

## **Wizard 1071**

Chapter 1071: Rewards! (2)

“I want to fight three of them!” The corners of her mouth curled up.

The expressions of the three Fourth-Circle Wizards in the market changed drastically. After being enveloped by the Coral Witch’s barrier, they felt that the operation of their spell power had actually stagnated.

“Oh no, this is a rare domain-type spell that inflicts negative effects!” a wizard shouted.

“If we’re too late, we’ll all die!” The Coral Witch fought three men alone and was not at a disadvantage. Her bravery was unparalleled!

The other three dark wizards were like wolves in a flock of sheep, attacking the low-level wizards or third-circle wizards below.

The battle was intense. These nomadic wizards could not work together to deal with the enemy at all. It was like a herd of cows on the grassland encountering a ferocious beast. They flew away in the face of a calamity and were quickly scattered!

Ten minutes later.

“Retreat!”

The Coral Witch quickly left the wizard market with her subordinates and storage items.

Although she threatened to kill everyone present, it would take a lot of time. The Coral Witch was worried that the enforcers would come at any time, so she couldn't stay here for long.

It was a mess at the venue.

Of the three wizards who maintained order, one died, and two escaped without a trace. The other wizards also suffered heavy casualties, but most of them still escaped.

At this moment, somewhere at the bottom of the sea.

A short-haired white-robed wizard sat cross-legged in it. His silver hair fluttered in the wind, and his face was ordinary. He belonged to the kind of appearance that would make people forget at a glance.

As the mysterious snake-shaped rune on his body flickered, the Hermit Rune communicated with the power of stars.

He disappeared on the spot and chased after the four dark wizards. This person was Levi, who had changed his appearance.

Twenty minutes ago, he bid farewell to the Flower Knight. Then, according to the map, he went straight to the wizard market closest to him.

In fact, Levi did not expect to meet any dark wizards in 40 minutes. He was purely here to try his luck.

It was also impossible for him to release some precious treasures, such as the key to the Dark Ancient Tower, to lure the dark wizard into the trap. That way, he would only be able to catch a big fish that he could not deal with. It was simply courting death. ♠

However, after he came, perhaps because the Lovers Rune's luck enhancement had taken effect, he bumped into the dark wizards' looting.

Furthermore, they were four fourth-circle dark wizards. Out of caution, he was not in a hurry to make a move.

Firstly, there were too many people here. He had many abilities that could not be exposed in public. If some people with ulterior motives found out, he would not be able to live in peace in the future.

Secondly, he had heard of the Coral Witch, the leader of the four-man team of dark wizards. She was a top-notch dark wizard below the fifth-circle. She was much stronger than the Fire Wolf Wizard and seemed to be a "super-class" fourth-circle powerhouse.

Seizing this opportunity, he observed the fire from the other side of the river and learned about the Coral Witch's strength.

Now was the best time to make a move.

On the other side, the Coral Witch and her subordinates had arrived at an uninhabited sea. Seeing that there was no one around, they prepared to dive into the seabed.

Suddenly, the Coral Witch's expression changed, and a figure suddenly appeared in the void beside her.

Whirlwinds swirled around him as if he was teleporting. Soon, he arrived in front of the Coral Witch and slashed with his sword. Sword energy swept across!

The protective force field around the Coral Witch flickered, and layers of coral reefs protected her!

Crack!

Crack!

A terrifying shockwave exploded!

The Coral Witch's force field shattered. Taking advantage of this opportunity, she threw out her fourth-circle Wizard Tool!

A harpoon-shaped Wizard Tool flew over. Black light flickered on it, and it was clearly poisonous.

At the same time, corals quickly grew out from under the attacker's feet and wrapped around him.

However, that person did not dodge. The Wizard Tool suddenly stopped in the air around him and could not advance an inch. A protective barrier formed by petals suddenly appeared and blocked the Wizard Tool!

The protective barrier only rippled slightly.

The Coral Witch was shocked. With her Perfection fourth-circle cultivation, the attack power of her fourth-circle Wizard Tool could even protect a Fifth-Circle Wizard. Could it be that this person was a primordial soul?

No, that was impossible. It should be some kind of Fifth-Circle Wizard Tool or a special treasure's protective force field!

As she retaliated, she asked, "You and I have no grudges in the past and no grudges recently. Why did you ambush me? Are you an enforcer?"

"It's everyone's responsibility to attack dark wizards. Every law-abiding wizard can be an enforcer! This is illegal. Hurry up and surrender yourself to me!" Levi kept attacking and said righteously!

"Who's responsible? I think you're trying to take advantage of me! You must have been hiding in the wizard market at Greenwater River Wizard Market. Why didn't you do anything just now? Why did you do it now?" said the Coral Witch.

“You talk too much!”

Levi’s sword energy tore the surface of the sea, and the Coral Witch barely avoided it.

At the same time, the other three Fourth-Circle Wizards quickly charged at Levi.

Levi gave the order.

Phoenix, the Blood-Armored Corpse Demon, the strange worm, and Levi’s Deep Blue Sage clone all appeared and surrounded them from all directions to kill the three Fourth-Circle Wizards so that Levi could focus on dealing with the Coral Witch!

“You... You came prepared!” The Coral Witch’s face hardened. “Don’t think you can get carried away just because you have a Fifth-Circle Wizard Tool! I’ll show you what it means to be half a step into the fifth-circle!”

The Coral Witch was infuriated!

Levi sneered inwardly.

Chapter 1072: Rewards! (3)

Half-step fifth-circle? He was a half-step to the peak of the fifth-circle Great Perfection!

This witch was also a talent who had created her own realm... The fourth-circle was the fourth-circle, and the fifth-circle was the fifth-circle. There was no such thing as a half-step fifth-circle realm!

Despite the Coral Witch's unparalleled attacks, Levi's flower barrier was as stable as a mountain.

However, for safety reasons, Levi still stacked a few layers of protection. It was better to be safe than sorry.

Flames emerged from his pitch-black magic armor and surged into the Crimson Dragon Slash in his hand.

At the same time, scarlet flames also wrapped around it.

Two waves of level 4 flames intertwined and entwined. As he struck out with his sword again, they whistled over!

Twin Dragons Playing with Pearls!

Boom!

A small mushroom cloud soared into the sky. Black flames and red flames exploded, illuminating the sky in two colors.

Crack!

Crack!

The Coral Witch's force field was shattered, and cracks appeared on her fourth-circle Defensive Wizard Tool.

"How is this possible? This is a fifth-circle attack. How many Fifth-Circle Wizard Tools do you have? Which force are you from?" The Coral Witch was in complete despair.

She prided herself on being a prodigy. Even if a genius died, she was not someone ordinary Fourth-Circle Wizards could compare to.

