

Wizard 1001

Chapter 1001: Dharma Idol—Crimson Emperor Burns the Sky! (3)

"Heh, what legendary knight? He can't even defeat a First-Circle Wizard."

This black-robed wizard was a Third-Circle Wizard and Madam Ghost's subordinate.

The Dusk Holy Temple would go to the Seven Kingdoms Continent to recruit new blood regularly.

Even though it was done very secretly and low-key.

However, it would still be discovered by some observant people.

There had been an invasion of Second-Circle Wizards before.

He was killed by the Blood Knight and the others in the grand array.

Madam Ghost had made a deal with the Duke of Blood Lake.

It required a large number of ordinary knights' bodies.

It was used as a “human body” to carry the arrival of the Devil Army.

The body of a legendary knight could be used to refine the human body of a devil lord.

As for body-refining wizards, they were too rare.

Moreover, wizards often involved some large factions and organizations for safety reasons.

In the end, Madam Ghost decided to focus on knights.

After hearing that there was a so-called “sacred land for knight cultivation” in the outer sea region, she then sent out ghosts and subordinates to search for clues.

Today, the black-robed wizard finally found it.

He chanted an incantation, and a red parchment appeared in his hand.

There was a strange pattern drawn on the parchment.

This was also a type of ghost.

He quickly passed the coordinates of this place through the parchment.

He would pass it on to Madam Ghost, who was far away in the Gaia Kingdom.

"Kill them all and bring them back."

Not long after, Madam Ghost's message arrived.

Obviously, Madam Ghost felt that such a small matter was not worth her time. Moreover, she was busy every day and could not leave.

The black-robed wizard chuckled.

"After staying in this world for so long, my hands are itching."

He casually waved his hand. There were more than a hundred ghosts entwined behind him. Each ghost was enough to kill a so-called knight.

This was the power of wizards.

"Go, kill everyone here."

The ghosts howled and surged towards the island.

For a moment, resentment soared into the sky, and a cold wind blew.

In the Dusk Holy Temple, Dinos, who was preparing to upgrade his Advancement Medicines, opened his eyes, and his expression changed. He came to the outside of the hall.

In the sky outside, a black mass of ghosts attacked.

"This is... a wizard invasion!"

This was not the first time something like this had happened.

Dinos didn't panic.

The entire Dusk Island had a third-circle array set up by the commander.

On the other side, Denise, who had sensed the situation, also came out of the Five-Colored Palace.

"Enemy attack?"

"Yes, he's a Third-Circle Wizard. He shouldn't be able to pass the array. However, I still sent a message to our commander."

When those ghosts descended to the low altitude of the island, elemental power surged suddenly.

Four colors of light shot into the sky.

The expression of the black-robed wizard in the sky changed.

"This is an array... and it looks like a third-circle array. Isn't this an organization of knights? Why would they know how to use wizard arrays? Could it be that these knights are all subordinates of a certain wizard?"

For a moment, the black-robed wizard thought about many things.

He was very glad that he did not rush over rashly.

Otherwise, he would have fallen into the enemy's trap.

He did not know anything about arrays.

If he stepped into it, he would be doomed.

Not long after, the ghosts that he used to probe were all killed by the array.

He couldn't even get past the King of Fire array. To these spirit-type creatures, fire and lightning were their nemesis.

After some thought, the black-robed wizard asked coldly, "Which wizard organization are you from?"

He had a condescending attitude.

"Piss off!"

Dinos didn't care about him at all. He could not defeat the black-robed wizard. However, he had the protection of the array, so he was not afraid at all.

"Another reckless intruder."

The Divine Light Knight sighed.

The other knights also stopped cultivating.

He stood behind the two Hall Masters and looked at the wizard in the sky.

They were experienced people, so they were not too shocked and afraid.

"Other than a Second-Circle Wizard, they're all weak knights. You're not the owner of this place, are you? The owner of this place is at least a Third-Circle Wizard.

"Get him to come out. You're not qualified to talk to me!"

The black-robed wizard laughed in anger.

He was a Third-Circle Wizard!

How dare these knights be so rude to him?

Didn't they know?

Even the "legendary knights" whom they regarded as gods were just ants that he could easily crush.

With this thought in mind, more and more ghosts began to emerge from his body with a wave of his hand.

As a member of the Ethereal Sect, they had all refined their bodies into vessels for spectres.

There were already countless ghosts in his internal organs.

He was like a ghost cave!

More ghosts than before swept over.

After the time it took to brew a cup of tea, the ghosts that were released were all wiped out!

The black-robed wizard's heart ached.

These ghosts were not cabbages. They all required him to use spells and resources to accumulate.

If he used one, he would lose one.

He had not even started fighting, but he had already lost so many ghosts.

The damned array!

If not for this array, he would kill all the ants below in one go!

"Come out if you dare!"

The black-robed wizard said to Dinos.

"Come in if you dare!"

Dinos laughed.

"Very well."

The black-robed wizard was no longer infuriated.

He quickly calmed down, waved his sleeves, and left.

He could run away, but he could not get in.

He had no way of breaking the third-circle array, so he could only invite other experts.

The next day, Levi received a message from Dinos at the round table.

Chapter 1002: Dharma Idol—Crimson Emperor Burns the Sky! (4)

"Third-Circle Wizard invasion... but left on their own again?"

Levi looked grim. He got up and left the Emperor's Palace.

Then, he left the Ancient Saint plane and flew towards the Dusk Holy Temple.

He arrived at Dusk Island and looked at some black dust on the ground.

"This is... the spectre's dust, a commonly used casting material.

"The remnant of a spectre after death is similar to the Evil Spirit Dust."

Thinking of this, he called Dinos over.

"Commander, you're here. That person left yesterday."

"I feel that he will come back," Dinos said.

"I already know who it is. Gather all the members. I have important arrangements."

Levi sat in the Extreme Path Palace and pondered.

"It's obvious that this person is Madam Ghost's subordinate!"

"She knew that I was Barzan's murderer."

"Moreover, she had also investigated my whereabouts and came looking for me!"

"This way, I wouldn't have any hope of getting lucky."

"It's impossible to avoid this calamity."

...

Gaia Kingdom.

The black-robed wizard returned.

In the palace, Madam Ghost was setting up some complicated ritual array.

"Where are the knights' bodies?" Madam Ghost asked with a frown.

"Lord... I didn't get it," the black-robed wizard said in a low voice.

"You, a Third-Circle Wizard, can't even deal with a group of knights?"

"No, Lord. The knight organization's base is protected by a third-circle array. That array is not simple. Even with my strength, I can't break it..."

"Array?"

"Yes, I suspect that this knight organization was secretly established by a certain wizard. The knight organization is just a cover. In fact, it should be a wizard organization! I sensed the spiritual power fluctuation of a sorcerer and a Second-Circle Wizard among them."

"How many knights are there?"

"Two or three hundred."

"What's their strength?"

