

Weaponsmith 1551

Chapter 1551: Only two paths (5)

“That’s impossible, right? No matter what, to be able to activate the Qilin tablet, those people are all god grade geniuses! In our history, Cloudy Qilin Clan also had geniuses who had innate talents above god grades, don’t tell me that even they.... were unable to pass through the stage successfully? I don’t believe such a thing!”

Sage Wu Ding said, “What’s so strange about that? That year, old Clan Leader joined hands with God Realm’s top ten Armament Master before they were able to refine this piece of Qilin tablet successfully, and even subdued the spiritual beast which had just died in a battle sealing it into that tablet! To you and me who had been cultivating for several ten thousands of years, wanting to kill a matured Qilin also wasn’t an easy matter. Whereas for those geniuses who entered Violet Sun Valley, their ages cannot be over thirty!”

“Try to recall when we were thirty years old, what kind of potential did we had? Don’t talk about killing a Qilin, probably just a breath from the Qilin would result in us incurring a serious injury and throwing up blood! If these god grade geniuses were at least able to deal with the Qilin for a while or even seriously injuring the Qilin, it would already be an extraordinary ability!

Old Man Dong answered, “What you said isn’t wrong. But... But haven’t you said this earlier yourself? This time, the Qilin tablet had not absorbed enough Heaven and Earth Profound Energy and if the genius who had entered wasn’t able to pass through the stage successfully, then death would await him! Now you say that no one had ever passed through this refinement, doesn’t it mean that.... the lower realm’s branch had finally appeared a god grade genius but he’s going to fall right there?”

Sage Wu Ding was worried about this matter and hearing that, his forehead creased even tighter.

“Isn’t that so? The clan hadn’t had such a genius like this in a long time! What’s more that person appeared from the lower realm! Under such scarce resources and still able to have such achievement, his future is limitless and if he really died there, it would be such a waste! But.... but he’s already entered the Qilin tablet so we already have no chance to stop him!”

Old Man Dong said, “Then what should we do? No way, we must report this matter to the Clan Leader! Every god grade genius is the hope for the clan’s future so we cannot allow him to fall like that! Perhaps the Clan Leader has a way!”

“Yes, you’re right! Let’s go now! Let’s hope that the young fellow who had entered the Qilin tablet could last a little while longer, otherwise.... there’s really no one who can save him!”

Sage Wu Ding seemed as though he suddenly attained enlightenment as he patted his thigh hard and stood up from his seat.

The two elderly men got up swiftly and headed towards the Clan Leader’s cave dwelling.

However the two of them had just reached the cave entrance when they were stopped.

“Sage Wu Ding, Sage Dong, please hold on!” A fierce looking fatty blocked the duo’s path as he gave a smile which didn’t reach his eyes.

Sage Wu Ding's expression sank immediately, "Steward You, what are you trying to do?"

Steward You sneered, "I'm the one who should be asking you what you want to do? Haven't you heard at all? Clan Leader has entered closed door cultivation in the cave, preparing to break through to the Life Realm! This is the most important matter in the entire clan, even the few Grand Elders don't dare to come disturb him yet you two just want to rush in like that? Whoever gave you the guts?"

Sage Wu Ding's expression was extremely ugly.

This Steward You was the Clan Leader's cave dwelling's housekeeper, responsible for Clan Leader's personal matters.

Although his cultivation wasn't high and his position in the clan wasn't considered high, but he used the fact that he was reporting to Clan Leader directly to show off a proud and arrogant look.

Usually, other than the clan's Elders who held the most power, the other people who wanted to meet the Clan Leader had to undergo all kinds of obstacles by Steward You.

Chapter 1552: Only two paths (6)

If they didn't come out with something to bribe him, then they definitely would not get past this stage.

If it was usual times, although Sage Wu Ding didn't like Steward You but he would still patiently deal with him.

But this matter today was simply too urgent!

This lower realm genius had already entered the Qilin tablet!

They didn't know what level was his ability right now? If it was slightly off, probably within a quarter of an hour, he would be beaten to a half dead condition by the Qilin but yet still unable to stop the ultimate refinement.....

And this time along was enough to turn him into a fresh new corpse!

Whereas from what Sage Wu Ding saw, lower realm practitioners who were able to reach god grade innate talent was already an unimaginable miracle. Then among the god grade geniuses, he should be of a lower standard so one he entered the Qilin tablet, he would definitely not be able to hold on!

