

Pagoda which was close to collapse once again solidified, stabilised, and even transformed into an iron plate, causing the Divine Bird Merchant's bones to change and become unable to advance even a single inch!

Ding!

The sharp part had pierced the Primordial Dragon Pagoda. Previously, it was Long Chen who had been crushed, but at this moment, he was already at a disadvantage!

"Ugh ..."

Long Chen's sudden rise in strength and breakthrough was a devastating blow to the Fairy Shangyang!

The moment that she was most confident in was the moment that she would collapse. She saw Long Chen unleash an unprecedented power at the most crucial moment, as if he had been concealing it all along. He had completed a world-shaking reversal, and blocked her final killing move! In that moment, to the Fairy Shangyang, it was the collapse of heaven and earth, the destruction of all!

She gave everything, but she did not get what she wanted.

In that instant, the attacks of the azure feathers nearly collapsed!

This was an unprecedented blow!

In fact, this was not the end!

When he broke through the realm of Divine Emperor, Long Chen was already able to block his opponent, and was basically just a little bit weaker than his opponent. If that was the case, the other party would definitely not be able to kill him, and even more so, not implicate Mo Xiaolang.

But after that, he received a new surprise.

The nature of his invisible dragon essence was undergoing a breakthrough, it was advancing. The nature of the Divine Emperor realm caused the amount of Long Chen's divine power to increase exponentially, but the change in nature of the invisible dragon essence today was due to the increase in quality! This was a double advancement!

"Sure enough, the Infinite Divine Art that Ancient God of the Wilderness found in this Living Realm, is really the Infinite Divine Art of the primitive level!"

It was just that in the beginning, Long Chen still had not dug up enough, and did not have enough strength to support it, so he displayed the extent of his Eternity. Once Long Chen made a breakthrough in his power, the characteristics of his primitive level would finally be revealed.

A change in strength attribute had brought a huge pleasant surprise to Long Chen and brought even more despair to the Fairy Shangyang. Strength was originally Long Chen's disadvantage, but after the sudden increase in both quantity and quality, it became the advantage.

After transforming rapidly into primitive level, the power was still colorless, but could also change into any kind of color. This kind of explosive increase in strength allowed Long Chen's combat strength to increase at a terrifying speed!

"Universe Dragon Scripture."

When the power of the primitive level had reached its peak, the name of the Infinite Divine Art appeared.

Long Chen was finally the same as the Holy Son of Confusion, a person who possessed a Primitive Creation Deity Equipment and a Infinite Divine Art. In the entire Allworld, there should be no more than seven people who possessed both.

The value of the primitive level and Infinite Divine Art s were not inferior to that of the Creation God Manifestation grade equipment. If the Infinite Divine Art was weaker than others, then it would be at least a level lower, just like the previous Long Chen.

"The true name of the power produced by the Dragon's Scripture of All Things is 'The Power of the Dragon God of All Things'."

Long Chen's invisible dragon essence from the past was something that he had randomly named himself.

Before long, the circulating energy in his body, from the formless dragon essence of his Eternity, transformed into a The Power of the Dragon God of All Things that was several times stronger than his

primitive level! With two levels of power within his body, not only had Long Chen caught up to the Fairy Shangyang, he had even surpassed his opponent! With the Primordial Dragon Pagoda, even if the opponent were to burn everything, he would still be able to surpass them!

Roar!

The Great Void Cosmic Dragon let out another furious roar. It simply went from a lion to a giant elephant. Long Chen possessed the most pinnacle of power. Not only did his opponent not break through the Primeval Dragon Pagoda, he was even sent flying from the impact, and it was like hitting a rock with an egg!

This was a terrible change.

is a change that caused the Fairy Shangyang to feel despair.

Long Chen casually made a dash, and the green feather flew out, leaving Long Chen behind. At this time, Long Chen changed into his human form.

The battle had already ended.

The flames on Fairy Shangyang's body were still burning. After the last attack, she had already lost everything, and there wasn't much left of her power either. She was already destined to fail.

The Eternal Whirlpool was still spinning, it was still erupting with endless pulling power, the cracks in time were still shooting crazily, while the Fairy Shangyang seemed to have stopped, she was transforming from a feather into a human, but as she burned in the flames and was enveloped in the blood fire, her body was already illusory, gradually disappearing in the midst of the blood fire. She was now like a broken candle flame, trembling in the eternal vortex.

The previous confrontation of life and death had come to a standstill.

But the outcome was clear.

Fairy Shangyang gave him everything, but did not kill Long Chen. Instead, it helped Long Chen a lot, allowing him to breakthrough into the new realm!

Long Chen sympathized with this woman.

But death was her choice.

Perhaps, at this moment, being perfectly fine and standing in front of her like an unparalleled expert was the greatest despair and pain to him. As a result, the eyes she looked at Long Chen with, revealed tears of blood.

"Do you regret it?"

Long Chen asked as he stared at her bloodshot eyes.

Fairy Shangyang looked around in a daze. In the last moment of her life, she did not seem to have seen Holy Son of Confusion. Perhaps, he was still chasing the location of the moving treasure ...

"There's such a big commotion in this place. He already appeared a long time ago, but he didn't appear." He definitely knew that you were going to use the Yang Blood Fire, but he didn't show up either and didn't even say a word. It was completely silent. So, do you regret it? "

When the battle ended, this infatuated woman actually couldn't be described as pitiful. In order to help Holy Son of Confusion clear out all the obstacles, she had sacrificed her life and everything, but from start to finish, Holy Son of Confusion had not expressed anything. Even if he was busy chasing after the kitten's body, he should have made some noise.

"This is my choice, it has nothing to do with you. You are very lucky. " Fairy Shangyang trembled as she looked at her surroundings. When she saw that her life was left with that last bit of life, she saw many things she had not seen before. What she was most afraid of was ...

[Didn't you want to see me for the last time?]

Just as the flames were burning, she felt an unimaginably cold sensation. She couldn't help but curl up into a ball, a wounded little beast that was crying solitarily.

Actually, this kind of scene had already happened countless times. It was just that she was still persisting and thought that there would be a turning point in the future. However, today, she had already given her life away, so she couldn't get back a single word of concern. It must be because he was too excited to care about the last treasure. Shang Yang finally understood the value of his and his treasures in front of the Holy Son of Confusion.

"It's very laughable. The person you like seems polite and amiable, but in reality, his bones are cold to the extreme. Your life and death is not as important to him as anything he wants. "

The person before him was on the verge of death, but right now, he looked indescribably pitiful. After experiencing the battle to the death just now, now that Long Chen had undergone a transformation, he could understand the pain in Shang Yang's heart even more.

Long Chen walked through the ten thousand realms, but this was the first time he had seen such a foolish person.

In order to help Holy Son of Confusion clear the way, she was even willing to sacrifice his life. He was struggling to find what he wanted.

"Don't say anymore. I understand. This is my life."

The Fairy Shangyang wiped off her blood and tears. Her body was still in a state of confusion, and her surroundings which were right around the edge of disappearing, were immediately destroyed. She nervously looked around, waited for Holy Son of Confusion to appear, waited for him to take the initiative and speak to her.

Because Mo Xiaolang was still engulfing the Everlasting Sacred Flame, Long Chen accompanied her and waited with her. The reason they were waiting was because Long Chen already knew the answer to that question. The answer was that the Holy Son of Confusion would not appear.

However, the Fairy Shangyang still used its last bit of time and desire to look at the Eternal Whirlpool.

"I ..."

Her gaze was simply too profound.

However, the shock of reality made her tremble with power, and when she realized that she could no longer persevere, the person she had to wait for did not appear.

"I've waited for so many years, don't you even look at me for the last time?" In the end, Fairy Shangyang began to sob and cry. She blankly looked at the entire universe. The exalted Hierarch was now no longer as pitiful as the simplest of mortals.

Ordinary people could have simple love, but she couldn't.

Long ago, she had fallen in love with someone who could never be.

"Thank you for accompanying me to the end. I'll be leaving first." Fairy Shangyang glanced at Long Chen with her frail eyes, and there was no longer any hatred in them.

"Let me ask you a question." Long Chen said indifferently.

"Go ahead."

"If I gave you a chance, would you still follow him? Do you still want to kill me? I mean, if it's up to you to do it again. After all, I don't want to kill you at all. "

"Oh." This was a terrifying question for a commercial sheep. But before he died, before everything turned blurry, this answer suddenly became clear.

She suddenly laughed and said, "If I can repeat myself, I want to have a life that belongs to me alone. I want to exist in this world for myself. "

"Then that's good."

Glad she was free.

Long Chen's useless act of bringing the dead back to life had already been prepared for her.

Chapter 3072 - Never Go Back

Amongst all of Long Chen's rules, the rules of life were a little unique.

For example, the Flame of Life, that was a rule that Long Chen had comprehended a long time ago. Now that it had become more and more powerful, it could be of great use to him.

There was even less of a need to talk about reviving the dead.

This was simply something Long Chen could rely on even more. The value of a single rule was not inferior to that of a Primitive Creation Deity Equipment, and it might even surpass that.

As for the decision he was making now, of course he had thought about it and started from the bottom of his heart. Today, Long Chen's desire to kill already wasn't as strong, because he saw things from a further distance. He knew who the true enemy of this world was.

Fairy Shangyang was not an enemy, even Holy Son of Confusion was not an enemy. Of course, if the Holy Son of Confusion insisted on fighting to the death with Long Chen, then he would be the enemy.

And this Fairy Shangyang and Long Chen didn't have this level of competition.

After answering Long Chen, Fairy Shangyang closed his eyes and disappeared in despair. And at this time, Long Chen suddenly appeared by her side. Fairy Shangyang felt it as she opened her eyes which were filled with blood and a dark green ring on Long Chen's palm.

"What are you going to do?"

Her voice was very weak, very thin.

"I'll let you be reborn."

Long Chen was concise and capable.

"Resurrection of the dead."

The power of the Ancient Code was activated, and now he had even more power to support his revival. The effect was even stronger, and in a short period of time, the Fairy Shangyang was enveloped by a green torrent, and after the torrent surrounded her, it was like a green cocoon was spinning peacefully in the center of the everlasting whirlpool.

About a quarter of an hour later.

"Phew ..."

Dressed in a cyan long skirt dotted with various treasures, she stepped out. Her face was rich with luster, her skin was as smooth as water, and her eyes were as bright as the stars in the night sky. Looking at her appearance, it was obvious that she had been reborn.

Real life.

Following this, the jade-green halo on Long Chen's hand dimmed.

"I ..."

Fairy Shangyang looked at him in disbelief.

Her expression kept changing, pleasant surprise, confusion, helplessness, and confusion. In the end, her gaze fell on Long Chen. She was clear that she did not die, but instead lived well, and all of this was thanks to Long Chen.

"It was you who brought me back to life. Sure enough, you are so magical, you are the creator of miracles." So it turns out that it's impossible for me to kill you. You can bring me back to life, or you can bring yourself back to life. "

After his rebirth, Fairy Shangyang was in a daze for a long time.

"That's right." Long Chen said.

"Why did you save me?" Fairy Shangyang stared at Long Chen, she really wanted to know the answer.

Long Chen said: "Nothing else, I think I'll do whatever I have to do."

"You're not worried. After my rebirth, I once again brought you danger. After all, I'm not weak either. I have followed the Holy Son for thousands of years, it is impossible for me to betray him like this. "

Long Chen laughed, then shook his head: "First, I've asked you, I believe that everyone has moments of despair. Secondly, up to this day, you are no longer a threat to me. There is no difference to me if there is one more you and one less you. "

"Oh ..." Fairy Shangyang nodded her head, her answer was different from what she had expected. But after some thought, what Long Chen said was the truth, and she was no longer a threat.

"In addition, you have brought me to a new peak. This life is my reward to you. I don't care what you do next, but just remember what you felt before you died, just remember what you said. "

The last sentence moved the Fairy Shangyang greatly. Tears rolled down her fair face as she said, "I remember, so I naturally remember. How could he forget? Forget it, it's all over, all the new students. I don't want to do anything right now, I just want to leave this place, find a place and stay here quietly for generations. "I don't want to see anyone looking for me anymore."

