

War God 711

Chapter 711 - gold eating qi

did not know what had happened, so he was a little suspicious. However, he could see that everyone's faces were filled with fear, and even Du Jiu, who was at the sixth stage of the Earth Martial Stage, had forgotten about him!

The only thing that everyone could think of was to escape!

Du Jiu was the fastest, the others followed behind him one after the other, even Shao Yu knew that they were about to escape. Of course he wouldn't drag Long Chen down, but when that happened, he immediately roared at Long Chen: "Brother, it's one of the Five Great Sky Calamity, run quickly, or you'll lose your life!"

Long Chen was not stupid, they had all ran, even without Shao Yu saying anything, he still knew how to run, and his reaction speed was not slower than Shao Yu's at all. Adding to that, his speed had surpassed theirs by a lot, and he instantly ran in front of them!

Just as they were about to make a move, the dark brown ground behind them suddenly shook. At this time, countless terrifying sizzling sounds were emitted, and thick golden streams of air suddenly burrowed out from the ground. It was as if a well had erupted, and thousands of golden streams of air, each the size of an arm, suddenly converged together!

This golden colored air current gave Long Chen a kind of terrifying feeling. This golden colored air current was something that did not dare to go near, and this golden air current was also something that Long Chen did not dare to go near from the direction of the golden air current. There was a kind of sharp feeling coming from the golden air current.

It was not what he should have done, but rather, there was no doubt about it!

The appearance of this golden stream of air was already terrifying!

"Five Great Sky Calamities? It is known as a natural disaster, I am afraid that it is not simple, even Du Jiu was so frightened! " Long Chen thought, he was secretly vigilant.

Right at this moment, the golden energy flow converged in midair, instantly forming a gigantic golden lion. The golden lion let out a roar that shook the heaven and earth, and chased after Long Chen and the others!

Instantly, when its feet touched the ground, the entire earth trembled. Sensing that the golden lion was chasing after them, everyone's faces turned pale!

The golden lions sometimes turned into golden gales, and sometimes they turned into running lions. Wherever they went, the steel mountains along the road would be sliced into pieces, and not even dregs would remain.

Furthermore, its speed was not only not slower than the rest, it was also much faster than them. Long Chen finally understood why they were so afraid. One of the five great natural disasters, should be able to easily take their lives!

Long Chen was especially aware of the seriousness of the situation.

The first thing he did was slow down, and he pulled Shao Yu who was running at the very back, and directly threw him into the Great Void Realm, regardless of whether he was willing or not. In the middle of the Great Void Realm, Long Chen could use the Great Void energy to block his eyes, and could not see anything.

After placing Shao Yu in the Great Void Realm, Long Chen was a lot more at ease, but the speed of the golden lion formed by the golden qi flow was extremely terrifying, in just an instant, he had pounced in front of Long Chen. If Long Chen did not save Shao Yu just now, he might already be dead by now!

Blood Escape!

He did not dare to burn all of his true essence to become Blood Escape. Without his true essence to serve as the foundation, if he encountered any danger, he would die without a burial ground. And in Archaic Graveyard, danger was everywhere!

The Golden Lion King who was originally behind Long Chen was already several hundred meters away from him now. Long Chen shifted his original direction, so the Golden Lion King did not chase after him, but instead turned into a golden whirlwind, and instantly pounced in front of Du Jiu and the others!

"AHH!"

A series of heart-tearing and lung-splitting screams came from this direction. Long Chen watched in horror, only to see those who were running too slowly be engulfed by the golden tornado, and in an instant, they were turned into powder and dissipated into the air. The big man who was under Du Jiu's command died just like that, inside the golden tornado.

Long Chen could be considered to be out of danger now, he had already pulled Shao Yu out. To Shao Yu, all of this happened in less than two breaths of time, he still did not know what had happened.

"Long Chen, I ..." Before Shao Yu could finish his words, he saw that a few hundred meters away, his companions were all turned into minced meat and blood by the golden whirlwind! This scene was quite tragic. They could only let out cries of despair, and then there was nothing else.

Shao Yu watched with a pale face, he knew that if Long Chen did not exist, he would have already become minced meat, and he was once again extremely grateful to Long Chen. Now, even if Long Chen allowed him to go up the mountain of blades into the sea of flames, he would probably not even frown!

One by one, his companions died at the hands of the golden tornado that had turned into lions. Shao Yu did not feel any pain, but instead, felt a sense of relief. There was basically no one here who had not bullied him.

Amongst Archaic Graveyard, the name of the Five Great Sky Calamity resounded like thunder, causing people to feel fear from the sound of it. Countless people died under the Five Great Sky Calamity in Archaic Graveyard, so when they saw the golden aura, their expressions were filled with terror!

That was Du Jiu! He was at the sixth stage of the Earth Martial Stage, and his speed was many times faster than the others, and he was also in time to escape, causing the golden tornado to be unable to catch up to him!

Before a person died, they would be able to unleash endless potential, and Du Jiu was the same, thus even though the golden tornado was chasing them closely, the two parties still had a distance between them. In order to survive, Du Jiu used his True Essence with all his might, allowing him to have a chance at survival!

He did not want to die in the hands of this natural disaster, especially since Long Chen and Shao Yu seemed to have a way to escape!

suffered a lot more than that. Although this was a natural disaster, they couldn't be blamed on others, but Du Jiu's heart was filled with rage!

This rage could only be directed towards Long Chen and Shao Yu.

Long Chen was currently looking at the golden flow of air with a profound gaze, with eyes filled with reverence. He knew that if he were to be directly touched, it would result in his death, because there were too many golden streams of air, causing him to be unable to dodge them. So he asked: "Brother Yu, what exactly is this thing, and what are the Five Great Sky Calamities?"

Shao Yu's face still had an expression of shock, he muttered: "Five of the five heavenly disasters, are the five types of disasters that often appear in the Archaic Graveyard, these are natural disasters, and not human beings. The golden colored flow in front of me is a natural disaster that only belongs to the liujin region, it is one of the five great natural disasters, the gold eating qi!"

gold eating qi?

Long Chen never thought that there was such a thing in the Archaic Graveyard, the gold eating qi appeared so easily, without any pattern, and would even chase relentlessly, obviously showing just how terrifying it was. It was very likely that if one was unlucky, and stood directly at the location of the gold eating qi, they would be cut into countless pieces!

This gold eating qi was simply a stream of air formed by the convergence of countless extremely tiny gold blade!

"Long Chen, not good, Boss Du Jiu wants to hide!" He could tell that Du Jiu's face was currently filled with a sinister color. With so many of his brothers dead, it was inevitable that a crazy emotion would arise in his heart. If he came to take revenge, then the two of them would be done for.

Long Chen's words were actually spoken but Long Chen was indifferent. He carefully looked at the male lion formed from gold eating qi behind Du Jiu, and sure enough, after chasing for a long while and not being able to catch up to its opponent, the golden lion let out a powerless wail, and then transformed into tens of thousands of streams of air flow, before all burrowing into the dark brown ground.

"It's still over." Shao Yu's eyes revealed a trace of helplessness. Seeing the crazed and violent expression on Du Jiu's face, he knew that he could only resign himself to fate.

As expected, Du Jiu stopped. He panted heavily, and when he had used up most of his strength to recover, he suddenly looked towards Long Chen. His face was filled with hatred and malice, and this malevolent look directly scared Shao Yu a few steps back.

"Long Chen, let's run!" Shao Yu knew that there was no longer any room for reconciliation. Du Jiu's attitude was definitely determined to take both of them 'lives. He only hoped that Long Chen's speed would increase a little.

However, when he turned around, he was helpless to find that Long Chen had already pulled him back. Compared to Shao Yu's arm, Long Chen's arm looked like a baby's arm, but just when his arm was placed on Shao Yu's arm, he actually managed to steadily hold onto it.

"Long Chen, you ..." Shao Yu looked at Long Chen in confusion. He had already lost his chance, what he truly did not expect was that Long Chen would actually court death? Or perhaps, did he really think he could defeat Du Jiu?

Although Du Jiu looked to be in his thirties, he was actually already close to fifty. Looking at his ferocious and sinister face, in front of Long Chen, he looked so white and tender like a little kid. He was not a match for Du Jiu no matter how one looked at him.

Chapter 712 - Killing Du Jiu

"Stand here. Stand still." What made Shao Yu speechless was, after Long Chen said these few words to him, he immediately went in front of him and welcomed the approaching Du Jiu. Their eyes met in midair, one was vicious and the other was cold, the air was filled with the smell of gunpowder.

"Don't fight with him, you're not ..." Shao Yu's voice became lower and lower. By this time, Long Chen had already walked to a long distance away from him. Furthermore, there were some minute changes to Long Chen's body. These changes made Shao Yu understand that Long Chen might still have a chance of winning.

Long Chen transformed into Dragonsoul Transformation, the blood-red dragon scales completely covered his body, the sharp bone spikes erupted forth, his sharp claws flickered with a cold light, his body was filled with the scent of blood and slaughter, this aura was not much weaker than Du Jiu's sinister and ruthless aura!

"Not bad, you even know how to seek death!" Du Jiu roared coldly. He was disinclined to even speak of other things, and directly pounced towards Long Chen. The death of so many of his brothers, directly caused his mood to drop to the bottom.

Long Chen was too lazy to talk with this guy.

did not dare to be negligent against an opponent who was a sixth stage Earth Martial Stage cultivator. After all, the opponent was two levels higher than him, even if the attribute of her Dragon Soul Transformation had increased by ten times, the opponent was still a full stage higher than him!

"Devouring Blood Realm!" Under the condition of Devouring Blood Realm, not only was Long Chen able to suppress Du Jiu's true qi, he could also control a lot of things. If Du Jiu was not careful, Long Chen might very well use this opportunity!

As soon as the two began to fight, they began to fight with their lives on the line.

Under the display of Long Chen's Devouring Blood Realm, the blood-red fog quickly diffused into the surroundings, and as if it was a large blood-red cocoon, it completely enveloped Du Jiu within it. The limitless devouring force acted on Du Jiu's body, and this terrifying suction force came from all directions!

"What the hell is this? "It seems like you have quite a few miraculous methods." Under the Devouring Blood Realm's suppression, his true essence was only at seventy to eighty percent of what it was worth to use. If Long Chen were to be at a higher level, he would not be Long Chen's opponent at this moment.

"It's enough to take care of you." Long Chen's cold voice reverberated beside Du Jiu's ears. He used the catkin with wind's movement technique and quickly rotated beside Du Jiu, looking for an opportunity to attack!

"You're courting death!" Long Chen's fearless look made Du Jiu feel that he had been underestimated. Although he had already used up a lot of his primeval essence when he was being chased by the gold eating qi, Du Jiu did not believe that the remaining primeval essence could not kill Long Chen!

"Seven Fiends Poison Demon Finger!"

Du Jiu stretched out one of the fingers in his right hand with a whoop. It was a little different from the color of his skin, as this finger's color was a lot darker than before, and was practically like black charcoal. Quite a few black streams of air circled around the finger, like disgusting worms.