"Other than a few powerful ones, the rest are all official knights and grand knights. If it wasn't for the array, I could have killed them easily and brought them back."

"It's not bad to have so many knights... Don't alert them. Go and camp first. It's impossible for those knights not to go out. As long as you leave the array, capture one alive and ask about the details. If it's a wizard organization, investigate clearly. Which organization is behind it?"

"Lord, if you send a Fourth-Circle Wizard, this array should be able to force its way through. There's no need to go through so much trouble," the black-robed wizard said.

"I have something important to do, so I don't have any extra manpower... Besides, the Fish Dragons are mixed in the human world now, and many high-level wizard organizations have started to set up strongholds in the human world. If this knight organization is a pawn of some big shot, and we rashly go

and pull it out, it will bring endless trouble or even calamity. I naturally don't need to go through so much trouble for a simple knight organization, but it involves sorcerers. It's better to be careful, understand?" Madam Ghost said coldly.

"I understand."

Leaving the Gaia Kingdom, the black-robed wizard mumbled as he flew in that direction.

It seemed like he was not satisfied with Madam Ghost's arrangements.

He sneaked to the surroundings of Dusk Island and found a place and began to lie low.

In the Extreme Path Hall, Levi opened his eyes.

With his cultivation as a Fourth-Circle Wizard, he could easily sense that wizards were wandering around.

He sneered and disappeared on the spot.

When he appeared again, in his hand, a dying black-robed wizard had already appeared.

With his strength, it was too easy for him to capture a Third-Circle Wizard alive.

"Do you want to live?" Levi asked.

"Yes... Yes, don't kill me." The black-robed wizard was shocked.

He knew that there must be a wizard behind this knight organization.

Judging from the spiritual force fluctuation, he was still a Fourth-Circle Wizard!

How unlucky!

Excalibur appeared behind Levi.

"Now, swear on the sword according to my request. Otherwise... you will die a horrible death."

Levi threatened.

He was worried that he knew too little about Madam Ghost. If he could take down this person, he could know his enemy and himself.

"I'll do it, I'll do it!"

After the black-robed wizard swore, his face turned pale.

Levi began to question him.

After asking, his expression turned solemn.

"As expected, Madam Ghost is also behind the disappearance of those knights. What does she want these knights for?"

This Third-Circle Wizard was only following orders. He did not know Madam Ghost's true motive. He only knew a portion of her spells and methods. Other than that, there was nothing of value.

Levi did not kill the wizard. This person had left a soul token with Madam Ghost. If he died, Madam Ghost would be alerted.

Levi bound him with a spell and took away his storage bags. He imprisoned his mental strength to prevent him from casting a spell to send a message to Madam Ghost. Then, he placed him around the holy temple and was guarded by Blood Lady.

"Madam Ghost can't leave for the time being. During this time, we have to properly set up the battlefield.

"I only have one fourth-circle array. It is impossible to gather the second set of fourth-circle array materials and refine them in a short period of time.

"It is not appropriate to lure Blood Lady to the entrance of the Ancient Saint plane to fight. That might expose the existence and coordinates of the Ancient Saint plane. Madam Ghost already knows the coordinates of Dusk Island and can come at any time. Therefore, the most suitable battlefield is Dusk Island.

"I'll temporarily remove the fourth-circle array from the Ancient Saint plane and switch it with the third-circle array of the Dusk Holy Temple."

Chapter 1003: Dharma Idol—Crimson Emperor Burns the Sky! (5)

"Next, we have to wait for Madam Ghost's arrival."

Three days later, under the lead of the Golden Lion Knight, the members of the Dusk Holy Temple moved into the Ancient Saint plane.

Initially, Levi wanted Dusk Island to be his bridgehead in the human world. But now that he was in big trouble, he was no longer inflexible.

The water in the human world was getting deeper and deeper. It was better to let the holy temple survive on the Ancient Saint plane first.

Levi didn't move everyone. He left some knights behind. This was to prevent Madam Ghost from suspecting him when she saw him playing the empty city strategy.

After that, Levi went to the Ancient Saint plane and temporarily used the third-circle array to protect it.

There shouldn't be any problems in the short term.

Then, he brought the Hell of the Seven Kings.

They arrived at Dusk Island and began to make arrangements.

Seven days later, this fourth-circle array was finally completed.

From the outside, Dusk Island looked no different from an ordinary island.

The holy temple above was built against a mountain. It was majestic and spectacular.

The knights were cultivating everywhere on the island. Everything was operating in an orderly manner.

However, if an enemy stepped in rashly, they would discover that there was another world around the island.

The seven-colored hell protected Dusk Island.

Levi sat alone in the Extreme Path Palace.

He sent Dinos and the others to the Ancient Saint plane to preside over the Knights.

From then on, when it concerned the Dusk Holy Temple and the Ancient Dragon Empire, one was dark, and the other was bright. They would govern the Ancient Saint plane together.

In the blink of an eye, half a year had passed. Levi waited in the Extreme Path Palace for half a year.

Madam Ghost did not come either.

She did not send any other subordinates to investigate.

In this half a year, Levi was studying the Purification Elixir in the Extreme Path Palace.

He had finally succeeded.

In the laboratory, Levi looked at a fresh potion. The potion was transparent and five-colored, and there was no smell.

"If it wasn't for the damn Saint Fruit, he would have come out long ago."

Levi could not help but complain.

With a thought, a black mirror fragment appeared in his hand.

It was the Soul Artifact fragment he had bought from Jacob.

"As a primordial soul, Jacob is hiding in an ordinary market. He's so low-key. I've never heard of such a Number One primordial soul wizard..."

"In this world, there are indeed many people who quietly develop."

There were marks left behind by other primordial soul wizards on the Soul Artifact fragment.

Without a special method, even a primordial soul wizard could not remove it.

Levi could not guarantee that the Purification Elixir would succeed.

But from the description of The Tomb of Fireflies, it could purify “terror bugs” into “Totem Rule Bugs”.

A special transcendent system like the Bug Luminist was born.

It shouldn't be a problem to purify this mark.

With that, Levi placed the fragment into the Purification Elixir. Gradually, tiny bubbles began to appear in the Purification Elixir.

In the bubble, Levi seemed to see countless little people. These little people all looked the same.

This appearance was exactly the same as the dead primordial soul wizard Levi had seen in the newspaper.

"It's working!"

Levi was excited.

This primordial soul wizard was really unlucky.

The Endless Sea's primordial soul wizards were as rare as phoenix feathers and qilin horns.

Ordinary wizards might not even meet one in their entire lives.

In the end, he bumped into Jacob, who was hiding in the fish pond.

Purification was not something that could be completed overnight.

While waiting for the purification to succeed, Levi practiced his swordplay on Twilight Island.

Another way to increase attack power was to cultivate Destruction Sword Qi.

If only he could do it before Madam Ghost arrived.

After cultivating the Destruction Sword Qi to level 9, his attack power could be increased again.

