillions of lives on it. It was a hundred times larger than the Immortal God Realm.

The Immortal God Realm was already several times larger than Long Chen, so there was no need to even mention the Dragon Sacrifice Continent.

In Long Chen's eyes, this vast earth turned into a brown colored giant dragon. That terrifying divine dragon rose up and soared in front of Long Chen's eyes. Compared to it, Long Chen was not even as big as its dragon claw!

This was an even more terrifying enemy!

Facing this Divine Dragon which was simply two hundred times bigger than him, Long Chen almost suffocated. With such a huge gap, how could he fight?

How could he tear this earth apart and escape from this cage?

After defeating Tian, he obtained six streams of power, which entered his body, stimulating him to become even more powerful than before.

"No matter what, I cannot lose!"

He was determined.

The earthen yellow dragon attacked!

Facing this huge beast, Long Chen was unable to take it head on. He could only use his intelligence and passion to fight against it, unable to imagine how powerful this beast truly was, if he were to fight it head on, he would probably be easily torn to pieces. If not for his vitality, he would already be dead.

The sixth tribulation of others would never be terrifying to such an extent.

How could it be so easy to become strong?

Others may have seen Long Chen's rapid growth, but who knew what he was currently facing?

However, he still did not give up!

Fighting, constantly fighting, adjusting his new thoughts, with his indomitable willpower and desire to survive, he was completely focused and did not relax one bit.

"One word, grind!"

Long Chen was practically attaching himself to his body, his dragon claws had deeply embedded into the opponent's body, and tightly grabbed onto them. Using the power of the Ten Thousand Death Claw to resist, he had even ripped open a wound and injected a million Blood Weeping Dragon souls into the opponent's body!

He could not win against the Dragon Sacrifice Continent in a head-on clash, so he could only waste time.

This battle had lasted for a full three days.

Three days later, he was completely exhausted, but his eyes were filled with faith and radiance because he had defeated the earth. He had truly torn the heaven and earth apart, escaping the control of this world for the first time.

He was even more powerful than before as he faced the third tribulation!

Asura!

A world of evil and death appeared in the starry sky, and an endless evil mist spread out.

Long Chen had already figured out the way, he quickly defeated the Asura World, and obtained a new power. The evil six power, meant that he had an even stronger attack power!

The hungry ghost said!

In this confrontation, Long Chen had even seen the Primordial Giant Demons, every single one of them reminding him a hundred times more powerful than the Demon Star. However, they were sealed in the Demon Star, with a total of dozens of them. Long Chen could see their heads appearing on the Demon Star's land, roaring at Long Chen!

The devil star that Long Chen destroyed, had gained the power of fourth stage and sixth stage!

Beast way!

This time, it was a confrontation with the beasts.

All the beasts formed a world, condensed into a single world, and started to fight against Long Chen. This was similarly extremely difficult, but the more difficult it was, the easier it was for Long Chen to grow. If he had to face the Asura at the start, Long Chen would very likely have lost.

And this time, he had won.

"The last color!"

There were still countless people surrounding them in the imperial city. They almost held their breaths as they waited for Long Chen's effort.

"Don't celebrate too early. The final tribulation is often the true fatal one!"

"The dark side of the entire Dragon Sacrifice World has gathered the power of heaven and earth, beasts, asura and devils. A world that is the complete opposite but possesses everything is the scariest part of the six tribulations!"

"Right now, I can see that he is at the end of his road. The final calamity will definitely take his life. Let's just watch and see." Haha. The genius of the human race had died in the Six Paths tribulation? Is he even a genius? "

Even though they had said that, they couldn't help but admire Long Chen's tribulation from the bottom of their hearts because Long Chen's six tribulations were simply too terrifying.

It was a terror beyond common sense.

And in Long Chen's world, he was already waiting for his final calamity.

"Rumor has it that the dark side of the Dragon Sacrifice World is basically the sum of the previous five calamities?"

Long Chen could not help but shiver. Whether he lived or died, it all depended on this time.

In front of his eyes, everything was taking shape.

The gray sky, the gray, everlasting Divine Realm.

Gray ground, grey Dragon Sacrifice Continent.

The grey Asura Evil World, the grey devil planet, and the grey beast world!

Everything happened at the same time!

For a time, the sky spun and the earth spun!

The heaven and the earth became one, becoming an even larger divine dragon. As for Asura, Demon Star, and the beast world, they evolved into green fangs, ancient Giant Demons, and a giant beast that rushed over!

Chapter 2332 - Harmonization of the Six Paths

The final portion of the sixth tribulation!

It was almost as if the five in front had joined together to form the back of the Dragon Sacrifice Continent!

With the divine dragon at its head, the divine dragon, the enormous beast, the Primordial Giant Demon and the Asura completely surrounded Long Chen.

Among the six paths, Long Chen had mastered five of them. Compared to before, he had almost formed the power of six paths of reincarnation, with one leg having stepped into this realm. Thus, his fighting strength was much stronger than before.

Therefore, when facing such a terrifying calamity in time, his brows didn't even furrow. This was the power of his faith and will.

Right now, there was only one color surrounding him, but it had vaguely split into six, and it had grown in size like never before.

Everyone held their breaths as they watched Long Chen go to face this final hurdle.

There were only a few people who were truly worried. Most of them wished that the monster, the human, could die under the tribulation of reincarnation!

But Long Chen just did not want them to have their wish!

The six paths, were the entire Dragon Sacrifice World.

He was fighting against the entire world! Resisting Suppression, Resisting Fate. The Primordial Blood Spirit Dragon was an Ancestral Dragon born to go against the will, and it was also the Ancestral Dragon that had the greatest impact on Long Chen!

But now, facing these six worlds, his inner heart had become even more excited, and he had an irresistible urge to resist!

The three great Ancestral Dragons' sacred arts were being fully unleashed by Long Chen!

He used the body of an Archaic Blood Spirit Dragon to travel between the four giant beasts. The Flame of Life, Myriad Death Claw, and Space-Time Reversal were constantly being used. Even other divine abilities could display great effects!

For example, Blood Spirit Spikes, Sobbing Blood Dragon Soul, Tempest of Time and Fourteenth Sacrifice!

The more Long Chen fought, the more brave he became. In the beginning, it was indeed very difficult for him to resist, but the further he fought, the more he would be able to handle it.

Long Chen had the experience of killing these four beasts. As long as he was not surrounded, it would not be difficult for him to use his stronger strength to fight against the single target!

For example, this time, Long Chen found the weakest opponent, the Asura. This was a calamity that appeared after the appearance of the Immortal God Realm and Dragon Sacrifice Continent, third from the bottom. Long Chen watched him closely, using his fire of life and space-time reversal to block the other attacks, helping him recover, but he used all of his skills, one move at a time, pushing the opponent to his death!

Finally, he succeeded!

One of the four huge beasts had died!

When Long Chen broke through the enemy's encirclement, he found his second target, the Illusionary Giant Demon that was evolved from a Demon Star. This was a terrifying creature shrouded in black fog, its entire body was bent and sturdy, it had sharp claws, pitch-black scales, a pair of blade-like black bat wings, a pair of sharp spiral horns on its head, and a tail that was as sharp as a spear.

This was an ancient Giant Demon!

Presumably, that 'Xiu' and 'Qu' were similar to this.

"Attack!"

Long Chen was fearless, once he found his target, he would go up without a trace of politeness.

Every time he killed an opponent, he could almost devour them and turn them into a part of his power. After defeating the first Asura, his combat strength had risen to another level!

As long as he could withstand the attack, victory was just around the corner.

Dignity, hot-bloodedness and glory made Long Chen brave and fearless. He didn't stop until he was dead as he clashed with the mysterious Ancient Giant Demon again and again. The other party had the strongest physical strength, even catching up to Long Chen.

However, compared to the Primordial Blood Dragon, it was still slightly inferior.

In the end, under the attack of the three-headed beast, Long Chen was drenched in blood and relied entirely on his Fire of Life to keep him alive. If not for the Fire of Life, he would have probably died a few times already.

However, in his battle, the ancient Giant Demon was once again torn apart, turning into ashes and disappearing from this world.

Only two opponents remained!

The fusion of ten thousand beasts, as well as the fusion of the Immortal God Realm and Dragon Sacrifice Continent!

And now, Long Chen had become even stronger, and also became more at ease. He roared as he charged forward, and in an instant, Eternal and Myriad Death Claw had completely merged with the ten thousand beasts. In the end, the only ones left in the boundless starry sky were Long Chen and the gigantic grey divine dragon!

This was the final battle. If he won, Long Chen would have won six trials, and successfully charged to six tribulation of reincarnation!

The hope of fighting against a Nine Palace Calamity practitioner with powerful strength had appeared before his eyes just like that!

The battle had reached its end.

It was even more impossible for him to give up.

It was just as he had said at the beginning. If the heavens stopped him, he would tear apart the heavens. If the earth sank into him, he would tear apart the earth.

Now that the heaven and earth had merged into one, he was still fearless. He only wanted to tear apart his opponent!

Passion, song!

Facing this huge beast again, Long Chen obviously did not fight it head on. When fighting against this huge beast, there was only one way, and that was to wear it down, otherwise, it would be impossible to kill him in a short period of time!

Time gradually passed and there was only one color left. The people outside held their breath, waiting for the change to occur. However, even after a few days, there was still no sign of movement!

In other words, this final battle was just too intense, causing the two divine dragons to be unable to determine victory or defeat for a long time. Currently, there were only three days left until the Ocean Sacrifice ceremony, and most people were already unable to wait any longer.

In reality, they had already reached the final stage.

Long Chen succeeded.

After spending a few days worth of time, he finally completed his mission and completely tore apart his opponent. In that instant, a huge amount of energy surged towards Long Chen, and at the same time, everything around him started to disappear.

What everyone saw was that the final color of the light could actually be swallowed by Long Chen. Without holding back, he entered his body.

That was the last of the six forces.

At the start, there were six types of light, all six types of power. After Long Chen defeated all the calamities, he also obtained all of the power.

"It's a success!"

When the six streams of power filled his body, he naturally knew that his current strength had increased by yet another level. It was a transformation.

Starting from the sixth tribulation, almost every tribulation was a transformation!

The six streams of power formed a perfect cycle within his body. It was as if they had formed a new skeleton of a world. They constantly circulated, just like the rivers flowing in a vast ocean. Even though the human spirit race's bodies were small, in reality, they hid an infinite amount of power!

When he fought, breaking mountains, splitting seas, tearing space, and so forth were all easy tasks.

Now, he had grown even stronger.

Everyone could clearly see his power. At this moment, there were already many people who compared him with Liu Ji.

Liu Ji was from his father's generation. Other than Long Qinglan, she was the strongest geniuses in the entire Immortal God Realm, the most outstanding geniuses of the Sea Clan in the past ten thousand years. She was also one of the newly advanced super experts. He was extremely famous in the entire Immortal God Realm.

Although Long Chen had risen swiftly, he was actually not at a disadvantage when compared to this kind of peak. This already made everyone speechless, this was something that only a freak would be able to do.

Currently, after he had passed through the sixth tribulation, all of the Sea race within Hanhai Imperial City were staring at him. The surging power within him was gradually retracted, returning to its previous state.

Looking at these shocked Sea Clan members, Long Chen felt like he had been reborn from the calamity.