He would probably be finished within a few breaths of time.

Of course, now that Sage Wu Ding hadn't sensed any news regarding the lower realm genius's death, but that didn't represent that he had time to waste on that Fatty You!

Perhaps at the very next moment, that genius would not be able to hold on any longer!

This was absolutely a crucial timing to catch hold of!

Sage Wu Ding clenched his teeth as he retrieved a verdant dark green gemstone from his realm ring. That piece of stone was connected at the head and tail and was sculpted into two interconnecting toroidal.

He passed the gemstone to Fatty You and lowered his voice as he whispered, “Steward You, this is a little appreciation from me. Will you please do us a favour, we really have a very important matter and need to meet with the Clan Leader!”

Fatty You saw his performance and was first slightly astonished but immediately following that, he gave off a sinister smile.

He was good in knowing what’s what and the toroidal stone which Sage Wu Ding brought out was priceless!

That was a priceless and rare Profound Artifact which could raise one’s cultivation speed.

It was rare to see Sage Wu Ding so cooperative, looked like... he really had an urgent matter to deal with today. This was a great chance to sweep in a fortune!

Fatty You immediately said, “Sage Wu Ding, what are you trying to do? Trying to bribe me? Take it back, take it back! What sort of man do you think I, You Da Zhuang is? I’ve told you several times that it’s not that I don’t wish to inform, but Clan Leader is really in closed door cultivation! If we were to disturb Clan Leader now, if he is just about to break through to the Life Realm and the chance is spoiled by us, who will take up the responsibility for this?”

He shook his head and although his mouth was saying “take it back”, but the fingers on his right hand gripped onto the toroidal stone, totally not wanting to let go.

Sage Wu Ding got anxious, “Steward You, please do us a favour! In future, I will think of ways to repay you so will you please help us pass the message!”

However, Fatty You had already set his mind on being pretentious, totally ignoring how anxious he was.

On the contrary, the more Sage Wu Ding was, the happier he got!

This meant that... this big fish was hooked!

The two of them were in a deadlock hence Sage Wu Ding got more and more frustrated as close to an hour had passed! That genius in the lower realm..... wouldn’t die immediately right?

No Way! This was Cloudy Qilin Clan’s hope for the next several hundred thousand of years!

He finally couldn’t tolerate it any further as he hollered, “You Da Zhuang! I really have a very important matter and today you’re blocking the entrance holding up the major event! In future when the Clan Leader were to put the blame, you totally are not able to take it up because killing you is not even enough to pay for it! Don’t blame me for not reminding you! Still not going to hurry and move aside?”

Chapter 1553: Only two paths (7)

Sage Dong also hurried over to speak in support.

“What Brother Wu Ding said is correct. Steward You, we really have an extremely important matter, one which concerns the entire Cloudy Qilin Clan’s future! We really can’t delay this any further!”

When You Da Zhuang heard that, he somehow felt that something was amiss as he questioned them with a face filled with suspicions, “What matter do you really have?”

Sage Wu Ding was going to die of anger but he knew that if he didn't manage to dismiss this fatty, he would definitely not be able to see clan leader.

He could only force down his attitude and, using the fastest speed he could, to briefly explain the entire matter.

In the end, before he could finish his story, You Da Zhuang couldn't help but burst out into laughter.

"HAHAHAHA, really laugh die me! What did you say earlier? There's a god grade genius in the lower realm which has extremely scarce Heaven and Earth Profound Qi? Sage Wu Ding, I think you must be getting on in age that you've even developed hallucination! How could this be possible?"

Sage Wu Ding was both angry and anxious as he emphasized, "This is not my hallucination, it's real! I was once the valley master for Violet Sun Valley and I had been sensing whatever happened in the valley!"

You Da Zhuang didn't think much of it as he continued laughing, "So what about that? How many years has Violet Sun Valley been abandoned for? Moreover Soaring Heavens Continents and God Realm is so far away so how could you still accurately sense it? I think this must really be a kind of illusion! Don't you even consider just how much resources we had been spending in God Realm, filtering out the clans' geniuses layer by layer and we are only able to come out with a god grade genius in several hundred thousand years! That lower realm practitioner hadn't even sensed much Heaven and Earth Profound Qi so just how good of an innate talent did he have before he could become a god grade genius?"