However, the Fourth-Circle Wizard in front of him, be it his impenetrable defense or the destructive flames, had exceeded his imagination.

Levi didn't answer her. He wanted to kill her while she was down.

The Wind Dragon Scamper was activated again. He disappeared from the spot, turned into a phantom, and charged at the Coral Witch.

At the same time, the Fire Dragon Tribulation blocked the Coral Witch's movement! The Water Dragon's Song roared and suddenly emerged from the sea, wrapping around the Coral Witch!

The Twin Dragons Playing with Pearls had already attacked together with the sword qi.

After another earth-shattering explosion, the protective Wizard Tool on the coral woman's body completely shattered.

She was seriously injured and no longer had the strength to fight.

If not for the fact that she had consumed too much energy fighting three men at the market just now, she might have been able to hold on for a while longer.

"I can give you a chance to live..." Levi said lightly, pointing his sword at the Coral Witch.

At the same time, Phoenix and the others had already cooperated with the Deep Blue Sage clone to take down the other three Fourth-Circle Wizards. One of them self-destructed in the battle, while the other two were beaten half to death and were waiting for Levi to deal with them.

Considering that the Seven Kings of Hell's array had to guard the door, Levi would not blindly kill Fourth-Circle Wizards now. If he could subdue them, it would be a way to maximize the benefits.

“Ridiculous, do you pity me? I, the Coral Witch, have never been without glory.” She was immersed in her former glory and was still stubborn, but her trembling body betrayed her.

“If that’s the case, then die. I gave you a chance, but you didn’t cherish it.” Levi stabbed the Coral Witch’s chest with his long sword. Blood gushed out. Feeling the loss of life, the fear of the Coral Witch’s death began to magnify infinitely.

At the moment when she was about to die, she realized that there was really nothing in this world that was more terrifying than death... It had been difficult for thousands of years, and it was the only death!

Her emotions suddenly began to crumble. As a Perfection-level four-ringed wizard, her body trembled as tears streamed down her face. She cried loudly, “Please... don’t kill me. I want to live. I don’t want to die!”

Levi smiled and drew his long sword. His palm suddenly turned into a blood fog, which surged into the witch’s chest. Like the most precise scalpel in the world, it repaired her broken heart and brought her back from the edge of the God of Death.

Then, he cast some of the low-level spells he had learned from the School of Life, such as “Healing” on her. The Coral Witch’s pale face finally regained a trace of color and vitality.

“It’s better to live than to die. Sauron said that he wanted to give every dark wizard a chance to turn over a new leaf. Now, swear under my sword that you will be loyal to me from now on. You will start a new life,” Levi’s bewitching voice said. The white sheep-like Lovers Rune flickered in his mind, imperceptibly adding a lot of charm!

“Alright.” The Coral Witch who had walked past the Gate of Death nodded and finally swore under Excalibur’s oath.

Levi was in a good mood and came to the two Fourth-Circle Wizards.

“Your boss is mine now. You should be smart. Do you understand what to do next?” His voice was indifferent.

“Understood, we understand. We are also willing to swear to be loyal to you and become your wizard servants!”

After contracting the other two, Levi put away the spoils of war and sent them into the Greenfield Immortal House for Leon and his other subordinates to watch.

“This contract sword is too powerful. I’ve contracted so many people, but I don’t feel that saturated. Could it be that I can keep contracting?”

Levi muttered as he looked at the Flower Barrier on his body.

“There are only ten minutes left... Let’s not waste any more time. I shall hurry up and leave. I still have to catch the big-horned whale.”

Levi soared into the sky. His Scarlet Cloak fluttered as he flew towards the coordinates of the whale.

He promised to send the Flower Knight into the Nightmare World.

However, he had never been in there himself. At the moment, he did not know how to bring people in. He needed some time to study it.

Moreover, although the Nightmare Dragon's breathing technique cultivation was very slow, after cultivating for such a long time, it was still barely on the verge of advancing to level 14.

With the quality of the Nightmare Dragon's breathing technique, advancing to level 14 should be a matter of course, and there was no need for an Advancement Potion.

Chapter 1073: Rewards! (4)

Levi's idea was to wait for his Nightmare Dragon breathing technique to level up to Level 1 before bringing the Flower Knight into the Nightmare World.

This way, his life-saving ability would also increase greatly.

He preferred to believe in himself. Even if the Flower Knight was a primordial soul wizard, he could not completely rely on others.

As he was on his way, Levi felt a sudden sense of danger for no reason.

“What’s going on? The Coral Witch doesn’t have any other accomplices. She’s already cut ties with Lilith’s Cabin.” Levi had already asked about this after the contract, so she dared to take them away with ease.

In the next moment, ripples appeared in the shadows behind Levi.

At the same time, two powerful auras approached rapidly from afar.

“Fifth-circle? Damn it! Why didn’t you come earlier or later? Why did you choose to come when the Flower Barrier only has five minutes?” Levi was speechless.

Although Levi’s primordial soul was almost invincible under the Flower Barrier, the problem was that with his attack power, he could not possibly kill three Fifth-Circle Wizards in five minutes.

Once the barrier was gone, wouldn’t he be dead?

Furthermore, those two auras did not seem to be ordinary fifth-circles!

Therefore, he took out the Fire Ouroboros without thinking!

The teleportation portal opened, and they found a direction with a wide field of vision.

He stepped into it and disappeared, traveling a thousand miles in an instant!

Immediately after, he activated Scarlet Escape and turned into a red light as he ran in the direction of the human world.

Relying on the endurance enhancement brought about by the Wind and Thunder Surge Dharma Idol, Levi's flight time with the Scarlet Escape this time was far longer than before.

Not long after, he flew past several Inner Circle Areas and crossed thousands of mountains. If he was in the third-circle, he might have to fly for an entire day.

At the same time, above Levi's escape light, a purple bolt of lightning was flickering. It was Sorrett, who was planning to find someone to make a magic weapon.

He frowned and looked at the light below. He could not help but mutter, "I keep feeling that this aura is familiar. Forget it, I can't interfere now. I have to make my Fifth-Circle Wizard Tool first. Otherwise, my strength will be greatly reduced. I won't be able to defeat the other fifth-circles in the Dark Ancient Tower."

He didn't meddle and quickly flew forward.

After fleeing for such a long time, he was becoming more and more cautious. He was completely different from the arrogant and arrogant Sorrett!

Just like that, Levi and Sorrett brushed past each other!

When they reached a safe place, Levi's expression did not relax. He quickly set up an array around him.

At the same time, he looked at the shadow behind him.

"Nightmare!"

Boom!

With a thought, the area where Levi was completely dark! His shadow was also gone, as if something had crawled out of his shadow.