"But this is a time tunnel. If you are unable to leave, the Holy Son of Confusion will not let you live in peace, especially after I rebirth."

Long Chen pulled the Fairy Shangyang back to reality.

Then, he said, "Since you want peace, I can provide you with an environment where you don't have to encounter the Holy Son of Confusion."

Fairy Shangyang asked: "You're right, your Death Realm right? That's the best place. I'll let you in, let me in. "

Without saying a word, Long Chen opened the Death Realm's Dragon Gate and let the woman in. She did not hesitate at all, as this was the moment where she wanted to escape Holy Son of Confusion the most.

But now, it was Long Chen who had saved her. In such a violent contrast, she no longer held even the slightest bit of hatred towards Long Chen. Long Chen had given her peace and quiet. After entering, she did not make a sound as she directly sank into the depths of the blood ocean, as if she was in a deep slumber, submerged in blood.

"It looks like she's determined to leave the Holy Son of Confusion." Li Xuanji watched the scene silently.

"Xuanji, you are a woman. Do you think she can do it?"

"I can and will never look back."

Li Xuanji said very decisively.

"After all, not every man is like you. It's worth it." She added at the end.

Long Chen was flattered so much that he had lost interest.

From start to finish, the Holy Son of Confusion had been chasing after the kitten's body. However, at this time, Mo Xiaolang had also achieved great success, and it could be seen that he had already swallowed the Everlasting Sacred Flame.

An intense confrontation between the three kinds of Ancestral Flames and the Everlasting Sacred Flame was unfolding between his body. The Everlasting Sacred Flame wanted to escape, but the three kinds of Ancestral Flames were desperately suppressing it, wanting to transform the Everlasting Sacred Flame into a member of their group!

Black! White! Green! Colourless!

The Diremonster Wolf God's body was enormous, but the four kinds of Ancestral Fires had completely engulfed him. The center of the Eternal Whirlpool glowed with a fiery light as it boiled with heat.

"The wolf cub is basically fine." Long Chen could clearly see that within Mo Xiaolang's body, the three kinds of Ancestral Flames had already gained the upper hand. Before long, he could engulf the Everlasting Sacred Flame, and Long Chen had opened the door to the Living Realm, allowing Mo Xiaolang to enter through. Now, he could completely drag the Everlasting Sacred Flame into the Living Realm, and even control it, so as to not let the Everlasting Sacred Flame destroy the Living Realm.

"Brother, aren't you afraid of that Fairy Shangyang playing some tricks?" Even though Mo Xiaolang was engulfing the sacred fire, he was also watching the entire scene.

Long Chen said: "Don't worry, not only will she not, she will also be our partner in the future."

His confidence came from Li Xuanji, who would never be wrong to make such a judgement. She could tell that Fairy Shangyang had given up. Furthermore, she seemed to be imprisoned inside the Death Realm, unless Long Chen released her.

"Then that's good." In the Living Realm, Mo Xiaolang focused on digesting the Everlasting Sacred Flame.

"Big brother, maybe after a few days, I can break through to the realm of a Sovereign God!" Mo Xiaolang's mood was of course also excited.

The Everlasting Sacred Flame would obviously be of great help to him!

At that time, the demon wolves would have a huge combat power!

Furthermore, with the increase in Long Chen's strength, Li Xuanji had become a part of his strength. Just by splitting it up with Li Xuanji, he was comparable to, and could even defeat a Divine Sovereign.

Of course, Ling Xi was also making terrifying progress, so her speed was faster than ever before.

Of course, in the team, the truly strongest was still Long Chen. Unless the little kitten found its original body and quickly recovered its strength, Long Chen might very well surpass it.

"Cat, it's starting!"

The Power of the Dragon God of All Things!

Long Chen used the Primeval Dragon Pagoda to protect Little Cat, then grabbed his arm and rushed into the Everlasting Whirlpool. Like the Holy Son of Confusion, he started to chase after the head of the Reincarnation Godly Beast.

When Cat came out of the Divine Kingdom, her perception was much stronger. After all, that was his body.

"Let's head in this direction. Let me take a closer look."

Both of them were as fast as blood strings and as sharp as spikes, as they fought against the Eternal Whirlpool.

Long Chen suddenly thought of a problem.

"Can I ask you a question?"

He said to the Fairy Shangyang in the middle of the Death Realm.

"Go ahead."

"From the Ruins of Time to the Tower of Time, how did the Holy Son of Confusion get to that space in the middle?" He had relied on the Destiny Killing Technique to get here. Obviously, the other party did not know how to use the Destiny Killing Technique.

Fairy Shangyang hesitated.

But she quickly said, "He is the same as you, he also has a Creation Divine Artifact from the primitive level. It was a Time element Creation Divine Tool. It was called the 'Great Void Demon Sword'. The Great Void Demon Sword had the time and strength of the best in ten thousand worlds, and he relied on the Great Void Demon Sword to break it open. Of course, he relied on the Great Void Demon Sword to search for it. "

"So that's how it is."

Long Chen understood.

Since Shang Yang dared to say this to Long Chen, it probably meant that she had thought it through.

"He just spoke to me. I told him that you revived me and then imprisoned me in the Death Realm. "

"What did he say?"

"He said to save me after he kills you."

"Are you going to wait?"

"It all depends on your fate. If you win, I might be able to leave and escape." If you lose, I can only continue to follow him. He might not let me go. "

After all, she still had a lot to do with him, so it was impossible for her to break away from the Holy Son of Confusion.

After all, she had her own world.

"Forget it, for my freedom in the future, I'll just give you another piece of news."

Fairy Shangyang knew that she was doing something to betray Holy Son of Confusion, but now, she desired freedom more and more.

"Go ahead."

"The Anarchic Demoness is here. He just broke through the Ruins of Time and came to the Tower of Time. He is currently in the midst of the Tower of Time and is trying to find a way to enter the Everlasting Whirlpool."

Chapter 3073 - Hierarch Wolf

"So fast?"

Long Chen had thought that the Ruins of Time would trap him for a very long time.

"The Patriarch possesses Perfection. Being one of the four Chief Sovereigns of this world, being a level higher than us was normal. "You can barely contend against the Saint Child with your current strength, but if you were to meet the ancestor, it will definitely be a completely different story."

Even if he was defeated by Long Chen, Fairy Shangyang still didn't think that Long Chen had much of a chance of winning. She understood Long Chen, but she understood him more than she did the Holy Son of Confusion.

"Alright, that's why I need to find it faster, so I can quickly find it before the Holy Son of Confusion does."

At the same time, he had to get everything before the arrival of the anarchist.

Otherwise, if anarchist and Holy Son of Confusion joined hands, he would definitely not be able to snatch away the other kittens' original bodies. It was even possible that he would be killed by the two peak-level powerhouses of the Monster race.

The disturbance from the Everlasting Vortex was still huge. Fortunately, Little Cat was able to find it, so Long Chen was able to go through countless hardships to chase the original body.

During this process, Mo Xiaolang finally completely digested the Everlasting Sacred Flame, turning it into a part of his body.

From then on, he controlled the existence of the four Ancestral Flames.

Compared to the other three types of Ancestral Flames, the biggest characteristic of the Everlasting Sacred Flame was 'Eternal Burn'. This was an Ancestral Fire that was difficult to extinguish. As long as one was infected with it, there was basically no way to eliminate it. It could only cause the Everlasting Sacred Flame to be entangled for a long period of time, causing it to constantly be damaged.

At the same time, the Everlasting Sacred Flame could also fuse with other Ancestral Flames, transferring the nature of the Everlasting Flame to other Ancestral Flames. For example, it could cause Mo Xiaolang's opponent to be burned by the Nine Hell Devil Ancestral Flame for all eternity, like a curse following a shadow.

That wasn't the point.

After engulfing the Everlasting Sacred Flame, Mo Xiaolang had nearly controlled half of the Ancestral Flame. It was almost at the same level as the amount of blood essence Long Chen had. The Everlasting Sacred Flame also allowed Mo Xiaolang to reach his limit. When Long Chen entered the realm of Divine Emperor, under the effect of the Everlasting Sacred Flame, Mo Xiaolang unleashed the unparalleled engulfing and digesting abilities of the Heaven-Devouring Race, reaching the realm of a Sovereign God!

Tai Yi Shen Jing!

In the Divine Spirit Realm, the last level.

From the beginning of Tai Chi, to now, it was too easy. Mo Xiaolang did not spend too much time either, but his improvement was extremely fast.

After reaching such a level, their combat prowess would naturally skyrocket. Now, with the addition of the four kinds of Ancestral Flames, Mo Xiaolang's transformation was not as peaceful as before. Without Long Chen's Divine Manifestation Weapon, he would have caught up to him already.

Moreover, the nature of the Heaven-Devouring Tribe was that they never stopped. Everyone has their limits, Mo Xiaolang still doesn't have his limits.

In the future, he could swallow even more.

But the premise was that there was still something in the Ten Thousand Worlds that he could devour.

To them now, the Ten Thousand Worlds no longer seemed mysterious. However, Long Chen knew clearly in his heart that there were many things that he was completely unsure of. For example: The land of origin of a divine dragon, or the beehive of the universe, etc. There were even places that existed in the depths of the starry sky, places that no one had noticed.

Mo Xiaolang began to consolidate the realm of the Sovereign God.

Ling Xi was taking care of Long Yan in the Living Realm, while Long Chen and Little Cat were making the best use of their time to travel through the Eternal Whirlpool. If it was an area where time was accelerating, it would be okay as long as they were in the center of the Eternal Whirlpool where time was slowing down.

This was a fight against time!

"The Holy Son of Confusion is definitely relying on that primitive level's Great Void Demon Sword right now, as they frantically searched for the position of the main body. and you're chasing it like we are. "

In truth, that main body's movements were extremely fast. Under the influence of the entire Eternal Whirlpool, constantly changing positions, in the blink of an eye, it was about to disappear into the distance of ten million meters. The entire Eternal Whirlpool was like a world of Eternity. Compared to the Eternal Whirlpool, Long Chen was like a speck of dust compared to a small town.

To find something the size of a thumb in a small town, one could imagine.

"The change is too fast!"

"Closer! Closer!" It seems to be heading towards us! "

"It's not far, it's coming!"

Every time the kitten reminded him, it would scream.

was basically unable to see anything within the violent turbulence of the Eternal Whirlpool. However, when the kitten was at its most excited, suddenly, a white light flashed in the distance. Long Chen could

see it clearly, it was a white jade dragon head, it was just that the distance was a little far, as to how big this white jade dragon head was, he couldn't really see it clearly for the time being.

However, he was certain that it would be even bigger than what he had seen before.

"Chase after him!"

The little kitten confirmed that it was the white jade dragon head and immediately urged Long Chen on. Of course, before his physique, Long Chen had already charged over with his fastest speed. That white jade dragon head could be said to be extremely fast, Long Chen had exploded his speed to the maximum, and chasing after that white jade dragon head felt like she was being gradually thrown off!

Furthermore, the changes in time surrounding him were so severe that it had a huge impact on Long Chen.

In this chaotic place, the door of the universe was not suitable for use either.

"Fortunately, I left the Death Realm Dragon Gate in almost all the places I passed. If only the white jade dragon head had passed through my arranged Death Realm Dragon Gate. "

Just like the battles in the beehive in the universe, Long Chen chose this method. As long as he took over this place like a spider, he would have the upper hand in the battles later on.

After chasing for an hour, he still could not catch up to the white jade dragon head, and was swept away by it. The kitten also lost sight of the white jade dragon head for a while. Perhaps, the caster and the white jade dragon head had entered a special area.

Without a goal in mind, Long Chen calmed down and calmed down.

Although time was short, it was useless to be nervous.

