

## **When God 411**

### Chapter 411 Connection Advancement\_2

The Sword Light Slash's blade light grew longer and longer, starting at only a few meters, then becoming over ten meters, and later the swung blade light directly became dozens of meters.

The Samurai Sword swept horizontally, and swaths of Frenzied Beasts were directly cut in half by the blade light like cutting through wheat, even those A-level Demon Spirits couldn't withstand the might of a single slash from the Jedi Knight.

The ground was littered with corpses and dropped Demon Cores, with dirty blood and the shimmering of Demon Cores intermingling, creating a demonic spectacle.

Suddenly, the Jedi Knight's gaze seemed drawn by something, looking towards the foot of the mountain.

In the forest, at some unknown time, coiled a giant serpent-like Demon Spirit over dozens of meters long.

That giant serpent Demon Spirit had a single crown on its head, its entire body covered in scales like fire-burnt crystal, spewing a red flame glow from its mouth.

Wherever it passed, the trees immediately turned charred black, as if being carbonized by high heat.

The Jedi Knight emanated a red glow all over, like a red lightning bolt, charging down from the mountainside. As he neared the foot, he leapt up, gripping with both hands, wielding a blade light as if the Heaven-Slaying Blade, striking the giant serpent Demon Spirit head-on.

The giant serpent Demon Spirit opened its mouth, spewing a torrent of red flame glow.

The Jedi Knight slashed against the red flame glow, showing no sign of retreat, splitting the massive torrent of flame with the blood-red blade light.

Boom!

At the instant the blade light collided with the giant serpent Demon Spirit, the terrifying red glow burst upwards like a volcanic eruption, forming a massive red pillar of light, enveloping both the Jedi Knight and the giant serpent Demon Spirit in its glow.

The red pillar of light lingered for a long time before finally dispersing, revealing the Jedi Knight standing atop the giant serpent Demon Spirit's corpse, its head cleaved in two, with its Demon Core nowhere to be found.

The Jedi Knight's entire body shone with such intense luminescence it seemed about to explode, looking like glowing glass filled with fluorescent lamps, appearing almost like a glowing entity, its form barely discernible.

"S-level now!" Li Xiu looked on with delight.

Jedi Knight: Evolving Demon Spirit.

Level: S.

Quality: None.

Talent Skills: Blood Light Slash, Desperate Realm, Martial Spirit, Unrivaled National Hero, Jedi Knight.

The name of the last skill was the same as the Jedi Knight's name, described as surpassing oneself, presumably a skill to stimulate potential.

It's just unclear how the Jedi Knight and Unrivaled National Hero differ in this potential-stimulating all-out attack, as they seem somewhat redundant.

The Jedi Knight, having ascended to S-level, was like a tiger among sheep, with blade lights reaping the Frenzied Beasts in swathes.

Hordes of Frenzied Beasts were slaughtered in the blink of an eye, leaving the mountain covered with lifeless bodies.

Soon, the Black Death Demon King and Demigod Shana on the mountaintop had little left to do. Demigod Shana began picking up Demon Cores, devouring those of quality and tossing ordinary cores up to the summit.

Before long, a small pile of Demon Cores had formed atop the mountain, with a blue glow gradually rising from Demigod Shana's body, as if about to ascend another level after consuming many Demon Cores.

"This trip wasn't wasted, with the Jedi Knight reaching S-level, it seems Demigod Shana is about to leap two levels consecutively." Li Xiu looked towards the Spirit-Eating Tree, feeling it was a real treasure trove.

By letting the Spirit-Eating Tree lure in Demon Spirits, he could quickly amass Demon Cores, and with a few more groups, perhaps Demigod Shana might also rise to S-level.

While Demigod Shana continued devouring Demon Cores, the Jedi Knight on the other side had already decimated the Frenzied Beast herd, with few survivors left.

It's unclear how many high-quality Demon Cores Demigod Shana had consumed, as he ate almost all the relatively high-grade Demon Cores he collected.

The blue glow on his body burned brighter and brighter, finally bursting forth, commencing yet another ascension.

From C-level, Demigod Shana ascended to B-level, with little change in appearance but having gained an additional skill.

Demigod Shana: Evolving Demon Spirit.

Level: B.

Quality: Radiant.

Talent Skills: Devouring God, Half-Heaven Demon, Final Requiem.

Demigod Shana's skills were all rather peculiar, none standard, and as a gun and sword butcher with no musical instruments, how he produced a Requiem skill left Li Xiu somewhat speechless.

However, having a skill is better than none, and Li Xiu felt that perhaps Demigod Shana's skills might serve a special purpose after all.

As Li Xiu was admiring Demigod Shana's skills, the Jedi Knight's slaughter had already concluded.

He returned to Li Xiu, sword in hand, his gaze falling on the Spirit-Eating Tree.

"Try the sword," Li Xiu said with a smile.

The Jedi Knight swung his sword at the Spirit-Eating Tree, with the overblown fluorescent blade light cutting a large gash in its trunk, one-third deep of its diameter. A couple more strikes, and the Demon Spirit Tree might well be severed.

The tree's face turned pale, never expecting that by using the Spirit-Eating Tree to lure in so many Frenzied Beasts, not only could he not kill Li Xiu, but instead let his Demon Spirits ascend in succession.

Generally speaking, feeding Demon Spirits requires meticulous selection, using Demon Cores or Gemstones of the same type to ensure awakening talent skills upon ascension.

Li Xiu's two Demon Spirits were clearly not of the same type, yet they both consumed these Frenzied Beasts' Demon Cores, each awakening talent skills upon ascension, something the tree face had never anticipated.

Chapter 412 Connection Promotion\_3

These demon spirits are too strange, unnaturally powerful. If I had known it would be like this, Treant would never have attracted those Frenzied Beasts here.

The Jedi Knight was about to strike again but was stopped by Li Xiu.

"If you want to kill, then kill. Don't think you'll get any valuable information from me." Treant closed its eyes, showing a demeanor ready to die.

"If I kill you, who will help me attract more demon spirits? That would be my loss," Li Xiu said nonchalantly.

"Don't dream about it. There won't be a second time." Treant replied coldly.

"Is that so?" Li Xiu signaled for the Jedi Knight to move forward.

The Jedi Knight swung his sword at the Spirit-Eating Tree, but with restraint, not cutting too deep and choosing a different spot each time.

"I don't know if this Spirit-Eating Tree body of yours can feel pain. Let me help you find out." Li Xiu said with a smile.

The Jedi Knight kept cutting the tree trunk of the Spirit-Eating Tree, changing spots after each slash. The wounds healed quickly, only to be opened again by the Jedi Knight.

While the Jedi Knight was playing around with the slashes, Li Xiu joined in collecting the spoils, deciding to gather everything first.

This battle had slain thousands of Frenzied Beasts, along with two S-Class demon spirits, resulting in a massive harvest.

However, both S-Class demon spirits' Demon Cores were devoured by the Jedi Knight. The white deer, though clearly a Radiant Demon Spirit, left nothing behind, disappointing Li Xiu greatly.