"If there's really such a person, then even if it was in God Realm, he would really be a peerless genius who was second to none!"

Sage Wu Ding hurriedly said, "Isn't that do? If there really is such a person, then Cloudy Qilin Clan's position for the next hundred thousand years would be secured. We cannot let him gall in the Qilin tablet! So that's why I'm here to report to the clan leader! Steward You, have you understood everything? Quickly help us....."

"Help?" You Da Zhuang stopped smiling as his expression sunk, "What's wrong with you? Just because of you two old man's absurd hallucinations, I have to go report to the clan leader saying that the god grade genius on that god-forsaken Soaring Heavens Continent is going to die soon? Who will believe this sort of nonsense? Do you really treat me like an idiot?"

"You....." Sage Wu Ding was so infuriated that he almost couldn't breathe!

You Da Zhuang scoffed, "Anyway, clan leader's closed door cultivation absolutely cannot be interrupted, especially not by this kind of senseless joke! Both Sages please kindly return, send the guests off!"

Saying that, he waved his hand to dispatch two servant boys to dismiss them and he shut the door to the clan leader's cave dwelling.

"Wait!"

The two Sages wanted to chase up to him but were stopped by the guards.

Based on both their abilities, defeating these guards was as easy as lifting a finger but even if they did chase away these guards, the clan leader's residence was surrounded by various mechanisms and there

were genuine top exponents watching over so it absolutely wasn't a place where they could just run freely without any restraint.

The two of them exchanged glances and sat on the ground in disappointment.

"Finished! We're all finished this time! This lower realm genius is a goner! I'm really afraid that I would sense the news of his death at the very next minute!" Sage Wu Ding put on a miserable look.

Sage Dong however had an astonished look, "What? He actually managed to last till now and is still hanging on? From the time that you sensed him entering the Qilin tablet until now, it's already been more than two hours isn't it! He could actually persist that long a time in front of the spiritual beast Qilin??"

Chapter 1554: Find a way out of an impasse (1)

Hearing that, Sage Qu Ding was also stunned.

"If you didn't mention it, I actually didn't notice it at all... that's right, it's already well over two hours and this lower realm genius is actually.... still alright??"

He jumped up right from the ground, "No way, I can't just let it go like that! He actually managed to stay in the Qilin tablet for such a long time. Even if Violet Sun Valley hadn't been abandoned then, no one had ever managed to do it! If this kind of genius really died... ai, that's a huge loss to our clan!"

The two of them hurriedly looked for others to help. Other than the clan leader, they also visited several Grand Elders.

A large portion of them had the same reaction as You Da Zhuang, totally not believing their words, feeling that the genius in their words were just too ridiculous and absolutely not possible for such a person to exist.

Only a small portion of people were sceptical.

"This.... it's not that I don't want to help you guys, but to influence the Qilin tablet's battle is just too tough! Even if clan leader is willing to activate the clan's teleportation array to send you guys there, there's no way for you to enter the Qilin tablet!"

"Are we.... Just going to let him perish on his own? Just how rare do we even come across such a genius!"

"But, Wu Ding, you're not totally certain if there's really such a person right? It's just merely a possibility. We are millings of miles apart and if you sensed it wrongly, you've wasted a huge amount of the clan's resources so you'd have to bear the responsibility as well! I think let's just forget about it!"

For the next three days, no one was able to help.

This afternoon, the duo were chased away by Fatty You once again and they were disheartened.

After being in the Qilin tablet for three days, that lower realm genius still hadn't died so just what kind of outstanding talent did he had!

"Damn it! This kind of genius... could it be that he was going to be ruined just like that?!"

Sage Wu Ding smashed his fist against the wall but immediately following that, his movements halted as an extremely shocked expression appeared on his face!

“Hea... Heavens... such a thing actually happened!”

Sage Dong hurriedly asked, “What’s the matter?”

“That lower realm genius.... He seems....”

...

In the Qilin tablet.

Right after spiritual beast Qilin announced the start of the refinement, it immediately pounced towards Li Moying, not even giving him a chance to prepare himself.

But Li Moying was also an established practitioner so while they were conversing, he had already placed himself on high alert hence he was able to enter a state of battle immediately.

However after crossing hands, Li Moying realised that the ability of the spiritual beast in front of him... was simply too powerful!