The moment he stopped, he felt an extremely powerful and berserk power coming from behind him, which posed a threat to him. He was originally not going to attack Long Chen, but rather, he was chasing after the kitten itself.

They met on a narrow path!

In the small town, a speck of dust had actually met another speck.

Holy Son of Confusion!

He actually arrived.

Obviously, he had traced the path of the Reincarnation Godly Beast to this place. That was why the two of them were able to bump into each other at this place. Even Holy Son of Confusion was shocked when they met.

"It's you."

Long Chen squinted his eyes, he noticed that Holy Son of Confusion was holding onto a sword, an illusionary, formless blade. However, it was different from the Dragon Pagoda's illusory and formless appearance. It was the same as the illusion of the Great Void Cosmic Dragon! This divine sword gave Long Chen an overwhelming power of time. It was as if it was the condensed form of countless worlds, possessing a sharpness that surpassed even the Ghost Blood Curse. It was one of the most terrifying weapons that Long Chen had ever seen!

Especially, the power of time that the sword possessed, Long Chen was simply too obsessed with it.

A single sword seemed to be able to control the flow of time in the entire universe.

Clearly, this was the most supreme creation artifact in the entire Allworld! There should not be more than ten types of Creation Divine Artifacts of the primitive level in the entire Myriad Realms. This should be the sacred artifact of time: the Great Void Demon Sword.

The difference between the Dragon Pagoda and the Dragon Pagoda was that the Great Void Demon Sword was a purely offensive Creation Divine Weapon. In terms of attack level, it was definitely stronger than the Dragon Pagoda. The advantage of the Dragon Pagoda lay in its defense.

Just looking at it, this sword made Long Chen's heart move.

Unfortunately, this was the enemy's weapon. Even if Long Chen had more time to practice, the Great Void Demon Sword would still be filled with killing intent towards him!

When their gazes met, it was as if a moment of destiny had descended.

"It seems that you defeated Shang Yang and imprisoned her. Bring her back here first. " He did not ask Long Chen about the reason why he was able to save Fairy Shangyang.

Long Chen said straightforwardly: "Of course you can. However, there is one condition, and that is: Give me the three things you have obtained from the time tunnel. I'll release them right away. "

Although he said that, of course Long Chen didn't think that way, he was just confirming it for the Fairy Shangyang. Holy Son of Confusion definitely would not agree to it.

The man seemed to have expected this. He said lightly, "Looks like this is the reason why you saved her."

"What do you think?"

"No need. If I kill you, I can save her as well. "

Long Chen laughed, and said: "Then if I use her life to threaten you."

The Holy Son of Confusion did not reply this time as he pointed the Great Void Demon Sword at Long Chen. When that cold killing intent descended on Long Chen's body, he said, "Don't waste time. Since they encountered each other here, they decided to end the matter by splitting the life and death between them. The living would obtain everything, and they would then pursue the crucial part. The dead naturally died forever, losing everything. I think you also like speaking with strength. Otherwise, you wouldn't be able to continue pestering me. "

He temporarily gave up on chasing after the white jade dragon head, and now all his attention was on Long Chen.

Long Chen had a conjecture that there was a competition between him and the Anarchic Demoness. That was why he was in such a hurry.

Neither of them wanted the Anarchic Demoness to mess things up, and there had to be a battlefield between them. Thinking about that, Long Chen also made his preparations, the time to test his strength

had come. After being entangled with the Holy Son of Confusion for so long, the outcome of the battle was decided right here!

For a moment, everyone was nervous.

Hu hu!

In the Eternal Whirlpool, the time storm was too large. The two could only barely stabilize their bodies on this battlefield. Otherwise, once the gale blew and time energy swept out, it would truly be difficult to fight.

When his opponent used the Great Void Demon Sword, Long Chen's Primeval Dragon Pagoda merged with his body, causing him to become indestructible and even more unyielding.

And then, it was about to explode!

Suddenly, Long Chen felt a pleasant surprise, a very great surprise!

Chapter 3074 - Bold Decisions

This pleasant surprise was: The white jade dragon head had slowed down just now, and should have encountered an area where time had slowed down. And right after this area, Long Chen had left a Death Realm Dragon Gate at this location.

This meant that Long Chen could instantly arrive in front of the white jade dragon head.

Then, in front of such a huge advantage, why was he fighting him here to the death?

Right at the moment when the Holy Son of Confusion's killing intent was surging and the Eternal Whirlpool was about to take action, Long Chen suddenly summoned the Death Realm's Dragon Door, and his body quickly disappeared inside.

"I won't be accompanying you for now!"

"You want to escape?"

The Holy Son of Confusion didn't expect Long Chen to escape at this time, but Long Chen was already so fast. The two were already very far away, and with the effect of the eternal vortex, when the Holy Son of Confusion arrived at Long Chen's location, he disappeared along with the Death Realm's Dragon Door!

The expression of the Holy Son of Confusion became even gloomier!

"This trash."

Just as the decisive battle was about to begin, the other party chose to flee. This feeling was naturally difficult to bear, and it only made him angrier. It was just that before this moment, he had wanted to quickly obtain the important things. He did not expect Long Chen to chase after him so quickly, if he had known that was this strong, he would have immediately attacked him outside of the time tunnel.

Holy Son of Confusion quickly used the Great Void Demon Sword and felt the location of the white jade dragon head.

"It seems to have slowed down."

Then, he quickly thought that it was very likely that Long Chen had left to chase after the white jade dragon head.

"Damn it!"

Holy Son of Confusion let out a furious roar, causing the entire Eternal Whirlpool to tremble and the surrounding time storms to fly away. This was the power of dust.

Then, he burst out with full speed, and chased after Long Chen.

After Long Chen appeared in this position, the slower white jade dragon head had yet to arrive. After arriving here, he had already made his preparations. A few breaths later, he saw a streak of white light breaking through a large number of storms and heading in his direction from the depths of the void in front of him. Long Chen had already made his preparations. Just as the white jade dragon head

appeared in front of his eyes, he immediately transformed into the Primordial Blood Spirit Dragon and wrapped himself around the white jade dragon head's dragon horn!

"So big!"

This white jade dragon head was much larger than the ones she saw in the Ruins of Time. They were older than the ones on the fourth floor of the Tower of Time. Long Chen turned into a Divine Dragon and wrapped herself around the dragon horn, just in time to catch up with the white jade dragon head's speed of teleportation.

Sou sou sou!

The white jade dragon head's speed was changing rapidly, and with Long Chen's constant entanglement, with his abilities, he wouldn't get thrown out. When it stabilized, Long Chen immediately transformed into a Great Void Cosmic Dragon.

Time Ancestor Dragon!

It was easier and more convenient this way.

"To break open this white jade dragon head and obtain the head of the Reincarnation Godly Beast, I need to use the time and speed up the process."

Long Chen had made unprecedented progress in terms of power. Being able to control the Primeval Dragon Pagoda and use more of the Dragon Pagoda's power, it was normal for him to unleash even stronger power of laws.

Cat held her breath. He had been waiting for this moment for a long time.

Holy Son of Confusion chased for a long time, but he never thought that Long Chen would still beat his to it.

At this moment, the Primeval Dragon Pagoda appeared on the Great Void Cosmic Dragon's body.

Long Chen's Great Void Cosmic Dragon body stirred, transforming into a heart of time. Every beat of his would strongly suppress the surrounding time for rebellion, causing the surrounding space to instantly become still.

"Great Void Heart!"

A large amount of time was drawn out and used on the white jade dragon head, increasing the time on the white jade dragon head by hundreds of millions of times. The entire white jade dragon head stopped and was no longer affected by the energy of the Everlasting Whirlpool, but started to tremble before Long Chen's eyes, and started to emit sounds that seemed to be caused by a crack.

Kacha, kacha!

The surface of the white jade dragon head gradually dimmed, and gray lines appeared on it. Such a huge change in such a gigantic white jade dragon head was indeed very frightening.

But at this time, Long Chen was also sweating profusely, he realised that this white jade dragon head was just too big, it was too difficult to trigger his conditions. Now, Long Chen seemed to have pushed his own strength to the limit, but he realized that the white jade dragon head was actually split open on the surface, at the core, there was still at least half of it, and it was still sturdy, indestructible!

Persistence!

For the sake of Cat and for the sake of everyone's future, he gritted his teeth and persevered on.

He activated the The Power of the Dragon God of All Things crazily, and with the help of the Dragon Pagoda's God of Creation, he fused them together, forming the power of time acceleration. He drew more time for the white jade dragon head to be motionless, and released it onto the white jade dragon head!

The acceleration of that position had even exceeded the limits of the entire Ten Thousand Worlds, but this was after all, a Great Void Cosmic Dragon's item and it was something he used to seal the

Reincarnation Godly Beast. How terrifying were the Great Void Cosmic Dragon back then? It was normal for the current Long Chen to be unable to break it.

As time passed, the entire white jade dragon head remained motionless in the Eternal Whirlpool. Actually, this was extremely advantageous for the Holy Son of Confusion. He was closing in at a terrifying speed.

As time passed, Long Chen gradually realized that he had already reached his limit. No matter how hard he tried, it would be of no use. There was a limit to how much time he could transfer. With his current level of strength, he was still unable to break through white jade dragon head of this level.

"The Holy Son of Confusion should also be unbreakable. Last time, a white jade dragon head was only half the size. It just so happens that he has added the limits of the Great Void Demon Sword. "

Fairy Shangyang said.

Others might not know whether her words were true or false, but Long Chen knew that it was true. In the area of time, he had a certain amount of confidence that if his opponent had the Great Void Demon Sword, if they were able to surpass him by two times, they would already be at the level of the Anarchic Demoness.

"I never thought that when we crazily chased after the white jade dragon head, the end result would be that neither of us could break through it. I can't take away the head inside. "

Long Chen gave up first. He put away the rule of the Great Void Sect and let the white jade dragon head continue to run in the whirlpool of Eternity. This way, the Holy Son of Confusion wouldn't catch up so quickly, and during this period of time, Long Chen, the Divine Kingdom and everyone in the Living Realm were all thinking of a way.

"Boss, doesn't this mean that we have no other choice?" Time seemed to be running out. After all, if the Anarchic Demoness were to join, they would have the power to suppress us. That would be troublesome. "

The kitten was as anxious as an ant on a hot pan.

Long Chen understood. He closed his eyes and thought for a while, then said: "You're right. Anarchic Demoness could appear here at any time. To ally with the Holy Son of Confusion, that way they would have the strength to break through the white jade dragon head. The things inside would belong to them sooner or later. And at that time, I don't think we could have gotten anything else from them. Therefore, the only conclusion we have is that we must obtain everything before the arrival of the Anarchic Demoness. "

This is an important prerequisite.

"Then what should we do? Deal with the Holy Son of Confusion first, then think of a way to break out of this place? " The kitten meant that the more he got, the better.

But Long Chen shook his head and said: "Wrong, without Holy Son of Confusion, even if we had gotten the other two legs and torso, we wouldn't be able to get this head. and in the future, they will only be able to fight against Anarchic Demoness. "

"Big brother, what do you mean?" Mo Xiaolang seemed to have guessed what Long Chen meant.

Long Chen turned his head to look in the direction of the Holy Son of Confusion and said, "Looks like I need to go all out. We can look at it in terms of the overall picture. Therefore, I can choose to join hands with Holy Son of Confusion and break this white jade dragon head. First, I can let the kitten's head out, and then no matter who gets the head first, the relationship isn't really that big of a deal. After all, there's definitely going to be a fight between us and the Holy Son of Confusion, and he wants to settle everything before the arrival of the Chaotic Demon Clan. Therefore, the most important thing is still the outcome of the battle, and not who gets the white jade dragon head from the start. "

Everyone understood.

Long Chen was right, if he wanted to settle this matter before the Anarchic Demoness arrived, he had to go all out, and place the challenge of fighting the Holy Son of Confusion. After all, it was supposed to be a life and death struggle.