There was too much awe, envy, and disbelief in the eyes of the Sea Tribes. They had only heard of the legends of Long Chen, but today they were personally witnessing his rapid growth and growth. Perhaps, when he was born, Liu Ji had already passed through Nine Palace Calamity long ago.

She had been improving slowly these past few years, but Long Chen had caught up to her from the furthest distance with the speed of a rocket.

Even using miracles, it was impossible to describe this young man's heaven defying abilities.

This silence lasted for a long time, then Long Chen said: "Everyone, how long are you planning to watch this show for? I have already successfully transcended the tribulation.

Everyone looked at each other and consciously took a few steps back. They had all been oppressed by Long Chen's current atmosphere.

However, very quickly, a portion of the experts remembered that they were chasing after the person who touched the Causality Saint Stone previously, and the person they suspected was Long Chen. Although he had passed through six trials, he should still be able to get rid of this relationship.

He was the one who was beaten half to death by Long Chen in the Hanhai Divine Palace, and at the same time, the giant crab sea beast that had appeared in the forbidden region earlier.

"Long Chen, you were the one who barged into the forbidden region earlier and touched our Causative Holy Stone! You keep on saying that you want to ally with the Sea Clan, but your true goal is the Causality Holy Stone? "

He was using a questioning tone to target Long Chen.

He had exchanged blows with the people who had entered the forbidden area before. He was certain that the only people who could force him back like that were the six Ocean Emperor, Liu Ji, Long Chen and the others. Of course he wouldn't doubt his own people!

For a moment, everyone stared at Long Chen, waiting for him to give a reasonable explanation.

If it were not for the six tribulations, Long Chen would not be able to explain himself. At this moment, he was very calm, and said: "Brother, what are you talking about? Forbidden region? Causality Sacred Stone? What are these? When did I break into that forbidden area? Can I trouble you to explain yourself? That's why I decided to cultivate in seclusion. I only managed to break through today, but did not expect you to use this kind of unwarranted crime to frame me. What exactly is your meaning? "

Even if the other party were to be suspicious of such matters, he would have to go all out to deny it.

"You still dare to argue with me? I fought with that person before, and he was as strong as you, so he was able to get rid of me in an instant. Right now, in the entire Sea race, the only person who can sneak in is you!"

The big fellow with purple eyes said angrily.

Chapter 2333 - Discipline

"Don't spout nonsense without evidence. I am not a person without a temper. The reason why I came to the Sea Clan was to form an alliance, but it seems that the Sea Clan did not intend to do so. Since that's the case, it seems that there's no point for me to stay here. Six Ocean Emperor, thank you for allowing me to succeed in raising my cultivation in this precious land of the Sea Clan, but, as the saying goes, Dao is not based on plan, if the Sea Clan has such malicious intents towards me, there is no meaning for me to stay here. "

Although they suspected, they did not have any evidence. What Long Chen said made sense, who would dare to run around and fight with people before the apocalypse, wasn't that just looking for death on purpose?

Without evidence, there was no way to convince the world.

If Long Chen left now, the result would be the Sea Clan being mocked once again by the people of the world due to their cowardice, suspicion, and fear. This was a matter of face, and with only three days left, the Ocean Sacrifice Ceremony would be held, and Long Chen would be able to safely leave, which the six great ocean emperors obviously wouldn't force him to do at this time.

Therefore, Xlao Yao said with a smile: "Little Brother Long Chen, please wait. Please listen to me."

Long Chen turned around and said with a smile: "Please speak your mind, Emperor Xi Yao."

Emperor Xi Yao laughed: "The Three Lives Holy Stone is just like the Black Jade Dragon's head of your human race, it cannot be destroyed, moved, or understood. To us Sea Clan, it is more of a symbol, just like the position of the Black Jade Dragon Head in your clan. Of course, you all don't want the outsiders to sully it. Of course, you all aren't afraid that it will be stolen, and us Sea Clan members certainly do the same. Therefore, whoever touched the Saint Stone of Karma would not be a big deal. From now on, we will not delve any further into this matter. Furthermore, I have personally witnessed Your Excellency's reincarnation tribulation. So I believe even more that you are preparing for your tribulation. That's why I am representing my clansmen in their sincere apologies for their doubts and questions towards you. I hope that you can forgive them. "

To say these words with the status of Emperor Xi Yao, would definitely give Long Chen a lot of face.

Of course he didn't want to leave, all he was waiting for was the words of Empress Xi Yao. Now that he had a way out, he immediately stomped down, and said: "I don't dare, I don't dare. I was just agitated a moment ago, my words were a little too excessive, I hope that Emperor Xi Yao can forgive me. "

In this way, everyone was overjoyed.

Long Chen was clear in his heart that the six great Ocean Emperors were certain that the person in question was still him, so they would continue to stare at Long Chen even more closely, preventing him from approaching the Causative Holy Stone. But at least Long Chen had a chance, especially now that his strength had increased again, he had more power.

At this time, the six great Ocean Emperors had already given the order for the Sea Race to disperse. At this moment, the peerless beauty Liu Ji, who had been silent all this time, suddenly waved her hand and said, "Wait, there's one more thing that needs to be resolved."

Everyone halted their steps in confusion. What was the Seventh Emperor trying to say?

Liu Ji did not look at Long Chen, as if she was targeting him. She continued, "In the past few days, has anyone seen Gao Yang, who was guarding the forbidden area?"

Hundreds of thousands of people looked at each other in dismay. Only a demigod would be able to reach the level of Gao Yang. However, most of the people were shaking their heads, indicating that they had never seen it before.

"The last time I saw him was around ten days ago."

Combined with what everyone said, Liu Ji said, "It looks like Gao Pi went missing, or maybe he was killed. And it was while I was still guarding the forbidden region. "

Hearing this news, the people of the Sea Clan were naturally furious.

"What? Killed?"

"This is a powerhouse with the body of a demigod, an existence equivalent to a demigod! Who can kill him!?" Who dares to kill such an important figure of our Sea Clan here! "

For a moment, everyone still cast their suspicious gazes at Long Chen. This was something that happened after Long Chen arrived, so they couldn't help but be suspicious.

Liu Ji sneered, and said: "Everyone, this matter should have nothing to do with Long Chen, don't doubt him. However, I do have some clues. "

Divine Emperor Hai said with a sinister look in his eyes, "Just say it directly."

With his permission, Liu Ji smiled at his husband, Chen Xingyao. Then, with an expressionless face, he said, "I had to put in a great deal of effort in order to reveal this clue. My compatriots who are guarding the forbidden area should know that a few days ago, Chen Xingyao entered the forbidden area once. He didn't have the right to enter the forbidden area himself, but he claimed that I was the one who let him into the Sea Ming Pavilion to take the things away. The deceived guard, whom I eventually discovered, was driven out of the forbidden area by me. The problem was that from that day on, Gao Pi seemed to have mysteriously disappeared. "Although Chen Xingyao is my husband, this is a very important matter, so I must ask you. Do you know if you were the one who killed Gao Po?"

In the end, her gaze shifted to Chen Xingyao.

In the beginning, she had indeed thought that Chen Xingyao was only there to look at the Three Lives Divine Stone.

But considering what had happened today, she had already guessed the truth. Chen Xingyao obviously did not have the ability to kill Gao Yang without making any sound. Only Long Chen could do that, so at that time, Long Chen must have been hiding in his Divine Kingdom!

She never thought that Chen Xingyao would be so bold as to stand by Long Chen's side and help him. All along, Liu Ji believed that the other party had something on her, which was why she was loyal to him. However, she didn't expect that Chen Xingyao would actually dare to betray her!

Therefore, she was extremely angry in her heart!

Now, she only wanted to threaten and suppress Chen Xingyao so that he could personally bring out Long Chen. With the evidence, even if the six great Ocean Emperors captured Long Chen right now, the Dragon God Domain and the rest of the world would have nothing to say!

All the pressure was on Chen Xingyao.

Seeing Liu Ji's vicious gaze, Chen Xingyao knew what she wanted him to do.

Long Chen was someone who could completely release him, so of course he wouldn't sell Long Chen out.

From their point of view, Chen Xingyao and Liu Ji should be in love with each other, but this time, Liu Ji standing up against Chen Xingyao was obviously a act of exterminating a marriage. It was very touching for a moment, and there were a lot of people in the Sea Clan who disliked Chen Xingyao as well.

"Chen Xingyao, quickly tell me, what is your goal in entering the forbidden area? Did you kill Gao Po?"

"Even if you didn't kill him, it's still related to you. If you don't clarify it today, don't even think about leaving this place!"

For a moment, countless fiery gazes stared at Chen Xingyao.

However, Chen Xingyao was someone who had gone through a lot and was not scared. He said indifferently, "Liu Ji, I told you before. I have heard many rumors about the Three Lives God Stone, and I have an endless amount of respect and admiration for it. I sneaked in that day just to give blessings for us in front of the Three Lives God Stone, and I wish that we can live forever together. I am so sincere, why do you suspect me so much? "

At the very least, in the eyes of outsiders, they were still husband and wife.

"Bullshit, do you think that you can escape our suspicion just by saying that? "Chen Xingyao, you better be sensible. Otherwise, no matter what you ask of me in the future, I will not agree to it. When the time comes, it will be too late for you to regret it!"

Liu Ji did not want to force Chen Xingyao, nor did she want to disrupt their trade. Her goal was obvious, she only wanted Chen Xing to point at Long Chen, she believed that although Chen Xing Yao was willing to help Long Chen, it was only a kind of clan's pride. In front of his lover's life, he should not be able to withstand a single blow!

She believed that for the sake of her lover, Chen Xingyao would definitely give up. There was no need for him to risk his life just for the sake of an outsider.

Under her urging, Chen Xingyao remained indifferent.

Liu Ji never thought that Long Chen had already completely cured his woman. The only reason he was still in Hanhai Imperial City was because he wanted to help Long Chen.

At this time, Chen Xingyao added, "I'll say it again, that time you entered the forbidden area just to pray for your blessings. Even though I have joined up with you as a member of the Sea Clan, I do not have an equal status with you. I just want to experience the Threelives Divine Stone, a symbol of love.

His insistence had exceeded Liu Ji's expectations.

Liu Ji originally thought that victory was within her grasp.

This immediately sent her into a rage. In an instant, the nearly 900 patterns of the snake bone whip appeared in her hand. Under Liu Ji's control, the long black whip directly lashed out towards Chen Xingyao!

No one expected Liu Ji to be so hot-tempered that she would actually attack her own husband. At this moment, everyone was busy trying to dodge, afraid that they would be affected by Liu Ji's anger.

Of course, for someone like Chen Xingyao, even if he was beaten half to death, he would still not follow Liu Ji's last wish and reveal a single word to Long Chen.

This man who dared to take responsibility for his actions, caused Long Chen to respect him from the bottom of his heart.

Of course, Long Chen would not let Chen Xingyao get injured at this moment, when the long whip was whipping Chen Xingyao, a figure instantly appeared in front of him. With the swing of the grey sword in his hand, he directly sent the whip flying, causing Liu Ji to take a step back!

Everyone then realized, the one who had attacked was Long Chen!

To be able to block his opponent's attack so easily, it was enough to prove that he was much stronger than last time.