A month later, the Soul Artifact fragment soaked in the purification potion. There were no bubbles at all.

Levi examined it.

"There shouldn't be any marks left."

Just to be safe, he waited a few more days. He even added a new purification potion.

The cost of this thing was not low.

In the end, he confirmed that there was indeed no mark on the Soul Artifact fragment.

"Next, I can absorb the remaining primordial soul power."

Levi placed the Soul Artifact fragment in his palm.

Then, he began to meditate.

Seconds ticked by. Gradually, Levi realized that there was an extremely faint warm current. It began to surge into his mind from his palm.

As soon as this warm current entered his mind, the Divine Ring Tower cheered excitedly.

Even the 251 drops of spiritual force dew began to tremble. Then, the Divine Ring Tower spun rapidly.

A strange suction force came.

That warm current circled around the Divine Tower...

Every time it flew a circle, it would become smaller.

Correspondingly, Levi's Divine Ring Tower became more and more solid.

In the end, when all the warmth disappeared, the Divine Ring Tower in Levi's mind expanded visibly.

The degree of condensation was also different from before.

Not only that, but when Levi's consciousness sank into it, he was surprised to discover that in the Divine Ring Tower, the original 251 drops of spiritual force dew actually became 252 drops.

Levi could also clearly feel that his spiritual power had strengthened a little.

"How can it increase spiritual force?"

Levi's expression was grave.

When he was researching previously, that person did not say anything.

Refining a Soul Artifact fragment had such a function!

"Could it be that there's still spiritual force left in some Soul Artifact fragments?"

Levi pondered.

It should be different Soul Artifact fragments with different refinement effects.

However, it should be common to strengthen one's primordial soul power and condense the Divine Ring Tower!

Chapter 1004: Dharma Idol—Crimson Emperor Burns the Sky! (6)

One point of spiritual force.

It looked inconspicuous.

But for Levi, this was equivalent to three months of hard work!

This might be a year or even several years of bitter cultivation for other wizards with ordinary talent!

Without a doubt, this was a major discovery.

Levi was a little excited. Then, he slowly calmed down.

"Soul Artifact fragments are too rare and difficult to obtain.

"Furthermore, there might not be any residual spiritual force. This method can only be said to be icing on the cake.

"It is difficult to be the main method to increase one's mental strength.

"I shouldn't expect too much. Moreover, the increase in spiritual force is too simple and crude.

"Without meditation, there is no process of improving my state of mind.

"I'm afraid that there will be hidden dangers in the future.

"It's better to focus on cultivation."

Even so, Levi decided to pay more attention to the Soul Artifact fragment in the future.

Even if he did not have spiritual force, absorbing the primordial soul power inside to strengthen the Divine Ring Tower was also a good thing!

After some thought, Levi called Guillermo over.

"Guillermo, attack me with your mind spell."

Mind spells were a type of spiritual force attack. Through this, he could test the changes in the Divine Ring Tower.

Guillermo nodded, and purple tentacles appeared on the Poison Fire Corpse Demon's face.

The Mind Flayer revealed its true form.

In the next moment, a purple light flashed.

Illusory octopus tentacles went straight through Levi's golden-scale defense to his mind.

The next moment, the Divine Ring Tower shone brightly.

Thump!

Amongst them, it even made a sound like a yellow bell.

Under this voice, the octopus tentacles began to melt like snow.

Dong!

With another sound, it vanished into thin air.

The Mind Flayer grunted and looked a little dispirited.

He smiled bitterly. "My mental spells are ineffective against you, Master.

"Not only that, but my mental strength has also suffered some injuries."

"Stand down." Levi was pleasantly surprised.

As expected, after the Divine Ring Tower solidified, its defense against spiritual force attacks had increased by a lot.

Although the Mind Flayer was not level 5, even a fifth-circle wizard might not be his match in terms of spiritual force attacks,

He was born to make a living from this.

Divine Ring Tower.

Now, not only could he passively resist the impact of spiritual force, but he could even take the initiative to attack.

He used the magical bell to wear down the Mind Flayer's mental attack.

Moreover, it would cause it to suffer backlash damage!

In that case, it wouldn't be a problem to defend against Madam Ghost's mental attack.

At the very least, he wouldn't be at her mercy.

"Now that everything is ready, we're just waiting for Madam Ghost to come. I feel uneasy if I don't deal with her."

...

Holy Brilliance Calendar Year 1146, Month of Harvest.

Gaia Kingdom.

The forbidden spectre zone.

In Madam Ghost's huge laboratory, armored knights were immersed in transparent containers.

Other than knights, there were also body-refining wizards.

There were also some giants with powerful bodies and other humanoid races.

Madam Ghost seemed to have forgotten about the Dusk Holy Temple.

Hell couldn't wait any longer.

She had to release some devil lords to the human world in advance.

Therefore, during this period of time, she could not care about anything else.

Her cooperation with the Duke of Blood Lake concerned whether she could become a fifth-circle senior in the future!

Behind Madam Ghost were many of her subordinates. There were fourth-circle, third-circle, and low-level wizards.

After everything was prepared, Madam Ghost began to set up a complicated summoning array.

Then, she and her subordinates began to summon!

As they chanted, pitch-black doors appeared in the void of space.

On the other side of the door was a dark hell that emitted the aura of death.

"Hehehe... Madam Ghost, is my human body ready?"

A terrifying voice sounded. It was the Duke of Blood Lake.

"Blood Lake, I've already prepared it. However, apart from you, the number of vessels now can only accommodate 18 demon lords and 300 little demons... There are still hundreds of vessels that I haven't had the time to retrieve..." Madam Ghost said coldly.

"That's enough. Let's do this for now. We'll wait for the second batch. Our deal is long-term cooperation." The Duke of Blood Lake's voice sounded.

With the strength of their army, it would be considered an organization of Fifth-Circle Wizards in the Wizard World.

In this world, it could be said to have swept through everything.

At that time, he would have to have a good fight with those fellows from the Church!

They would make these sanctimonious fellows of the Church, who were always defaming the devils of hell, pay the price!

Moreover, if the devils wanted to harvest the souls of the human world, there would definitely be a conflict with the Church.

"Hurry up and let us descend to the mortal world!" the Duke of Blood Lake urged.

Madam Ghost's eyes flickered. She had to be careful when making deals with devils.

After some thought, she said, "Before I let you out, I'll confirm our deal. I'll provide you with the opportunity to descend to the human world and a human body. You need to send someone from hell to collect the materials on our collaboration list for me, right?"

"What? Madam Ghost, do you think I, the dignified Devil Duke, will go back on my word?" The duke sneered.

"That's not it. I'm just confirming," Madam Ghost said.

"Don't worry. As long as you let me out now, I can immediately provide you with a batch of resources from Hell. These are all things that you wizards like... Without the status of us devils, even as a Fifth-Circle Wizard, it will be very difficult for you to obtain these things in the Hell plane," the duke said with a smile.