If he was in a hurry, it didn't matter who the cat's head belonged to first.

This time, he was only trying to slow the white jade dragon head down as much as possible so that it would be closer to quieting down in the center of the Eternal Whirlpool. That way, it would be much easier for the Holy Son of Confusion to catch up.

When the white jade dragon head was still, it was like a bright light in the sky to the Holy Son of Confusion. He meant that Long Chen was trying to think of a way to shatter the white jade dragon head again, to the point where he had to push himself to the limit in fear. After continuously teleporting through the chaotic everlasting whirlpool, his speed was extremely fast.

At that moment, Long Chen was standing on top of the white jade dragon head, his red and black robes fluttering in the wind.

Before he dispelled the Great Void, Holy Son of Confusion had already chased after him. Seeing that Long Chen did not make a move, he was worried that it was a trap, and did not immediately rush up, but seeing that the white jade dragon head was still there, and was only slightly damaged, he felt more at ease.

"You don't have to pull any tricks." Holy Son of Confusion stopped right in front of the white jade dragon head, squinted his eyes, and looked at Long Chen, wanting to see through him.

"I really don't like tricks either."

"Then what are you doing?"

Long Chen waved his hand, and said very frankly: "To be honest, I am unable to break through this thing, so I guess you are about the same. "If you don't believe me, you can try."

Holy Son of Confusion frowned.

Actually, when he first saw the size of the white jade dragon head, he was also shocked. Back then on the fourth floor of the Tower of Time, that white jade dragon head exhausted all of his strength to barely break through. This one was twice as strong, so he actually didn't have full confidence in breaking through. So in essence, he knew that Long Chen wasn't wrong.

"Then what do you want to do?" Holy Son of Confusion asked.

Chapter 3075 - Strength of the Anarchic God of Chaos

"Let's first break this thing open. I am too lazy to waste my time, so I'll fight you afterwards. In the end, it will depend on our own strength to obtain everything."

Long Chen said very straightforwardly.

From the Holy Son of Confusion's perspective, he did not know that Long Chen already knew of the news of Anarchic Demoness's arrival. However, his mood was the same as Long Chen's; This was something he yearned for even in his dreams!

"Who the hell is this guy?"

The kitten was also very strange. Why was he so interested in his own body? The Holy Son of Confusion might not even be able to answer this question. Even now, he and Cat had yet to meet face to face.

"Alright." The Holy Son of Confusion answered straightforwardly.

They were all experts of the world, the strongest of the four Chief Sovereigns. There was no need for them to use low-level items at all. At this moment, they stood at the other end of the white jade dragon head, maintaining a certain distance from it.

"The moment the white jade dragon head is destroyed is the moment the battle begins."

Long Chen was very clear about this in his heart.

The other party knew this as well.

But at this moment, their faces were cold and detached as they busied themselves with their own matters. At this moment, the Holy Son of Confusion held the Great Void Demon Sword tightly in both his hands, and a monstrous force of time engulfed his body. A gray fish scale appeared on his body, it was the fish scale that belonged to the Time Kun.

Long Chen could finally understand this Leviathan Ancestral Beast.

Three peak-level demon clan bloodlines gathered on his body: Space, Devour, and Time. The space inside was: space eating tiger. Swallowing: Eclipse. Time: Time Kun.

The three types of bloodlines, 'space eating tiger', 'Eclipse' and 'Time Kun', allowed the Lurker Ancestral Beast to become the number one demon beast. He was definitely a supreme member of the demon clan!

Holy Son of Confusion and Anarchic Demoness were the same, both had Infinite Divine Arts with primitive level.

The Lurker Ancestral Beast had an ancestral Infinite Divine Art called the 'Lurker Ancestral Codex'. The 'Chaotic Ancestral Scripture' was born with the power of the Anarchic God of Chaos. This was a type of divine power that was at the peak of the Allworld. It was characterized by chaos, and chaos was a type of terrifying attack. The more chaotic it was, the more powerful it was.

In any direction, the Holy Son of Confusion was not weaker than Long Chen.

This was also the reason why Fairy Shangyang felt that even if Long Chen were to break through again, he might not necessarily be Holy Son of Confusion's match.

"River of Time."

The Holy Son of Confusion did not care about Long Chen, he the first to make a move, this white jade dragon head had already been destroyed by Long Chen, but it had completely recovered. He needed to destroy it once more, and at that moment, the Great Void Demon Sword's illusionary body directly pierced into the white jade dragon head's body.

Under the increasing speed of the attacks from the Waves, the white jade dragon head's time also accelerated at a terrifying rate.

Then, Long Chen also started the process. He once again activated the Great Void Heart, and the two kept quiet, using their respective energy of time to urge the white jade dragon head to collapse. The two of them knew clearly in their hearts, that the most explosive battle would definitely break out the moment the white jade dragon head was shattered!

Fifteen minutes, half an hour!

Pah pah pah!

The white jade dragon head continued to emit cracking sounds, and the two of them quickly increased their strength. Time passed faster and faster, and it was unknown when the entire white jade dragon head started to shrink, as its surface had already turned into powder and dissipated into the air. The two of them were getting closer to what they wanted, and the atmosphere was getting more and more tense!

"Holy Son of Confusion is indeed powerful!"

Even if he himself had also reached this level, Long Chen still respected his opponent a lot. In terms of the power of time, his opponent seemed to be no weaker than him. There were even some that surpassed him. His legacy was powerful, but his opponent had the advantage of tens of millions of years of cultivation time.

In truth, when they were destroying the white jade dragon head, they paid the most attention to their opponent!

RUU...!

Later on, the white jade dragon head began to collapse.

Large amounts of powder and white light were produced.

In the Divine Kingdom, Living Realm, everyone was nervous to the extreme as they watched this critical moment.

At this time, Long Chen and Holy Son of Confusion had also made their preparations to fight! They had also experienced many challenges in order to reach this place and enter the final battle!

Long Chen could feel his opponent's dense, cold killing intent. Of course, he was not weak, it was just that the aura on his body was a little more bloody!

Hu hu!

Finally, at this moment, under their combined efforts, the white jade dragon head completely crumbled. With a loud bang, the entire white jade dragon head completely disappeared. Almost at the same time, it condensed into a ball of light in the middle of the two people.

"Hand of God!"

No matter how fast Long Chen was, his opponent was proficient in the laws of space, and had surpassed Long Chen in this area. Just like when he was in the Ruins of Time, he too had easily taken away the crystal calf that appeared after he broke through the white jade dragon head. The other party's palm had directly traveled through space and grasped the crystal skull in its hand.

Long Chen only glanced at the crystal head. It looked like a cat, but also like a tiger. There was not much difference between a cat and a tiger. If it was calculated this way, it could be considered to have something to do with this mixed Kun Ancestral Beast. After all, he had the bloodline of a space eating tiger.

The crystal head was taken away by the Holy Son of Confusion as expected.

Knowing that he could not compare up to the other party in this aspect, Long Chen was in no hurry to fight for it. Now that he had let go of this mindset, his fighting spirit had skyrocketed to an unprecedented level. In that instant, even his eyes had turned red!

"You are an opponent that I admire! Today's battle made me feel as if it was fate! Since it was fate, he had to be even more straightforward. No matter if he was dead or alive, all he wanted was victory! I can make an agreement with you here. If you win, I will get everything from you. If you lose, it's the same. I wonder if you have the guts to do so! "

Although the Holy Son of Confusion was indifferent, he was never ambiguous in battle.

"As you wish."

What answered him was a sentence that Long Chen said like a wild beast, at that moment, their eyes were clashing frantically in the eternal vortex. One was the peak-level bloodline of the Goblin Tribe, the other was the inheritor of the Primordial Divine Dragon Clan!

When the Holy Son of Confusion's Great Void Demon Sword drew a time trajectory and started to attack, Long Chen's Primordial Dragon Pagoda had already merged with it. The violent The Power of the Dragon God of All Things started surging, and with the God Power of Creation, it finally gathered onto

the Ghost Blood Curse in his hands! The Ghost Blood Curse was currently bearing power that exceeded its limit. To Gui Qi, there was only one word, and that was pleasure!

It was blood-colored, and illusory!

Even if the opponent was a Primitive Creation Deity Equipment, with the Primordial Dragon Pagoda's support, the Ghost Blood Curse had never been scared!

"Infinite Tracer!"

The Holy Son of Confusion did not say anything else and directly took action. In the chaos of the Eternal Whirlpool, he excelled at battle, and in the blink of an eye, everything changed. The entire world was the shadow of the Holy Son of Confusion, hundreds of millions of them, endless!

The problem was that each of them had a terrifying killing power, but none of them seemed to be real!

This was the space eating tiger, the power of the spatial laws.

This space eating tiger looked very much like the divine dragon Long Chen had fought before, Wang Chen and the Void Refining Demon Dragon.

If one were to say that the Void Refining Demon Dragon had the Origin Dragon Soul, reaching its peak would be about the same as this space eating tiger. Even the rules were the same.

Refining and devouring the void.

The Infinite Tracer, disappeared without a trace!

"Kill!"

A single word from a Holy Son of Confusion was akin to a trillion voices!

Just this sound alone was unimaginable, like the impact of a nightmare.

Long Chen calmed his mind and remained unmoved. At this moment, Ling Xi had become his eyes.

"Actually, he is rapidly changing in the surrounding space. It's just that his speed is too fast, leaving behind a shadow. So, as long as you are fast enough, you will be able to break this rule, and there will be nowhere for him to run. "

"Is that so?"

Knowing the theory made it much easier. But Long Chen could disobey his orders. Right at this moment, millions of Holy Son of Confusion s attacked Long Chen at seemingly the same time!

"Time Blade!"

Suddenly, the Great Void Demon Sword in the hands of billions of Holy Son of Confusion was covered with a layer of time energy that felt like it was tearing apart as it charged towards Long Chen! His first move was a destructive killing intent! Not many people were able to withstand such a massive attack!

However, Long Chen was not flustered at all, the Ghost Blood Curse swept out, the power of the Great Void Sect condensed into the sword, the power of time carried by the Swastika Symbol, immediately flew out!

Ding!

Under Long Chen's control, all of the Holy Son of Confusion who were rushing over to him disappeared one after another. Within the time that Long Chen controlled the situation, even if the opponent's speed was any stronger with the help of the space, Long Chen had found his position!

"It's too fast!"

Clang!

At that moment, the Blades of Time and the Great Void's heart collided!

In truth, Holy Son of Confusion wanted to kill Long Chen right away, but he did not expect his Infinite Tracer to be broken, and the Time Blades to be blocked by Long Chen. This was the collision between the Great Void Demon Sword and the Ghost Blood Curse! The Time Blades had the power to tear apart anything they touched, but they were blocked by the Dragon Pagoda!

This was the failure of the Holy Son of Confusion's attack!

However, Long Chen's Swastika Ghost Blood Curse had fused together with the acceleration of time, rushed up the Great Void Demon Sword, and crazily spread towards the Holy Son of Confusion. Seeing this scene, the Holy Son of Confusion instantly disappeared in front of Long Chen's eyes, and appeared ten million meters away!

When he attacked Long Chen, Long Chen actually forced him to move aside!

"Awesome!"

Holy Son of Confusion was sincerely regretful. In all of the realms, there weren't many people who could stop his space-time rules from combining. You can count them on your fingers. Today, there was one more Long Chen, and it looked like Long Chen had casually blocked it!

"It's my turn!" With a loud shout, Long Chen released a ray of blood-red light, and a sea of blood surged behind him. Because of the expansion of his power, the sea of blood became even more majestic and released, he also instantly crossed a distance of ten million meters. When the Ghost Blood Curse used its most proficient slaughtering power, Long Chen's entire body was dyed with blood, as he had already become a peerless god of slaughter!

This battle was just the beginning!

Chapter 3076 - Devouring Chaos

The Death Realm's Killing technique was condensed on top of the Ghost Blood Curse. The sea of blood behind him was several times larger than it used to be. The endless blood water was simply enough to flood the entire world.

