

Wizard 1061

Chapter 1061: Giant Beast Paradise, Four-Circle Veteran! (5)

This time, Levi was only purchasing some commonly circulated spells from the market, so there was no danger involved.

Three months later, Levi returned safely from the Realm of Divine Wind, without encountering any incidents such as dark wizard ambushes.

The only thing that troubled him was that after purchasing a large quantity of knowledge from various schools, his Aether Stone reserves were reduced to only five million!

After accumulating for over a hundred years and investing heavily in knowledge acquisition, coupled with the continuous support from his dark wizard associates, Levi's spell library now boasted over 5000 cantrips, 1565 low-level spells, 323 third-circle spells, 108 fourth-circle spells, and 16 fifth-circle spells, covering a dozen or so wizard factions. It could be said that Levi was a walking spellbook.

In addition, those ancient spells were stored in the Truth Magic Mirror. Although outdated, they were still valuable references.

These were his most precious treasures.

Upon returning to the mortal realm, he didn't go out for leisure. Instead, he returned to the Ancient Saint plane to seclude himself and begin researching his Fifth Talent spells.

With the opening of the Dark Ancient Tower drawing nearer, he needed to enhance his strength as much as possible.

Now, he lacked nothing; he only strove for each day!

...

In the blink of an eye, a year passed.

In the year 1156 of the Holy Brilliance Calendar, during the Month of Vitality, the 55th round table meeting concluded successfully.

Andrew had already begun preparing for his formal wizard promotion and was expected to break through within the year. As for the realm of Blood Awakening Knights, it might take a bit longer.

The Divine Light Knight had also advanced to become a Blood Knight. One of the level 3 transcendent materials needed for her advancement potion came from the Giant Beast Paradise.

While exploring the Forsaken Land of the God, the Blood Knight obtained a small piece of Wind Spirit Moonshadow Iron. Because of this, she was pursued by a third-circle cave wizard organization for nearly half a year. Fortunately, her Maya Breathing Technique excelled in evasion and endurance, allowing her to escape without much harm.

Wind Spirit Moonshadow Iron was a relatively rare level 4 elemental metal, which contained the wind element and the power of the dark moon hidden within a trace of dark energy.

He learned that Levi needed materials containing the wind element and wanted to come back to give them to him, but Levi refused.

In Levi's eyes, level 4 elemental metals were no longer of interest, and that piece was too small to forge the Sky Dragon divine weapon he envisioned.

Besides, the elemental metal was obtained by the Blood Knight at the risk of her life, and Levi didn't want to exploit his senior and excellent employee.

The Blood Knight's Maya Breathing Technique was also of the wind element type, and he was also a member of the Secondary Blood Clan. The Wind Spirit Moonshadow Iron was simply a divine weapon material tailored for him!

On the Midland Squad's side, they recruited a knight candidate with dual-elemental affinity last year, as well as a Blood Awakening Knight from the Midland continent, known as the legendary "Thousand Illusions Knight," named Erica Cas, a female knight whose ancestral breathing technique was the "Illusionary Beast Breathing Technique."

This breathing technique was a perfect-grade perception-type breathing technique.

Legendary Illusionary Beasts were said to be able to construct powerful illusions and charm-like creatures, similar to foxes.

It was said that the charm ability of Illusionary Beasts was even more terrifying than succubi.

Erika's knight family moved to the Midland continent with a wizard thousands of years ago and existed as his knights, but the wizard disappeared into the annals of history. However, the knight family luckily survived to this day and even gave birth to what ordinary people would call a "legendary knight"!

Unfortunately, shortly after her legendary status, Erika was captured by a Second-Circle Wizard and became his servant. Later, the Second-Circle Wizard died at the hands of a dark wizard.

Afterwards, the wandering Erika was discovered by a Black Knight and, under the persuasion of the Midland Squad, joined the Midland Knights.

When enough people are gathered in the future, the Black Knight will lead the others on a pilgrimage to the mortal world. At that time, Erika may become the tenth official member of the Twilight Knights.

Levi also collected the Illusionary Beast Breathing Technique for future use.

Now, the Twilight Knights were divided into three branches.

At the headquarters of the Dusk Holy Temple, Dark Moon, Silver Dragon, Golden Lion, and Divine Light Knight were mainly responsible for the research of Talent Brand.

The Blood Knight explored the Forsaken Land of the God.

Ash, Goddess, Saint Ape, and Black Knight would establish branches on the Midland continent.

The development situation could be said to have been very promising!

On the other hand, the Giant Beast Paradise had also entered the right track.

As for the Ancient Dragon Empire, it went without saying that it had remained the strongest among Levi's three major forces.

Once Levi broke through to the fifth circle, he had planned to start researching the Ancient Saint Dharmic Formulation, aiming to enable the Ancient Saints to break through the fourth-level ceiling and enter the fifth level.

The path of the Ancient Saints had essentially been the same as that of the knights, both being the Bloodline Path. It should be considered a relatively successful attempt made by Sauron based on the knights' path, as it had given birth to so many level 4 Ancient Saints. Among them, the most successful experiment, the Initial Ancient Saint Yuan Tuo, had even surpassed the fourth level.

For the Ancient Saints to become stronger, they had needed to break through this fourth-level ceiling and enhance their abilities against opponents, enabling them to master transcendent abilities similar to the Talent Brand.

Once the theory on the knights' side had matured, Andrew or Dinos would have been sent to the Senior State Assembly to guide the Ancient Saints, referencing the knights to create their own transcendent abilities.

Chapter 1062: Giant Beast Paradise, Four-Circle Veteran! (6)

If Levi could have dozens of Ancient Saints comparable to Fifth-Circle Wizards, then the Ancient Saint plane, besides the Primordial Soul Wizards, would hold no fear for Levi!

Even with advanced combat arrays, assembling the power of dozens of Fifth-Level Ancient Saints might... pose a threat to Primordial Soul Wizards, perhaps.

After outlining the future plans for the three major organizations, Levi continued to stay in the Emperor's Palace, practicing and researching the Fifth Talent.

...

In the year 1156 of the Holy Brilliance Calendar, during the Month of Harvest.

The north of the Peacock Kingdom.

In the Montenegro Mountain City, on the frozen throne, a blue light gate suddenly appeared.

The silver-haired witch Sheely appeared here.

However, the witch was now a thing of the past.

The half-elf Sheely, who had the blood of the Blue Frost Lord within her, had long abandoned the path of wizardry. After awakening her divine power, her strength had increased day by day.

Now, she was at the Fifth-Level.

Above her head, two peak Fourth-Level Blue Frost Bone Dragons were circling. These bone dragons had been powerful mixed-blood dragons in life, but after being invaded by the Blue Frost, they became Blue Frost Undead.

