

When God 421

Chapter 421 Phoenix Eye_3

"If you have the ability, just take it." Li Qingyi stared at Wan Chaoxin, unlike Bai Ying, she wasn't so naive. She knew Wan Chaoxin must have more tricks up his sleeve; otherwise, he wouldn't say such things.

"Then please excuse me." Wan Chaoxin said coldly, taking something out from his pocket and placing it on his forehead.

It was a golden gemstone, shaped like a marquise, and when Wan Chaoxin placed it on his forehead, it appeared like a vertical eye fixed there.

In the next second, the gemstone on Wan Chaoxin's forehead shone brightly with golden light, and the gemstone itself began to undergo an eerie transformation, gradually turning into a real eye with a golden pupil inside.

"A Super Spirit Parasitic Contract!" Li Qingyi was slightly surprised.

The advancement of a parasitic contract is even more difficult than a symbiotic contract, and Wan Chaosheng actually possessed a Super Spirit Parasitic Device, yet she had never heard of it before.

"This parasitic contract of mine is called the Phoenix Eye, obtained from within the Celestial Gate. If it wasn't for me already having completed a Symbiotic Contract with the Golden Phoenix Bow before that, I would have preferred to choose the Phoenix Eye as my symbiotic contract because it is even stronger than the Golden Phoenix Bow." The Phoenix Eye on Wan Chaoxin's forehead emitted rings of golden halos, eerily staring at Li Qingyi.

"However, I used every means to raise the level of the Phoenix Eye, and now it has become super spirit. Its super spirit limit is higher than that of the Golden Phoenix Bow, just like your Unbreakable Cold Ice Shield, reaching ninety-seven percent. Although it cannot provide invincible defense like your Unbreakable Cold Ice Shield, or offer powerful destructive power like the Golden Phoenix Bow, the ability possessed by the Phoenix Eye is even stronger than both of these. You will be the first to witness the power of the Phoenix Eye." As Wan Chaoxin was speaking, he gripped the Golden Phoenix Bow and stepped towards Li Qingyi.

Li Qingyi remained fearless, her body radiating snow-like light, charging towards Wan Chaoxin once more.

So what if Wan Chaoxin possessed two Super Spirit Contracts? The Golden Phoenix Bow couldn't break through the defense of the Indestructible Ice Armor, nor could the Phoenix Eye. If she didn't even have that much confidence, Li Qingyi wouldn't have needed to enter the battle.

Wan Chaoxin held the Phoenix Bow in one hand, not moving at all, while his other hand directly blocked all of Li Qingyi's attacks with a single hand.

Li Qingyi, like a combat machine, transformed her entire body into a terrifying killing weapon, her strikes pouring down like rain, yet all were completely blocked by Wan Chaoxin with just one hand.

"This... how is this possible..." Bai Ying's face was filled with disbelief.

Li Qingyi's combat abilities were among the top even among the Super Spirit Testers.

This was determined by her character and symbiotic contract; possessing the Unbreakable Cold Ice Shield made it very difficult for Li Qingyi to get hurt in combat.

After the Ice Shield surpassed into a super spirit and became the Indestructible Ice Armor, Li Qingyi became even harder to wound.

Thus, Li Qingyi didn't have to fear getting hurt in battle; she could fully enjoy combat and grow through repeated failures.

Within the Endless Sky, Li Qingyi challenged top-rank fighters in all aspects, from being thoroughly beaten at first to a balanced exchange, and eventually to defeating her opponents. It could be said that Li Qingyi's fighting ability was honed through countless battles.

Someone with such combat ability as Li Qingyi being blocked entirely by one hand of Wan Chaoxin was simply unbelievable.

"After obtaining dual super spirits, Wan Chaoxin has become this strong?" Bai Ying's face was full of disbelief.

With her rich combat experience, Li Qingyi had already guessed the ability of the Phoenix Eye.

Because all her attack paths seemed to be seen through by Wan Chaoxin, no matter how she chose to attack, Wan Chaoxin could intercept her attack before it fully unfolded, striking at her most uncomfortable positions, forcing her to abandon the techniques and switch to others.

Wan Chaoxin seemed like a divine spirit who could foresee the future, seeing through all her actions, which must be the ability granted by the Phoenix Eye.

"If you predict my actions, how will you do that if even I don't know what I want to do?" Li Qingyi's eyes flashed as she suddenly abandoned all tactics, relying solely on beast-like instincts to pounce at Wan Chaoxin.

"As expected of the president's daughter, you've seen through the Phoenix Eye's ability so quickly." Wan Chaoxin smiled and said, "Yes, the Phoenix Eye indeed has predictive abilities, allowing me to predict your behavior patterns. But if you abandon techniques and rely solely on instincts, strength, and speed to break the Phoenix Eye, then you're underestimating it too much."

"Phoenixes are divine spirits, traversing through past and future with each rebirth. The eyes can see through past and future; my Phoenix Eye is not just about predicting your actions, but seeing the future. No matter how you change, no matter what changes you make, all will appear in the future, visible to my Phoenix Eye, so nothing you do will be useful, and will all be seen through by me." Wan Chaoxin spoke while blocking Li Qingyi's wild, beast-like attacks with a single hand.

It was useless, completely useless; all attacks were blocked by Wan Chaoxin's single hand.

Although Li Qingyi didn't believe Wan Chaoxin could truly see any future, she had tried every method, and everything was anticipated by Wan Chaoxin, with all attack techniques interrupted.

Suddenly, Li Qingyi stopped attacking, stepped back two paces, and withdrew from the combat zone.

"I can't break through your Phoenix Eye, but you can't harm me either. You still can't take the Super Spirit Gemstone." Li Qingyi said.

"I told you, don't underestimate the power of the Phoenix Eye, and I also have this." Wan Chaoxin finally moved the hand that held the Golden Phoenix Bow; with his left hand, he raised the Golden Phoenix Bow, and with his right, he pulled out the Golden Arrow, placing it on the bowstring and slowly drawing back the bowstring.

The Phoenix Bow, spreading like wings, gradually opened, and a stream of light appeared on the Phoenix-shaped Golden Arrowhead; the eyes of the Phoenix head seemed to open.

"The Phoenix Eye has a boosting effect on the Golden Phoenix Bow. In the presence of the Phoenix Eye, the Golden Phoenix Bow possesses the power of dual super spirits. Can your Indestructible Ice Armor withstand the power of dual Spirit Breaking? I am quite interested to find out." Wan Chaoxin coldly stared at Li Qingyi; the Golden Phoenix Bow had been drawn to its limit, and the Golden Phoenix Arrow was ready to fly at any moment.

Chapter 422 Speed of Light Defeats the Enemy

"Wan Chaoxin, you win." Li Qingyi sighed.

"As expected of the young lady." Wan Chaoxin smiled as he lowered the bow and arrow in his hand, without actually shooting it, the demonic light on the bow and arrow gradually disappeared.

"Qingyi, how can you admit defeat? His pair of Super Spirit Arrows can definitely only be used a few times, or maybe only once. He can use a double Super Spirit Contract, and you can also use the Super Spirit Demon Spirit. The victory is not yet certain." Bai Ying said defiantly.

