

## Widow 321

### Chapter 321

Crystal was shocked.

She had felt that something was wrong before. Alda's attitude towards Corey was very strange. She should have been very confident since she married Eric and was pregnant with Eric's child. After all, from Eric's partial attitude, it seemed that he only treated the child in her belly as his own.

According to common sense, if Alda wanted to gain a good reputation and did not allow others to accuse her of not being a good stepmother, then she could just put on an act in front of others. There was no one in the noble circle of Fairby here, so who did Alda show her attitude to?

To Eric, who treated his son as an enemy? There was no need for that. Crystal felt that even if Alda swore at Corey, Eric would only clap and cheer.

In that case, Alda's attitude towards Corey was very suspicious. Crystal felt that when she was facing Corey... she was even a little cautious.

She seemed to be very concerned about Corey's opinion of her.

Crystal, who had watched so many dramas, immediately had a bold idea in her mind, but she felt that it was ridiculous.