There had been one more Fifth-Level bone dragon to protect her, but it had been killed by Ye Lin and Teresa.

With eerie laughter, dozens of black smokes descended from the sky and appeared in Montenegro Mountain City.

The thickest smoke condensed into a giant with a pig's face.

It was the Devil Duke of Blood Lake, who had been wandering in the mortal world, enjoying himself.

Beside the Duke of Blood Lake were Earl Sarlin and other strong individuals.

Earl Sarlin was extremely frustrated. His wife, Madam Boring, had disappeared without a trace after being summoned to the mortal world by the damned Death Wizard. Even his devil tracking marks left behind were useless. She must have been erased by some special secret technique.

He had been searching for her in the mortal world for so long, to no avail. He had completely given up.

“Which Archdevil of Hell’s underling are you? Why are you here?”

“The noble daughter of the Blue Frost Lord... It doesn’t matter whose underlings we are. Blue Frost and Hell are one family. Once, the Blue Frost Lord left Hell and established the Blue Frost Plane independently. Now, with the resurgence of the Dark Wave, relying solely on the power of the Blue Frost, it is probably difficult to confront the gods. We have come this time to seek cooperation. Your most beloved bone dragon was killed by the Church of Holy Light. Don’t you want revenge for it? As far as I know, there should be a sealed Sixth-Level Blue Frost Bone Dragon in the Heavenly Mountain of the Church of Holy Light... It was a fully grown sub-dragon, a Comet Dragon. If we join forces, the saints of the Church of Earth and the Church of Holy Light should not be our opponents. By then, breaking the Heavenly Mountain, releasing the Comet Bone Dragon, a Sixth-Level power, who in this mortal world can oppose you? Don’t mention the mortal world; even in the Wizard World, Sixth-Level is considered high-end combat power.” The Duke of Blood Lake spoke with the tempting tone characteristic of Hell’s devils.

“Why are you helping me? My father said devils are all cunning and deceitful!” Sheely said coldly.

“Because the Church is our common enemy. You want revenge for your father, to overthrow the Church of Holy Light, and I want this Church gone from the mortal realm so that we devils can have free rein,” the Duke of Blood Lake said unabashedly.

Sheely pondered for a moment before saying, "Alright, but I need some time to prepare. Within ten years, I will give you an answer."

The Duke of Blood Lake applauded and chuckled, "May our cooperation be fruitful, and may the Church of Holy Light cease to exist in ten years!"

With that, the Duke of Blood Lake turned into black smoke and, accompanied by a group of devil lords, soared into the sky, disappearing from sight.

...

Month of Winter.

Tuva Empire.

Above the God of Storm's Mountain, in the thunderclouds, the imposing figure of the saint Groudon appeared.

His strength had increased significantly compared to before.

The path of a saint could be divided into three realms.

Below level six, one was considered a saint.

Levels six, seven, and eight were God Attendants.

As for level nine, that was the realm of angels, qualified to be directly guided by the gods to the astral world and gain eternal life in their divine realm!

Although Groudon was still slightly short of becoming a God Attendant, his strength was now equivalent to a Fifth-Circle Wizard at Perfection.

Moreover, he possessed two sealing sacred objects, the Twelve Thunder Drums and the Storm Spear!

Since the statue of the Lord of Storm was stolen, Groudon had been seeking a divine revelation from the Lord of Storm.

Now that he had received guidance, he knew the approximate whereabouts of the wizard.

“Offend the Lord and think you can escape? Today, you face inevitable doom!”

Behind Groudon, the drums spun, and then he transformed into a thunderbolt, shooting into the sky and disappearing at a terrifying speed!

...

The tumultuous events of 1156 passed in the mortal realm.

In the Holy Brilliance Calendar of 1157, the Month of Beginning arrived.

On the first day of the new year, Andrew successfully ascended to the rank of official wizard, embarking on his journey as a wizard.

This speed could only be attributed to his status as a Child of the Elements. As an official wizard, with the increase in his arsenal, Andrew's research capabilities continued to improve.

Within the temple, more and more knights mastered the Talent Brand, becoming junior apprentice knights.

The criteria for intermediate and senior apprentice knights gradually became clear.

After numerous tests by Dinos and Andrew, they discovered that with each additional Talent Brand, the strength of the knights increased significantly.

Unlike wizard apprentices using cantrips, the manifestation of talents did not require an incantation, casting materials, or gestures. It only required the activation of bloodline seeds and blood qi, similar in essence to the spellcasting abilities of transcendent creatures.

Coupled with the knights' already superior physical qualities compared to wizards of the same realm, each Talent Brand mastered resulted in a substantial increase in their strength.

Therefore, the standard for junior apprentices was to possess a level zero Talent Brand, with each subsequent Brand leading to a slight promotion.

Senior apprentice knights could master three Talent Brands, and with combat techniques, their combat prowess was no longer inferior to high-level apprentice wizards.

For those apprentice knights with perfect-grade breathing techniques, their strength was already on par with apprentice wizards. If their combat techniques were excellent, they surpassed apprentice wizards.

Combat techniques and Talent Brands complemented each other. Thus, to further enhance the knights' strength, the temple established a dedicated Combat Techniques Research Committee.

Led by official members, they aimed to create new combat techniques surpassing the traditional realms of "shallow, excellent, perfect, legendary."

In the Month of Germinal, Levi, the negligent leader, finally broke through. Through tireless specialized research, his fifth major talent had taken shape.

Mastering the second Fourth-Circle Talent meant he officially entered the realm of senior wizards. He named this Fourth-Circle Talent Wind Dragon Scamper!

Chapter 1063: Return of Hundred Flowers, Reunion! (1)

Levi—

Wind Dragon Scamper (Fifth Talent): Level 8 (1/100,000)

...

After the Fire Dragon Tribulation, Earth Dragon Barrier, Water Dragon's Song, and Thunder Dragon Flash, Levi's fifth talent finally appeared!

In Levi's mind.

On the fourth level of the Divine Ring Tower, a fifth white Divine Dragon coiled around it, looking lifelike.

"The crimson dragon, yellow dragon, blue dragon, purple dragon, and white dragon have already gathered the five-colored Divine Dragons... Next is the Frost Faction and the Bronze School. The moment the Seven-colored Divine Dragon assembles is the time to make a wish!" Levi could not help but complain.

There were seven factions in the Elemental Faction of the Wizard World. Levi had already gathered five of them.

The fire dragon was in charge of killing, the earth dragon was in charge of guarding, the water dragon was in charge, the Thunder Dragon was in charge of escaping, and the wind dragon was in charge of assisting.

Levi turned into a blood fog and disappeared from the Emperor's Palace before condensing in the sky.