Wan Chaoxin glanced disdainfully at Bai Ying: "Everything must meet its cost. Even if I can only shoot one arrow, this arrow may still kill a Super Spirit. If a Super Spirit is killed, obtaining a Super Spirit Gemstone is still not worth it. Only a fool like you would do such a thing, so Li Qingyi deserves my respect as a young lady, and you, are just a fool."

"You..." Bai Ying's face turned livid after being insulted.

"Wan Chaoxin, watch your words. You are strong, but that doesn't give you the right to insult others at will." Li Qingyi said coldly.

Wan Chaoxin said indifferently: "I've always appreciated your abilities, but your heart is too kind. For someone who is to inherit the Longevity Heaven in the future, this is not a good thing. Long ago, when demon spirits descended, the only law left in the world was the survival of the fittest. Yet you still hold onto those humane rules. If you don't awaken as expected, the future of the Longevity Heaven is worrying."

Li Qingyi wanted to say something but suddenly heard a sound, and everyone's attention was drawn over.

They saw someone breaking into the Super Spirit Light Realm of the Super Spirit Gemstone, which surprised them all somewhat.

When they got a clear look at the person, who turned out to be a Magic Armor Master, they all felt a bit surprised.

"I didn't expect there to be a noble Magic Armor Master here, quite surprising." Wan Chaoxin glanced at the Magic Armor Master and said with a cold smile.

Like many of the top Trial Takers of Longevity Heaven, Wan Chaoxin looked down on Magic Armor Masters.

Even though it's the Trial Takers of Longevity Heaven who hold back the Trial Gate and bear the greatest pressure, most people in the world now believe the Magic Armor Masters are the guardians of the world, granting them the greatest honor and fame. Wan Chaoxin disdains this greatly.

Trial Takers with thoughts like Wan Chaoxin are not rare within Longevity Heaven.

Li Xiu glanced around and roughly understood what was happening now. That Super Spirit Gemstone had indeed not been taken yet.

He had no mood to waste words with Wan Chaoxin, nor did he come here to talk nonsense. He didn't want to give Wan Chaoxin the chance to discern his true identity either.

The light patterns lit up on Light-Speed Spear No. 2, and Li Xiu soared straight into the air, flying towards the Super Spirit Gemstone in the sky.

"Do you really think Magic Armor Masters can do whatever they want?" Wan Chaoxin's eyes flashed with anger as he directly raised the Golden Bow and Arrow, entering the Super Spirit State, and aimed the Golden Wings of the bow and arrow at Li Xiu.

"Don't kill anyone." Li Qingyi tried to stop him, but it was already too late. The Golden Phoenix Arrow, with a sharp whistle, shot towards Li Xiu like a golden lightning.

Wan Chaoxin didn't use the Phoenix Eye, he just unleashed a Super Spirit strike with the Golden Bow and Arrow. In his view, there shouldn't be a Magic Armor Master outside Longevity Heaven who can block this Super Spirit Arrow.

Maybe that deity can block it, but there is only one deity in the world.

Wan Chaoxin stood in place, coldly watching Li Xiu in his Demon Armor, waiting for the moment he would be pierced by an arrow.

When he saw Li Xiu actually use his weapon to block the Golden Phoenix Arrow, the corner of his mouth showed a hint of disdain.

However, at the moment the weapon collided with the Golden Phoenix Arrow, it transformed into a golden spear, directly swatting the Golden Phoenix Arrow away, causing Wan Chaoxin to be slightly taken aback.

Seeing the Light-Speed Spear glittering with golden light, Bai Ying and Li Qingyi were also shocked.

While they were still in shock, Li Xiu had already flown to the front of the Super Spirit Gemstone, reaching out to grasp it.

Bang!

Li Xiu only felt a massive force coming from the palm of his hand, forcibly bouncing it off. That energy came from the Super Spirit Gemstone itself, which surprised Li Xiu somewhat.

"Are noble Magic Armor Masters all so ignorant? A natural Super Spirit Gemstone can't be so easily taken away." Wan Chaoxin's lips curled into a cold smile.

As his words fell, Li Xiu reached out again to grab the Super Spirit Gemstone.

Bai Ying couldn't help but shout: "You can't take away the Super Spirit Gemstone, you need to use a special method to retrieve it."

But in the next second, Bai Ying's eyes widened, and both Wan Chaoxin and Li Qingyi felt a bit incredulous.

The Magic Armor Master released golden light patterns from his hand and, after grabbing the Super Spirit Gemstone, forcibly held the Super Spirit Gemstone in his palm.

Red demonic light radiated from the Super Spirit Gemstone, as if desperately resisting, but it was still grasped firmly by that hand.

The surrounding light realm also receded, with the red light returning into the Super Spirit Gemstone.

The first time Li Xiu's hand was bounced away, he already understood what was happening.

The Super Spirit Gemstone has powerful light energy, powerful enough to form a Light Wall. Unless one's own light energy can resonate with the Super Spirit Gemstone, the gemstone cannot be taken away.

To create light energy resonance, using the same attribute of light energy is the simplest, but unfortunately, the light energy of Light-Speed Spear No. 2 is not of the same attribute as this Super Spirit Gemstone, so Li Xiu had to take it by force.

Chapter 423 Light-Speed Defeat_2

The Hand of God disassembles, reorganizes, and compresses various light energy, making it extremely simple to take the Super Spirit Gemstone.

Of course, this doesn't require using the Hand of God; just employing some small tricks along with the powerful light energy of Lightspeed No. 2 can achieve this.

"Where are you from, Magic Armor Master?" Wan Chaoxin stared at Li Xiu and asked, as he had never seen such a Magic Armor Master outside.

Even the Magic Armor Master inside Long-lasting Heaven who have special magic armor cannot easily forcefully take away a natural Super Spirit Gemstone like this Magic Armor Master.

Li Xiu completely ignored him, preparing to leave with the Super Spirit Gemstone.

Seeing Li Xiu ignoring him, Wan Chaoxin's face became cold, and he raised the Golden Bow and Arrow once again, while the Phoenix Eye at his forehead emitted Super Spirit powers again.

Terrifying energy gathered on the Golden Bow and Arrow, and the arrow tip, like Phoenix's opening eyes, aimed at Li Xiu's back.

Li Xiu held the Light-Speed Spear in one hand and the Super Spirit Gemstone in the other, showing no intention of turning back, and continued walking towards the exit.

Even Li Qingyi felt that this Magic Armor Master was a bit too arrogant but still spoke up, "Magic Armor Master, that's not yours. Put it down, or you may face disaster."

However, Li Qingyi's words did not make the Magic Armor Master turn back; he continued to walk out on his own.

"These years, Magic Armor Masters have been overpraised, thinking they can act recklessly above the Trial Taker. It's time to make them wake up, to see the true master of this world." Wan Chaoxin's gaze turned cold, and as his fingers loosened, the golden threads on the bowstring launched the Golden Arrow.

The Golden Arrow emitted a phoenix cry, its glow like fire, transforming into a burning golden phoenix that rushed towards Li Xiu's back in an instant.