Levi's force field lit up layer by layer. On the Crimson Dragon Slash in his hand, black and red flames intertwined, and the Twin Dragons Playing with Pearls appeared again. r

This time, he was heading towards his feet!

Boom!

A terrifying explosion swept through the night.

A shrill cry of pain suddenly sounded. "Are you crazy? Such an unstable explosive attack is thrown at your feet. Do you want to die? How... how did you know I was here?"

The night disappeared. In front of Levi, a human figure appeared. It seemed to be the man in black in Conan.

After seeing the shadow's face, all the protective force fields on Levi's body were activated. His Crimson Dragon Slash sword energy slashed out, pressing forward!

"Shadow Wolf Matthias!"

Matthias was recognized. He dodged Levi's sword aura and said, "You know that I'm the branch leader of the Shadow Circle, but you still dare to attack me? Do you know the consequences?"

"You're hiding in my shadow. You don't have good intentions. You deserve to die!" A terrifying sword aura attacked Matthias.

The other party only dodged and did not attack. Levi could tell that there was something wrong with his current state.

"Stop, stop. I'm hiding in your shadow. I don't have any ill intentions. I only used you to escape. I was chased by that damned mysterious organization and was forced to use a secret technique to escape. You must have seen all of this. I'm not lying to you," Matthias suddenly said.

Immediately after, he added, "If I had any ill intentions towards you, I would have attacked you when you were running for your life just now. Don't you think so?"

Levi's attacks did not stop. A sword qi struck the figure and tore it apart. The figure shattered like a mirror and scattered in the sky.

Then, these fragments reassembled into Matthias' figure.

"You can't kill me," Matthias said. "I'm a shadow now. Can you kill a shadow?"

The next moment, Levi released Leon.

"Leon, is this edible?" he asked.

Leon flapped his wings, and his scorpion tail emitted a cold light.

"Master, you can eat it. It smells quite good."

The next moment, Leon howled and pounced at Matthias.

Matthias' expression changed as he felt a strong sense of danger.

He knew that even in his shadow state, there was a high chance that he would be eaten by this ugly insect!

In fact, he was not a "shadow" at all. This so-called shadow was something he had created by using a secret technique to separate his soul and spiritual force from his body.

Today, he went to the wizard market in Greenwater River to discuss cooperation with Deborah. He would provide the potions, and Deborah would use his identity as the manager of the market to open up channels and markets in the market.

Chapter 1074: Rewards! (5)

Who would have thought that he would meet the people from that mysterious organization halfway?

After the Star Auction in the Sea Capital 20 years ago, many of the participants were attacked by the mysterious organization.

Shadow Wolf was once assassinated in the Gold Capital 16 years ago. He was lucky enough to escape, but he was seriously injured.

It was not easy for him to recover from his injuries and live for more than ten years safely. He thought that he was safe, but he did not expect to encounter that group of people again today.

Moreover, it was two people this time. He was at a disadvantage against two people. To escape, he used his innate spell, Pursuing Shadows, to hide in the shadow behind Levi and teleport for a short distance through this method.

Unexpectedly, this fellow ran quite quickly. He even had a teleportation portal that teleported him thousands of kilometers away. Then, he ran wildly and dodged the pursuit of the mysterious organization's members.

He did not expect that a mere Fourth-Circle Wizard could find him hiding in his shadow.

How could Levi dare to slack off in the face of a fifth-circle expert? His innate spells surrounded him as his three Dharma Idols appeared and his Bloodline Dharma Body appeared behind him.

Levi didn't even use half of his strength against the Coral Witch.

Now, he went all out and directly made Matthias, a fifth-circle senior wizard, flee.

He didn't even have a physical body. Only this shadow had escaped with Levi, and he couldn't use any offensive spells. Naturally, he wasn't Levi's match.

In the end, Matthias was caught by Leon.

"Don't kill me. I can give you my Fifth-Circle Wizard Tool and my fifth-circle pharmacist inheritance! I don't have these things on me. If you kill me, you definitely won't be able to get them."

Matthias was completely flustered. He did not expect the fourth-circle wizard he had casually possessed to be so powerful!

Levi asked Leon to hold back for the time being. He looked at the Divine Ring Tower in his mind, which was as stable as a mountain. His intuition told him that this guy wouldn't try to possess him.

"Tell me, where is it?" Levi asked.

"You have to sign a contract with me and not hurt me. Otherwise, if you still won't let me off even if I tell you, I might as well not say anything," Matthias said.

"Then you can die. If you're eaten by it, you won't even have a chance to reincarnate. You have to think carefully," Levi said with a cold smile.

At the same time, a suction force came from Leon's mouth. Matthias's soul began to twist and was about to be sucked in.

"I'll tell you, I'll tell you... I won't sign a contract with you. I just hope that you can let me go and rely on the trust between us. How about that?" Matthias said. If he didn't agree now, he would die immediately. He told Levi that if Levi was in a good mood, he still had a chance to live.

"Sure. Tell me, where is it?" Levi asked calmly.

“In one of my hidden quarters in the inner ring,” Matthias said.

“You’re lying to me, right? Ordinary wizards would carry their valuables with them. After all, there are storage items. How can it be safer to keep them at home than to bring them with you?” Levi sneered, looking like she was about to attack again.

“I’m not lying to you. Ever since I was targeted by the mysterious organization, I rarely went out. I even moved out of the Shadow Circle branch and lived alone with my family. To prevent me from dying one day and letting others have all my assets, I placed a portion of my assets at home. When the time comes, I can even pass it on to my descendants,” Matthias said very sincerely.

“Send me the coordinates of the stronghold,” Levi said.

“Okay, I hope you can let me and my family go after you get what you want... At the very least, don’t hurt my family. They’re innocent.” Matthias’s voice was low, as if he knew that Levi would definitely kill him after he had outlived his usefulness. He no longer had any hope.

Levi was silent for a moment before saying, “I didn’t expect you to be so good to your family. I’ll see how it goes.”

“Thank you. Even if you kill me, I have no complaints. If it weren’t for you, I wouldn’t have been able to escape from those people.”

“Cut the crap.”

“Will do.”

...

Levi sat in the airship while Phoenix drove the ship.

He was not in a hurry to go. Instead, he crazily consumed various potions to make up for the aftereffects of using the Scarlet Escape.

As for the shadow that Matthias had turned into, it had already been locked up by Levi with various restrictive spells and arrays, and Leon had been biting it.

Leon was craving it, but he couldn't eat the food that was in his mouth.

About seven days later.

Levi's body had almost recovered, and they had arrived at Matthias's hidden stronghold.

“Please make sure no one is following us,” Matthias said. “I don’t want those people to find out about this place. My family is very important to me.”

“No,” Levi said.

On an uninhabited island, Levi’s eyes lit up as he said calmly, “There’s an array.”