He called Phoenix, the Blood-Armored Corpse Demon, the succubus, Raja, and the other level 4 subordinates over.

"Everyone, attack together and use your strongest attacks," Levi said calmly.

Phoenix was already numb. This damn guy was here to destroy his confidence again.

After spending so much time together and witnessing Levi's strength, it no longer expects to defeat Levi while he's alive.

All it wanted to do was to live a good life and make Levi die.

However, Levi would always ask them to test their moves. Every time, they would be completely defeated.

This was humiliating!

Anvada, the great Flame Avenger, would remember the painful memories of these years! After Old Dog Levi died, it would pay him back double!

In an instant.

A bunch of level 4 beings attacked Levi from all directions with all kinds of fancy attacks.

“Not bad.”

Levi snapped his fingers, and invisible whirlwinds and air currents circulated through the Indestructible Armor. These air currents lifted Levi, making his body, which weighed tens of thousands of kilograms, as light as a feather. It was as if he had turned into a mountain breeze! ♡

“Swift in the Wind!”

In an instant, Levi disappeared from the spot like a phantom.

Behind him, a series of afterimages stretched for miles.

In the blink of an eye, he had already arrived several kilometers away and was shooting arrows from afar in front of the blood-armored corpse demon.

Blood Lady was shocked. This speed was too fast!

As a result, even with her level 4 perception, she could not completely keep up with Levi's speed, which resulted in an illusion.

She hurriedly used the Moonlight Greatsword!

A majestic blood-colored sword aura was unleashed and charged towards Levi.

The cyclone wrapped around Levi's body and struck out with a palm.

Boom!

The cyclone suddenly became larger!

It turned into a tornado that reached into the sky.

Yellow sand filled the sky, and fallen leaves rose into the sky.

Blood Lady's Armor was caught off guard and was swept into the wind.

In a flash, Levi had already dealt with the Blood-Armored Corpse Demon.

He had already dodged before the attacks of the others arrived.

Only Phoenix's flames engulfed Levi's surroundings. However, they were also swept up by the whirlwinds and airflows around him. In the end, they turned into fire tornadoes and charged at Phoenix.

Phoenix's fire elemental body was engulfed and turned into a ball of flowing flames that escaped.

Bang!

Bang!

Bang!

...

One level 4 subordinate after another was easily sent flying by Levi's high-speed dodges.

Levi could deal with them by relying on only Wind Dragon Scamper and simple combat techniques.

Levi flashed back to its original position, and the cyclone slowly dissipated.

"The Wind Dragon Scamper mainly focuses on dodging and moving. It's good at charging forward. Its movement technique is like a storm. Its dodging ability has greatly increased for those spells that don't attack in a range. In addition, it can also release hurricanes and wind walls for simple control and defense."

The Wind Dragon Scamper was only at level 8 now, there was still a lot of room for improvement in the future.

If he cultivated to the Perfection realm, he could dominate wizards of the same level with his invincible movement technique alone.

It was not in vain that he spent millions of Aether Stones to buy so much spell knowledge of the Storm School of Thought for research.

Although Levi was only in the fourth-circle senior realm, the innate spells he mastered were similar to most Fifth-Circle Wizards.

“It’s only been seven or eight years since the Dark Ancient Tower opened. Time flies.” Levi, who was already 167 years old, could not help but sigh.

He did not neglect his meditation homework while researching innate spells over the years. Now, he already had 309 points of spiritual force. So long as he had enough potions, he only needed 40 years to reach the upper limit of 510 points.

If he had obtained other opportunities in the dark ancient tower, he might not be able to use them for 40 years.

In short, if everything went smoothly, he would have a chance to step into the Five Environmental Realms when he was around 200 years old!

If a 200-year-old fourth-circle cultivator was a prodigy, then a fifth-circle cultivator was a prodigy of a top organization.

Levi might only have the Children of Chaos talent, but under the effect of the proficiency panel, his cultivation would only be faster than those geniuses.

“From the looks of it, the primordial soul has a chance before 300 years old... Hahaha!”

As he laughed, Levi disappeared from the spot and turned into a beam of light that flew towards the North Sea.

After passing through the continuous mountain ridges, there was a vast plain on the coast of the North Sea.

A mighty river about a thousand miles long flowed into the North Sea.

The climate here was moist, and the river was covered in clouds and fog all year round, so it was called:

Cloud Mist River.

And this plain, including the coastal area, was the sphere of influence of Giant Beast Paradise.

Here, they could nurture both terrestrial and marine transcendent creatures at the same time.

Giant Beast Paradise was similar to Jurassic Park in his previous life.

Chapter 1064: Return of Hundred Flowers, Reunion! (2)

Relying on the combination of arrays, the Giant Beast Paradise had a huge Breeding Base with a diameter of about a hundred miles, which was much larger than Alice's ring.

These arrays mainly served as deterrence and vigilance to prevent some ferocious beasts outside the base from accidentally entering and killing the young beasts.

The array would broadcast the terrifying roars of some “Ancient Beasts” all year round. For example, the Flame-Blood Rampage Dragon could scare off many ferocious beasts with its voice.

Levi saw a few turkey-sized Dragon Finches running around on the ground and chasing each other like dinosaurs.

He had bought this from Flaming Mountain a few years ago. It had already hatched and was growing healthily.

Melina was holding one of them, examining the little one, who didn’t struggle.

This was because she had mastered a special spell that could reduce the hostility of transcendent creatures, especially this kind of youngling. It could make her feel like its family in a few days.

“There are specialties in every field,” Levi said with a smile. Although he knew a lot about transcendent creatures, he was far inferior to Melina in terms of detail.

“Director, why are you here?” Melina quickly put down the Dragon Finch and let it play with its siblings.

“I’m here to see you guys. Have you encountered any difficulties all these years?” Levi asked.

Melina smiled and said, “No, this is simply heaven. In my opinion, it’s even better than the Realm of All Things. There are all kinds of mixed-blood Dragon Clan ferocious beasts flying in the sky, running on the ground, and swimming in the sea... In our Realm of All Things, those who can use mixed-blood Dragon Clans as spiritual beasts are already elites.”

“Yes, if our staff needs mixed-blood Dragon Clan spiritual beasts, feel free to contract them,” Levi said.

Although there were many mixed-blood Dragon Clan members, they were essentially the descendants of the four ancient dragons.

“Thank you, commander. Let me show you around the Beast Paradise.” Melina smiled happily.

Throughout the time she worked here, the conflicts of interest and scheming that she had been worried about did not exist at all.

The Lizardmen next door were busy praising the emperor, Levi. God knew why a wizard could become the idol of the Lizardmen.

As for the knights of the Dusk Holy Temple who were passionate about swords, they were even more uninterested in them. They also worshipped their hall master, Levi, fervently.