This arrow carried the dual Super Spirit powers of the Golden Bow and Arrow and the Phoenix Eye, possessing strength beyond measure. Even Li Qingyi, who had the Unbreakable Cold Ice Shield, would not dare to face this arrow directly.

Li Xiu still did not turn back, swinging the gun with one hand, the body of the Light-Speed Spear surged with golden flames. The entire spear burned with intense golden glow, and in Li Xiu's hand, it spun rapidly like a golden glowing magic dragon, with a red light on the spear tip like the magic dragon's blood eye.

Bang!

The Golden Arrow collided with the Light-Speed Spear in the air, resembling a dragon and phoenix vying for glory, the explosion illuminating the surrounding stone walls with dazzling golden light, blasting them into pieces.

Earlier, the protective light domain from the Super Spirit Gemstone had prevented significant impact on the underground cave during the battle. Now, without the protection of the light domain, the underground cave began to collapse under this blow.

After the collision of two terrifying forces, the golden phoenix arrow, like a fiery phoenix, was deflected by the spear's glow and flew to the side, crashing into the rock at the cave's ceiling, triggering a more terrifying collapse.

And Li Xiu's serpent-like rotating spear glow did not miss, violently rushing towards Wan Chaoxin behind him.

In shock, Wan Chaoxin quickly dodged, simultaneously wielding the Golden Phoenix Bow to block the spear glow.

The Golden Phoenix Bow collided with the spear glow, unexpectedly jolted out of his hand, causing Wan Chaoxin to stagger back several steps, his palms splitting open, blood staining his involuntarily trembling hands red.

Wan Chaoxin looked incredulously at the back disappearing in the falling rocks. Such a terrifying Magic Armor Master, he had never encountered in his life.

Even within Long-lasting Heaven, it might be hard to find such a terrifying Magic Armor Master.

Li Qingyi and Bai Ying were even more shocked, a single spear breaking through the dual Super Spirit powers of the Golden Arrow, even knocking away the Golden Phoenix Bow. What kind of terrifying light energy was this? Since when has a Magic Armor Master become so terrifying?

However, the collapsing cave had no time for them to think further. Li Qingyi dragged Bai Ying, blasting through the falling rocks to rush out of the cave.

Wan Chaoxin also gritted his teeth and rushed out of the cave, and when they reached outside, the Magic Armor Master was nowhere to be seen.

Boom!

The entire mine field suddenly collapsed downward, forming a massive pit like an earthquake had just occurred.

"That Magic Armor Master..." Li Qingyi and Bai Ying sat on the back of a large green bird, their gaze sweeping around but did not spot the Magic Armor Master's figure.

"Can a Magic Armor Master be so strong?" Bai Ying looked confused, as her impression was that Magic Armor Masters were not so strong.

Even the strongest Magic Armor Master within Long-lasting Heaven couldn't possibly push Wan Chaoxin to such a state with just one spear, a complete defeat.

Wan Chaoxin stood on a nearby hillside, his expression changing unpredictably, doubting the origin of the Magic Armor Master.

He couldn't believe such a Magic Armor Master would come from outside Long-lasting Heaven. If this were truly a Magic Armor Master from Long-lasting Heaven, he would have to consider why he had never known such a Magic Armor Master before, and why they suddenly appeared at this moment, snatching the Super Spirit Gemstone he was determined to obtain even at the expense of exposing the Phoenix Eye.

Li Xiu, far away from the old mine entrance, looked at the Light-Speed Spear still emitting white smoke in his hand and smiled bitterly to himself: "After returning, I'll be reprimanded by the old officer again. Fortunately, the Light-Speed Spear and Lightspeed No. 2 are separate; otherwise, the situation of Lightspeed No. 2 might be worse."

Wan Chaoxin's arrow was too strong, forcing Li Xiu to fully power the Light-Speed Spear, even pushing it into overload.

Even so, if it were a direct confrontation, the overloaded magic light of the Light-Speed Spear would still be inferior. Achieving such an effect was due to Li Xiu utilizing special techniques.

Chapter 424 Breaking the Enemy at the Speed of Light_3

The Golden Arrow was actually deflected by the spinning Light-Speed Spear and didn't directly collide, so it didn't consume much energy. Hence, the Light-Speed Spear could continue to even send the Golden Phoenix Bow flying, making it seem unstoppable.

"The Super Spirit Tester still has some skills. I hope the damage to the Light-Speed Spear isn't too severe and can be repaired." Li Xiu quietly returned to the City of Light, not daring to let anyone see him. Seizing the moment when there was no one around, he used gemstones repeatedly to generate an entrance ticket outside the gate, and only then did he enter.

His power alone was still unable to counter Changsheng Heaven. Without absolute certainty, he didn't want to tear apart relations with Changsheng Heaven.

Moreover, he wasn't alone anymore, and he couldn't let the entire City of Light fall into great danger because of him.

This time, the harvest was undoubtedly huge: two Super Spirit Gemstones, one Super Spirit Skill, and one Super Spirit Demon Core.

However, the Light-Speed Spear had a slight issue due to overload, and it's uncertain if it can be repaired; we'll only know after Ximen Guan examines it.

"I wonder how many Super Spirit Testers like Wan Chaoxin exist within Changsheng Heaven. If entering Changsheng Heaven could offer more opportunities and intelligence, then it's worth a try." Li Xiu had already mastered the way to deal with Blood Seal Stone. If he could infiltrate the core of Changsheng Heaven, he could easily gain a lot of information about the Testers, rather than fumbling alone as he did now.

Human development over thousands of years has relied on generational accumulation of knowledge; learning from others is nothing to be ashamed of. Li Xiu was somewhat tempted.

"It seems like I need to make a trip to Red Sand City and have a good chat with the Red Sand City Lord. What exactly is his status within Changsheng Heaven?" Li Xiu silently pondered.

But before seeking out the Red Sand City Lord, Li Xiu planned to first visit White Night City to check whether the Suihou Bead mentioned by Tree Face truly existed.

After resting for a while in Black Death City, Li Xiu then walked out and went directly to Ximen Guan's laboratory.

"You... You... You're such a waster..." Old Guan looked at the Light-Speed Spear in front of him, his face turning green with dismay.

How long had it been since he went out? The freshly made Light-Speed Spear was already in such a state.

"Old Guan, don't rush to curse. See what this is." Li Xiu placed a Super Spirit Gemstone in front of Ximen Guan.

"Super Spirit Gemstone... What's the use... If the Light-Speed Spear is ruined, one Super Spirit Gemstone isn't enough to compensate..." Ximen Guan still wanted to curse, but then he saw Li Xiu take out a Demon Core.

"Is this... a Super Spirit Demon Core?" Ximen Guan paused. He knew Li Xiu wanted to seize a Super Spirit Gemstone, but was puzzled by the appearance of yet another Demon Core.

"And this." Li Xiu then brought out the red natural Super Spirit Gemstone.

"Another Super Spirit Gemstone! Where did you get this?" Ximen Guan's expression quickly changed from cloudy to sunny, holding the Super Spirit Gemstone and Demon Core, his smile couldn't be concealed.