“Yes, I hired someone to set this up. It seems that you’re also an array wizard... I didn’t expect there to be a monster like you in the Endless Sea. It’s not injustice for me to die in your hands,” Matthias said.

The array was only a fourth-circle array. Matthias told Levi about the incantation to activate the array.

However, Levi used his own method to break the array in no time. Matthias watched everything in silence.

“You’re really cautious. That incantation of mine is real.” He suddenly smiled bitterly.

Levi did not say a word. He looked at everything inside the array. It was a black wizard tower.

Chapter 1075: Rewards! (6)

Leon held Matthias in his mouth and brought him over.

“Please remove the spell-casting restriction so that I can open the wizard tower... I’m about to die. Don’t worry, I won’t harm you,” he said sincerely.

Over the past few days, his shadow had been constantly fading. Now, he looked like a candle in the wind, unable to withstand a single blow.

That was because the soul and spiritual force that formed the shadow were constantly dissipating. If it did not return to his body, it would not take long for him to disappear.

“Where’s your family?” Levi asked with a smile.

“Oh... they might have gone out to play. That’s good. They won’t know that you killed me, and they won’t be able to take revenge on you in the future. You don’t have to worry about getting revenge and killing them too, do you?” Matthias said, a little sadly.

Levi’s sword aura swept out and directly split open the arrays and restrictions outside the wizard tower. Then, it cut open the wizard tower neatly.

“You...” Matthias wanted to say something but stopped. He sighed repeatedly. How could there be such a cautious and suspicious person?

“I originally had two Fifth-Circle Wizard Tools. One of them was for battle, called Shadow Wolf Blade. When I was being pursued, I self-destructed it to save my life. The other Fifth-Circle Wizard Tool was called Gargamel’s Book of Seals. It could seal some pets for fun. I sealed a peak level 4 Shadow Winged Dragon inside. This is a mixed-blood Dragon Clan that only exists in the Shadow plane. It’s worth a lot and is even more valuable than ordinary Fifth-Circle Wizard Tool... These are all for you.”

“There’s a Secret Book of Potions on the desk in the laboratory. It’s a pharmacist inheritance left behind by a famous Fifth-Circle Wizard. I’m sure you know the value of this. There’s no need for me to elaborate.

“These are the last of my assets. The rest are with my physical body and have been taken away by those people.” Matthias’ voice became more and more sorrowful.

Soon, the Blood-Armored Corpse Demon came out with two books.

One was black and extremely heavy, with the words ‘Secret Book of Potions’ written on it. The other was blood-red. Rather than calling it a book, it was more like a thin photo album. There were a total of five pages, and the other pages were empty. Only the fourth page had a black Winged Dragon drawn, looking ferocious. It was probably the Gargamel’s Book of Seals.

“Please remove my spell-casting restriction. I’ll tell you the incantation and method to use the Book of Seals. This thing is very rare. Back then, I paid a huge price to let others successfully appraise it,” Matthias said.

Seeing that Levi was still hesitating, he continued, “Young man, I won’t harm you. My secret technique can only keep my soul for seven days. Today is the last day. Besides, I’m not a primordial soul wizard and can’t possess you. I don’t even know why you’ve been vigilant these past few days...”

Levi thought for a moment and released Matthias’ spell-casting restriction.

Matthias told Levi about the spell and said, “Try it. If I lie to you, you can kill me now, torture me, and make me die in pain so that I can’t reincarnate!”

With Levi's knowledge as a fourth-circle Weapon Refiner, he naturally knew that it was not fake.

Levi's mouth opened slightly, as if he was about to chant an incantation.

Matthias' shadow suddenly exploded, along with the various restrictions on it.

At the same time, Matthias' soul turned into a black light and flew towards Levi's forehead.

"Hahaha, your body is mine!"

Matthias' spirit, appeared in Levi's mind.

Thud!

Thud!

Thud!

Along with the sound of three yellow bells.

His soul instantly faded, and he no longer had the aura of a fifth-circle cultivator.

“Magic ring... Divine Tower, how is this possible? Isn't this something only a primordial soul can have?”

Matthias stayed where he was and muttered to himself, his eyes filled with disbelief.

His secret technique could place his soul and spiritual force in the “shadow” and preserve it for seven days.

Within seven days, he had to “possess” or return to his body to survive.

At first, he had no intention of possessing Levi. He had already refined a fifth-circle body for himself. Therefore, he did not do anything along the way. He only wanted to get rid of Levi and return to the fifth-circle body he had refined. **r**

However, after being discovered by Levi, he learned that this person's methods were extremely extraordinary. He cultivated both body tempering techniques and spells, which meant that he was very talented.

This fourth-circle body was better than his fifth-circle body. It had unlimited potential in the future!

Therefore, from the moment he used the Wizard Tool and pharmacist inheritance in his house to tempt Levi, he had been planning to possess Levi.

He could tell that Levi was very cautious. He was not a primordial soul wizard, and his soul was limited in strength compared to Levi's. If Levi was careful, the success rate would be very low.

He had always wanted to find a moment when Levi let his guard down before taking over.

He waited for seven days!

During this time, he used all kinds of acting skills and words to try to make Levi lower her guard.

He strove to portray himself as a character on the verge of death, and his words were kind.

His family didn't exist. He just wanted to make their image more sincere and full.

However, Levi was impenetrable, but he still had one last move.

The moment Levi obtained his Wizard Tool and pharmacist inheritance, he would let down his guard.

So he tricked Levi into opening the spell for him, and he told Levi the spell.

Then, he took this opportunity to activate his last secret technique and possess it!

However, after scheming so much, he never expected Levi to have the Divine Ring Tower in his mind.

What was even more unexpected was that Levi had already sensed his hostility through the sense of danger. He was just cooperating with his acting.

As the bell in the Divine Tower rang continuously, Matthias' soul became thinner and thinner.

"I'm from the Shadow Circle. My teacher is a primordial soul wizard... You can't kill me," he pleaded.

The next moment, his soul was shaken out of Levi's mind and swallowed by Leon.

"Wow, it's delicious. I've been craving it for seven days, Master!" After Leon finished eating, he circled Levi happily.

Levi would only be at ease after confirming that Leon had devoured the enemy's soul.

After killing Madam Ghost, Levi read some professional books of the School of Death and learned that there were wizards in the School of Death who seemed to know the spell of questioning the “dead” and relying on the “soul of the dead” to track the murderer.

This made him even more vigilant and cautious when killing people. Anyone who killed had to be dealt with cleanly.

“To be honest, Matthias’ acting skills are phenomenal.” Levi temporarily put away the spoils of war. Now was not the time to check and study them.

He searched the wizard tower again and put away Matthias’ book collection, including the spell crystal balls he had left at home and a portion of the Aether Stones.