Not only that, although these knights generally looked like they were insensitive brutes, they were extremely enthusiastic and did not have the coldness of wizards at all.

Every year, on a fixed festival, they would invite the staff of Giant Beast Paradise to a ball, eat and drink. Even some witches in the Giant Beast Paradise were attracted by these knights and began to talk about love.

In the Wizard World, knights were treated as servants by sorcerers.

Soon, Melina brought Levi to the incubation base.

Here, Levi saw a transparent dome about a thousand meters in diameter.

Warm sunlight shone through the dome.

“Currently, more than a hundred transcendent creature eggs are in the incubation base. Most of them are reptiles, birds, and some insects.

“We will set up different incubation rooms for different transcendent creatures. The current incubation success rate is more than 80%.

“The biggest problem is still the insufficient number and species of transcendent creature eggs. These eggs were brought over when we left the psychic realm. They range from Level 1 to Level 3. There are only three types of level 4 eggs,” Melina said.

“In the future, I will arrange for some people to go to the various sub-dimensional portals and even other planes to find more transcendent creature eggs,” Levi said. *r*

The cost of buying adult transcendent creatures was very high, and they were not easy to tame. Therefore, the School of Spiritualism had to start from a young age.

This way, after establishing a good foundation and reproducing, the future generation of the organization would not have to worry about transcendent creatures.

Following that, under Melina's lead, Levi toured other places. More and more people gathered around him. It felt like the inspection of a leader in his previous life.

When they arrived at the shore of the North Sea, the whale song came from the sea.

Leviathan sensed its master's arrival and sang happily, spraying water to liven things up.

"Leviathan has been growing well recently. We will check its body regularly and nourish it with nutrients. We will also inject some medicine that is beneficial to its development. It is already at the peak of level 2."

Melina knew this was one of the transcendent creatures Levi cared about the most, so she naturally took good care of him. This made Hydra rather jealous.

Levi looked at the Leviathan. It seemed that its strength had increased faster than before. Perhaps it did not need his blood to be drawn anymore...

“If there’s a chance, help it find a companion. It’ll be even better if it can advance to level 3,” Levi said.

“Yes, no problem. I went to the Endless Sea some time ago and found a suitable partner. It’s a level 3 female Great Horned Whale. We’ll capture it later and let it and Leviathan mate here.”

“The Dragon King Whale and the Great Horned Whale should be fine. After all, Leviathan is a mixed-blood Dragon Clan... Send me the coordinates of the Great Horned Whale. I’m going to the Endless Sea and catch it.”

“Okay!” Melina was envious. To capture a level 3 creature, they needed to design various plans and make corresponding preparations. On the other hand, Levi was so casual... The difference between them was huge.

Chapter 1065: Return of Hundred Flowers, Reunion! (3)

...

Dusk Holy Temple.

Combat Techniques Research Committee.

This was an organization that specialized in collecting the combat skills of human knights and learning and researching them.

There were many types of combat techniques, but because most knights used longswords, they mainly used sword skills.

Sword skills could be divided into light sword skills and heavy sword skills.

Strength-type knights usually used heavy swords, such as door greatswords, saw-toothed swords, and so on. They could easily weigh more than 50 kilograms.

Such sword technique attacks, such as Opening Slash, Mount Hua Splitting Force, and Golden Cross Slash, were like this.

On the other hand, speed-type knights used light swords, various short swords, thin swords, and so on. They attacked all the martial arts in the world, and only speed was invincible.

When Levi arrived, the Dark Moon Knight, Silver Dragon Knight, and the others were sitting together. In addition, many grand knights were also in a meeting.

“Hello, commander.”

Everyone stood up and bowed.

“Carry on.” Levi smiled.

“We are discussing the classification of combat techniques,” the Dark Moon Knight said.

“Tell me about it,” Levi asked.

The Dark Moon Knight said, “Currently, we knights have already advanced to the realm above level 3, but our combat techniques are still at the same level as before. Other than the Talent Brand, we can’t forget our combat techniques!

“Therefore, we believe that traditional shallow, excellent, and perfect combat techniques can all be divided into one grade, the level 0 sword skill.

“As for legendary combat skills, such as the Golden Cross Slash and the Gray Destruction Cross Slash, they are the real transcendent combat skills.

“However, they are only Level 1 combat techniques because these transcendent combat techniques were created by a Level 1 knight.

“If a knight wants to continue improving his strength, he needs to create level 2 and level 3 combat techniques.

“Ultimately, we can even develop level 9 or level 10 combat techniques.

“Otherwise, even if you have strength, you can’t use it without any techniques.”

Levi looked at him approvingly and said, “That’s a good idea. However, creating combat techniques is even more difficult than the Talent Brand in my opinion. The Talent Brand only stimulates the power in the knight’s bloodline. As for combat techniques, it is the knight’s understanding and use of combat techniques, combat rules, and even rules.

“I have a combat technique called ‘Destruction Sword Qi’. It’s a sword skill born after I mastered the Golden Cross Slash and the Gray Destruction Cross Slash in the early stages. Combined with my understanding and experience over the years, the quality of this sword skill should be at level 2 or level 3.

“I’ll place the inheritance book of the Destruction Sword Qi in the holy temple of knowledge. You can exchange for it and comprehend it.

“We can issue a bounty in the holy temple. Anyone who can create an original combat technique above level 1 can obtain points as a reward.”

“Thank you, commander!”

Everyone admired him in their hearts.

As expected, their commander had already thought of every problem they had. They just needed to stand on the giant’s shoulders and continue to develop. R◆

Levi's Destruction Sword Qi had just reached level 9 some time ago, and then it had reached the maximum. He needed more transcendent sword skills comparable to the Golden Cross Slash to deduce, so he might as well give this mission to his subordinates. When the time came, he would pick up the fruits of their labor.

After walking around, Levi realized that the three major organizations were thriving. He was very satisfied.

Humming a tune, Levi left the Ancient Saint plane and quietly returned to the Endless Sea.

Nether Capital.

At the Witch's Family.

"Celia, not bad. You should be a third-circle senior from your spiritual power, right?" Levi smiled.

"Yes Sir Levi... No. Although my spiritual force has long reached 170 points, I still can't figure out the second innate spell. It's too difficult. Sir Levi, what should I do?" Celia blinked her big eyes.

"What kind of functional spells do you want to study?" Levi asked.

"I want to study escaping. The Endless Sea has been a little chaotic recently. I want to improve my life-saving ability." Celia was troubled.

Levi gave Celia some pointers.

After that, Celia almost knelt to Levi.

“Thank you so much! I even paid to consult a Fifth-Circle Wizard previously, but I don’t think he’s as good as you... Don’t tell me you’ve already advanced to the fifth-circle?” Celia’s eyes widened.