It was totally different from those ninth grade peak magical beasts which he had once fought in his past life!

Spiritual beasts and magical beasts were different by only one word but in terms of physique, the former had already entered a new realm.

Although the Qilin tablet’s Qilin’s Profound Energy was suppressed to ninth grade peak, but its ability was much, much stronger than ordinary ninth grade peak magical beasts!

The paw which unleashed it’s Profound Skill, the innate response and speed as well as the mighty aura from a spiritual beast were all a grim challenge towards Li Moying!

Li Moying was beaten till he kept on retreating as he could only maintain defence for the entire duration with no chance to strike back at all!

Actually, this could not be helped.

Although his innate talent in Cloudy Qilin Clan was god grade and was considered outstanding.

But he was after all still too young.

The oldest age where practitioners could enter Violet Sun Valley was actually thirty years old and below. To God Realm’s practitioners whose longevity went past several ten thousands of years, not to mention thirty years old, even three hundred years old was considered very young.

Chapter 1555: Find a way out of an impasse (2)

Even if Cloudy Qilin Clan’s practitioners entered Violet Sun Valley when they were twenty years old, they would go into closed door cultivation for a number of years in the valley. Only after their potential reached the peak and when they had reached the age limit then would they attempt to activate the Qilin tablet, accepting the ultimate refinement.

However, Li Moying totally didn't know about these and just rushed in like that.

Based on his age at twenty, entering the Qilin tablet for the challenge was a fascinating thing, even in the early historical times.

Of course, this also had something to do with Violet Sun Valley's insufficient Profound Qi.

In the past, the magical beasts in Violet Sun Valley grew and multiplied without end and allowed many geniuses to cultivate simultaneously.

But now, Li Moying had just spent an entire month and he nearly cleared all the magical beasts in the valley. This wasn't just because he had outstanding ability but also because Violet Sun Valley had long lost the ability to reproduce hence it no longer was a place for long term closed door cultivation for a genius like him.

But in this way, he was at a complete disadvantage!

Qilin's attacks were faster and faster, and the moves it made were smoother and smoother.

Li Moying was extremely steady and even though he had been struck flying over and over again as the injuries on his body became heavier and heavier, but his mind became clearer and clearer. He had been observing the Qilin's attack pattern, especially the rhythm of its body's Profound Qi's fluctuations.

Under Qilin's swift attacks, Li Moying started to bleed non-stop and he had even felt the meridians in his body being seriously damaged.

But a smile gradually grew on the corners of his lips.

Because what he guessed wasn't wrong. Spiritual beast Qilin's spiritual body, as a form of energy body, it indeed was supplied by thunder attributed energy.

As his observation deepened, he could distinctly sense that every single time Qilin struck, the path of the flow of the Profound Energy within its body.

Li Moying's gaze turned deeper as he gathered all the Profound Energy within his body.

He was very clear of this, that the absolute disparity between him and Qilin was simply too huge! He didn't have many opportunities and there was only this one chance! He must gather all his energy and try his best to deal Qilin with heavy damage!

"Amethyst Light Sword, unsheathe!"

The bluish purple electric currents on Amethyst Light Sword suddenly expanded, dazzling up the narrow small space in the Qilin tablet with extremely bright lights!

Li Moying observed Qilin's path of attacks and just as it charged once again, he suddenly moved and appeared right beside its body and at the same time, used up all his energy to pierce sharply towards the Qilin's left back position!

This position.... Was something which he had observed for a very long time, spiritual beast Qilin's weakest part of its Profound Energy! It was also the most possible position in which he could make a breakthrough!

As expected, following his attack, Qilin suddenly rose its head towards the sky as it gave out a miserable howl!

Amethyst Light Sword pierced deeply into the Qilin's back and Li Moying immediately felt an incomparably powerful Profound Energy passing through the sword blade, causing his arms to turn numb and the long sword in his arms to almost fall!

He hurriedly held his breath with rapt attention as both his hands gripped onto the sword handle tightly, took in a deep breath and tried his best to plunge the Amethyst Light Sword deeper into the spiritual beast Qilin's body.

Qilin howled for a short time and started shaking its body violently, trying to shake him and the Amethyst Light Sword away!

Li Moying sensed that the pressure he was bearing increased by the minute and the spiritual beast's Profound Energy awe came raining down on him so tightly that he couldn't even breathe!