The True Essence in Du Jiu's body exploded out, he channeled the True Qi in his entire body, and his entire person turned into a ray of illusion, instantly appearing in front of Long Chen. The finger on his right hand suddenly burst with a terrifying force, heading straight for Long Chen's forehead, in the midst of the black Qi, it formed a seven layered vortex in front of his fingers.

A bitter laugh sounded beside Long Chen's ears.

"You want to compete with me in this?" Long Chen laughed in his heart, the Seven Evils Devil Finger was filled with killing intent and poisonous gas, all of these belonged to the category of yin and poisonous energy, but Long Chen also had this type of attack, and that was Desolate Divine Seal!

Right now, Long Chen was in a completely different state. Under his control, the true essence in his entire body was transferred to the acupoints on his right hand crazily, and the fire of Golden Crow in the middle of the dragon soul true essence was also called by Long Chen. As he formed the seal, it fiercely ignited on his palm, covering the gray imprint that appeared on his palm!

Whoosh!

When the Seven Evils Devil Finger appeared, Long Chen's Desolate Divine Seal immediately struck out, its sinister fingers clashed with the Desolate Seal fiercely. The Desolate Divine Seal possessed a strong deathly aura, frankly speaking, it was a battle skill with yin poison, although in terms of Quintessential Essence, Long Chen was weaker, but in terms of combat skills, Long Chen was stronger!

The Desolate Divine Seal and the Seven Fiends Poison Demon Finger clashed furiously. The surrounding airflow swirled like the wind and clouds, and much of the dark brown iron sand on the ground was actually corroded!

This time, they were actually evenly matched!

The two of them moved to the back, preparing for the next round of attacks!

Seeing this scene, Shao Yu was a little dumbstruck. He had thought that under Du Jiu's famous ultimate skill, the Seven Fiends Poison Demon Finger, Long Chen would definitely die, since the difference in levels was too great. He did not know that Long Chen would actually be able to use a move at this time, and block his opponent's attack.

Long Chen was a good person, he did not wish for Long Chen to die in his hands like this. It did not matter if he died, but Long Chen was still a teenager, it was not worth it for him to die.

Thinking about it, Shao Yu quietly advanced, hoping that he could give Long Chen a little help, maybe even stop him, and give Long Chen a chance to escape!

And after the previous move, Long Chen had more or less understood the opponent's fighting strength. It could only be said that even the sixth stage of Earth Martial Stage was not strong enough to the extent where Long Chen couldn't match up to him!

Of course, Du Jiu was a wandering Ranker, without a clan's background and genetic superiority, if he was one of the core members of the Nine Great Clans, he would have a lot of treasures in his possession. If they were at the sixth stage of the Earth Martial Stage, it would not be easy for Long Chen to defeat them.

But in Du Jiu's eyes, Long Chen was indeed an opponent worthy of being shocked over! The king level intermediate battle skill that he had just used, amongst all his other battle skills, was considered not bad. He did not expect that after using his own Earth Martial Stage's sixth stage true essence, he was not going to take Long Chen's life.

"Little bastard, it's luck that you managed to escape from me once more. Try again, I've never used such a high level king level battle skill on anyone. With this honor, you can be satisfied!"

Du Jiu let out a wild laugh, and after he finished speaking, he turned into a black shadow, rushing towards Long Chen!

This time, Du Jiu exhausted all of the True Origin in his body, but he still wanted to kill this mysterious youth! Long Chen was only at the fourth stage of the Earth Martial Stage, but he was able to unleash such strength, which meant that he was definitely special. After Du Jiu went all out and killed Long Chen, the things he obtained might even allow him to become a hero of his generation.

In this world, the rule of survival is the law of the jungle!

"Die!" A black mist shrouded Du Jiu's eyes and spread to other parts of his body, quickly enveloping him within it.

"Nine Eagles Possession! "Kill them all!" The sharp sound even caused Long Chen's ear drums to sting. The reason why Du Jiu was going all out was not just because of this, but because the skill he was using was clearly a very powerful attack!

The Nine-headed Eagles were a type of high level demon beast from the legends, presumably having the level of an emperor level demon beast. And these Nine-headed Eagles Possession was also a battle skill born from this demon beast, at this moment, the black mist on Du Jiu's body started to swirl fiercely, one portion of it condensing into a pair of huge black wings behind him. The other portion of it condensed into nine black heads above Du Jiu's head.

His appearance looked extremely terrifying, and his might was heavy as well. A burst of cold Qi enveloped the entire area, and Long Chen, who was in front of him, was even more so.

The current Du Jiu seemed to have transformed into the legendary demon beast, sinister, brutal and cruel. His misty eyes were filled with the brutality of a beast!

This time, nine bird cries rang out, and under Du Jiu's control, the nine-headed vulture's illusory image instantly pounced towards Long Chen, its pitch-black wings flapping, providing him with absolute strength. As it stared at the nine heads, it became like a sharp and nimble spear, thrusting towards Long Chen!

Long Chen was glad that he had learnt the Scarlet Emperor Burning Heaven Seal for the first time. If it was the Profound Emperor Seal of Shrouding the Heavens, then dealing with the Nine-headed Eagle would probably be a little troublesome!

The first time he used Scarlet Emperor Burning Heaven Seal, it was easily blocked by the God Clan's Young Master. However, this did not mean that the strength of the Scarlet Emperor Burning Heaven Seal was not strong enough, on the contrary, there was a difference of six or seven stages between them, yet Long Chen was able to use this battle skill and directly blast the God Clan's Young Master away.

Once the emperor level combat skill was used, who could compete against it!

The blood red flame suddenly ignited on Long Chen's right arm, the Scarlet Emperor Seal in his palm suddenly lit up like never before, Long Chen used all the True Qi in his body to activate the Scarlet Emperor Burning Heaven Seal!

Buzz! Buzz! Buzz!

The flames burned, forming a huge seal in front of Long Chen's palm, the Scarlet Emperor Burning Heaven Seal appeared quickly but suddenly, when Du Jiu rushed over, Long Chen's Scarlet Emperor Burning Heaven Seal suddenly struck out, instantly sweeping towards Du Jiu!

"What the hell!" seemed to let out a surprised cry, and then the final battle began. The Scarlet Emperor Burning Heaven Seal, not only did it restrain the Nine-headed Eagle's body in terms of level, it also restrained the opponent in terms of attributes. Even if Du Jiu's true essence was a little stronger, under Long Chen's terrifying Scarlet Emperor Burning Heaven Seal, the nine heads of the Nine-headed Eagle were directly smashed into pieces by the Scarlet Emperor Burning Heaven Seal!

Chapter 713 - wind race Assault

An enormous imprint, in the midst of Du Jiu's miserable cries, swept directly onto his body, causing Du Jiu's miserable cries to immediately grow bigger, and it was extremely miserable. The terrifying impact of the Scarlet Emperor Burning Heaven Seal, directly shattered his internal organs and bones, instantly dying beyond compare!

At the same time, the soaring flames directly turned Du Jiu into a Flaming Person.

As the two fought, unexpectedly, Long Chen was completely unharmed, while Du Jiu was sent flying like a flaming bird, the scent of roasting meat wafted through the air.

Long Chen's body quickly flew past Du Jiu, and when he landed on the ground, he was already holding onto Du Jiu's Qiankun bag. As for Du Jiu's corpse, it fell onto the ground with a bang due to the flames. Other than the flames that were still burning on his body, there was no other sound.

He never thought that Long Chen would actually have such a terrifying battle skill, and that was not even the best part. What was most amazing, was that Long Chen actually learned this battle skill!

Being able to firmly suppress a high level king level battle skill was undoubtedly an emperor level battle skill. However, a emperor level battle skill was only grasped in the hands of a few people, yet Long Chen was able to obtain it.

Too many people did not expect this would lead to Du Jiu's death.

This kind of outcome caused Shao Yu to simply be dumbstruck. He looked at Long Chen in a daze, and his mouth was wide open. This youngster made him feel somewhat parched, and was unable to say a single word.

After using the Scarlet Emperor Burning Heaven Seal, all of the True Essence in Long Chen's body was completely used up. The Archaic Graveyard was a killing ground, and with such a large commotion, there might be people coming soon, and it was not a good thing. Long Chen hurried to say: "Brother Yu, we should not stay here any longer, let's go first, quickly!"

Under Long Chen's final instruction, Shao Yu immediately regained his senses. Swallowing his saliva, he hurriedly said. "Everything is fine, I'll come over right now."

The shock in his heart was like a thorn stuck in his throat, unable to be swallowed no matter how hard he tried.

In Shao Yu's group, the other people were killed by the gold eating qi, regardless of Long Chen's problem, Du Jiu deserved to die, but Shao Yu had to stay behind, for Long Chen to be able to walk his own path.

After walking a distance, Long Chen finally gave Du Jiu's Cosmos Sack to him, and said: "Brother Yu, this is yours, the axe you want is inside. Take a look."

Shao Yu anxiously pushed the Heaven and Earth Pouch back to Long Chen, and stuttered: "I, I cannot accept this, this is your spoils of war, how can I have the face to take it!"

Long Chen pulled out his hand, and directly placed it on his large palm, and said: "To be honest, this thing is completely useless to me, I'm only taking it for you. If you don't take it, then you aren't giving me, Long Chen, any face."

After Long Chen said those harsh words, Shao Yu thought about it for a while. If he was bashful about it, Long Chen might look down on him, so he readily received the Cosmos Sack, and firmly said while looking at Long Chen: "Thank you brother for your great kindness. I, Shao Yu, will never forget today's kindness!"

Long Chen nodded. He was not a procrastinating person, and as he walked, he directly said to Shao Yu: "The matter today, I was really forced to do it, and even if I did not help, Du Jiu would have taken your life sooner or later. But if I were to kill him, your comrades would all be gone, and as for me, I also have some things that I need to do."

"Bro, you don't have to worry about this. I've already thought about it!" Shao Yu laughed and then said directly: "Although I don't have a goal for now, I'll go to Iron City first and stay there for a month. I'll be able to make some good friends who share the same interests as me, and after experiencing this experience, I know how to judge people, who will be brothers, and who will stab themselves in the back! You don't have to worry about me. I can go find a city myself. If you have your own matters to attend to, then go and busy yourself! "

Being saved by Long Chen was already embarrassing enough. Long Chen's strength was much stronger than his, he was not from the same world as him. There were many things that he needed to do, and he did not want to burden Long Chen and become a burden for Long Chen.

Seeing Shao Yu say this, the worry in Long Chen's heart disappeared. He then said: "I do have my own matters to attend to, but I am not anxious at all. The journey is dangerous, I will send you to a Iron City first to ensure your safety."

"In that case, I will have to thank Brother Long Chen!" Shao Yu gratefully looked at the young man in front of him. He seemed to have a kind of premonition, that this young man might become one of the most dazzling people to come to Archaic Graveyard this time.

Long Chen didn't understand anything and knew nothing about the Archaic Graveyard, but to have so many trump cards, who exactly was he?

Towards this youth, Shao Yu already had some admiration.

