

When God 621

Chapter 621: Pig Farm_2

Strands of Ultimate Light seeped into Old Dao's body, flowing towards the junction of the Light Veins within him, eventually converging into a single point, gradually illuminating that knotted spot.

Having been on the brink of exhaustion, Old Dao suddenly opened his eyes, looking incredulously at Li Xiu.

"Old Dao, your journey is one only you can continue on, nobody can walk it for you," Li Xiu said as he infused his Ultimate Light into Old Dao's body, "Since you know that the sword feels lonely, then keep accompanying it further. There is only one Demonic Sword in the world and only one Old Dao. No one can replace you, and no one else can gain its recognition, for no one can ever treat it like you do."

Old Dao looked at Li Xiu with a complex expression, opening his mouth to say something, but Li Xiu continued, "Whether you choose life or death is within your grasp. If you want to live, then fight a battle more. Let me assist you in the Light Foundation Establishment, allowing you to continue wielding the Demonic Sword..."

Old Dao nodded slightly and closed his eyes, silently activating the Light Condensation Technique that hadn't been used for a long time.

Even Old Dao's Light Condensation Technique had been modified by him, not for his own use, but to be used by the Demonic Sword. This modified technique differed from those used by humans.

"Your technique is off. Listen to me and follow my instructions." Li Xiu slowly explained the Unspoken Weird Technique, elucidating as he spoke.

Old Dao began to condense Light Energy according to the methods of the Unspoken Weird Technique, and slowly, the Light Seed Li Xiu desperately tried to ignite started to shine with distinct brilliance.

But Old Dao was too weak, the Light Energy within his body was pathetically sparse. Despite their efforts, the Light Seed remained difficult to form.

Li Xiu was drenched in sweat, his body almost exhausted of Ultimate Light, even drawing upon the Forbidden Spear and Evil Spirit Token's Light Energy, yet still unable to ignite the Light Seed. The moment Li Xiu's Ultimate Light ceased, the Light Seed would instantly extinguish, and Old Dao would surely perish.

Just as Li Xiu thought disaster was imminent, he suddenly heard the sound of a sword reverberating. The Demonic Sword embedded in Weng City unexpectedly flew back on its own, piercing straight into Old Dao's chest.

Boom!

The terrifying Demonic Light surged forth, causing the Light Seed in Old Dao's body to blaze brightly, like a burning fireball.

Li Xiu was greatly astounded; the Demonic Sword had become entirely autonomous, no longer under Old Dao's control. Once Old Dao died, it would be completely free. He never expected it to use its Demonic Light to aid Old Dao.

"Slow down... Don't be too intense... Old Dao's body can't withstand such violent Light Energy..." Li Xiu shouted at the Demonic Sword, uncertain if it could understand his words.

Amazingly, the Demonic Sword seemed to comprehend Li Xiu's plea, and the torrent of Demonic Light weakened considerably, working in concert with Li Xiu's Ultimate Light, gradually refining the Light Seed into a pristine, translucent gem, resembling a black diamond.

Li Xiu breathed a sigh of relief, withdrew his fingers from Old Dao's forehead, and slumped to the ground in exhaustion, gasping while watching Old Dao.

Old Dao's complexion gradually improved; though still gaunt, his skin started to exhibit a sheen.

"Succeeded." Li Xiu noticed the increasing strength of Light Energy within Old Dao, astonishingly beginning to directly condense Light Veins.

The Light Energy for condensing his Light Veins naturally originated from the Demonic Sword.

Li Xiu couldn't help but sigh inwardly, "Observe how this bond understands repaying its master, while you lot merely leech my blood like parasitic wastrels."

Unaware of how much time had passed, the Demonic Light on Old Dao intensified, nearly solidifying. Seeing the magnitude of Light Energy in him, it likely surpassed the Light Veins gathered by Jing Li.

"Such a pity." Old Dao opened his eyes, looked at Li Xiu and sighed.

"What's the matter?" Li Xiu asked quizzically, unsure of Old Dao's meaning, and fearing something had gone awry.

"Originally, I thought I'd leave my Demonic Sword to you, but now this old man can live for several more decades, I'll have to keep this old partner to myself," Old Dao chuckled.

"You can keep that piece of junk for yourself," Li Xiu chuckled too.

The Demonic Sword promptly rose, its blade vibrating furiously directed at Li Xiu, ready to pierce his chest at any moment, evidently incensed by Li Xiu calling it junk.

Old Dao gripped the hilt, withdrawing the Demonic Sword.

"This old life counts as salvaged, and old injuries are almost healed." Old Dao patted Li Xiu's shoulder and said, "If Li Changyin causes trouble for you again, don't come running to me. I still want to keep this life and live it well."

Li Xiu couldn't help but raise a middle finger at him, not out of genuine anger.

He understood Old Dao's sentiment; previously, Old Dao feared no threats from Li Changyin using the Blood Seal Stone against him, because he was already close to death, having nothing to fear.

Now things were different; if Li Changyin threatened him with the Blood Seal Stone again, Old Dao would be caught in a dilemma.

Thus, unless absolutely necessary, those circumstances should be avoided.

"Li Changyin now surely believes you're near death, so there might indeed be an opportunity to reclaim the Blood Seal Stone," Li Xiu pondered aloud.

"It depends on your methods then; I'm not suited to intervene," Old Dao remarked.

"I'll think of a way once I'm out," Li Xiu said, "but before that, I must first raise my level. C-class is really too low; at least Super Spirit would suffice." Suddenly remembering something, he eyed Old Dao and asked, "How many Light Veins have you condensed?"

Chapter 622: Pig Farm_3

"All twenty-eight Light Veins have fully condensed." The old knife replied smugly.

"The light energy of the Devil Knife is so powerful?" Li Xiu was taken aback.

"For this old buddy of mine, it's nothing special. Are you regretting not inheriting this old buddy of mine?" The old knife chuckled.

"I still trust my own strength more. Is there a place within the Tianmen for advancing in level?" Li Xiu asked.

"There is, but it's better to attend trials in the Trial Ground for leveling up." The old knife pondered.

"Do you think I can go out now?" Li Xiu shrugged helplessly.

"With Li Changyin's personality, he's probably already set up a trap outside Tianmen. If you go out, you might not survive." The old knife thought for a moment before saying, "Since you can't go out, you'll have to find a way here. There is a place that can help you level up."

"What place?" Li Xiu asked eagerly.

"I call it the Pig Farm." The old knife smiled warmly.

After Li Xiu came out, he left with Sha Chu and the other two.

"Where are we going?" Jiuxiao Yun asked, following Li Xiu.

"Finding a place to level up a bit." Li Xiu said casually.

"Level up what, I can upgrade my Light Base anytime, what I lack now are things to increase my Super Spirit Limit... How about helping me with Condensing Vein first..." Jiuxiao Yun said gloomily.