Madam Ghost pondered. With her strength and the spells of the School of Death, she could head to the first five levels of hell. However, that would definitely be accompanied by a huge risk.

What if she met some Archdevil of Hell who was so bored that he wandered around the first few floors?

She was definitely doomed.

So, she thought of a way: to make a deal with the devil.

She gave the devil the chance to go to the human world to harvest souls.

The devil had provided her with the unique resources of hell.

This was strictly forbidden by the Wizard Council.

After being discovered, the severity was equivalent to colluding with the Abyss!

But in this era, if she didn't do anything illegal, how could she improve her strength?

How could she compete with her senior sister, who was favored by their teacher?

With this thought in mind, Madam Ghost no longer hesitated.

She and her subordinates chanted an incantation. She brought all the devils from hell to the human world.

Black smoke gushed out of the crack. Then, it drilled into the prepared containers in an orderly manner.

As the thickest black smoke emerged, arrogant laughter sounded in the laboratory.

"Hahaha, the great Duke of Blood Lake is back!"

The black smoke entered a vessel refined by a third-circle water giant.

In an instant, the water giant's body began to change drastically as blood gushed out.

Not long after, a huge demon with a pig face and fangs that looked like a mountain of flesh appeared.

As soon as he appeared, he opened his mouth.

Accompanied by a stench, beams of light surged in front of Madam Ghost. These lights included medicinal herbs and ores.

There were also some materials for the hell creatures.

"This is the deposit. I'll give you the rest after you finish making the other vessels," the duke said with a smile.

Madam Ghost put it away. After confirming there was no problem, she said, "You guys can leave. I'll make up for the rest. Prepare what I want too."

"Happy cooperation, Madam!"

Accompanied by a strange laugh, these devils turned into black flames and flew out of the forbidden area. Their arrogance was extremely arrogant!

On Dusk Island, in the Extreme Path Palace.

Levi, on the other hand, waited patiently. As he waited, he prepared.

Suddenly, there was a commotion in the Greenfield Immortal House.

Levi's expression changed and he entered.

Leon finally woke up after sleeping for so long. He did not know what had changed in his sleep this time.

Chapter 1005: The Fallen Fifth-Circle! (1)

Evernight Kingdom.

In the cold wilderness, there was a valley with dense frost elements.

There was a wizard tower. This wizard tower was completely carved from ice and was crystal clear.

At the top of the wizard tower, a giant bird covered in gorgeous blue feathers stood proudly. It gently combed its feathers.

Occasionally, some feathers would fall. The moment they left its body, they would turn into white cold flames and disappear without a trace.

This was a fifth-circle creature, the Frost Flame Ice Bird. It was the Ice Phoenix Ferlin's Primordial Spiritual Beast.

The Frost Flame Ice Bird absorbed the elemental power and was actually cultivating on its own.

The growth of spiritual beasts could also be reflected in spiritual wizards. Therefore, in the early stages, the cultivation speed of psychic wizards was relatively faster.

Of course, this sect was limited by the quality of spiritual beasts in the later stages. There were very few experts.

Since its birth, not a single Legendary Wizard had appeared, and there were very few Grand Wizards. The last time a Grand Wizard was born was also tens of thousands of years ago.

The current School of Spiritualism truly respected the primordial soul.

Compared to the traditional Elementalist School, which had a large number of people, it looked shabby.

Of course, this was not the worst.

According to the Wizard Council's last census report, after being certified by the congress, they could form their own wizard school.

The worst was... the School of Insects.

The School of Insects originated from the School of Spiritualism. But now, it was declining. The abilities of the wizards of the School of Insects were all on the Zergs.

Their combat strength was relatively low. It was also a sect that controlled other creatures to fight.

The spiritual beasts of the School of Spiritualism could at least fuse with wizards. This would increase the ability of wizards to protect themselves in all aspects.

The wizards of the School of Insects could not do it. This was because the Zergs were not strong individually, but in groups.

To most wizards of the School of Insects, selecting a single Zerg as a spiritual beast did not have much combat strength.

Moreover, because the Zergs had to be placed in the Bug House, very few wizards from the School of Insects had entered the Dark Ancient Tower since ancient times.

It would be useless even if they went. There were so many Zergs that one could not bring them in at all.

As time passed, the School of Insects was declining.

Today, even the primordial soul wizard was gone.

Only a very small number of School of Insects wizards were still struggling at death's door in the Wizard World.

Under the choice of survival of the fittest, the only way to welcome the School of Insects was probably to die.

It was said that if the School of Insects reached the later stages, they would have countless Zergs and could sweep through their peers.

However, the biggest problem was that... they would not be able to survive until the later stages. The nurturing mode of the Zerg made the resources consumed by the School of Insects far exceed those of the other schools.

The so-called "late stage" was simply a beautiful idea.

In the icy steeple, there was an empty cultivation room.

The Ice Phoenix was among them, wearing an experimental robe.

In front of her, there were insect eggs.

These eggs were like ice crystals and were as big as hailstones, emitting a dense cold aura.

Everyone thought that Ice Phoenix was a Fifth-Circle Wizard from the School of Spiritualism.

Little did they know that she was the last descendant of the extinct wizard organization, the Calamity Steeple.

The Calamity Steeple was one of the few high-level wizard organizations in the history of the School of Insects.

However, it had already gone extinct ten thousand years ago. The reason for its extinction was the Tower Master of the Natural Calamity Steeple.

Calamity Wizard, Insett.

To find and nurture powerful Zergs, he stepped into the Dark Ancient Tower ignoring everyone's advice... and never returned.

They would be left in the Dark Ancient Tower forever with the catastrophe wizards.

There were also the high-grade Zergs ranked seventh on the Zerg Ranking.

Heaven Crystal Dragon Ant!

This was one of the few Zergs that specialized in individual combat. It was extremely strong and invulnerable. Although it had the name "Dragon", it was not a mixed-blood Dragon Clan. However, because of these mere ants, their strength was even more terrifying than sub-dragons!

They fed on mixed-blood Dragon Clans, so they were called: Dragon Ants!

The Calamity Wizard imitated the School of Spiritualism. He would use this Heaven Crystal Dragon Ant as his Primordial Spiritual Beast. Then, he placed it in the Spiritual Space and brought it into the Dark Ancient Tower while leaving the other Zergs in the Wizard World.

Unfortunately, things did not go as planned.

In the end, the catastrophe wizard did not return from the Dark Ancient Tower.

Since then, the wizards in the steeple believed that the Tower Master was dead.

Without the primordial soul suppressing them, they all had ulterior motives. They divided up the resources of the steeple and the mutated eggs.

The remaining high-level organization also fell apart.

The Ice Phoenix's ancestor was once a member of the Calamity Steeple.

Her ancestors obtained several high-grade and medium-grade mutant eggs.

However, as time passed, time changed. These Zergs were either dead or running.

Now, only the Ice Phoenix was left.