Even Liu Ji herself felt like she was meeting an opponent evenly.

Her face darkened, and said coldly: "Long Chen, what do you mean by this, admit that you're the one who killed Gao Pingping?"

Long Chen laughed involuntarily, and said: "Are you joking? I just think that your wife is too ferocious, and that I want to help Chen Xingyao discipline her a little. No matter what, if a woman were to beat up a man of her own clan in public, it would be outrageous. Furthermore, I believe that Chen Xingyao went in to pray for blessings. He treated you sincerely, yet you doubted him.

Chapter 2334 - Challenges

Discipline.

It was likely that the six Ocean Emperors would not dare to say such a thing to Liu Ji.

This woman was highly toxic. No one in the entire Sea God's Domain dared to offend her.

And now, Long Chen's words had scared almost all of the Sea Clan's clansmen stiff. As expected of the son of the Eternal Dragon Emperor, his guts were truly heaven-defying.

Of course, because Chen Xingyao refused to admit it, no one knew who did it. Among the Seafolk, death was a very common thing, even Gao Yang. Maybe the Ocean Emperor had a sudden interest and directly ate Gao Yang for a high quality crystal.

In history, countless similar things had happened.

On the other hand, it was Long Chen and Chen Xingyao who had killed Gao Pingzhi that made people unable to guess their motive. After all, human beings could not digest the blue crystal. Aquamarine was of no use to them.

They were more interested in the fight between Long Chen and Liu Ji.

"The good show is about to begin!"

At this time, not even the six great ocean emperors dared to stop him.

They knew that Liu Ji had once attacked Long Chen. That time, Long Chen seemed to have been forced back, but he was not injured. This time, the young man seemed to be very close to Liu Ji. Liu Ji was a mountain that lay across his path. Would he be able to break this mountain?

If they could, it would be too terrifying.

Hearing Long Chen's words, Liu Ji's eyes filled with black mist. She actually started laughing sinisterly, destroying her Sea Clan's number one beauty's sense of beauty.

She used her enchanting voice and said, "It seems that your human friend here is here to find an excuse to challenge me, Liu Ji, and my Sea race because his cultivation has improved?"

Long Chen said: "Challenge the Sea Clan? You can't say that. Although Chen Xingyao is your husband, he is, after all, covered in the blood of our people, and his love for him is deep. I have formed a deep friendship with him these past few days, so I naturally cannot allow him to be humiliated in front of his wife. That's why I bravely stood in front of him. However, I definitely did not challenge you nor had the intention to challenge the Sea Clan. I hope that Master Liu Ji can give me some face, and I think that Chen Xingyao can swear to god that he didn't kill Gao Yang, right? "

If Long Chen did not make a move, under Liu Ji's rage, he would probably make Chen Xingyao into a miserable state. Of course, Long Chen could not tolerate his own friend being humiliated.

He understood that if he lost this chance, he could only wait until his cultivation was stronger than the six great Ocean Emperors. Then, he would barge in and snatch them away. The most important thing was that no one he cared about would be alright.

Chen Xingyao took over and said, "I swear, I definitely didn't kill Gao Pingping, or else I'll be struck by lightning and die a horrible death."

It was Long Chen who killed Gao Yang, so swearing like that didn't affect him at all.

Liu Ji, who had already guessed the truth, was so angry that she almost died.

She knew very well that it was like that, but she didn't have the evidence to drag Long Chen out, and it was even harder to identify him. In all these years, she had never met someone who was so difficult to deal with.

She bit her lower red lip and suddenly said: "Alright, then this matter will be over. However, since you, Long Chen, do not wish to challenge me, then I, Liu Ji, would like to challenge you. It is already a myth, but we Sea Clan have never personally witnessed it. I wonder if you would agree to fight with me and win the trust of my Sea Clan? "

This was her revenge!

No matter what, she had to vent her anger today.

She really didn't expect that someone who was practically a child to her would be able to play around with her.

When those words were said, the Sea race immediately boiled up.

No one expected such a battle.

On one side was the former number one genius of the Sea Clan, the new Seventh Emperor.

She was a legend of the Sea Clan! Natural queen!

Long Chen, on the other hand, was the recently risen star. When his peers were still just swaying little stars, he was already like a blazing sun, shining brilliantly and brilliantly, covering the radiance of millions of people! It even covered up the brilliance of countless of his seniors, and directly pressured the fifteen Dragon Emperors of his clan!

In the clash between the Empress of the Sea Clan and a heaven-defying genius of the human race, who would have the upper hand?

Everyone looked at Long Chen with anticipation, waiting for his response under this provocation. The glory of the Sea Clan gathered in their hearts at this moment, bursting out with endless desire and passion. They wanted to see the victory of the Sea Clan, and wanted to break the legend of Long Chen!

In their eyes, Long Chen and Liu Ji were on the same level as him.

Under the anticipation of tens of thousands of people, Long Chen took his time. He wanted to kill them all, but he was also filled with anticipation for this battle. He wanted to avenge that whip of his, and at the same time, he wanted to test himself. Right now, he wasn't too far from becoming a Deity. Liu Ji was a chasm that he had to cross!

As long as he crossed this chasm, he would be able to achieve an even greater glory!

Bravehearts are invincible!

He made a living by fighting. Fighting was his belief and was the driving force behind his progress. He was born to fight, so why would he reject an important battle?

"Of course I do."

Long Chen said this in front of everyone.

In terms of certainty, he actually wasn't. Liu Ji was a veteran and had countless treasures on her body. She was someone who was blessed by the heavens. The most important thing was that she was the Queen of Poison, the person most proficient in the use of poison in the entire Dragon Sacrifice World. There were countless dangers of death on her body, and if Long Chen didn't have the flame of his life, he wouldn't even dare to fight her.

However, fighting was not something that could be considered a battle at all.

This was the first time he fought against a practitioner with Nine Palace Calamity or higher.

At the level of the Dragon Emperor, the fifteen Dragon Emperor s were only at the late stage of Nine Palace Calamity.

"Long Chen!"

Chen Xingyao did not expect that because of him, Long Chen would have no choice but to fight in this battle.

"Don't worry." I've longed for this moment for a long time. "

Long Chen whispered by his side.

That's right, it was a desire. This was what made him different from others. Deep down in his bones, he yearned for battle. This was his way of extending his life and willpower. The battlefield was the place where he would experience pleasure.

He was someone who wanted to become a god in battle!

Chen Xingyao could only silently retreat!

"Move somewhere else!"

Liu Ji's voice was cold and sinister. Beneath her long black skirt was her alluring and alluring body, which had endless reveries. Her dress was fluttering in the wind as she brought Long Chen out of Hanhai Imperial City and out of the city.

This was a battle that was enough to destroy the imperial city of Hanhai.

Everyone stopped at Hanhai Imperial City and gazed at them.

The six great Ocean Emperors had not said anything from the beginning till the end, but from their expressions, it could be seen that they were also anticipating this clash. They needed to find the Sea Clan's confidence in Liu Ji. It was unsuitable for them, the six great Ocean Emperors, to break the legend of Long Chen.

If Liu Ji lost, then she would be Long Chen's stepping stone, and the legend of Long Chen would be even more shocking to the world.

If she won, she could temporarily stop Long Chen's legend, and find confidence for the Sea Clan, and for the whole world. Of course, the only exception was humans.

Right now, Long Chen was the pride and pride of the entire human race.

In the vast ocean, Long Chen and this generation of beauties confronted each other.

Right now, the six hundred thousand Seafolk could practically hear their breathing. Everyone held their breath, waiting for one of them to explode, waiting for the next wave to be torn apart!

Ding!

A crisp sound rang out.

Long Chen held onto the Heaven Smiting Sword, the gray sword that was filled with killing intent rippled out an endless amount of Sword Qi in the water, enveloping an area of more than a thousand li.

Compared to his opponent's snake bone whip, the God-Slaying Sword was more than a hundred lines short.

The name of the snake bone whip was 'Poison Sacrifice'. Every clan had a 'Poison Sacrifice', but the difference was in the strength. Liu Ji's Poison Sacrifice came from her mother, created from her mother's flesh, strength and bones before she died. She had gathered all of her Nine Palace Calamity and was also forged with many heavenly treasures to form such a divine weapon. The forging of the Poison Sacrifice was a world-famous technique of the Magic Blue Race.

Of course, the Poison Sacrifice would only be of true use in the hands of the Magic Blue Race.

If someone else used it, the power of that person would drop by at least two hundred runes.

Kcha! *

Liu Ji waved the Poison Sacrifice and the bones on it began to emit kacha kacha sounds. Countless sharp and tiny barbs began to extend outwards!

"Receive this."

Liu Ji did not hesitate and directly attacked.

In that moment, the Poison Sacrifice conjured countless demonic phantoms that blotted out the sky and covered the earth, as though countless black long snake were attacking straight at Long Chen!

A Dao Artifact with nearly 900 Dao patterns activated. All of the seawater nearby the imperial city of Hanhai was blasted away. Space tore apart, the earth trembled, and everything within 100 miles was instantly reduced to ash!

Long Chen's entire person was in this torn apart world.

"How savage!"

He sneered. At this moment, his entire body was covered in dragon scales, turning him into a blood-red killing machine.

The God-Slaying Sword released a dazzling light of death!

"This Dao Projector actually has 700 dao runes. As long as it is in her hands, it will increase that many dao runes!" "Haha, this is delicious food, my little darling, quickly put it in my mouth!"

Amongst the God Slaying Sword, the eyes of the small skeleton were incomparably bright!

"Aiya! My teeth! "

Just as the God Slaying Sword clashed with the other party, the small skeleton cried out. Regardless of the original body of the Poison Sacrifice, it was now a Dao Artifact close to 900 Dao patterns!

With a single touch, the bottom of the sea tore open a massive trench that spanned dozens of miles!

A large amount of seawater was poured into it, creating a massive whirlpool. Even more seawater was annihilated!

"It's my turn!"

Long Chen was too lazy to bother about the teeth of the small skeleton. What he was curious about was, for his current level, how many swords could he use the Killing Sword Technique to?

Chapter 2335 - Poison Sacrifice

He had already used five thousand swords.

The Killing Sword Technique had a total of 10,000 swords.

On one hand, it was related to Long Chen's own strength, and on the other hand, it was also related to the number of Dao patterns on the God Slaying Sword. Basically, it was maintaining a trend of going up together.

Based on this estimation, it should be when Long Chen's strength surpassed the level of the Dragon Emperor s and the God Slaying Sword would have to reach the level of the Great Zu Dragon Sword, he would be able to unleash the most complete Killing Sword Technique.

From this, it could be seen that the God-Slaying Sword and the Killing Sword Technique both had the potential to become the most top-notch and supreme sword arts beneath the realm of gods.

When the God Slaying Sword reached more than seven hundred lines, and Long Chen himself possessed a battle strength comparable to Nine Palace Calamity, the Killing Sword Technique's usage became one of the top sword dao.

When Liu Ji brandished the 'Poison Sacrifice' long whip, Long Chen immediately began to charge forward, the God Slaying Sword in his hand flowed like the clouds and water, he began to fight, the Killing Sword Technique had ten thousand swords, in a short period of time, he would need to release over ten thousand swords, and each sword was stronger than the last, then what he needed was extreme speed!