"I'll help you with Condensing Vein once I reach S level." Li Xiu replied casually.

"You'll help me with Condensing Vein? Wasn't it supposed to be Jing Li? You're not even a Light Base, how can you light the lamp for me?" Jiuxiao Yun looked puzzled.

"Who do you think lit the lamp for Jing Li?" Li Xiu said.

Jiuxiao Yun was momentarily stunned and then looked incredulously at Jing Li and asked, "Old Jing, was it him who lit your lamp?"

"That's right, it was the Commander who lit my lamp." Jing Li nodded.

Jiuxiao Yun's expression became even stranger, still somewhat in disbelief, he looked at Li Xiu and asked, "Didn't your Light Planting Technique say only Light Base level can light the lamp for people?"

"Did you know that the Light Planting Technique was something I developed?" Li Xiu smiled.

Jiuxiao Yun was left speechless, and after a moment, with a grin all over, said, "Commander, how do you plan to level up? Do you need my help?"

"No need for help, just make sure you don't run first if we encounter magical spirits." Li Xiu said casually.

The four of them soon arrived at a collapsed palace site, where amidst the ruins, there was a large hole.

Inside the hole, it was so dark that it seemed bottomless, and no one knew where it led.

"What is this place?" Jiuxiao Yun hadn't heard of such a place.

"The old knife said this is the Pig Farm." Li Xiu observed the hole and said.

"Pig Farm?" The three of them were all taken aback.

"Yes, Pig Farm. Inside, at intervals, gemstones that can enhance Primordial Embryo Quality appear, and they never run out, it's like someone is feeding the pigs at intervals, so the old knife calls it the Pig Farm." Li Xiu replied.

"There is actually such a place? Where do those gemstones come from? Could it be bait created by the magical spirits?" Jiuxiao Yun could hardly believe it.

"Who knows, anyway, I don't mind. If you care, you can stay outside." Li Xiu said and jumped directly down.

Sha Chu and Jing Li also followed Li Xiu without hesitation, and after hesitating for a moment, Jiuxiao Yun gritted his teeth and jumped in as well.

This bottomless-looking pit caused Li Xiu and his group to keep descending, but their speed of descent gradually slowed, as if an invisible force was holding them.

After more than half an hour, the four of them finally reached the bottom of the pit, their bodies gently landing on a jade-like ground.

Looking up, the entrance appeared as small as a needle, no one could tell how high this mysterious place was.

The four of them weren't interested in this matter, as they had all noticed the ground littered with colorful gemstones.

"Wow... Rubies the size of ping-pong balls... Emeralds the size of soaps... This thing that looks like an ostrich egg, could it be a sapphire... Are these gemstones real? How can there be Earth gemstones in the Demon Kingdom..." Jiuxiao Yun's eyes were fixed.

It wasn't just him, Li Xiu and Sha Chu also had gleaming eyes, but no one dared to pick up any of the gemstones on the ground.

"Commander, can we take these gemstones?" Jiuxiao Yun looked at Li Xiu.

Li Xiu contemplated, "The old knife said we could take these gemstones, but..."

Before Li Xiu could finish speaking, Jiuxiao Yun, who was listening, had already picked up the ping-pong-ball-sized ruby from the ground.

As soon as he picked up the ruby, it suddenly emitted a strange red glow, and Jiuxiao Yun screamed as he threw the ruby out of his hands.

His palms were already charred and the flesh on his palms was scorched.

"You tricked me!" Jiuxiao Yun's lips trembled in pain.

Li Xiu shook his head and said, "You should have let me finish. I was saying that the gemstones can be taken, but they are a little different from those on Earth. The gemstones contain a massive amount of unstable light energy, once triggered, the light energy inside will explode."

Li Xiu summoned the Forbidden Spear, pointing it at Jiuxiao Yun's hand, "Want me to help you treat it?"

"How will you treat it, break my hand?" Jiuxiao Yun hurriedly dodged the gun's muzzle.

"How can you think of me like that? The bullets of my spear have healing abilities, want to try?" Li Xiu said.

"Forget it, I'll treat it myself." Jiuxiao Yun took out an emerald-like leaf and placed it on his scorched palm, and surprisingly, the burnt flesh began to heal.

"The light energy inside these gemstones is so unstable, it's like a bomb, there's no way to absorb the light energy inside, so what use is it?" Jiuxiao Yun grumbled as he healed.

Chapter 623: Frenzied Promotion

"If it were that easy to use these gemstones, there wouldn't be any left in the pig farm, it would probably be packed with people every day." Li Xiu looked around and said.

The cave was like a large cylinder, with similar diameters at the top and bottom, surrounded by stone walls that resembled natural jade, and there were no portals or other passages leading elsewhere.

"How exactly can we take these gemstones away?" Jiuxiao Yun asked while treating his injuries.

"They can't be taken, nor can they be touched. You can only choose a gemstone that matches your attribute and absorb the light energy it emits." Li Xiu reiterated the method told to him by Old Dao.

"How is this any different from guarding a reservoir but having to wait for water to drip from a tap to drink?" Jiuxiao Yun was very frustrated after hearing Li Xiu's method.

The method Li Xiu provided wasn't ineffective, but for a Trial Taker of Jiuxiao Yun's level, the benefits brought by that little bit of gemstone light energy were too minimal; it was better to participate in trials directly.

"Let's make do with it. We can't get out now and don't know other places that can enhance our Primordial Embryo Quality. We can only proceed slowly here. Although the light energy emitted by the gemstones here is limited, it can still enhance the Primordial Embryo Quality. If you think it's slow, you can experiment; maybe you could find a way to directly absorb the light energy from the gemstones." Li Xiu suggested.

"How could these unstable gemstones allow for direct absorption of their light energy? Even the demon spirits wouldn't consume such things. It's like drinking; a little can invigorate blood and be beneficial, but no one can withstand pouring tons directly into their belly." Jiuxiao Yun expressed his frustration.

After observing for a moment, Jing Li said, "These gemstones look similar to the ones on Earth, but there are differences. They shouldn't be real Earth gemstones."

"No matter what they are, such a slight overflow of light energy might be useful for low-level Trial Takers like you, but for an advanced Trial Taker like me, it's useless. I won't keep you company, I'm going to check elsewhere." As Jiuxiao Yun spoke, he summoned the Demon Shark, mounted it, and ascended along the stone wall, disappearing in no time.

Li Xiu looked at Jing Li and said, "You don't need to worry about us here. Old Dao mentioned not many know about this place, and the demon spirits won't come here. If there's somewhere you want to go, feel free to go."

"Alright, this place indeed only suits nurturing pigs." Jing Li said and leapt up, walking along the mountain wall, leaving quickly.