There was only a Zerg Illustrated Book and some Zerg cultivation and control knowledge.

As for the eggs, there was only one left.

The Ice Crystal Egg in front of her was one of them.

"Frost Dragon Centipede, high-grade Zerg, 32nd on the Zerg Ranking. Just like the Heaven Crystal Dragon Ant, it is also a Zerg that focuses on individual combat strength.

"If it's nurtured to its full form, it should be comparable to a fourth-circle senior wizard."

On the Zerg rankings that were circulating outside, was actually because of Insett, the Master of the School of Insects.

He studied the list of Zergs from ancient times, which had been passed down to this day.

There were hundreds of Zergs on the entire rankings.

After the 108th place were low-grade Zergs.

For example, the Red-Faced Sea Ghost Spider that Levi had obtained.

It was the best among the low-grade insects, close to the Middle-grade insects.

The 37th to 108th place were middle-grade insects.

Chapter 1006: The Fallen Fifth-Circle! (2)

The top 36 were all high-grade Zergs. The further they progressed, the stronger they became!

Among the high-grade Zergs, very few won by themselves, such as the Heaven Crystal Dragon Ant and the Frost Dragon Centipede.

Most of them won by numbers, such as the Black Calamity Ants and the Blood-devouring Mosquitoes.

The cost of the insect sea strategy was too high, and the nurturing time was too long.

The Calamity Wizard had always been focused on researching powerful single-target Zergs, such as the Heaven Crystal Dragon Ant and Frost Dragon Centipede.

They were all powerful Zergs nurtured by the Calamity Wizard, and they were a series of them.

The Frost Dragon Centipede was a failed product of early experiments. It was ranked lower, while the Heaven Crystal Dragon Ant was a successful product.

All along, because of the decline of the School of Insects, the focus of the Ice Phoenix's cultivation had always been the School of Spiritualism.

But now, her Primordial Spiritual Beast, the Frost Flame Ice Bird, was already at the maximum of the fifth-circle, and it was difficult to advance any further.

After suffering a crushing defeat in the last battle with the Arctic Wizard, she had been thinking about how to increase her strength.

As for the high-grade Zerg passed down from her ancestors, she remembered it again.

The eggs of these Frost Dragon Centipedes were somewhat special compared to the other mutated eggs.

Using a secret technique to preserve the living being in the egg, it could sleep in the ice for ten thousand years without dying.

When the time was right, she would unseal it.

"Zerg nurturing consumes a lot of energy. I originally planned to find an opportunity to auction it off. However, the opening of the Dark Ancient Tower is an opportunity.

"As long as I obtain the key and enter the Dark Ancient Tower before it opens, Then I can use the Frost Dragon Centipede to find the Heaven Crystal Dragon Ant of the Calamity Wizard...

"These two types of Zergs are of the same lineage. There should be a special connection between them."

The reason why the Ice Phoenix was certain that ten thousand years had passed was that there were still Heaven Crystal Dragon Ants in the Dark Ancient Tower.

It was because the Calamity Wizard had brought in an ant queen!

According to her research, the Calamity Wizard's feelings for the queen ant named "Red Queen" were comparable to his wife's.

She felt that the other party would definitely not let the Heaven Crystal Dragon Ants go extinct so easily and die in the Dark Ancient Tower.

There was a high chance that the ant queen would give birth in the Dark Ancient Tower. Therefore, the inheritance of the Heaven Crystal Dragon Ant should not be cut off.

As long as she could think of a way to obtain the egg of the Heaven Crystal Dragon Ant, Ferlin was also confident that she could become the top expert below the primordial soul even if it wasn't purebred.

Primordial souls were in seclusion most of the time. In the current Wizard World, if one did not take the initiative to provoke the primordial soul, the world was so big, where could one go?

"That damn brat stole my Cold Pond. Otherwise, after refining the water of the Cold Pond, my spiritual beast might be able to increase its strength a little. Even if it can't be upgraded, it can still be used to hatch this Frost Dragon Centipede Egg. I'm so angry. I wonder where that brat went."

Although she did not know who the kid who snatched the Cold Pond was, Ferlin knew the identity of that kid's accomplice, the old wizard with the fifth-circle Wizard Tool.

Hence, when she was done with her work here, she wanted to return to the Endless Sea for a period of time and wait for that body-refining wizard named Salman. Then, she would force him to tell her where that kid was.

She could not afford to offend the Ocean Abyss Alliance. But now, she was alone and had nothing to worry about.

As a Fifth-Circle Wizard, it was not a problem to catch a Fourth-Circle Wizard.

The last time she was defeated was because the other party had more people than their side. Furthermore, she did not expect Salman to have a fifth-circle Wizard Tool.

This time, she was ready.

...

Emperor's Palace.

In the Greenfield Immortal House, a golden-armored Zerg with red spots and a body as big as a bull was lying on the ground.

This Zerg had wings on its back and a scorpion stinger on its tail. Its head was similar to a knight's helmet. It emitted a metallic luster, and one could vaguely see a human face pattern. As the wings flapped, a strange and sharp sound could be heard.

"Master, I'm hungry," Leon suddenly said.

Levi breathed a sigh of relief. He was worried that Leon would forget about him when he woke up.

Now, it seemed that the psychological hint he had made when it entered the dream had succeeded.

"Unfortunately, the knowledge and inheritance of the School of Insects are too rare. It's a little difficult to create a high-level insect control spell by relying on the existing knowledge."

Levi sighed inwardly. It wasn't that he hadn't looked for the inheritance of the School of Insects. It was not easy to find.

No one learned about this kind of unpopular sect.

Since no one learned, no new knowledge was born, thus the old inheritance gradually passed away in the sands of history. As time passed, it formed a vicious cycle.

"But from the looks of it, Leon's loyalty is not a problem."

Levi called Leon out. Then, he fed it the mountain of sea beast corpses.

"Leon, did your body change after you woke up?" Levi asked.

"Yes... I can eat even more. Howl!" After saying that, Leon plopped into the sea beasts' corpses and incarnated into a heartless rice-drying machine.

Not long after, these corpses were devoured by it.

Next, Levi used some methods to test Leon's strength. He realized that the defense of its shell was comparable to his golden scales.

"If Leon is also considered a Zerg, then it must be a high-grade Zerg."

Leon and Levi reckoned that ordinary fourth-circle senior wizards would not be able to defeat him.

Other than the increase in strength, Levi felt that there should be some other changes in Leon that he needed to gradually unearth.

This little guy's IQ was still a little anxious, and he could not communicate in depth.

"The other transcendent creatures can choose not to enter the Dark Ancient Tower.

However, he had to think of a way to bring Leon in. This little guy was a little special.

Chapter 1007: The Fallen Fifth-Circle! (3)

If Levi brought Leon in, it could greatly increase his strength. In particular, the ability to devour souls and track marks was extremely useful.

If it didn't work, there would be additional keys to the ancient tower.

"I'll give it to Leon. I just don't know if he will use it..."