The giant serpent demon spirit, however, gave Li Xiu a pleasant surprise by leaving a Demon Spirit Ring.

Even though the giant serpent demon spirit was somewhat inferior to the white deer, it was still an S-Class Radiant Demon Spirit, and the Demon Spirit Ring it left was directly S-Class, effectively giving Li Xiu an additional S-Class combat strength.

Nonetheless, Li Xiu didn't rush to contract the Demon Spirit Ring, as the giant serpent demon spirit was not especially useful to him.

Its combat abilities didn't compare to the Jedi Knight, and its functionalities paled against the Black Death Demon King. Aside from its large size and ability to breathe fire, it didn't seem much use.

Li Xiu didn't keep idle spirits and intended to use it where it would be more appropriate.

Besides the Demon Spirit Ring, he also picked up some Talent Gemstones and Skill Rings, which seemed to have ordinary and common styles rather than rare, growth-oriented abilities.

While Li Xiu was happily collecting, Treant's face twisted and contorted, becoming even more grotesque than before.

Despite Treant's silence, his expression revealed that the Jedi Knight's repeated slashes on the tree trunk were indeed painful for him.

Seeing that Li Xiu wasn't paying attention and with the Jedi Knight showing no signs of stopping, Treant finally couldn't hold back and said, "All the demon spirits that could be attracted nearby have already been drawn here. There's no use cutting me anymore."

"Then tell me about you and the Longevity Association. Let's start with you. What's your name, and have you really lived for thousands of years?" Li Xiu, seeing that he had almost finished collecting, left the rest for Demigod Shana to gather and walked over to the tree, piling the gathered items together.

"Even if I said, you wouldn't know who I am... Ah..." Treant didn't finish speaking before the Jedi Knight's blade struck again.

"If I know everything, then why do I need you?" Li Xiu said expressionlessly.

Treant gritted his teeth, not daring to retort Li Xiu. He had now merged with the Spirit-Eating Tree, which had some peculiar abilities but no mobility, making it so that he couldn't even commit suicide if he wished.

And his current situation wasn't very promising; the Spirit-Eating Tree wasn't benevolent. Describing it as a fusion was more like a parasitism; an oversight might allow the Spirit-Eating Tree to swallow his consciousness, making life truly worse than death.

If it weren't for such concerns, he would not have hesitated in transferring all his consciousness to the Spirit-Eating Tree.

"I could give you a fake name, and you wouldn't be able to tell if it's true or false. Even if I give my real name, you wouldn't know it anyway. Might as well say something useful, saving us both some trouble," Treant said.

"Let's hear what useful things you know." This time, Li Xiu didn't command the Jedi Knight to strike again.

"The President of the Longevity Association, and I, both were born in the pre-Qin era." Treant said slowly.

"The scope of this pre-Qin era you speak of is far too vast." Li Xiu said coldly.

The so-called pre-Qin era typically refers to the period before the first unified dynasty was established in the ancient Eastern kingdom.

From mythological tales to just before the Qin Dynasty was founded, it can all be referred to as the pre-Qin era.

"Shortly before the founding of the Qin Dynasty, we both witnessed the first unification," Treant continued. "The President of the Longevity Association even once served that First Emperor."

"If he didn't lie to me, the President of the Longevity Association is a Qin Dynasty person. They really have lived for thousands of years. How did they manage to survive till now? It's said that during his later years, the First Emperor became obsessed with the Elixir of Longevity. Could it be that they really discovered the method for immortality?" With these thoughts racing in his mind, a phrase suddenly popped into Li Xiu's head: "I am Qin Shi Huang... send money..."

"Do you think I'll believe such nonsense? You're not going to tell me that you're Qin Shi Huang and the president of the Longevity Association is Zhao Gao, that you both took the Elixir of Longevity, and then Zhao Gao tricked you, and if I just give you 998, you'll help me get out of trouble, and once you kill Zhao Gao and reclaim the world and treasure, you'll give me a huge sum of money?" Li Xiu sneered.

"I'm not Qin Shi Huang, and the president of the Longevity Association isn't Zhao Gao. I know it's hard to believe what I've said, but I have something that, once you see it, will make you believe me." Treant seemed well-prepared for Li Xiu's skepticism and spoke with confidence.

Chapter 413 Lightspeed No. 2

"Cut him." Li Xiu directly commanded the Jedi Knight.

The Jedi Knight raised his blade, ready to strike at the Spirit-Eating Tree, when the tree's face hurriedly shouted, "The thing I mentioned is the Suihou Bead, one of the two treasures most cherished by the First Emperor."

"Continue, my patience is limited. This is your last chance." Li Xiu stopped the Jedi Knight and spoke coldly to the tree's face.

In fact, Li Xiu didn't know what the Suihou Bead was; he had never even heard of it.

"The First Emperor had two treasures; later generations only know about one of them, the Heirloom Seal of the Realm, but few know about the Suihou Bead," the tree's face dared not keep secrets and clearly explained the origins of the Suihou Bead.

During the Spring and Autumn period, there was a small country called the Chu Kingdom. While traveling, the ruler, Suihou, saw a wounded large snake on the road. Seeing the snake in extreme pain, he couldn't bear it and helped treat the snake and released it.

Then followed the well-known story of the spirit snake repaying kindness. That night, the snake returned with a bead in its mouth, presenting it to Suihou as a token of gratitude.

The bead shone brightly at night, emanating a strange radiance.

Legend has it that the bead was the inner core of the snake, so some called it the Spiritual Snake Bead, but most still referred to it as the Suihou Bead.

Later, the Chu Kingdom was conquered by the Qin Dynasty, and the Suihou Bead fell into the hands of the First Emperor, considered one of his most treasured possessions, as famous as the Heirloom Seal of the Realm.

After the fall of the Qin Dynasty, the Suihou Bead disappeared along with the Heirloom Seal of the Realm. Later, the Heirloom Seal frequently appeared, but the Suihou Bead was never seen again, its whereabouts unknown to this day.

So there was not much information about the Suihou Bead to begin with, and it was normal for Li Xiu not to have heard of it.

The tree's face continued, "Many people think the Suihou Bead might be an ordinary Luminous Bead or something similar, but that's incorrect. The Suihou Bead is a kind of Gemstone, a Gemstone that glows on its own."

"Do you take me for an illiterate? A stone that glows on Earth might suggest it has radiation. If the First Emperor wore a radioactive Gemstone, was he tired of living?" Li Xiu frowned and said.

Common Gemstones reflect light but don't emit it themselves. Many naturally glowing Gemstones are likely to contain radioactive elements, making them harmful to wear.

Gemstones with excessive radiation are often seen as beautiful, like natural zircon. The color and fire are very attractive, but natural zircon can have excessive radiation, so unless tested by a professional, they should not be worn casually.