In Holy Son of Confusion's eyes, the third eye between Long Chen's brows was glowing with a penetrating blood-colored light, as if a blade was piercing towards him. Just this light alone was a devastating attack!

Boom! Boom! Boom!

Right now, the sea of blood had already condensed on top of the Ghost Blood Curse, and the Manifestation Divine Power of the Yuanshi Dragon Pagoda and Long Chen's The Power of the Dragon God of All Things had crazily fused together. Following the eruption of the Ghost Blood Curse, the curse of the Ghost Blood Curse — the swastika word, the three types of power and the rules — struck down when Long Chen had traversed ten thousand meters!

Swish!

A dragon-shaped Sword Qi descended from the sky, its killing intent was boundless, the light was boundless, but under the dragon-shaped Sword Qi, the Holy Son of Confusion appeared to be extremely small!

With the support of his tyrannical power, the power of the Death Realm's Killing technique had increased who knows how many times!

Seeing the violent dragon-shaped Sword Qi descending, Holy Son of Confusion did not panic.

She knew that Long Chen was currently fighting with Holy Son of Confusion and this was what she was most conflicted about. The past days were still lingering in her mind, but she could not forget the previous scene and that it was Long Chen who revived her.

She could only be a spectator and watch this battle. Afterwards, she would hand over her future fate to Long Chen and Holy Son of Confusion.

"I think, I hope Long Chen can win even more."

This feeling in his heart made Shang Yang feel very strange. In the past, she would never have imagined that she would have such an idea.

Just as her thoughts were changing, in the outside world, in order to counter Long Chen's assassination, the Holy Son of Confusion suddenly let out an earth-shattering screech. It was the cry of a bird, the power of a Eclipse! The Eclipse and the Heaven-Devouring Tribe weren't related, but their names were similar. Eclipse specializes in the law of devouring. What was different from the Eclipse clan was that his Eclipse Incantation could only devour but not digest. It was very difficult to assimilate the other party's energy into his own.

"Golden Roc Swallowing the Heavens!"

In the blink of an eye, a golden phagocytosis vortex appeared under Long Chen's sword. That vortex was spinning crazily, like a violent storm, and with frightening speed, it tried to swallow Long Chen at the center of the vortex! Long Chen had been moving in that direction to begin with, and now that he was being pulled again, his speed increased even more!

In a split-second!

The dragon-shaped sword qi erupted, rushing into the golden vortex. With a ripping sound, the blood-red sword qi spread throughout the golden vortex. It was a type of death, a type of devouring strength combined together, creating a terrifying collision!

Long Chen truly felt that, up until now, they were all evenly matched!

If not for him gaining two breakthroughs consecutively, he would probably have been squashed by this Holy Son of Confusion.

BOOM!

Right in front of Long Chen's eyes, his Death Realm killing intent tore apart the golden vortex, and the golden vortex exploded outwards. Only then did the monstrous devouring energy disappear, and Long Chen managed to barely stop in front of the golden vortex, or else he would really be swallowed!

Swish!

He quickly left that place.

After the golden vortex, the Holy Son of Confusion appeared safe and sound.

"I didn't expect you to use this law of devouring as a defense." Long Chen said coldly.

It could be seen that the Holy Son of Confusion was just defending. If they were to fight Long Chen head on, there might be people who would be injured.

"You're thinking too much. It's just a test to see how far your attack can go." "It's nothing much." The Holy Son of Confusion said indifferently, as if the earth-shattering battle just now was something insignificant.

The two of them did not speak anymore. Under the intense tearing of the Eternal Whirlpool, they were almost forced to change their positions at the same time, but at the same time, they maintained the corresponding distance!

This was an extremely dangerous battle! Both of them were ensuring the distance between them, and neither of them moved while staying still. Both of them were observing their opponents to the greatest extent. When one of them took action, the entire battle would be triggered!

No one would have thought that one of the pinnacle battles in the Ten Thousand Worlds would happen in a time tunnel that no one could reach.

And it was such a close fight!

In that instant, Holy Son of Confusion was the first to make a move!

"That's enough. Facing an opponent like you is indeed worthy of mutual appreciation. Unfortunately, you insist on going against me. In that case, I can only kill you."

The strongest part of the Demon race was their original body. At this time, the Holy Son of Confusion had transformed into a grey, huge, as if half of their body was that of a tiger that had fused with space and void, they seemed to possess a longsword, with teeth that extended their lower jaws, mouth that seemed to have spatial vortexes, countless fur on their body, and every single hair on their body, it was as though a whole world was hidden inside them, and countless living beings were living within it!

"space eating tiger!"

This was one of the three forms of the mixed race's Ancestral Beast!

When the gigantic space eating tiger appeared in front of Long Chen's eyes, it was as if the dust had suddenly grown larger! But Long Chen was still just dust. After transforming into a space eating tiger, the Holy Son of Confusion's aura suddenly changed. At least for now, he could completely suppress Long Chen!

The Hegemon of space!

Roar!

A roar that could shake Heaven and Earth echoed through all worlds, through all ages!

Countless hairs stood on end in this Eternal Whirlpool, like a tidal wave or a river, as a pair of empty yet illusory eyes stared straight at Long Chen. This huge space eating tiger actually sneered in front of Long Chen.

Long Chen on the other hand, was alright. When the other party had transformed into the space eating tiger, he had already thought of a way to deal with this ferocious beast. Thus, at this moment, what appeared in front of the space eating tiger was a Taiji Creature Dragon with fifteen dragon heads!

The space eating tiger thought that with her peak Spirit Demon bloodline, she would be intimidated, but when the fifteen dragon heads of the Taiji Creature Dragon appeared in front of him, he was still shocked. Sure enough, the relationship between Long Chen and the time tunnel was very deep. This caused the Holy Son of Confusion to be even more nervous. He had originally thought that this was her territory, a place that she would enter in her dreams. But now, she realized that Long Chen might even do the same!

The battle for the dragon and tiger!

The Taiji Creature Dragon and the space eating tiger looked at each other coldly. The two fierce beasts were many times smaller than normal beasts and it looked no different from a battle between them. It just got bigger and it became scary. Although he did not have the Origin Dragon Soul, Long Chen still held the advantage in terms of bloodlines.

Roar!

Under pressure, the space eating tiger activated its unprecedented rule of rushing first!

"Devouring Chaos!"

Those who were familiar with the Holy Son of Confusion knew that these were the peak rules of the space eating tiger. If they did not meet a truly terrifying opponent, the Holy Son of Confusion would not have used it.

The battle began!

The ancient war was on the verge of breaking out!

People could not avoid the space. When the countless space had been frozen, Long Chen was also trapped in the frozen space and could not move at all. He was even more terrifying than Di Jun's Eternal Forbidden Area! Once the Primal Chaos Devourer was activated, the space eating tiger would rush over from the void and continuously devour the space, tearing countless spaces into pieces and making them descend right in front of Long Chen's eyes!

The Taiji Creature Dragon with fifteen dragon heads were like a turtle in a jar right now, at least for the space eating tiger! He had absolute confidence in her own rules! In the blink of an eye, he had already engulfed everything before Long Chen's eyes!

"With the heaven and earth in my stomach."

The ferocious tiger's jaws attacked!

In that instant, Long Chen indeed felt a sense of danger. He was trapped within this space by the devouring law and was unable to move nor was he able to avoid being devoured. This required him to exceed his own limits!

Humph!

No one was willing to lose even after coming here, especially after obtaining such great progress. Just as the space eating tiger was about to approach, Long Chen's fifteen dragon heads suddenly flickered with fifteen different colors of light!

"Life Calamity and Death Tribulation!"

BOOM!

The gigantic Living Realm formed into a terrifying jade-green vortex behind Long Chen. If the space eating tiger was said to be devouring space, then Long Chen was devouring life! At that moment, the Taiji Creature Dragon was right in the middle of the Living Realm's whirlpool, surrounded by surging waves of life, like the totem of a dragon.

Roar!

The space eating tiger had rushed in front of his eyes, but encountered such a situation!

When the space eating tiger still did not retreat, and opened its mouth to bite, the fourteen dragon heads surrounding the Taiji Creature Dragon suddenly scattered. The biggest dragon head appeared in the center, the Living Realm's massacre erupted from the dragon head, and the dragon head directly clashed with the space eating tiger!

Kcha! *

Both sides bit each other's necks, causing blood to flow out!

With the annihilation of space, the entire capital of the life dragon was collapsing. However, the fire of life on it was delaying the collapse and had an effective effect!

At the same time, the dragon head was frantically devouring the energy of life from the space eating tiger's body. The rotation of the Living Realm whirlpool behind him was the speed at which the Taiji Creature Dragon was devouring its life.

Fairy Shangyang could feel the current scene. At this moment, even though she was crying, she was still holding onto her hands tightly.

This kind of showdown was unwittingly tragic!

However, the deciding factor was the other dragon heads of Long Chen's Taiji Creature Dragon. When the life dragon heads fought with the other party, the other fourteen dragon heads suddenly bit onto the body of the space eating tiger at the same time.

In an instant, not only was the space eating tiger's life taken away, it was also being bombarded by storms, suns, moons, lightning, flames, and more. In the blink of an eye, the entire space eating tiger's body was completely unrecognizable!

At that moment, the space eating tiger let out a miserable cry, and like a defeated wild beast, it moved through space with its tail between its legs, and left right in front of Long Chen!

Chapter 3077 - Time Kun

BOOM!

The dark green Living Realm whirlpool submerged the Taiji Creature Dragon's body. Its entire body was submerged in the flames of life, and the body that was previously injured by the space eating tiger was quickly recovering.

He could be considered good at this tragic battle, but Holy Son of Confusion had suffered a huge loss this time. Facing Long Chen's fifteen dragon heads, he had not been able to swallow his opponent, and had instead been bitten once. Now, his entire body was covered with injuries, if not for him escaping in the end, he would have been destroyed by Long Chen!

Roar!

In the distance, the body of the space eating tiger burned with the flames of hatred, and it was riddled with scars! This was the first time Holy Son of Confusion had lost to Long Chen, and this loss was extremely critical. It undoubtedly affected Holy Son of Confusion's state of mind, so at this moment he was no longer cold, but brutal!

"Very funny. I didn't expect that the Heavens would arrange an opponent like you for me before I get such an important thing! What a challenge! I admit, I accept the challenge! My Holy Son of Confusion loves this kind of challenge that surpasses the limit! "

At this moment, Holy Son of Confusion changed his attitude once again. His eyes burned with an unintentional fire, a boundless fighting spirit, a monstrous fighting intent, and the killing intent in Long Chen's eyes were evenly matched!

Whoosh!

Suddenly ...

In the end, an incomparably large Peng bird appeared before Long Chen's eyes. It spread its wings in the starry sky, and swept up bursts of violent storms. Every feather was simply like a creation god's artifact, it was difficult to penetrate!

Hu hu!

The entire battlefield was filled with torrential winds and torrential rain!

This was where the mixed Kun Ancestral Beast went against the heavens. It was as if he had three bodies, even though the space eating tiger was slightly injured right now, it was still completely unharmed when he transformed into the Peng. Moreover, even his strength was in the perfect condition and in starch form.

Eclipse was different from space eating tiger. space eating tiger was overbearing and had the wind of a king. Eclipse was the overlord of divine birds, which was even more terrifying and cold than a commercial sheep. It was also more powerful. At this moment, the moment the Eclipse appeared, with a monstrous fighting spirit in his heart, the Eclipse Tribe who was prepared to fight Long Chen to the death had already arrived!

"Do you know how to change?"

Long Chen laughed.

Then, right before the opponent's eyes, he transformed from the Taiji Creature Dragon, his blood energy instantly soaring and his killing intent sweeping out. The current Long Chen, was a blood colored

Primordial Blood Spirit Dragon in this eternal whirlpool! This was a change that fit Long Chen's personality the best. This time, it was a fight between a dragon and a Peng!