After Leon woke up, Levi was even more confident in his plan to kill Madam Ghost.

This little fellow was a Soul Master. Madam Ghost was from the Ethereal Sect. Her strength was basically on all kinds of spiritual creatures and servants.

Since Leon could devour those troublesome Death Falls, these spectres must be Leon's food!

"But why isn't there any movement from Madam Ghost? Did she forget about me?"

Levi made his preparations, only to find that the enemy had yet to arrive.

However, he did not dare to relax and continued to cultivate in the Extreme Path Hall.

Just like that, another half a year passed.

Holy Brilliance Calendar Year 1146, Month of Flowing Fire.

On this day, Levi was reading the newspaper from the Endless Sea as usual.

A major piece of news came into view.

"A mysterious expert barged into the Realm of All Things on the Thousand Spirits Day and attacked the wizards at the festival venue.

"They abducted many rare transcendent creature eggs and younglings from the Spiritualism Steeple's transcendent creature Breeding Base.

"This included an egg of a sub-dragon.

"According to witnesses, the Wizard Tool used by the mysterious expert was a ten thousand feet tall white bone tower. This accident caused huge losses to the School of Spiritualism. Three Fifth-Circle Wizards from the Spiritualism Steeple who maintained order had died.

"The primordial soul wizard of the Spiritualism Steeple had already chased after the robber.

"The case is being investigated further. At present, no dark wizard organizations are responsible for this accident."

Upon seeing this news, Levi's first thought was the accident at the Star Auction a few years ago.

The All in One Festival was similar to the Star Gathering. It was a major festival of the School of Spiritualism.

On this day, the wizards of the School of Spiritualism would gather and exchange their experiences in beast taming.

At the same time, many rare spiritual beast eggs and younglings would be auctioned off.

Levi remembered when he left Nether Capital, those three assassin-type wizards used the standard White Bone Wizard Tool. It was obvious that the mysterious expert who attacked the School of Spiritualism was the same faction that had attacked the Star Auction.

"This mastermind organization should have more than one primordial soul wizard... Their background is not small.

"Perhaps they have the backing of a Grand Wizard. Fortunately, I'm in the human world. Compared to the Wizard World, this place is still godforsaken.

"That mysterious force shouldn't have come here to cause trouble. Speaking of which, some time ago, a mysterious person seemed to have snatched away the statue of the Church of Storms, could it be this group of people? In that case, I have to be careful in the human world. However, snatching away the Church's statue... This kind of thing is too wicked. Well done!"

Levi had completely forgotten about his youth. He had also snatched the Church's statue, and it was also from the Church of Storm. It was only because of the ambergris statue that his Black Snake Breathing Technique successfully entered the grand knight realm.

"Looking at the world, I have the best scenery."

Just as Levi finished speaking, his expression changed. He looked at his arm.

Previously, it was only an occasional warning, but at this moment, all the hairs on his body stood up. He calmed himself down. There was only one possibility for such a situation.

"Madam Ghost is here."

...

On that day in the Gaia Kingdom.

In the forbidden spectre zone, someone saw a rolling dark cloud leave this place and fly overseas from afar.

Wherever the dark clouds passed, vengeful spirits wrapped around them, and Yin Qi soared into the sky.

In the Church of Earth, a beautiful and holy woman was chatting with a benevolent-looking young man in linen clothes who looked like a married couple with the woman.

The holy woman was Saint Teresa of the Church of Earth. As for the youth in sackcloth, he was Saint Ye Lin of the Holy Brilliance Church.

Teresa's expression changed slightly as she said, "Madam Ghost has left the forbidden area. I wonder why?"

Ye Lin said, "It doesn't seem to have anything to do with us. The most important thing now is how to deal with Blue Frost Lord's daughter. Her body contains the Blue Frost Lord's Bloodline of God. She is a true descendant of God.

"If she grows up in the future, it will be a complete disaster for us."

Teresa frowned and said, "With just the two of us working together, even if we defeat this woman, it would be difficult to keep her here. She could hide in the Blue Frost Plane at any time.

"If we can invite Groudon or Caroline..."

Ye Lin shook his head and said, "Groudon and I don't have a good relationship. Besides, he's in a terrible fix now. A mysterious wizard snatched the statue of the God of Storm's Mountain and disappeared. Groudon is busy complaining to the Lord of Storm about it.

"A Fifth-Circle Wizard also came from Caroline's side in the Evernight Kingdom. The Wizard World had just undergone a drastic change in the past hundred years. The structure of the past no longer existed. Promises can also be broken.

"Other than those evil gods, we have to be careful of the wizards."

...

In the sky above the outer sea region, a dark cloud that was about an acre in radius was rapidly flying forward. These dark clouds were all made up of spectres, and their speed was extremely fast.

Madam Ghost was sitting on the clouds with ghosts surrounding her.

After trading with the Duke of Blood Lake, she used those resources to cultivate for a period of time and her strength improved slightly. This made her eager to continue trading.

After the investigation of the people she sent out...

Chapter 1008: The Fallen Fifth-Circle! (4)

In the end, it was confirmed that this knight organization probably had a wizard background, but it didn't belong to any large wizard organization!

The leader of this knight organization seemed to be called a supreme knight. Moreover, his name was the same as the one that killed Barzan. He was called Levi.

They just didn't know if these two Levis were the same person. After all, such a name was too common.

Whether it was the same person or not, it did not matter anymore. In Madam Ghost's heart, this knight organization would no longer exist after tomorrow.

Since the knight was the leader of the organization, that meant that the upper limit of the organization was there.

As a Fifth-Circle Wizard, there was no need for her to be afraid. The most important thing was to complete the remaining transaction with the duke as soon as possible.

Not long after, Madam Ghost came to this sea area that was rarely visited because of the frequent storms based on the coordinates sent to her by her previous subordinate. She spread out her spiritual force. Not long after, her face lit up.

"As expected, there's a knight organization here..."

She stood in the clouds and looked at the island below. She could feel with her powerful spiritual force that many knights were cultivating in the hall.

The only one who made her expression change was a Fourth-Circle Wizard who was meditating. Judging from the flashing body-refining runes on the surface of his body, this person was a body-refining wizard. Furthermore, why did that person's body-refining runes feel similar to Barzan's?

"As expected, Levi, who killed Barzan, is the leader of this knight organization, the supreme knight Levi!"

She had searched high and low for him, only to find him without much effort. After searching for the murderer for so long, she did not expect to find him here by accident.

"Furthermore, this person's body-tempering realm is actually at the fourth-circle... If he's refined into a vessel, it's enough to withstand the Archdevil of Hell's descent. I can use this to make a deal with the Archdevil of Hell."

Madam Ghost, who had already tasted the sweetness of making deals with demons, was already controlled by greed.

But she forgot to make a deal with the Archdevil of Hell. That was an extremely dangerous matter!