After that, Long Chen followed him, and headed towards the direction of the city. After a period of travelling, they seemed to be close, and along the way, they encountered many attacks, including from beasts and humans. In order to fuse with the ancient tombstone token, everyone was fighting crazily.

In the previous battle, the ancient tombstone token of the other dead were merged by Du Jiu's group, and the ancient tombstone token of Du Jiu's group was immediately destroyed by the gold eating qi. But Long Chen was not in a hurry, there were two teams that were following closely behind him. Seeing that they were only two people, they attacked them and in the end were all killed by Long Chen. Half of their ancient tombstone token ended up in Long Chen's hands and the other half ended up in Shao Yu's hands.

To Long Chen, the fusion of the ancient tombstone token seemed to be a very simple task. After all, the level that he had recorded at the start was really too low. There were a total of seven people in the ancient tombstone token and's ancient tombstone token was already half golden in color. And Shao Yu was more or less the same. As for the rest, Long Chen could not help anymore. In order to survive in Archaic Graveyard, he had to rely on himself, Shao Yu and Long Chen were fated, but Long Chen could only help him until now.

After spending five or six days, the silhouette of a city finally appeared in front of this dark brown colored land. Even though it was still far away, Long Chen was able to see that this city was actually made of completely black iron and steel, like a ferocious beast hibernating on the other side of the sky!

Vaguely, Long Chen could see that at the top of the city, there was a huge green flag!

I am already a member of the The Heavenly Wind Holy Dynasty, so the treatment I received in the city that was occupied by the wind race should be better. Brother Long Chen, I really have to thank you for a period of time, I never thought that I, Shao Yu, a good-for-nothing, would be able to meet such a noble person! "Su Yun said.

Long Chen also let out a sigh of relief, smiled, and said: "Don't be too calculative, meeting is fate, you also told me a lot of things."

wind race, since it was a city occupied by the wind race, Long Chen did not want to go, after all, he had killed Feng Xuan before, and there was still the mark left on his body by Feng Xuan, if discovered, it would be huge trouble, and there were countless experts in the wind race, many experts that could be comparable to the God Clan's Young Master, Long Chen did not want to lose his life for no reason.

"I'll be sending you off. You can go over by yourself. We'll meet again if fate wills it." Long Chen pursed his lips and said with a smile.

To be honest, Long Chen's two consecutive words had saved his life, so it was impossible for him not to feel grateful in his heart. After being together with Long Chen for a few days, he had gained a better

understanding of his and felt slightly reluctant to part with his. But since the two of them were people from different worlds, their relationship with each other could only end here.

"If I have the chance, I will definitely repay you well, Brother Long Chen! You are my, Shao Yu's, benefactor! " Shao Yu said firmly.

"Alright, let's go. Don't be so girly." Long Chen said with a smile.

Shao Yu nodded, he bid farewell to Long Chen, and turned back to look at Long Chen a few times, then walked towards the direction of the city.

But just at this time, something unexpected happened. Long Chen suddenly realised that two powerful auras were coming from behind him, he suddenly turned his head, and saw two men in green robes flying quickly in the direction of the Iron City. Because Long Chen and Yue Yu were blocking in front of them, they would definitely pass by!

From their eyes, Long Chen could tell that they were just casually glancing at Long Chen and Yue Shan, and did not have any intentions of making a move on them. If it were any other person passing by, Long Chen would not have to worry, but the clothes and aura of these two, as well as their extreme speed, clearly showed that they were wind race's men!

"This is bad!" Long Chen immediately dodged to the side, he acted as though it was normal for him to make way for the opponent, and if he acted too rashly, the opponent might even sense something strange.

The two men from the wind race quickly flew past Long Chen, and at the same time, approached where Shao Yu was. Shao Yu also felt their presence, and immediately turned his head, and when he saw that they were two people from the wind race, he heaved a sigh of relief.

"Fortunately ..." Long Chen breathed a sigh of relief in his heart. The other party did not discover him, this could already be considered lucky.

However, at this time, the two men from the wind race actually stopped right in between Long Chen and Shao Yu, and were probably over ten meters away from the two of them. After the two men from the wind race stopped, they suddenly turned around and stared fixedly at Long Chen, their puzzled eyes sweeping over Long Chen's body, and then immediately said coldly: "Good brat, you've actually killed people from my wind race, you're courting death!"

After saying that, the two of them rushed towards Long Chen without saying a word!

"Damn, I was still exposed!" Long Chen was a little helpless, his luck was too bad this time. After arriving at this place, there was actually someone who happened to pass by, something he never expected.

It seemed that if he didn't want to flee for his life, a great battle was inevitable.

Chapter 714 - One Hit One Kill

Because of the brand left by Feng Xuan, the two people from the wind race knew that Long Chen had once killed people from the wind race. The two of them revealed their bloodlust as they charged towards Long Chen!

Both of them were at the sixth stage of the Earth Martial Stage. Long Chen could kill one if he wanted to, but it would be troublesome for the other, and he did not know what special methods the wind race had, so he prepared to run.

However, at this time, the two warriors could roughly see Long Chen's strength, it was merely the fourth stage of Earth Martial Stage, there was no need for the two of them to take action, thus one of them actually retreated suddenly while rushing forward, and laughed: "Brother, this guy is merely at the fourth stage of Earth Martial Stage, I leave it to you, you still have another comrade!"

The companion he mentioned was naturally Shao Yu!

After he finished speaking, his speed increased by quite a bit, and instantly rushed towards Shao Yu!

With his strength, he could definitely kill Shao Yu in an instant!

Long Chen did not expect such a situation to occur, his mind was completely blank, everything happened in an instant, and when he desperately rushed towards Shao Yu, the expert from wind race had already arrived beside Shao Yu. Under Shao Yu's panic-stricken gaze, he lightly pressed a palm on his chest.

Before he died, his expression was still blank. Originally, after being saved twice by Long Chen, he was safe and had escaped danger. He finally had some plans for the future, but he never thought that he would actually lose his life at this critical juncture!

"Shao Yu!" He stopped in his tracks, looked at Shao Yu's dead body, and the areas of his eyes that were blank other than the pupils, were gradually filled with blood threads, and a bloody Qi exploded out from Long Chen's body!

"Die!" Shao Yu's death touched Long Chen's anger and hatred, he was in the midst of blaming himself deeply. If not for him, Shao Yu wouldn't have died right now, but if not for Long Chen, Shao Yu would have died a long time ago!

This was probably fate. For someone who had a bad fate, no matter how hard they tried, the final result would still be the same!

Long Chen's mind was completely blank. That furious blood aura surged to his head, causing his entire world to be dyed with blood. The last time it was Feng Xuan who was preparing to plunder Huangfu Qi's wind meridian, Long Chen was furious. And this time, it was because the other party had killed a friend that he had admitted to!

"All of you, die!" Blood-red scales appeared on Long Chen's body, and an even more powerful aura exploded out from Long Chen's body!

"Oh, is it Beast Fighters? What kind of demonic beast is this? " Those two from the wind race did not put Long Chen in their hearts at all.

"Who knows, but does this guy want to fight us to the death? This is really interesting. You've already cultivated it to such a degree, yet you still don't know the difference between your cultivation realms. Just how big is this gap between them? "

"Which of us is going to take action?"

"Of course it's me. You already killed one just now, and now you still want to fight with me!"

"Haha, okay, it's yours. But that fat pig didn't get beaten up at all just now. It seems like this little guy is a bit more energetic. If you want to have fun, don't kill him like I did!"

The two laughed as though no one was around, completely disregarding Long Chen. One of them laughed as he turned into a fast spinning tornado, rushing towards Long Chen. The tornado was like a tornado, with rays of blade light appearing in the tornado!

"Tornado Strike!" The warriors of the wind race unleashed their killing techniques, yet Long Chen actually dared to kill the people of the wind race, kill their compatriots, and even planted such a brand on them. It could be seen how much the person who was killed hated Long Chen! Therefore, the warriors of the wind race planned to use this move to slowly grind Long Chen to death!

However, he had underestimated Long Chen's strength.

He, who had turned into a Dragonsoul Transformation, possessed limitless power. Just by being able to kill one at the sixth level of the Earth Martial Stage, Long Chen was able to kill the second one, especially in a situation like this where the other party was underestimating him. This place was so close to the city occupied by the wind race, of course Long Chen knew that he should not stay here for long.

"You've already gone, and there's nothing that can be done about it. If that's the case, then let me avenge you," Long Chen smiled bitterly in his heart.

That blood-red colored flame suddenly combusted on his right arm, and the blazing Scarlet Emperor Seal suddenly lit up in his palm. The martial cavities that hid the flames were already covered by the flames, and a gigantic illusion of the Scarlet Emperor Burning Heaven Seal appeared in Long Chen's palm!

"Scarlet Emperor Burning Heaven Seal!"

When his opponent was about to kill him, Long Chen used his first killing move, the absolute killing move. In the process of using the Scarlet Emperor Burning Heaven Seal, Long Chen had also used his Devouring Blood Realm to suppress his opponent's True Essence.

After Devouring Blood Realm, Scarlet Emperor Burning Heaven Seal was unleashed!

Rumble rumble rumble!

"What?" The wind race Ranker who was using her deadly tornado move was shocked by Long Chen's [Devouring Blood Realm]. Before he could even react, Long Chen's majestic [Scarlet Emperor Burning Heaven Seal] was already flying towards his head.

"How can he be this strong?" This is definitely a Royal battle skill! " Initially, they looked down on Long Chen, but their expressions had become quite interesting. Especially the expert who was fighting with

Long Chen, now he was directly enduring the power of Long Chen's Scarlet Emperor Burning Heaven Seal!

The enormous seal that covered the sky was directly aimed at the top of his head!

"No!" After a miserable wail came out, his attack was immediately drowned out by Long Chen's Scarlet Emperor Burning Heaven Seal. The Emperor Seal's power directly burnt his body into charcoal, and he died without anything remaining!

An expert of the sixth stage of the Earth Martial Stage, one-hit kill!

Long Chen was only at the fourth stage of the Earth Martial Stage. To be able to kill an enemy two ranks above, he was probably the only one in the entire Archaic Graveyard.

To a Ranker from the other wind race, how terrifying was this?

He had originally thought that Long Chen was the same as him, someone who could easily be killed, but who would have thought that such a situation would occur? Seeing his comrade, who had a strength similar to his own, actually got killed by Long Chen like this, his first thought was to escape!

The city that the wind race had occupied was right in front of his eyes, and at the moment of his comrade's death, he immediately turned and fled frantically. The wind race had many advantages in terms of speed, at least the ranker in front of him, if Long Chen did not use his blood escape technique, was unable to catch up to his opponent.

If it was too fast, he would pass in an instant. Long Chen was not willing to let go of any of his enemies, especially the fact that this warrior was the one who had truly killed Shao Yu, how could Long Chen be willing to let him live?

Thus, he displayed his greatest speed and chased after him!

But just at that moment, a burst of powerful ripples came from the direction of the city. It was obvious that the people stationed there had noticed what was happening, and also knew that people from the wind race were actually killed in front of their own doors. Thus, when the people there became furious, there were already several experts who had surpassed the sixth stage of the Earth Martial Stage rushing over like the wind, if they were here, Long Chen would not be able to catch up!