“What are you thinking about? I’ve only advanced to the fourth-circle recently. It’s still early for me to reach the fifth-circle. It’s just that I like to study more and work harder than you,” Levi said.

“You want me to collect potion ingredients, right?” Celia smiled.

“Yes, prepare more ingredients for me this time... Prepare 40 years’ worth of ingredients. I won’t come to the Endless Sea much in the future,” Levi said.

“Wow, forty years. That’s not a small sum, but you’re Levi. Leave it to me,” Celia said, patting her chest.

After paying the deposit, Levi recited an incantation and arrived at Base Camp.

There was another reason why he came to the Endless Sea. Madam Triss was looking for him.

Madam Triss summoned him back. She must have something urgent to discuss with him.

As Triss would be his biggest thigh for a long period of time, Levi naturally rushed over without stopping.

At Madam Triss' cottage.

After taking a shower, Triss was wearing a sleeping robe. She placed her slender and fair legs on the sofa and smiled as she looked at Levi.

"Not bad. Your spiritual force should be more than 300." Triss was indeed a primordial soul wizard. She had sharp eyes and saw through Levi's spiritual force instantly. The error was only 9 points.

Chapter 1066: Return of Hundred Flowers, Reunion! (4)

"Yes, I've been busy cultivating in seclusion recently. Madam, why are you looking for me? If I can help you, I definitely won't refuse."

"Can't I find you for a chat if there's nothing?" Triss said in a joking tone.

"Of course." Levi smiled wanly.

"Nothing, just a friend you might know has returned. She has something to talk to you about."

“My friend? Who?” Levi was suspicious.

“Flower Witch Elena,” Triss said.

Levi was shocked. The Flower Knight was back? Didn't she go on a plane trip?

However, Levi did some calculations. The Flower Knight had been traveling across planes for 70 to 80 years. It was indeed time for her to come back.

“Where is Senior Elena?” Levi asked.

“She's at the Starfire Wizard Academy. I've already told her about your arrival. She'll be here soon,” Triss said.

“Okay.” Levi was nervous.

It seemed that Elena was looking for him because of the Nightmare World.

This was a world of terror that Levi did not want to face.

Before long, there was a knock on Triss's door.

Triss gently waved her hand, and the door automatically opened.

Outside the door, a witch wearing silver light armor and carrying a knight's greatsword on her back stood there. She looked a little different from ordinary wizards.

Her golden curly hair was exceptionally beautiful under the setting sun. A breeze blew over. She lifted her hair and looked at Levi calmly. A natural pressure from her primordial soul made him feel a little suffocated.

However, he still held his head high and puffed out his chest. He was neither servile nor overbearing. After all, he was the leader of the Twilight Knights. He could not be frightened by a woman!

In the human world, "Flower Knight" was an adjective.

To describe a woman as extremely beautiful, Levi now saw that it was true.

He had cultivated for many years and studied many spells, but he did not know how to describe this feeling with words.

Her expression was confident and calm. Coupled with her capable and valiant clothes and the broadsword that only men would use, she had an indescribable heroic beauty.

“Stop gawking. You’re stunned, aren’t you?” Triss coughed and chuckled.

“No, I was stunned by the aura of a primordial soul wizard and didn’t react,” Levi said.

“But I’m also a primordial soul wizard, aren’t I?” Triss retorted.

Levi thought to himself, ‘You’re someone’s wife. You have a gentle nature.’

“Greetings, Flower Knight. I’m Levi, an external wizard from the Witch’s Family!” Levi took the initiative to greet him.

Elena, who was standing at the door, had a strange expression on her face. Then, she smiled and said, “It’s been a long time since anyone called me the Legend of the Human Realm.”

Since they came to the Wizard World, the Flower Knight had become a Flower Witch.

“I’ve heard about you from Violet Witch. I heard that you’re also a legendary knight.”

“Yes.” Levi nodded.

“Sister Triss, I’ll take Levi away then,” said the Flower Knight with a smile.

“Let’s go.”

Triss waved her hand and watched the two wizards with similar styles leave with a playful gaze.

...

Blue sky, white clouds, and blue sea.

The waves were surging, and the wind was very noisy today.

Levi followed the Flower Knight and left the Witch’s Family, arriving at the sea outside Nether Capital.

“Lord Elena, why are you looking for me?” Levi asked.

“You went into a secret realm with Rose and the Whitewater Witch, right?” Elena said calmly.

“Yes, in that secret realm, we were attacked by monsters from the Nightmare World.”

“What do you know about Nightmare Monsters?”

“They are very difficult to kill, and they are good at creating illusions. Because I have some secret techniques, I managed to break free from the illusions. However, the Whitewater Witch and the Rose Witch unfortunately fell for it. They were controlled by a giant spider monster with eight heads. As long as they slept or even meditated, they could be pulled into the Nightmare World. This should be how the Whitewater Witch died.” Levi sighed.

“It seems like you have done some research on the Nightmare World... I came to look for you because of this matter. Most of the 24 Flowers are extremely talented little girls that I brought back from the gathering place of mortals. I will never allow any monsters to dare to attack my girls!” At this moment, the Flower Knight’s eyes were cold. His entire body was like an unsheathed sword, filled with killing intent!

“Lord, what do you want to do?” Levi asked.

“Find the culprit... and kill it! I’ve also done some research on the Nightmare World. The eight-headed giant spider you mentioned should be a nightmare lord of the Nightmare World.”

“Nightmare Lord?”

“Yes, there are two types of Nightmare Worlds. One is normal Nightmare Creatures that range from Level 1 to Level 5. The other is Nightmare Lords which range from Level 6 to Level 8. Above the Nightmare Lords, there are Level 9 Nightmare Overlords, Level 10 Nightmare Monarchs, and even terrifying existences that surpass Monarchs...”

“This is too terrifying. An existence that surpasses a Legendary Wizard.” Levi felt a sense of urgency in his heart. He only wanted to become stronger as soon as possible.

“But I’m not sure what level of Nightmare Lord that human-headed spider is. I need you to bring me to the secret realm again. I want to see if I can find any clues.”

“Okay, but it’s pretty dangerous there,” Levi whispered.

“With me around, you’ll be fine,” Flower Knight said confidently.

With such a guarantee, Levi immediately led the Flower Knight to the secret realm in his memory.

Chapter 1067: Return of Hundred Flowers, Reunion! (5)

...

In the human world.

In the boundless outer sea region.

Above a seemingly desolate island.

Rumble!

A thunderclap exploded in the sky!

The saint Groudon appeared!

Groudon looked at the island below.

“Hehe, so you’re here!”

After this period of searching, he finally confirmed the exact location of the Fifth-Circle Wizard!