"A stone that glows on its own doesn't necessarily have radiation; it might also be a Demon Spirit Gemstone. That Suihou Bead is a Demon Spirit Gemstone, and the spirit within is extraordinary, completely different from regular Demon Spirit Gemstones."

The tree's face looked at Li Xiu and asked, "The Demon Spirit Gemstones you've seen, don't the spirits they form usually take humanoid forms?"

"Correct." Li Xiu nodded.

"But the spirit formed by the Suihou Bead is a white snake," the tree's face said.

"Even if the Suihou Bead exists, as a Demon Spirit Gemstone, how does this relate to you and prove you are from the Qin Dynasty?" Li Xiu asked, looking at the tree's face.

"The Suihou Bead disappeared when the Qin Dynasty fell. Do you know why no one has seen it for thousands of years?" The tree's face smugly said, "Because that Suihou Bead was stolen by me during the chaos when the Qin Dynasty fell, always kept by my side, it's naturally impossible for it to circulate."

"My first Gem Demon Spirit came from the Suihou Bead, a genuine Radiant Demon Spirit. That White Snake Demon Spirit has accompanied me for thousands of years, advancing to S-rank. It has saved me from countless disasters. If you spare me, I can give you the Suihou Bead," the tree's face said.

"You can't not know that a contracted Gem Demon Spirit cannot bond with a second person unless the owner dies, right?" Li Xiu said.

"Do you think I still count as a living being now?" The tree's face laughed miserably.

"That's true. Where is the Suihou Bead?" Li Xiu laughed.

"The Suihou Bead is not on me, but I can tell you where it's hidden; you can go retrieve it yourself," the tree's face said.

"You've really gone to great lengths to create such a story to save yourself; I almost believed it," Li Xiu coldly stared at the tree's face and said.

With a contracted Demon Spirit Gemstone, the Gemstone can automatically return to its owner. If the Suihou Bead was indeed contracted by this strange person, how could it not be with him?

"That old thing wanted to harm me. If I had the Suihou Bead on me at the time, do you think he wouldn't have seized it? You wouldn't even have a chance," the tree's face sighed. "I was always on guard against that old fellow, but I still lost in the end. However, before I was imprisoned in the Paradise Elixir Bottle, I used some strategies I had prepared beforehand to separate the Suihou Bead from me and hide it in a place. If you want the Suihou Bead, you'll have to fetch it yourself. Even if you wanted to kill me, I couldn't get it here," the tree's face said.

"Where is the Suihou Bead?" Li Xiu pondered.

"The place used to be called Rolling Dragon Slope. There's a crooked old tree on the slope, and the Suihou Bead is buried beneath it..." the tree's face said in great detail, elaborating on the name of the region where Rolling Dragon Slope was located.

Chapter 414 Lightspeed No.2\_2

"You told me just like that, aren't you afraid I'll betray you?" Li Xiu asked with a smile.

"If you truly wish to kill me, even making you swear won't help. What else can I do? Instead of being overly cautious and provoking your murderous intent, it's better to be straightforward. If you wish to go back on your word and kill me, just do it." Tree Face seemed to see things very clearly.

"If I can't find the Suihou Bead there, you know very well what the consequences will be." Having said that, Li Xiu picked up the things from the ground and turned to head back to the temple.

"Unless someone discovered the Suihou Bead and took it away, it's definitely still there." Tree Face said.

Li Xiu said no more, putting a small pile of Demon Cores, Talent Gemstones, Skill Rings, and Demon Spirit Rings into the Paradise Elixir Bottle, and had the Pink Nightmare carry the bottle back to the temple.

He didn't kill Tree Face, not for the Suihou Bead, but intending to keep the Spirit-Eating Tree as a Monster Attractor.

Having this thing attract demon spirits for him is much better than running around himself looking for them.

After all, the Spirit-Eating Tree won't grow legs and run away, and now the Golden Gate is already Li Xiu's. As long as someone guards the Golden Gate, preventing outsiders from entering, the Vase Monster will be trapped inside the Spirit-Eating Tree, unable to go anywhere.

After Li Xiu left, Tree Face became fierce. The Spirit-Eating Tree began to glow green, and many roots emerged from the ground, like leeches, penetrating into the corpses of the Frenzied Beasts, absorbing their flesh, even the blood soaked into the soil wasn't spared.

Gradually, a hint of blood color appeared on the tree, and Tree Face sinisterly said, "If it weren't for letting the Spirit-Eating Tree absorb the flesh of these demon spirits to evolve, why would I say so much nonsense to you? Once the Demon Spirit Tree ascends, your body will definitely belong to me when you return."

"The connection between the Suihou Bead and me is not completely severed. Coupled with the Super Spirit Body, it's not something you can contract. Anyway, it will eventually return to my hand. Just go ahead and retrieve it for me. I hope the Suihou Bead hasn't been discovered by others yet." Tree Face was somewhat worried that the Suihou Bead had already been discovered and taken away, and hoped Li Xiu could find it.

Li Xiu extinguished the Longevity Lamp, took the Paradise Elixir Bottle and its contents back outside the Golden Gate.

The harvest this time was already enormous; he didn't want to waste time in the Land of Trial anymore. He needed to first enhance his Primordial Embryo Quality within the Trial Ground.

The Jedi Knights were already S-class, but he was only D-class. His own level was equally important, and he needed to quickly raise his level as well.

Li Qingyi was so young and already a Super Spirit, making him feel a bit inadequate with his small D-class Trial Taker status.

Li Xiu didn't consider that Li Qingyi came from a background with generations of accumulation, unlike him, who hadn't even been in the industry for a year.

He buried the Paradise Elixir Bottle along with those Demon Cores underneath the ruins of Old Knife's wooden house, and at the Golden Gate he frantically engaged in trials, improving his Primordial Embryo Quality.

Fortunately, his finances were quite substantial now; otherwise, this constant spending on gemstones, even if it's just Golden Green Tourmaline, would be unbearable for an average person.

In more than ten days, Li Xiu improved his Primordial Embryo Quality to 3.9, mainly because the trials at the Golden Gate allowed him to pass quickly. If it were the Dark Maze, he wouldn't have improved this much even if he doubled the time.

"The Golden Gate Trial Ground is truly a holy place for enhancing Primordial Embryo Quality. Unfortunately, the higher you go, the harder it is to improve. I've been working on this last 0.1 for two days, and still can't enhance it." Li Xiu was exhausted, so he sat down in front of the Golden Gate to rest.

Recently, he also looked into the Rolling Dragon Slope mentioned by Tree Face. Now, that place wasn't called that anymore, and even the local regional name had changed. Li Xiu compared for a long time before determining where Tree Face referred to as Rolling Dragon Slope.

"Rolling Friend Slope is now White Night City's territory. I should look for Chu Jun and have him take me there." Li Xiu was thinking when he suddenly heard voices in the distance.

Li Xiu stood up and looked in the direction of the voices, and soon saw Ye Yuzhen leading a group over.

Those people were all leading mules, with each mule carrying two large boxes. The team of over a hundred mules majestically arrived at the front of the Golden Gate.

