Chapter 78

"What kind of taste is that?" Harold grabbed her collar and made her look at another tank. In a calm voice, he said, "This thing is more expensive."

The other tank contained white golden dragonfish, which was nearly four times more valuable than the red mint immortal.

Crystal didn't know anything about it. She said, "I think this little fish is better-looking. Look at its red and yellow color... It has three colors and it looks so lively."

Harold was speechless.

The waitress quickly said, "If you like it, we can give you two."

Before Crystal could reply, she had already gotten someone to bring over a crystal fish tank. She personally fished out two Gentleman Immortals and placed them in the fish tank. She said, "I'll get someone to bring another two packs of feed later. This fish is very easy to feed."

Crystal held the fish tank and felt a little hot. She looked at Harold for help and asked, "How much are these two little fish?"