He did not say much. The Twelve Thunder Drums behind him flew into the sky and spun, forming a circle.

Countless dark clouds gathered in the circle and pressed down, threatening to destroy the city!

Even a Fifth-Circle Wizard would find this power extremely terrifying!

“Thunder Emperor’s Twelve Strikes!”

Boom!

Boom!

Boom!

...

A total of 12 purple lightning bolts struck the island!

Crack! Crack!

When the Thunder God was enraged, doomsday descended!

Colorful lights suddenly erupted from the island below, and the light of the array soared into the sky.

A figure flew out. He looked a little disheveled and his body was charred black. It was obvious that he was injured. It was Sorrett.

“How did you find me?” Sorrett’s expression changed. Groudon’s aura was much stronger than his.

“Die!”

Lightning fell from the sky!

Even Sorrett of the Lightning Faction did not dare to resist.

“Thunder Dragon Shield!”

A purple dragon with two wings circled around him. With a thought, a purple lightning spear shot toward Groudon.

“Hmph, how dare you show off your insignificant skills before an expert! I’m the Thunder God’s spokesperson!” Groudon’s Storm Spear left his hand and shot towards Sorrett! 

The Storm Spear would not stop until it hit the enemy!

Sorrett dodged the lightning while dodging the spear!

His innate spells also flew out continuously towards Groudon.

However, he realized that they were all sucked into the Twelve Thunder Drums.

As the strongest Sealing Sacred Object of the Church of Storm, the Thunder Drum grew automatically with the strength of a saint.

The current Lightning Drum was already comparable to a quasi-Soul Artifact and had surpassed the scope of a fifth-circle top-grade Wizard Tool!

At this moment, Sorrett knew he no longer had the qualifications to fight Groudon. Even a fifth-circle Perfection cultivator might not be his match.

“It’s a pity that although the Wind Thunder Meteorite Iron has been refined, I haven’t had the time to find someone to refine it. Otherwise, I wouldn’t be in such a passive position if I were to make a fifth-circle top-grade Wizard Tool!” Sorrett regretted.

After tearing apart Sorrett’s innate spell, the lightning spear attacked again!

This time, Sorrett transformed into lightning and fled into the sky.

The lightning spear immediately used Shattering Void and chased after him!

Sorrett grunted and fell out of the lightning.

Seeing that he was about to be killed by the lightning spear again, he hurriedly released his Fifth-Circle Wizard Tool!

Fifth-Ring Wizard Tool—Lightning Strike Sword!

The greatsword was wrapped in lightning, and it rumbled like a missile!

The Storm Spear and the greatsword clashed!

The greatsword wailed and shattered inch by inch.

“My sword!”

He was in despair. He was the head of the Thunder Dragon Family. However, he was in dire straits in the human world and also bullied by the saint of the Church!

“I can’t die!”

Sorrett's desire to live was so strong that he fled for his life.

The Thunder Drum released endless thunderbolts from behind. The Storm Spear once again pierced the Shattering Void and disappeared without a trace.

When he appeared again, he was already in front of Sorrett.

Sorrett was about to die and turn into ashes.

The level 5 creature, the Purple Thunder Snake, stood before Sorrett to protect him!

Creak!

The Storm Spear shot into the Purple Thunder Snake's body, and the snake wrapped around it tightly!

Groudon's expression changed.

"You're courting death!"

He wanted to recall the Storm Spear, but he could not do so for the time being.

Sorrett's eyes were filled with anger as he looked into the Purple Thunder Snake's eyes.

"I understand, Elsie!"

He took this opportunity to escape!

Crack, crack, crack!

Elsie's snake body cracked inch by inch, and blood splattered across the sky!

When the Storm Spear appeared again, Sorrett was nowhere to be seen!

Groudon looked at the Purple Thunder Snake that was still breathing despite being split in half.

"You're so good to him, but he abandoned you. Is it worth it?" He suddenly sighed.

It was unknown if it was out of pity for the life that was about to die or some other mentality.

The Purple Thunder Snake, Elsie, was silent. Her eyes gradually lost their light as she slowly closed them.

No matter how outsiders evaluated Sorrett, it only knew that Sorrett had saved it when it was about to be killed to refine alchemy.

Only Sorrett would not only treat it as a snake!

Groudon's Thunder Drum was like a black hole as it kept the giant snake's Corpse.

This was the material of a level 5 creature and even a thunder-elemental one. It could be used to make Sealing Sacred Objects, so it naturally could not be wasted.

"Unfortunately, that person still escaped. After this battle, there's a high chance he will run back to the Wizard World. It's impossible to recover the statue."

Groudon had no intention of getting the statue back. After such a long time, it must have been refined into a Wizard Tool.

However, anyone who violated the authority of a Legendary Emperor must be punished!

Just as Groudon had guessed, Sorrett left the human world and returned to the Endless Sea through a secret passage. He hid on an island in the outer sea region.

“It seems like Groudon is still very close to the Lord of Storm. Otherwise, how could he find me?”
Sorrett’s heart was numb.

The Wizard Tool was gone.

Elsie was gone.

My Elsie, my beloved snake!

It was even more hopeless to seek revenge on Blue Dragon Lady.

In the Endless Sea, he was a criminal who had been wanted for a hundred years. He was worth two Fifth-Circle Wizard Tools, so he dared not run around.

Chapter 1068: Return of Hundred Flowers, Reunion! (6)

“I’ll wait here quietly for the Dark Ancient Tower to open. Only the Dark Ancient Tower can allow me to turn the tables!

“However, before that, I have to find someone to use the Wind Thunder Iron to refine a fifth-circle top-grade Wizard Tool.”

...

Deep Sea.

The hole emitting a green light appeared.

Levi and the Flower Knight had already arrived at the entrance of the secret realm.

The Flower Knight thought for a moment and stepped in first.

“Stay close to me. I can protect you.”

“Will do.”

Levi followed behind Hundred Flowers, afraid that he would be left behind.

To be honest, he was not prepared to face the Man-Faced Spider again.

What a joke. That was a Nightmare Lord comparable to a primordial soul wizard.

It would be better if he was given another one or two hundred years.

However, since the Flower Knight was here, even if the sky collapsed, she would carry it. Levi mustered her courage and came here again.

“Be careful. From the moment we entered this secret realm, we might have fallen into its illusion.”

Levi reminded as he looked at Hundred Flowers’ vigorous footsteps.

“Thanks for the warning.”

The Flower Knight suddenly turned around, leaving Levi rooted to the ground.

She stretched out her slender fingers and pointed at the air in front of Levi.

“Flower Barrier!”

In an instant, petals surrounded Levi, protecting him.

“This is a simple barrier. If you’re not attacked, it can last for an hour. In this hour, most attacks below the primordial soul will be useless against you. Even the attacks of the primordial soul will be enough to last for a moment.”