"F * ck!" The speed of those Rankers was extremely fast, and in just an instant, Long Chen felt that they were close to him. And because of the delay in killing, another warrior had already ran a long distance away, Long Chen had no way to take revenge for Shao Yu before the other party arrived!

"There's still plenty of time. I don't believe that I, Long Chen, can't kill you! And there's still the wind race!" Long Chen's eyes flashed with a cold light. He arrived beside Shao Yu, put his corpse into the Great Void Realm, and before the experts of the wind race arrived, he immediately used Blood Escape and turned into a ray of bloody light, instantly disappearing into the horizon!

Those experts couldn't find any trace of Long Chen!

"Who is this person?"

"Quick, check it out for me!" He actually dares to make a move on our people in front of the city that my wind race is guarding. He is truly bold, find out for me which power he belongs to, as long as he is not from one of the nine great clans, he will destroy the entire power! "

"Yes sir!"

Carrying Shao Yu's corpse, Long Chen walked for a long distance. When he turned around, he could already no longer see the city, and far into the distance, he saw the outline of a city the size of an egg. It should be the city the wind race was guarding.

Long Chen clenched his teeth, feeling a little bitter.

After coming to the Archaic Graveyard, although his performance was very heaven defying, he still felt that his strength was insufficient. With this kind of strength, why would he face the nine great clans' people, and how would he get Xiao Lang back? If he wanted to go to the Imperial Domain that he did not know where, it would probably be even more difficult!

"Don't think too much into it, after burying the Shao Yu brothers, I will cultivate properly!" Long Chen spent a very long time until he found out about a rather remote place and buried Shao Yu here. In front of Shao Yu's grave, Long Chen sighed and said: "This world is like this, the strong preys on the weak.

After staying silent for half a day, Long Chen finally left.

Where he was going next, Long Chen did not know either. Logic told him that he should find a safe place to cultivate properly, and only come out when he had enough strength. At that time, he would have even more confidence in keeping his life, but just now, Shao Yu's enemy had not been killed, so this matter had been stuck in Long Chen's heart. Without even thinking, Long Chen headed towards the Iron City that was guarding the wind race!

Chapter 715 - Monolith of the War God

Long Chen's goal was naturally to sneak in and kill that person!

This time, he did not take the same route. After half a day, he finally saw the city again. The green flag fluttering in the wind was quite dazzling. However, Long Chen had already escaped from the hands of the God Clan's Young Master, so there was no need to talk about this place. The strongest people in the wind race would definitely not stay here.

With the blood escape, his life was basically not in danger, and with the help of the Spirit Devouring Demon Pupil, Long Chen could carefully avoid others. The ground next to the Iron City was also not very flat, and there were suddenly a lot of underground iron ores that appeared.

The city was actually very big, if it was outside, it could be used to house at least a hundred thousand people, but at most, there were a few hundred people inside the city, so it was very spacious. Long Chen was able to sense everything within a mile, and honestly speaking, it would not be easy for people to find out.

"This city is actually all made of steel." Long Chen looked around in surprise. There were many buildings in the city, including houses, streets, restaurants and so on, all of them were there, but the original brick walls were all steel, it was cold, serious, and had a somber aura, there was even a faint rusted smell in the air, and even the floor was made of hard steel. There were some beautiful carvings on the walls.

"This city was obviously built by humans. Could it be that a long time ago, this Archaic Graveyard was the same as the Realm of Myriad Kingdoms, a place where people lived? It was only after some unforeseen events that caused this place to become deserted, like a tomb?" Long Chen guessed.

Once he was in the Iron City, Long Chen only wanted to find the person who killed Shao Yu. As long as he killed him, Long Chen would be able to leave safely and take care of his own matters.

The people of the wind race would definitely be in the direction of the city center, thus, Long Chen went in that direction. He never thought that after walking for just a few steps, Long Chen raised his head, and saw that in the middle of the city center, which was surrounded by countless of steel walls, a strange thing that emitted a strong energy wave. When that energy wave passed through Long Chen's body, Long Chen felt his blood boiling, and he discovered that he was actually filled with fighting spirit!

Separated by a distance, Long Chen still couldn't see clearly what was that thing in that direction. However, at this moment, Cat laughed, "Brat, your luck is really good. After sneaking back into the city, I didn't expect to run into that thing again."

"What is this?" Listening to what the kitten said, Long Chen knew that this thing would definitely be a treasure.

"This is a warrior who carved his lifetime's comprehension into the stone tablet. This stone tablet still has his remnant Martial Spirit, if you can obtain this stone tablet and comprehend the comprehension on it, your realm growth, with someone helping you guide the way, it will at least increase your speed by ten times!"

The kitten lazily said.

"Monolith?" Long Chen's heart instantly became excited.

With his ten times cultivating speed, this was simply too enticing for Long Chen. However, to the current him, this stone tablet was definitely one of the most valuable treasures, and it was even more suitable than the Five Emperor Prints for Long Chen. This was because Long Chen's weakest cultivation realm was at his realm, so long as he raised it in terms of cultivation realm, his overall strength would definitely be able to increase by leaps and bounds!

At the beginning, he did not see clearly what was on the stone tablet in the distance. After all, there were many steel buildings blocking the way, so Long Chen could only see a corner of it, but after listening to what the kitten said, Long Chen carefully looked over, and indeed, he discovered that it was a corner of the stone tablet. The stone tablet was completely black, and it gave off a profound energy wave, which was able to stir up Long Chen's boiling blood.

With the Spirit Devouring Demon Pupil, Long Chen could discover the other party first. The people of wind race were rather easy to identify, because they needed a uniform marking, their clothes were mostly green robes, and the man was elegant and graceful. As long as they weren't people of the wind race, Long Chen could make contact with them.

The people who came here were basically the same as Shao Yu, they came to find a base area first. This city was under the control of the wind race, it forbade gang fights, and provided safety for them, thus they settled down here. With the wind race's firm control, very few people could come here like Long Chen, they had registration, and in a month, they would be expelled.

After discovering two people, Long Chen stopped not far away from them, as if he himself was also a normal person who came in. As long as he did not meet anyone from the wind race, Long Chen was fine.

"I never thought that in this corner of the city, there would be the appearance of this Monolith of the War God. The wind race obtained the Monolith of the War God and immediately sent experts over. Under the strict protection of the wind race, we did not even have the chance to look at the Monolith of the War God! "

Under the protection of a dozen or so experts of the seventh stage of the Earth Martial Stage, let alone looking, we would probably be killed if we go near, and there would even be experts that would come from far away in the wind race, so the Monolith of the War God that has appeared in the Iron City, should be the first treasure that has appeared in the Archaic Graveyard this time. Last time was decades ago, a Monolith of the War God appeared, but it was obtained by the demons.

"I'm so envious! If I could just take a look at this Monolith of the War God, I would be satisfied. Who knows?

Don't think too much, we will stay here, don't worry about the enemies, beasts and the gold eating qi, we will be satisfied with what we have to do. If your words were to be heard by the people of the wind race, we would definitely skin you alive.

"I know."

From their conversation, Long Chen heard a lot of information.

"Are there so many people guarding this Monolith of the War God? For the Earth Martial Stage to be able to comprehend the Monolith of the War God, it seemed that it was at least left behind by the experts of the Heaven Martial Stage. Other than the Seven Monarchs's inheritance, the Monolith of the War God should be a very strong treasure, the wind race would probably care about it greatly, and would even use all of its powers to send experts to protect it, preventing others from fighting for it! However, there are still dozens of experts at the seventh stage of the Earth Martial Stage? "

With Long Chen's strength, he could at most only deal with a sixth stage Earth Martial Stage. If two sixth stage Earth Martial Stage s surrounded and attacked him, he didn't even know if he could handle it. If that was the case, it would be difficult for him to obtain the Monolith of the War God.

Long Chen shook his head, he was still too weak.

The desire to become strong burned fiercely in his heart.

Even though he was quickly at the fourth stage of the Earth Martial Stage, he was still not satisfied, and this Monolith of the War God was the opportunity for him to rise!

"The people from the wind race should be guarding near the Monolith of the War God, and even the people who killed Shao Yu should be there. I have the Spirit Devouring Demon Pupil, so I'll go and carefully observe for a while, and understand the situation of the Iron City well.

Thinking about it, Long Chen headed towards the center of the city.

This place seemed to be the largest city in the entire liujin region, and the size of its territory was at least ten times larger than the city Long Chen was currently in. This was a city that was about the same size as the Martial Imperial City, and there were hundreds of thousands of people living in the Martial Imperial City.

In the darkness of the Iron City, there were many golden buildings, especially in the center of the city, they were completely golden. This was a golden palace, and standing in the center of the Iron City, it was majestic and imposing, indicating that this place could be the core of the entire liujin region.

The name of the city was Huge Liujin City!

The patriarch of the wind race and her men led the entire clan and stood guard at this place. At the same time, they spread out, completely infiltrating the entire wind race and occupying the majority of the territory of the liujin region. In this operation, the two races of the Wind God Realm were directly split into two branches, with the god race occupying the profound fire domain of the five great regions, and the wind race taking up more than half of the other half. There was still another small half of the liujin region s which were occupied by the Five Elements Alliance s, which also meant that the wind race's greatest opponent among the liujin region s was the Five Elements Alliance s.

The two of them could be considered old enemies. Their usual grudges were not small as well.

In many areas, there were many conflicts between the two races.

With the patriarch of the wind race here, it was the safest place in the entire liujin region. Even the gold eating qi would not come to this place, of course, everyone would not be able to stay in this city forever, if not why would they need to come to the Archaic Graveyard?

Coming to the Archaic Graveyard was nothing more than killing people for their treasures!

When truly vicious people came to Archaic Graveyard, they would immediately throw themselves into battle, obtain treasures during the process of fighting and improve themselves!

Some people died, some people survived. Those who survived, without exception, would become elites!

Nearly a thousand people were scattered across the Huge Liujin City. Among them, the most important people were the people at the heart of the wind race, and of course, they were at the center of the palace in the Golden Hall. At this time, there were two people conversing in the center.

Chapter 716 - Feng Zhiling

Although it was a little old, one could still see just how grand and gorgeous it was all those years ago. And the person seated on it, with a deity's demeanor, white hair, and deep cold and stern eyes was the patriarch of the wind race that Long Chen had seen on the star board! His strength was not much weaker than the Patriarch of the Five Elements Alliance, and he should not be much older either.

The other was an elegant young lady, this young lady wore a light green dress, she was elegant and graceful, although her face was covered by a white muslin like Feng Xuan, but looking at her exquisite and beautiful figure and the outline of her face, she was another rare beauty. Furthermore, this young lady gave off a young aura, so it was obvious that she was not too old, and was not someone that the kind of old lady like Feng Xuan could compare to.

This young lady was brought to the Archaic Graveyard. Her position was evidently not too far from the position of the God Clan's Young Master in the god race. She must be the daughter of heaven in the wind race.

