

Watch Out 511

Chapter 511= Interrupt _1

“And you?” Liu Xiao looked at Song Qing, who was slowly walking towards the center of the field, and asked, “Do you need to warm up?”

Before Liu Xiao came to find her, she had been practicing in the practice room.

When she heard his question, she shook her head and said, “No need,”

When she said that, Liu Xiao said seriously,

“If we really fight, I won’t show any mercy.”

“There’s no need to show mercy, just attack.” Liu Xiao couldn’t find out her background, but she could still somewhat understand Liu Xiao’s strength.

He had a lot of combat experience and was full of moves, but with his current strength, it was difficult to really hurt her.

Liu Xiao had tested her before and knew her strength and skills, so he nodded.

He didn’t speak anymore. His gaze became calm, and his fighting spirit began

to surge.

The people who had come to the training ground to watch felt his soaring aura.

They were immediately suppressed by his high-spirited aura and instinctively took a few steps back.

“Is this kid serious?”

Captain Cao, who was standing at the front of the crowd, frowned when he saw this scene, it can't be, right? He's just a newbie in the reserve team.”

He had refused to admit defeat when he first started to argue with Captain Ren, but now he was a little worried.

Liu Xiao was known for his strength, talent, and diligence. He was outstanding in the reserve team and had few opponents.

He was tall and strong, and his arms were muscular, which made his back look even more robust.

in contrast, song qingxiao was a little taller than the average woman, but she was quite slender. Captain Cao even doubted that she could take a punch from Liu Xiao.

Captain Cao had also heard about the rumors of the last competition between the two, and he had also heard about song qingxiao's performance in the reserve team's assessment.

However, Captain Cao thought that Liu Xiao had stopped the last time they fought after only a dozen moves. He probably went easy on him.

Although song qingxiao's performance in the reserve team's assessment this time was outstanding, there were many rumors in the reserve team. Even Captain Cao had heard that Captain Ren wanted her to re-assess her and re-evaluate her strength, which was enough to prove that this assessment might not be her true level.

It would be bad if Liu Xiao indulged in martial arts and did not control his strength in such a competition.

“Captain, didn’t you say that you wanted Liu Xiao to teach this newbie a lesson?” The team member next to him heard him mumble and couldn’t help but whisper.

“What do you know?” Captain Cao rebuked.

He felt a little embarrassed. After thinking about it, he forced himself to find an excuse.

“We are on the reserve team. Is it glorious to win against the reserve team?”

At this point, he muttered in a low voice,

the opponent is a girl, and it’s an unfair victory to win. he clenched his fist and coughed twice.

“It would be even more embarrassing if I can’t beat him!”

In the middle of the battle, Liu Xiao let out a long breath and slowly opened his eyes.

The training ground was filled with his aura. He probably didn’t know how to use spiritual power, and instead focused on polishing his body. However, he had unknowingly used his spiritual power and released his aura in a way that made the battle ring his.

If his opponent’s mental strength was slightly inferior, they would be suppressed by his aura. They would probably only be able to use 60 or 70% of their full strength.

He didn’t understand spiritual power, but because of his rich combat experience, he instinctively found a method that belonged to him.

Song qingxiao released her divine sense to sense Liu Xiao's aura. Liu Xiao's aura was exactly the same as his own. It was exuded, flamboyant, and carried the persistence of victory.

His aura was still rising. Liu Xiao must have left some tricks up his sleeve in the last competition.

He was surrounded by spiritual power, which should have been attracted by his state unconsciously. Unfortunately, he had no one to lead the way, so he guarded the treasure Mountain but did not know how to use it. Instead, he could only rely on the strength of his physical body to fight, and only regarded the spiritual power as an embellishment to enhance his momentum.

At this point, she felt that the battle with Liu Xiao was indeed interesting.

As Liu Xiao no longer suppressed his aura, the atmosphere was triggered.

Outside the battle ring, the introverted Yu Yin was intimidated and instinctively hid behind Jiang xiachuan.

Under the stimulation of Liu Xiao's battle intent, everyone felt their hearts start to beat.

Tan Wen didn't even notice that her hands were clenched tightly, and large beads of sweat were oozing out of her palms, making her entire palm wet.

At this moment, Captain Cao felt that something was wrong.

no, I have to talk to Liu Xiao and teach this girl a lesson. He frowned and said,"don't cause any trouble..."

Before he could move, the silver Wolf, which had been lying on the ground after being pointed by song Qing's little finger, seemed to have sensed the abnormal fluctuation of mental energy and instinctively raised its head!

But at this time, no one noticed its strange movements.

In everyone's eyes, it was just a bald 'old dog', just that its body was much bigger than an ordinary 'dog'.

If it didn't belong to Song Qingxiao, no one here would even give it a second look.

However, after it sensed Liu Xiao's 'fighting spirit', a ghostly light flashed in its eyes, and the sharp claws on its four limbs slowly revealed their heads.

'Wuuu...'

The silver Wolf's throat let out an extremely low sound, and the few remaining silver hairs on the back of its neck stood up.

Everyone's attention was on Liu Xiao, who was on the battlefield. They did not notice that the 'bald old dog', who had been lying on the ground, had stood up.

Liu Xiao's momentum did not stop. Song Qingxiao closed her eyes, but she released her divine sense to sense the fluctuations of Liu Xiao's Qi and read his every move!

If she hadn't obtained the God destroying technique and hadn't truly stepped onto the path of cultivation, if she hadn't cultivated the nine-word secret order and the God destroying technique, which allowed her to cultivate both spirit and soul, this competition wouldn't have been easy with her strengthened body.

This was only one of the reserve teams under the Empire. In the Empire, there were hundreds or thousands of such reserve teams!

If everyone in the reserve team was of this standard, then this Empire was truly filled with hidden Dragons and crouching Tigers!

"What do we do?"

Tan Wen licked his lips and stomped his feet anxiously. Captain Ren frowned. He could also see that Liu Xiao's competition this time was not as casual as the last time, but more serious.

He was already immersed in the competition, so it was very likely that he would not hold back.

In the battle ring, Liu Xiao unconsciously released his power. His spiritual power and mental power clashed, forming a stream of air that brushed against their hair and clothes.

in the arena, the wind and sand were blowing, and the sun was shining high above his head. However, Captain Ren felt cold sweat flowing down his back.

As Liu Xiao's aura rose higher and higher, Captain Ren's expression became more and more serious. He had already felt that something was wrong. Under the impact of Liu Xiao's aura, even he was affected to a certain extent.

He instinctively turned to look at Captain Cao. Although he still had his arms crossed, there was a hint of anxiety in his eyes. He was obviously worried.

We can't continue like this in this competition!

Song qingxiao was a newcomer, and she had already shown her extraordinary skills. It would be a pity if something happened to such a good seedling.

However, Liu Xiao's battle intent had already formed. If he wanted to interfere, he would not let it go!

What to do?

Captain Ren subconsciously licked the corner of his mouth. He had the same thought in his mind.

Captain Cao finally couldn't stand it anymore. He raised his hands and was about to speak-

Under Liu Xiao's battle intent, a silver-white figure seemed to ignore the suppression of the Qi.. He grinned slightly, showing his sharp canine teeth as he slowly stepped into the battle!

Chapter 512: Hugging _i

'Wuuu ...' This sudden low growl caused the surrounding people to instinctively shiver.

The 'dog' that had been napping on the ground stood up, stared at Liu Xiao with its pair of green eyes, and stepped forward.