A huge blood-red divine dragon, a roc that swept through heaven and earth!

BOOM!

The collision of these two auras caused the Eternal Whirlpool to change in time. Even the surrounding time storms were struck away!

The grey Peng instantly moved a thousand miles. When it accumulated its power to the limit, the power of laws erupted. In that instant, the body of the Eclipse radiated with an incomparably terrifying light!

"Heaven and Earth Golden Body!"

In an instant, his grey feathers turned golden under the power of the world, and his body became as hard as steel! In a short period of time, this Eclipse had transformed into a divine body that was comparable to a Creation God Creation Art! Long Chen could tell that under this sweep of rules, at least in a short period of time, the Eclipse would possess the defensive strength of the Primeval Dragon Pagoda!

"Let me show you what a true golden roc can swallow the heavens look like!"

Just like the Heaven and Earth Golden Body, the Eclipse's sharp voice was like ten thousand swords piercing through! But the thing that Long Chen was paying attention to the most was the other party's rule. At this moment, the Eclipse was dancing with its golden divine body, and from bottom to top, it flew straight up ninety thousand miles, with a trajectory like a sheep's horn, its speed was extremely quick and violent, like a golden ray of light!

BOOM!

A power of violence appeared between the heavens and earth!

Long Chen was currently right below him. When the Golden Roc's Heaven Swallowing Art erupted, the suction force he felt was at least twice as strong as before!

This was his Golden Roc Swallowing Heavens!

"As expected of the Holy Son of Confusion!"

It was very likely that he was the fifth ranked character of the Myriad World!

Once the Golden Roc Devourer was unleashed, even if Long Chen was an Primordial Blood Spirit Dragon, he would still be met with fatal danger! He knew of a way to break this Golden Roc Swallowing the Heavens, and that was the Destiny Killing Technique!

"However, since the Holy Son of Confusion possesses the Void Demon Sword, it's clear that the rules of time are his strongest form. So, the Destiny Killing technique must wait until he transforms into a Time Kun, otherwise, I don't have any other way to deal with him! "

This was the biggest problem that Long Chen was facing right now in this Golden Roc Swallowing the Heavens. In order to obtain the final victory, in order to truly overwhelm his opponent, he had to preserve his strength and rules, so that the Destiny Killing Technique would have an unexpected effect! Thus, at this time, he had to only use the rules of slaughter. If the Death Realm's Calamity can break this Golden Roc Swallowing the Heavens once, then it can break the second time!

RUU...!

The power of this devouring caused the trajectory of time to distort. This time, it was devouring the Laws, swallowing up all living things in the world! Long Chen was the core that had been devoured!

At this moment, under Holy Son of Confusion's scornful gaze, Long Chen made a crazy decision. Not only did he not flee, he crazily rushed towards his opponent. In order to defeat his opponent, he had to first defeat his heart.

He could feel the feeling of death within the golden roc swallowing the heavens, as if his own body would break apart and shatter at any moment! That terrifying pulling force made Long Chen's entire world become blurry!

Such a feeling of death was the perfect moment to display such a feeling!

In that instant, an intense light that had never been seen before exploded in Long Chen's eyes!

That was an unyielding fighting spirit!

This was a heaven-defying change of fate!

The miraculous rules of fate, when applied to Long Chen's body at this moment, in front of his eyes of death, had adjusted his condition to an unprecedented level! For a moment, his entire body burned with crimson flames, just like the blood sacrifice he had once been!

His strength had risen explosively without end!

In the God Nation, the power of those faiths also gave Long Chen enough nourishment!

"The Death Realm is killing us!"

When it reached the golden vortex, the Primordial Blood Spirit Dragon's dragon tail turned into a huge sword and swept out. The Death Realm's killing power was completely concentrated on the sword, and in an instant, the sword unleashed a 30,000-meter blood sword qi!

Rip!

The golden vortex was directly split in half by this sword energy. Then, it rapidly collapsed, leaving behind a massive explosion. All the things that had been swallowed were scattered around!

Clang!

Long Chen's Primordial Blood Spirit Dragon's dragon tail struck the Eclipse's golden body. In the midst of the collision, the two of them flew backwards, the Death Realm's Killing technique did not have the strength to kill the Eclipse after breaking through the golden vortex. In this confrontation, it could only be said that Long Chen had broken through the opponent's attack, but in reality, it was evenly matched!

For a moment, the entire Eternal Whirlpool seemed to grow quiet.

This scene caused Fairy Shangyang to be shocked. She realized that she had still underestimated Long Chen. At least until now, even though the battle was intense to such an extent, Holy Son of Confusion was still unable to suppress Long Chen even after learning everything he had learned. Instead, Long Chen had a slight advantage just now! It was like freedom was very close to her!

It was just like a dream!

"Clap clap."

Holy Son of Confusion, in his human form, could not help but clap. However, when he clapped, his expression was cold.

"I can't believe that the Heavens would arrange such a similar opponent like you, so close to me. The more I don't want to kill you, the more I'll have to kill you. "

"I don't think that you are an opponent arranged by the heavens. You, however, are only an insignificant character on my journey." Long Chen retaliated.

Hearing the counterattack, Holy Son of Confusion could not help but laugh.

"You're too early to be happy."

Even though he was smiling, he was actually infuriated. It was very rare for him to think so highly of an opponent. After a few exchanges, he had already treated Long Chen as his mortal enemy, but Long Chen had described him as an insignificant character. It was fury! It was killing intent!

Taking a deep breath, he converted all his anger into strength. A cold light suddenly exploded in Holy Son of Confusion's eyes as he laughed: "You are proficient in the power of time, and I am proficient in time as well. Then, let's use time to decide the final victor! "

At this time, Holy Son of Confusion was unintentionally confident. After going through a battle, he roughly knew Long Chen's level. Although he was shocked, it wasn't at his limit. Even now, he still had a lot of confidence in killing Long Chen. All of these confidence came from his 'Time Kun '.

It changed quietly.

The Holy Son of Confusion had disappeared, and replacing it was a fish swimming in the everlasting whirlpool, it was a dark grey, yet translucent fish, as illusionary as time, as light as air, as though time had condensed and was swimming everywhere. Time was a river, and this Time Kun was the only fish that could swim in this river.

He could stand still, he could move forward, he could swim against the current, he could jump out of the water. He was the favorite child of time, the son of time.

An illusory, transparent gray fish.

This Time Kun posed the greatest threat to Long Chen. It might have been because this was the Everlasting Whirlpool, or that the power of time was too strong here.

Or perhaps it was because it was a fish with horns, and right between his eyes, was a transparent horn. That was the Great Void Demon Sword!

The perfect combination of the Time Kun and the Great Void Demon Sword was just like how Long Chen and the Primeval Dragon Pagoda merged together.

In actuality, space eating tiger, Eclipse and Time Kun were not separated into strong and weak. But to the Holy Son of Confusion, all of his focus was on the sword, so the Time Kun and the Great Void Demon Sword were undoubtedly the strongest!

The Anarchic Demoness was different. He was the equilibrium between all three of them, the pinnacle of one kind!

Chapter 3078 - Descent of the Demon Ancestor

Swimming fish of time.

Within the Eternal Whirlpool, he could move about as he pleased. It looked to be ethereal, but in reality, the coldest killing intent was concentrated on Long Chen's body.

Feeling the Time Kun's threat, Long Chen had finally reached its final form. In this eternal whirlpool, Long Chen went from an Primordial Blood Spirit Dragon, to a Great Void Cosmic Dragon!

An illusory Time Ancestor Dragon!

It was exactly the same as the white jade dragon head and the time beast.

When the Great Void Cosmic Dragon appeared in front of Holy Son of Confusion, he finally understood what his subordinates meant when they said that Long Chen was the exact same as the time beast.

Just from this outer appearance, Holy Son of Confusion could see that Long Chen was more suitable for this place than him. He had originally thought that the heavens had arranged for him to come here in order to become the future Zhi Zun of the Ten Thousand Worlds. But now he had wavered, because the Ten Thousand World King could also be Long Chen!

No matter how he looked at it, it seemed to be more fitting than his own?

"Impossible!" If he was only arranged by the heavens, then I will go against this heaven and earth!
"From now on, I will make the decision!"

Holy Son of Confusion's eyes flashed with a bloody light, filled with viciousness.

However, no matter how one looked at it, the Great Void Cosmic Dragon that was standing in the center of the vortex of Eternity felt that it was superior to them. Holy Son of Confusion even felt that if the Time Kun was the son of time, and the darling of time, then this Great Void Cosmic Dragon was time itself! He did not wander in time because he was the river herself!

This feeling made Holy Son of Confusion very uncomfortable and also made him very angry! He was enraged to the extreme!

"I want to do it, that river!"

This thought was extremely strong, so strong that it caused him to accumulate millions of anger, and the speed at which he shifted himself within the eternal whirlpool became faster and faster. He was circling

around Long Chen swimming at a terrifying speed, the sharpest Great Void Demon Sword in his head became his horn, ripping apart the waves of time!

When all the killing intent had gathered on the Great Void Demon Sword, the Holy Son of Confusion took action!

"The end of time!"

This was his greatest achievement in the Edicts of Time! It was his most absolute killing move! Once, there were countless gods and devils who lost to him at the end of time. When this rule was activated, the Time Kun was no longer a fish but a ray of light of time, and the speed of this ray of light was so fast that it was terrifying. In the blink of an eye, Long Chen discovered that the entire world around him had this kind of dazzling light.

This was a type of penetrating killing intent.

This was the most terrifying weapon Long Chen had ever seen in his life. At the end of time, the sword of time and the acceleration of time were unintentionally combined together. It was a type of time killing that allowed the opponent to directly reach the end of time, in fact, it was just like a blood curse, a one-hit kill!

As long as they let the light of time graze on their fur, they would die!

In an instant, he had reached the end of his life.

However, the Eternal Time Rules were much easier to hit than the Ghost Blood Curse. Therefore, Holy Son of Confusion knew that even now, he still had such a degree of confidence!

"Do not go head to head with these rules!"

In the midst of her anxiousness, Fairy Shangyang was extremely nervous. She subconsciously stood on Long Chen's side, and even though her eyes were filled with tears, she was only helping Long Chen, giving him a reminder.

"Don't worry!"

Actually, Long Chen was already prepared.

Her Great Void Cosmic Dragon's body was extremely cold and detached, and as he watched the opponent's time track, the other party's light rays became faster and faster, and was currently climbing to the highest speed. At that time, his light speed reached its peak, and when his destructive power was at its most terrifying, he would definitely suddenly turn around and charge towards Long Chen to kill him.

Before this, Long Chen had not been able to catch his opponent.

He had to do it at the moment of the opponent's charge, because at that speed, if he were to save up all of his resources and change his direction, then all his previous efforts would be for naught!

It was the only time Long Chen could defeat his opponent.

The Fairy Shangyang told Long Chen not to go head to head with the rules, but in reality, the method Long Chen had chosen was to go head to head with him, and in the most crucial moment at that!

Sou sou sou!

The time ray became increasingly fast, completely surpassing the laws of space and surpassing the door to the universe!

When he opened his eyes, it was possible to see that the entire Eternal Vortex was enveloped by the light!

Even if the opponent moved to his limits, Long Chen simply closed his eyes and remained unmoving.

But he held the opponent's position at all times.

"Soon."

He knew that when he was at the limit of his speed, Holy Son of Confusion would want to kill him. Now, the intent of Holy Son of Confusion was very clear, he wanted to kill Long Chen. The rule of the end of time - there was no possibility that the opponent could be defeated without dying!

At that moment!

The light that had circled far away, suddenly turned around, the target was the space between Long Chen's eyebrows!

That speed was too fast, too fierce! He had exceeded his limit!

Amongst the Death Realm, even they could not help but scream!

Everything happened in an instant!

But Long Chen was already prepared.

A game between lightning and fire.

"Destiny Killing Technique!"

The combination of two dragons!

