

Widow 530

Chapter 530

She thought that the celebrities on television were beautiful and they didn't seem to exist. There were many posters of male celebrities in the room. But at this moment, she suddenly felt that those male celebrities couldn't compare with the man in front of her.

How could Crystal have such a fiancé?! How could she be worse off than Crystal?

Bella bit her lip and took two steps forward, saying, "Crystal, if Uncle Hays knew that you were back, he would definitely be very happy. People in the village said that you would definitely not come back to our small village after you were taken away by your biological parents. It made Uncle Hays very angry. You are not ungrateful. You grew up here. How can you not come back?"

Crystal was a little confused. She didn't know why Bella said that. Then, she heard Bella say, "By the way, Crystal, do you still remember Farley? He was the boy who took you to school every week when you were in high school. I heard that he didn't perform well in the college entrance examination. He could only go to undergraduate school. But it's okay. At least he could study."

At that time, Crystal had managed to score seven hundred and four points. She didn't want to show off, so she refused the school's propaganda and only told others that she was able to further her studies. Bella's words were obviously a mockery of her,

No matter how careless Crystal was, she could tell what Bella meant when she talked about Farley in front of Harold.

do." Crystal said, "He is