"What do you mean by that? If you look down on it, just say so. Who are you insulting?" Li Xiu felt frustrated inside.

"I think this place is quite good. Although it's slow, it's better than taking risks elsewhere." Sha Chu said while sitting down beside a gemstone.

In fact, even if Sha Chu didn't sit next to the gemstone, her body would still be exposed to the light energy, gradually getting enhanced.

On Earth, gemstones generally don't emit light themselves. They mostly reflect light sources, and only some containing radioactive substances glowing.

These gemstones all emit light on their own, similar to radiation, but this radiation enhances the physique in positive ways instead of causing harm.

In reality, if a glowing gemstone is discovered, it's best to stay far away and not touch it heedlessly.

The pig farm has dozens of gemstones, with the largest almost the size of a brick, and the smallest comparable to a marble. If they were on Earth, any of them could be sold at an exorbitant price.

Unfortunately, these gemstones can't be touched or taken out.

Li Xiu actually didn't think much of the overflowing light energy from these gemstones either. As Jiuxiao Yun mentioned, basking in gemstone light to strengthen one's body is slower compared to trial participation.

The reason Li Xiu was willing to stay was, on one hand, due to a lack of better-suited places, and on the other, he wanted to research these gemstones, hoping to discover a way to stably absorb their internal light energy.

Li Xiu approached the smallest gemstone, a marble-sized Fanta Gemstone.

Fanta Gemstone is a type of garnet, different from ordinary red garnet. Fanta Stone is vibrant orange, similar to the color of Fanta soda.

Garnets themselves are quite inexpensive, and Fanta Stone is relatively more expensive compared to garnets, but still cheaper than rubies and such.

This Fanta Stone looked no different from Earth's, with the same appearance and texture, except it emits light on its own, clearly allowing one to feel the light energy fluctuations, a trait Earth gemstones do not have.

After observing for a while, Li Xiu extended his palm near the Fanta Stone, quietly using the Super Spirit Technique Bottle Suction.

Light patterns appeared on his palm, and the light energy within the Fanta Stone seemed to be attracted, flowing toward Li Xiu's palm.

However, this distance absorption of light energy was not enough to offset the consumption of Bottle Suction. Li Xiu had to move his palm closer to the Fanta Stone, eventually placing it directly on top of it.

The unstable light energy within the Fanta Stone surged out, and Li Xiu utilized the Hand of God to deconstruct and reorganize that light energy, absorbing it into his body using Bottle Suction, then using Light Planting Technique to plant the light energy at the intersection of the Light Veins, allowing it to flow along them.

Chapter 624: Crazy Promotion_2

Li Xiu did this not to condense the Light Vein, but used it as a transmission channel, using the Light Vein to transmit Light Energy throughout his body, enhancing himself and obtaining higher Primordial Embryo Quality.

If energy does not stay and condense in the Light Vein, it won't truly form a Light Vein, it's just clearing a channel.

Li Xiu discovered that when Light Energy is transmitted along the path of the Light Vein Map for the first time, it is very slow, but once transmitted, the next time it goes faster.

The Light Vein is like a clogged river channel, once Light Energy passes through it, it is equivalent to clearing the channel, making subsequent passages smoother.

Crack!

Soon, the Fanta Gemstone under his finger suddenly shattered, no longer glowing, indicating the Light Energy inside had been consumed.

"What's going on?" Sha Chu looked at Li Xiu, surprised after seeing the broken Fanta Gemstone and asked.

"I have a way to directly absorb the Light Energy inside these Gemstones, but this method can only be used by me and requires special skills." Li Xiu explained casually.

"Why are you explaining to me?" Sha Chu said blinking her eyes.

"Nothing." Li Xiu had no mood to chat with Sha Chu now; he needed to solve some problems quickly.

Although this method can absorb the Light Energy inside the Gemstones, the intermediate stage consumes too much.

The Light Energy consumed by Bottle Suction is more than what he absorbs, with most of it wasted.

Li Xiu moved to another Gemstone, starting to absorb Light Energy again to enhance his body.

Li Xiu tried to control Bottle Suction as much as possible, he didn't need such intense absorption; if he could control Bottle Suction freely, reducing its suction power would also reduce consumption, making it easier for Li Xiu to manage the absorbed Light Energy.

But skills are fixed, unlike techniques Li Xiu controls, which can be manipulated freely, to master the skill freely he needs to first break down Bottle Suction and transform it.

In fact, this is what Li Xiu always wanted to do, turning skills into techniques is crucial.

Techniques can be used anytime, but skills cannot.

Previously, Li Xiu didn't have enough Light Energy to experiment, but this pig farm suited his research.

Through constant experimentation and research, Li Xiu's Primordial Embryo Quality reached its peak, unexpectedly smoothly advancing to Level B, without encountering previous barriers.

"It seems these Gemstones have some connection with Earth's Gemstones." Li Xiu was delighted, checking his attributes, and noticing changes beyond the Primordial Embryo Quality enhancement, even the Talent Skill had some variations.

Both the Ultimate Light and Evil Spirit Token suffix had some changes, but no new skills appeared.

Forbidden Spear now included an additional skill called The Seventh Great Taboo Refusal.

Li Xiu didn't have time to study the skill issues now, continuing to absorb Gemstone Light Energy to research Bottle Suction.

The Light Energy contained within the pig farm's Gemstones was indeed strong, but unstable; Li Xiu continually absorbed Light Energy to strengthen himself, clearing his body's Light Veins several times, advancing smoothly to Level A.

The pig farm's Gemstones were mostly gone now; except for leaving one for Sha Chu, Li Xiu absorbed all the others. Bottle Suction couldn't be truly mastered yet, his Primordial Embryo Quality is still some distance from Level S.

"Old Dao said every few days, new Gemstones would be dropped, let's wait and see." Li Xiu had no other place to go, so he stayed here waiting.

Seeing there's no movement from Sha Chu, Li Xiu thought and said to Sha Chu: "Well, since we're idle, let me help you with Light Foundation Establishment."

"Okay." Sha Chu hadn't actively sought Li Xiu for Light Foundation Establishment, and now that Li Xiu proactively proposed it, she accepted silently without saying much.

Li Xiu first explained "Zi Bu Yu's Weird and Godly Technique" to Sha Chu; currently, "Zi Bu Yu's Weird and Godly Technique" is most compatible with Light Planting Technique, making it the top-level Vein Condensation Technique.

Li Xiu generously shared the Light Condensation Technique, but worried that with more people cultivating "Zi Bu Yu's Weird and Godly Technique," it would lead to uniform results, making the Vein Condensation Technique single.

With only two or three people practicing now, there's no need to worry too much; moreover, Li Xiu faintly felt, although everyone practices "Zi Bu Yu's Weird and Godly Technique," what Old Dao and Jing Li developed seemed different.