As soon as it took a step forward, it suddenly looked completely different from its previous lazy appearance. After revealing its fierce appearance, no one could associate it with the lazy 'bald old dog' from before.

As soon as it barged into the battle, a violent killing intent, like the sharpest sword, broke the momentum that Liu Xiao had tried so hard to create.

It had a proud expression and cold eyes, as if it was angered by Liu Xiao's actions of offending song qingxiao, so it automatically protected its companion!

Captain Cao, who was about to speak up, was hit by the murderous aura, and the hair on his back stood up!

He subconsciously looked in the direction of the silver Wolf. That previously unremarkable 'old dog' was now showing its fangs. How was this a dog? it was clearly a fierce Wolf!

"Liu..."

Captain Cao realized that something was wrong and quickly opened his mouth. The wolf was motionless, but when it moved, it was amazing. Its aura firmly suppressed Liu Xiao.

For some reason, Captain Cao's sixth sense, which had been cultivated by his many years of combat experience, reminded him that Liu Xiao was no match for the silver Wolf!

The silver Wolf's eyes were filled with killing intent. Once it attacked, it would obviously kill.

Liu Xiao was the main focus of the reserve team, and he was a key talent who had a high chance of being selected into the Shi family's guards. He could not afford to make any mistakes at this time.

Captain Cao made a prompt decision and prepared to charge into the battle to save Liu Xiao!

However, as soon as he opened his mouth and shouted, the silver Wolf turned into the fastest silver light and swooped down in the direction of Liu Xiao!

"Ah..."

Captain Cao was so shocked that he couldn't help but let out a cry.

When Liu Xiao realized that something was wrong, he raised his head and saw a silver-white afterimage rushing toward him.

The 'bald old dog' grinned, revealing its sharp teeth that flickered with cold light.

Before it even arrived, the strong wind with killing intent had already arrived. Like sharp blades, it cut the skin on his cheeks, causing him to have goosebumps under this extremely strong aura!

He heard Captain Cao's voice, but for some reason, Liu Xiao felt that he was locked by the powerful Qi of this 'old dog'. Under the gaze of that pair of faint eyes, his body was somewhat disobedient, and he could not even move!

What was this feeling?

Liu Xiao's heart paled, and cold sweat poured out of his body.

The 'dog' had already pounced on him, as if its sharp teeth could bite through his throat in the next moment, causing his blood to spill on the spot!

The surrounding crowd was shrouded in the pressure created by the aura of the silver Wolf. Their hearts seemed to be pinched by someone, and they did not even dare to breathe. They instinctively opened their mouths and watched this scene with wide eyes!

At the critical moment, a pair of slender hands reached out in the air. Song Qing twisted her heels and turned her body, accurately catching the silver Wolf's body. With a 'bang', she caught the silver Wolf in her arms.

The silver Wolf's murderous eyes were fixed on Liu Xiao, but when song Qing suddenly appeared in its eyes, it instinctively retracted its claws. However, the strong impact still made song Qing take a few steps back.

"Alright, I'm done!"

In order to resolve the impact of the silver Wolf's pounce, she used her spirit energy. With every step she took back, a white frost footprint was left on the ground of the training ground. However, at this time, everyone was shocked by this change and no one noticed it.

However, even though he had used his spiritual power, the impact of the silver Wolf's charge was still extraordinary.

It seemed that during the trial to escape from the terror Battalion, the benefits It gained were not only the flame attribute in its claws, but also the increase in its overall strength. Even with the protection of spiritual power and the transformation of her body with the dragon's evolution drug, she was still hit hard.

As soon as she hugged the silver Wolf, the pressure that enveloped everyone's hearts was instantly broken!

The young lady's voice was gentle, and it seemed to carry a sense of helplessness and indulgence. After the previous shocking moment, Song Qing's voice sounded like she was comforting everyone.

The silver Wolf was held in her arms, but its head was still staring in Liu Xiao's direction with a sense of oppression in its eyes.

"You can't casually hurt people in this place." Song Qingxiao said gently. She reached out and rubbed the silver wolf's head as if she was just teasing her cute pet.

If they had not seen the silver Wolf's terrifying appearance earlier, no one would have felt that this scene would give them goosebumps.

However, after seeing how the silver Wolf almost hurt people when it jumped up, and when they saw her holding the silver Wolf, it made the reserve team and the people in the reserve team feel a little scared.

"Hu..."

Liu Xiao could not help but let out a long sigh of relief after escaping death.

He instinctively looked in the direction of the silver Wolf, only to see that the previously ferocious Wolf was now held in an extremely ridiculous position by Song Qingxiao. Its two hind legs were hanging in the air, but the pair of green eyes made him feel cold from the bottom of his feet.

However, as Song Qingxiao reached out and rubbed its head, causing its furry ears to sway, the murderous intent gradually faded.

"Please wait a moment." Song Qingxiao raised her head and looked at Liu Xiao who was sweating profusely. Then, she carried the silver Wolf and walked towards the place where it had been lying.

"You wait here."

She put the silver Wolf down on the ground. The silver Wolf's fur was a mess from her previous hug. It could not help but shake its huge body. Just as it was about to follow song qingxiao, song qingxiao reached out her right hand and pointed at its head with her index finger.

"Don't move, just wait here."

The silver Wolf's actions today had really given her a huge surprise.

In the last trial, the silver Wolf lived in her body, so that the man and the wolf could fight together, which cultivated a certain tacit understanding and intimacy. Therefore, after the silver Wolf sensed Liu Xiao's battle intent for her, it actually wanted to kill him on its own.

Such an action was enough to prove that this proud and aloof Wolf King that she had brought back from the demon Island was not impossible to tame.

However, although it was good for it to automatically fight alongside her, this was not the jungle after all. If she wanted to keep it by her side for a long time she had to control it.

With a point of her finger, the silver Wolf let out a dissatisfied 'Hmph'.

However, under song Qing's gaze, the unruly Wolf King bent its hind legs and slowly sat down after a long time.

The people who were originally standing next to the silver Wolf hurriedly dodged to the sides, and soon there was a huge empty space beside the silver Wolf.

It let out a long breath through its nostrils and looked around lazily. Then, it lowered its huge head and licked its front feet..

Chapter 513: Reincarnated _1

"I'm sorry," Song qingxiao returned to the battlefield and looked apologetically at Liu Xiao, who was sweating profusely, ""The pet just barged in and disrupted our competition."

Liu Xiao had already calmed down by now. When he heard her words, he swallowed his saliva.

The silver Wolf's pouncing momentum was extremely fierce, and Liu Xiao was actually suppressed by its aura at that time, and could not make any extra movements at all.

But now that he had calmed down and thought about it, even if he had been able to move as he wished, it would not have been easy to Dodge the beast's pounce.

However, song qingxiao did not Dodge. Instead, she faced the beast head-on and stopped its attack!

Under the impact of this force, song qingxiao didn't fall after hugging the silver Wolf. She only took a few steps back before she stood firm.

This vicious beast's body was quite strong. From the way it attacked, the force behind its pounce was not small. In addition, it pounced in the air, combining several forces. It was no small matter.

However, song qingxiao's eyes were calm, her steps were steady, and her breath was calm when she spoke. She didn't look like she was injured.

He bit his cheek and looked at the ground. There was nothing unusual on the ground. The frost and fog where she had stepped on had melted under the sun and were covered by the dust on the ground.

During the reserve team assessment, he had seen song Qing's little mining technique and thought that he had a rough estimate of her strength.

But now it seemed that he had only felt the tip of the iceberg of her strength.

“It doesn’t matter,”

Liu Xiao shook his head and said slowly.