The difference between the Destiny Killing Technique and the Eternal Time was that it was a fusion of two different laws. Compared to time, there was an additional type of destiny. It was this kind of fate that made the Destiny Killing Technique unable to resist, Penetrating Attack. Long Chen had only released the Destiny Killing Technique, which was the fastest speed Holy Son of Confusion could muster and directly collided with the Destiny Killing Technique, piercing through!

Long Chen had kept the Destiny Killing technique for a long time just to wait for this moment!

The end of time was so fast that Long Chen didn't even have time to open the Death Realm's dragon gate.

"Whiz!"

His face was almost covered in sweat.

After the Penetrating Killing technique was finished, the Holy Son of Confusion's time limit did not slow down at all.

If he did not reduce it, Long Chen would lose his life!

This moment, became incomparably long and ancient, causing people to tremble with fear. Long Chen opened his eyes, his expression incomparably calm, as if he had long anticipated everything that would happen.

After being hit by the Destiny Killing technique, indeed, it was right in front of Long Chen's eyes. The time limit had slowed down and Long Chen was able to easily dodge the attack.

At this moment, the Time Kun was trembling, the Killing technique of Destiny Time had passed through the past, and now, his entire body started changing, he turned into a statue, and when Long Chen looked back at him, his gaze was extremely terrifying. If the Time Kun was furious just now, then this moment was bloodshed, it was madness!

"You've lost."

Before the Destiny Killing Technique froze, Long Chen said calmly.

"Heh heh."

The Time Kun faced Long Chen, and said coldly: "I never thought, truly never thought, that you would be able to defeat and break even the end of my time. Long Chen, you really have given me too many surprises. "

Even if he said that, it wouldn't stop the sculpture from spreading.

At this time, amongst the Death Realm, they had yet to react from Long Chen's previous display of divine might. A new message was sent to her, those fellows from the Tower of Time did not dare contact the Holy Son of Confusion directly, they had basically used the Fairy Shangyang to send the message, and at that moment, she received a message.

"Long Chen, Anarchic Demoness found a way to enter this Everlasting Vortex. It seems different from you. But he can come in. "

Just as he finished speaking, Long Chen could already feel that in this everlasting whirlpool, there was a slight tremble because of the arrival of a strong warrior. That Ranker must be the Anarchic Demoness, one of the four Chief Sovereigns, a lot stronger than the Holy Son of Confusion!

There wasn't much time left for Long Chen. Then the Anarchic Demoness would probably find him here! It would be troublesome then. He had to lose, and he had to lose everything!

Fortunately, you have now defeated the Holy Son of Confusion. Long Chen saw that he was about to be turned into white jade by the Destiny Killing Technique so he said: "You have already lost in this battle. If you do not want to die, give me the things that you promised me."

Holy Son of Confusion was naturally aware of the arrival of the Anarchic Demoness, so at this time, his expression was not well.

"This old fogey, I didn't think he would catch up to me so quickly. With his character, he might even want a share of the spoils." This was also the reason why he wanted to end the battle as soon as possible. And it was also because he didn't want the Anarchic Demoness to come before him. Especially after he entered and discovered so many treasures.

Then, he heard Long Chen's words.

It made him laugh.

"What?" "You said that I have already lost?" Holy Son of Confusion looked at Long Chen in disbelief. Long Chen had noticed that his body was currently changing, and had actually suppressed the power of the Destiny Killing Technique.

And then, it was like an explosion!

Whoosh!

In front of Long Chen's eyes, the Holy Son of Confusion had changed into three parts. Each part was a separate life form.

Although all of them were injured, they had more or less recovered. The strength of these three bodies was no weaker than when they appeared alone! This could explain why space eating tiger were injured and not injured at all when it was transformed into a Eclipse!

"Long Chen, I forgot to tell you, he actually already has three bodies. You were just fighting against one of his three bodies. "This is the real Lurker Ancestral Beast."

Fairy Shangyang said helplessly.

This was the strongest state of the mixed race's Ancestral Beast. The three of them were separated, three on one!

"You are too naive. If we mixed up with the Kun Ancestral Beast and were only able to change three forms, how could we be called the number one demon of the Myriad Realms?" If you want to kill me, defeat me. However, I have to get what you have before the old ghost arrives. I don't have time! "

The three demon beasts spoke out at the same time in front of Long Chen's eyes.

"So that's how it is!"

Long Chen knew that he was indeed being naive. The terror of his opponent had far surpassed his imagination. He had previously found every beast troublesome, and now that all three had appeared at the same time, it was even more so!

What was even more troublesome was that an even stronger mixed-type Ancestral Beast was descending!

The only good news was that this Holy Son of Confusion in front of him also wanted to end the battle quickly!

At this moment, Long Chen realized that this was the truly dangerous moment, where life and death were at stake!

Chapter 3079 - Chaos Killing Array

There were still wounds on the space eating tiger's body, but she had more or less recovered.

Above his head, the Eclipse was staring at Long Chen with its cold eyes. It was circling around him, threatening him at all times.

As for the Time Kun, it was still like a fish in time, swimming around in the whirlpool of time, causing Long Chen to feel the greatest threat.

Each of the three major bodies were comparable to Long Chen. He could split his body up, but Long Chen was unable to divide a few Ancestral Dragons. Of course, he could still split the Shadow Dream Charm Dragon up, but his comprehension of the rules was still limited, so it was not very useful.

The three bodies were controlled by one will. The Holy Son of Confusion's determination to kill Long Chen was greater than anything else, and the moment the three bodies separated, he had already begun his attack.

Not only that, it was a killing move.

"It's over."

The Holy Son of Confusion's ice-cold voice resounded beside Long Chen's ears. At this moment, a nervous atmosphere spread out. The three huge beasts were giving Long Chen a terrifying pressure, just like three judges. There was one thing in common with the three of them, and that was 'chaos'.

Chaotic Elder God's power!

Three types of rules formed an even stronger one, and that was chaos.

BOOM!

Three great beasts, the space eating tiger was using the Infinite Tracer in the surrounding space, its enormous body covered the entire space, without end, it was hard to determine whether it was real or fake. The Eclipse cast the Heaven and Earth Golden Body and turned into a golden ray of light, shuttling back and forth around Long Chen at a terrifying speed.

The Time Kun had also used its speed to form a whirlpool of time and merged with the golden whirlpool of Eclipse to form a whirlpool, which was a type of chaos. It could be seen that all of its performances were a type of accumulation, and a real storm was about to descend!

"Chaos Killing Array!"

This was what the Holy Son of Confusion had preserved until now. The reason why he was still confident about his killing move, was because he still possessed this chaotic killing array.

"These rules are the supreme rules of the Leviathan's Ancestral Beast. Generally speaking, only after a very long time did they finally be able to use it. Your life and death, your victory and defeat, are all on this line. "

A thin line between life and death!

Without even needing Fairy Shangyang to say it, Long Chen could feel that Holy Son of Confusion was truly afraid of him. That was why he used everything he had just now to kill him! Now that the Chaos killing array had been activated, it was simply the end of the world!

Long Chen seemed to have escaped from this everlasting whirlpool, and reached a world where time and space were in chaos. There were even numerous devouring powers, and countless vortexes that resembled eyes existed in this world. Those eyes were all terrifying traps, and the chaotic space and time had formed this chaotic world!

The Holy Son of Confusion was the ruler of this chaotic world!

In this chaotic world, Long Chen was unable to control himself, this was an overwhelming power of laws!

This was a little similar to Long Chen's Karma Emperor Sword. If he did not break this rule, he would simply be unable to leave, but to break this rule, how difficult was it? Right at this moment, a

commotion broke out in the chaotic world. In this world, Long Chen could feel countless numbers of chaos devourers devouring him, as well as the golden roc devouring the heavens and the end of time!

The three types of rules weren't merged together, they existed endlessly in this chaotic world, and Long Chen had become the core of the attack. The difficulty for Long Chen was that he couldn't even find the three giant beasts, and he basically didn't have any targets to attack either!

"Calm down!"

He could only calm himself down and think of a way to break it!

To be honest, during the entire process, Long Chen had made the Holy Son of Confusion more and more surprised, and the latter also made Long Chen more and more surprised, especially the chaotic killing array! Long Chen's only option was to escape into the Life and Death Realms! But of course, that was just the beginning. When the chaotic world was in a frenzy, countless laws descended. There was no such time!

Devouring Chaos! Chaos Devouring the Heavens! The end of time! The Time Blade! Infinite Tracer!

There were more than ten different types of laws exploding in this chaotic world, and there was even more than one type of rules. When so many different types of rules descended, to Long Chen, they were always filled with killing intent! and the others wanted to come out to help the Living Realms of the Divine Kingdom, but Long Chen did not let them out.

A thin line between life and death!

Under the overflowing pressure, Long Chen roared out, and then transformed into his human form. His human form was the most balanced, and could even better utilize the power of the Ghost Blood Curse, combining the two types of God Manifestation grade equipment.

"Destiny Killing Technique!"

A pure white dragon and an illusory dragon were revolving around Long Chen's Ghost Blood Curse. As Long Chen's sword thrust forward, a killing move that merged the light of time and fate came out. Time was like water, fate was like a blade that slashed down!

"It's here!"

Long Chen and Holy Son of Confusion are on the same level!

Although the Holy Son of Confusion's Chaotic Killing Array was terrifying, it was not particularly hard to see the true location of one of the three huge beasts, it was just that the enemy was too fast. Before the other party's attack erupted, Long Chen had already seen the approximate position of the Eclipse and slashed out with his sword!

When the Destiny Killing Technique exploded out, even though Long Chen dodged in time to avoid the Swallowing Chaos and Golden Roc Swallowing the Sky, he was still struck by the light ray from the end of time!

Puff!

Under the intense vibration, the Primordial Dragon Pagoda directly bent. Long Chen suffered from the huge impact, his entire body practically becoming loose! His flesh and blood shattered! Obviously, if not for the Primordial Dragon Pagoda blocking his words, Long Chen would have died in battle!

Of course, the following rules were endless. They were all fatal moves! In a blink of an eye, Long Chen was already at the edge of death several times, and in that moment, his Destiny Killing Technique finally appeared!

A sharp bird cry rang out!

The Eclipse changed too quickly, but Long Chen still struck his wings, causing the portion of energy in the chaotic world that belonged to the Eclipse to instantly disintegrate and become weak, causing the chaotic killing array to become even more chaotic! Long Chen used all his strength and still succeeded!

However, he could only hit one of them!

When the Destiny Killing Technique was successfully executed, space eating tiger and Time Kun's even more terrifying attacks arrived at the same time. The two types of energy of time and space simply fused and fused together, there were many types of rules Long Chen had not even seen before!

"Die!"

The Holy Son of Confusion was clearly making use of this opportunity to kill Long Chen! In this chaotic killing array, Long Chen only had one chance to retaliate. Once this chance passes, he would be drowned by the laws of the chaos killing array!

This is Holy Son of Confusion's chance.

The world that Long Chen saw was in chaos and death.

It sealed off all space around Long Chen, leaving not even a crack of space behind. In this chaotic killing array, Long Chen's only option was to go all out!

"However, as long as I fight them head on, I can only block one or two of them. The other rules can take my life!" So this time, I am definitely going to die? "

The most depressing thing was that the rule of reviving the dead was also given to Shang Yang.

So, do I really have to die here?

He was just a step away from victory. If he were to lose here, there would be many regrets in his heart!

At that moment, everyone's heart was in their mouths!

Could the Primeval Dragon Pagoda block it?

Apparently, one or two was still okay, but dozens of them was not enough!

In order to obtain the kitten's original body, Holy Son of Confusion had almost stepped onto it with his life. Under normal circumstances, he couldn't possibly burst forth with such power, and he had already used a method that exceeded his limits! This rule was like resurrecting from the dead. There was a limit to how much it could be used, but once it was used, the lethality was terrifying!

In the nick of time, a spark of lightning

That moment of life and death, to Long Chen seemed to be static.

Time passed very slowly.