Sha Chu was innately intelligent, quickly memorizing "Zi Bu Yu's Weird and Godly Technique" and various key points Li Xiu spoke of.

"Alright, now I will start Light Foundation Establishment for you, don't be nervous, just follow what I say, and there should not be any accidents." Li Xiu extended a finger, pressing onto Sha Chu's forehead, the Ultimate Light activated, transforming into threads of light entering Sha Chu's body.

This time, Light Foundation Establishment was much easier than before, possibly because he had advanced to Level A, making the Ultimate Light much stronger. In just moments, he illuminated the Light Seed within Sha Chu.

Li Xiu just felt a bit exhausted, not as debilitated as before.

Sha Chu began cultivating "Zi Bu Yu's Weird and Godly Technique," she lacked the level and advanced Symbiotic Contract assistance of Jing Li and Old Dao, making her cultivation pace slower; even condensing the first Light Vein took a significant amount of time, requiring resource support, it might not be accomplished quickly.

Chapter 625: Crazy Promotion_3

Li Xiu was observing Sha Chu's cultivation, and suddenly saw a flicker of light. Looking up, he saw colorful light spots descending from above, indicating that the gemstone release time old Dao mentioned had arrived.

Indeed, before long, those colorful light spots gradually grew larger and slowly fell to the ground as gemstones.

Li Xiu looked at those gemstones, feeling somewhat puzzled.

These gemstones were obviously dropped from the opening above, but who could be dropping them from the opening?

Above was just a ruin without any sign of living creatures. How could someone drop gemstones from above, and why put them here?

Old Dao mentioned that when they discovered this place previously, they had investigated but found no creatures nearby. Every time the gemstones seemed to appear out of thin air, as if randomly dropped.

Moreover, Li Xiu noticed that the sizes, shapes, and types of gemstones appearing this time were identical to those he absorbed last time.

The gemstone left for Sha Chu last time disappeared into thin air just before the new gemstones were dropped.

"It's indeed a strange place," Li Xiu thought. Unable to comprehend it, he decided to ignore it for now and continued researching his Absorption Technique.

With the Absorption Technique, Li Xiu found a shortcut to upgrade, successfully advancing to S-level amidst the accumulation of abundant gemstone light energy.

Li Xiu: Trial Taker.

Level: S.

Quality: Extreme Light.

Primordial Embryo Quality: 32.

Talent Skill: Ultimate Light (100%), Twin Souls (Evil Spirit Transformation), The Seventh Great Taboo No Killing, The Seventh Great Taboo Immortality, The Seventh Great Taboo Unlucky, The Seventh Great Taboo Refusal, The Seventh Great Taboo No Sacrifice, The Seventh Great Taboo Not Seek.

Symbiotic Contract: Evil Spirit Token, Forbidden Spear.

The S-level Forbidden Spear has six talent skills, but the Evil Spirit Token still only has one talent skill, with no significant changes.

Now was not the time to study skills. Li Xiu continued to absorb the remaining gemstones, aiming to boost his Primordial Embryo Quality.

As far as Li Xiu knew, the S-level Primordial Embryo Quality could double. He was currently at 32, and the S-level peak could reach 64.

To achieve Super Spirit, Super Spirit Gemstones are needed, but Super Spirit would not increase the upper limit of Primordial Embryo Quality. Only after Light Base is upgraded would the upper limit of Primordial Embryo Quality increase again.

After absorbing most of the gemstones, Li Xiu's Primordial Embryo Quality only rose to over forty, still far from the S-level peak.

He originally thought it would be several days before the third round of gemstones were released, yet less than a day later, more gemstones suddenly fell.

This time the released gemstones were identical in quantity, quality, shape, and size to the previous two rounds.

This made Li Xiu somewhat suspicious. Could these gemstones be artificially created, otherwise, how could they possibly be identical?

On Earth, it's difficult to find two completely identical natural gemstones, especially such large ones.

Li Xiu previously heard old Dao say that usually, it would take several days before a round of gemstones were released. Why was this gemstone release time much earlier than old Dao said?

Li Xiu considered a rather unfavorable possibility. Could the creature releasing the gemstones have noticed that the gemstones below were almost depleted, hence releasing them early?

Just like feeding pigs, seeing the pig food running low, new food is added.

No one before Li Xiu could absorb gemstone energy in this way, so the time for new gemstone releases was much longer. Now that Li Xiu absorbed the gemstones, they were released faster.

Li Xiu looked up at the needle-like opening yet found nothing.

Having found nothing, Li Xiu continued absorbing the gemstone light energy, becoming increasingly adept at controlling Bottle Suction and integrating it well with the Hand of God.

Light energy was absorbed into his body, transmitted along the pathways of light veins, continuously strengthening his body.

Suddenly, Li Xiu felt a tremor throughout his body, a strange energy spread inside him, akin to having eaten a Life Fruit, indescribably comfortable, with bizarre information rushing into his mind.

"Oh, the Super Spirit Skill has changed?" Li Xiu was surprised, noticing that the Bottle Suction information had altered.

Super Bottle Suction: Super Spirit Skill, capable of absorbing light energy for personal use.

"Skills can actually change?" Li Xiu was surprised, finding Bottle Suction easier to use, unlike before when it was difficult to control, and its absorption and transformation capabilities became more powerful.

Li Xiu used Super Bottle Suction to absorb gemstone light energy and found a significant improvement in conversion rate, with less expenditure in the process.

"This is much more convenient; no need for deliberate control," Li Xiu quickly brought his Primordial Embryo Quality to the full state of 64, leaving seven gemstones on the ground.

No longer able to improve his Primordial Embryo Quality, further absorption would only be wasteful. Li Xiu stopped, allowing Sha Chu to enjoy a light energy bath.

"What's wrong?" Sha Chu noticed Li Xiu stopped, also ceasing cultivation, looking at Li Xiu and asked.

"My Primordial Embryo Quality has reached the S-level full value; these things are no longer useful for me," Li Xiu said.

"You've advanced to S-level!" Sha Chu looked at Li Xiu with a complex expression and asked, finding it exceedingly fast.

Li Xiu nodded, observed the surroundings, and said, "You continue cultivating, I'll take a look around."

Li Xiu always felt something eerie here, instructed a few words, and then climbed up along the stone wall, soon reaching the cave opening. When he leaped up, attempting to jump out the cave opening, he suddenly felt as if he collided with an invisible wall. With a loud bang on his head, he became dizzy, sending an electric-like sensation throughout his body, causing him to fall back down.

Thankfully, the cave itself was very mysterious; his fall slowed, eventually landing gently. Had he fallen from such a height, even an S-level physique could hardly endure.

Li Xiu's head buzzed from the collision; currents seemed to run wildly in his body, causing his limbs to tremble uncontrollably, unable to get up for a while.