Levi was shocked when he heard that.

“It’s this simple? Is this the strength of a primordial soul?”

A random barrier could make his primordial soul almost invincible for an hour!

Wasn’t this heaven-defying innate spell like any Fifth-Circle Wizard Tool?

Levi wished he could find Sorrett, the Red Bone Wizard, and the others immediately and fight them for 300 rounds!

The Flower Knight turned around with a smile.

This was one of her third-circle innate spells. It could be used on both herself and others.

Considering that Levi was only a Fourth-Circle Wizard, she applied a flower barrier on him to prevent him from encountering danger in the mystic realm and dying suddenly.

After all, Levi could not have come here to take the risk. He did this to help her.

In fact, without the protection of the Flower Knight, Levi should not have been fooled by the illusion of his current Nightmare Dragon realm.

“I feel safe.”

Levi quietly walked behind the Flower Knight.

The fog in the distance indicated that this place was still affected by nightmares.

From the looks of it, after finding this place that could connect to the Wizard World, the Man-Faced Spider was unwilling to give up on this place and tried to wait for the next wave of people to arrive.

Not long after, a Beauty Snake suddenly collided with Levi’s barrier and was burned to death by the Black Flame Void on Levi’s armor.

The Black Flame Void was formed by the power of the Death Ember Dragon. It was the nemesis of nightmare creatures!

The Flower Knight also had such a Beauty Snake.

“These are Nightmare Creatures,” Levi said.

“It’s like a terrifying monster that only appears in people’s nightmares,” the Flower Knight added.

After passing through the primitive forest and arriving at the botanical garden, Levi even picked some low-level herbs.

In the end, Levi and the Flower Knight arrived at the plain. All they could see was ruins.

“This is where I found the Rose Witch and Whitewater Witch,” Levi said.

The Flower Knight’s eyes seemed to contain a world of flower petals, emitting a bright divine light. It seemed like it had cultivated some eye technique.

She put her hands together and chanted an incantation.

“Primordial soul wizard form—Hundred Flowers and Thousand Trees!”

Suddenly, the shadow of a thousand-meter-tall tree appeared behind the Flower Knight. It was covered in all kinds of flowers and vines!

As a Fourth-Circle Wizard, Levi knew a little about this.

“Primordial soul wizard form is one of the most important techniques after the primordial soul. It seems that this wizard form is similar to the Heart Form of the Bloodline Dharma Body. It’s related to a wizard’s mental state and opportunities. Garcia has the Black Pearl wizard form, while the Flower Knight has the Hundred Flowers wizard form.

However, this tree feels very similar to the World Tree wrapped by the Immortal Banyan Dragon... The Flower Knight’s breathing technique should be related to the Immortal Banyan Dragon. Could it be related to this?”

Levi hid at the side and took the opportunity to observe the methods of the primordial soul wizard.

Ninety-nine percent of wizards would never see such a precious experience in their lives!

The huge tree supported the sky as Hundred Flowers bloomed. A terrifying power sealed the surrounding space!

As far as Levi knew, apart from a handful of geniuses with special talents, the Dao of Space was a level only primordial soul wizards could reach. It was the same for any school.

Under such a blockade, his teleportation portal spell could not be cast.

As Hundred Flowers exerted strength, the ruins began to be destroyed. The fog that filled the sky also began to dissipate.

In the sky of the secret realm, an insignificant red crack distorted the space there.

The Flower Knight's expression was solemn.

Suddenly, a pair of strange woman's eyes appeared on the other end of the crack, spinning!

She was looking over through the entrance of the crack. She had discovered Levi and the Flower Knight.

The moment he was stared at, Levi felt a chill run down his spine.

Chapter 1069: Return of Hundred Flowers, Reunion! (7)

The Flower Knight patted his shoulder and said, "Don't worry. If it can't come over, we can't either. This dimensional passageway is only in its embryonic form. It hasn't been opened."

Petals appeared in Hundred Flowers' hands and turned into colorful butterflies. They wanted to enter the passageway but were blocked by an invisible barrier.

"Was she the Nightmare Lord you saw that day?" Flower Knight asked.

“Although I only saw a pair of eyes, I’m sure it’s her!” Levi exhaled and said slowly.

“Logically speaking, this passageway hasn’t been opened yet. She can’t infiltrate her strength, but how did those Nightmare Creatures enter this secret realm? Unless she’s here, there’s some medium that can allow her strength to descend here,” Flower Knight muttered in her heart.

After hearing this, Levi pondered. He suddenly remembered that there were four cocoons in the wizard tower.

One of the cocoons was different from the others. It was the cocoon left behind by the Extreme Fire Ancestral Wizard. There were strange symbols and patterns engraved on the floor where he was.

Moreover, the monster he killed in the wizard tower looked like the Extreme Fire Ancestral Wizard.

He remembered that the Extreme Fire Ancestral Wizard had disappeared from the outer sea region for a long time. When he returned, he had broken through to the third-circle.

Could it be that he had once gone to the Nightmare World with his physical body and successfully returned?

The reason why he could return was because of the symbols he had grasped.

However, although he seemed to have returned, he had already been targeted by the Nightmare Lord.

Therefore, his body had long become a vessel for the descent of nightmare creatures.

He was the one who brought the Nightmare Creature back.

As if to verify Levi's guess, a strange distorted figure appeared behind him again. It looked like the Extreme Fire Ancestral Wizard.

Levi did not kill the Extreme Fire Ancestral Wizard. Or rather, the Extreme Fire Ancestral Wizard invaded by nightmares could no longer be measured with common sense.

As soon as the Extreme Fire Ancestral Wizard appeared, it was grabbed by the hand formed by the Flower Knight's petals and crushed in the air!

On the other side, the strange eyes at the crack revealed a smile.

"Let's go. This is just a Nightmare Doppelganger condensed by the Nightmare Lord using its Nightmare Power. It can't be killed. It will appear again soon.

Just like how the group of people from the Dreamland Steeple had used Dream Doppelganger to descend into the Nightmare World.

“This fellow also used a similar method to descend his clone from the Nightmare World to the Wizard World to... counter-invade.”

Hundred Flowers sighed and pulled Levi into the void, disappearing.

At the exit, Hundred Flowers and Levi stood side by side.

“Lord Elena, what should we do now?” Levi asked.

“That Nightmare Lord should only be at level 6 judging from its clone. With my strength, my chances of winning are more than 80%. However, it’s a little difficult to find it.

There were only two ways to enter the Nightmare World. One was the hallucinatory potion in the Dreamland Steeple, and the other was to enter through the dimensional passageway with one’s body.

From the looks of it, the first method was most likely a trap set by the Nightmare World. Sooner or later, he would be completely lost in the Nightmare World.