"City Lord, the items you requested have all been delivered, and the workers have also arrived." Ye Yuzhen quickly stepped forward to report.

"Good, I've had A Fei give you the blueprints earlier. Stay here and supervise. Build the toll station and seal off the Golden Gate completely. Without my permission, no one can activate the Golden Gate, and you can gradually charge fees." Li Xiu said to Ye Yuzhen.

"Rest assured, City Lord, I will certainly complete the task with quality and quantity. Until the fees are charged, I will ensure no one approaches the Golden Gate." Ye Yuzhen promptly made his promise.

"Alright, you oversee this here, I have to return to the City of Light." Li Xiu didn't stay to improve that last 0.1 because he had received a message from Old Officer that his Lightspeed No. 2 was completed.

Once Lightspeed No. 2 is achieved, he will have the capability to compete for the Super Spirit Gemstone, hence he's eager to return.

"I hope that Super Spirit Gemstone hasn't emerged yet." Li Xiu hurried back to the City of Light as fast as he could.

### Chapter 415 Lightspeed Two\_3

Returning to the City of Light, Li Xiu went straight to Ximen Guan's laboratory with the Paradise Elixir Bottle.

"You've finally come back. Light-Speed Two is already completed, and the instrument tests have passed. Now, it just lacks human testing. Without you here, there was no way to test it. Ye Xiyuan, the little girl, doesn't possess enough Spiritual Sense strength, and can only activate some of the functions. The rest has to be tested by you... huh... what's this?" Ximen Guan was speaking excitedly when he suddenly spotted the Paradise Elixir Bottle and asked with some confusion.

Li Xiu recounted the process of acquiring the Paradise Elixir Bottle to Ximen Guan, who, after listening, replied with some doubt, "When I was in the Heavens of Longevity, I never heard of such a person. I'm unsure whether what he says is true or false. You could take a trip to White Night City to see if the

Suihou Bead he mentioned truly exists, but be cautious and don't fall for his tricks. People like that should never be easily trusted."

"I'll claim the Super Spirit Gemstone first before going. It's not urgent. Let me test Light-Speed Two first. You can keep this item to research. Be careful, as it's a bit strange. If there's anything unusual, notify me immediately." Li Xiu instructed briefly before turning and leaving the office to head to the laboratory warehouse.

Inside the warehouse were several sets of Demon Armor, but most were merely half-finished products for testing. The only complete set was undoubtedly the Light-Speed Two.

The compressed form of Light-Speed Two was similar to that of Light-Speed One, with no further reduction in size. It's estimated that this type of Demon Armor is hard to compress further unless employing technology similar to Ximen Guan's set of Demon Armor.

However, with this size, Li Xiu was already quite satisfied. He walked over to Light-Speed Two, opened the glass cover, and examined it closely.

The shell was black, entirely devoid of any patterns or decorative lines, squarely simple yet elegant.

Li Xiu speculated it was due to time constraints, leaving no time to pay attention to such details.

Li Xiu didn't mind this, as long as the performance was adequate, appearance didn't matter. Reshaping the appearance could wait for a time when he was free.

Having experience with Light-Speed One, Li Xiu skillfully used a fingerprint unlock, causing the black Demon Armor to quickly dismantle and extend along his arm. In no time, the pure black Demon Armor completely enveloped Li Xiu's body.

On the black armor-shaped Demon Armor, mysterious and beautiful golden Light Patterns flowed, making the once lifeless pure black Demon Armor appear a bit more majestic. Yet, against the black base, the majesty didn't seem gaudy.

"Huh! What's this?" Li Xiu discovered an unfamiliar device attached to the back of the Demon Armor.

Reaching out to touch it, he noticed that this device on the back could actually be removed.

The device was a black rod, about a meter long, with a grip just right for holding.

"What is this thing? Could old Guan have equipped me with a baton?" Li Xiu felt this rod was similar to a baton, just a little longer.

Li Xiu didn't quite understand why Ximen Guan would equip him with such a rod as a weapon.

Demon Armor is a unified whole, even if it has weapons, they are typically fixed and connected to the Demon Armor, otherwise there's no way to activate it.

This rod was completely independent, unable to connect to the Demon Armor, leaving its purpose unknown.

"This is a weapon system I specifically designed for Light-Speed Two. How does it feel?" Ximen Guan walked in smiling.

"How do you use this weapon?" Li Xiu really had never used such a Demon Armor weapon before.

"Just treat it as another set of Demon Armor and activate it the same way." Ximen Guan proudly continued, "In Light-Speed Two, I've used some new technology where the Demon Armor itself can conduct your Spiritual Sense. Without needing any physical connection, just contact is enough to directly use your Spiritual Sense to activate the weapon system with an independent energy core. However, using this will definitely require diverting some of your Spiritual Sense. Normally, a Demon Spirit Master can't handle it, but you should manage fine."

It was Li Xiu's first time seeing such a Demon Armor weapon, so he tried it, and it really could be activated without a physical connection, which surprised him.

In the instant the rod was activated, golden Light Patterns instantly lit up, and one end of the rod elongated like a retractable stick. The rod body, also adorned with golden Light Patterns, extended to instantly over three meters in length, with a spearhead gleaming with blood-red light protruding from the top.

The wooden rod instantly transformed into a long spear, entirely black interspersed with gold, with a spearhead carrying a hint of a blood-red hue.

Li Xiu merely activated the internal power slightly, and the long spear glowed a brilliant gold, with the entire spear shaft turning into something akin to a Golden Crystal, churning with strong Demonic Light fluctuations inside. The tip of the spear manifested a hint of blood light, bewitchingly enchanting to the utmost extent, as if a casual thrust would penetrate through the void itself.

With a swift jab of his hand, Li Xiu effortlessly penetrated through a meter-thick wall of testing Demon Ash as though it were soft tofu.

"Good stuff, what is this thing called?" Li Xiu exclaimed with joy.

"I didn't bother with a name, let's just call it the Light-Speed Spear." Ximen Guan answered as if it were very casual, yet his face was filled with pride, proving that this Light-Speed Spear was a masterpiece of his.

"Not bad, a good name." Li Xiu nodded approvingly.

"The name's not important. What's important is that the Light-Speed Spear is crafted using the pair of Monster Horns you brought back, the spearhead-like weapon, and materials refined from Demon Spirit Wood. The Super Spirit Gemstone is also installed inside. When you require greater power, just activate it, and it will unleash an enormous power of Demonic Light. Of course, the precondition is that your Spiritual Sense needs to be strong enough to stimulate its power. Earlier, when I had Ye Xiyuan test it, her activation rate was very low, and the combat power unleashed couldn't reach the level of a Super Spirit," Ximen Guan explained.

"As long as the power is sufficient. Is this material sturdy enough not to be burned by the power of Demonic Light?" Li Xiu questioned with a smile.