When song qingxiao heard his words, she said,”

“Let’s start again.”

She could feel that the gazes of the people around her this time were different from the ones before.

The look in Captain Cao’s eyes changed again and again. From the initial contempt, to the look of watching a good show, then to judgment, and then to caution.

But more people’s eyes fell on the silver Wolf. Through the divine sense she released, even if she didn’t turn her head, she could clearly see the expression of everyone around her!

These people looked at the silver Wolf with either curiosity or fear in their eyes, and all of them kept their distance from it.

Liu Xiao nodded reluctantly. In fact, his fighting spirit had been broken after the provocation of the silver Wolf. Now, it had been re-accumulated, but he could not create the initiative that belonged to him alone. Instead, he had a faint feeling of being suppressed by song Qing.

In the distance, the silver Wolf that was licking its front paws looked at him indistinctly, causing him to feel a chill down his back. He gradually lost his calm and took the lead to attack song qingxiao!

A moment ago, he was still standing in the same spot, but in the next moment, he was already swinging toward song qingxiao like a ghost. His fist was like a meteor, sweeping toward song qingxiao’s shoulder.

“That was fast.”

Someone in the reserve team saw Liu Xiao's attack and couldn't help but exclaim.

This time, Liu Xiao's attack seemed to be much faster than the last time. Could it be that he had restrained himself a little in the last competition and held back?

The onlookers couldn't help but wonder how they would dodge this attack if they were song qingxiao.

Du xingyun, who was in the crowd, even instinctively moved his leg to the side, trying to Dodge.

However, Liu Xiao's speed was too fast. If she were to face him head on, she would not be able to avoid his punch.

In the reserve team, she was already one of the people that Captain Ren had high hopes of entering the reserve team in a short time. However, the gap between her and Liu Xiao was still like a huge chasm, which was impossible to cross at the moment.

However, even though Liu Xiao was fast, song qingxiao was faster.

His every movement was clearly captured by her divine sense. Everyone only saw her gently turn her shoulder and the wind from the fist brushed past her body.

However, although Liu Xiao's fist had missed, he had a follow-up move.

He retracted his hand, stood on his left leg, and swept his right leg at song qingxiao!

The strong and powerful long legs were aimed at song qingxiao's temple.

Liu Xiao didn't hold back this move, as if this wasn't a competition that ended on the spot, but a life-and-death struggle on the battlefield.

"Ah ..." In the reserve team, tan Wen couldn't help but exclaim.

At this time, no one criticized her scream, because everyone's heart was also in their throat after Liu Xiao's kick. Many people instinctively followed and shouted, suppressing Tan Wen's voice.

Captain Cao couldn't help but lick his dry lips. He knew Liu Xiao's strength very well. At this moment, he was going all out and putting up a desperate fight. Obviously, he had a certain estimation of the strength of this newcomer in the reserve team. He guessed that she would be able to Dodge or catch it, which was why he used such a fight.

But could this newcomer really handle it?

He couldn't help but look at the silver Wolf. Perhaps it was because of the comfort of the newcomer, the silver Wolf looked lazy at this time, as if it was not worried about its master.

Its previous pounce was aggressive, but the newbie was able to catch it steadily. Just this move made Captain Cao, who had previously looked down on her thin arms and legs, realize that he had misjudged her.

As soon as Captain Cao's eyes moved to the silver Wolf, the silver Wolf, which was licking its body and combing its fur, suddenly turned its head and looked at Captain Cao.

That pair of eyes was glowing green, and an invisible pressure suddenly pressed down on him. Captain Cao shuddered at the sight. He subconsciously loosened his arms from his chest and instinctively put on a defensive posture.

However, after the silver Wolf glanced at him, a human-like disdain flashed in its gray-green eyes, as if it was mocking him for making a mountain out of a molehill. It then lowered its head and combed its fur.

As soon as it turned its head, the pressure was relieved. Captain Cao realized that he seemed to be despised by a Wolf.

The formation he had put on earlier was indeed a little embarrassing. Just as he was feeling embarrassed, a loud exclamation suddenly came from around him.

“Ah...”

Captain Cao quickly turned around and saw Song Qingxiao raising her hand to block the side of her face. Liu Xiao's leg landed on her palm with a loud bang!

The sound was extremely loud. From the sound, one could tell that Liu Xiao's strength was not weak. However, Song Qingxiao's hand was like a solid wall, firmly blocking the side of his face, preventing him from moving any further.

Liu Xiao was not discouraged by his first failure. His next attack was like a storm.

His punches were swift and powerful. He was simply fighting with all his strength. He only sought to attack quickly and not defend.

This kind of fighting style was clearly used by new and old players in the reserve team.

This was because the rookies knew that the strength of the seniors in the reserve team was extraordinary. They knew how to control their strength and would not hurt themselves. An all-out attack was like asking for advice from the seniors, finding their own shortcomings and improving!

Liu Xiao had always played this role with ease.

However, when he was sparring with this rookie in the reserve team, it was as if their roles had been reversed. He was attacking with all his might, while the rookie was in control of the situation.

In an instant, Captain Cao's expression was both happy and worried..

Chapter 514: Admitting defeat (1)

He was happy that such an outstanding newcomer had joined the reserve team, but he was worried that she would not be able to hold on under Liu Xiao's fierce attacks.

At this moment, Liu Xiao was like an infuriated Tiger, attacking without regard for his life. The sound of his fists hitting each other was endless, and his attacks did not stop.

His combat uniform was stuck to his body by his sweat, revealing his well-defined muscle lines. His punches and kicks brought with them gales and afterimages, which was a feast for the eyes.

Everyone outside of the arena had their hearts firmly gripped by this match. Every time Liu Xiao's fist or leg was blocked by Song Qingxiao, the muffled sound made everyone tremble in fear. They were afraid that Liu Xiao's fierce fighting style would break this rookie's leg!

However, within the battlefield, Liu Xiao was getting more and more uneasy.

It was as if he was not fighting a person, but an obstacle that he could not

overcome.

In the beginning, he could feel that Song Qingxiao's movements were unfamiliar. Her attacks were not organized, as if she was just fumbling around.

However, although her moves were lacking, Liu Xiao felt that she was aiming for his fatal spot several times when she attacked. The killing intent she revealed at that moment, even if it was unintentional, still made Liu Xiao's blood run cold.

What shocked Liu Xiao the most was that there seemed to be endless power in her body. It was as if her body had been tempered thousands of times.

No matter how much strength he used, no matter how fierce his attacks were, they couldn't hurt her. She firmly sealed them all.

She was like a contradictory combination. It could be said that she had almost no fighting skills, but her moves were fatal.

And her body, strength, and speed were simply unattainable by humans!

After dozens of moves, Liu Xiao was shocked to find that she seemed to be learning and improving rapidly, which made him feel even more pressured.

She seemed to have endless energy. She did not show any signs of fatigue under his rapid attacks. On the contrary, Liu Xiao's strength was flowing out with sweat under his rapid attacks, and he began to feel that he was lacking in follow-up attacks.

He used his hand as a knife and tried to cut at the side of Song Qing's neck. However, before his hand could reach her, he was hit by Song Qing's small slap. The power that he had accumulated was forcefully disintegrated by her, and his body instinctively moved to the left.

Liu Xiao's lower plate was stable, so he took advantage of the situation. He supported himself with his palms, swept his legs in her direction, and turned around to grab Song Qing's arm.

His fighting skills were extremely rich, and he could fight for opportunities that belonged to him in adversity.

Under such a double-shot attack, Song Qing's path of retreat was blocked.