In addition, there was also a corpse soaked in a transparent container filled with tubes. Although it was already dead, Levi could feel that the corpse should have been a Fifth-Circle Wizard when it was alive!

He moved the entire laboratory into his ring and went back to study this thing.

“There are really wizards who would leave valuable things at home. I can only be at ease if I keep them with me.” Levi thought to himself.

Before leaving, Levi used flames to purify everything until the entire island was roasted into lava by the high temperature, completely wiping out all traces.

Only then did he leave and quickly fly towards the human world.

Half a month later, he returned to the Ancient Saint plane. As soon as he entered the Seven Kings of Hell array, he felt a sense of security and finally heaved a sigh of relief. Here, even if a Fifth-Circle Wizard came, he could still fight.

He laid on the bed in the Imperial Palace and rested for a month before the aftereffects of the Scarlet Escape completely disappeared.

After waking up, Levi took the Endless Sea newspaper and found that the headlines were related to the Flower Knight.

[Today, the Witch's Family's Flower Witch, Elena, and the Letney Family's golden prince, Mario, fought over the key to the Dark Ancient Tower at the Endless Sea. When the Flower Witch won a complete victory, she encountered the interference of the veteran powerhouse, the Head of the Law Enforcement Department, Molten Gold Wizard King. The admirers of the Flower Witch expressed their strong dissatisfaction with the Molten Gold Wizard King's bullying of the younger generation. The Witch's Family also strongly condemned this! The Molten Gold Wizard King expressed that he would fight for the opportunity later. Those who could win would not bully the younger generation. The Witch's Family could also do the same.]

"Old man, you're so shameless!" Levi could not help but curse when he saw the news.

Chapter 1076: Dharma Body Advancement! Six Heavenly Gods! (1)

There was no rule in the Wizard World that one could not "bully the weak".

However, with the status of the Molten Gold Wizard King, especially since he was the Head of the Law Enforcement Department, it was indeed a little embarrassing for him to interfere in the battle of two junior sixth-circle wizards.

In addition, because of the Flower Witch's looks and talent, she had many admirers in the Star Sea.

That was why public opinion was condemning the Molten Gold Wizard King. However, experts at the level of the Wizard King naturally did not care about the opinions of those ants. It was fine as long as it was beneficial to their family.

If Levi was in the position of the Molten Gold Wizard King, he would most likely do the same.

However, because of the Thunder Dragon Family, he did not have a good impression of the Letney Family. In addition, he was from the same wizard organization as the Flower Knight. Naturally, he was on their side.

It had nothing to do with right or wrong. It was just that their positions were different.

Levi continued to read the newspaper to see if there had been any follow-up incidents since he'd killed Matthias, but so far nothing seemed to have been reported.

In the current chaotic situation, no one cared about the death of Matthias.

As for Matthias saying that he was the disciple of a primordial soul wizard, Levi deeply suspected that it was just a threat that members of large organizations often used before they died.

Suddenly, Levi saw another piece of news in the corner. It was a familiar person.

[Thunder Spear Sorrett was discovered in the Endless Sea. Many dark wizard hunters went to the place where he appeared and intercepted him, but he escaped. Later, they discovered that a fifth-circle weapon craftsman's wizard tower had been destroyed. The soul token he had stored with his friends and family had also shattered. It's suspected that he was cruelly killed by Sorrett!]

"Sorrett is still around? I thought he would have died long ago. This guy's life is tough enough. He has such a huge bounty on his head, but he hasn't been captured yet. Good people don't live long, and evil lives for a thousand years. The ancients didn't lie to me." Levi couldn't help but sigh.

Ever since he killed Rex in Riptide City, the grudge between him and the Thunder Dragon family had lasted for a hundred years.

After reading the newspaper, Levi got up from the bed.

According to Triss, the Dark Ancient Tower would open in eight years.

In other words, the year 1165 of the Holy Brilliance Calendar.

In these eight years, Levi could do many more things to make his strength and condition reach its peak.

Then, he would head to the dark ancient tower that was filled with opportunities and dangers!

After leaving the Emperor's Palace, Levi soared into the sky and arrived at the Seven Kings of Hell's array.

He released the Coral Witch and her two subordinates from the Greenfield Immortal House.

The Coral Witch lowered her head, not daring to look directly at Levi's face. As a former proud daughter of heaven, she had lost all her face in front of Levi. She even cried in disappointment. It was simply embarrassing.

"This array is divided into Seven Hells: Rolling Stones, Sea of Fire, Wind Blade, Dead Sea, Ice, Thunder, and Blade Mountain. From now on, you will oversee the Dead Sea Hell for 200 years. You are only 300 years old now and have already reached the Perfection of fourth-circle cultivation level. You still have 400 years of lifespan in the future. You can still cultivate in this array. If you perform well, you might have a chance to recover from your mental trauma in the future. Advancement to the fifth-circle is just around the corner," Levi said calmly.

"My mental injury was caused by a failed breakthrough and damaged my primordial soul power... I've studied the relevant information. Unless an existence above the primordial soul is willing to spend primordial soul power to repair it for me, my injury can't be repaired. Otherwise, I wouldn't have left the organization in despair and become a bandit," the Coral Witch said in a low voice. Her unwillingness and helplessness were obvious.

"Nothing is impossible. As long as you perform well and do your job, it's fine." Levi smiled confidently.

The primordial soul power was not difficult for him. He only needed the Soul Artifact fragment.

This Coral Witch was very talented. If Levi had the intention to nurture her, she would become one of his generals in the future.

He called Ur, the blood vampire, Red Eye, and the others over and said, "You can ask them if I treat my subordinates well."

"Madam, believe me, you will fall in love with this place. No one loves their employees more than Boss!" Red Eye said quickly.

"That's right. You're a dark wizard too, right? It's good that you're here. You don't have to take a detour for a hundred years." The blood vampire smiled awkwardly.

"I won't hide it from you. As an outcast of the old era, it was here that I found the value of my life. On the first day of my employment, Boss gave me a fourth-circle spell." Ur's words came from the bottom of his heart.

"What rubbish Forsaken Land of the God? Not even a dog would go? I, Ur, will guard the door here for the rest of my life!"

He guarded the door for a hundred years and was born a fifth-circle cultivator!

The Coral Witch smiled bitterly. "I don't have any other choice. I can only do my best to protect this place. If you can help me recover one day, I'll be very grateful!"

“This is your Wizard Tool. Take it back. I fixed it for you.” Levi handed a fork and a shell to the Coral Witch.

These two Wizard Tools were both fourth-circle Wizard Tools of average quality. Levi had damaged them previously, but they were not completely scrapped. With Levi’s fourth-circle Weapon Refinement standard, it was not a problem to repair them.