Her light green long skirt fluttered, the woman used a voice that was like an oriole to speak indifferently in front of the wind race Patriarch.

The patriarch of wind race smiled at the girl, her face was full of satisfaction.

Time slowly passed, and at this time, a middle-aged man walked into the great hall. His expression was anxious, and he was filled with joy, but he forced himself to kneel on the ground, and excitedly said to the two clan leaders: "Greetings Patriarch, and Princess Lin, from the direction of the Black Gold City, a heavenly great news has come!"

"What news?" The patriarch asked immediately.

"Monolith of the War God has appeared in Black Gold City! It is ed that this Monolith of the War God is hiding an comprehension that can allow one to reach the ninth stage of the Earth Martial Stage! "

The middle-aged man said excitedly.

The patriarch stood up immediately, his face revealing a look of pleasant surprise: "Is that what you meant? Is there really a Monolith of the War God here in the city we are stationed in? "

The middle-aged man immediately said: "This news came from the direction of the Black Gold City, it's definitely true!"

The patriarch of wind race laughed out loud three times, "Okay. Good! The heavens are truly helping my wind race, with this Monolith of the War God, our wind race's strength will definitely increase greatly! "

After laughing for a long time, his brows furrowed slightly, and said: "Selene, that Monolith of the War God is quite big, and there's no way it can fit such a huge Monolith of the War God inside the Cosmic Bag. I'll give you a 'ring', you go to the Black Gold City and bring me out there, and if they find out about this, they will definitely fight with us for it. I still have things to take care of in the Huge Liujin City, so I'll leave this mission to you!"

The beautiful young lady quickly nodded, and said: "Don't worry, Grandfather, I promise I will do this matter beautifully. Two days later, I will hand the Monolith of the War God over to you."

"Truly, this old man's good granddaughter has had a better future compared to her other siblings since she was young!"

Feng Zhiling smiled faintly. She had long been used to praise from her elders.

In the same generation of the wind race, only Feng Zhilin had seventeen wind meridians, which meant that her potential was at least at the ninth level of the Earth Martial Stage. You have to know, even if the clan leader of the wind race in front of her had a total of sixteen of them!

In wind race, the number of wind meridians, was basically equal to the potential of warriors. The more wind meridians there were, the better their potential and physique would be, and their achievements in the future would be too. In wind race, there was currently no one equal in number of wind meridians to Feng Zhiling.

In the wind race, she was the unparalleled princess.

That was why her grandfather brought her to Archaic Graveyard, and even more so, kept her by his side the whole time. If there was anything good, Feng Qing would give it to Feng Zhilin at the first possible moment.

He was already at the eighth and ninth level of the Earth Martial Stage at the age of eighteen, and was even close to breaking through to the ninth. Such a genius was extremely rare in the Heavenly Wind Holy Dynasty. That Monolith of the War God could very well let Feng Zhiling reach the ninth stage of the Earth Martial Stage. To Feng Zhiling, it was like a treasure among treasures.

However, Feng Zhiling was not excited. She was someone who was favored by fate. She had long since become accustomed to these matters of good luck.

"Feng Yang, there shouldn't be any special circumstances in the Black Gold City right now, right? Will the news of the Monolith of the War God be leaked and let the people of the Jinshi know?" Feng Qing was concerned about his darling granddaughter's safety, so he asked one more question.

The middle-aged man who was kneeling on the ground immediately replied: "No, absolutely not revealing anything. Those ordinary warriors who are still in Black Gold City, none of them went out. If it wasn't for the fact that I was afraid of provoking too much criticism, I would have killed them long ago."

However, if we trap them and wait for Princess Lin to take the Monolith of the War God, I won't restrict their movements.

"En, you have done well. That Monolith of the War God will also have your share in the future!" Feng Qing said indifferently.

"Thank you Patriarch, Feng Yang will definitely work hard and strive to break through the eighth stage of the Earth Martial Stage, and do his best to help the wind race!" Feng Yang said excitedly.

Monolith of the War God, in Feng Zhiling's hands, as long as Feng Zhiling ran out, the others could still get their share!

"Mm, in that case, Zhilin, you can go." Feng Qing looked at his granddaughter with a kind gaze, then took out a dark ring. This small ring contained many fine runes, and it felt like it was inside a Qiankun bag. However, the space inside was much larger than the Qiankun bag.

"Take good care of this ring, even our wind race does not have more than five. Today, this ring will be yours." Feng Qing said while laughing.

"Zhilin thanks grandpa." Feng Zhiling smiled, slightly bent his knees, and bowed to the patriarch of the wind race.

"That's right, chief, there's a small matter." At that time, Feng Yang spoke.

"What little thing?" Feng Qing asked.

This morning, there were two people heading towards my Black Gold City. It just so happened that there were two warriors of my race that were going back to the Black Gold City, and when I passed by them, my clan warriors discovered that one of them had actually killed my wind race's people.

"And then?" Hearing that his own clansmen had been killed, Feng Qing's voice was filled with displeasure.

"Then, my clan's warriors attacked them, killed one of them, and let the other one escape. That person who escaped also killed one of my clan's warriors, that warrior is still a long way away from Black Gold City, so he probably didn't know about the arrival of the Monolith of the War God!" Feng Yang said.

"It's good that you don't know, we haven't suffered any casualties these few days, this person might have come to Archaic Graveyard after killing my family members in the past." Feng Qing did not pay much attention to this matter.

"What's the strength of the person who escaped? Why didn't they attack? watch as the enemy leaves? " Right then, Feng Zhiling asked in a cold voice.

It could be seen that her temper was even greater than her grandfather's.

Feng Yang knew the temper of this young miss, so he didn't dare to retort and hurriedly said: "This is strange, that person only has the strength of the fourth stage of the Earth Martial Stage, but he used a battle skill that should be a Royal Tier Battle Skills, and directly killed a warrior at the sixth stage of the Earth Martial Stage. Furthermore, he also used an escape technique, turned into a bloody light, and instantly escaped."

"Fourth stage of the Earth Martial Stage, using the Royal Tier Battle Skills, killing a warrior at the sixth stage of the Earth Martial Stage?" Feng Qing's face revealed a surprised expression. He looked at Feng Yang with some astonishment and asked: "You must be joking with me right? Just the fourth stage of the Earth Martial Stage, where did the Royal Tier Battle Skills come from?"

"I don't know either, it was said by the warrior who escaped, the fourth stage of the Earth Martial Stage, if you want to kill the sixth stage of the Earth Martial Stage, how can you do it without the Royal Tier Battle Skills?"

"So it's him." At this moment, a faint smile appeared on Feng Zhiling's face.

"Hailin, you know this person?" Feng Qing asked.

"Does Grandfather still remember about God Clan's Young Master Wu Guangyu? When he first came to the Archaic Graveyard, he had snatched a strange demon wolf, he had treated that demon wolf as a treasure and that demon wolf was taken from the hands of a mysterious youth called Long Chen. That

person called Long Chen had once used a Royal Tier Battle Skills to force Wu Guangyu away and at the same time, used an escape technique to escape in front of Wu Guangyu. Feng Zhiling analyzed calmly.

"There's actually such a mysterious person. Zhilin, you should pay more attention to this person once you get there. If you can snatch his Royal Tier Battle Skills and other things, that would be even better." Feng Qing laughed.

"Of course, Grandpa doesn't need to worry." Feng Zhiling smiled sweetly.

Feng Qing suddenly thought of something and let Feng Yang leave. He then said to Feng Zhilin: "This time, Bai Lian came and hurriedly brought Wu Guangyu to the Mystic Fire Region, I think they went to find the inheritance of the Azure Lotus Emperor. If Wu Guangyu obtained the inheritance, his strength would soar, and he would be able to stabilize his position as number one among the younger generation."

"Emperor of the Azure Lotus?" Feng Zhiling pursed her lips and looked out the window, "My fiancé, my man. Without such accomplishments, how could he be worthy of me?"

"Will you dislike this marriage? This marriage was decided by Bai Lian and me." Feng Qing asked.

Feng Zhiling smiled sweetly, and said: "Grandfather, don't think too much about it. In Realm of Myriad Kingdoms, other than Wu Guangyu, are there any other men who are more outstanding? If he really wants to marry, then so be it."

"Girl, you're truly too arrogant." Feng Qing laughed helplessly, and said: "It's getting late, so you should go and get the Monolith of the War God earlier. I'll have your Xue Yi follow you right now."

Chapter 717 - Purple Skirt Woman

Under the Spirit Devouring Demon Pupil's watch, Long Chen avoided encountering other people, and directly went to the center of Iron City. The closer she got to this place, the more clear the Monolith of the War God became in Long Chen's eyes.

In the direction Long Chen was currently heading, it should be towards the back of the Monolith of the War God. The Monolith of the War God was like a huge black stone board, covered in rust and full of the vestiges of time. Because it was on the back side, Long Chen could not see what was so special about the

Monolith of the War God. The only thing that shocked Long Chen was the feeling of desolation that came from it, as well as the aura that belonged to 'Wu'. Even without looking at his face, Long Chen felt a strong mental energy from the Monolith of the War God that had caused a kind of mental impact!

Long Chen had a premonition that if he could obtain this Monolith of the War God, his strength would definitely increase by a lot. He was currently only at the fourth level of Earth Martial Stage, so compared to others, he was simply too weak.

However, there was a seventh stage of the Earth Martial Stage protecting it. This Monolith of the War God, how was Long Chen going to obtain it?

The seventh stage of the Earth Martial Stage, was not a joke.

Long Chen quickly approached. Even though there were still about three hundred meters between them and the Monolith of the War God, Long Chen was still unable to advance forward. In front of him, there were at least thirty odd people from the wind race stationed there, most of them were at the seventh stage and the least were at the sixth stage of the Earth Martial Stage.

Long Chen reckoned that out of the nine great clans, only those in the Sixth Stage of the Earth Martial Stage would be able to make it to this place. The Seventh Stage of the Earth Martial Stage was the most central force and those in the Eighth Stage of the Earth Martial Stage and above were considered strong.

They were all from the wind race, and the wind race set a limit when they were 300 meters away from the Monolith of the War God. The distance of three hundred meters was within their perception. Even if Long Chen did not kill him, if he approached closer at this moment, he would still be killed by the other party!

Hiding quietly in one of the inconspicuous corners, Long Chen used the Spirit Devouring Demon Pupil to measure them and finally found a familiar aura on one of them. That's right, he was the one who killed Shao Yu, so Long Chen firmly remembered this person's location, but since he was hiding in the middle of so many people, Long Chen had no way of killing him.

Long Chen didn't know if there would be such a chance.

Earlier, Long Chen had already stealthily walked in front of the Monolith of the War God. Taking advantage of this time, he could finally take a good look at this Monolith of the War God.

This piece of Monolith of the War God was completely black, with a height of more than 30 meters and a width of more than 10 meters. Compared to it, the people from the wind race were pitifully small. This Monolith of the War God should have directly smashed down from the sky, because Long Chen could see that underneath the Monolith of the War God, it had directly smashed into a tall and steel building, directly shattering the building, and then plunged even deeper into the steel ground!