Madam Ghost's heart turned cold. She clenched her right hand gently. The spectres under her formed a giant spectre hand. A huge hand descended from the sky and grabbed at Levi.

Levi, who was in the Extreme Path Palace, opened his eyes. His expression changed as he flew out of the hall. In an instant, the hall was reduced to dust by the big black hand.

The other knights on the island retreated to the bottom of the island to take refuge. There was a prepared protective array there.

"A Fifth-Circle Wizard..."

"Lord, what is the meaning of this?"

Levi asked, his voice trembling uncontrollably. Although he did not panic, this was the attitude a normal Fourth-Circle Wizard should have when facing a fifth-circle. He had to let the enemy be careless so that he could win better!

"You killed Barzan, right?" Madam Ghost sneered.

"Who's Barzan? I don't know him." Levi was still stubborn.

Under the attack of the spectre's huge hand, he kept dodging and scurrying away like a rat. He looked extremely pathetic.

"Since you don't want to say it, you'll speak when I turn you into an undead. You killed my senior sister's child.

"Today, I'm under senior sister's orders to avenge her. It's reasonable!"

Actually, Madam Ghost wasn't that obsessed with avenging Barzan. The one who died wasn't her child, but her senior sister's.

If not for the fact that she was afraid of her senior sister, she was worried that she would find trouble with her after coming to the human world.

She wouldn't care about this. Her motive for killing Levi now was purely because she was envious of his strong body and could make a deal with the devil!

By saying this, she was using her senior sister's name. What if there was really a powerful force behind this kid? She had to drag her senior sister down with her. She was determined to kill.

The ghostly dark clouds under Madam Ghost surged into her body. The next moment, at her ribs. Two ghost arms that were a thousand feet long and as thin as firewood suddenly stretched out.

The pitch-black ghost arm emitted a heavy aura of death. Upon closer inspection, the ghost arms were all made up of spectres. Madam Ghost had already entered the range of the array.

Levi smiled and chanted. On his body, seven small flags of different colors flew out. They flew in seven directions and quickly sank into the sea around Dusk Island.

With a snap of his fingers!

Snap!

The next moment, it was as if seven volcanoes had exploded at the same time. A total of seven thick rays of light erupted from the sea around Dusk Island!

They shot straight into the sky!

Immediately after, a colorful world descended!

Because of what happened to the Third-Circle Wizard, Levi deliberately turned off the array before Madam Ghost arrived to prevent her from being too cautious and sensing that there was an array around Dusk Island.

He wanted her to step into it to fight. He also specially made a sub-array to activate the array in an instant.

When Madam Ghost entered the range of the array, she would activate the array and he would catch the turtle in the jar.

Now, Madam Ghost was already enveloped by the array. This was Levi's territory! At this moment, Levi finally had the confidence to fight her!

"Welcome to the Seven Kings of Hell!"

...

She looked up at the sky. Meteorites fell from the sky, unstoppable!

She lowered her head and looked at the ground. Countless earth spikes shot out densely!

"An array?"

Madam Ghost's expression changed slightly. Then, everything returned to normal.

"Looks like it's a fourth-circle array... Fortunately, I can break it with brute force!"

Chapter 1009: The Fallen Fifth-Circle! (5)

Madam Ghost did not know much about arrays. Little did she know that this was no ordinary fourth-circle array.

She was currently in the first level of the Rolling Stone Hell! There were still six levels of hell behind! Moreover, these hells could be presided over by Levi, the owner of the array. He could change the order at will or even combine them at random.

Levi was in a sea of fire. He had already prepared all his trump cards.

"Let's wait and see what trump cards she has through the array."

"To prevent me from using my ultimate move and not instantly killing the other party."

In the Rolling Stone Hell, the meteorites that fell from the sky could instantly shatter the Third-Circle Wizard's protective force field. Even a Fourth-Circle Wizard could not stay inside for long.

But Madam Ghost was a fifth-circle cultivator.

"No wonder he could kill Barzan. It turns out that he relied on the power of the array!"

She was filled with disdain.

The thousand-foot-long ghost arms on both sides of her body waved. The rolling stones were all shattered or sent flying, and debris fell from the sky. The earth spikes that shot towards her from below was also blocked by the black cloud formed by the countless spectres below her.

"If you think you can defeat a Fifth-Circle Wizard with a mere fourth-circle array, you're too naive!"
Madam Ghost laughed angrily.

As a Fifth-Circle Wizard, she was toyed with by a fourth-circle. It was as if a Lord was trapped by a trap set by a child. This made her very unhappy!

But Levi ignored her. He was taking the opportunity to observe Madam Ghost's methods.

When the time was right, he would make his move and instantly kill Madam Ghost with lightning speed!

Not long after, Madam Ghost passed through the Rolling Stone Hell. Just as she was about to start a massacre, she realized that the world was spinning. She was in an endless sea of fire again.

Inferno Hell!

This time, it was a meteor shower. They were small suns that were almost as powerful as the Sun Flame Explosion. They exploded beside Madam Ghost.

Rumble!

Flames soared into the sky everywhere!

Madam Ghost's expression changed. Her spectre was most afraid of lightning, followed by flames!

These two factions were also the nemesis of most Death Sect wizards!

The endless spectres that formed the protective force field around her gradually faded. Although this change was not obvious, Levi could tell it.

"These spectres are also consumables... It's just that there are so many of them that I thought they were endless at first. Then, I'll use the array to exhaust her. I'll take the opportunity to launch sneak attacks. She won't be able to figure out whether it is real or fake.

"In the end, in the Lightning Hell, we will rely on the powerful restraining ability of lightning against spectres to kill them!"

With this thought in mind, Levi's snake-shaped Hermit Rune flashed. The next moment, he disappeared into the array. His current Spiritual Power was 255 points!

In theory, it was very difficult for ordinary Fifth-Circle Wizards to see through his invisibility. Of course, practically, if the difference in mental strength between the two sides was too great, she could sense someone approaching even if she couldn't see Levi.

Just as Madam Ghost was about to break out of the sea of fire, her powerful spiritual force sensed danger approaching.

With a clap of her hand, a black ball of ghosts flew out.

Boom!

Third-circle talent—Soul Explosion Bomb!

Boom!

With her fifth-circle cultivation level, even if it was a third-circle innate spell, its power was comparable to an ordinary fifth-circle spell.

It was as if a black hole had formed in the void.

The shock wave cleared the sea of fire. After everything calmed down, there was nothing on the spot.

"Pretending to be mysterious! Wait until I break this array!"

On the other side, Levi, who had dodged the attack, still had lingering fears.

"The power of a casual attack is more than 200 Cas... This is a genuine Fifth-Circle Wizard. Fortunately, I have an array. Otherwise, it would be impossible for me to defeat a fifth-circle."

Levi was already hiding in the next level of hell.

Madam Ghost tore the sea of fire apart with a spell. She had finally arrived at a clear blue world, but her expression was still solemn.

"What array is this? How many levels are there? Damn it!"