"Li Xiu, are you alright?" Sha Chu approached Li Xiu, intending to help him up, but upon touching his body, her hand sprang back as if electrocuted, with sparks flickering between her fingers and Li Xiu.

Chapter 626: Food on the Plate

After a long while, Li Xiu finally caught his breath. He sat up and rubbed his head, saying to the anxious Sha Chu beside him, "I'm fine, let me take a moment to recover."

After a while, Li Xiu felt much better. He reached up to touch his head, discovering a large bump. Pressing on it made him grimace in pain. Fortunately, he hadn't used all his strength when he jumped, or his head might have shattered.

"The cave entrance seems to be blocked by an invisible wall, and it seems like there's an electric current on that wall. Try and see if you can get out," Li Xiu said to Sha Chu.

Hearing this, Sha Chu stood up and looked at the cave entrance above, saying, "Alright, I'll take a look."

"Be careful." Li Xiu watched from below as Sha Chu climbed up.

When Sha Chu was halfway up, Li Xiu felt much better, so he followed and climbed up as well. His level was much higher than Sha Chu's, so he quickly caught up with her.

"You're okay now?" Sha Chu looked at Li Xiu and asked.

"Much better, let's go up and take a look first." Li Xiu and Sha Chu climbed upward together. Just as they were about to reach the entrance, he stopped and said, "Above is that invisible wall, be careful."

Sha Chu nodded, holding onto the wall with one hand while cautiously reaching up with the other.

However, she didn't feel anything; her hand passed straight through.

Sha Chu looked at Li Xiu in confusion, "Are you sure it's here?"

"It's definitely here." Li Xiu was also a bit puzzled and reached out to feel for it.

As soon as he touched it, he immediately hit the invisible wall and felt as if he'd been shocked by electricity, causing him to fall down again.

After Li Xiu fell down, Sha Chu also jumped down shortly after.

"I tried, and I can go out without any problem. The issue might be on your side," Sha Chu said, seeing that Li Xiu wasn't as badly off as before and could stand on his own.

Li Xiu's expression changed slightly, "Those Gem Fruits are definitely problematic. Maybe I've absorbed too much of their light energy, causing the issue. You go out first, don't stay here."

"What about you?" Sha Chu frowned.

"I should be fine for now; you go find Old Knife first," Li Xiu urged Sha Chu to leave, fearing she might also get trapped with him.

Sha Chu nodded and climbed up again.

Li Xiu watched her leave, and sure enough, she encountered no obstruction and easily climbed out of the cave entrance.

"I'll go find Old Knife right away, wait for me to return," Sha Chu shouted down into the cave twice before quickly leaving.

After Sha Chu left, Li Xiu summoned the Jedi Knight and had him charge toward the cave entrance.

When the Jedi Knight reached the entrance and reached out to touch it, he was struck with electricity just like Li Xiu, bouncing back down.

"Is my magic spirit also isolated?" Li Xiu frowned.

The Jedi Knight was unharmed and soared again, directly entering a Super Spirit State, unleashing a Blood Light Slash with his twin blades, fiercely striking the cave entrance.

Boom!

Blood light scattered chaotically around the entrance; the scarlet moonlight and blade light were shattered. Bright lightning flickered at the entrance.

In the eyes of the Jedi Knight, blood light surged. His twin blades combined into one, unleashing the strongest Unrivaled National Hero strike.

Boom!

The entire cave shook violently with the impact, yet the blade light shattered again. Brilliant light filled the entrance, illuminating it like the sun.

"It still can't be broken?" Li Xiu's expression slightly changed.

When the electric light at the entrance dissipated, Li Xiu climbed up again. As he approached the entrance, he drew out his Spiritual Mace, activated it, and struck upward.

Buzz!

The Spiritual Mace pierced the invisible barrier, where the mace head and the invisible barrier collided. Instantly, electric light flared, filling the cave entrance with dazzling brilliance, so intense it was nearly impossible to keep one's eyes open.

Li Xiu only felt the Spiritual Mace vibrating constantly, yet no current came through. Delighted, he pushed hard on the Spiritual Mace, slowly driving it into the radiant barrier. As the mace penetrated further, cracks began to appear on the invisible barrier.

Ecstatic, Li Xiu exerted all his strength to break through the invisible barrier and escape.

Suddenly, the light shrouding the entrance expanded, transforming into a hemisphere of light that enveloped the area around the entrance.

From the outside, it looked like half a sun inverted on the ground, enveloping the entire palace ruins.

Inside the sphere, the light wasn't as bright. Li Xiu saw that where his Spiritual Mace had penetrated, it resembled glass. Half of the mace was stuck in the glass.

Above the glass, the space warped mysteriously. The original ruins were replaced by a magnificent palace.

The entire palace exuded a splendid glow, as if it were the dwelling place of a god.

The cave's position was right at the palace's center, and above the glass-like object, a dining table emitting Divine Light appeared prominently.

The table was set with dazzling cutlery: plates, cups, knives, forks, all exuding divine light, each item seemingly brimming with unimaginable light energy.

Behind the table sat a man dressed in formal attire, appearing like an enigmatic gentleman.

The light emanating from the man was even more intense, so much that his features were obscured. Glowing with an intense halo, the man sat before the dining table as if gazing down upon Li Xiu beneath the glass like a deity.

Chapter 627: Food in the Dish_2

Amidst the magnificent radiance, the man picked up the white napkin next to him and placed it on his chest, holding a knife and fork in each hand, with his gaze fixed on Li Xiu, as if looking at a delectable dish.

"Damn it, is this really a pig farm, what on earth is that thing?" Li Xiu frantically pushed the Spiritual Mace, stabbing at the transparent glass-like barrier bit by bit.

As the cracks on the glass increased and it seemed about to shatter completely, the man behind the dining table made no move, simply watching Li Xiu with interest, as if observing something amusing.

Crash!

The glass was pierced by Li Xiu, creating a large hole, and he immediately leapt out.

Just as Li Xiu jumped out of the hole, the fork in the left hand of the man, who was like a god or demon in the radiance, moved slightly.

The next moment, Li Xiu found himself landing in his plate, his body pinned by the fork on the plate, the fork piercing through him, and blood slowly oozing from the wound.

The man gazed at him like a Giant God, the knife in his right hand descended slowly.

The fork that emitted boundless radiance pressed against Li Xiu's body, seemingly without much force, yet no matter how he struggled, Li Xiu couldn't break free.

Seeing the huge dinner knife falling, aiming for his head, Li Xiu desperately swung the Spiritual Mace to block the massive knife.

Ding!

The Spiritual Mace collided with the dinner knife, which was unexpectedly deflected upwards, a small nick appearing on the blade.

"Oh, interesting dish." The man seemed surprised, but felt more amused, raising the dinner knife again to slice down.