Coming to the front of the Monolith of the War God, Long Chen's eyes were quickly attracted by it.

On the Monolith of the War God, there were a total of a dozen or so rows of words, each of them were about the size of a person's head, and these words were directly carved onto it, they were extremely fast, and extremely ancient, and many of the words were used a long time ago. Long Chen did not recognize any of the characters, but that was not important, and with just a glance, the words were deeply engraved into his mind.

Looking at the words, it was just an essay describing magnificent scenery, and nothing could be seen about it that was magical, but for some reason, Long Chen was deeply captivated by it. He was actually distracted for a moment.

"Is there anything magical about this Monolith of the War God? Just like the Desolate Divine Seal, is it something to be comprehended?" Long Chen thought like this for more than two hours, and his eyes became tired of looking at it. The Monolith of the War God was sending over the aura of the Ancient Desolation, as well as a type of power that would cause one's blood to boil.

Gradually, Long Chen discovered that the black text had started to distort. He knew that it was a distortion in his eyes, and in the eyes of others, it might even look the same as it was before. From then on, Long Chen understood that there was a requirement for understanding Monolith of the War God. Not everyone would be able to understand it, they would at least need to have the strength of Earth Martial Stage.

The faster they could see the clues of the Monolith of the War God, the more they proved their great potential. It took Long Chen two hours to finally make a change in the Monolith of the War God, he did not know how strong he was, but among the wind race warriors that were surrounding the Monolith of the War God, there were a few that were secretly observing and observing. From their eyes, he could tell that none of them could enter Long Chen's Realm of Self-Actualization.

The words had changed for the first time. When Long Chen observed again, he had less time to enter a state.

In Long Chen's world, the surrounding steel buildings and the people from the wind race had all disappeared. The only thing that remained was the ancient Monolith of the War God in front of him. This Monolith of the War God was over thirty meters tall, but in Long Chen's eyes, the entire world was left with only this Monolith of the War God!

This Monolith of the War God was over a thousand miles high, and could touch the sky! Shrouding the Heavens and Shrouding the Sun!

In front of the Monolith of the War God, Long Chen was as minuscule as an ant. He raised his head high up and looked at the Monolith of the War God in awe.

BOOM!

In front of Long Chen's eyes, the words on the Monolith of the War God were rapidly changing. They twisted into lines and then the lines wiggled again, combining together. In Long Chen's eyes, these words gradually condensed into a human figure.

This humanoid form was like a shadow trapped on a Monolith of the War God, it had been motionless at the beginning. When Long Chen was anxiously waiting, he finally started to move. Just as Long Chen expected, this human figure was practicing fist techniques. This fist technique was the Earth Martial Arts manual!

However, the feeling the humanoid Earthen Martial Arts manual had was completely different from Long Chen's, and it was even slightly different from other people's attacks. The moves were still the same, but the feeling they gave off was a lot more different. At least, compared to Long Chen himself, he was much stronger. Compared to him, Long Chen felt like a small child who had just met a great witch.

The moment the human figure's Earth Martial Arts Manual was opened, Long Chen was completely immersed in this kind of mystical rhythm. Starting from the first stage of the Earth Martial Stage, watching this human figure's fist techniques, every punch seemed to be able to dig out something that Long Chen had not noticed before. He felt like a person who had yet to reach the Earth Martial Stage, and was able to start from the first stage of the Earth Martial Stage.

The path of martial arts was incredibly profound, what Long Chen was now familiar with was only a tiny bit of it. This figure's practice of fist techniques had given Long Chen a lot of comprehension.

Just as the figure's fist technique was about to reach the fourth stage of the Earth Martial Stage and Long Chen was about to receive a new comprehension, an extremely dangerous feeling suddenly enveloped Long Chen and he hurriedly woke up!

He had been completely immersed in the Monolith of the War God just now and had forgotten about the situation around him. After he woke up, he was so scared that he broke out in a cold sweat.

When he woke up, he heaved a sigh of relief. He realized that he had not been discovered, and the reason he had awoken just now was because a new person had arrived in the Iron City.

In addition, the ones who had come were powerful experts.

Without saying a word, Long Chen immediately hid himself far away from the Monolith of the War God, all the way until he mixed together with the other normal warriors. Those warriors mainly came here to seek protection, but since the Monolith of the War God was in trouble now, they also came to join in the fun, watching from afar, although their hearts were full of slander, they did not approach.

After all, the fame of the wind race s was still terrifying enough.

Long Chen hid in a corner and looked at the two people flying in from the sky honestly. They quickly arrived above Black Gold City and landed near the Monolith of the War God.

They were two women. The one in the lead looked very young. She wore a light green long skirt and had a white veil covering her face. Even though there was a veil covering her face, there was still a stern coldness radiating from her face.

Behind her was a woman wearing a purple dress. Her face was calm and her smile was elegant. It was unclear how young she was, but she did not seem to be more than 30 years old. This woman wasn't wearing a veil. She had a curvy figure and her whole body was full of mature charm. Her voluptuous figure attracted a lot of attention.

But that young lady, she's so young, and yet her strength is this terrifying? She must be an existence at the level of the God Clan's Young Master, and that young lady is from the wind race, could she be a young genius from the wind race? "

Long Chen asked.

Just as this question appeared in his mind, a few people beside him started discussing: "If I'm not wrong, is this the legendary princess of the wind race, who possesses seventeen wind meridians, Feng Zhiling?"

"It must be her! The one beside her was a guest expert from wind race called Xue Nv. I heard that they are both above the eighth stage of Earth Martial Stage, especially Feng Zhiling, she has countless of resources from the wind race, her battle skills, spirit medicine and so on, all of them are at the optimal level. Furthermore, there are also many sacred arts and techniques, I am afraid that at the eighth stage of Earth Martial Stage, her strength is almost invincible! "

"The attractiveness of Monolith of the War God is really great, I never thought that these two people would come here together, they must have brought 'ring', and by doing so, this Monolith of the War God will completely belong to the wind race."

Chapter 718 - Arrival of the Jinshi

Everyone's faces were filled with helplessness. Even if the treasure was destined to not belong to them, they could only watch helplessly as such a precious treasure was taken away by the other party.

"I heard that this Feng Zhilin is engaged to the young master of the God Clan, Wu Guangyu. Once they leave the Archaic Graveyard, they might even get married.

"Yeah, with such strength and position, and her beauty, she should be matched with a man of the same level, or maybe even better. In the younger generation, I'm afraid only the God Clan's Young Master is suitable for her!"

While everyone was discussing about this, Long Chen listened attentively.

"Feng Zhiling?" Long Chen silently remembered this name several times in his heart.

"She's actually Wu Guangyu's fiancée? It's really unfortunate, but this woman is too strong, I am not her opponent, and she wants to obtain the Monolith of the War God, could it be that I have no fate with it?"

Such a heavy treasure, and even his own chance of turning the situation around, to be stored away by Feng Zhilin like this, Long Chen felt extremely conflicted in his heart.

Long Chen knew that rings were a type of item that had a larger space than the Heaven and Earth Pouch. Rings were a lot harder to make than the Heaven and Earth Pouch, so it would be difficult for normal attacks to harm the ring.

Of course, there weren't many rings. At least, Long Chen had never seen a single person. The space inside Long Chen's Great Void Realm had increased a lot with his increase in strength. At the very least, it was larger than an ordinary ring, because Long Chen had completely put this Monolith of the War God in, but he did not know how heavy this Monolith of the War God was. If it was too heavy, Long Chen would need a period of time to fill it up.

Since Feng Zhiling was here, he didn't dare to act rashly.

Just like the other warriors, Long Chen set his gaze on Feng Zhiling. This legendary girl seemed to be very arrogant, she only had eyes for the Monolith of the War God. As for the others, she did not even glance at them.

When they were about ten meters in front of the Monolith of the War God, Feng Zhiling stopped. Raising her head to look at the tall Monolith of the War God, her tender pink lips slightly lifted, and she asked: "Monolith of the War God? "What an interesting thing!"

"Miss, in order to avoid any problems, why don't we bring this Monolith of the War God into the ring first. The Archaic Graveyard is not a good place," the purple-dressed woman said with a smile.

"No rush, let me see what's so miraculous about this thing." As she spoke, she walked in front of the Monolith of the War God and extended her slender, white, and full of fingers, gently caressing the black Monolith of the War God.

"What a magical thing!" She smiled as she moved out of the way.

"The Monolith of the War God s, they were at least left behind by the third stage of Heaven Martial Stage, it's normal for Miss to not understand them, so when the Monolith of the War God descended from the sky, a third of it had already sunk into the steel ground. If you want to use this Monolith of the War God to get to the ring, you will need to pull it out of the ground, leave this to me."

"I'll be troubling you, Xue Yi." Feng Zhiling didn't refuse, she just said so directly. It could be seen that she wasn't very polite to this Xue Yi. If it really was her seniors, then she probably would have done it herself.

"Not at all." Xue Yi smiled sweetly.

After she finished speaking, she went past Feng Zhiling and arrived in front of the Monolith of the War God, sticking closely to it. The purple-dressed woman pondered for a moment, before finally opening her hands and placing them on the Monolith of the War God. The white fingers on the black stone monument had a strong visual impact!

Following that, the purple dressed lady's true essence began to rapidly flow, and one by one it flowed to the acupoints on her hands, causing an icy-blue power to surge out from her hands, flowing into the Monolith of the War God, tightly attracting it!

"Rise!" With a light snort, the purple-dressed woman started to exert her full strength. Although she was carrying something heavy, her actions and expression were all very elegant.

"If this Monolith of the War God were to sink into the ground, as long as she were to release it, he would probably be able to place it into the ring." Long Chen's heart practically rose to his throat.

"The moment the Monolith of the War God loosens, I used Blood Escape and instantly moved to the position of the Monolith of the War God. I can probably control the three hundred meter distance, and then put the Monolith of the War God into the Great Void Realm. After that, I will use Blood Escape and leave, this method seems to be a bit risky."

Long Chen thought carefully.

The other side had two warriors of the eighth level of the Earth Martial Stage. Wanting to take advantage of them was not an easy matter. understood this principle, and Monolith of the War God was extremely important to him, so he wanted to give it a try.

In any case, he wouldn't die. If his plan failed, he would have to use a blood sacrifice. Although he didn't know what the result would be, it was better than dying on the spot.

The reverse of time, the blood sacrifice, these powerful abilities made Long Chen feel as if he was an undying cockroach.

At this time, Long Chen was holding his breath, he could already feel that under the purple dressed woman's immense strength, the Monolith of the War God had already begun to loosen up, and when it completely loosened up, Feng Zhilin would be able to put it back into the ring.

At this moment, the girl named Feng Zhiling had already raised her arm. On her finger, there was a black ring with some beautiful patterns on it. There was a black gem inlaid on it, and inside the gem, there was the mystical ring space.

This ring could completely place the Monolith of the War God in there.