The Coral Witch looked incredulous and tried to ask, “Are you really going to give it back to me?”

“Yes, take it away.”

“Thank you, Boss!”

The Coral Witch hurriedly thanked him and carefully put away the Wizard Tool. She tried it and found that it was completely fine. It even felt a little better than the previous Wizard Tool.

Chapter 1077: Dharma Body Advancement! Six Heavenly Gods! (2)

This mysterious boss had far exceeded her imagination.

Weapon craftsman, array wizard, as well as body-tempering and spell-cultivating wizard? What else did he not know?

Only now did the Coral Witch realize that Boss didn't use his full strength in the battle against her. They were both Fourth-Circle Wizards, but Boss was far stronger than her!

"There's always someone better. This person is either possessed by a primordial soul wizard or a legendary existence reincarnated and re-cultivated... Ordinary Children of the Elements are nothing in front of him!" The Coral Witch was convinced.

Following such an existence did not seem to be a bad thing. To a certain extent, it was better than her being at Lilith's Cabin.

After all, in Lilith's Cabin, although the Children of the Elements were also geniuses, they did not lack her.

However, the Coral Witch looked at Red Eye, the blood vampire, and Ur and felt proud.

Here, he might even be placed in an important position!

One of the Coral Witch's subordinates was Freddy, from the Ocean School of Thought, and the other was Michael from the Hurricane Faction.

After a round of empty promises, Freddy and the Coral Witch guarded the Dead Sea Hell together, while Michael guarded the Wind Blade Hell.

This way, the four major factions—Rolling Stone, Sea of Fire, Wind Blade, Dead Sea, Earth, Fire, Wind, and Water—were all guarded.

In addition, Levi had perfected the Seven Kings of Hell previously.

The defense and lethality of the Seven Kings of Hell had increased again.

If he fought Madam Ghost again, he believed that it would be easier to kill her.

“Only ice, lightning, and Blade Mountain Hell are left. I should be able to gather them before entering the Dark Ancient Tower,” Levi thought.

Before leaving, Levi brought the Poison Fire Corpse Demon with him. He did not need it to guard this place anymore. It was better to keep it by his side to help him.

After dealing with the Coral Witch, Levi returned to the Emperor’s Palace and began to sort out his gains.

Levi received a total of three million Aether Stones from the four monsters, most of which came from their leader, the Coral Witch.

As for those fourth-circle or third-circle Wizard Tools, Levi let them keep them. After all, they were security guards. It was not good to let them use their bare hands.

Levi already had a lot of other spell knowledge. After recording these spells into his knowledge base, Levi realized that there was one spell that looked pretty good.

It was a domain spell used by the Coral Witch as an innate spell.

Fourth-circle spell, Jellyfish Barrier.

“Hmm, this spell has opened up a new way of thinking for me. Perhaps I can choose a domain-type innate spell in the future, such as gravity force field, air prohibition force field, magnetic force field, and so on.”

To a certain extent, this kind of innate spell was equivalent to a small-scale array that could be carried around and instantaneously cast. Any target that entered its domain would be affected.

Looking at the Aether Stone in his storage bags, Levi was in a good mood.

“Eight million. Before entering the Dark Ancient Tower, I’ll leave a few million for arrays and the consumption of alchemical creatures. The rest will be converted into my combat strength.” Levi planned in his heart.

After counting the Four Monsters of the Nether Sea, it was Matthias’ spoils of war.

Now that he thought about it, Matthias’ death was too aggrieved.

As a fifth-circle senior wizard comparable to Sorrett, he was completely defeated by him.

Naturally, 90% of the credit went to the two experts from the Mysterious Organization.

“With Matthias’ status as a fifth-circle senior wizard and a pharmacist, he probably has a lot of valuable things in his storage bags. He might even have fifth-circle breakthrough potions. It’s a pity that they’re all taken advantage of by that mysterious organization.” Levi sighed.

“However, I should be satisfied that I can obtain the pharmacist inheritance and the Fifth-Circle Wizard Tool.”

Levi flipped open the Secret Book of Potions. This was compiled by a fifth-circle pharmacist thousands of years ago. There were always more than a hundred potion formulas on it. Most were low-level, but a few were above the mid-level.

However, Levi had the fifth-circle meditation supplementary potion and the formula for the breakthrough potion that he needed the most. They were called “Demon Soul Potion” and “Crystal Heart”.

Other than that, there were also some potions with other functions. This greatly enriched Levi’s knowledge base of pharmacists.

He chose some potion formulas that might be used in the dark ancient tower and immediately got his subordinates to find raw materials for him to refine. It was better to be prepared.

As for the ingredients for the fifth-circle breakthrough potion, he would leave it to fate.

With so much money now, he did not need to be obsessed with alchemy himself. He could completely buy potions from legal channels.

With his current talent and the help of the Divine Ring Tower, it wouldn't be a problem for him to Crystalize once he was fully prepared.

If he could find some more Truth Oddities in the Dark Ancient Tower, the fifth-circle would be even more certain. There was no chance of failure!

Then, Levi took out a thin blood-colored book and fumbled with the cover.

Gargamel's Book of Seals!

He had been looking forward to this Fifth-Circle Wizard Tool for a long time.

Its function was very simple. It was to seal any living creature into the book and become the Book Spirit of the Book of Seals.

To Levi, the greatest use of this Wizard Tool was to bring transcendent creatures who cultivated the breathing technique into the Dark Ancient Tower.

After all, he was not sure if there were any transcendent creatures he needed in the Dark Ancient Tower. If there were none, his Knight Breathing Technique cultivation would suffer.

Chapter 1078: Dharma Body Advancement! Six Heavenly Gods! (3)

Among the five pages of the Book of Sealing, only the fourth page was sealed with a peak level 4 Shadow Winged Dragon. This transcendent creature was even rarer than the Wind Thunder Winged Dragon.

An adult Shadow Winged Dragon had a high chance of advancing to the fifth-circle Advancement realm.

Even Levi was a little excited because the Shadow Winged Dragon might be able to solve the problem of him cultivating the Scarlet Dragon Breathing Technique too slowly.

All this while, he had been cultivating using the secret medicine made by the level 3 Blood Clan, but this was not a long-term solution.

Levi wanted to find a better secret medicine of the Dragon Clan other than the Blood Clan.

Negative energy was an extremely broad concept. Poison, darkness, blood, death, shadows, and other negative things could all be categorized.

As a shadow creature, the Shadow Winged Dragon was a typical negative energy creature. Furthermore, it was one of the rare shadow creatures.

Levi had previously considered using the Dragon Clan's negative energy of death. After studying them for a while, he realized that they were all... bone dragons. There was only a pile of bones and no blood at all.