Li Xiu swung the mace again to block, but this time he couldn't deflect the knife, it pressed down against the Spiritual Mace, forcing it bit by bit towards Li Xiu's body, nearing his neck.

Buzz!

The Spiritual Sense at Li Xiu's brow flashed brightly, like an eye of light flickering at his brow, the Spiritual Mace trembled incessantly, an eerie force unexpectedly breaking the descending knife.

Seizing the chance, Li Xiu swept the Spiritual Mace directly towards the fork pinning his body.

The dinner knife broke, and the man, like a god or demon, seemed somewhat astonished, as yet another dinner knife appeared in his hand.

This knife differed from the previous one, seemingly forged of gold, inscribed with blood-like runes, shining brightly, once again slicing towards Li Xiu's neck.

Li Xiu had to change the trajectory of the Spiritual Mace to meet the golden dinner knife once more.

Ding!

The golden dinner knife was blocked by the Spiritual Mace, but it didn't break like before.

"Haven't seen such a delicious dish in a long time... You... look... so tasty..." The man spoke, with an inexplicable magnetic charm, yet it sent chills down one's spine.

The man wore a smile, the golden dinner knife pressing down slowly with his hand, Li Xiu continuously unleashed his Spiritual Sense, trying to fend off the golden dinner knife's pressure.

Yet with the burst of his Spiritual Sense, the golden dinner knife didn't break or deflect, instead, cracks appeared on the surface of the Spiritual Mace.

This incredibly tough Spiritual Mace couldn't withstand the combined pressure of Li Xiu's Spiritual Sense and the golden dinner knife, the body of the mace continuously cracking.

"What the hell is this thing!" Li Xiu was utterly shocked, a power that even the Spiritual Mace couldn't endure, what kind of terrifying force could that be?

Jing Li arrived outside the light sphere at an unknown time, seeing the radiance there, knowing something was wrong, he rushed over at the first opportunity.

Seeing the gigantic light hemisphere, Jing Li drew his sword to slash, all his Light Veins activated, the ghost-headed blade carrying a ghost-slaying, god-cutting sword light, fiercely cleaving at the light sphere.

Boom!

The sword light struck against the light sphere, not cleaving it open, but instead shocking Jing Li, causing his tiger's mouth to crack, blood streaming down the sword handle.

Disregarding the wound on his hand, Jing Li gripped his sword with both hands, his eyes murderous like blades, raising the sword overhead, and madly cleaving down again.

Strike after strike landed on the light sphere, with no damage to the sphere, the shattered sword light flying scattered, Jing Li's hands were blood-soaked, yet he kept frenziedly hacking.

"What the hell is going on?" Jiuxiao Yun rushed over, hurriedly stopping Jing Li, if he continued slashing, Jing Li's hands would be completely ruined.

"I don't know, the Commander might still be inside." Jing Li said, about to strike again.

"Don't be stupid, let me see what's going on." Jiuxiao Yun rode the Demon Shark and burrowed into the earth, attempting to infiltrate from underground.

Boom!

The Demon Shark seemed to hit something, getting ejected straight out from beneath the ground.

"Damn it, there's a light sphere below too!" Jiuxiao Yun fell to the ground, feeling his body twitching as if electrified, only recovering after a while.

Seeing this, Jing Li raised his sword to slash again, strike after strike landed on the light sphere, with nothing achieving apart from shattered sword lights.

Crack!

Jing Li's wrist was actually fractured by the shock, his arms hung weakly, the ghost-headed blade clanged against the ground.

Jing Li's eyes were blood-red, his Light Energy not diminishing but increasing, he suddenly charged at the light sphere.

Boom!

The Light Energy on Jing Li shattered, bones cracking, his body rebounded back, landing heavily on the ground.

"You're mad!" Seeing Jing Li get up to charge at the light sphere again, Jiuxiao Yun hurriedly restrained him.

Jing Li shook off Jiuxiao Yun, his arms hanging weakly, purple-black Light Energy rising from his body, staring dead at the light sphere, slowly saying, "The Commander can't be harmed, we must rescue him."

Chapter 628 Mid-game Meal_3

"You're crazy." Jiuxiao Yun blocked Jing Li again, gritting his teeth, "Forget it, let me do it."

As Jiuxiao Yun spoke, he summoned a demon spirit.

The demon spirit resembled a rhinoceros, its entire body radiating jade-like luminosity, with a single crystal-like horn on its nose, exuding a terrifying light aura.

"The power of a Super Spirit can't break this light sphere." Jing Li shook his head upon seeing it was a Super Spirit.

"This isn't an ordinary demon spirit; it's a Mountain-Piercing Rhinoceros," Jiuxiao Yun cursed, "This thing was meant to save my life. I wouldn't even use it for myself unless I was at death's door, and now it's wasted on that bastard. Damn it, it's not worth it."

Despite his words, Jiuxiao Yun commanded the Mountain-Piercing Rhinoceros to prepare its skill, the light on the rhinoceros horn growing brighter, like a sliver of starlight.

"Is this a Mountain-Piercing Rhinoceros?" Jing Li was somewhat taken aback.

He had heard of such demon spirits but had never actually seen one. Not to mention a Super Spirit Mountain-Piercing Rhinoceros; he hadn't even seen a regular one.

The Mountain-Piercing Rhinoceros possesses a terrifying Talent Skill called "A Point of Insight." This skill focuses all of its power into a single point, using its indestructible horn to pierce through, rendering it virtually unstoppable. Even creatures a level higher than it find it difficult to withstand this insight attack.

Moreover, the insight attack generates an even more terrifying light explosion. Even Light Base Trial Takers dare not face it head-on.

However, the Mountain-Piercing Rhinoceros has a fatal flaw: it can only use the insight attack once in its lifetime.

Because this attack consumes its life, once completed, the Mountain-Piercing Rhinoceros is done for, so there's no second attack.

The Mountain-Piercing Rhinoceros exists solely for that one unstoppable strike.

As the light at the horn's tip intensified, the Mountain-Piercing Rhinoceros let out a mournful roar, then charged forward, hooves thundering like a tank at full throttle, head lowered toward the light sphere.

As it charged, the Mountain-Piercing Rhinoceros was engulfed in milky white flames, and the light at the horn's tip shone ever brighter, like a comet.

Boom!

The Mountain-Piercing Rhinoceros collided with the light sphere, a terrifying light explosion surging with a shockwave that sent Jing Li and Jiuxiao Yun flying.

When they got up and looked toward the light sphere, they saw dust and smoke, with a huge crater blasted in the stone-jade floor.

As the smoke cleared, Jing Li and Jiuxiao Yun froze in shock at the sight before them.

Such a terrifying strike hadn't penetrated the light sphere; it hadn't even left a mark.

"Damn... what the hell is that...?" Jiuxiao Yun's face turned extremely grim, having sacrificed the Mountain-Piercing Rhinoceros without leaving a scratch.