Long Chen held his breath, waiting for the Monolith of the War God to finally loosen up, and at that time he would make his move. Feng Zhilin completely did not know of his existence, so if he made a move, it was possible that he would succeed.

iso

Right at this moment, something happened. Two rays of golden light suddenly shot over from the sky in the distance, the golden light was actually two rays of burning light, it was as thick as a person's waist, the target of these two rays of light was the lady in purple who was trying his best to loosen up the Monolith of the War God!

"Gold Eyes of Destruction?" He was familiar with Gold Eyes of Destruction, when he had clashed with Zhao Danchen, Zhao Danchen had used it more than once. He never thought that he would see such an attack in the Archaic Graveyard, and this attack came from a faraway place. Just one look was enough to tell that it was much stronger than Zhao Danchen's.

"Xue Yi!" By the time Feng Zhiling and Yue Yang reacted, it was already too late. It was still more important for the Xue Yi to keep their lives, and they immediately dodged, and the two rays of golden light directly struck the Monolith of the War God, causing it to sway slightly. The Monolith of the War God seemed to still be quite sturdy, and at the place where the Gold Eyes of Destruction had landed, there were no traces at all.

"Gold Eyes of Destruction? The people from Jinshi are here. " Feng Zhiling and Xue Yi's expressions changed. That Xue Yi had a look of worry on his face, but Feng Zhiling had a sneer on his face.

After the two Gold Eyes of Destruction disappeared, the other two golden lights flashed across the sky and arrived at this place. What appeared in front of everyone's eyes were two old men. These two elders had golden hair, and even their pupils were completely golden. On their foreheads, there was a golden circular imprint. The most surprising thing was that these two old men looked exactly the same!

"That Zhao Danchen, actually has the bloodline of the Jinshi? Zhao Danchen's eyes are only gold, Golden Battle Body and Gold Eyes of Destruction, these Jinshi's people, are probably all here. " Carefully sizing up the two elders from the Jinshi, Long Chen realized that their strength was actually around the same as Feng Zhiling and the others'.

"I was wondering who it was. With such a great momentum, it turns out to be the famous twin brothers of Jinshi, Jin Xiong and Jin Ba. "He's so old, yet he still came out to fight with his life on the line?" Seeing that it was the two of them, a trace of fear flashed across Xue Yi's eyes, but she quickly covered it up and said while smiling coquettishly.

The twin brothers looked at the Monolith of the War God greedily. After Xue Yi spoke, they turned their gazes over and one of them said: "So it's Lady Xue and this girl. She must be the famous Feng Zhiling, right? wind race's information is really well guarded, if we did not happen to pass by nearby, we would not know that there is such a good thing here. "

"What do you want?" Feng Zhiling interrupted him and asked decisively.

"Well? This means that us brothers and the Monolith of the War God are fated to be each other, and this Monolith of the War God belongs to us, so you two women better not be busy, and just scam back to your Huge Liujin City! "

When the two men from the Jinshi saw that they were both female elites, they couldn't help but look down on them. Indeed, in many fights, it was normal for women to be no match for men due to their personality and physical inferiority.

"Since you want to rob me, then don't speak so much nonsense. Previously, in the process of fighting for the Huge Liujin City, your Jinshi suffered a crushing defeat at the hands of our wind race. Feng Zhiling laughed sarcastically.

Chapter 719 - Mysterious Golden Soul

"Little girl, you know my fart, that's because the main force of my Jinshi is not here. If my clan's clan chief were to come over, your Feng Qing would be an opponent of our clan chief. That Huge Liujin City, our clan leader would not even catch his eyes." One of the old men from the Jinshi rebuked somewhat anxiously.

"Words are useless. The two of you can prove whether or not you are trash." Feng Zhiling said coldly.

From her words, the smell of gunpowder grew stronger and stronger. The two sides no longer spoke, only staring at each other coldly, waiting for an opportunity to strike.

Long Chen was also a little speechless, his plan was already set, but seeing that the Xue Yi was about to let go, he did not expect the two elders from Jinshi would come over.

If the Xue Yi were to touch the Monolith of the War God again, they would definitely be attacked, so they could not touch the Monolith of the War God for a while. As for the rest of the wind race, in front of an expert like Feng Zhilin, they seemed to be unable to help. And for people like Long Chen, who only wanted to watch the show, there was even less of a need to talk about this.

Feng Zhiling had completely ignited the atmosphere.

The two old men from the Jinshi had haughty expressions, making him feel unaccustomed. Before the other party even made a move, she said directly: "Since you two are here, then let's not fight, knowing that you two are going to fight, don't waste the world, whatever you say will be nonsense, in the end it will be your power that decides us. Xue Yi, one by one, we will see who can eliminate the opponent first!"

As she said that, she did not even give her opponent a chance to speak. Her figure changed, and her light green dress danced, floating like an immortal, suddenly appearing in front of the two Jinshi Warriors!

"Miss!" With regards to this arrogant young miss, Xue Yi was truly helpless. She followed behind Feng Zhiling and came to the front of another old man!

As for the other people within the wind race, they stood in front of the Monolith of the War God to prevent the other small fries from attacking.

The two elders of the Jinshi looked at each other, laughed coldly, and instantly separated into two groups to welcome Feng Zhiling and Xue Yi.

Feng Zhilin moved away, and went to the other side, leaving the battle empty for the Xue Yi, and one of the gold haired elderly man chased after her with a sinister smile.

"Little girl, your grandfather actually let you run here without worry. He actually dares to come here? Then I'll accompany you to have fun." As he looked at this delicate body full of youthful energy, the old man was also a bit startled.

Feng Zhiling sneered, her smile filled with cruelty.

He had seen many people like this. If they really fought, he would regret what he had said.

After a short confrontation, the two of them quickly took action. The first one who could not help but be angered was the old man from Jinshi. Before his brother could make a move against Xue Yi, he made the first move.

The two of them were twin brothers who had been together for almost two hundred years, so they had long since understood each other's intentions. The Xue Yi was a very famous figure among the wind race, and her power was considered outstanding among the eighth stage of the Earth Martial Stage, which was very difficult to deal with. In their opinion, Feng Zhilin was a young girl, and should be much easier to deal with. As long as they could hold Feng Zhilin hostage and threaten Xue Nv, obtaining the Monolith of the War God would be easy.

Therefore, while one of them was making a move against Feng Zhiling, the other was confronting the Xue Yi. Although she was old, her lust did not decrease. Her fiery eyes stared straight at Xue Nv and revealed an expression of desire.

On the other side, Jin Xiong from the Jinshi and Feng Zhiling had already begun their battle.

"The Golden Battle Body of the Jinshi? And it has already been opened to the second level? " Looking at the opponent, Feng Zhiling's lips curved up in a cold smile.

In front of her, lines of golden light circulated around Jin Xiong's body, and a layer of golden light completely enveloped his body. This was the Golden Armour that he had created by opening Jinshi's Golden Body up to the second level, which meant that with this Golden Armour, his attack and defense, and so on, would all increase by a large degree.

"Little girl, it's good that you know this!" Jin Xiong laughed, and his body turned into a golden whirlwind as he punched towards Feng Zhilin. His fist was filled with explosive power, the attack formed by the eighth stage of the Earth Martial Stage along with the second stage of the Golden Battle Body was extremely terrifying, and it was completely incomparable to what Zhao Danchen had been like in the past!

RUU...!

Under this punch, the air exploded countless times in a short moment, and even the space distorted slightly after the punch landed.

"Impressive, Jinshi specializes in strength and defense, Zhao Danchen is already strong enough, but he is not a pure Jinshi, he doesn't even have the round golden imprint on his forehead." Long Chen was secretly shocked.

His target was the Monolith of the War God, at the same time that he was watching the battle, Long Chen was also seizing the opportunity to attack!

The more chaotic the enemy was, the greater the benefits would be!

He was very curious. If Feng Zhiling was so arrogant, then what about her combat power?

Very quickly, Long Chen had witnessed Feng Zhiling's speed, was so fast that it was hard to look at with the naked eye. She used a movement skill, which was the same series as the catkin with wind, but when she used it, it was like he had reached the pinnacle, and that magical figure was like a real willow leaf. That Jin Xiong had consecutively punched out eight times in a short period of time, but he couldn't even touch Feng Zhilin's clothes!

"Little girl, do you only know how to run?" Jin Xiong scolded in a slightly exasperated tone. He had wanted to force Feng Zhilin, but Feng Zhilin was like a loach, how could he hold her back?

RUU...!

Fists after fists were thrown out, the air trembled, and the surroundings were filled with golden light. But even with Feng Zhilin's movement technique, Jin Xiong still wasn't able to hit his opponent even once, which made him a little crazy. To him, this was simply a humiliation!

"Little girl, don't run anymore. Let me see if you have any other methods in your wind race other than running away! You are just a bunch of servants that climbed up to the gods, do you really think you are one of the Nine Great Clans? "

In fact, after many years of development, the wind race already had a very powerful foundation. Although it could not be said to be comparable to the gods, it could at least be said to be slightly comparable. Yet Jin Xiong brazenly humiliated her, causing Feng Zhiling's gaze to suddenly explode with killing intent.

This girl's killing intent was actually this terrifying!

Originally, he thought that Feng Zhiling would just hide and delay time, but just as Jin Xiong finished speaking, Feng Zhilin's figure moved, without saying a word, his entire body turned into a violent wind blade, cleaving towards Jin Xiong!

Fast, it was too fast!

The sword wind was more than two meters long. The edge of the sword wind was covered with dazzling green light. At this moment, Feng Zhiling's body had already disappeared!

"The wind race's king level High Rank Battle Skill, the Wind Blade?" Jin Xiong squinted his eyes, he had already realized that something was amiss. The speed at which Feng Zhilin used her Wind Blade, was beyond his imagination, in wind race which was known for its speed, speed was power. For her to use the Wind Blade to this extent, could it be that her strength had also reached this level?

With no time to think, seeing that the Wind Blade was right in front of his eyes, the sharp aura immediately rushed over. Even with the gold armor, Jin Xiong still felt a bit of pain on his face!

"What a good chance, this girl chose to clash head on with me!" Jin Xiong was pleasantly surprised. At this time, he was frantically circulating his true essence, and golden streams flowed from his entire body to his right index finger. When the index finger became bright, Jin Xiong explosively roared, and abruptly stabbed out with a finger!

"Gold Dragon, come out of your hole!"

This was clearly a powerful battle skill. Compared to his fist from before, this battle skill's power had hit the small finger. The power that it could unleash was unimaginable!

The illusory image of a golden dragon burst out from his body and instantly collided with Feng Zhiling's cyan wind blade. Both of their enormous energies exploded at the same time, causing green and gold energy to surge out in all directions. The sturdy steel buildings were actually deformed under their attacks.

It suddenly exploded!

Everyone was anxiously watching the battle between the two. Jin Ba and Xue Yi were also confronting each other. In fact, Feng Zhiling rarely made a move, so no one was sure how strong she was. At most, they were only guessing.

The speed of the wind race was famous for fighting head on against the strength of the Jinshi, but the situation was out of everyone's expectations. Feng Zhilin retreated completely unscathed and did not suffer any injuries, and although Jin Xiong was not injured, he was directly swept up by the strong wind and rolled awkwardly a few rounds in the air.