Levi chanted an incantation.

The blood-colored book opened automatically. On the fourth page, the Shadow Winged Dragon suddenly came to life.

Immediately after, a shadow appeared in front of Levi. It expanded into a black Double-legged Dragon with a wingspan of dozens of meters, a ferocious expression, and spikes on its back.

It looked like a corrupted version of Raja.

After using the Dragon Clan's bloodline to communicate, Levi learned that this Shadow Winged Dragon was called Night Fang Shanice.

This was not the name Matthias had given it, but a name from its bloodline memory, similar to Gustav.

Because Levi had already refined the Book of Seals, the Shadow Winged Dragon crawled in front of Levi the moment it came out.

Levi touched its head.

“Not bad. Raja will have company in the future.”

Levi was not in a hurry to draw blood. Instead, he called Raja over first.

Raja, who was one size smaller than the Shadow Winged Dragon, quickly flew over. He was shocked when he saw Night Fang enjoying Levi’s touch.

“Damn it, you’re competing for my favor when I’m not paying attention?” Raja hurriedly flew around Levi and cawed, full of tricks in his heart.

Night Fang looked at Raja vigilantly, like a black panther about to hunt. His muscles were tense, his wings swept back, and his tail waved uneasily.

Levi saw that the two sides were about to fight and quickly said, “Raja, I’m giving you a chance. You’d better seize it.”

This guy was really a straight dragon.

He chased Raja away. Feelings could not be rushed. He would let them slowly nurture in the future.

Levi was rather curious. If Raja could mate with Night Fang, what would his offspring be?

After bonding with Night Fang for a while, Levi sent him back.

He was calculating in his heart.

This time, he entered the Dark Ancient Tower.

It was not a big problem for wizards. They just had to prepare potions 40 years in advance and bring them in.

As for the knights, they wanted to extract the secret medicine for decades at once and squeeze Raja and the others dry three times, but it was useless.

Therefore, he had to bring his main transcendent creatures in.

“There are only five contract slots in the Book of Seals. You can contract transcendent creatures from Level 1 to Level 5. Level 1 and Level 2 are useless. There are only three locations: Level 3, Level 4, and Level 5.

“I have the six-dimensional breathing technique now. The contract slots are not enough.”

There were only so many slots. Levi had to make a choice.

As for modifying or replicating the Gargamel’s Book of Seals, with his current level of knowledge, it was impossible.

From Triss, Levi learned that many of the other top-notch wizard organizations had similar Wizard Tools. They could bring in additional people outside of the key slots in the Dark Ancient Tower. However, the number was very small and there were many restrictions. It mainly depended on the key slots.

Levi could bring five transcendent creatures in with the Book of Seals and the ancient tower key.

Leon, Raja, Flame-Blood Rampage Dragon, and Crimson Netherworld Sparrow. Levi would definitely bring them along.

Needless to say, Leon was Levi’s most capable assistant. He was a God pet that was essential for murder and arson.

Raja was a level 4 mixed-blood Dragon Clan with rare wind and lightning attributes. It was a must-have for cultivating the Sky Dragon.

The Flame-Blood Rampage Dragon was essential for cultivating the Crimson Emperor Dragon Breathing Technique. It could also be used as a supplementary potion to the Inferno Dragon Breathing Technique.

The Crimson Netherworld Sparrow was a descendant of the Undying Bird at the peak of level 3. It was the main ingredient of the Inferno Dragon Breathing Technique. The level 3 slot in the Book of Seals was prepared for it.

There was one more slot. Levi still needed to think about it.

The Golden Snake breathing technique had dual attributes. Its secret medicine came from the Ground-Drilling Earthworm and the Green Armored Fish Dragon. This meant that it occupied two pits.

Levi was not worried about the last Nightmare Dragon breathing technique.

In the dark ancient tower, he should be able to enter the nightmare world normally. When the time came, he could search inside.

“There are still eight years. There must be other ways... It’s best to bring these transcendent creatures in. If there’s no other way, I’ll search in the Dark Ancient Tower.”

When Levi knew that he was going to enter the Dark Ancient Tower, he began to store the knight’s secret medicine consciously.

Now, he had already stored up enough secret medicines for him to cultivate for a few more years.

However, compared to the exploration time of the dark ancient tower, this was far from enough.

Next, Levi thought of a solution while cultivating.

Time flew by, and a year passed quickly.

Holy Brilliance Calendar Year 1158, Month of Germinal.

Chapter 1079: Dharma Body Advancement! Six Heavenly Gods! (4)

In the Emperor's Palace, Levi's aura had increased a little compared to a year ago.

In the past year, Celia had helped Levi prepare the ingredients for the meditation supplementary potion.

These materials were enough for Levi to continue taking potions for 40 years!

It was already not bad for many wizards to consume supplementary potions once a year.

Even other geniuses might not be as extravagant as Levi, who could directly pull up all the resources!

The price was that Levi had spent millions of Aether Stones.

Supported by such abundant financial resources, Levi's mental cultivation was smooth sailing. There were no obstacles or bottlenecks.

In just a year, he had condensed another six drops of spiritual force dew.

Levi's spiritual power rose to 325.

He felt that he might be able to break through to the Five Environmental Realm faster than expected.

If everything went smoothly, he would be able to crystalize during this trip to the Dark Ancient Tower! He would reach the last stage before the primordial soul!

Levi had also successfully mastered the Gargoyle body tempering technique that he had obtained from Ur. He would slowly cultivate it in the Dark Ancient Tower.

In terms of the path of knights, Levi's divine weapon, Crimson Dragon Slash, was cultivated to level 3 first because he had obtained it the earliest and used it the most frequently.

After his cultivation reached level 3, there were some changes.

Levi—

Crimson Emperor Dragon breathing technique: ... exclusive weapon: Crimson Dragon Slash (Maximum of level 3 / Recastable)

(At the current level, the exclusive weapon will increase the elemental attribute by 30%. It has reached the upper limit of the current quality. High-level materials need to be reforged and strengthened to match the increase in bloodline strength. Otherwise, there is a possibility that the exclusive weapon will be destroyed.)

After level 3, every time he leveled up, his elemental attribute would increase by 15%.)

...

“As expected, level 4 elemental metals are not enough. It’s mainly because the Crimson Emperor Dragon’s bloodline is too strong. Ordinary materials of the same level can’t withstand it at all. I have to use higher-level materials... My head hurts.”

Levi sighed inwardly.

However, the level 3 Crimson Dragon Slash increased Levi’s strength by 30%. It was enough for him to use, so he was not in a hurry to level up.

Other than the Crimson Dragon Slash, the Golden Dragon Heavenly Shield, Scarlet Shadow, and Indestructible Armor were all still at level 2.