Jing Li's face looked even worse. The life-consuming strike of the Mountain-Piercing Rhinoceros was stronger than any of his attacks. If even that couldn't damage the sphere, he couldn't hope to break it open even at the cost of his life.

As the two stood dumbfounded, a figure approached the light sphere. It was the security-uniformed Old Dao.

"Elder Dao..." Jiuxiao Yun wanted to say something, but Old Dao waved him silent.

"I've seen everything. Let me break it before we continue." Old Dao gestured, and a demon knife appeared in his hand.

A demon pattern formed on the blade as Old Dao's body emitted an eerie glow, black light spreading like ink over his form.

The demon knife trembled incessantly, its edge transforming into serrations not of metal but formed from concentrated light energy.

Boom!

The light energy surged, the demon knife's demonic glow solidifying, the entire blade transforming into a menacing black monster, like a dragon or a serpent, ghostly and fierce.

"Light Spirit!" Jing Li and Jiuxiao Yun were both astonished and delighted.

Transforming light into a spirit was a power above the level of Light Base, a mightier force.

In Everlasting Heaven, Trial Takers who could manifest a Light Spirit were nearly invincible.

Such Trial Takers in Everlasting Heaven could be counted on one hand.

Old Dao stood firm, his gaunt form exuding a demon-god-like majesty, slashing fiercely at the light sphere with the dragon-serpent-like demon knife.

The demon knife roared downward, seemingly slicing and devouring the light sphere.

Boom!

Light erupted like a volcanic explosion, the ground violently shaking, debris hurled skyward, taking the surrounding jade bricks with it.

When the light explosion dissipated and dust settled, Old Dao holding the demon knife looked at the light sphere in shock.

Jing Li and Jiuxiao Yun shared their terror, and the approaching Sha Chu halted, incredulous at the scene.

The jade-stone ground near the sphere had been shattered, leaving a massive crater.

But hovering above it was a perfectly intact light sphere, seemingly unscathed.

"What on earth is this?" Old Dao's face was ashen, regretting sending Li Xiu to the pig farm.

He never would've imagined such an event, having never faced such an incident at the pig farm for years.

Inside the light sphere, Li Xiu held the Spiritual Mace, struggling against the Golden Dinner Knife, blood everywhere and continually trickling from his mouth. The Golden Dinner Knife had yet dropped, but the Spiritual Mace was cracked, unable to endure Li Xiu's Spiritual Sense any longer.

Crack!

A large fissure appeared on the Spiritual Mace.

"Lowly carbon-based lifeform... becoming food for this king... is your supreme glory... this is the greatest moment of your life..." The man, god-like and demonic, smiled as the Golden Dinner Knife slowly fell.

Crack!

The Spiritual Mace finally shattered completely, pieces scattering, and Li Xiu sighed, "It's over!"

Just as the Golden Dinner Knife nearly fell, leaving Li Xiu powerless to resist, it abruptly stopped.

Li Xiu's eyes widened, seeing the broken "Spirit" character of the Spiritual Mace hadn't shattered but rather glowed with an odd milky white light, floating before him.

The Golden Dinner Knife hovered just away, seemingly blocked by an invisible force.

The god-like man's eyes showed confusion at the radiant "Spirit" character.

Buzz!

The "Spirit" character's glow flourished, transforming into a beautiful girl-light form suspended before Li Xiu, glancing at him pinned by a fork, anger flickering in her beautiful eyes.

"Sis!" Li Xiu saw the girl's light form, too stunned to believe it, and exclaimed in shock.

Chapter 629: Sister

In Li Xiu's memories, his sister always appeared as a sweet young girl, never changing, to the extent that, as a child, he thought women didn't age.

One time when he was young, after being injured and rescued by his sister, she adopted him from the orphanage in the small town and lived with him there.

That small town belonged to Gu City under the jurisdiction of White Night City. White Night City was a region extremely scarce in gemstone resources, and so was Gu City. Apart from the time during the early demon spirit invasions when Gu City suffered attacks, demon spirits were rarely seen there afterward, occasionally passing through.

Additionally, due to Gu City's remote location and lack of industrial resources, the small town wasn't very prosperous, but life there was quite peaceful.

Li Xiu's childhood in that small town was rather happy. He had whatever the other children had, and his sister never forced him to do anything he didn't want to do.

Li Xiu was fond of Demon Armor, so his sister hired several retired Magic Armor Masters from the town to train him. Whatever he liked, his sister always fulfilled his wishes.

The only slight drawback was that his sister wasn't good at cooking or doing housework. From childhood to adulthood, it was Li Xiu who took care of her daily needs. In fact, it was hard to say who was taking care of whom.

In Li Xiu's impression, his sister was a delightful combination of beauty, cuteness, gentleness, playfulness, and occasionally a bit of willfulness.

They lived together for almost ten years. Later, his sister often left the town due to work, and as Li Xiu grew older, he wanted to see the outside world. With his sister's consent, he left the town to travel and eventually met Bai Qiuyi and joined Space City.

During such a long time of being together, perhaps out of habit, Li Xiu never felt there was anything particularly special about his sister.

But now, the girl-like light form in front of him was actually his sister's appearance, with expressions and little gestures exactly like hers, which shocked Li Xiu greatly.

The girl-like light form stood in front of Li Xiu, and this scene felt strangely familiar to him.

Seeing Li Xiu's current appearance, the girl-like light form looked full of heartache, reaching out to touch his cheek, "Don't be afraid, Xiaoxiu, sister is here."

"It's really my sister!" Li Xiu was both surprised and delighted. That address, that voice could only belong to his sister.

Just as Li Xiu was about to say something, he saw the man glowing with light like a deity standing up, staring intently at the girl-like light form.

From earlier until now, that man, god-like in demeanor, had always been sitting, more dining than fighting with Li Xiu.

Now, as he stood, he stared closely at the girl's silhouette, leaning forward.

"Sis, be... careful..." Li Xiu loudly warned the girl-like light form, but in the next second, he widened his eyes in disbelief.

The man, god-like in appearance, did not attack the girl-like light form but kneeled on one knee before the dining table, placing a hand over his chest, trembling in submission, "I did not know this human was related to you, my lord. Please forgive my ignorance and offense..."

"What is happening?" Li Xiu was utterly puzzled, staring blankly at the girl-like light form and the trembling man.

The girl-like light form ignored the man and swept her milky white glowing hand over Li Xiu's body.

The fork embedded in Li Xiu evaporated like vapor, and his wounds closed, as though he had never been injured.

The man continued to kneel there, not daring to lift his head or speak another word.

Seeing Li Xiu's wounds heal, the girl-like light form turned to look at the man kneeling before the dining table.

With just one glance from the girl, the man seemed involuntarily to shiver.