But he continued to hang on, refusing to let go no matter what!

Chapter 1556: Find a way out of an impasse (3)

Qilin kept on howling as the degree of its shaking movements got even more vigorous!

Li Moying could clearly sense that after Qilin's lower back was pierced, its Profound Energy kept on routing out at a speed which could be seen as it followed along the sword body, leading back to its body.

Initially he was impacted by the Qilin's Profound Energy and almost couldn't handle the pressure as he threw up blood on the spot. But after he got adjusted to it, he gradually caught the rhythm and started to direct that portion of Profound Energy actively.

Li Moying believed that since the valley's other magical beasts' Profound Energy could be absorbed by him, then the spiritual beast's would naturally be able to as well! But the process would definitely be tougher than the other magical beasts. Without outstanding determination and guts, the result would not be him absorbing Profound Energy but ending up with his meridians being cut into pieces.

Luckily Li Moying was gutsy enough and he had enough innate talent.

As one of the excellent god grade geniuses, his meridians intensity and capacity had far surpassed ordinary practitioners.

Spiritual beast Qilin's powerful and pure Profound Energy which was invasive poured into his body and kept on expanding. If it was any other ordinary person, their meridians would have split broken by this but Li Moying was able to take on the first wave of attack!

A sliver of joy appeared on his face – he had placed the right bet!

As long as he wasn't struck down at the first moment when the Profound Energy entered his body, he was sure that he could use his own determination to use the Qilin's Profound Energy for his own use!

Li Moying bore with the pain of the Profound Energy invading deep into his meridians as he held his breath and congealed his senses, starting to concentrate on directing the thunder attributed Profound Energy in his meridians!

Spiritual beast Qilin howls were getting louder and louder!

“Little brat of the Cloudy Qilin Clan, get off from my back! You dare.... dare to absorb the Profound Energy from me! Ever since the Qilin tablet had been constructed successfully for several hundred thousand years, you’re the first practitioner who dared to do so! But stop dreaming, you are not able to merge my Profound Energy successfully. You will explode and die!”

Li Moying’s eyes were slightly shut as he totally ignored that Qilin which flew into a rage out of humiliation.

At the present moment, he had placed all his energy into directing the Profound Energy into his body and had no time to be concerned about other matters, what’s more about answering Qilin.

He was very clear that he must devote himself entirely and not be distracted. As long as there was a single bit of hesitation, there was a possibility that he would have a Qi Deviation!

Qilin had spoken out right now exactly because it wanted to sway his determination, to divert his attention.

Qilin saw that he wasn’t tricked as it continued, “Don’t think that I’m trying to trick you! Who do you think you are? You’re merely a practitioner from the lower realm and you had not received one of the Three Big Inheritances from the clan right? What cultivation method are you intending to use to direct the Profound Energy into your body? My Profound Energy impacts the meridians too much and even with the Cloudy Qilin Clan’s Three Big Inheritances, it’s impossible to neutralise it. You’re forcing yourself to absorb it so the only outcome would be the explosion of your body!”

Its words weren’t simply an alarm.

In order to absorb the intense energy, firstly intensity of the meridians was of utmost importance and secondly, that would depend on the practitioner’s grasp of cultivation methods.

The higher the grade of the cultivation method, the stronger it could direct the absorption of the energy. For example the Cloudy Qilin Clan’s Three Big Inheritances; even if it was a spiritual beast’s Profound Energy, there were hopes of merging it with that.

But, that was merely a hope....

Success or not, it would still depend on the practitioner’s cultivation and innate talent.

Chapter 1557: Find a way out of an impasse (4)

Assuming that Li Moying was now a ninth stage realm practitioner, pairing with his outstanding innate talent and strong intensity of his meridians to cultivate a Cloudy Qilin Clan’s inheritance cultivation method, then there was an eighty percent possibility of taking in the Qilin’s energy for his own use.

If he was in the tenth stage realm, he could totally absorb all the energy cleanly!

However he was merely at seventh stage realm peak now.....

The most important thing was, after crossing hands, spiritual beast Qilin sensed that the cultivation method which he learnt was only barely half God grade. It was considered an incredible feat in the lower realm but among God Realm's large clan, it was totally unremarkable, not to mention that it totally couldn't be compared to the Big Three Inheritances cultivation method!