He clearly saw all the rules of space and time, saw that the Eclipse had already been sealed by the Killing Path, and saw that the space eating tiger and the Time Kun were still in the midst of erupting in power.

At this moment, Long Chen's heart was already strong to the point where even if he was about to die, he would not even frown. He did not casually make a move, but instead calmly observed everything and thought of a solution.

There was always a way.

Heaven never forbids you.

"Long Chen, resign yourself to your fate."

Holy Son of Confusion's voice buzzed in his ears as he thought back, as if it was the voice of death.

In Long Chen's world, there were many chaotic killing moves that were coming closer and closer. He himself was already familiar with the power of time, and he also recognized the power of space, and wanted to eliminate their destructive power!

A moment of life and death!

"These rules are all part of this chaotic world. Holy Son of Confusion only released so many rules of order after constructing this chaotic killing array, which formed a type of attack towards me that made me unable to retaliate. If not for this chaotic killing array, his rules definitely wouldn't have reached such a level. Obviously, as long as I destroy this world, I can break all these rules. "

Instantly, many ideas revolved in Long Chen's mind.

But how to break this world?

life-and-death tribulations were not powerful enough. The Void Heart didn't have that destructive energy. The Killing Technique of Destiny could only target living beings and could only destroy this sort of space.

This was the advantage of the Destiny Killing Technique, and also its disadvantage!

If not for Long Chen, Long Chen would have used the Destiny Killing Technique to tear apart the space!

The power of life, the rules of fate, the rules of time, and the laws of change, these four seemed to not have the power to directly deal damage other than to non-living beings and gods and devils. For example, the Living Realm could only take away one's life, the rules of fate would change fate, and the rules of time would speed up the riots.

Only the Edicts of Slaughter and the Edicts of Karma could directly attack!

Amongst them, the karma rules were most adept at destroying this type of array formation, because this array formation had a very complex structure! Complicated structures would have countless Karma, and the only thing that could be done was to destroy them, to destroy the entire world!

The Sky Execution, Karma Thrust, and especially the Karma Thrust, all had the power to break down and destroy everything. However, they had to rely on the Karma Thrust to destroy this chaotic killing array.

Chapter 3080 - Merging Rules

The rules of slaughter were purely destructive, while the rules of karma were a type of strength that was at the same level of 'four or four thousand jin'. Decomposition from the inside was extremely effective!

To Long Chen, the environment that the Holy Son of Confusion had created for him was extremely rare! That was why, before the countless natural laws descended, his heart had experienced such a drastic change. In practically an instant, Long Chen had already locked his target at the rules of slaughter and of cause and effect.

"The fusion of the laws of time and destiny gave me the Killing technique of destiny. If that was the case, then he could completely fuse Karma with Karma and Slaughter. Then, there might be a rule that allows you to break it down, and at the same time, allow you to have extreme killing power! "

When this thought appeared, it instantly became more intense than ever before!

This was a fortuitous encounter.

It was also because of the fortuitous encounter given by the Holy Son of Confusion that Long Chen had such a strong and clear intuition. He realized that there was only one way to break through this chaotic killing array. To preserve his life, to defeat his opponent! Only one type of rule was used!

He had fused the Slaughter and Karma Laws together!

In the Rules of Karma, Long Chen had locked onto his comprehension of the Karma Thrust, and within the rules of slaughter, naturally, it was the strongest person so far, the Death Realm that had slaughtered him.

At this time, the environment turned into a strong contributing factor for the rules. Not only did Long Chen take the initiative to explore, even this chaotic killing array squeezed these two rules together, allowing Long Chen to have a clear goal!

Without a clear goal, it was very difficult to step onto the road of integration. At that moment, Long Chen was brandishing the Ghost Blood Curse, on it the blood light was boiling, the Death Realm's killing intent erupted, all of it condensed onto the sword! This was different from the comprehension of the Destiny Killing Technique, he was the one who took the initiative and forcefully tried. After fighting with the Death Realm, he did not release it, but worked hard, and even crazily, to fuse the Karma Thrust!

There might be many more details to the new Rules, but this time, Long Chen only needed to fuse them once! Life and death were on this line! Failure might mean complete death.

"Karma Thrust!"

In fact, when he had that thought, Long Chen had a huge confidence that he could succeed. Moreover, with the Destiny Killing Technique in front of him, his field of vision had widened, and his control had become stronger. There was even the help of the Mysterious Dragon Jade amongst them.

Time, land, and people!

At the instant when Death Realm's killing intent and Karma Thrust collided, it was as if a new door had opened, and this seemed to be a perfect fusion. If not for the current environment, Long Chen would never have imagined it. This was like the Karma Thread that had the ability to destroy but lacked the power, while the Death Realm had the ability to kill with violence but had no way to break it. If the two combined, it could be said to be perfect!

Long Chen had never progressed in the rules of karma and at this moment, it was like a leap. The two types of rules perfectly fused together and condensed on top of the Ghost Blood Curse, forming a blood-red torrent on top of the Ghost Blood Curse!

This was not the Death Realm's Killing technique or the Karmic Thrust, but a brand-new rule! With the new fusion rule, in the following time, Long Chen could completely make the fusion rule become even more tyrannical, and at this moment, he only needed to solve this chaotic killing array!

Swish!

Long Chen thrust his sword out, and the sword light surged like a torrent, forming a gigantic sword that shot out. In that moment, the entire chaos killing array was dyed red with the blood light!

BOOM!

The target of Long Chen's attack wasn't the rules of the Holy Son of Confusion, but the chaotic killing array itself. In truth, the only true natural law was the chaos killing array formation itself!

A sword shot out like a streak of light!

After the rules for killing, as expected, an effect as Long Chen had imagined appeared: Wherever the long sword went, the Anarchic Killing Formation would shatter as if it was disintegrated. The moment the Anarchic Killing Array was disintegrated, the originally chaotic rules became even more disordered, as though they had lost their target. When Long Chen slashed through with the sword and swept across, the entire Anarchic Killing Formation was ripped apart, Long Chen did not say a word, and rushed out of the hole!

It ended!

In reality, all of this happened in a single instant.

When Holy Son of Confusion was preparing to kill Long Chen, Long Chen actually broke through the chaotic killing array and rushed out from within. However, such a simple matter had caused all of the skies above the Holy Son of Confusion to collapse.

RUU...!

The entire chaos killing formation was destroyed.

Bang!

It completely dissipated!

After completely destroying the chaotic killing array, they instantly split into two, rushing towards the space eating tiger and the Time Kun. As for the Eclipse, it had already been frozen into a white jade statue by Long Chen, it was temporarily in Long Chen's control.

"Ugh ..."

The space eating tiger and the Time Kun were in their most stunned states.

Losing, losing, this was an inconceivable matter for the Holy Son of Confusion. Even for someone at his level, after receiving such a blow, he would still collapse. The Holy Son of Confusion might even be more serious than the others.

He was just a step away from becoming the supreme expert of the ten thousand worlds in his imagination. In his imagination, he was someone chosen by the Heavens to rule over all worlds in the future!

How could he possibly be defeated like this?

His confidence, his faith, all his faith, were completely shattered at this moment along with the chaotic killing array. It wasn't until the rules pounced onto him, causing the space eating tiger and the Time Kun to be riddled with holes, that the Holy Son of Confusion truly reacted, but whether it was the space eating tiger s or the Time Kun s, their eyes were filled with blood and tears.

"Whiz!"

The three great beast god bodies merged together and returned to the Holy Son of Confusion, but at the moment, his entire body was stained with blood. Even a third of his body was frozen in jade and was unable to move.

Not only were the injuries on his body, the biggest blow he received to his willpower was also the most terrifying for Holy Son of Confusion! Long Chen didn't want to give him the chance to retaliate, so he instantly appeared in front of the other party and placed the Ghost Blood Curse in his hand on the other party's neck. As long as he could cut the other party's flesh, he could take their lives!

With the arrival of the Anarchic Demoness, Long Chen naturally could not be bothered to waste his breath and said: "You have lost. It's time to keep your promise and give it to me. Otherwise, I can only take your life. "

His voice was like a heavy hammer, repeatedly hitting Holy Son of Confusion's body.

Bang! Bang! Bang!

Unexpectedly, Holy Son of Confusion did not have the calmness that he had imagined. His state of mind could be considered to be extremely broken, as though he had already lost his consciousness, and even his eyes were lifeless. He looked at Long Chen lifelessly, like a zombie.

"I said, give it to me." Long Chen's Ghost Blood Curse had already cut through the opponent's body, the Ghost Blood Curse surged towards the opponent's body crazily, spreading all over. If Holy Son of Confusion resisted, the Ghost Blood Curse would not be able to do anything to Long Chen, but the opponent did not resist at all, it was as though the Ghost Blood Curse had fallen from heaven to hell.

"I didn't expect that the heavens would choose you, not me." Holy Son of Confusion suddenly laughed out loud, his eyes were filled with blood and tears, filled with grief and sorrow, his entire body trembling, he laughed heartily as he looked at Long Chen.

"There is no such thing as heaven. No one was blessed by fate. "There's no way to be confident about the future."

Long Chen understood that the Holy Son of Confusion had always thought that he was the chosen by the heavens as the future Zhi Zun of the myriad realms. From a young age, he had always felt this way, as if the entire Myriad Realms existed for him, and losing this most important battle was akin to the collapse of everything he had built up tens of millions of years ago.

Seeing him in such a state, even the Fairy Shangyang was trembling. She was the one who understood the most about the Holy Son of Confusion, so even though her heart was filled with tears, she couldn't say a single word.

"Impossible!" If it wasn't for that, you wouldn't have been able to beat me. " Holy Son of Confusion laughed as if he had gone insane.

At this time, the Ghost Blood Curse had already spread throughout his body. If he didn't resist now, he would simply turn to dust! Long Chen frowned: "Give me the thing, and admit defeat if you lose, your life is useless to me. Moreover, success or failure today, will all be for the time being. "

"No, it has already been a lifetime." At this time, Holy Son of Confusion withdrew his smile. He opened his arms and wiped the blood tears in his eyes.

"That's right. After I die, everything will be yours." The Holy Son of Confusion said quietly.

This was a very difficult person to understand. He had only lost the battle, so why must he seek death?

"No!"

Fairy Shangyang's face was filled with tears as she struggled, wanting Long Chen to let her out from the Divine Kingdom.

However, the Holy Son of Confusion was even faster, as if he was on a mission of his own. Before the Ghost Blood Curse could kill him, his body had already been covered in a grey flame! This was a type of suicidal flame. Under this kind of flame, Holy Son of Confusion would be the first to turn into ashes!

In the midst of this gray flame ...

Holy Son of Confusion began to bellow.

"Long Chen! You win! You are the future ruler of all worlds! You stepped on me to reach this position! "

"The heavens are truly laughable and shameful! Since you were born with my Holy Son of Confusion, and you are at the peak of the stage, you are only a step away from success, yet why are you Long Chen!
"

"If there is a next life, I will tear apart this world and destroy this universe! To exterminate all living things! "Let all of this fade away and be destroyed!"

"I will massacre this sky, slaughter this land of yours!"

In the end, he used his burning gray eyes to look at Long Chen and laughed coldly, "Long Chen, don't think that you will win just because of this. You are indeed capable of being the slaughter of ten thousand Sector lord! But one day, my Holy Son of Confusion will return and destroy everything you have obtained! "

"Since I can't become the Allworld Paragon, then let this Myriad Realms be destroyed along with me!"

BOOM!

At the last moment, Holy Son of Confusion's body dissipated and turned into dust. He was swept away by the Eternal Whirlpool and disappeared for thousands of miles.

"No!"

Fairy Shangyang curled up within the sea of blood. She was still unable to deceive herself, she still loved this person and was only extremely hurt. But she wouldn't blame Long Chen for this scene, she just felt too much pain in her heart.

"No!"

Another voice echoed within the Eternal Whirlpool. It came from the Anarchic Demoness.