"Rest assured, this time we used refined materials from Demon Spirit Wood without adding ordinary auxiliary materials, ensuring extremely high strength. I've invested heavily in this set of Demon Armor, using up at least a third of the Demon Spirit Wood. You couldn't burn it even if you tried, especially this Light-Speed Spear, perfectly capable of bearing Super Spirit power," Ximen Guan confidently assured.

"Why don't we... try activating the energy of the Super Spirit Gemstone..." Li Xiu looked uncertainly towards Ximen Guan and asked.

Chapter 416 Super Spirit Gemstone of the Old Mine

"Aren't you testing?" Ximen Guan looked at Li Xiu with confusion.

"I mean, to stimulate the maximum power of the Super Spirit Gemstone." Li Xiu said as he played with the Light-Speed Spear.

"Of course, testing the maximum power is always best." Ximen Guan didn't quite understand why Li Xiu asked this, as testing maximum power seemed normal, so why specifically ask about it?

"Then let's give it a try." Li Xiu held the Light-Speed Spear and his Spiritual Sense began to invade.

The golden light on the Light-Speed Spear grew increasingly strong, like an iron rod gradually being heated to gold hue, until it became transparent like a Golden Crystal, with a single spot of bright red on the tip, resembling a droplet of blood crystallized on the edge.

This was just the beginning. As Li Xiu's Spiritual Sense crossed that line, the Light-Speed Spear in his hand suddenly surged with brilliance, so intense that the entire spear seemed to fluoresce, only the powerful spear-shaped glow was visible, the body of the spear had disappeared.

The intense Demonic Light made the Light-Speed Spear look like a gold-transformed viper, that spot of blood red resembling a blood-colored monocular serpent's eye, giving a sense of evil, menacing, mysterious, and eerie.

Bang! Bang! Bang!

Under the Demonic Light's radiation from the Light-Speed Spear, the surrounding instruments suddenly exploded continuously, as if something inside had burst.

"Oh no, stop it, stop immediately..." Ximen Guan yelled anxiously. Although the equipment in the warehouse wasn't vital, they were testing instruments that were bought, causing him heartache.

Li Xiu withdrew his Spiritual Sense, and the light on the Light-Speed Spear gradually dimmed, restoring its original black rod-like state after a moment.

Li Xiu felt very satisfied. Although they hadn't yet reached maximum power, it was already stronger than the last overload on Light-Speed One. The Demonic Light explosion of this extent didn't damage the Light-Speed Spear at all, truly stronger than Light-Speed One.

"Luckily it was just the sensors that blew. We just need to replace the sensors. The Demonic Light from the Super Spirit Gemstone was too strong, its radiation exceeding the sensor's limit. We should test outside." After inspecting the instruments, Ximen Guan breathed a sigh of relief, understanding why Li Xiu asked earlier.

"No need for further tests, let's leave it at that." Li Xiu dismantled the Demon Armor and put it in his backpack.

"Be careful using it, don't break it again. We no longer have materials to create another set like this." As Li Xiu was leaving, Ximen Guan reminded him.

"Got it." Li Xiu waved his hand, not turning back.

With this set of Demon Armor, Li Xiu definitely felt less apprehensive and planned to head to the old mining site in Red Sand City now.

"Recent reports didn't mention any Demon Spirits there, hopefully the Super Spirit Gemstone hasn't been discovered and taken away?" Li Xiu studied the news before heading there.

The latest report on the old mining site was from three days ago, stating that the Demon Spirits appearing there recently had vanished as if they disappeared into thin air.

"Just have to try my luck and hope the Super Spirit Gemstone is still there." Li Xiu felt somewhat helpless. Magic Armor Masters are too reliant on Demon Armor; without it, many problems are unsolvable.

This issue could only be resolved when the City of Light grows bigger, allowing Ximen Guan to set up a production line for Demon Armor.

By then, Demon Armor could be mass-produced and easily replaced, eliminating many issues.

Provided there is money and materials, and Ximen Guan resolves existing technical challenges, these are matters for the future.

Currently, it's just Ximen Guan handcrafting Demon Armor, but luckily, Light-Speed Two is adequate and shouldn't be easily damaged.

Li Xiu didn't want to cause trouble for the City of Light, so he headed to the Hero's Trial Gate first, and under the watchful eyes, entered the Trial Ground.

After clearing the Dark Maze several times, he finally randomly acquired an entry ticket. Unexpectedly, during an S-level trial, the attribute reward allowed Li Xiu's Primordial Embryo Quality to finally reach the 4.0 limit.

What puzzled Li Xiu was, even without the Ruby Demon Spirit causing chaos in his body, he still didn't advance directly to C-level.

"Last time, it was due to the Ruby causing chaos that prevented D-level advancement. What's the reason this time?" Li Xiu couldn't help but frown.

After long contemplation, Li Xiu felt the issue likely lies with the beastling Demon Spirit.

"Could it be that last time I was mistaken, the obstacle to my level advancement was the beastling Demon Spirit rather than the Awaiting Bride?" Li Xiu pondered deeply, thinking it quite possible.

Although it was after the Awaiting Bride transformed into the Demon Spirit Ring that he advanced to D-level.

Yet there may not be a direct connection between the two, rather the beastling Demon Spirit absorbed some special substance from the Starlight Ruby.

Li Xiu now contemplated whether there could be a possibility that he must also feed the beastling Demon Spirit inside him before they can advance together.

Evidently, the beastling Demon Spirit cannot be fed enough through Trial Ground enhancements, as it continuously eats the Demon Core or Gemstone carried by Li Xiu, just not with significant quantity or effect.

"If that's true, then the primary way for the beastling Demon Spirit to grow might indeed be absorbing special substances from Demon Spirit Gemstones. Only after absorbing the special substance from the Starlight Ruby last time was I able to smoothly advance. Consuming numerous Demon Cores without the beastling advancing indicates that the special substance in Demon Spirit Gemstones greatly aids its growth." Li Xiu hoped his speculation wasn't true; if it was, every advancement might require finding and consuming some Demon Spirit Gemstones to likely successfully level-up.

Chapter 417 Super Spirit Gemstone of the Old Mine\_2

But something like the Demon Spirit Gemstone is truly a rare find; it's not something you can buy just because you have money.

After wandering around the Black Death City, Li Xiu calculated that it was about time to leave and departed from Black Death City.

After coming out, it was indeed already early morning; there was no one left before the Trial Gate, and Li Xiu quietly left the City of Light.

Li Xiu wore the Light Speed No.2 and flew directly towards that old mine entrance.

The flying speed of Light Speed No.2 easily breaks through the sound barrier, taking little time to reach the old mine entrance.

When Li Xiu arrived at the old mine entrance, he found the mining area was filled with numerous huge pits, some over ten meters, some pits just bottomless, with traces of battles all around.

"Am I really too late?" Li Xiu furrowed his brow as he inspected carefully but felt something was not right.

Although there were traces of battles everywhere, there were no remains of demon spirits, not even bloodstains.