"Are you of the Evil Luo Race?" the girl coldly questioned, glaring at the man.

Upon hearing her words, the man trembled violently, falling to both knees and prostrating beneath the table in terror, "It is all my fault. It has nothing to do with the Evil Luo Race. Please forgive me, my lord..."

"My brother was harmed by you. You will not return but stay and guard him," the girl asserted lightly.

"Mercy, my lord," the man cried out in joy, promptly paying his respects.

The girl reached out towards the man with an airy grasp. The man's body and the Golden Dinner Knife flew towards her hand, the giant body quickly shrinking during the flight and merging with the Golden Dinner Knife. When it reached the girl's hand, it had already become a normal-sized Golden Dinner Knife.

The girl placed the knife before Li Xiu and gently caressed his head, saying, "Xiaoxiu, your sister is looking for the way home and can't take care of you. You must take care of yourself, and when your sister finds the way back, she'll take you home..."

"Sis..." Li Xiu wanted to say something, but he saw the girl-like light form begin to fade rapidly, disappearing in the blink of an eye, leaving only the Golden Dinner Knife in his hand.

Old Knife was about to strike again when he suddenly saw the light orb disappear, leaving Li Xiu standing amidst the ruins of the palace.

"Commander... Are you alright..." Jing Li hurried over.

Chapter 630 Sister_2

"I'm fine, what happened to you?" Li Xiu shook his head and put away the Golden Dinner Knife, seeing Jing Li covered in injuries, he asked in confusion.

"Wasn't it to save you." Jiuxiao Yun remarked with a pout from the side.

Li Xiu understood the circumstances and summoned the Forbidden Spear, firing a shot at Jing Li, startling Jiuxiao Yun.

The Undying Bullet shot into Jing Li's body, and the bullet immediately began repairing Jing Li's injured body. In no time, Jing Li's wounds were healed.

"Can that thing actually heal injuries?" Jiuxiao Yun looked at Li Xiu's Forbidden Spear in shock.

"Didn't I already tell you before?" Li Xiu put away the Forbidden Spear.

"Had I known you were fine, I wouldn't have had to sacrifice my Mountain-Piercing Rhinoceros." Jiuxiao Yun was extremely upset.

Li Xiu had already heard the story from Sha Chu and knew that Jiuxiao Yun had sacrificed the Mountain-Piercing Rhinoceros to save him: "I'll find you a magical spirit better than the Mountain-Piercing Rhinoceros later."

"Forget the magical spirit, just help me light the lamp quickly." Jiuxiao Yun said.

"It's a small favor, I'll help you light the lamp when we get back." Li Xiu glanced at the pit and returned to Weng City with the old knife.

On the way, Li Xiu briefly recounted his encounters, only mentioning the terrifying magical spirit, not the incident of the spirit's transformation into a girl made of light and shadow.

After returning to Weng City, Li Xiu helped Jiuxiao Yun light the lamp and gave him the "Mystical Silence Force Art." Whether he wanted to practice it was up to him.

Successfully lighting the lamp, Jiuxiao Yun was overjoyed and went off to practice on his own.

When he had a moment to rest, Li Xiu took out the Golden Dinner Knife and placed it on the table, looking at it he said, "You can hear me, right?"

"Master, what are your orders?" The Golden Dinner Knife stood upright by itself, its blade vibrating, producing a voice that seemed almost human.

"What's your name?" Li Xiu asked, looking at the Golden Dinner Knife.

"Master can call me Luo," the Golden Dinner Knife replied.

"Are you the king of the Evil Luo Race?" Li Xiu, having heard the man refer to himself as 'the king,' asked.

"In front of you, Master, no one has the right to claim to be king," Luo quickly and humbly replied.

"Seems like this guy is really afraid of my sister." Li Xiu already knew the answer: this guy must indeed be the king of the Evil Luo Race.

"Little Luo, do you know my sister?" Li Xiu asked.

"I don't have the qualifications to know that master, but having seen that master's grace from afar is a blessing for a lifetime," Luo replied.

"How strong is she?" Li Xiu asked again.

"Aren't you that master's younger brother? Don't you know?" Luo asked cautiously.

"Am I asking you or are you asking me?" Li Xiu frowned.

Luo hurriedly said, "Master, please forgive me, how strong that master is, I cannot estimate. I only know that when that master went to the Bottomless Pit, the king of the Bottomless Pit..."

"What happened?" Li Xiu saw Luo hesitating and couldn't help but ask further.

"To be able to sacrifice for that master is his fortune," Luo said, choosing his words carefully.

"Sacrifice? What does that mean, speak plainly," Li Xiu frowned.

"It means... it means he was roasted and eaten by that master..." Luo said, trembling with fear.

Li Xiu's expression was somewhat peculiar. The Bottomless Pit was one of the Four Major Forbidden Zones, and its king had been barbecued by his sister. Imagining that scene made Li Xiu shiver involuntarily.

Now filled with doubts, if his sister was really that strong, why had she never taught him anything about cultivation, and never displayed any of her abilities in front of him?

The route back home that his sister spoke of, what did that mean? Even the king of the Bottomless Pit got turned into a barbecue, was there any place in this world she couldn't go? Where exactly was the home she spoke of?

His sister once told him that their home was very far away. Back then, Li Xiu didn't have any concept of what "far" really meant. Thinking back on it now, it indeed appeared to be quite far.

"Is the king of the Bottomless Pit very strong? What level is he?" Li Xiu continued to ask.

"He should be at the Divine Position Level," Luo explained understandingly as he saw Li Xiu seemed unaware of the Divine Position Level. "Among the levels of Light Base, Spirit Casting, and Divine Position, Divine Position is considered top-tier. Of course, in front of that master, Divine Position Level is nothing, but among us magical spirits, Divine Position is already considered top-tier."

"What level is my sister?" Li Xiu asked.

"I dare not recklessly speculate on the level of that master, I beg your pardon," Luo quickly said.

"What level are you?" Li Xiu asked again.

"I'm just a humble Divine Position Level, nothing worth showing off," Luo said modestly, but it was evident he was somewhat proud.

"Explain the differences between these three levels to me in detail," Li Xiu was a bit surprised. According to Luo, he was already at the highest Divine Position Level, yet he still couldn't determine just how powerful his sister was. It made it hard to fathom her true strength.

Luo clearly explained the differences and relationships between the three levels, allowing Li Xiu to gain an accurate understanding of the magical spirits' hierarchy.

The Light Base should go without saying, determined by the number of Light Veins condensed; after Light Base comes Spirit Casting, where one's Light Vein becomes a spirit.

Going further is the Divine Position Level, establishing a Divine Position with a Light Spirit and gaining a position of a Divine Spirit, which is almost equivalent to being a deity. At that level, one can somewhat control the power of the rules.