Seeing that he was about to hit her, the muscles in his arms bulged, as if he was going to press her to the ground.

Hiss, a small gasp came from the crowd.

The next moment, Song Qing's body was light. He jumped up and kicked Liu

Xiao's shoulder while he was in the air.

Her kick was not as loud as Liu Xiao's, but the force was overwhelming, forcing him to slide backward.

Liu Xiao had no choice but to give up on his original plan to catch her. He pushed himself off the ground with his palms and retracted his legs. He stomped on the ground and was about to jump up when Song Qingxiao stepped forward, grabbed his neck, and pressed him down!

There was a loud bang on the back of Liu Xiao's head, and the force that he had gathered with great difficulty was dispersed by her.

His body, which was originally arched like a bridge, was forcefully pressed down by her and he was heavily slammed to the ground. A chill spread from the neck that she was holding. Her fingertips were like the coldest Jade, making him shiver.

He didn't give up and wanted to straighten his neck, but he was suppressed by her and couldn't move at all.

Sweat trickled down his face and into his eyes, blurring his vision. He could only see the shadow in front of him, but he could not see Song Qing's face.

"Still want to fight?"

Song Qing asked. Liu Xiao clenched his fists by his sides, but relaxed after she asked.

"I'm done." He laughed bitterly and waved his hand. The hand that was holding

his throat slowly moved away.

Liu Xiao sat up and touched his neck instinctively. He had goosebumps because of her grip.

It was strange to say that she had a sense of propriety when she attacked, but at that moment, he felt as if he had just walked through the gates of hell.

He reached out and touched the shoulder that was kicked by song qingxiao. It was sore and soft, and he could not gather any strength. A chill went through the place where she had kicked him and entered his blood vessels, making the hair on his arm stand.

However, the strange thing was that he did not suffer any serious injuries from this kick. The unparalleled power seemed to only be intended to force him back and not hurt him.

How did song qingxiao manage to control her power so well?

"I've lost," Liu Xiao admitted defeat in front of the reserve team.

At this time, not only did he not feel embarrassed from losing face, but he also felt an indescribable excitement and pleasure.

He had fought to his heart's content in today's match, and it had been a long time since he had felt so good.

Song qingxiao's existence seemed to have opened the door to a whole new world for him.

In the reserve team, he was already at the top, and it was difficult for anyone to surpass him. Captain Cao was slightly better than him, but like him, Captain Cao walked the path of strength and ferocity. He couldn't control his strength as well as song qingxiao.

After the fight with song qingxiao, Liu Xiao realized that there were still higher levels of martial arts waiting for him to break through. He would go further than he had imagined!

His eyes were burning with passion, as if he could foresee the infinite possibilities on the path of martial Dao in the future.

The surrounding people were shocked by Liu Xiao's admission of defeat. Not only could they not believe their ears, but they could also not believe their eyes. Compared to the disbelief of the others, song qingxiao's reaction was rather calm, as if it was only natural for Liu Xiao to lose to her.

She smiled and stretched out her hand to Liu Xiao. This person had a straightforward personality and did not show any embarrassment after losing.

Liu Xiao held her hand, and she pulled him up from the ground without much force.

His forehead was covered in sweat. At this time, he pulled up the hem of his clothes to wipe his face.

Captain Cao and the others finally reacted, and they couldn't help but laugh in surprise.

"Hahahahaha, I want this newcomer!"

Captain Ren was shocked as well. He thought that Song Qingxiao would be able to beat Captain Cao if she could last 20 or 30 moves. He did not expect her to fight with Liu Xiao for more than too moves and even force him to admit defeat.

If he had not seen this scene with his own eyes, he would not have believed it.

His feet felt light and he felt like he was in a dream. Before he could clear his mind, he heard Captain Cao's coarse laughter, which pulled him back to reality. "No!" Captain Ren retorted instinctively. When he came back to his senses, he was both surprised and happy.

Since a newbie like her had joined the reserve team, they had to keep her for a while. First, they wanted to let the other members of the team learn from her. It was a rare opportunity for them to learn from an expert of such a level. Secondly, it was also because Captain Cao had been showing off in front of him in the past, and this was a good time to take advantage of this to kill his spirit.

In the end, Captain Ren's previous worries resurfaced.

Why was such a powerful rookie not captured by the Shi family, but sent to this rookie camp by the local government? Was there something fishy about this.

He felt a faint uneasiness in his heart, but this worry was immediately dispelled by Captain Cao's loud voice.

"No? Why can't I?" His laughter came to an abrupt end because of Captain Ren's words, old Ren, are you itching for a beating? let me help you calm down!

He broke his finger with a grim smile. Captain Ren immediately threw away the thoughts in his mind and focused on dealing with the person in front of him.

"Come then! Who's afraid of who!"

Chapter 515: Starry sky (1)

The two captains, who had finally calmed down, almost started fighting again.

The members who had been shocked by song qingxiao and Liu Xiao's competition came back to their senses and hurriedly stopped the two captains. Captain, please calm down... The people in the reserve team were all from the reserve team and had once served under Captain Ren.

As long as the people in the reserve team were not idle, they would all go to the reserve team in the future. The two team leaders could not afford to offend either of them, so they could only comfort them.

In the midst of the noise, du xingyun was still in a daze, as if he didn't hear the sounds around him.

Her gaze fell on Liu Xiao, who was still smiling willfully even after song Qing and Xiao Ji admitted their defeat. The scene of the two of them fighting was still playing in her mind.

Was this the difference between him and her? Zhang Yi, who was standing beside du xingyun, seemed to have felt her disappointment. He reached out and patted her shoulder.

on the path of martial arts, there's a difference in talent. Your vision, environment, and combat skills can all determine your level, but the most important thing is that you must not lose the heart to improve.

Zhang Yi's words not only entered du xingyun's ears, but were also clearly captured by song qingxiao's divine sense.

This vice-captain, who had once played some tricks in the assessment because of the small conflict between him and du xingyun, was now teaching his beloved disciple with sincere and earnest words:

if we lack talent, we can make up for it with hard work. The Shi family's guards are not only top notch figures in all aspects, but also many unknown heroes.

He paused for a moment, then continued,"

"Xingyun, I've always disapproved of you placing your attention on tan Wen and the others. They're not on the same path as you. Actually, it's a good thing that this newcomer made you suffer some setbacks. It's always better to look forward than to look back." He looked at du xingyun who was biting his lips and patted her head,"

"It's more glorious to learn from the strong than to show your strength to the weak,"

Zhang Yi's words made song qingxiao smile, and her impression of the reserve team improved.

Taking advantage of the fact that the other team members were attracted by the two leaders who were arguing about fighting, song qingxiao walked toward the silver Wolf.

In fact, she had gained something from the competition with Liu Xiao today. She was ready to go back and think about it.

Liu Xiao glanced in Captain Cao's direction. The two captains were red in the face at this time. They were pulled apart by the players of both sides, but they still didn't give up and kicked each other. They were in a fierce fight.

He turned around and saw that song qingxiao had already walked away.

As soon as she moved, the beast that had been lying lazily on the ground seemed to understand her thoughts. It lazily got up and followed her.

“Qing Xiao.”

Liu Xiao was a little scared of the silver Wolf. The killing intent it had shown was too terrifying.

He walked around to the other side of song qingxiao and saw the silver Wolf turn its head lazily to look at him. The look made his scalp numb, and he couldn't help but smile at the silver Wolf.

“You're raising a Wolf, right?”