It showed that although conflicts happened here, they were not intense, indicating those demon spirits were somewhat restrained, not fighting to the death here, meaning this was not the place where the Demon Spirit Gemstone appeared.

After observing for a while, Li Xiu came to the edge of a bottomless pit and looked down.

"It should be below." Li Xiu didn't hesitate and directly controlled Light Speed No.2 to fly down.

After descending a few hundred meters, the deep pit reached its bottom, where rock layer caves appeared, and among them, Li Xiu saw some demon spirit corpses.

He followed the trail of the demon spirits' death, navigating the massive rock cave for a while before suddenly noticing a strong red light emission at one location in the cave.

This place was originally a ruby mine, but the ruby had long been almost completely excavated; even if there were still raw ruby stones, they wouldn't radiate such a strong brilliance.

"Could the Super Spirit Gemstone still be here? How could it possibly still be here? Could it be that the demon spirits and humans fighting for the gemstone all perished?" Li Xiu's heart skipped a beat as he hurried towards the direction of the red light.

Soon, Li Xiu saw the source of the red light.

It was a twisted red light cluster, with red light constantly transforming, flowing, and twisting to form an eerie light domain.

"What is this thing?" Li Xiu was limited in his knowledge about the Super Spirit Gemstone, suspected it was within that eerie light domain, yet he didn't understand what exactly this light domain was.

The Super Spirit Gemstone of the demon spirit he obtained didn't have this sort of thing.

Li Xiu scrutinized that eerie light domain, without approaching it hastily, carefully observing its changes.

Inside the bizarre red space, it was filled with demon spirit corpses, with gigantic S-Class Demon Spirits lying dead there, severed or dismembered.

Apart from these deceased demon spirits, there was also one demon spirit and three humans surviving within this eerie red space.

The demon spirit was covered entirely with purple shells, its body emitting terrifying purple light, looking somewhat like a heavily armored human, yet there were no mouth or nose on its face, instead, it bore four eyes.

Four eyes were symmetrically arranged vertically and horizontally, resembling a clover growing on its face, looking like an absurd abstract painting.

Each eye harbored a purple pupil, observing four different directions.

The three humans were two women and one man, the man occupying one direction alone, his body shimmering with golden light, holding a Golden Bow in his hand, with a quiver containing three Golden Arrows on his back.

At this moment, the man was staring intently at the demon spirit, his expression somewhat grave.

On the other side, the two women were Bai Ying and Li Qingyi.

Li Qingyi brandished a cyan shield, with a peculiar snowflake-like light pattern at the center, which was currently flickering with a bizarre white glow.

Bai Ying stood behind Li Qingyi, holding a fan gleaming like jade, which emitted three-color treasure light in red, yellow, and blue.

The four individuals formed a triangle, above them in the sky hovered a red gemstone, roughly the size of an egg.

The red gemstone constantly spread red light, projecting the eerie space into a blood-red hue.

"Li Qingyi, let's join forces to slay this demon spirit first, then decide who will get the Super Spirit Gemstone," Wan Chaoxin suggested, staring at the Super Spirit Gemstone hanging in the air.

"Alright." Li Qingyi also knew under these circumstances, if they continued fighting, neither would acquire the Super Spirit Gemstone.

None of them had anticipated that a Super Spirit demon spirit would be drawn here, and this demon spirit's Super Spirit Limit was extremely high, comparable to her and Wan Chaoxin, leading to a stalemate with neither able to claim the Super Spirit Gemstone.

"Shall we start, or should I?" Wan Chaoxin asked the demon spirit.

"Together," Li Qingyi naturally was unwilling to charge forward alone to battle the demon spirit, and she didn't trust Wan Chaoxin.

"Then let's go." Wan Chaoxin's body erupted with intense golden light, the Golden Bow and Golden Arrow in his hands both gleaming with divine golden radiance.

A bizarre phenomenon occurred; the Golden Bow Wan Chaoxin raised began to undergo an unusual transformation.

The Golden Bow seemed to grow, the bow body continued to widen, not gathering demonic light, but truly growing.

The bow body, initially not as thick as an arm, surprisingly transformed in an instant into golden wings, while the three Golden Arrows on the bowstring merged into one, with the arrowhead morphing into a phoenix head shape.

Chapter 418 Super Spirit Gemstone of the Old Mine\_3

The bow and arrow drawn by Wan Chaoxin resembled a Golden Divine Bird about to take flight, enveloped in his Light Flame, as if transformed into the shadow of the Golden Divine Bird.

There was an unusual transformation on Li Qingyi's side as well. Snowflake Light Patterns on the shield in her hands radiated brilliance, and the shield suddenly disintegrated into countless snowflakes, swirling around and enveloping Li Qingyi.

These snowflakes intertwined to form a suit of Snowflake Armor, wrapping around Li Qingyi entirely, with rising snow light seemingly casting the shadow of a Snow Goddess protecting her.

The Demonic Light on both of them surged frantically. The demonic spirit seemed to sense something, and the four peculiar eyes on its face began to rotate like gears.

With every rotation of the four eyes, the pupils transformed into different shapes, sometimes triangular, sometimes circular, sometimes square, and even hexagram shapes appeared.

As the four eyes rotated, they scrutinized Li Qingyi and Wan Chaoxin, as if assessing something.

"Xiao Ying, step back," Li Qingyi said to Bai Ying behind her.

Bai Ying hurriedly retreated but stopped after only a short distance, for behind her was a blood-red Light Wall, leaving her with no further room to retreat.

"Die!" Wan Chaoxin roared as he released the bowstring drawn to its limit.

The Golden Arrow immediately transformed into a splendid golden bird, dashing towards the demonic spirit with incredible speed.

The demonic spirit's gaze focused, and the pupils in its four eyes simultaneously turned circular. A purple halo appeared in front of the Golden Arrow, blocking it like a grand golden bird.

The Golden Arrow collided with the purple halo and vanished upon entering it, without raising a ripple.

The purple halo disappeared in turn, only to reappear bizarrely behind Wan Chaoxin. The Golden Arrow, as if a golden bird in flight, emerged from the halo and aimed directly at Wan Chaoxin's back.

Wan Chaoxin's expression shifted slightly. He swung his great bow shaped like Golden Wings, forcefully deflecting the Golden Arrow, and he was pushed back several steps before steadying himself.

Li Qingyi seemed to teleport in front of the demonic spirit, with terrifying snow light engulfing her arms and legs, assaulting the demonic spirit like a raging storm.

The pupils in the four eyes of the demonic spirit transformed into triangular shapes, and it raised its hands to block Li Qingyi's attack.

The terrifying snow light on Li Qingyi, with each strike as though shattering ice and snow, was all blocked by the demonic spirit.

At the point of clash, the snow light and triangular beams continuously collided and shattered, momentarily evenly matched.

Buzz!

Wan Chaoxin unleashed another arrow, the Golden Arrow blazing with divine radiance, as if resonating with a thunderous bird cry.