Based on Li Moying's current conditions, although he had enough innate talent but his other conditions were rather bad and yet he still wanted to absorb the spiritual beast Qilin's Profound Energy?

This was simply daydreaming!

"Stinky brat, did you hear me or did you not? Quickly scam off me!"

Qilin clamoured loudly.

However, Li Moying remained silent. Of course he knew that he was taking a huge risk by doing so and if he wasn't careful, surely he would be consigned to eternal damnation?

But he had no other choice. Moreover his instinct told him that – he would definitely be able to do it!

He only used a breath's time to discover that the cultivation method he was mastering could not handle the current situation, and there was no possibility of directing these Profound Energy!

If it were other people, they would have already become despondent but Li Moying hung on as he clenched his teeth!

Since the cultivation method was of no use, then.... he would base on his own understanding to absorb these Profound Energy!

Time passed by slowly and under his highly concentrated great effort, the violent Profound Energy really settled down slowly, as it went past his meridians, slowly combining with his body's Profound Energy, flowing into his dantian.

Qilin shook his body for a long time but was still unable to throw the man down, so it decided to stop wasting its breath.

Anyway this fellow was looking for death so his body exploding was just an instantaneous matter! A god grade genius trying to show off, so if he was full to the point of bursting, it was his own problem!

However, after a moment, Qilin realised in astonishment that... Li Moying was actually alright!

After a long time later, it discovered again that Li Moying was actually really absorbing its Profound Energy and the speed of it was getting faster and faster!

"What? How could this be possible? This little fellow is still not dead? He absorbed so much Profound Energy... could it be that he had really successfully merged with my Profound Energy? How could it be possible? That cultivation method which he was mastering obviously was a trashy thing in God Realm's streets! How could he possibly be that incredible? Or perhaps... he didn't use his cultivation method, but based on his own understanding to complete the merging process?"

When the second idea popped out, it made Qilin's heart jump with shock!

This.. this shouldn't be possible right? If it was true, then the power of understanding of this handsome younger junior in front of him was simply shocking! Even in God Realm, it had never met with such an abnormal genius with such strong power of understanding!

Right, not possible, this was impossible....

But other than that, there was no other way to explain how the Profound Energy was merged successfully.....

Just as Qilin was in extreme shock,, it suddenly sensed a burst of violent Profound Energy fluctuation emitting from its back, as it started to radiate swift towards the surroundings!

The surrounding thunder attributed Energy were raging up by the minute, as though it was going to burst the Qilin!

Qilin's eyes widen incredulously, "S...Surely not? This little fellow is actually going to advance... now???"

Chapter 1558: Find a way out of an impasse (5)

At this moment, Li Moying only felt as though his body was soaked in boiling water as extreme pure Profound Energy surged inwards, repeatedly crashing against his dantian.

This sensation was something that he wasn't unfamiliar with – advancement, was right in front of him!

He was originally at seventh stage realm peak, just one step away from eight stage realm and right now under the provocative Qilin's Profound Energy, he was unstoppable and very soon, he broke through to the last boundary.

His surrounding aura rose up faster and faster....

Finally, amid a burst of piercing ray, he successfully advanced into the eighth stage realm!

Spiritual beast Qilin was simply shocked beyond words.

"Seriously? Does it need to be that exaggerated? Based on this young fellow's bone age, he's just merely twenty over years old. An eighth stage realm at twenty years old... even in God Realm, he's also considered as a top rated genius. Furthermore that would require the clan's heavily invested resources before they were able to do it... this fellow....."

Just as Qilin was in a daze, Li Moying had speedily re-adjusted his condition.

He had been on the verge of advancement for several days now and as he had been accumulating everything for quite some time, so this time round, success followed naturally when all the conditions had been fulfilled.

After advancement, he immediately entered a battling posture as the Amethyst Light Sword in his hand shone even brighter than before! The speed of the absorption of Profound Energy also became faster!

Qilin was completely angered as the scales on its back all started to give off blaring electric currents!

At the same time, Li Moying also discovered that the Profound Energy which he could absorb had already reached the limit and if he continued on his meridians weren't able to accommodate it at all.

With no choice, he could only choose to give up.

A burst of electricity flashed past his hand and following the Amethyst Light Sword's sword blade, it shot into the lower back of the spiritual beast Qilin.