Fast, ruthless, accurate!

This was the true meaning of the Killing Sword Technique.

The current Long Chen, just agreed with these three standards.

The God Slaying Sword erupted into rays of sword light in his hand like an unending wave of the ocean. Wave after wave of sword light surged towards the enemy. Each wave was more powerful and vast than the last! The sword glows were precise and ruthless. Every single time, they would rush towards the weakest part of Liu Ji's body!

For a moment, it was as if the entire ocean had been cut into countless pieces by Long Chen!

His entire field of vision was drowned by Long Chen's countless killing sword aura. The sword aura had formed an ocean, replacing the sea water from before, completely trapping Liu Ji within. Using the sword as the sea, it could be seen that Long Chen's attainments in the way of the sword, were truly extraordinary!

"Three Thousand Swords!"

From the first clash of swords to the three thousand swords, only a few seconds had passed.

Compared to the impact that the Sea Divine Emperor gave her, it was even fiercer. Of course, it was the two forms of attack.

Weng! *

She did not know how many times she had used her Poison Sacrifice to block the attacks. When her opponent had started using the Killing Sword Technique, she had almost retreated. No matter how strong she was and how powerful she was, she could not withstand the countless of sword beams!

The Sword Sea moved!

The four elements of darkness: Death, Devour, Corrosion, and so on. Tens of thousands of sword gleams enveloped Liu Ji!

At this moment, everyone saw a terrifying Long Chen, the real Long Chen. This was a myth.

Shoo! Shoo! Shoo!

Countless sword lights were sharp, piercing straight towards Liu Ji from the dead end, like a rain of arrows filling the sky. Sometimes, many sword lights would coordinate with each other, causing Liu Ji to be in a sorry state!

"Four Thousand Swords!"

In the blink of an eye, Long Chen, who had gone crazy for the sake of fighting, had already arrived at the fourth thousand sword strike!

This kind of release made his heart feel extremely carefree. Fighting was his life, and now it was even harder for him to stop. Right now, it was very difficult for him to meet an opponent like Liu Ji, who was very pleased with himself.

's two hands held the Heaven Slayer Sword, opening and closing with all his might, one sword that pierced through the clouds, he directly slashed down, directly ripping apart most of the Sword Qi he had before!

In the blink of an eye, that sword had already reached the top of Liu Ji's head.

In an instant, she released countless amounts of black Qi, which formed into a huge snake that heavily coiled around her. Right now, she was surrounded by terrifying poisons, so if a normal person were to come in contact with them, they would definitely die. Therefore, the people from Hanhai Imperial City could not help but retreat when they saw Liu Ji flying into a rage!

But Long Chen protected himself with his fire of life and continued to attack!

Liu Ji did not expect the other party to be so bold, but she was still prepared for it. The Poison Sacrifice suddenly transformed into a spear and became extremely tough, causing Liu Ji to pierce through the sharpest part of the weapon towards Long Chen.

Clang!

This time, the clash triggered a huge wave of commotion. The imperial city of Hanhai shook with a loud rumble as a large number of buildings were sent flying by the rolling waves of seawater and air. If not for the suppression by the six great Ocean Emperors, the entire Hanhai Royal City would have been overturned.

The sea rumbled, and everyone stared wide-eyed.

"I never thought that this Long Chen would be so powerful."

"An expert with the body of a demigod is able to fight with Lady Liu Ji and cause such a commotion?"

Many of the practitioners with the body of a demigod were trembling in their hearts. They remembered that when Long Chen first came to the Sea God Realm, he wasn't as powerful as the ones before him.

If Long Chen even defeated Liu Ji, no one would be able to imagine what it would mean! Perhaps, this meant that Long Chen would be able to quickly catch up to his father. The entire Immortal God Region once again allowed the ruler of the human race, and before a thousand years, he would suppress all the heroes of the realm, becoming the first in history!

The second Everlasting Dragon Emperor!

Moreover, Long Chen's personality was different from Long Qinglan. He was a person that was harder to deal with.

This battle had once again witnessed Long Chen's legend. Even the Spirit Race, Spirit Race, and Witch Race could only tremble upon hearing this news.

Compared to Long Chen, all the geniuses in the world were trash.

At this moment, Liu Ji also had the same illusion.

But she did not believe it.

The battle was still far from over. Why did she have to lose her confidence so quickly?

"I cannot be defeated, or else I will be utterly humiliated by the Seafolk!" Liu Ji was constantly warning herself in her heart. She glanced at Sea Divine Emperor and saw that his face was solemn, no one knew what he was thinking.

She knew that he must be feeling conflicted as well. He was facing such a huge problem. Even the number one of the Sea Clan was at a loss for what to do.

"Kill!!!"

She began to resist with all her might!

To be honest, before Long Chen took the form of a dragon, she had not revealed his true form. She was the pride of the Sea Clan, and was Long Chen's senior.

For face, she continued to persevere, and of course she would not be defeated so easily. From the beginning to the end, it was her who was suppressed by Long Chen's Slaying Sword Technique, and did not have the chance to retaliate.

"As long as I can withstand his sword move, it will be my chance to counterattack!"

Liu Ji was very clear about this.

Long Chen's Killing Sword Technique was continuous, and during the process, it brought the greatest suppression to Liu Ji. However, there would always be an end. If Long Chen could not hold on, that would be the beginning of his defeat!

The two were fighting, but they were also secretly competing. It was a battle between many factors.

Long Chen was not as complicated as she thought he would be. He only wanted to do one thing, and that was defeat his opponent! He was fearless. He bravely advanced forward, his sword and sword violently attacking. He had never thought that he would be exhausted. He had never thought that the Killing sword technique would stop!

Honestly speaking, although he was counting the number of swords he had used, he did not care about these numbers. In fact, he did not even know that he had only one thought in his mind, and that was to win!

KILL, KILL, KILL!

The sword beam turned into a sea of sword beams, and under the lead of the God Slaying Sword, they surged through the sea. Countless sword beams penetrated the world, and no matter how fast Liu Ji waved the Poison Sacrifice, there were always a few that rushed in, causing a huge amount of trouble!

"Ding!"

Now, there was a sword that directly stabbed into her throat, only forcing her to lower her head and use her teeth to shatter the sword beam. But just in time, such a dangerous attack made her panic a little.

She wanted to hold on until Long Chen's Killing Sword Technique ended, so she continued to persevere, defend, and wait for the chance to counterattack!

Long Chen did not know, that at this time, he had already rushed out 6000 swords, and broke through his initial limit, but he had not reached his current limit!

"He can't hold on any longer!"

Liu Ji heaved a sigh of relief.

"Soul Refining Flame!"

The blood colored light on his body shone brilliantly, once again giving off a frightening life force. The Killing Sword Technique in his hand was once again activated, and from the beginning of the six thousand swords, each sword strike was almost capable of ripping apart the heaven and earth, and was even capable of cleaving out an enormous sea trench that was hundreds of miles wide!

BOOM!

The sea rumbled, and everything around was hard to see.

The Sea Race had their mouths wide open as they watched this incredulous scene!

"Six thousand three hundred slashes!"

"A beautiful blue figure!"

Such a powerful force caused the two of them to fly out, but Long Chen's terrifying side was revealed very quickly. Although he was sent flying further, he had an astonishing willpower and recovery ability, so he charged back with an even faster speed. His next sword pierced through, straight towards Liu Ji's beautiful head!

"What a madman! It hasn't reached its limit yet! "

Liu Ji continued to exert her strength for a long time as she continued to defend. She believed that as long as Long Chen relaxed, she would be able to counterattack and achieve victory.

However, even now, she still hadn't gotten the chance to do so!

What she did not know was, that once Long Chen was exhausted, that would be truly a ridiculous idea. The greater the challenge her defense gave Long Chen, the more energy he would have to charge into the higher level of the Killing Sword Technique!

Liu Ji could never have imagined that the person who forced him to this extent was actually the youth who could not even withstand his whip a few days ago.

A few days.

He had completed the transformation from defeating his opponent to becoming a difficult opponent to deal with.

If she could not hold him back, he would soon become one of the six great Ocean Emperors.

"He's a monster!"

Everyone had the same thought.

His Sword Truth had not stopped.

"Six hundred and fifty strikes!"

The soaring sword beam attacked from below, forcing Liu Ji to passively resist again, but it was different this time. Long Chen held onto the God Slaying Sword with both of his hands, the green eyes of the skull started to shine.

Of course Long Chen knew that Liu Ji was very strong. She had always been suppressed by his Killing Sword Technique to the point that she couldn't attack normally. He knew that Liu Ji was like a venomous snake. She had always been cautiously waiting for an opportunity. This was indeed the best way to deal with Long Chen's berserk motivation from an outsider's point of view.

If Long Chen faced the crazy him, perhaps he would also be waiting for that one hit kill chance.

However, to him, this was definitely wrong. Especially for him, who had just gained a lot of strength.

He had countless will to fight, and he wanted to vent it on this battle!

He had long since prepared the Eye of Hell.

Before this, he had been trying his best.

In the end, his limit should be near the location of the seven thousand swords, but Long Chen did not continue attacking. At that point, he was sure that it would consume a lot of energy, so he stopped at the six thousand five hundred swords.

There was a total of more than six thousand swords. He thought to himself, at this point, Liu Ji had already gotten used to the way he made his moves, and had gotten used to his sword moves.

All of her attention was on the sword.

She paid attention to Long Chen's sword, waiting for his weakness and exhaustion.

However, she forgot that Long Chen was also hibernating, waiting for her to have the chance to relax.

At this moment, he revealed the Eye of Hell!

Every time the God Slaying Sword and the Eye of Hell worked together, it played an unprecedented role. This time was no exception, Liu Ji thought she could harm Long Chen, but she did not expect that for this

moment, Long Chen had already prepared six thousand swords, the previous six thousand swords, were not his true killing moves!

Behind Long Chen, only Liu Ji could see a pair of gigantic green eyes that pierced through space and time!

Just like the unmoving devil pupils cultivated by the Primordial Giant Demon, which could even cause Dragon Emperor to be unable to move, the Eye of Hell unleashed by Long Chen's God Slaying Sword, had a kind of powerful deterring force which could cause intense vibrations and cause the opponent to be momentarily stunned. In this moment of battle, this absent-mindedness practically determined the outcome of victory and death.

Especially in a battle between two people with similar strength!

That was the moment when Liu Ji became absent-minded. Long Chen slashed out the last strike, the sword slashed down and the sword light shot out explosively for a thousand miles, piercing through the ocean, soaring up to the clouds, then falling down violently and striking towards the top of Liu Ji's head!

Under this kind of deterrence, Liu Ji could only vaguely use poison as an offering to resist!

Long Chen of course did not dare kill her, his true goal was the Poison Sacrifice, which was a type of Dao Inscription's special equipment. Although there were only 700 odd Dao Inscriptions, but it had the power of nearly 900 Dao Inscriptions, which was a huge benefit for the God Slaying Sword.

They had exchanged blows more than six thousand times, and the God-Slaying Sword was already very familiar with this Poison Sacrifice.

With the last strike, the God Slaying Sword turned into a huge grey beast and flung Liu Ji randomly out. The Poison Sacrifice little snake, which did not instill any power into it, directly swallowed it, then returned it back into Long Chen's hands.

BOOM!