The silver Wolf's eyes were filled with ridicule, as if it was mocking him for taking so long to recognize it. Its fluffy tail drooped down and it turned its head away.

Liu Xiao heaved a sigh of relief that he was not targeted by the wolf. Just as he relaxed his tense body, the wolf turned around again, causing him to immediately jump back and put on a defensive look.

The silver Wolf stuck out its tongue and licked its nose, its expression somewhat disdainful.

This Wolf seemed to have become a spirit! Liu Xiao wiped the sweat from his forehead and realized that his reaction was too big. He couldn't help but blush.

“Yes, I am.” Song qingxiao didn't even need to turn her head to know the small movements of the man and Wolf.

The silver Wolf was trying to scare him on purpose. She looked at it helplessly and reached out to grab its ears.

Although she did not say anything, perhaps it was because the silver Wolf was sealed in her body in the last trial, and her spirit resided in her sea of consciousness, plus the message transmitted by her eyes, the silver Wolf seemed to understand her intention and immediately twitched its ears.

In the Empire, it was not rare for the rich and powerful to keep wild beasts, but Liu Xiao had always felt that this Wolf was different from ordinary wolves.

Its body was too big, reaching above Song Qing's waist and 2.5 to 2.6 meters long. It was unusually strong, and when it jumped up and pounced on people, its momentum was far more terrifying than that of an ordinary Wolf.

Liu Xiao admitted that with his strength, he might be in trouble if he encountered a Wolf Pack, but he could easily deal with a lone wolf. However, when the silver Wolf pounced on him, he could not even think of defeating it.

The reason why he didn't think of it as a Wolf at first was because of its bald skin, which made it look unusually down and out. Who knew that it would reveal such a terrifying look?

■ 'You're not an ordinary Wolf, are you? Did you come out from the starry sea?'

Liu Xiao sized up the silver Wolf several times and continued, "It's said that after the sea of stars was completed, several kinds of ferocious beasts appeared in it, causing the Shi family to be extremely wary. They issued a notice to the people of the Empire not to enter.

He was an old man in the reserve team and would eventually join the guards. He knew more about some of the secrets that outsiders only knew a little about.

Because he had a good impression of Song Qingxiao and thought that she would be in the same industry as him in the future, he didn't hide anything and said,

"In fact, when we discovered the traces of the beasts, the Shi family had sent out guards to exterminate them." The original intention of the establishment of the Galaxy was to promote respect for nature, life, and species, so that humans and animals could live in peace.

However, when animals really threatened the safety of human lives, the first reaction of human beings was to try to strangle these dangers in the bud.

It's a pity that the well-known elite guards who had made countless military achievements in the Empire back then lost their lives in the sea of stars. This was the first time Song Qingxiao had heard of such things. She was interested and listened to Liu Xiao.

"It was precisely because too many elites were lost that year that the Shi clan's guards were almost cut off for a period of time, causing a huge commotion within the clan. After two years of discussion, the Shi clan's elder Council finally came up with a plan to place reserve troops in various parts of the Empire to recruit manpower for the Shi clan. That's how we came to be today." The real reason for the formation of the reserve team was far beyond the rumors. "Giving ordinary people the blue clouds road to heaven" was much more complicated and more interesting.

There was no doubt about the strength of the Shi family's guards. Liu Xiao, who was already considered a first-class expert in reality, could only stay in the reserve team.

Most importantly, he was still young and could still improve in the future. From this, it could be seen that the overall strength of the guards was on the high side.

According to Liu Xiao, the guards back then were far stronger than they were now, and they were more like 'God-ranked' experts in the team. It was really unusual for a large number of them to die in the sea of stars.

It's said that the beasts in the sea of stars are ranked by their bloodline. When a high-level bloodline is awakened, their strength will be beyond God. The Shi family didn't expect this, so the guards they sent out were killed.

At first Song Qingxiao was just listening to Liu Xiao's words as if she was listening to gossip. However, when she heard this, she felt that something was not right, and her expression gradually became serious..

As her strength increased, her understanding of this world also deepened.

When number six was chasing after her, he had drawn out the existence of the underworld clan and Qian Shan's clan.

At this point, Song Qingxiao naturally knew that the Shi family was the type of family that 'entered the world'.

The common people of the Empire only knew that the Shi family was once the royal family that controlled the Empire. However, the establishment of the modern government had caused the royal family to no longer have the ability to actually rule the Empire. However, they still had a deep influence among the people, and they were very prestigious.

Liu Xiao knew more about the Shi family than ordinary people.

He had been in the reserve team for many years, so it was only a matter of time before he joined the escort team. He was quite familiar with the situation in the escort team. He also knew the secrets of the sea of stars, but he had not really joined the escort team. Therefore, his understanding of the Shi family and the hidden races might not be as good as that of people like Luo Wu.

What Liu Xiao did not know was that the Shi family's most powerful members were not the guards, but the core members of the family.

No matter how famous the guards were in the Empire, they were just ordinary people.

For example, the retired Captain of the Shi family's guards was considered one of the best in the Empire. However, when faced with an existence like Qian Shan, he was still helpless and could only wait for death.

According to Liu Xiao, after the sea of stars was formed, a high-level ferocious beast with an awakened bloodline appeared and killed a large number of the Shi family's guards. This situation was absolutely possible.

However, the existence of the guards was only the power of the Shi family on the surface. The true strength of the Shi family should be hidden in the dark.

That day in autumn alley, Captain an had mentioned the Shi family several times in front of Qian Shan. He had the intention of forcing Qian Shan to back off, which was enough to prove song qingxiao's guess.

Logically speaking, after the guards "failure to wipe out the danger, in order to maintain the peace of the Empire, the Shi family should have sent their core elites to handle this matter.

However, the end result was that mankind had stopped at the periphery of the sea of stars.

In other words, it was very likely that the Shi family had suffered some losses in the process of dealing with the beasts in the starry sky sea, and had been forced to make concessions!

Otherwise, as the former royal family, how could the Shi family possibly let it go so easily after suffering a loss?

As she thought about this, she recalled something.

On the night of the incident at autumn alley, after she was attacked by Qian Shan, she heard the conversation between Qian Shan and another man before she died. He seemed to have mentioned this sentence: the aura that remains here doesn't seem like that of these reclusive clans. It seems more like the mutation of some high-level bloodline ...

It was a pity that she was in a life and death situation at that time and her injuries were extremely serious, so she couldn't hear the words that came after clearly.

But now, she recalled that after number six sent people to kill her, they were killed instead. The death of the underworld clan's people had obviously alarmed the various forces.

Qian Shan's words confirmed Liu Xiao's words about the awakening of the bloodline of the high-level fierce beasts in the starry sea.

At the same time, he could let Qian Shan mention this high-grade bloodline mutation. To be able to make the Shi family suffer a loss and give way, the strength of the beasts in the starry sea was definitely extraordinary.

She instinctively reached out to touch her chest. It was slightly cold, and the blue blood that was sealed there was no movement.

Under certain circumstances, she could be considered a race with a bloodline, but this bloodline had yet to awaken.

After she transformed, her body was unable to withstand this heaven-defying energy, so she sealed it in order to save her life.

However, at that time, the seal was simple, but he couldn't think of any way to remove it.

The power of the awakened bloodline was enough to destroy the world. Song qingxiao would never let go of this Treasure Mountain.

It seemed that when her strength increased a little more, to the point where she could accommodate this unparalleled power, perhaps she should take a trip to the sea of stars and understand the awakening of the fierce beast bloodline.

"Qing Xiao ..." Liu Xiao looked at her anxious expression and couldn't help but call out to her, ""Is there something wrong?"