"You.... you little fellow.... Despicable.... AH—!"

Qilin had totally not expected Li Moying to reverse the flow of the Profound Energy so it tried its best to take back its Profound Energy but as it was caught unaware, the two Profound Energies layered onto each other and instantly it suffered an intense backlash as the Profound Energy shot right to its heart, sending it flying!

Furthermore, it spat out a blue coloured fluid in mid air.

This was formed from Qilin's Profound Energy and once it got in contact with air, it dissipated into thunder attributed energy.

But its action meant that it had already suffered a heavy injury, which was no different from spitting out blood.

Qilin was heavily injured by Li Moying but he himself wasn't in any great shape either.

As the spiritual beast's potential was just too powerful, he didn't dare to show any mercy as he used up all his power to strike back. All of the Profound Energy which he had absorbed during advancement was thoroughly exhausted!

Earlier when he was merging with Qilin's Profound Energy, his meridians were already hurt and right now, he was totally depleted of his energy and his body instantly felt as though he had been emptied.

Li Moying's complexion turned extremely pale and his sword blade pointed downwards, piercing onto the ground.

On the other side, spiritual beast Qilin sprawled onto the ground as it panted heavily, as though it totally couldn't climb up anymore.

Every breath it took, it would spray out blue coloured energy mass, evidently it was injured very seriously.

But.... it was still alive.

Li Moying had not forgotten his own mission. It wasn't to defeat spiritual beast Qilin, but.... to kill it!

If it was just to defeat the other party, then the victory was already clear and he could be considered to pass the stage.

But now the aim was to kill....

Earlier he had used ninety percent of his Profound Energy and had gained an unexpected huge advantage which was why he dealt the Qilin with such a heavy injury but that blow was unable to kill it!

However, Qilin was heavily injured now and he still gained the absolute advantage.

Li Moying silently thought quickly but at the next moment, his eyes turned wide with shock.

Chapter 1559: Find a way out of an impasse (6)

In the other corner, spiritual beast Qilin laid on the ground, totally not moving.

But not knowing when, suddenly specks of blue light surrounded the Qilin.

Those light spots were very weak and sparse initially but in an extremely short span of time, it grew concentrated and became brighter and brighter!

Li Moying's expression changed, "No good, this is....."

Before he could react over, these light spots had formed into a cluster and were absorbed by the spiritual beast Qilin immediately!

Immediately following that, the wounds on Qilin's body started to heal and not long after, it climbed up from the ground and stared at Li Moying with its shining eyes. Its tall and robust body looked like a little hill filled with intense might....

Evidently, it had already recovered back to its normal state.

"Damn!!"

Even for someone who was as calm as Li Moying, he helplessly hurled out a vulgarity.

Did it need to play around with him like that? Is this spiritual beast an undead? Even with such a heavy injury, it could instantly restore itself then what's there to continue fighting? What's called killing the Qilin and they would be able to pass the stage. Is this really something that can be achieved by a human?

All the efforts which Li Moying had put his hard work into had all turned to naught and he was extremely upset over it!

But he didn't have any time to ponder over it as a bitter cold glow flashed past spiritual beast Qilin's eyes and it immediately charged towards him!

This time round, although Qilin's attack was roughly the same as the last time round, but Li Moying sensitively noticed that Qilin's power had dropped slightly. It could only utilise around ninety percent of its total power earlier. It meant that his attack earlier wasn't totally ineffective.

If he could repeat that kind of strong intensity attack around ten times or above, there was a possibility of wearing this Qilin down.

But Li Moying had no energy to complete this for the second time.

The Profound Energy within him had turned totally void as the consumption used was far more than spiritual beast Qilin and it was getting obvious on who was stronger and weaker. Not long after, Li Moying was riddled with heavy injuries on his entire body and he wasn't able to continue holding on.

"Young fellow, you're still not giving up?" Qilin's voice reverberated around the tablet.

Li Moying clenched his teeth tightly!

He indeed wasn't willing to give up. As long as there was a sliver of hope, he wanted to persist till the very end without any regrets!

But at this instance, his mind flashed an image of Huang Yueli's sweet smile. That delicate and adorable young lass was still waiting for him to leave this place... he could not afford to die right here!

"Alright, I admit defeat!" Li Moying hissed these few words out of the slits of his teeth.

With that out, he heaved a sigh of relief.