The Golden Arrow almost reached the demonic spirit, when the pupils in the demonic spirit's eyes turned circular again, and a purple halo appeared once more in front of the Golden Arrow.

The Golden Arrow acted like a living golden bird, flapping its wings to trace an eerie curve, bypassing the purple halo to aim at the demonic spirit's head side.

Too close, the demonic spirit could not evade, as it was still parrying Li Qingyi's frontal assault.

The pupils rapidly changed, eventually all turning square.

Bang! Bang!

Li Qingyi's torrential punches seemed to pound upon a cubic prism of purple light, which enveloped the demonic spirit. The Golden Arrow also struck it.

However, the arrowhead of the Golden Arrow, resembling a bird's head, pierced through the purple cube inch by inch.

With each inch the Golden Arrow penetrated, cracks appeared throughout the purple cube.

Seizing the opportunity, Li Qingyi's fists blossomed with brilliance, the light seeming to coalesce on her fists into ice cones.

Bang! Bang!

Punch after punch, the already cracked purple cube was forcefully shattered and obliterated under her barrage.

Unimpeded, the Golden Arrow erupted in a golden divine radiance once more, thrusting towards the demon spirit's chest.

The pupils in the demonic spirit's eyes shifted as it reached a hand towards the Golden Arrow. At the moment of contact, a purple halo appeared in its palm, diverting the Golden Arrow once more.

However, Li Qingyi's punches had already landed. The demonic spirit could not counter with one hand, receiving consecutive hits from Li Qingyi, retreating as its body was bombarded with triangular forms of purple light shattering upon impact.

Bang!

The demonic spirit formed triangular light patterns on its fist, swinging it at Li Qingyi's face. Li Qingyi voluntarily took the hit, letting the demonic spirit's fist strike her face.

The terrifying force merely twisted Li Qingyi's face to the side, only for her to quickly pivot back and land another punch on the demonic spirit's face.

Clad in Snowflake Armor, Li Qingyi faced the demonic spirit directly, trading blows without an ounce of defense. Each punch landed on the opponent.

Killing the enemy is the best defense, though this is true, one must also endure the beating.

Li Qingyi evidently could endure, brawling with the demonic spirit without losing ground.

As Li Qingyi and the demonic spirit brawled, Wan Chaoxin somehow maneuvered behind the demonic spirit. Wielding one end of his bow like Golden Wings, he swung down on the demonic spirit's neck like a headsman's axe.

The demonic spirit, dazed from the exchange with Li Qingyi, failed to notice Wan Chaoxin behind it. By the time it realized, it was too late.

The bow shaped like Golden Wings struck hard on the back of its neck, a burst of terrifying golden light erupted, and the demonic spirit's body crashed down like a meteor, creating a crater upon impact with the ground.

Li Qingyi's long leg swung down fiercely from above, but where the neck carapace of the demonic spirit had shattered, the pupils in its four eyes transformed into hexagrams, and it vanished amidst the glow of a purple hexagram.

Li Qingyi's kick landed on the ground, causing icy radiance to scatter, shattering the rocky surface into fragments that levitated skyward.

Chapter 419 Phoenix Eyes

Li Xiu was observing the red light domain from the outside, but unfortunately, it was all blood red inside, and nothing could be seen.

Suddenly, ripples shimmered in the red light mass, and something drilled out from within.

Li Xiu quickly stepped back, gripping a baton-like Light-Speed Spear, vigilantly eyeing the thing that emerged.

"Demon spirit!" Li Xiu clearly saw what had emerged and was slightly surprised.

With Wan Chaoxin and Li Qingyi vying for the Super Spirit Gemstone, he thought all the demon spirits had already been exterminated.

After all, powerful demon spirits that could rush out of the Trial Gate were rare, and those that could become super spirits were even fewer.

The demon spirit corpses seen along the way were ordinary ones without any quality.

Even S-Class demon spirits, not to mention those without quality, even Radiant Demon Spirits, can hardly contend with Super Spirit Testers.

Now that a demon spirit has rushed out, Li Xiu couldn't help but be on guard.

After emerging, the demon spirit's four eyes immediately locked onto Li Xiu, its pupils constantly changing, seemingly assessing Li Xiu's power.

The Four Saint Pupils was not a super spirit that rushed out from the Trial Gate, but when it was extremely weak, it rushed out of the Trial Gate and grew hidden on Earth until reaching the level of a super spirit, not only with extremely strong abilities but, more importantly, extremely cautious and careful.

Having fought Li Qingyi and Wan Chaoxin, it preferred to retreat rather than desperately compete for the Super Spirit Gemstone, showing that it was not an ordinary low-intelligence demon spirit that only knew how to use brute force.

The Four Saint Pupils swept its four pupils over Li Xiu and relaxed significantly upon seeing him wearing Demon Armor.

It was evidently aware of the Magic Armor Master, having hidden on Earth for so long, though it never dared to show up, it had seen many Magic Armor Masters, and even secretly hunted them.

When it was weak, it was somewhat apprehensive of Magic Armor Masters, but now, unless a large-scale S-Class Magic Armor Master army appeared, a single Magic Armor Master posed no threat to it based on its experience.

All four pupils simultaneously turned triangular, and the Four Saint Pupils' figure moved like a phantom, punching towards Li Xiu.

Li Xiu, seeing the terrifying light flame on the Four Saint Pupils and considering previous speculations, had guessed that it was most likely a super spirit.

As he saw the punch from the Four Saint Pupils coming, with layers of triangular light lines appearing on the fist, it had a futuristic feel.

Li Xiu dared not be careless, his expression grave, his spiritual sense directly crossing the line, activating Light-Speed No. 2 and the Light-Speed Spear, with golden light patterns instantly covering the Demon Armor and gun body.

Seeing the Four Saint Pupils' fist already in front of him, Li Xiu's baton-like Light-Speed Spear braced against the Four Saint Pupils' fist.

The triangular light lines on the Four Saint Pupils' fist flickered, though neither gained advantage, it startled the Four Saint Pupils since the Magic Armor Masters it had hunted in the past were not so strong.

While contemplating the next move, the Four Saint Pupils suddenly felt a stabbing pain in its fist and then in its heart. Looking down, the originally black short rod inexplicably turned into a long spear blazing with golden flames, which had pierced through its fist and heart.

The Four Saint Pupils stared blankly at the Light-Speed Spear burning with golden flames, unable to comprehend how the rod became a spear, and how it pierced its Three-Phase Eye defense so effortlessly.

"Magic Armor Master... this strong?" the Four Saint Pupils wondered blankly.

With a shake of Li Xiu's hand, the spearhead and spear body retracted, returning to the original baton form.

Li Xiu dared not let the Light-Speed Spear and Light-Speed No. 2 operate at full power for long, lest they burn out.

Only then did the Four Saint Pupils regain its senses, its pupils in the four eyes flickered with light patterns, its whole body bristling, ready to roar in rage.

Thud!

Just as the Four Saint Pupils opened its mouth, the Light-Speed Spear suddenly thrust out again with incredible speed, piercing inside its mouth, straight through the throat and neck.