The shockwave caused Liu Ji to sink into the sea!

Countless amounts of sea water came from all directions and was blasted away, forming a huge whirlpool.

From the appearance of the Eye of Hell to Long Chen's final victory, in just an instant, the change happened. It was so fast that many people couldn't even see it clearly, it was as if Liu Ji had already disappeared. For a moment, most of them were dumbfounded, not knowing what had just happened.

Long Chen kept the God Slaying Sword, waiting for its transformation.

The Poison Sacrifice was truly strange. After breaking away from Liu Ji's control, there were only around 700 or so Dao patterns. However, it helped greatly, allowing the God-Slaying Sword to approach the 800 Dao patterns. In the end, it stopped at the 790 Dao patterns.

This news made Long Chen extremely excited. He had finally gotten his hands on the benefits. Moreover, the success of this battle had given him a strong sense of confidence. Although he could still kill Liu Ji, he was still quite a distance away from killing her. However, because of the relationship he had with himself, he had the upper hand this time.

The six great Ocean Emperors, of course, had a grasp of everything.

They had seen all the changes in the process, and they had even supported Liu Ji's method of fighting from the beginning. They felt that they must use this method when fighting with Long Chen. The defeat of Liu Ji was also a setback to their hearts. Hence, in this short period of time, their hearts were somewhat depressed.

Sea Divine Emperor waved his hand and the Liu Ji beauty that had smashed into the sea returned to the side of their six great Ocean Emperors. With outsiders present, Sea Divine Emperor did not dare to act so intimately. Seeing that she was uninjured, the Sea Divine Emperor heaved a sigh of relief.

But which man could bear to be defeated and injured by a woman they treated as a treasure?

No one knew what he was thinking, but as the conflict slowly passed, although the two of them were not fighting in their strongest state, there was no longer any need to continue with this battle. Long Chen had proven himself with his own strength, and now, he was an opponent of Nine Palace Calamity!

Liu Ji couldn't stop him from advancing!

His gaze collided with six hundred thousand Sea Clan members. He was the youngest group of people present, but he was indifferent enough to the point where he could fight with six hundred thousand Sea Clan experts without any signs of retreat.

Only a natural born King could withstand so many gazes.

For a time, the entire Hanhai Imperial City was silent. Everyone was staring at him in a daze. He then looked at Liu Ji. His throat was dry and he did not know what to say.

They were speechless. Perhaps, this was their current state of mind.

They had personally witnessed the sudden rise of the human Long Chen and had slapped all of the Sea Clan people's faces. However, they did not feel humiliated at all.

Everyone was looking forward to the six great Ocean Emperors giving them some confidence.

However, this was just a challenge and a spar. The six great Ocean Emperors were of Grandpa Long Chen's generation, it would be even more outrageous if they were to help.

Long Chen felt a strong killing intent.

She should be from Liu Ji, right? Now that she had lowered her head, it looked like she wasn't too surprised by the previous battle, but Long Chen suddenly remembered that she was only concerned with helping the God Slaying Sword grow. He didn't expect that the Poison Sacrifice should be something that came from her mother, it should be considered the most important thing on her body!

If he were to be destroyed like this, he would definitely go crazy.

After all, he and her did not have any big grudges, and this matter was indeed rather urgent. At the beginning, he did not expect that after sensing the other party's gloomy mood, he would understand, but since this matter had already happened, he was unable to change it. This Liu Ji might not be a person who would forgive him, so the burden in his heart was not too great.

He didn't know how much of a change this would bring to Liu Ji.

Without saying anything, she directly entered Hanhai Imperial City and disappeared in the blink of an eye. This reaction was even more frightening. It was obvious that she valued that 'Poison Sacrifice' even more.

Divine Emperor said: "I have always heard that Brother Long Chen is a genius of this generation, not inferior to the Eternal Dragon Emperor. "Admirable, admirable."

Towards these words of respect, Long Chen also complimented back on the way.

He thought, "If this is the case, then obtaining the inherited blood essence of the heart dragon of the divine way would be even more difficult."

The Six-Daos tribulation was an accident, causing the current situation to deviate from its original trajectory. There were only three days left, and it seemed that they could only wait for the ceremony to begin.

The Sea Divine Emperor continued, "Three days from now will be the Ocean Sacrifice ceremony. After it is over, I will discuss the matter of the alliance with Brother Long Chen. After today's battle, you should be tired and go back to rest. Everyone dispersed as well.

Hearing the Sea Divine Emperor's declaration, the crowd that could not recover their wits for a long time had no choice but to disperse. Of course, they did not disperse completely, but gathered together to discuss among themselves.

The six great ocean emperors all dispersed.

However, Long Chen reckoned that they would definitely meet in a secret place and discuss today's matters in secret. To them, today's battle would probably be very shocking.

Although Long Chen was returning, there were many people secretly watching him along the way, but they did not dare approach him. He invited Chen Xingyao to come over, and asked: "What are your plans after this, now they are definitely looking down on you. Why not just follow me, maybe they won't be able to touch you."

Chen Xing thought for a moment and asked, "It doesn't seem appropriate. Your mission hasn't been completed yet. Even though it's only three days, you can still think of something. After all, you came all the way here. If I directly rely on you right now, I estimate that the chances of success that I'll be able to create for you will be miniscule. "

He paused for a moment and continued, "Currently, Liu Ji does not know that my lover has recovered. She thinks that she still has something on me, so she shouldn't do anything to me. I might as well go back and help you monitor her. This battle should have dealt a huge blow to her and even destroyed the Poison Sacrifice. Although her mother was killed by her own hands, she was still the only thing her mother left behind, right? "

"Did she kill herself?"

Long Chen was stunned. Was there such a thing?

Chen Xingyao nodded. "There aren't many people who know about this. Liu Ji is very scheming and cruel. This is the nature of their Magic Blue Race. She urgently wanted the 'Poison Sacrifice', and at that time, she had already become a demigod. Furthermore, her mother had passed through the Nine Palace Calamity, but was unable to reach the late stage of the Divine Tribulation Realm.

Long Chen respected his parents one hundred times.

He really did not expect that Liu Ji would have a more vicious side to her.

Killing his own parents, this was true unfilial deed, and was something to be despised. At the beginning, Long Chen had felt guilty, but now, he finally stopped denouncing him in his heart. Because Liu Ji's loss and hatred was not because of the destruction of the item left behind by his mother, but because of the disappearance of an important Dao item.

Chapter 2337 - Conspiracy

Parents' love, regardless of race, was noble. There might be exceptions, but even so, as children, they would still do such a thing. Just this matter alone was enough to let Long Chen clearly see what kind of person Liu Ji was.

Before, he might have felt guilty, but now, he didn't feel anything at all. No matter what the future of such a woman would bring, it could only be said that she was bringing this upon herself.

However, he still felt that it wasn't appropriate for Chen Xingyao to return.

Long Chen, I still want to see if I can help you. That Liu Ji definitely knows that my weakness isn't in her hands. If that were the case, I would have also become the target of the Seafolk's guard. And now she just knows I made a mistake. I still have a chance to help you. "

Chen Xingyao was a very persistent person.

He was repaying Long Chen's kindness to him, and was giving his all to do so. Moreover, the people he liked, seemed to support his decision.

"Today, you broke Liu Ji's Dao Artifact. I have to see what she's like now. I'll let you know if there's any news. Don't worry, my current identity is her husband, so she won't kill me no matter what. At most, it will only be a punishment. If you kill me, her reputation will be ruined. "

Chen Xing Yao was relieved, he was determined to bid farewell to Long Chen and return to Liu Ji.

Long Chen couldn't force him, so he agreed.

"If anything happens, just let me know as soon as possible." If we don't finish this mission, we will still have a chance in the future. We just have to come back again. "

Long Chen warned him repeatedly.

"Alright."

With that, Chen Xingyao left in big strides.

Currently, the entire Hanhai Imperial City was discussing the battle between Long Chen and Liu Ji.

Even at this time, the fifteen Dragon Emperor had already received the news.

Of course, they also didn't know what Long Chen's real purpose for coming to the Hanhai Imperial City was. Thus, he could only wait and see.

In the deepest corner of the forbidden region of the Great Ocean Imperial City, the six Ocean Emperors were gathered here. Today's matter was too serious, and it would affect the entire Sea race greatly. Thus, they had no choice but to hold a secret discussion here.

The six of them were emperors who came from the six peak bloodlines.

"Everyone has seen what happened today. There was probably no one in the world who could stop Long Chen's rise to power. Unless we or anyone else dares to kill him at this time. There are truly a limited number of people in the world who can kill him. If the six of us were to make a move, perhaps we might succeed, but it will definitely cause a great war between the humans and us. Our Sea race only has a third of the strength of the human race, so we are naturally no match for them. "

"So, even if we want to kill him, we shouldn't be the ones to do so. What they should truly worry about was the Monster race. If Long Chen were to become the new Everlasting Dragon Emperor, as long as he still exists, there would be no chance for the Demon Clan to be number one ever again. "

"Now that he has formed an alliance, it is an excuse. His true purpose must be related to the Causality Sacred Stone. Judging from his previous actions, he should have failed. Now, three days later, we can send him off in broad daylight."

"This kind of person cannot be offended, nor can he be too pleasing to the eye. After the ceremony ends, we'll send him off." As for the Karma Holy Stone, although we don't know what's so mysterious about it, once it leaves, we can investigate it. "

Speaking up to here, the Purple-eyed Emperor said, "Research? After all these years, haven't we studied the Three Lives Holy Stone and the Causality Holy Stone enough? When will the research produce results? I think his three days here might be a good opportunity. We have to take advantage of this opportunity and learn the secrets of the Three Lives Holy Stone or the Causality Holy Stone from him. "

What he said was the truth.

Actually, they weren't too worried about what Long Chen had taken away from them. What they were most worried about was that after Long Chen left, they wouldn't be able to obtain anything from the Three Lives Holy Stone or the Causality Holy Stone.

"Perhaps, we can start from Chen Xingyao. Chen Xingyao is a human, and although he and Liu Ji are bound together, from the looks of it, his heart is not with us, the Sea race. We made Chen Xing suffer a little, and from him, we forced him to ask Long Chen about the secret of the Causative Holy Stone.

He did not know why Chen Xingyao had joined up with Liu Ji, nor did he know that he was just a shield, a shield to hide the relationship between the Sea Divine Emperor and Liu Ji.

If he forced Chen Xingyao to go crazy, he would definitely reveal the relationship between the Sea Divine Emperor and Liu Ji. Therefore, when the Fish Emperor suggested that they win, the Sea Divine Emperor who had not spoken up until now interrupted them and said in a low voice, "No, Long Chen is very meticulous. Even if he treats Chen Xingyao as his friend, it would be very difficult for us to get news from him if we were to torment him. We might as well relax the guards of the forbidden area for the next three days. I want to see if he can hold it in. Emperor of Zi Tong, this will require your Purple Eyed Sky Eye. "

What Ocean Divine Emperor said made sense, so the other five Ocean Emperors still chose to speak for him in the end. After all, he was the First Ocean Emperor with the greatest authority.

The Purple-eyed Emperor would use the Purple-eyed Heaven's Eye to strictly monitor Long Chen for three days and three nights.

