

Widow 252

Chapter 252

"Why should I be on guard against you?" Crystal said, "I could have done better in the exam. Didn't Dora tell you?"

Antony paused for a moment. Dora did not tell him about this. She only said that Crystal was actually a genius in the school. It was just that she did not treat them as her family and kept everything hidden.

Antony felt very uncomfortable when he heard that. He knew that it was natural that Crystal was not close to them, but he was still unhappy.

"Then why did you cheat in the mid-term exam?" Antony asked.

The expression on Crystal's face froze for a moment.

When Crystal was in junior high school, the class teacher had been very kind to her. She had seen through Debbie, so she had always told Crystal to hide her talent. If Debbie knew that her grades were good, she would definitely be afraid that Crystal would go to another place to pursue her studies, and from then on, she would not be able to control Crystal. Therefore, Crystal's usual grades were really terrible.

She should not be able to enter high school with such a result, but she had been admitted to the best high school in the country. How could it not be suspicious? At that time, the classmate who was suppressed by Crystal's grades began to maliciously accuse her of cheating in middle school. "Moreover, your grandmother also said that your grades are usually not very good," Antony said. Crystal said, "She was the one who said those words, not me."

tilted his head to look at her and asked, "Don't you
