I Will Never Be Yours By Melan pamp Chapter 58

Selena pov.

Hearing his steady heartbeat when he carries me out of my office and into the hallway. We don't meet anyone on the way. Coming to my bedroom he opens the door. Walking inside he shove the door closed with his foot before he walks over and lay me down on the bed.

Placing my head on the pillow I snuggle with it and close my eyes again. Hearing him walking around in my room and using my bathroom before he comes back inside and turns off the lights. I'm too tired to move right now.

The bed dips on the side of me when he lay down beside me, I don't have any energy left to argue with him about it or that there are several guestrooms in this pack house ready for any guest. It feels nice and warm when he pulls me close to him and drapes the quilt over us.

I can't help it but snuggle closer to him and take a large inhail of his scent.

Hearing a soft chuckle before his hand comes down to my jaw and tilt my head up toward him.

Opening my eyes I stare right into his and see him look me all over before he slowly leans forward.

Feeling his warm lips pressed against mine in a soft kiss that left me wanting more, but he breaks it too fast.

"Sleep," he says and pulls me closer to his chest. Resting my head against him and closing my eyes it doesn't take long before I have fallen back asleep in his arms.

Waking up in the morning I feel rested and have no idea what time it is. I often wake up early, it doesn't matter if I get to bed late I wake up early anyway.

I feel his arm around my waist and his warm body behind my back, he is way too hot and I need to get away from him. Trying to turn around and glance at him. when his arm holds me tighter.

"Stop wiggling or you won't be leaving this bed for a week!" Comes his husky voice behind me. I stop moving but don't se the problem.

"What?" I ask when he pulls me close back against him and his hard cock poking

into my butt. I gasp at the feeling and try to lay completely still.

His face comes down to my shoulder where his mark is and he takes a large inhail before he places a kiss on my shoulder and a shiver of pleasure courses through my body.

He starts kissing and nibbling on that spot and my core instantly starts to throb. His hand starts to travel under my shirt and tingles play on my skin from his touch, when he reaches my breast I moan out and have to bite myself in my lip when he cups it with his large hand.

My body is overly sensitive from his mouth on my shoulder and I can't hold back.

I push back against him and earn myself a growl that makes my core throb painfully. He takes my nipple between his fingers and starts twisting it when he places kisses over my neck and stops beside my ear.

"Be careful, my resistance has a limit before I'm taking your body!" His huskey voice says and it only adds fuel to my fire. Feeling how my arousal spills out on my leg I push back again, the bond wanting me to complete the mating and I only feel my need at the moment.

Hearing him take a deep breath and his fingers digging into my waist before I'm turned on my back in a swift motion and Kian gets on top. He pushes my legs apart and climbs between.

Looking up at him he is standing on his knees between my legs and his eyes are pitch black, letting my eyes travel down his body, over his hard chest, and down his

abs.

I gulp out loud when my eyes land on his big tent in his boxers, his hand comes up and starts to stroke himself outside his boxers while he looks me all over. Seeing his eyes land between my legs and Kian licks his lips. I pant out from the sight in front of me. My core throbs and I feel how my walls clench by just looking at him. He pushes my legs further apart and I let him.

I need his hands on my body but he just keeps his eyes roaming over me and staying in his place. He is driving me crazy right now and my body feels like it's about to burn up if he doesn't touch me.

I slowly start to let my hand wander up over my side and to my breast. Cupping it with my hand and twisting my nipple between my fingers I hear a low growl and looking at Kian he has a crazed expression on his face before I see his last

resistance snap. His hand comes down and forces my hand over my head, holding it in a firm grip.

His lips crashes down on mine in a hard and dominant kiss, leaving me panting for air once he lets go and starts kissing me down my jaw.

"I warned you to not push it! But now I'm going to taste you before I'm taking that tight pussy of yours!" He says and I don't register what he actually said when he starts to kiss his way down my neck. His hand travels over my body and pushes the shirt up over both my breasts. Feeling his lips on my nipple I moan out from the feeling when he lets go and grabs the shirt and rips it to pieces. It burns on my skin from the ripped shirt but I'm too far away from reality. My mind and body need him right now!

I have a burning feeling inside my body and he is the only one who can put it out. His mouth comes down on my nipple while he starts to suck on it and the other he has between his fingers.

I can't resist but buck my hips up to meet his body when he gives my nipple a small

bite.

Panting out from the feeling when he lets go and his hand travels further down my body.

My core throbs and I'm all wet and ready for him!