Madam Ghost realized the seriousness of the problem. With her strength, she could easily break the array. But if there was no end to this first level...

Even if she was a Fifth-Circle Wizard, she would be exhausted to death!

"Impossible! He's just a Fourth-Circle Wizard. How can he set up such an array?"

"In the face of absolute strength, these little tricks are useless!"

On the surface of the sea, there was a loud rumble. An azure wave that was a thousand feet tall filled the sky. At the same time, thousands of green wind blades whistled over.

Wind Blade Hell and Dead Sea Hell!

Joint attack!

Madam Ghost was calm as she pressed her palms together. It was the same for the thousand-foot-long ghost arms on both sides of her.

"Fourth-Circle Talent—God of Death's Scythe!"

Immediately after, a 1,000-foot-tall, pitch-black undead spirit that looked like a demon god appeared! The undead held a huge sickle that was as black as ink in its hands!

One slash could flatten a small mountain!

The aura of the undead spirit was immensely strong.

Levi, who was hiding in the next hell, paled slightly.

"What a powerful summoned creature! I don't think I can withstand its attack even if I use all my defenses. I have to think about how to deal with it when the time comes..."

An incomparable black light appeared!

It was as if the world had been cut apart!

The huge wave and wind blades in front of Madam Ghost disappeared!

With one strike, he broke through the two hells! This was the might of a fifth-circle!

However, Madam Ghost's expression was still dark. That was because she still had not escaped the control of the array!

"Earth, Fire, Wind, and Water..."

Even if she didn't know anything about arrays, she knew what kind of obstacles lay ahead.

Chapter 1010: The Fallen Fifth-Circle! (6)

As expected, a cold wind blew over. The world seemed to have entered winter.

The undead behind her had just split open this world of ice and snow.

In the sky, countless knights' longswords condensed from metal power and emitted a cold light! They formed a long river of sword qi that swept over majestically and stretched for a thousand meters!

"Petty tricks!"

Her powerful scythe undead spirit tore open this world again.

"Next should be the last one. That kid should be waiting for me there.

Are you trying to use the lightning element to restrain me against me?

"Then I'll let you know how big the gap between a fourth-circle and a fifth-circle is!"

Madam Ghost took a big step forward. As expected, she arrived at a sea of purple lightning. In the sky, lightning spread like a spider web, tearing the sky apart. Bolts of lightning that were comparable to third-circle spells fell from the sky. Although its power was inferior to fifth-circle lightning, the quantity was too dense. The protective force field around Madam Ghost became weaker and weaker.

"I have to break the array quickly. Otherwise, the situation will be disadvantageous to me."

Just as Madam Ghost was about to attack, a purple Thunder Dragon phantom flew over quickly accompanied by the sound of thunder. A 100-foot-tall Golden-Scaled Dragon Man with dragon horns was in the phantom.

Golden Snake Dance and golden shields surrounded the Dragon Man. There were even layers of protective force fields of different colors stacked up, densely packed with various spell runes.

Madam Ghost was shocked. What kind of insecure and bored wizard would spend so much effort to stack so many armors?

Behind the Dragon Man, the three-headed and six-armed Nine Swords evil spirit raised the Crimson Dragon Slash! Night descended, plunging this world into darkness!

“Die!”

The Dragon Man slashed out!

It was like the breath of a giant dragon!

The sword qi was pitch-black like ink and wrapped in flames tore through the sea of lightning and arrived instantly!

Madam Ghost, who sensed the extraordinary sword, didn't have time to think about how a mere fourth-circle could release a fifth-circle attack.

She just thought that this kid had a special treasure or a fifth-circle Wizard Tool!

Fifth-Circle Force Field: Nethercloud Barrier!

Tens of thousands of ghosts surged out of Madam Ghost's body.

In the purple sea of lightning, it spread in all directions like ink!

The Black Sword Qi collided with the black force field!

The black light exploded!

The entire Lightning Hell trembled. This was a fifth-circle collision!

The spectre force field was torn apart. In an instant, a Wizard Tool that looked like a shroud flew out from her body. It blocked the aftershock of the sword qi!

“A fifth-circle Wizard Tool!” Levi had long known that Madam Ghost had a Fifth-Circle Wizard Tool.

In the next moment, the force field around him flashed wildly.

Unknowingly, the scythe undead had already arrived behind him. Like the real God of Death, the scythe was raised and was about to take his life!

Crack! Crack!

The golden shield was sent flying, and the Golden Snake Seed, which was connected by blood, felt a sharp pain!

Then, the Golden Snake Dharma Idol was torn apart. The saber light was unstoppable. After destroying all Levi’s defenses, he still had energy left!

Under the pressure of the powerful spiritual force, even the form of the blood fog could not be used!

At this moment, Levi’s next slash was already out!

The Crimson Dragon Slash collided with the scythe.

Crack!

The divine weapon whined. However, it also blocked the terrifying scythe. Not only that, cracks appeared on the terrifying scythe as it was forcefully shattered!

The scythe turned into countless fragments and landed on Levi's body covered in golden scales. Flames splattered everywhere, scales exploded, bones shattered, and internal organs shattered. To other wizards, these were already fatal injuries.

Levi heaved a sigh of relief.

"Blocked it."

Countless negative energy auras seeped into his body through the wound!

At the same time, the Death Ember Power surged over crazily and clashed with this power to repair his injuries.

Levi also had the protective force field of the fifth-circle Wizard Tool, but with his spell power, he could only use it once. He planned to use the World Burning Flame Snake to deal the finishing blow. Therefore, he had not used the Wizard Tool yet!

Moreover, Madam Ghost still had several innate spells that she had yet to use. Although he had made sufficient preparations, the power of the fifth-circle was still slightly beyond Levi's imagination.

On the other side, Madam Ghost was even more shocked. This scythe undead spirit was one of the most powerful methods she had mastered. It would consume a lot of her energy to let it fight.

"There's something strange about this person. We have to kill him before the scythe disappears!"

After receiving the scythe undead's attack, Levi released Leon, the blood-armored corpse demon, and the Poison Fire Corpse Demon.

"Leon, hold it off!"

Leon howled and attacked like a face-hugging bug. With its small body, it lay on the undead's face and started biting it. The scene was extremely cruel!

Without the scythe, the undead tore at Leon with its sharp claws. It left scars on Leon's impenetrable shell.

Unexpectedly, Leon bit through the unbreakable spiritual defense of the scythe undead and entered its brain. The undead's body visibly decreased. On the other hand, Leon began to expand uncontrollably, as if it was about to explode the undead's head.

The little guy said that his appetite had increased. Levi did not expect it to be so exaggerated. Moreover, the undead seemed to be instinctively afraid of strange insects like Leon. It seemed that all transcendent existences that involved souls and spiritual bodies were within Leon's hunting range!

The Poison Fire Corpse Demon and the blood-armored corpse demon became foils and tickled the undead at the side. No matter what, these guys had temporarily stalled the undead.