"Isn't this snatched with blood and sweat? Even had a fight with that Wan Chaoxin from Changsheng Heaven in the process. That guy was indeed formidable, but with Light-Speed Number Two and Light-Speed Spear in hand, how could I fear him? A mere Tester, how could he withstand our advanced Demon Armor? I cut him viciously, leaving him dumbfounded, and reclaimed the Super Spirit Gemstone, also dispatching a Super Spirit Demon Spirit and took its Demon Core along with the Super Spirit Gemstone. I must say, Old Guan, your Demon Armor's creation is incredible, absolutely invincible." Li Xiu gave Ximen Guan a thumbs-up, offering three consecutive praises.

"Of course, mere Testers can't compare with the Demon Armor I created. This Demon Armor is just trash; wait until my complete Demon Armor set is finished, even those Super Spirit Testers and Super Spirit Demons won't stand a chance..." Ximen Guan's eyes were nearly protruding from his forehead, his smile wide.

"The battle was too intense, causing some damage to the Light-Speed Spear. I'm sorry, Old Guan." Li Xiu said apologetically.

"It's no big deal. If it's broken, it's broken. Just repair it, and if not, make another. A gun is no big deal," Ximen Guan said generously, thinking Li Xiu was going to give him the Super Spirit Gemstone and Demon Core, not caring about such trivial losses.

"Now I'm relieved. You check to see if this Light-Speed Spear can be repaired, and if possible, do try to repair it. Your laboratory isn't easy; let's not waste." Li Xiu said.

"Don't worry, leave it to me," Ximen Guan said laughing.

"Old Guan, you're really reliable, so I'm off now." Li Xiu said, with a big wave of his hand, swept away the two Super Spirit Gemstones and Demon Core from the table. Before Ximen Guan could react, he had already stepped out of the office and disappeared in a flash.

"You... You bastard... Leave the Super Spirit Gemstone and Demon Core..." Ximen Guan, after celebrating for half a day, found all the items were taken by Li Xiu, leaving him almost faint with anger.

By the time Ximen Guan chased to the laboratory door, Li Xiu had long vanished, leaving him stamping his feet in fury.

Li Xiu couldn't help it; he needed these items for the Jedi Knight's super spirit use, and couldn't give them to Ximen Guan now.

Even if the Jedi Knight couldn't use two Super Spirit Gemstones, he could give them to Demigod Shana.

Li Xiu now understood that the truly useful combat force had to be super spirit, anything less was trash, as their combat power was on another level entirely.

Currently, those with the best chance of achieving super spirit under his command were the Jedi Knight and Demigod Shana; first push the Jedi Knight to super spirit, and then elevate Demigod Shana. With two great super spirits by his side, he'd have support when heading to Changsheng Heaven.

Returning to his room, Li Xiu placed two Super Spirit Gemstones and the Demon Core on the table and summoned the Jedi Knight.

"Come, my unparalleled little treasure, choose and eat whichever you want, become super spirit for me." Li Xiu commanded the Jedi Knight.

The Jedi Knight glanced at the two Super Spirit Gemstones and one Super Spirit Demon Core on the table and surprisingly grabbed the Demon Core first and swallowed it.

After swallowing the Super Spirit Demon Core, the Jedi Knight closed its eyes and waited for a moment, then suddenly opened its eyes and grabbed the super spirit gemstone from the Four Saint's pupil and swallowed it directly.

Boom!

Red light exploded from the Jedi Knight, instantly enveloping its entire body in a fiery glow. The glow nearly became tangible, like a red glowing eggshell, encapsulating the Jedi Knight.

Chapter 425 Super Spirit State

This time, the Super Spirit State obviously lasted much longer, not as quick as when leveling up before. Li Xiu waited for quite a while, still seeing no signs of the red fluorescence weakening.

"Husband... I'm hungry..." As Li Xiu was waiting for the Jedi Knight's Super Spirit to manifest, the bride-to-be floated out on her own again.

Only then did Li Xiu remember that he had promised to give the bride-to-be a Ruby to eat once he returned.

Fortunately, some of the Rubies he had exchanged for earlier were still left, so he took some Rubies out of the safe, casually placing them on the table for the bride-to-be to eat at her leisure.

Li Xiu continued to focus on the Jedi Knight. He had never seen what the Super Spirit was all about, and now was a perfect opportunity to observe and study it closely. Maybe he could gain some insights for his own future Super Spirit transformation.

While observing, Li Xiu suddenly felt something amiss.

How did the red light in the room become a bit peculiar, as if the red glow was growing brighter?

"No, this red glow isn't coming from the Jedi Knight," Li Xiu realized something and immediately turned his head, seeing that, indeed, the bride-to-be was the one emanating the red glow.

"The bride-to-be is only E-level, eating a few Rubies and leveling up is normal," Li Xiu glanced at the Rubies on the table and his expression changed dramatically.

The Rubies on the table were all there, but the Super Spirit Gemstone he had placed on the table earlier was gone.

"Seriously, did you eat my Super Spirit Gemstone?" Li Xiu hurriedly looked towards the bride-to-be.

It's not that he didn't want to nurture the bride-to-be. After all, she was his only Aurora Demon Spirit at the moment, and nurturing her was necessary.

However, for these initial small levels, regular Gemstones would suffice to upgrade, and there was no need to waste a Super Spirit Gemstone, which could be used when stepping into a Super Spirit State later. It seemed a bit wasteful to consume it now.

Though a bit wasteful, what's done is done, and Li Xiu wasn't one to dwell on such things.

But Li Xiu was worried that the bride-to-be might not handle the Super Spirit Gemstone's energy. She was merely an E-level little demon, and the Gemstone's energy was enormous for her. Li Xiu feared she might burst from it.

Apart from the Jedi Knight possessed by the Evil Parasite and the Demigod Shana, no other demon spirit could consume a large amount of Light Energy at once, as there were limits.

Like the Masked Emperor, Li Xiu had never left its spirit tank empty, always filling it up, but it couldn't digest the energy itself, leading to a very slow upgrade.

With the bride-to-be enveloped in radiant light flames, Li Xiu truly feared she might explode on the spot — the Super Spirit Gemstone gone, and his only Aurora Demon Spirit would be lost, becoming a total loss.

The red light flames on the bride-to-be grew even more vibrant, almost matching the fluorescent light emanating from the Jedi Knight.

Although both were red Demonic Lights, the Jedi Knight's glow leaned towards pink, appearing very bright and lively.

The glow on the bride-to-be, however, was a pure red, vivid yet not vulgar, graceful yet not coquettish, profoundly elegant, exuding a regal and noble beauty.

The two different shades of red Demonic Light illuminated the entire room brilliantly.

Fortunately, Li Xiu's room had a special design, and the windows had been specially treated, preventing light from leaking; otherwise, others might think this place had turned into a red-light district.

During past spirit upgrade processes, the speed was extremely fast, but the bride-to-be remained shrouded in red Demonic Light, with no signs of the Demonic Light dissipating.