"I'm fine." Song qingxiao suppressed her thoughts and shook her head.

Liu Xiao wasn't curious about prying into other people's privacy. Although he knew that she might be insincere, he tactfully didn't continue to ask. Instead, he changed the topic.

“This Wolf, was it brought out from the sea of stars?”

After being played by the silver Wolf, he seemed to be quite curious about it.

Song qingxiao paused for a moment, then said without changing her expression,”

“Yes, I am.”

Of course, she could not reveal her biggest secret. From a certain perspective, the silver Wolf that had evolved several times after genetic mutation was similar to the beasts in the sea of stars that Liu Xiao had mentioned..

Chapter 517: The ocean (2)

Besides, Liu Xiao had already figured out the origin of the silver Wolf, which saved her a lot of trouble in explaining.

As soon as she admitted it, Liu Xiao’s eyes lit up like two small Suns.

“As expected!”

He said happily,”

“No wonder he’s so powerful!” Now that he was sure that the silver Wolf had come from the ‘sea of stars’, his attitude towards it was even more different. He even felt that it was not embarrassing to be intimidated by its aura.

After all, even the most elite of the Shi family's private guards had not been able to escape unscathed after entering the sea of stars. This was enough to prove the abnormal level of power of the sea of stars 'ferocious beasts.

he's really amazing. No wonder the seniors suffered so much. His burning gaze made the hair on the back of the silver Wolf's neck stand up, and it pouted.

"Can I touch it?"

At this moment, Liu Xiao was like a fanatical fan chasing after a star. He very devoutly rubbed his palm on his body and asked the question respectfully like a primary school student.

Song Qing's eyebrows twitched. She reached out and pressed the head of the silver Wolf sitting beside her. She hesitated for a moment before nodding.

"Sure." With her around, Liu Xiao's life could be saved.

At the same time, she also wanted to use this opportunity to test the silver Wolf's acceptance of her.

'OWW...' As soon as she finished speaking, the silver Wolf let out a dissatisfied whimper. It was obvious that it did not agree.

However, despite its ferocity, perhaps because song qingxiao was holding its head down and it didn't struggle, its destructive power was greatly reduced.

When Liu Xiao heard its low growl, he was shocked at first, but when he saw that it did not shake off song Qing's little hand, he gradually calmed down and bravely reached out his hand to it.

However, he was not as bold as her and did not dare to reach out to touch the silver wolf's head. It had already opened its mouth, revealing its cold and shiny teeth. The warning sound from its mouth hinted that it was definitely not joking with him.

However, with song qingxiao around, she should be able to ensure his safety.

His outstretched hand trembled as he slowly touched the silver Wolf's forelimbs. The closer he got, the more he could feel the terrifying pressure from the silver Wolf.

Awoo ...' Its warning did not stop, and its eyes followed like a shadow.

When Liu Xiao was about a few centimeters away from its forelimbs, he paused for a moment and then bravely touched it with his fingertips.

'Bang bang bang bang bang', his heart was beating as fast as a war drum. From the corner of his eye, he could already see the sharp claws slowly reaching out from the front legs of the silver Wolf. It was very scary.

He had not even touched the silver-white fur, but he could already feel the killing intent of the silver Wolf. The limbs under the fur contained a terrifying explosive force, as if if he dared to touch it, his hand would not be able to return.

Although Liu Xiao knew that with song qingxiao around, the silver Wolf would not be able to hurt him, the killing intent was so real that it turned into an invisible knife, cutting his body. He did not have the courage to touch the silver Wolf.

When one looked at it up close, its eyes were an ice-cold grayish-blue, with an unoffendable chill.

Under the stimulation of this gaze and killing intent, he quickly retracted his hand before he could even touch the silver Wolf's body.

"Chi," the silver Wolf let out a long breath, and slowly retracted its claws that had been stretched out. The thick killing intent also receded like the tide.

Liu Xiao's expression was a little dejected, completely different from his previous excitement. He clenched his fists and muttered,"

“Is this the feeling of true power?”

The ferocity that the silver Wolf revealed shocked his heart. Under such pressure, he could not even have the thought of offending it.

“The seniors back then, were they facing such an opponent?”

He seemed to have suffered a blow.

He had always been the center of attention in the reserve team, and there was an 80 – 90% chance that he would be selected to be the Shi family’s private guard during the year-end selection.

In Liu Xiao’s heart, he was actually quite proud of himself. He thought that the gap between him and the members of the guards was not far.

However, under the pressure of the silver Wolf’s gaze, he suddenly realized the difference between him and the seniors who had died in the sea of stars back then.

With song qingxiao restraining the silver Wolf, the killing intent it revealed made him unable to reach out his hand. However, the seniors from back then could fight with the ferocious beasts that had awakened their bloodline from the sea of stars. This was the difference!

Song Qing smiled and lowered her head. She curled her fingers and scratched the silver wolf’s head.

She could vaguely guess Liu Xiao’s thoughts and knew that he must have suffered a blow at this time.

However, when he walked out of it, he would feel lucky.

After he left this established circle, he would discover more unknown and countless strong people!

"I can't touch it now, but I hope I can touch it in the future." Liu Xiao was quite a character. He was only disappointed for a moment, but he quickly sobered up. As if he had a goal, his expression became determined.

The young man's face was serious as he said this, as if he was making an oath.

Whoosh! The silver Wolf exhaled a big breath through its nostrils and slowly turned its big head away, as if it was mocking him for overestimating his ability.

The atmosphere that Liu Xiao had tried so hard to build up was interrupted by its voice. He touched his nose awkwardly and changed the topic,"

"Oh right, Qing Xiao."

He seemed to have recalled something. I realized that your moves are irregular, but your control of power has reached an incredible level.

She didn't look like someone who would take the tough route like him. She was tall and had slender limbs, you're not a muscular demonic woman at all, but why are you so strong?"

This question had been in his mind since the previous competition, making him scratch his ears and cheeks, trying to figure it out.

He was a straightforward person, and after two competitions, he regarded Song Qing as a close friend. Now that he was asking her directly, he had forgotten the rule that he should not pry into other people's privacy and cultivation secrets..

Chapter 518: One arm (1)

Liu Xiao did not notice this, but Song Qingxiao did.

Perhaps it was because she had to face the darkest side of the human heart during the trial, so Liu Xiao and Captain an's unrecognizable appearance, which had not been tortured by the test of life and death, made her feel comfortable.

Therefore, when she saw Liu Xiao eagerly waiting for her answer, she gave him some advice.

although both are cultivation, your power comes from your body, while my power comes from heaven and earth. As soon as she said this, Liu Xiao's eyes showed confusion.

"I understand that it comes from my body, but I don't quite understand that power comes from the world."

your way of practicing martial arts is only the most basic training. It has not reached the standard of cultivation. Song qingxiao explained to him patiently," but you have a determined heart for martial arts. So, compared to others, you have already developed a sense of Qi, but you did not notice it.

She had fought with Liu Xiao twice. This person was extremely passionate about martial arts. At such a young age, without any special circumstances, it was not easy for him to cultivate to this level with his own efforts.

"You mean to say that taking another step forward in cultivation might be another way?" Liu Xiao frowned at song qingxiao's words and muttered,"

"But cultivation, Qi sense ... What kind of existence is that?"

"When we were sparring, the aura you released was your own." Qi leakage: able to leave one's own mark on the surrounding atmosphere, causing great psychological pressure on the opponent. Even before the battle began, the opponent might be suppressed by one's own Qi field and lose their ability to perform.