To a famous expert like him, this was an enormous insult.

"Brother, you're welcome. Let's get serious!" Seeing her brother make a fool of himself, Jin Ba quickly reminded him.

Jin Xiong steadied his body, and looked at Feng Zhiling with a bit of shock in his eyes. After hearing Jin Ba's words, he finally clenched his teeth, and nodded: "Okay!"

He spread his arms and legs, golden energy gathering on his body.

With a swoosh, a golden stone suddenly appeared on his chest and appeared in front of his eyes. It was a pure golden stone, in an irregular shape, about the size of a human heart. This golden stone was covered with even more dense golden runes.

"What is this?" Long Chen looked on in shock, because the energy emitted from this golden stone seemed to be extremely strong.

Judging from the expressions of the others, they seemed to be extremely shocked by this thing.

"This thing, could it be the Jinshi's Mysterious Golden Soul?" One of the men who knew what was good for himself said.

"Mysterious Golden Soul? [If that is the case, wouldn't Princess Lin lose?] The other man from the wind race said with a little fear.

Chapter 720 - Royal Divine Weapons

When the Mysterious Golden Soul came out, the faces of everyone on the side of the wind race changed. It was obvious that the Mysterious Golden Soul possessed a great reputation. It should be a very important treasure in the Jinshi.

Even the Xue Yi's expression changed slightly.

"Hehe, you didn't think of it right? This Mysterious Golden Soul was given to us brothers by the Patriarch. With the power of the Mysterious Golden Soul, why aren't you escaping? Once the Mysterious Golden Soul shows its might, it will be too late if you all still want to escape!" Jin Ba who was facing off against the Xue Yi said coldly.

Xue Yi didn't comment. She looked at Feng Zhiling worriedly, but there was no trace of panic in her eyes. She was still cold and indifferent.

"Miss, you're not even afraid of the Mysterious Golden Soul, do you have someone to rely on?"

Not only did Xue Yi think so, Long Chen thought so too. This Feng Zhiling's calmness was beyond his imagination.

"Hey, kid, let me tell you some good news!" Suddenly, the kitten's voice came from the Great Void Realm.

"What?" Long Chen asked quickly.

This was a critical juncture, and any good news could turn out to be a turning point for Long Chen.

"Do you see the Mysterious Golden Soul above your head? This was a magical equipment that contained a lot of metal elemental energy. It could increase the power of the metal elemental divine abilities by several folds! Of course, the expansion of such a small Mysterious Golden Soul was limited, but it was enough for those two fellows. Of course, all of this has nothing to do with him, what I want to tell you is that this Mysterious Golden Soul, can allow you to successfully cultivate the Golden Emperor Heaven Shrouding Seal! "

"Golden Emperor Heaven Shrouding Seal?" Long Chen's eyes burned with passion as he looked at the golden stone floating in the sky in front of Jin Xiong. The might of the Scarlet Emperor Burning Heaven Seal was incomparable, the Golden Emperor Heaven Shrouding Seal was the same, but the special thing about the Five Emperor Prints was that they were all fused together, and the power of each seal was actually equal. Furthermore, the power of fusing two types of Emperor Seals was several times stronger than one type of Emperor Seal!

The further one cultivated the Five Emperor Prints, the more terrifying their might would be!

I reckon that an ordinary Royal Tier Battle Skills is far inferior to the Five Emperor Prints!

The thing in front of him right now, whether it was the Monolith of the War God or the Mysterious Golden Soul, were both extremely useful to him. But the problem was that he was currently too weak, and couldn't take all of the things in front of him. Maybe he could only give it his all in order for him to have a glimmer of hope of getting what he wanted.

The greatest are often the craziest. Long Chen was prepared to go crazy today!

At this time, facing Jin Xiong's Mysterious Golden Soul, Feng Zhilin still had a calm smile on his face, which made Jin Xiong feel like he was being humiliated. He clenched his teeth and said coldly: "Feng Zhilin, if you know what's good for you, then withdraw from Black Gold City. Monolith of the War God s are not things that your wind race can obtain, if not, then I will not be courteous.

With that, he let out a cold laugh.

"Young miss," Xue Yi said worriedly. She initially wanted to tell Feng Zhiling that her life was more important, but when she saw Feng Zhiling's indifferent face, she swallowed her words back down.

Under the watchful eyes of the crowd, Feng Zhiling finally spoke. She waved her hand and said lightly: "What Mysterious Golden Soul, just use it. The identity of the one who needs to get lost will be revealed soon."

Her tone was very cold, and completely did not place the two Rankers from Jinshi in her eyes!

The eighth stage of Earth Martial Stage, that was an existence that was countless times stronger than Long Chen. With just a casual move, he could kill Long Chen, but Feng Zhilin had basically ignored them, and even disregarded that treasure, the Mysterious Golden Soul!

"In that case, hmph!" Jin Xiong and Jin Ba looked at each other. They knew that it would be impossible not to take action in front of such a prideful woman. It was actually worth it to start a conflict with the wind race for the sake of a Monolith of the War God. It was rumored that Feng Zhilin was doted on by Feng Qing the most, and was simply his flesh and blood. But today, for the sake of the Monolith of the War God, the two brothers had decided to risk it all!

In actuality, the battle between the nine great clans was still too early. Previously on the Astral Plate, the nine great clans had been quite courteous towards each other. In truth, after countless years of struggle, the three great powers had long been mortal enemies. It was only because they were standing at the very top that no one dared to make a move first.

The Archaic Graveyard's training was especially important this time. It could be predicted that in the later stages of the battle, there would be an astonishing war, and the nine great clans would definitely fight to the death against each other. Since they still had to fight in the end, it would be better to advance the battle by now, for the sake of igniting the fire fuse for the Monolith of the War God, it was actually worth it!

The Five Elements Alliance was arrogant. They were the genuine descendants of the Five Emperors, so they were never afraid of anyone!

Therefore, Jin Xiong clenched his teeth, and controlled the Mysterious Golden Soul to take action!

"Miss!" Xue Yi frowned and immediately pounced towards Jin Xiong. She did not care about anything else, but Jin Ba suddenly appeared in front of her, and coldly said: "Woman, your opponent is me!"

To help Feng Zhilin, Xue Yi did not hesitate to use her power to fight with Jin Ba. This Xue Yi truly deserved to be called an expert with the word snow, the moment he attacked, all that surrounded her was the freezing ice and snow, the surrounding temperature immediately dropped by a lot. Looking at the woman covered in the cold ice, everyone felt a chill running down their spines!

The moment they started fighting, the scene was extremely intense. Before coming to the Black Gold City, Feng Qing had placed the safety of Feng Zhilin into the hands of her Xue Yi, and now that she saw Feng Zhilin in danger, she risked her life, and with one move, the snowflakes danced. Every snowflake was emitting a cold killing intent!

"The legendary Xue Nv, this Snow Flower Fist is indeed extraordinary, but can this light and light thing cut through our Jinshi's golden armor?" Jin Ba laughed and stood together with the Xue Yi. In truth, it was not easy at all to face Xue Yi who was fighting with all her might. Those snowflakes dancing in the air, if one was not careful, could actually be cut!

As Jin Ba and the Xue Yi engaged in an intense battle, Jin Xiong finally could not endure it anymore and used his killing move. He controlled the Mysterious Golden Soul, and the Mysterious Golden Soul danced quickly in front of his eyes.

Seeing Jin Xiong rushing towards him, Feng Zhiling's face did not even change!

And at this time, Jin Xiong let out a loud roar, his eyes staring straight at the Mysterious Golden Soul, which was already filled with killing intent!

"Go to hell, Gold Eyes of Destruction!"

Weng! *

With a loud noise, two rays of light suddenly exploded out from his eyes. These two rays of light quickly converged and instantly struck the Mysterious Golden Soul in front of his eyes, causing it to shake

violently for a moment. The deep golden symbols on it suddenly lit up and in a short period of time, it actually vibrated at least a thousand times!

"Break!" Jin Xiong's face turned sinister as he roared!

As he said that word, the Mysterious Golden Soul released the most violent vibrations. A ray of light that was also golden, but was ten times thicker than before, shot towards Feng Zhiling with a speed that was at least ten times faster than before!

Gold Eyes of Destruction was the most famous sacred art in Jinshi, and the power of this technique could increase along with the increase of one's strength, just like the wind race's Three Thousand Phantom Shadow, it could also increase along with the increase of one's strength, but Feng Zhiling did not use the Three Thousand Phantom Shadow right now!

In fact, Feng Zhiling rarely did anything. Every time she did something, people would have a whole new level of respect for her!

Even at this time, facing the Gold Eyes of Destruction that was magnified by the Mysterious Golden Soul, she still did not have any expression.

"Miss!" This time, Xue Yi was really anxious, Feng Zhilin was rarely seen by the public, so she was not very clear about her strength, she had only heard Feng Qing praise Feng Zhilin for her strength before!

She even forgot that she was fighting against Jin Xiong, and crazily rushed towards Feng Zhilin to rescue him!

"Don't come near me!" Feng Zhiling said coldly.

As she spoke, she waved her hand!

Before this, her surroundings looked extremely normal, but right at this moment, when she was waving her right arm, a sudden burst of enormous undulation rushed towards Jin Xiong!

Long Chen was startled, Feng Zhiling's movements just now was like waving a whip, but her right hand was empty, where did the whip come from?

The next moment, the result was revealed!

When the Gold Eyes of Destruction passed by the Mysterious Golden Soul and attacked Feng Zhiling, Feng Zhilin decisively waved his arm, and everyone saw that the Mysterious Golden Soul seemed to have been struck by a whip. Although it was under Jin Xiong's control, it was still sent flying!

The shock it brought was quite great, because they all knew what it meant!

The Mysterious Golden Soul shifted its position, and very naturally, the direction of the enlarged Gold Eyes of Destruction that was attacking Feng Zhiling naturally changed as well. Feng Zhilin stood still in his original position, while the golden light, from the side which was still two meters away from her, shot past her body, and bombarded into the distant horizon!

The Mysterious Golden Soul left Jin Xiong's control and was sent flying!

But whether it was Jin Xiong or Jin Ba, both of them unexpectedly didn't care about the Mysterious Golden Soul at this time. They looked at Feng Zhiling in shock, their mouths wide open, as if they were eating an egg.

Aside from Long Chen, everyone was looking at Feng Zhiling with shocked eyes, their eyes were filled with worship, including the Xue Yi. She gently covered her own sandalwood, and said in shock: "This, the wind race Elder actually gave all of the invisible whip to the young miss?"

Jin Xiong and Jin Ba obviously recognized this item as well. They had heard of the mighty wind race's reputation, and it could be said that the Mysterious Golden Soul was one of the more famous treasures in the Jinshi and this invisible whip was one of the top treasures in the entire wind race! The invisible whip, as its name implies, was mysterious in that its eyes could not see its existence. The only person who could see the invisible whip was the person who bound it with their blood, the owner of the invisible whip!