After impaling, the Light-Speed Spear retracted again.

The Four Saint Pupils' body trembled with rage, wanting to risk everything against Li Xiu, but as soon as it moved its toe, the Light-Speed Spear thrust out again, this time directly piercing one of the Four Saint Pupils' eyes.

Each time the Four Saint Pupils attempted to move, the Light-Speed Spear would preemptively strike out. With several successive shots, all four of its eyes were burst, and it fell straight onto the ground.

"This super spirit seems rather weak. The previous super spirit that rushed out of the Golden Gate was much stronger than it." Li Xiu hadn't expected this demon spirit to be killed so easily, suspecting it might not actually be a super spirit.

But upon closely inspecting the Four Saint Pupils' wounds, Li Xiu realized the issue might not be with the super spirit being weak, but rather a problem with the Light-Speed Spear.

The spots on the Four Saint Pupils' body pierced by the Light-Speed Spear quickly turned into red liquid, as if being corroded by some force.

In just a moment, nearly half of the Four Saint Pupils' body had turned into red liquid and continued to evaporate quickly.

This was obviously not a normal state after a demon spirit's death, likely related to the blood-red light on the Light-Speed Spear.

Perhaps when the demon spirit was first struck by the spear, its body was already affected by the Light-Speed Spear's power.

The spearhead of the Light-Speed Spear was fused with the fanatic's peculiar weapon, thereby gaining its characteristics. It seems this effect was the result of the weapon's inherent properties.

Chapter 420 Phoenix Eye\_2

"Thankfully, I wasn't injured by that weapon back then, otherwise it would have been quite miserable." Li Xiu thought to himself in alarm.

He was becoming more and more satisfied with the Light-Speed Spear. Not to mention anything else, this suddenly popping mode was really useful, capable of achieving a surprise effect.

You think you've blocked it, but actually, my spear is longer than you imagined.

Moreover, the speed at which it extends is too fast, truly living up to the name of Light-Speed Spear, making it nearly impossible to guard against.

Seeing the demon spirit turn into a puddle of red liquid, revealing a Demon Core as purple as an eye, Li Xiu suddenly remembered that he seemed to have forgotten to use a tranquilizer bullet.

"The level is too low, I keep forgetting to use it, I have to remember in the future." Li Xiu picked up the Demon Core, and saw that on the four directions of this eye-like Demon Core, there was a pupil-like halo, with lines of triangles, squares, circles, and hexagrams shining and changing within the halo.

"A Super Spirit Level Demon Core, I wonder if feeding it to a Jedi Knight would directly grant a Super Spirit." While Li Xiu was pondering this, he saw two more glowing items revealed in the evaporated portion of the red liquid.

One was a thin purple crystal, clearly a Super Spirit Gemstone, while the other was a ring, which should be a Skill Ring.

"Timing really is everything. I really came at the right time, I picked up a Super Spirit Gemstone and a Skill Ring as soon as I arrived, along with this Demon Core, quite worth the trip." Li Xiu picked up both the Super Spirit Gemstone and the Skill Ring.

Unfortunately, the Demon Armor lacked a storage compartment, so Li Xiu had to take it off, put the Super Spirit Gemstone and the Demon Core into the backpack he brought with him, and used the Skill Ring on the spot.

Soon, the Skill Ring turned into a brand, hidden on Li Xiu's finger.

Four Holy Pupils: Super Spirit Skill, Stage one Super Spirit Limit twenty percent, Stage two Super Spirit Limit forty percent, Stage three Super Spirit Limit sixty percent, Stage four Super Spirit Limit eighty percent.

"Are all Super Spirit Skills this complex? Does this mean without a Super Spirit, you can't use Super Spirit Skills?" Li Xiu attempted to activate the first stage of the Four Holy Pupils.

The next second, purple triangular lines suddenly appeared in Li Xiu's pupils, while the Light Energy in his body was absorbed into his eyes like a tidal wave, almost draining him entirely in an instant, scaring him into immediately stopping the skill.

"Is this a skill or a glutton? The skill wasn't even fully utilized, and I'm almost drained dry." Li Xiu was a bit speechless. This skill seemed very powerful, but his body's Light Energy might not be able to support its use.

"I guess it's better than nothing. After leveling up, it won't be so easy to be drained." Li Xiu dared not try the subsequent stages of the skill, packed up his things, and put on the Light-Speed One again, glanced at the red light domain and walked straight in.

Since the demon spirit could emerge, it indicated that there must be more within the light domain, possibly even that Earth-produced natural Super Spirit Gemstone inside, it couldn't be missed.

Ever since he started raising a bunch of eaters, Li Xiu had become better at living frugally, resolutely not missing any opportunity to collect gemstones.

Within the red light domain, Li Qingyi struck the Golden Divine Arrow with a punch, and like a phantom, dashed to Wan Chaoxin, her whole body seemingly a battle weapon, with fingers, palms, fists, elbows, and knees attacking Wan Chaoxin like a storm.

Bam!

Wan Chaoxin swung the Golden Wings bow to block, but couldn't fully defend himself, as Li Qingyi's flying knee strike hit his chest, knocking him back several meters before coming to a stop.

"Your Super Spirit Limit has increased again?" Wan Chaoxin glanced at the frost forming on his chest in surprise.

"Yes, my Super Spirit Limit has reached ninety-seven percent, two points higher than yours, so you can't win against me." Li Qingyi calmly looked at Wan Chaoxin.

"Deserving of the president's daughter, top of the top in both talent and fortune, it's truly unexpected for the Indestructible Ice Shield to reach a ninety-seven percent Super Spirit Limit." Wan Chaoxin praised.

"So, this Super Spirit Gemstone is mine." Li Qingyi said as she intended to claim the Super Spirit Gemstone.

"Wait, although you're indeed strong, I'm sorry, I must take this Super Spirit Gemstone." Wan Chaoxin straightened his robust body and said calmly.

"Why do you think you can take it?" Li Qingyi paused and asked Wan Chaoxin with a frown.

"Your Indestructible Ice Shield has a ninety-seven percent Super Spirit Limit, while my Golden Phoenix Bow and Phoenix Arrow only have ninety-five percent, indeed inferior. Moreover, after your Indestructible Ice Shield becomes spiritualized, it transforms into the Indestructible Ice Armor, nearly possessing absolute defense, even if my Golden Phoenix Bow had the same Super Spirit Limit as your Indestructible Ice Shield, it couldn't penetrate your Indestructible Ice Armor." Wan Chaoxin explained slowly.

"Wan, since you're aware of this, isn't it a bit presumptuous to still compete with Qingyi for the Super Spirit Gemstone?" Bai Ying, who was watching from the side, sneered.

Wan Chaoxin ignored Bai Ying, staring at Li Qingyi and said, "A high Symbiotic Contract Super Spirit Limit doesn't mean absolute invincibility. Today, I must take this Super Spirit Gemstone, I ask you to allow it."