Liu Xiao seemed to not fully understand her words. Song Qing looked down on him and sighed,"

“Forget it,” he said. Instead of explaining, it was better to let him experience it directly, so that he could understand it more deeply.

As soon as she finished speaking, her entire aura changed. A bone-piercing chill mixed with killing intent emanated from her body, causing Liu Xiao to shiver. His body’s instinctive reaction was faster than his brain, and he subconsciously put up a defensive posture!

However, this defensive posture was completely useless. An invisible pressure came from all directions, invading his body through the pores that had instantly expanded after being stimulated, making his hands and feet cold and his blood seemed to have frozen.

Under this aura, even breathing was an extremely difficult thing for him. His back was bent, his legs were slightly bent, and he seemed to be unable to control himself and wanted to prostrate!

The sun was shining brightly, but he felt like he had fallen into an ice cellar.

Song qingxiao stood there coldly without moving, but Liu Xiao felt that all his weaknesses and mingmen were clearly seen by her. There was nothing he could hide.

That kind of killing intent was like a physical dismembering of his spirit.

If the silver Wolf’s previous attack had caught him off guard and made him feel the shadow of death, then the killing intent released by song qingxiao now was ten times deeper than the silver Wolf’s previous attack!

Under such a murderous aura, Liu Xiao even felt fear from the inside out. He could not even raise any resistance in his heart.

Although he knew that she was able to subdue this fierce and extraordinary Silver Wolf, her strength was not necessarily below the silver Wolf, and might even be better than the silver Wolf, but after really experiencing it, he realized the difference.

She hadn’t even made a move, but she was already sweating profusely.

If she were to release her killing intent during the competition, he would probably not be able to last more than a hundred moves. At most, he would be exhausted after a dozen moves.

Although he was frightened, Liu Xiao had a strong personality. When he realized that he had given in, he gritted his teeth and tried to straighten his back, resisting the terrible pressure with all his heart.

Not long after, his hands and feet trembled, sweat flowed down his cheeks and back, his fists clenched, the veins on his forehead and the back of his hands throbbed.

But even so, he still felt that he was unable to hold on under this pressure.

He could hear his spine creak as it could no longer bear the pressure and slowly bend down. The muscles in his lower leg trembled. No matter how hard he tried to straighten his thigh, his leg was still bending.

At this moment, Song Qing smiled. With her smile, the pressure on him disappeared. Liu Xiao was like a fish that had regained its freedom. He opened his mouth and gasped for breath.

“Phew... Hu Hu ... Hu ...”

Chapter 519: One arm (2)

After Song Qing retracted the pressure, the goosebumps on his body still hadn't disappeared, and the hair on his body that stood up after being stimulated still hadn't subsided.

Cold sweat flowed all over his body, stimulating his body that had just tensed up and then suddenly relaxed, bringing a slight stabbing pain.

It was as if he had just been pulled out of the water. In this short moment, the fatigue that he felt was several times deeper than after the fight with Song Qing!

"This is the use of Qi." Song qingxiao smiled as she looked at his sorry state. Beads of sweat flowed down his cheeks and nose, gathered at the tip of his nose and chin, and dripped into his clothes, making the color of his combat uniform darker.

Liu Xiao was still breathing heavily with his hands on his thighs. Song Qing's soft voice entered his ears, making him both surprised and happy.

"Is this the difference in power? Is this the existence of Qi?"

His fingers were still shaking under the stimulation of the invisible force, but Liu Xiao did not care about his embarrassing appearance at all.

Song qingxiao had opened a whole new door for him in martial arts. In his mind, that moment was the real contest between the two. Although there were no big moves, they were full of killing intent!

The fight on the arena was more like she was playing with him.

"I've lost," He grinned and whispered again.

In the training field, he admitted defeat easily, but in front of everyone, he was far less convinced than now. but, huhu ... But Qing Xiao, how am I supposed to obtain this power from the heavens and earth?"

He raised his head, his eyes filled with hope, desire, and sincerity.

"Please teach me."

He held his breath and waited anxiously for song qingxiao's answer. He then realized that he was asking her about her secret and was afraid that she would reject him.

At this point, he only needed someone to give him some pointers, and song qingxiao was not stingy with her help.

She moved her wrist so quickly that Liu Xiao did not even see her raise her arm. The next moment, he felt a cold sensation on his chest. A finger had silently touched his chest, and a strange and terrifying force had entered his body from her finger!

He was shocked. Under the control of power, the fear of the unknown made him instinctively want to step back.

“Don’t move!”

Song qingxiao’s cold voice rang in his ear. calm down and feel it.

Her words greatly soothed Liu Xiao’s uneasiness. He closed his eyes and relaxed his body. As she had said, he carefully felt the existence of the external force.

The power was strong and gentle. When it entered his veins without killing intent, it brought him a sore and painful feeling, but then this uncomfortable feeling was soothed by the cold and comfortable feeling of the spiritual power.

This feeling was really mysterious. Liu Xiao was immersed in it, and his hands subconsciously followed the flow of the power and moved it around his body.

He was immersed in this new power, and his entire being was like a mirror that had its dust wiped away.

As the power flowed through him, he felt that the world around him seemed to be different from before.

He could hear the sound of the silver Wolf’s tongue licking the wound on the ground, and he could feel the subtle movement of his sweat pouring out of his expanded pores and soaking his clothes.

He could feel the power of the wind, and he could smell the scent of the grass and trees more clearly.

"I'm not good at teaching, but I can leave a little seed of power in your veins." Song qingxiao slowly retracted her hand. She had left a trace of energy in Liu Xiao's veins, as a guide to help him embark on the path of cultivation in the future.

"If you use this power well, you can cultivate your own Qi movement. If you don't make good use of it, it will disappear after a few days."

If he was talented and willing to work hard, he would be able to grasp the opportunity. Even if he did not have the support of spells, ordinary cultivation would definitely allow him to be reborn and walk his own 'path'.

As soon as she finished speaking, Liu Xiao clutched his chest and looked deeply at Song Qingxiao. His eyes were sparkling, and he was so excited that he couldn't make a sound.

After a long while, he nodded his head heavily and said with force,"

"Yes."

He was happier to obtain this trace of spiritual power than to obtain a priceless treasure. He couldn't wait to go back and study it. He didn't have time to say anything more to Song Qing and was about to leave.

Song qingxiao nodded and Liu Xiao turned around to leave. After he walked for about ten meters, he suddenly remembered something and turned back. He whispered to Song qingxiao,"

"If in the future ..." Halfway through his words, he swallowed them back. After hesitating for a while, he bit his cheek and said sincerely,"

"Thank you very much."

Song qingxiao calmly accepted his thanks. Liu Xiao's expression was much better than before. This time, when he left, he did not hesitate as before.

After he left, song qingxiao also turned around and prepared to go back. The moment she moved, the silver Wolf, which had been lying on the ground, finally got up and followed her.

On the training field, the two team leaders were arguing until their faces were red. Their upper bodies were restrained, and their lower bodies were kicking each other. The two team leaders were full of energy, but it was hard on the person holding them. He was so tired that he was panting.

Many people were even kicked in the chaos and cried out in pain.

Even after the members of both teams had gone through a lot of trouble to separate the two, Captain Cao was still not willing to admit defeat and said, "it's only natural for the reserve team to prepare talents for my reserve team. How can your reserve team afford to support a newcomer with such strength?" "Bah!" Captain Ren, who had been panting after being dragged away, suddenly found a burst of strength. He struggled to get rid of the members who were pressing on him and went to fight Captain Cao.