They naturally did not dare to harm Long Chen. They only wanted to know what Long Chen wanted to take from the forbidden region. Of course, it was clear to see who had killed Gao Que and who had touched the Causative Holy Stone. It was definitely Long Chen. Other people might be in a mess, but the six great Ocean Emperors were very clear about this.

When the Purple Eye Emperor opened it, even though Long Chen was in the middle of the Divine Palace where no one was approaching, he knew that he had already been observed. The other party had still underestimated him.

"Looks like there's no hope for the next three days. Even this operation has failed." Long Chen was a little helpless, he never thought that it would be even harder to obtain the inheritance of Blood Essence of the God Realm Heart Refining Dragon than he thought.

Fortunately, the only good news was that he had passed the sixth tribulation.

"Brother Chen, don't be in such a hurry. We still have a lot of time. When the time comes, the chances are higher. Others will not be able to take it away, so it will still be yours. "

Ling Xi's words made sense.

As the saying goes, anxious people can't eat hot tofu.

Long Chen had been too anxious these few days, which was why he was in such a mess these days. Although he had defeated Liu Ji and gained a greater reputation, he hadn't made much progress in regards to the God Realm's Heart Refining Dragon, and now that he was under surveillance, he had even less of a chance.

"Surveillance? "It looks like they also want to know what I want from this place!"

Long Chen just didn't let them do as they pleased.

He was thinking, at this time, how was the stubborn Chen Xingyao doing?

Chen Xingyao had already returned to the Magic Blue Palace.

What he was facing was Liu Ji, who was at a disadvantage in front of the six hundred thousand Seafolk. Even his mother's inherited Dao Artifact had been destroyed. Honestly speaking, Liu Ji's temperament was worse than anyone else's. It was likely that she had never received such a great grievance since she was young.

"You still dare to come back?"

Just as Chen Xingyao stepped in, a cold shout rang in his ears. Chen Xingyao trembled, and said, "I'm sorry, I just wanted to help him at random, but I didn't expect that I would fall deeper and deeper into the trap. I didn't want to go against you." After all, I have to rely on your help. I didn't listen to you today to expose him because we're both human. "But I really did not dare to offend you."

At this time, she had already come out from the darkness, and her appearance was not much different from before. She looked at Chen Xingyao with a smile, and said, "Don't be so nervous, you think that I

will be very angry. You've really underestimated me. The person who can truly make me angry hasn't been born yet. Since you dared to come back, you are prepared to receive your punishment, right? "

Chen Xingyao gritted his teeth and said, "Liu Ji, can't you just forgive me once? Our transaction will continue. From today onwards, I will no longer bother about Long Chen's life and death. "

Liu Ji giggled, "You really think highly of yourself. Can you even care about his life? This little fellow, in another ten years, even the Great Demon Lord and Spirit King would not be able to save him. Right now, no one dared to kill him, let alone the future. My defeat this time is inevitable, all I did was advance it a bit. To tell the truth, I didn't dare to offend him. What I want to know now is, why is he getting close to the Causative Holy Stone? "Chen Xingyao, don't tell me you don't know."

Chen Xingyao shook his head helplessly, saying, "You guessed right. He must have had some important matter. Tell me, I'm just a help, will he tell me?"

Liu Ji coldly sized him up and sneered, "You are nothing, but he really values your life. Tell me, if you try to ask him, will he agree? And I have a way for you to think of a way to complete this task! "

Chen Xingyao never expected her ambitions to be so high. She simply did not want to take revenge on Long Chen. She wanted to know what Long Chen wanted to obtain first. Because she knew that the things that he had hidden from fifteen Dragon Emperors who had personally come to search for him were definitely important items, and could even be things that Long Qinglan had left behind.

He said, "Liu Ji, we are still dealing with each other. If you force me into a corner, I don't mind telling the world about the bullshit between you and the Sea Divine Emperor."

Liu Ji giggled and said: "Hm, then it means that the fish has died and your woman and you will both die. If you choose to do so, I can only say that I have no other choice. Honestly speaking, I am starting to yearn for her now, but do you think that if Emperor Xlao Yao were to kill me at that time, would the Ocean Divine Emperor help me to stop her? That old woman, what could she possibly do to me? "

In Chen Xingyao's eyes, she was a crazy pervert.

At that moment, Chen Xingyao felt a sharp pain on his neck. Reaching out his hand to touch it, he found that there was blue blood on it.

"Don't move, the blue spirit that I'm raising has already entered your body. From now on, I know everything you say. Find Long Chen, do your best to let me know what exactly you want! "

Chapter 2338 - Blue Demon

"Blue Demon."

Having been together with her for such a long time, Chen Xingyao naturally knew that this was one of Liu Ji's most important methods. With this method, she had been controlling it for who knows how many years. Back then, she had been able to suppress all of the demons and get up step by step to obtain everyone's support.

Blue Demon was a creature that was born from the body of the Magic Blue Race. In truth, it was a part of the body of the Magic Blue Race, and it was completely under her control. He could hide within the body of living creatures like the Black Emperor. The only difference was that Blue Demon was also very terrifying.

It was like Liu Ji's avatar had entered Chen Xingyao's body. It knew all of his words and actions, and was also able to control Chen Xingyao's fate at any time. Perhaps Liu Ji's Blue Demon was the strongest Blue Demon in the entire clan, but once it entered Chen Xingyao's body, it would inadvertently be enough to kill him.

Thus, at this moment, Chen Xingyao's words and actions were completely under her control. Life-death was also under her control.

Even though Chen Xingyao had a deep relationship with her, she would not be polite in the slightest. She was used to having everything in his hands.

"Don't be nervous, I definitely won't hurt you intentionally. We only work together, and Blue is only a guarantee of our cooperation. As long as you get the information I want, I will continue to keep our deal and at the same time, allow Lan Mei to come out from your body.

Liu Ji was not the least bit flustered as she casually said.

"Damn it!"

Chen Xingyao was furious, but there was nothing he could do. This was Liu Ji's personality. It seemed that he had gone overboard this time. Not only would he not be able to help, he might even slow Long Chen down.

"Go ahead and ask him. What secrets do the Three Lives Holy Stone or the Causality Holy Stone have?"

Liu Ji urged.

Right now, they could only guess that there might be a problem with the two Divine Stones and not just the Causality Holy Stone. Perhaps back then, it was only because Long Chen had touched the Causality Holy Stone first, but the Three Lives Divine Stone was also unable to escape the suspicion.

Chen Xingyao bit his lower lip, feeling depressed as he left the Magic Blue Palace. After resting for a while, he walked towards Long Chen under the watchful eyes of Liu Ji. He only had three days to complete the quest. If he was unable to complete the quest, then it might cause Liu Ji to torture him for eternity.

Chen Xingyao was extremely depressed.

Now, he could only see whether Long Chen had any good methods.

However, before he saw Long Chen, he suddenly realized that there was one thing Liu Ji definitely did not know. That was the recovery and awakening of the people he loved. Blue Demon was able to monitor his words and actions, and even the slightest expression. However, in the Divine Kingdom, Blue Demon was unable to detect anything.

Without needing Chen Xingyao to say anything, his lover, Zhong Xueyao, had found the star talisman that he had placed in the Divine Kingdom, and had contacted Long Chen. The two of them had been together for a long time, even when it was the Dark Mandala Flower, they had not left each other. They had a tacit understanding of this.

Long Chen was thinking about what to do in three days, just at this time, one of the star runes flashed, it should be a message from Chen Xingyao, upon opening it, the one who spoke was actually a woman, Chen Xingyao's lover.

"Benefactor, I am Zhong Xueyao. It's Chen Xingyao's wife. "

Not only did Chen Xingyao speak, Long Chen knew that something bad had happened. He then asked, "What happened?"

Zhong Xueyao quickly told Long Chen what had happened.

"Were his words and actions monitored by Liu Ji? Liu Ji is truly interesting. After losing the war, there was nothing wrong with her and instead, she was concerned about my purpose in coming here. Truly courageous. "

Long Chen could not help but sneer.

"Benefactor, Blue Demon is a terrifying thing. What should I do?"

Zhong Xueyao hurriedly asked.

Long Chen said: "If I were to say that she is the one who would let Uncle Chen go, then I will just make up a random goal. "When Chen Xingyao arrives, we will do as we please. You don't have to be too flustered, Uncle Chen will be fine."

"I'm really sorry, but I was the one who advised him to go back and provide you with some help. I didn't expect that I would actually trouble you." Zhong Xueyao said with a sad expression.

The other party had good intentions and wanted to find a final opportunity for Long Chen. This could not be blamed on them.

Very quickly, Chen Xingyao came to his door, he pretended that nothing had happened, and so did Long Chen. The two of them were already prepared to trap Liu Ji.

"Uncle Chen, you've come. Welcome." Long Chen and Ling Xi were both waiting here for his arrival.

He first chatted with Long Chen, and after a while, he finally got to the main topic at hand. "Long Chen, there are only three days left, what do you plan to do? Do we still have to enter the forbidden area? Now, the people of the Sea Clan will definitely keep a tight watch on you and even the six great Ocean Emperors will be wary of you.

"Is that so? That's pathetic. "It seems like I won't have this luck and luck."

Long Chen provided Chen Xingyao with a condition to interrogate him.

Chen Xingyao knew that he was trying to create an opportunity. He held it tightly and asked, "Forgive Uncle Chen, but the Three Lives Holy Stone and the Causative Holy Stone have been placed in the Sea Clan for tens of millions of years. The ancestors of the Sea Clan have also thoroughly studied it and did not discover anything. If we are mistaken, then all our efforts will be in vain. "

He performed perfectly, without any flaws at all. Blue Demon and Liu Ji, who were inside the Magic Blue Palace, were already completely focused, waiting for the answer that Long Chen might give.

Chen Xingyao, this guy, is truly generous, hehe, but this is even better, I have gained Long Chen's trust, only then will I be able to help me with my work. This brat is too bold, he actually dares to come to our Sea Clan alone to behave atrociously.

Liu Ji thought.

On the other hand, facing Chen Xing Yao's answer, Long Chen said: This matter is definitely true, it is a piece of news from my father's will, he would definitely not lie to me. "The reason why the Sea race did not discover it was because they did not study the Threelives Divine Stone in detail."

Saying that, Long Chen stopped. He pretended that he was speaking out of carelessness as he shook his head and laughed, "Previously, I accidentally touched the Causality Holy Stone. They thought that the key point was in the Causality Holy Stone, so how would they know that it was the Three Lives Holy Stone? In reality, without strength that is at least stronger than mine, it is basically impossible to find the secret of the Three Lives Divine Stone. Uncle Chen, why are you asking me this? You don't want to explore it yourself, do you? "

In addition, you can be at ease, I will definitely not tell Liu Ji that in Liu Ji's eyes, my value is not great. Although I am her husband, she is not the kind of person to have any kind of relationship with others. You have seen the situation today.

Under Liu Ji's surveillance, he knew what to say and what not to say.

Slightly hurting her made it seem more real.

"Three Lives Spirit Stone?"

The corner of Liu Ji's mouth hooked into a charming smile. He didn't expect Chen Xingyao to be so useful and to have found the answer for him so quickly.

Long Chen was not worried at all. Originally, the Sea Clan already knew that the Three Lives Holy Stone or the Causality Holy Stone had something good.