He was no longer unresigned about giving up because making such a decision for his Li'er, it was worth it.

Li Moying shut his eyes and waited to be transported out.

The thought of being able to see Li'er immediately made his lips curled up into a smile. He wondered if the young lass had been anxiously waiting for him? Him suddenly being transported into the Qilin tablet should have shocked her badly?

No, she probably hadn't been shocked. After all, his little fox was a peerless Armament Master who had plenty of knowledge in these than him!

Li Moying waited for a while but the expected darkness did not arrive.

On the contrary, the lightning flashes and spiritual beast Qilin's attacks had not stopped!

A bolt of lightning shot towards his chest.

Li Moying hurriedly opened his eyes to evade hastily and at the very last moment, that mighty electric bolt brushed past him!

He broke out into cold sweat in shock and asked in alarm, "What's going on? Haven't I already admitted defeat? Why can't I leave this place??"

Qilin's voice rang, "Transportation failed, Qilin tablet's refinement shall continue."

Chapter 1560: Find a way out of an impasse (7)

"What??" Li Moying didn't believe his own ears, "Wait! Haven't I already given up?"

Qilin continued to attack him continuously.

Li Moying had already planned to admit defeat but was forced to defend himself right now as he was surrounded by perils.

Spiritual beast Qilin spoke as it attacked, "But you have not been transported out of the Qilin Tablet isn't it? That means that the refinement shall continue!"

Li Moying totally couldn't accept this kind of result, "Wait, earlier you said if I simply cannot pass through the refinement, then I can automatically choose to give up and now I've already admitted defeat! Why are you still forcing me to continue??"

“Haven’t I already said the reason? Because you’re not transported out of here!”

“What do you mean?” Li Moying frowned.

“My spiritual body is blocked by the Qilin tablet and I must follow the old clan leader’s series of regulations which he had set when he refined the Qilin tablet. Once the refinement starts, there is no way to end it, unless you’re transported out!”

Another dazzling lightning descended from the sky and under the lead from the spiritual beast Qilin, it gathered into a piece of bright screen, casting out towards Li Moying!

Li Moying was originally heavily injured and his speed and defence had dropped by a huge notch. Right now although he tried his best to evade it, but he was still struck.

He was sent flying as he crashed onto the wall in the Qilin tablet and blood started to trickle down from the corner of his lips.

“Damnit! What on earth is going on? Haven’t I already given up? Why can’t I leave this place?”

He clenched his teeth and shouted loudly three times, “I give up! I give up! I give up! Let me out!”

But there were no changes in the surroundings at all.

Qilin tablet remained motionless as though it wasn’t a piece of mechanism Profound Armament but just an ordinary room.

“Stop struggling, it should be because the Heaven and Earth Profound Qi in Soaring Heavens Continent is just too low and Qilin tablet didn’t get sufficient energy hence leading to the failure in transportation.”

Li Moying raised his head up, “Since that’s the case, this is the Qilin tablet’s problem! I want to give up the refinement so stop chasing after me! I have to find a way to go out!”

Qilin walked nearer to him slowly and the electric aura from its body became stronger and stronger!

The injuries on its body kept on healing with the help of the Qilin tablet’s array.

Right at this moment, as time went by, the heavy injury which Li Moying had casted upon it had mostly healed up.

This made Li Moying even sure that his hope of victory was vague. Unless there was a way to kill it in one strike, otherwise this Qilin in the Qilin tablet was almost invincible.

Qilin;s voice appeared to be cold and emotionless, “Since you’re still in the Qilin tablet, if I don’t attack you, I’d suffer from suppression and torture! So I will not stop, be prepared!”

With that, earth shattering electric currents attacked from all areas, enveloping Li Moying within.

Li Moying persisted on as the spirit was willing but the flesh was weak and the injuries he incurred were getting heavier and heavier. In the end, his consciousness started to become blurry.....

...

Violet Sun Valley, outside Qilin tablet.

Huang Yueli hugged her knees as she sat under a big tree right in front of the Qilin tablet as she gazed at the stone tablet from afar, with little Qilin lazing around her feet.

Ever since the day when Li Moying used his blood to activate this huge stone tablet, he vanished instantly.

Huang Yueli had encountered similar experiences before so she wasn't too surprised, knowing that Li Moying had definitely been sucked into the stone tablet.