Even if anxious, Li Xiu had no choice but to wait beside her, just hoping the bride-to-be wouldn't explode.

The bride-to-be hadn't completed her upgrade yet, when changes started occurring with the Jedi Knight. The fluorescent eggshell-like Demonic Light around him finally began to recede.

When the shape of the Jedi Knight gradually became visible, Li Xiu noticed considerable differences from before, marking unprecedented changes with any previous upgrades.

His armor, seemingly like fluorescent blood crystals, wasn't too different, but the shape of the armor had undergone a significant transformation.

If the previous armor was a bulky warrior suit, now it resembled an insect's carapace, directly connected to his flesh, as if it grew from his being.

Moreover, the previous armor had many connecting gaps; now, aside from some joint areas, the armor was nearly one complete piece.

The Jedi Knight now looked like a monstrous samurai wrapped in vivid fluorescent carapace, with a slender physique free of excess weight, exuding explosive power, and a wild yet bewitching momentum.

More terrifyingly, the original single blade had now turned into dual blades, with the monstrous Jedi Knight wielding a Fluorescent Samurai Sword in each hand, the intense glow like glowing hot iron, radiant and fierce.

"This design is just outrageous!" Li Xiu couldn't think of any other descriptive word for the Jedi Knight's current appearance.

Looking at him now, this guy really seemed like a mutated extraterrestrial killer.

Just as Li Xiu was about to check out the Jedi Knight's new attributes, the fluorescence on the Jedi Knight suddenly dimmed, rapidly changing shape until it reverted to its former S-level appearance, with the dual blades turning back into a single blade.

Li Xiu was slightly taken aback, but quickly realized that Old Blade and Wan Chaoxin didn't maintain the Super Spirit State continuously either. They likely entered the state only when using it.

Chapter 426 Super Spirit State_2

Jedi Knight: Evolvable magical spirit.

Level: S.

Super Spirit Limit: One percent.

Quality: None.

Talent Skills: Blood Light Slash, Desperate Realm, Martial Spirit, Unrivaled National Hero, Jedi Knight.

After looking at the current resources of the Jedi Knight, Li Xiu was slightly taken aback. The level was still S, which meant that super spirit was not a level above S, but a kind of ability or state.

In reality, those super spirits were still at S level, just equipped with super spiritual abilities.

"I finally have a clearer understanding of super spirit. The Jedi Knight's super spirit limit is only one percent, which surely isn't his true strength. This implies that the super spirit limit, like the primordial embryo quality, can be improved. I just don't know if the energy of the Demon Core and gemstones can boost the super spirit limit, or if it has to be a Super Spirit Gemstone to enhance the super spirit limit," Li Xiu mused silently.

While Li Xiu was pondering, the bride-to-be on the other side seemed to have completed her evolution. The red glow on her body was also starting to recede.

"As long as there's no eruption, it's fine." Li Xiu breathed a sigh of relief. In the end, nothing was wasted.

After the red light flame had fully receded, Li Xiu noticed that apart from the wedding dress being a bit more gorgeous, the bride-to-be didn't seem much changed and hurriedly checked her information.

Bride-to-be: Evolvable magical spirit.

Level: B.

Quality: Aurora.

Talent Skill: Wedding Dress.

Li Xiu was full of questions. He thought that the massive energy from the Super Spirit Gemstone should be enough for the bride-to-be to ascend to level S, but she only reached level B.

However, this wasn't important. Why did the B-level bride-to-be not awaken additional talent skills and only have one Wedding Dress talent skill?

"What's going on?" Li Xiu felt like his Super Spirit Gemstone was wasted. Aside from the level increase, the bride-to-be didn't seem to get any special enhancements.

"Is this all the Aurora Demon Spirit has to offer?" Li Xiu was in disbelief.

"Thank you, my lord... I'm full..." The bride-to-be gracefully bowed and transformed into a Demon Spirit Ring, returning to Li Xiu's finger.

Li Xiu was at a loss. Since the Super Spirit Gemstone was already consumed, he could only accept this result.

"Never mind, it's just one Super Spirit Gemstone. Now that the Jedi Knight has been elevated to super spirit, I'll just need to slay more super spirits in the future, and the Super Spirit Gemstones will be abundant," Li Xiu consoled himself.

After putting the Jedi Knight away, Li Xiu called A Fei and Chu Jun over to handle some recent matters at the City Lord's Mansion.

Although A Fei and Chu Jun managed most of the work, some issues still required Li Xiu's decision and signature.

"A Fei, I need to talk to you, don't leave yet." After resolving the matters, Li Xiu stopped A Fei, who was about to leave. Chu Jun winked at Li Xiu, left first, and closed the door on the way out.

"What is it?" A Fei looked at Li Xiu and asked.

"In a while, I plan to use the Red Sand City Lord's connections to enter the Immortal Heaven. Would you like to go to the Immortal Heaven with me?" Li Xiu asked A Fei.

The Trial Gate at Immortal Heaven is rich in resources, and at that time, entering some new Land of Trial would be best with reliable people around.

It would be ideal if Chu Jun could go, but he was a member of the Chu Family from White Night City and possibly its future helmsman. Given his status, it wasn't suitable to take him to Immortal Heaven as it might cause trouble and even risk losing his position as the Chu Family's successor. Thus, Li Xiu asked A Fei.

Even though A Fei didn't possess inspiration skills, she did have the Abstention Skill, which could solve many problems when needed.

But if A Fei was unwilling to go, Li Xiu wouldn't force her.

"If you need me, I'll go," A Fei said calmly.

"Alright, let's decide that. You prepare first, and when I get to the Immortal Heaven, if conditions allow, I'll bring you along." Li Xiu was somewhat moved.

A Fei knew about the Blood Seal Stone incident, yet she didn't even ask, a level of trust not common among people.

Li Xiu handed the Demon Spirit Ring from the S-level great serpent to A Fei: "Take this, you'll find it useful when we head to Immortal Heaven."

Since Li Xiu wanted A Fei to accompany him to Immortal Heaven, he naturally wanted her to have self-protection abilities, or else she would be a burden given her current level.

A Fei didn't refuse and directly used the Demon Spirit Ring.

After the Demon Spirit Ring completed a contract with A Fei, she looked somewhat surprised at Li Xiu and asked, "A Radiant Demon Spirit of S-level? Aren't you using it for yourself?"

"I have something better. The Jedi Knight has gone super spirit, far stronger than that," Li Xiu shared some information about super spirit with A Fei, helping her to mentally prepare.

"So you're saying that after I achieve super spirit, I'll have a chance to personally avenge against God?" A Fei's eyes brightened as she spoke.

"In theory, you should have a chance, but before that, you must figure out which God is your enemy," Li Xiu coughed lightly and said.

"I know." A Fei nodded. After the previous incident with the fake God, she became more composed.

"It's been tough for you recently. Go back and rest. If you find suitable candidates, you can find them to help you. You don't have to do everything yourself." By saying this, Li Xiu was essentially telling A Fei that she could establish her own trusted team in the City of Light.

Chapter 427 Super Spirit State_3

"I know, I'm heading back now." A Fei didn't react much, just responded and pushed the door open to leave Li Xiu's office.