Furthermore, after so many years, did the Sea Clan not get anything? Therefore, he was very at ease. Even if they knew the truth, they would not be able to obtain the items faster than him.

Of course, ancestral dragon-inherited blood s could not be spread out.

But Long Chen did not mind adding fuel to the fire. Then he said, "I trust Uncle Chen, that's why I'm telling you. In reality, it was not a big deal. Do you know our clan's Dragon Sword, the Great Ancestor? He had made his debut when he killed the Black Yama Emperor. 950 dao traces. And the Threelives Divine Stone has a Dao artifact of equal value. "

Although Chen Xingyao knew that it was likely Long Chen making this up, he still had to put on a shocked expression. Within the Magic Blue Palace, Liu Ji's entire body shook.

"If the Sea Clan can get their hands on such a Dao weapon, it could change the entire situation of the Five Great Clans!"

Without a doubt, the Sea Clan still lacked a Dao item like this. She, Liu Ji, had just lost a Dao item, so she needed it even more. This kind of Dao tool could even help her become the new Ocean Emperor!

This piece of news made Liu Ji lose his mind in an instant. It was like a bomb had blown over her head, causing her to lose some of her clarity of mind.

Long Chen roughly knew that his words must have had an effect.

The only method he had left was to pretend to leave after the ceremony ended. In fact, he was hiding in the surroundings to cultivate, and once he had the chance or if he made a breakthrough, he would be able to enter the forbidden area.

Therefore, he decided to just give up.

After obtaining the Three Lives Divine Stone's information, Chen Xingyao immediately guaranteed that he wouldn't tell anyone else about it. Only after a period of time did he quietly retreat.

"I hope that during this conversation, Liu Ji can release your husband. When the time comes, you guys can come here and I will bring you guys back to Dragon God Domain."

Long Chen said to Zhong Xueyao who was inside the Star Talisman.

"Thank you, benefactor. We will never forget your great kindness."

Zhong Yuyao was extremely grateful.

Chen Xingyao brought the premise of success back to the Magic Blue Palace and went deeper inside. In the entire Magic Blue Palace, he and Liu Ji were the only two people left.

In the dark sea waters, Liu Ji came out. She did not show any anger from being defeated, but instead, she was full of smiles.

"Liu Ji, I've completed my mission. Let me go." I'll keep our deal going. It won't cause you any more trouble, and it won't cause you any more contact with Long Chen. "

Chen Xingyao said with a somewhat pleading tone.

Liu Ji nodded her head in satisfaction. She extended three fingers and said, "Three days. Three days later, I will have Blue Demon come out." Firstly is to prevent you from spreading the news about the Three Lives Divine Stone. Secondly, is to have you listen to my words so that I can trust you again within three days. "

Chapter 2339 - Ocean Rites

Three days.

To tell the truth, once Blue Demon entered his body, his life was worse than death. Chen Xingyao would not even be able to last a day.

But he had no choice. He could only wait for three days.

Three days later, Long Chen would leave Hanhai Imperial City. At that time, Liu Ji would be able to follow Long Chen and leave if he kept his promise. Although he couldn't help Long Chen, Chen Xingyao did his best.

His lover, Zhong Xueyao, within the Divine Kingdom, passed on the news to Long Chen.

"Three days? She was just trying to prevent accidents. It seemed like she also wanted to enter the forbidden area and keep it for herself. "Haha."

Everyone was greedy, Long Chen was the same. Therefore, Liu Ji's behavior was very normal.

She would definitely not be able to hold back and explore the Three Lives God's Stone. As long as she went, it was actually to create an opportunity for Long Chen.

"I won't take any action during these three days. Just wait obediently for the Ocean Sacrifice ceremony." You will also keep an eye on Willow and see when she moves. Three days later, when she keeps her promise and gets Uncle Chen's Blue Demon out, I'll take you guys away first. If she didn't keep her promise, then she could only use extreme methods. For example, she would announce the matter of her and the Sea Divine Emperor. I believe that Liu Ji would not want to bear the consequences of your actions. "

With Long Chen's words, Zhong Xueyao's heart finally calmed down a lot. Chen Xingyao was also very stubborn to begin with, and he was even less nervous.

Right now, the entire Hanhai Imperial City seemed to be bustling with noise and excitement. Everyone was preparing for the ocean sacrifice ceremony, but the topmost existences such as Long Chen, Liu Ji and the six great Ocean Emperors were completely quiet.

To the disappointment of the six great Ocean Emperors, even though they had relaxed the security of the forbidden grounds in these three days, Long Chen had not snuck in again.

In reality, out of the six great Ocean Emperors, the Purple-eyed Heaven's Eye that the purple-eyed emperor was using was monitoring Long Chen at all times. The Purple Eyed Sky Eye also took a good look at Chen Xingyao the other time he came. The Purple Eyed Sky Eye could see a large area, but it was after all an eye and not an ear. As a result, he could only see that Long Chen had been staying at his residence the entire time, but he could not hear what Long Chen had to say to Chen Xingyao.

It was because of this that Long Chen dared to tell Chen Xingyao about the Three Lives Spirit Stone under the watch of the Purple Eye Heaven Eye.

If the six great emperors were to know that there was a Dao Artifact among the Three Lives Divine Stone that was comparable to the Primordial Dragon Sword, they would definitely defend the Three Lives Life Stone with all their might and explore the secrets within the next few decades. That way, Long Chen would have less chance of success.

He also knew Liu Ji, and he knew that Liu Ji wouldn't tell others.

Sure enough, three days later, the six great ocean emperors could only see Long Chen never leaving his residence. They did not know that he had leaked a piece of fake news to Liu Ji.

Then, the ritual ceremony that the Sea Race had been anticipating finally began.

The Rites of Sacrifice was a grand ceremony for the entire Sea Clan, not just in Hanhai Imperial City.

Of course, the Great Sea Imperial City had the leading role.

On this day, the entire Sea Clan became lively. As the highest representative of the human race, Long Chen was naturally invited to sit below the six great Ocean Emperors. This position signified a noble position, almost equal to that of the six great Ocean Emperors.

There were many ceremonies throughout the ceremony.

Rather than calling it a sacrifice of the sea, it would be more accurate to call it a carnival of the Sea Clan. Long Chen had watched many interesting performances from the most important position, which greatly expanded one's horizons.

The entire imperial city of Hanhai was very lively. It was probably only on this day that the slaughtered Seafolk would appear united and beautiful. Every single one of them had a smile plastered on their faces.

On the surface, the six great Ocean Emperors had to acknowledge Long Chen's purpose in coming to the Sea Clan. They also made a show of their actions, officially announcing that the Sea Clan and Human Clan were brothers and sisters, that they would advance and retreat together in the future, and so on.

This was because in that battle with Liu Ji, Long Chen could already be considered a god-like figure in the Sea Clan. The six hundred thousand people of the Sea Clan, in the midst of this carnival, would occasionally cast their gaze in Long Chen's direction. Their gazes, which were filled with curiosity, envy, and admiration, never left Long Chen's direction.

The day's ocean sacrifice ceremony was grand and bustling with noise and excitement. The entire Sea God's Region was in a state of excitement, and no one cultivated during this day. Almost everyone was immersed in the festivities.

And the most exciting performance of the day, was undoubtedly the 'Group Demons Dance' that the Demon Blue Emperor, Liu Ji, had brought along all the people of the Magic Blue Clan. The dance in the sea centered around Liu Ji, it was simply a feast for the eyes that was rarely seen in the world. Her dancing posture was sometimes coquettish, sometimes majestic, and sometimes filled with extreme temptation.

Of course, Liu Ji, who possessed the greatest reputation and fame, was undoubtedly the most outstanding amongst them. She was today's most dazzling celebrity. With her status, she did not need to perform, in the eyes of others, this battle would be a huge blow to her, but Liu Ji used his dance posture to prove that she was not depressed at all, not even affected at all. She was still the king who would make tens of thousands of people go crazy.

After she was done, she and the Demon Blue Clan disappeared from everyone's sight, and immediately, another performance from the Sea Clan appeared. This caused everyone to gradually forget about Liu Ji's existence. He probably thought that she was tired and went back to rest. Although the Ocean Sacrifice ceremony was rather grand, she might not have fully recovered from that battle. This was something that everyone understood.

Liu Ji had also greeted the six great Ocean Emperors.

Therefore, after she left, the six great ocean emperors were not really paying attention to her. They were focused on Long Chen, as this was the last day Long Chen would be in this ocean race. The Ocean Emperor wanted to see what kind of tricks he could play now that it was the last day.

"Have they made their move?"

Sure enough, Liu Ji couldn't resist the temptation of the sword and took advantage of the fact that the six great Ocean Emperors were still stuck in the Rites of Ocean Sacrifice to head towards the forbidden region.

Chen Xing Yao was still at Long Chen's side.

The two of them looked at each other and understood what was going on.

Actually, whether Liu Ji went or not did not have a big impact on Long Chen. After all, she could not do much. It was even more impossible to acquire the legacy blood essences of the 'Heartdragon' of the Dao of the Gods.

Therefore, he continued to be at ease and waited for the ceremony to end.

After sending Chen Xingyao and his wife out, he would return. This time, he would go into hiding. After all, he had more choices now than before he had arrived.

While the ceremony was going on, Liu Ji quietly dodged the guards and came to the forbidden area. The six great Ocean Emperors had already relaxed the defenses of the forbidden region. Now that it was the great ceremony of the ocean, the people here were the best. This was also the reason why Liu Ji chose to take action at this time.

"Divine Stone of Three Lives, a Dao Artifact with 950 Dao patterns!"

This was the Limitless Dao Artifact.

In front of her were two divine stones: the Three Lives Holy Stone and the Causality Holy Stone. The Threelives Divine Stone was slightly taller and prettier. Liu Ji placed all her attention on the Threelives Divine Stone.

"First of all, I have to tear a hole in this damned restriction."

This restriction was set up by the ancestors of the Magic Blue Tribe. The method to remove it was passed into her hands. It wasn't a barrier, but rather something that would alert her if she touched it. It wasn't hard. He only needed the blood of the dark blue race to get rid of it.

"The Three Lives Divine Stone is the condensed form of all the love in the world. Can the feelings between me and the Sea Divine Emperor be counted in here?" Liu Ji could not help but laugh.

Suddenly, her expression froze.

Because she knew, definitely not. The reason why she was trying to please this man and serve him so that he could possess her was all because he was the strongest among the Sea Clan. He could be of great help to himself.

"Perhaps, the Three Lives Divine Stone before me is the chance for me to surpass you."

Liu Ji was gradually using the blood of the Magic Blue Race to remove the restriction. This was the most important part of it. Of course, Ling Xi could also use the Sector lord Divine Arts, but it would definitely be more troublesome.

The restrictive spell was connected to the Karma Holy Stone and the Threelives Soulstone.

Now that the Three Lives Holy Stone was gone, it seemed to have disappeared as well. However, Liu Ji did not care about the short Causality Holy Stone. Causality is a difficult thing to understand, but love is much more direct.

"Three lifetimes. In his previous life, in this life, in the next."

Liu Ji knew that she did not have much time, so she gently touched the cold stone wall with her almost perfect palm. This looked like the most ordinary stone wall, but with her power, she was unable to break it.

She extended her sharp nails and lightly tapped them.