"Who was the one who said that the reserve team is getting worse and worse with each generation? how many years has it been since they transferred talents?"

"Did anyone say that?" Captain Cao deliberately angered him and even rolled his eyes.

"I don't remember."

"You shameless Cao Zeng, I'm going to kill you!"

"Come, come! I'll beat you up until you're lying on the ground and crying for your mom and dad!"

"Ah ... Captain, stop it..."

When the chaos subsided again, everyone fell to the ground. After a long time, someone finally realized and exclaimed,

“Eh? Captain, Liu Xiao and song qingxiao have disappeared.”

As soon as these words came out, the chaotic training ground suddenly quieted down.

Captain Cao, who was being held up, turned around. As expected, Liu Xiao and song qingxiao, who were still in the battle ring earlier, had disappeared. They must have taken the opportunity to leave when he was fighting with Captain Ren and the people around stopped the fight..

Chapter 520: Power (1)

The two key figures had left, so Captain Cao and Captain Ren could not fight.

The reserve team members tried to persuade them again, and they took advantage of the situation to pull the two captains apart.

After the farce, Captain Cao did not leave in a hurry. Instead, he followed Captain Ren back to the captain's office of the reserve team.

Without the dissuasion of outsiders, the two captains who had almost fought earlier actually got along harmoniously.

Captain Cao reached out and touched the table and chair in the vice-captain's office. He said emotionally,”

“This place is still the same as before. I haven't been here in a long time.”

The tables and chairs were old, and their surfaces were very smooth. Although they were very old and simple, Captain Cao seemed to like them very much. He pulled out a chair and sat down.

“Didn’t you look down on the reserve team? You’re still coming?”

Captain Ren replied coldly. While he was speaking, he personally made tea and placed the cup in front of him with a bang.

The hot tea splashed out because of his action, but Captain Cao seemed to not see the anger on his face. He laughed and said,

“Wasn’t that just a joke?” He picked up the cup, blew away the tea foam on it, and took a big gulp. He grimaced from the heat.

“Look at you, you’re so petty!”

As he said this, he rolled his eyes and saw that Captain Ren had also made tea for him. He then put the teacup on the table in disdain, pulled the chair over, and leaned his upper body over.

“Old Ren, why don’t you send the new guy to my reserve team?”

Captain Ren looked at him and sneered. After the two of them almost fought on the training field, Captain Ren guessed that he had this idea when he shamelessly followed them.

look at how many years we’ve worked together. This newbie is competing with Liu Xiao today. You can’t keep her. As soon as he showed his expression, Captain Cao guessed what he was thinking.

As soon as he finished speaking, Captain Ren snorted and frowned.

“Old Cao, don’t you feel that there’s something strange about this girl?”

In fact this doubt had been in Captain Ren's mind since Liu Xiao's last competition with her. to be honest, after Liu Xiao's last competition with her, I looked up her information.

At the same time, Captain Ren also used his special authority to get someone to investigate her father.

According to the information, her father was one of the members of the 'Eagle' guard team of the Shi family, and he had passed away in an accident eleven

years ago.

When song qingxiao was born, her father was in the military. They were separated by two places and had almost lost contact.

Due to the special confidentiality of the Department she belonged to, she took

her mother's surname.

Other than recording her age and her studies, the rest of the information was very simple. Captain Ren looked at it for a long time but couldn't figure out anything.

In comparison, her father's resume was detailed, and the information of the family members of several generations of ancestors had also been investigated very clearly and was included in the file.

The existence of the reserve team and the reserve team was related to the future of the Shi family's guards. Every person who entered would be investigated for several generations.

Under normal circumstances, the information would be extremely detailed, so it would not be easy to falsify, and one would know their life at a glance.

The most abnormal situation was song qingxiao's situation. There were only a few words, and it was very simple. It seemed like there was nothing wrong with it, but in fact, it made Captain Ren feel a little strange.

her information is too simple. You've seen the wolf she brought with her ... Captain Ren glanced at Captain Cao. you saw the fight between her and Liu Xiao. It's not a competition. It's more like the situation was under her control.

Captain Ren's mouth was dry from all the talking. He took a sip of tea and continued,"

he's young and has outstanding strength. To be able to tame such a pet ... Captain Ren frowned, twirled his fingers, and said with a serious expression,"

I'm afraid this is a problem. Aren't you afraid that if you go over, you'll cause trouble?"

"I don't care about that." in any case, we've caused trouble," Captain Cao said nonchalantly, the audit team will take the blame. It's not your turn to worry about this.

As he said this, he lifted his leg and put it on the table.

I only know that when I find a talent, my team will accept it. I'm not from the intelligence Department, he chuckled and leaned his upper body in Captain

Ren's direction.

besides, the reserve team's law doesn't explicitly state that I have to report this shit!

Captain Ren's mouth twitched, and he slapped his foot off the table with a speechless expression.

Captain Cao's words were exactly the same as what Liu Xiao had said that day.

The two of them were too willful and irresponsible. I don't know how you were able to become the captain of the reserve team and nurture talents for the Shi family!

"I don't care," Captain Cao took his foot back after being patted. "So when are you going to give me this newcomer?"

she still has some problems with the assessment this time. She needs to stay in the reserve team for a while. As soon as Captain Ren said this, he saw Captain Cao's smiling face instantly turn from bright to dark. He was in a good mood. He moved closer to Captain Cao and said,

"You know, this is the process."

Captain Cao kicked his chair away and stood up. He pointed at Captain Ren and said,"

"Bullsh * t process! You're doing this on purpose."

yeah, I did it on purpose. If you're not convinced, you can come and hit me!

« »

The two team leaders didn't fight in the training field, but they fought in the reserve team's office, almost tearing down the office.

When the logistics staff moved away the old furniture that had been used for many years and was almost destroyed, Captain Ren's clothes were ragged. His eyes were swollen and narrowed into a line. His whole face was swollen like a pig's head, and he exuded a cold aura that kept strangers away. It was said that he limped to the infirmary that afternoon.

For a few days in a row, Captain Ren picked a few people to spar with because of his 'guidance', and they were beaten until they cried for their parents.

It wasn't until a week later, when most of the bruises on his face were gone, that he became much gentler.

One of the team members who had just fought with him and was still breathing gathered his courage and asked if he had been 'beaten' by Captain Cao in the office of the captain of the reserve team that afternoon. The team member looked at Captain Ren's cold face and shivered. I heard, I heard, it was you who asked Captain Cao to beat him... Captain Ren's face darkened.

"Bullshit! It was Cao Zeng who was beaten by me! It's just that this bad old man is very bad, he keeps greeting my face. He has many wounds on his body, do you dare to look!"

His roar spread far and wide, and the team members were so scared that they covered their heads and ran away. Of course, no one dared to ask Captain Cao if he was also injured. After all, his wound was in the dark, and Captain Ren's wound was on his face. No matter how Captain Ren explained, everyone secretly thought that he had been taught a lesson by Captain Cao.

Song Qing had been in the reserve team for nearly 20 days and had gradually gotten used to life here.

There were no restrictions here, and she was free to arrange her time. Other than going out for a walk during mealtimes, she spent most of her time cultivating in her room. With such concentration, the increase in her spiritual power was very obvious.

The wound on her back had already completely healed, but there was no way to get rid of the flame poison that had been left behind by the three-headed dog when it had torn her body apart. It was like a maggot that had attached itself to her bones, remaining in her veins and restricting a part of her spiritual power, causing her to have a headache.

At this time, song Qing wanted to leave the reserve team for a few days to see
