Chapter 1000: Dharma Idol—Crimson Emperor Burns the Sky! (2)

Then, the crimson dragon spread its dragon wings!

In an instant, a meteor shower fell and the magma river hung upside down!

The Crimson Emperor Dragon Dharma Idol descended from the sky accompanied by endless flames.

A Dragon Chariot sent Phoenix flying.

Its body disintegrated, turning into sparks that filled the sky.

Fortunately, it was a fire element, so it did not burn to death.

However, the pure impact brought about by this level of attack also made its body much weaker!

The other three looked at Phoenix as if he was an idiot.

They thought to themselves, "You're really a hothead."

[130 Cas]

Levi looked on with satisfaction.

"Crimson Emperor burns the entire sky. This Dharma Idol... shall be called Heaven Burning Crimson Emperor."

The last Dragon Chariot was a small lesson for Phoenix.

Let it know how stupid it was to play tricks!

He opened the panel.

Levi—

Crimson Emperor Dragon Breathing Technique: Level 15 (1/700,000). Special Effect: Flame Dragon's true form (Level 3, special form: Giant Dragon Warrior, Furious Dragon Lord); Bloodline Dharma Idol: Heaven Burning Crimson Emperor; exclusive weapon: Crimson Dragon Slash (Level 3: 3456/10,000).

...

"Heaven Burning Crimson Emperor's defense cannot compare to a Dharma Idol that specialized in defense like the Golden Snake Dance.

"However, it is still much stronger than most ordinary Fourth-Circle Wizards' defensive field.

"It can't be helped. The Crimson Emperor Dragon's level is too high. Even if it isn't specialized in defense, it definitely wouldn't be bad.

"From the looks of it, knights with non-defensive breathing techniques like the Black Knight.

"After advancing to the Third Transformation of the Blood Source and giving birth to a Dharma Idol, the basic defense can also be guaranteed. It is not much inferior to an ordinary wizard's fourth-circle defensive field.

"Moreover, Dharma Idols are born from blood qi. The recovery speed and endurance of blood qi are better than wizard spell power.

"This is also the advantage of the path of knights!

"Overall, after giving birth to the Bloodline Dharma Idol, the basic defense of a knight will rise by a level.

"In addition, Heaven Burning Crimson Emperor's strongest ability is his offensive ability.

"If the fire element that the Crimson Emperor Dragon had hit was not Phoenix, It's the other wizards below the fifth-circle. I don't think many of them can withstand it. Their ordinary innate spells or defensive fields will shatter and ignite in front of the Heaven Burning Crimson Emperor's Impact.

"Overall, Heaven Burning Crimson Emperor's attack power should be at the level of a top-notch fourth-circle innate spell."

After level 3 of the Flame Dragon's true form, Levi's basic strength and fire element resistance attributes had increased significantly!

At the thought of this, the strength rune flashed on his arm.

Levi held the Crimson Dragon Slash!

He rose into the sky like a huge dragon and swung his sword!

Flames wrapped around the sword!

He transformed into a majestic Crimson Dragon Man.

His body grew larger, and dragon horns began to grow.

The flames of anger were overwhelming!

Behind him, the phantom of the Nine Swords Asura appeared.

Night fell in the sky around him.

At this moment, Levi had reached his current realm.

It was the maximum attack he could achieve!

"Destruction Sword Qi!"

Black sword qi mixed with the Crimson Emperor Dragon Flames surged out.

Like a volcano erupting, like a long river washing over!

On a small mountain a few kilometers away.

Under this sword, it split into two and was directly cut open!

The incision was incomparably smooth, and there were charred burn marks that emitted high temperatures!

“260 Cas!”

As the mountain peak split open.

Levi looked at the numbers in front of him.

"The attack power of a Fifth-Circle Wizard is between 150 and 500 Cas. Among them, basically all fifth-circle powerhouses are above 300 Cas.

"One has to be at least a fifth-circle senior wizard. Among the fifth-circle cultivators, the ratio is not very high. Such Fifth-Circle Wizards are all famous people. For example, Sorrett and Blue Dragon Lady.

"The further one progresses, the more difficult it is to increase one Cas. Even the Fire Ouroboros's Fifth-circle spell, World Burning Flame Snake only has the power of more than 300 Cas. The range of 150 to 300 Cas is the attack range of most ordinary Fifth-Circle Wizards.

"From the information, Madam Ghost is most likely in this range. However, I mustn't rule out the possibility that the other party is hiding her strength. Hence, from the looks of it, if my all-out attack hit my target... It should be enough to seriously injure her.

"My defense is no weaker than hers. Coupled with the fourth-circle array, I finally have a chance of winning. Moreover, my chances of winning are not small. However, it is not enough!

"Madam Ghost's methods are strange and varied. She definitely has many life-saving abilities. I can't just defeat her. I have to kill her. It has to be clean and efficient. It would be best if I could kill her in an instant! Otherwise, once I give the other party a chance, it's extremely difficult for me to kill a Fifth-Circle Wizard."

As long as he succeeded in this hunt, he could not fail!

Killing a Fifth-Circle Wizard in seconds seemed like a fantasy.

But in Levi's opinion, it was not impossible.

As long as he gave it his all at the right time, it was possible to unleash the ultimate strike!

In fact, Levi's multi-buff overlay state, also could not last for too long.

He had to deal with Madam Ghost before the various states subsided.

"It's not enough! I have to continue improving!"

...

In the blink of an eye, three months had passed.

On this day, a black-robed figure stood in the sky outside Dusk Island.

He hid in the clouds and used spells to conceal his aura.

"I found it. It's hidden quite well."

A mere knight organization was doing well.

This hall was quite grand, but it was too old-fashioned.

It was said that there were several powerful legendary knights in this organization.