"Are all the people around me so laid-back?" Li Xiu internally chuckled wryly.

Li Xiu was planning to call Chu Jun to discuss going to White Night City, but before he could make the call, Chu Jun already came over.

Just as Li Xiu was about to say something, he noticed there was someone behind Chu Jun, a young man around twenty years old.

When the young man saw Li Xiu, his eyes lit up instantly, and he quickly walked to the desk, grabbing Li Xiu's hands with excitement, saying eagerly, "Hello, idol! I'm your fan. My name is Xiao Er, a Trial Taker. Could you take me as your apprentice and teach me magic spirit control skills?"

Li Xiu tried to pull his hand back twice from Xiao Er's grip but couldn't, so he looked at Chu Jun as if to say, "Who is this? Why did you bring him here?"

"Xiao Er, please calm down first. City Lord, let me introduce you. This is Xiao Er, the second young master of Mr. Xiao from Desha Group, an excellent Trial Taker, who greatly admires you. Mr. Xiao is a major client of our White Night City, and Young Master Xiao Er is also our VIP guest. He approached me to express his admiration for you, and I thought Young Master Xiao Er was very sincere and also a talented individual, so I couldn't bear to let you miss out on each other, and that's why I brought him to see you," Chu Jun explained.

"Young Master Chu, you overpraise me. Compared to the City Lord, I'm nothing." Xiao Er realized he was being a bit too forward and promptly let go, saying, "City Lord, I apologize. This matter is unrelated to Young Master Chu; I just really wanted to meet you and forced him to bring me here."

Li Xiu smiled, "Young Master Xiao Er, you're too kind. If you weren't worth meeting, no matter how much you forced him, he wouldn't have brought you here. Since he did, it shows you are someone worth meeting."

"City Lord, since you think I'm worth meeting, would you please take me as your apprentice?" Xiao Er candidly asked again.

Li Xiu looked at Chu Jun, who gave him a slight nod, giving Li Xiu some assurance.

"Young Master Xiao Er, why do you want to take me as your master?" Li Xiu asked, looking at Xiao Er.

"Because of that unprecedented and unmatched Black Death Demon army command battle you performed. I was in the stands and had the privilege to witness your extraordinary magic spirit control skills. I've never seen such a powerful control ability in my life. If the comparison is purely on control, you are undoubtedly the strongest Trial Taker," Xiao Er said frankly, though the flattery was a bit excessive.

"If you're just looking to learn spirit control, we can exchange experiences and insights; taking an apprenticeship would be too formal," Li Xiu replied.

"No, no, no, only when we're on par can it be called an exchange. I'm worlds apart from you, so you mustn't use the word exchange. Please, you must take me as your apprentice, and I'm willing to pay any price," Xiao Er said sincerely.

"Since Young Master Xiao Er is so earnest, I'll be straightforward. You can learn from me, no need for formal apprenticeship, but there is a tuition fee, and it's this amount per year." Li Xiu held up one finger.

Xiao Er looked at the finger Li Xiu held up and, slightly troubled, said, "Teacher, you might not know, but because I spend too much, my family now only gives me a fixed amount of pocket money each year. I really can't afford such high tuition, could you lower it a bit?"

"On Chu Jun's account, I'll halve it, but no lower," Li Xiu thought Xiao Er was honest, and with Chu Jun's endorsement, he could earn some private money, so why not?

A tuition of 500,000 a year isn't minimal, though it's just teaching some seemingly basic magic spirit control skills according to Li Xiu, which doesn't take much time.

As for whether Xiao Er can learn it, that's his own concern.

"Thank you, teacher. Let's settle it then. Give me your account number, and I'll transfer the 50 million to you right away." Once again, Xiao Er shook Li Xiu's hand excitedly.

Li Xiu was momentarily stunned hearing the number 50 million, thinking, "This guy can't be talking about Red Sand currency, can he? But I was referring to White Night currency. 50 million Red Sand currency is barely 200,000 White Night currency, that's more than 300,000 less."

"Forget it, consider it a favor for Chu Jun," Li Xiu thought it wasn't a big deal, so he handed Xiao Er his account information.

"Teacher, for this 50 million space currency, should I exchange it for Red Sand currency and transfer it to you, or send space currency directly?" Xiao Er asked.

Li Xiu nearly choked on his own saliva. It turned out the guy was talking about space currency, which was way more valuable than White Night currency.

"Ahem, space currency is fine, no need for the hassle," Li Xiu coughed lightly, sat down, took a sip from his teacup, and with feigned indifference, said, "Young Master Xiao Er, what level of Trial Taker are you now, and what type of magic spirit do you have?"

"Teacher, I just upgraded to S-level not long ago. It would be best for you to inspect my magic spirit yourself, as it's a bit cramped here, making it difficult to show. If you have time, we can go to a square, and I'll summon the spirits for you to see," Xiao Er promptly replied.

"Ahem! Cough, cough!" Li Xiu choked on the tea he just swallowed, taking several moments to recover, looking at Xiao Er with a peculiar expression and thinking, "Is this guy really here to learn? Isn't he here to show off? An S-level Trial Taker coming here, spending a fortune to learn from me, a D-level Trial Taker as his teacher? Is he out of his mind?"

"Young Master Xiao Er, do you know what level I am as a Trial Taker?" Li Xiu asked, looking at Xiao Er.

"I don't know, teacher. It doesn't matter what level you are. I'm not here to learn how to upgrade or anything else, just to learn your magic spirit control skills, nothing else. I can handle those myself," Xiao Er straightforwardly answered.

"That's good." Li Xiu nodded slightly. This Xiao Er was a person of conviction and ideas, not just a spendthrift with nowhere to squander his money.

Chapter 428 Xiao 2

"Chu Jun, who exactly is this Xiao Er?" Li Xiu asked Chu Jun after Xiao Er left.

Chu Jun replied seriously, "You might not have heard of the Desha Group, but you probably have heard of Dream Diamond, right?"

"You mean the Dream Diamond with diamond stores all over the world?" Li Xiu exclaimed in surprise.

"Dream Diamond is just one of the companies under the Desha Group. In the Hetai Federation, which has the largest reserves of diamonds, more than eighty percent of the diamond mines are controlled by the Desha Group. The Xiao Family is the actual ruler of the Desha Group. Although Xiao Er isn't the true heir of the Xiao Family, you absolutely shouldn't underestimate him." Chu Jun explained briefly about Xiao Er's background.

"The Xiao Family's wealth is so vast that even if he isn't the heir, just a small part of it would be enough for ordinary people to strive for generations," Li Xiu laughed.

Chu Jun shook his head and said, "The reason I brought Xiao Er here isn't because of the Xiao Family, but because of Xiao Er himself. He and I could be considered extremes. I want to become a Magic Armor Master but lack the talent, while he has the talent but doesn't want to be one, choosing to walk the path of a Trial Taker instead. Honestly, I'm a bit envious; the heavens have truly favored him. His Magic Armor Master talent tested at an S-level when he was young, but he chose not to pursue it and became a Trial Taker, excelling there as well, and is now an S-level Trial Taker, nicknamed 'Little Monster'.