A soft sound came from the stone wall.

"Listening to the voice, it's solid. There shouldn't be anything inside, right?" Liu Ji could not help but be suspicious. In the past, she had thought that these two stones were actually just hard. The so-called Three Lives Holy Stone and the Causality Holy Stone were names given to her by her descendants. In reality, they had nothing to do with love or karma.

Of course, she didn't think so now.

"It's not like this is some ordinary stone. Inside this stone is the Limitless Dao Artifact, the ruler of all the Dao artifacts in this world. How could such a Dao item be judged in such a simple manner? "

"In that case, what method do I need to destroy the Three Lives Divine Stone and obtain the things within?"

Liu Ji felt a headache coming on.

Only after coming here did she realize how much trouble it was.

Firstly, destruction was impossible, she had seen many people trying to destroy it, and there were even historical Shanghai people who were close to Long Qinglan's level.

Normal methods of destruction definitely wouldn't work.

So, what was the method?

Looking at the colorful ripples on the surface of the water, Liu Ji said in a daze, "The Threelives Divine Stone represents love, could it be that you want to use love to open it, to move it, then it will give out the Everlasting Dao Artifact?"

Normal thoughts and conventions should be like this.

"This is too ridiculous, it's impossible. Where does love exist in this world?"

In any case, all she saw were desires and benefits.

However, at this moment, she thought of Chen Xingyao. He was a man who could give up everything for love, even rejecting her beauty. It was a rare piece of wood.

"It was ignorance, not love."

Liu Ji just wanted to laugh. Looking at the Three Lives Divine Stone, she suddenly had a thought.

"Let's test it out with our own blood. It seems the Threelives Divine Stone has some relationship with our clan."

Chapter 2340 - Three Lives Secret Realm

The Ocean Sacrifice ceremony continued like a raging fire.

The six great ocean emperors were talking happily with Long Chen. Their faces were brimming with smiles of satisfaction.

This time's Ocean Sacrifice ceremony was carried out perfectly. Nothing unexpected happened, and it was already nearing the end. Long Chen himself represented the entire human race and established a relationship with the Sea Clan, of course he wouldn't think of this as the same thing. The six great Ocean Emperors knew of his true intentions, but they did not think that it was the same.

However, after the ceremony ended, he no longer had an excuse to stay.

In the later stages of the competition, the words of the six great Ocean Emperors had already hinted that after the Sea Sacrifice ceremony ended, they would personally send Long Chen out of Hanhai Imperial City and hold the biggest ceremony to send him off.

Actually, deep down in their hearts, they had long wished for Long Chen to scam, so they could carefully study the Three Lives Holy Stone and the Causality Holy Stone.

As the ceremony neared its end, something unexpected occurred.

In the depths of the imperial city, a myriad of purple glows suddenly appeared. Countless rays of colored light penetrated through the forbidden area, even spreading out from the imperial city of Hanhai, causing the entire imperial city to be as beautiful as a fairyland.

Soon after, a delicate fragrance wafted in the air.

The fragrance was mixed with many different kinds of fragrances of flowers. It was a refreshing sight to behold, and one that left one intoxicated.

The six great Ocean Emperors did not even have a chance to carefully smell how many of these fragrances were coming from within. Of course they knew that it was a movement from the forbidden region, and that the forbidden region was located deep inside, with Long Chen beside them. Could it be that there were others who had gone to the forbidden region?

The Three Lives Divine Stone and the Causative Holy Stone had not changed at all for tens of thousands of years, yet such a light and fragrance had actually spread out, causing the six Ocean Emperors to be extremely nervous. They didn't care about anything else as they fought to be the first to rush in the direction of the Three Lives Divine Stone with their fastest speed, disappearing before Long Chen's eyes in the blink of an eye.

"What's going on!"

This change also frightened Long Chen. This was completely unexpected. His performance was pretty much the same as the six great Ocean Emperors. Right now, there was only one thing he could do, and that was to rush over and take a look.

So he followed closely behind the six Ocean Emperors, who were the seventh to arrive.

However, because the six great Ocean Emperors had no time to manage order, so did the others. This was the nature of the Sea Clan, so once something that aroused their greed appeared, they didn't care about the rules at all.

Other than a few timid practitioners with a portion of Seven Star tribulation of reincarnation and six tribulation of reincarnation, they also took advantage of the chaos to enter. Almost all of the martial artists with the body of a demigod also entered. A few demigod body martial artists had intimidated them several times before finally scaring everyone else who wanted to enter the forbidden area.

However, Long Chen and Chen Xingyao were at the forefront of the bodies of nearly all demigods.

Chen Xingyao kept a low profile, while Long Chen followed closely behind the six Ocean Emperors. The six of them discovered him, but they were all fighting against each other over time.

If something were to appear, they wouldn't believe that Long Chen would steal it from right in front of their eyes.

With such a beauty blocking him, it would be too easy for him to rush into the forbidden area and reach the vicinity of the Causality Holy Stone. Long Chen vaguely sensed that this change of events was an opportunity.

"I never thought that Liu Ji would actually cause such a change!" "It seems like I was unintentionally planted into the shadows of the trees."

From afar, he could see that the stone that had changed was the Three Lives Holy Stone, not the Causality Holy Stone. So it turned out that the Three Lives Holy Stone was not that simple either.

The colourful light and fragrance that Long Chen had seen previously came from the Three Lives Divine Stone.

Now, in almost everyone's eyes, they saw a flower with three petals growing on the top of the Three Lives Divine Stone.

On each petal, there were tens of thousands of small petals. Every small petal had its own special color, so every big petal had its own rich and complex color.

The three petals rippled gently in the water, releasing a resplendent light and a rich fragrance. It filled the entirety of Hanhai Imperial City.

Other than the six great Ocean Emperors, no one else had come close. Instead, they stood in the distance and gasped in amazement.

Who would have thought that such a flower would grow on the Three Lives Godly Stone?

The Threelives Divine Stone had existed for tens of millions of years. It was a mysterious object like the Black Jade Dragon's head, yet such a flower had grown on it. Just what did this mean?

For a time, everyone's mind was blank. The Ten Thousand Flowers with three petals kept appearing in their minds. Everyone was stunned.

Very quickly, everyone saw another change occur on the Three Lives Divine Stone.

Originally, the words 'Three Lives' had been carved into the Three Lives Divine Stone in an unremarkable manner. Now, under the words "Three Lives", the petals on the giant flower had piled up into a single word.

That was the secret plane.

If linked together, it would be the Three Lives Secret Realm!

Shock!

Long Chen didn't know what the six Ocean Emperors were thinking. At least, in his opinion, the Three Lives Divine Stone, which had not shown any changes in all these tens of millions of years, suddenly had such a change. Although his goal this time was the Causality Sacred Stone, the Three Lives Divine Stone and the Causality Sacred Stone were not necessarily unrelated to each other. This was also an important opportunity for him to obtain the inherited blood essence of the Divine Path Heart Refining Dragon.

"Three Lives Secret Realm?" Aunt You didn't tell me that the Three Lives Godly Stone has its own secrets. "

Although he called her Aunt You, Long Chen still treated her as his mother.

Long Chen thought as he observed the six Sovereign of the Seas.

With a quick glance, he realised that Liu Ji was no longer here. She should have entered the Three Lives Secret Realm.

In the middle of the flower was the stamen. In reality, the stamen was a colourful vortex, and the vortex was a passageway. That should be the entrance to the Three Lives Secret Realm.

On the other side, there was no sign of movement from the Stone of Truth.

Long Chen now had two choices.

The first was to follow the six Ocean Emperors into the Three Lives Secret Realm.

Secondly, when Liu Ji and the six Ocean Emperors were not around, and no one was able to do anything to him, he would focus on the Causality Saint Stone. See if you can find anything.

After weighing the pros and cons, he chose the Three Lives Secret Realm.

This was because there were still many chances for the Karma Holy Stone, but in the Three Lives Secret Realm, there was only one chance.

At this time, the six Ocean Emperors looked at each other, and the Sea Divine Emperor said in a loud voice with ice-cold words: "All of you must obey the rules. Those who do not have the body of a half-god, get the hell out immediately. Also, guard the body of a demigod well and do not let anyone enter! "

As he spoke, he stared coldly at Long Chen.

"Brother Long Chen, although we are now brothers, this is something passed down through our Sea Clan, you better not get involved with it. If you come in, don't blame me for being rude."

With his identity as the Ocean Emperor, of course he wouldn't be afraid of Long Chen. Furthermore, he knew that Liu Ji had already gone in, and was now furious at Liu Ji's actions of not informing him, as he felt like he had been betrayed. The six Ocean Emperors did not want to stay a moment longer, so when the Ocean Emperor spoke, other Ocean Emperors had already charged in without caring about anything else.

The six of them entered the Three Lives Secret Realm.

Among the others, although the warriors below the body of a half god were unwilling, they still silently left under the orders of the Sea Divine Emperor. The other warriors with the bodies of a half god could only obey, and blocked the entrance of the Three Lives Secret Realm.

"The two of you are not of the Sea race. Please leave our forbidden area."

There were dozens of SemiGod body martial artists blocking the entrance.

The threat of the Sea Divine Emperor, as well as the persistence of these tens of elderly SemiGod bodies seemed to be able to completely scare Long Chen off.

Chen Xing saw from afar, Long Chen did not seem to have any intention of scaring him, and very quickly he saw Long Chen instantly transforming into a human dragon, his entire body was covered with blood dragon scales, his entire body was covered with bloody thorns, his hands had become claws, that was the Thousand Deadly Claw.

"Whoever blocks me will die!"

With these words, all of the martial artists with the body of a demigod were terrified.

In the next moment, he charged forward while the Sea Race's experts could only fight back with all they had. He was the king of close combat, and had the three terrifying abilities of Time, Slaughter and Life. With such a strong close combat, there was almost no one who could stop him!

A red shadow flew through the air at a terrifying speed, knocking over all of the Sea Clan warriors.

Not only would Long Chen enter by himself, he would also drag at least ten practitioners who were in control of the area and put them into the Three Lives Secret Realm together. This way, he wouldn't be the only one who disobeyed Sea Divine Emperor's orders.

This action of his also caused a commotion among the remaining Demigod body martial artists.

Everyone was greedy, and even wished that they could go far and get something better. The Sea Clan was especially obvious in this regard.

"Long Chen entered!"

"They went in too. Why are we still guarding outside?" Do you drink the northwest wind? "

"No, the Sea Divine Emperor has instructed us that we absolutely cannot enter."

"The situation is different now. Just now, at least 10 of them were pulled in! If you continue to hesitate, the good stuff won't end up in your hands! "

While they were arguing, Chen Xingyao seized the opportunity to rush in. This gave the remaining people a huge shock, and many of them rushed into the Three Lives Secret Realm in a moment of desperation.

As the number of people outside dwindled, the number of people persevering also lessened.

The Sea Divine Emperor restricted everyone, but if all the body of a demigod were to enter, would he be able to kill everyone inside? Which one of them is not a powerful member of the Sea Clan?

With this bit of confidence, all the remaining martial artists squeezed their way in. For a time, there was actually no one left in the forbidden area. If not for those people with Seven Stars tribulation of reincarnation already being chased out at this time, there would definitely be more people going in right now!