“As for the second method, it’s even more dangerous. I do know of a Dimensional passageway that leads to the Nightmare World. However, if you enter from there, you might accidentally enter the territory of other powerful Nightmare Lords... You’re quite knowledgeable about the Nightmare World. Do you have any solutions?”

The Flower Knight's beautiful eyes stared at Levi, giving Levi the illusion that this primordial soul wizard could see through his heart.

Considering that he needed to come into contact with the Nightmare World, whether it was the Nightmare Metal or the cultivation of the Nightmare Dragon breathing technique, he couldn't leave it.

After a moment of silence, Levi said awkwardly, "Lord Elena, I might have a way... but I'm not sure. I need some time to prepare."

"Alright, I'll leave a message for you. You can contact me anytime if anything happens. You don't have to worry too much. I won't treat you badly. After all, you're Sister Triss's subordinate. I'm indebted to her." After saying that, Flower Knight handed Levi a letter that emitted the fragrance of flowers.

"Do you need me to send you back to Nether Capital? It doesn't seem safe outside recently," Flower Knight asked.

"There's no need for that, Lord. I'll go back by myself," Levi said.

The Flower Knight nodded and looked back at Levi. Then, he stepped into the void ripple and disappeared.

Levi looked at the flower barrier around him and smiled.

“It can last for another 40 minutes... I have to fish out a few dark wizards. I’m running out of money.”

He put away the letter that the Flower Knight gave him and quickly left.

Chapter 1070: Rewards! (1)

Endless Sea.

Inner Circle Area.

Greenwater River Wizard Market.

The ruler of the market was a fifth-circle ordinary Ocean School of Thought wizard named Deborah.

Today was the day of the annual Greenwater Auction.

At the auction venue.

The host smiled and said, “Everyone, to increase the efficiency of our auction, this auction will be held at a reduced price. The first bidder will directly obtain the ownership of the auction item. If no one bids when the price reaches the bottom, the auction item will not be sold.”

“Cut the crap. Let’s get started,” said a wizard who was anxious to buy a fourth-circle breakthrough potion.

It was said that there was a potion that could help one break through to the fourth-circle at this auction. Most people came for this.

“Let the auction begin.”

The first item was brought up. It was an exquisite-looking hut, like a child’s plaything.

“The first auction item is a fourth-circle Wizard Tool, Minnie Miaomiao House. The starting bid is 400,000 Aether Stones. The starting bid is 100,000 Aether Stones. If the price reaches 100,000 Aether Stones and no one bids, it will be sold out!”

The Minnie Miaomiao House was bought by a client. He had originally planned to breed transcendent creatures, but his business failed.

He didn’t want it anymore. He wanted to auction it off to make up for his losses.

Soon, the number on the counter began to drop from 400,000.

It dropped to 300,000, but no one made a bid.

200,000 Aether Stones, still nothing.

When it was 150,000 Aether Stones, a client could not take it anymore. He stood up and bid 150,000 Aether Stones for Minnie Miaomiao House.

Next, the auction items were either sold or sold out.

In the end, the fourth-circle breakthrough potion sold for an astronomical price of 600,000 Aether Stones.

The auction had just ended and everyone was about to leave.

The wind and clouds surged in the sky, as if an expert had descended.

“Hehehe, there are really a lot of people.”

Four powerful Fourth-Circle Wizards descended.

The leader was a witch who had reached the Perfection of the fourth-circle.

She wore a coral-like crown and a gorgeous robe, making her look like a queen.

The other three were male wizards. Their auras were weaker than hers. They looked like ordinary fourth-circle cultivators or senior fourth-circle cultivators. ❖

At the auction, three fourth-circle wizards in charge of maintaining order flew out.

“Four Monsters of the Nether Sea, Coral Witch... It’s them.” A white-robed wizard looked solemn and said, “The Greenwater River Market is guarded by Fifth-Circle Wizards. Those who want to cause trouble can go back!”

The Four Monsters of the Nether Sea were all dark wizards. In this inner sea region, they were a top-notch dark wizard faction.

Their leader, the arrogant witch, was called the Coral Witch. She was a famous powerhouse on the Savages List of dark wizards in the inner sea region. Although her ranking was lower, those who could be on the Savages List were not ordinary people!

She was originally a witch from Lilith’s Cabin, one of the six towers, and a genuine Water Element Child!

At the third-circle and fourth-circle stages, she had mastered three innate spells.

This was definitely a genius-level witch who was famous among the younger generation of the Star Sea.

Later, when the Coral Witch's spiritual force reached the Perfection stage, she broke through to the fifth-circle with great confidence.

No one thought she would fail.

However, the final outcome was self-evident!

She had failed. A genius had fallen.

That failed breakthrough severely damaged the Coral Witch's spiritual force. Although she recovered later, it also made it difficult for her to reach the fifth-circle realm in this lifetime.

The snobs who had once gathered around her because of her status and talent all left coldly. Even her fifth-circle fiancé, who had a special talent in the Letney Family, announced that he would break off the engagement!

Amidst the endless mockery and ridicule, she did not meet her "grandpa".

The Coral Witch directly turned evil and became a dark wizard. She had been on the loose in this sea area for more than ten years.

She relied on the Children of the Elements, the six innate spells, the Perfection spiritual force, and her original identity as a genius of the six towers.

Her strength could be said to be the strongest below the fifth-circle. It was enough to fight against ordinary fifth-circle cultivators. It was said that she had escaped the pursuit of the fifth-circle enforcers several times.

She even called herself a half-step fifth-circle wizard. She directly created an extremely funny and comical half-step fifth-circle realm between the fourth-circle and fifth-circle!

Then, she gathered three fourth-circle dark wizards and established the "Four Monsters of the Nether Sea" organization. In this inner sea region, she was doing the work of an outlaw fanatic.

The Coral Witch smiled wickedly. "Stop bluffing. Since I dare to come here, I know that old thing Deborah is in seclusion. If you hand over all your belongings obediently, you won't have to suffer any physical pain! So what if Deborah is here? Before I failed to break through, when he saw me, he had to call me Lord Coral and address me as his peer."

"You... I think you've failed your breakthrough and damaged your brain! Do you think that our Greenwater River Market is easy to bully? Everyone who participated in the auction is now bound together for good or ill. The dark wizard is arrogant. If you watch coldly from the sidelines, you'll be the ones to suffer. Everyone, attack. There are so many of us. Are we afraid that we can't defeat four people?" The white-robed wizard hurriedly called out.

"Just a motley crew." The Coral Witch sneered. With a thought, the innate spell, Jellyfish Barrier, descended!

A huge purple jellyfish directly enveloped the three Fourth-Circle Wizards in the market.