"People vary greatly. Some are smart from a young age, picking things up in an instant. Others don't learn quickly, not because they're dumb, but because they haven't yet had a breakthrough. Having an early breakthrough gives an advantage, but it doesn't mean those who breakthrough later are worthless," Li Xiu replied.

Chu Jun laughed and jested, "I'm not as slow as those you described."

"Of course not. I've already reached D-level; when will you advance to C-level?" Li Xiu laughed.

"No rush, I want to take my time and savor some things thoroughly." Chu Nan paused before continuing, "The Desha Group has deep cooperative ties with our White Night City, and the Chu and Xiao families are quite close. So I know a bit about Xiao Er; he's very rebellious. However, if you can genuinely win his respect, he'd be a worthy friend. Don't be fooled by today's politeness; it means he doesn't truly recognize you yet. He's giving you all that money to show it's purely an exchange of interests."

"So he's flaunting by deliberately giving me so much money," Li Xiu chuckled, "But I don't mind if he wants to act high and mighty. I'd rather take the money than deal with those who are both pretentious and greedy."

"True, someone like Xiao Er is quite decent compared to some family members who act saintly yet don't spare a bone for the poor, their mouths bloody," Chu Jun laughed.

"By the way, there's something I need to tell you. If possible, could you accompany me to White Night City?" Li Xiu told Chu Jun about the Vase Monster and the Suihou Bead.

Chu Jun listened and asked, "Are you sure the Rolling Dragon Slope the Vase Monster mentioned is the Good Luck Slope south of White Night City now?"

"I've compared it carefully, and it should be the spot," Li Xiu noticed something off in Chu Jun's expression.

"That's troublesome. If you wanted to go somewhere else, I could arrange it. But going to Good Luck Slope is tricky. The owner there is mysterious, and even I don't know much. My father specifically warned me not to disturb those living there and advised not to have any interaction, but he didn't say why," Chu Jun said with difficulty.

"So even if there is a Suihou Bead, it must already belong to someone," Li Xiu said with some disappointment.

Such a mysterious individual living at Rolling Dragon Slope, yet not a member of the Chu Family, is already suspicious.

"Don't rush; I'll find time to ask my father and get some details," Chu Jun said.

"Alright." Li Xiu nodded, determined that if he couldn't rely on Chu Jun to gain access, he would personally visit the owner of Good Luck Slope.

But he'd wait for Chu Jun to inquire first. Meanwhile, with nothing pressing, he could deal with Xiao Er, as he couldn't take the money for nothing. Xiao Er wasn't truly extravagant, and after spending so much, he would certainly not let the matter rest without some results.

After handling matters at the City Lord's Mansion, Li Xiu arranged for Xiao Er to attend a class with him in the afternoon.

In the afternoon, Xiao Er arrived as promised, and Li Xiu led him to a newly constructed indoor arena at the Demon Spirit Arena.

The Demon Spirit Arena was under continuous expansion. The second tournament would be much larger, with more varied events to include everything.

"Teacher, do you need to see my demon spirits first?" Xiao Er asked.

"Sure, summon all your demon spirits." Li Xiu was curious to see what kind of demon spirits other Trial Takers had.

Although Li Xiu anticipated that Xiao Er's demon spirits would be numerous and of good quality...

He was still surprised when Xiao Er summoned all his demon spirits.

Chapter 429 Xiao 2_2

This is not some demon spirit; it's practically a small legion.

There are ten identical knights, ten identical sword and shield soldiers, spearmen, and archers, along with some special demon spirits that seem very high quality, including some with Radiant Quality.

Adding up these demon spirits, their number is probably sixty or seventy, yet Li Xiu doesn't see that many Demon Spirit Rings on Xiao Er's fingers.

"Teacher, all my demon spirits are here. The highest level ones are this Divine Wind Eagle and this Thunderbolt Divine Soldier, both are Radiant S-Class..." Xiao Er simply introduced his demon spirits one by one.

"You've collected so many different types of demon spirits to form a Demon Spirit Legion, right?" Li Xiu observed the spirits and asked.

"Exactly, but I don't have the ability to finely control all the demon spirits in battle. Not to mention sixty or seventy, even a few spirits can't be controlled as intricately as you do. Teacher, how do you manage that?" Xiao Er asked the most critical question right away, showing his strong purpose.

Li Xiu did not answer Xiao Er's question but continued to ask, "Since you want to form a Demon Spirit Legion for combat, why didn't you first level up the legion spirits, but instead upgraded the Divine Wind Eagle and Thunderbolt Divine Soldier to S-Class?"

"As a commander, the first priority is to stay alive. If I'm dead, what use is a strong legion? The Divine Wind Eagle is my mount, and the Thunderbolt Divine Soldier enhances my fighting ability; it's all to ensure my own survival," answered Xiao Er.

Li Xiu nodded slightly, "Good thinking."

"Please advise me, teacher." Xiao Er said respectfully.

"If you can ensure your safety, meaning you already have the ability to defeat the enemy, why do you need this legion?" Li Xiu asked with a smile.

Xiao Er immediately replied, "Surviving and defeating the enemy are not the same concept. Teacher, please don't confuse the two. What I want to learn from you is demon spirit control, not how to choose which spirits to strengthen or how to win."

"Alright, since you think so, I'll first teach you demon spirit control. Here is a chessboard with some pieces; the rules are like this..." Li Xiu explained, pointing at the chessboard and pieces he prepared.

"Kongming Chess, I could complete it when I was five," Xiao Er interrupted before Li Xiu could finish, calmly saying, "This trains calculation skills, which aren't closely related to multi-line control. I have undergone a lot of training in this aspect, so my basics should be fine. Please teach me something deeper, teacher."

Li Xiu looked at Xiao Er, thinking, "This Xiao Er is really not easy to deal with. Five million won't be easy to earn."

"Teacher, I really want to learn your multi-line control. Please make sure to teach me well," Xiao Er said earnestly.

"Alright, it seems your foundation is solid. We'll start directly with demon spirit control." Li Xiu said somewhat frustratedly.

Xiao Er wants to learn multi-demon spirit control, but that requires strong spiritual sense. How should I teach Xiao Er? There's currently no way to enhance spiritual sense, otherwise there wouldn't be the saying of Destiny for the Magic Armor Masters.

"Thank you, teacher." Xiao Er gazed directly at Li Xiu, seeming to convey, "I'm not to be taken lightly, teacher; you better teach well."

"Put away all your demon spirits, just leave one," said Li Xiu.

Xiao Er recalled all his spirits, leaving only one Sword and Shield Soldier.

Only then did Li Xiu realize that Xiao Er removed most of the Demon Spirit Rings from his fingers and stored them in his pocket, leaving only one ring per finger.

"Teacher, what should I do next?" Xiao Er asked, staring intently at Li Xiu.

"Follow my lead." Li Xiu summoned a Black Death Demon, then had it perform a set of Military Boxing.

Xiao Er immediately had the Sword and Shield Soldier put down its weapons and perform the exact same set of Military Boxing with precision.

"Teacher, what's next?" Xiao Er asked, looking at Li Xiu.

"Do it again." Li Xiu sat on a nearby bench, picked up a prepared teapot, and poured himself a cup.

"I don't think it's necessary. This basic control I have practiced countless times, doing it ten or a hundred more times will be the same, I won't make a single mistake," Xiao Er said confidently.

"Are you the teacher, or am I? Why don't you teach me instead?" Li Xiu put down the teacup and said.

"Of course, you are the teacher... but..." Xiao Er wanted to say more, but was interrupted by Li Xiu.

"No 'but,' if you want to learn from me, just do as I say, or I'll refund your money, and you can find someone better," Li Xiu said.

"Alright, then I'll listen to you, teacher." Xiao Er controlled the Sword and Shield Soldier to perform the Military Boxing again.

"Exactly the same?" Li Xiu asked.

"Exactly the same," Xiao Er replied.

"Then keep at it," Li Xiu said with leisure.

"Teacher, how many more times do I have to do it?" Xiao Er asked with a frown.

Li Xiu held up one finger, Xiao Er nodded, "Once more, and then I'll be done..."

Chapter 430 Xiao Er_3

"No, I mean keep practicing until you can see the difference," Li Xiu said.

"This..." Xiao Er was a bit dumbfounded.

"Alright, practice on your own, and come find me when you can see the difference." Li Xiu stood up and left.

"This guy... is he messing with me?" Xiao Er was skeptical. He really couldn't figure out the difference between the Military Boxing performed by his Sword and Shield Soldier and the one performed by Li Xiu's Black Death Demon.

For several days in a row, Xiao Er kept practicing Military Boxing with the Sword and Shield Soldier, but he still couldn't see any difference between the two.

Every time Li Xiu came, he would demonstrate the Legion Fist with the Black Death Demon and then watch Xiao Er do the same with the Sword and Shield Soldier. Afterward, he wouldn't say a word and just told Xiao Er to keep practicing before leaving.

At first, Xiao Er felt confident that there was nothing wrong, and that his Military Boxing was exactly the same, not a hair's breadth difference.

However, as Li Xiu continued to tell him to look carefully and think clearly, his confidence started to waver after many attempts: "I spent fifty million to have him teach me, no matter how greedy he is, he should teach me something. Surely he wouldn't really deceive me like this? Is there truly a difference that I haven't discovered?"

Xiao Er opened his phone and watched the video of Li Xiu demonstrating Military Boxing with the Black Death Demon again. He wasn't foolish; he recorded during Li Xiu's second demonstration and each demonstration thereafter.

He compared the videos and performed Military Boxing once again with the Sword and Shield Soldier, but still couldn't see any difference.

After leaving the indoor venue, Li Xiu went to see Chu Jun, who said he had gathered information about Good Luck Slope.

"The situation over at Good Luck Slope might be a little complicated," Chu Jun said helplessly.

"What's going on?" Li Xiu asked hurriedly.

"I asked the old man from my family. At first, he didn't want to say anything, but later, when I pressured him, he reluctantly disclosed a little bit. He still doesn't know the background of the family living at Good Luck Slope, but back when the people from Long-life Heaven came to White Night City and wanted the

Chu Family to join them, it was the owner of Good Luck Slope who chased the Long-life Heaven people away." Chu Jun explained the details.

Developing White Night City has been quite difficult.

Like Space City, the territorial range of White Night City lacks abundant Gemstone resources, so it's considered a very barren place. Decades ago, no one thought much of White Night City, which is why it had no choice but to embark on the Magic Armor Manufacturing path.

However, as Magic Armor technology progressed, White Night City gradually gained momentum. There was a time when Long-life Heaven people came to White Night City, intending to have the city's ruler then, who is now the old man of the Chu Family, join Long-life Heaven.

The Chu Family's old man was naturally unwilling to surrender his hard-won domain to others.

But as it turned out, the person from Long-life Heaven easily defeated all of White Night City's Magic Armor Masters with just one set of Demon Armor, and it was a crushing defeat with a significant gap in skill.

The situation was dire when the Chu Family's old man, for the sake of his family's legacy, was about to negotiate terms to join Long-life Heaven. Yet at that time, someone found him and offered to help drive away the Long-life Heaven people, asking only for Rolling Dragon Slope, which is now known as Good Luck Slope.

"The old man didn't have much faith in that person back then, but there was no other choice, so he treated a dead horse as if it were alive and agreed to give Rolling Dragon Slope to that person. Later, that person did indeed help us drive away the Long-life Heaven people, and since then, no one from Long-life Heaven has bothered us again," Chu Jun said with a smile. "Since then, the Chu Family truly began to soar, and now, in the Magic Armor Manufacturing Industry, it's second only to Space City."

"How did that person manage to drive away Long-life Heaven's people?" Li Xiu asked, intrigued. Given the power of Long-life Heaven, it seemed impossible for them to be driven away so easily, and for them to ignore such a juicy piece of land like White Night City for so many years seemed unbelievable.

"You might not believe it, but after the old man agreed to the person's conditions, he just had the old man bring some paper and a pen and then wrote a word for the old man to show the people from Long-life Heaven. After seeing it, their expressions changed drastically, and they left without saying a word, never to return," Chu Jun said with a bitter smile. "When I heard the old man tell this story, it felt like hearing a tale, but the old man wouldn't joke about this sort of thing—the story has to be real."

"What word did he write?" Li Xiu asked thoughtfully.

"Just a simple word 'spirit,' not a special name or symbol. That word is still hanging in the old man's study. I used to see it often when I was a kid and thought it was some famous person's calligraphy, never imagining its incredible power, enough to make Long-life Heaven retreat," Chu Jun said.

"Such a person, I rather want to meet him. What does the old man say, can we go see him?" Li Xiu asked.

"You can try. If the owner is willing to open the door and let you in, then you can go and take a look, but you'll need to follow their house rules. If they don't open the door, you absolutely can't force your way in."

"Alright then, get ready, and we'll go to Good Luck Slope and try our luck."

"I've already arranged everything I had to handle, nothing much to prepare, we can leave anytime," Chu Jun paused, looking at Li Xiu and asking, "Do you need to explain anything to Xiao Er?"

"Nothing much to explain, just let him continue practicing," Li Xiu said with a smile.

"Honestly, what's the difference between his manipulation and yours? He came to me two days ago, showed me your video and his video, and I couldn't see any difference. Where exactly is he lacking?" Chu Jun asked curiously.

"Who said he's lacking?" Li Xiu countered.

"Then why make him practice that thing over and over?" Chu Jun asked, puzzled.

"There's nothing to teach him for now, so let him practice first. Once I figure out what to teach him, we'll start officially," Li Xiu said.

"You can do that? You're really something," Chu Jun said, wide-eyed.

"I have no choice; he's too talented. I can't think of anything to teach him at the moment. But since he paid so much money, I can't let him just wait around, so I'd let him practice for now to pass the time," Li Xiu spread his hands.

"Alas, poor Xiao Er," Chu Jun said, unable to suppress a bitter smile.