The Golden Dragon Heavenly Shield and the Indestructible Armor were both fifth-grade elemental metals. They should be usable for a long time.

The upgrade of the divine weapon was secondary. This year, there was another major upgrade. Levi's bloodline Dharma Body had finally advanced.

This skill helped Levi overcome many difficulties in the early stages. In addition, it could be upgraded infinitely. As long as his spiritual force and physical body cultivation reached the standard, there would be no bottlenecks. Therefore, it had always been Levi's signature skill.

Levi—

Bloodline Dharma Body: Level 8 (1/100,000)

...

With a thought, the Asura phantom with three heads and six arms appeared behind Levi.

The three heads were getting closer and closer to Levi's. There were still three expressions.

The one on the left was compassionate, the one in the middle was expressionless, and the one on the right was King Kong.

As for the Dharma Body's six arms, the details were even more abundant.

His left arm held the Golden Dragon Heavenly Shield and his right arm held the Crimson Dragon Slash.

His left arm was holding a corner of the cloak of Scarlet Shadow. He wore this cloak on his back, fluttering into the distance like a red ribbon.

His right arm was placed on his waist. He was wearing the Indestructible Armor.

His left arm held the Fire Ouroboros while his right arm held the Secret Fire Sphere.

Around the Dharma Body, there was also a four-story wizard tower revolving around it. It was the Divine Ring Tower!

“With this look, is he going to cosplay as Third Prince Nezha? Or is he going to imitate Heavenly King Li? Or is it a mix of father and son?”

Four divine weapons, two fifth-circle attack Dharma artifacts, and the “Divine Ring Tower”. His most powerful “dharma treasure” appeared on his Dharma Body.

“As expected of a cultivation product that combines spirit and flesh... You can use the treasures of knights and wizards. Today, I’ll test how powerful you are.”

Levi flashed out and arrived in the sky.

He released Phoenix, Mind Flayer, and his other subordinates.

“Come and try it out with me.” Levi smiled.

“Again?”

Phoenix trembled in anger. As a fire elemental, his body was cold!

The situation forced it to attack Levi.

Flames filled the sky and swept towards Levi. The other subordinates also swarmed forward!

Levi was as still as a mountain. He crossed his arms and sat on the ground.

With a thought, the four divine weapons, two Wizard Tools, and the Asura Dharma Body surrounded by the Divine Tower appeared behind him.

At this moment, the Dharma Body was 20 stories tall. Its appearance was closer to the aesthetic standards of Eastern Buddhism and Daoism. It was strange and dignified.

If he appeared in his previous life, he would be treated as a Heavenly Soldier, Heavenly General, and King Kong protector!

Boom!

The Dharma Body attacked. It took a step forward. It was stepping on the void, but the ground below seemed to tremble. Vaguely, this Dharma Body could mobilize the power of heaven and earth.

The Golden Dragon Heavenly Shield shone brightly in his hand and suddenly became bigger and bigger!

It turned into a huge golden shield with a diameter of a hundred meters!

Boom!

The Dharma Body protected Levi with its body and the huge shield protected the Dharma Body!

Phoenix's flames were all blocked by the giant shield!

The left head of the Dharma Body suddenly turned around. To Phoenix, that benevolent smile seemed to be a mockery.

Then, the Dharma Body leaped up and the Scarlet Cloak continued to spread behind it. In the end, it reached a thousand feet long!

Chapter 1080: Dharma Body Advancement! Six Heavenly Gods! (5)

Swoosh!

With a flick of his Dharma Body, the cloak was pulled off his body and transformed into a red silk that flew out!

It was as if a scarlet iron curtain had enveloped the world. Phoenix was immediately bound and could not move.

After dealing with Phoenix easily, King Kong, who was on the right side of the Dharma Body, glared at the succubus and Blood Lady who were charging at him from behind!

Then, the Crimson Dragon Slash was raised by the Dharma Body and transformed into a 40-meter-long greatsword!

Boom!

Accompanied by an explosion, it was as if a volcano had erupted!

Crimson flames soared into the sky as sword energy shot out! It swept past the Blood Lady and the succubus' heads.

Just the aftershock of the sword aura shocked the two level 4 existences on the spot and sent them flying. If they were hit directly, they would die!

“Mind Shock!”

Mind Flayer's signature mind attack spell!

Boom!

His spiritual force rushed towards the Dharma Body!

Thud!

The Divine Ring Tower suddenly descended!

With the sound of the bell, the Mind Flayer was sent flying!

Then, the Divine Ring Tower spun rapidly.

Roar!

Accompanied by dragon roars, five colored Divine Dragons flew out and danced around the Dharma Body!

How shocking was this scene?

Levi, on the other hand, sat quietly in the protective circle of his Dharma Body, quietly watching his Dharma Body act cool.

“They’re still too weak. I keep feeling that with my current strength, I can fight Madam Ghost even without an array. It’s a pity that I don’t have a test subject.” Levi sighed in his heart.

He wanted to find an evenly matched opponent to fight.

However, he was invincible below the fifth-circle and could not afford to offend those above the fifth-circle.

“Retrieve!”

Levi stood up and put away the Dharma Body.

“After level 8, Dharma Bodys are no longer just simple physical attacks. Dharma Bodys are strengthened versions of me. I can use four divine weapons and two Wizard Tools at the same time. In the hands of the Dharma Body, divine weapons are like magic weapons that can change freely and are full of power.

“A Dharma Body can even use the Divine Ring Tower as a weapon. It can also use innate spells, and its power is even stronger than when I use it myself.”

Dharma Bodys were a combination of spiritual force and blood qi. In addition, Levi’s will was infused into them, so it was inevitable that they could use innate spells.

In his opinion, if he wanted to master the path of wizards and the path of knights in the future and achieve his own path, the Bloodline Dharma Body would be the opportunity to break through!

“If I release my Dharma Body, I should have the strength of an ordinary fifth-circle cultivator. Such a majestic Dharma Body needs a more domineering name.”

“Why don’t we call it... Six Heavenly Gods? In the future, when all six divine weapons of the path of knights are gathered, we can have one in each hand. It’s just right.”

Levi was extremely satisfied. After the Dharma Body’s Advancement, its power completely exceeded his expectations.

“Caw caw caw!”

Raja’s voice came from afar. The Wind Thunder Winged Dragon flew happily in the sky. There was also a black Winged Dragon flying with it. It was the Shadow Winged Dragon, Night Fang.

After a year of interaction, Raja and Night Fang’s relationship finally improved.

However, Night Fang still had some resistance towards Raja.

After Levi’s experiment, the secret medicine refined by the Shadow Winged Dragon’s bloodline essence could be used as a substitute for the secret medicine of the Blood Clan.

The Scarlet Dragon’s cultivation speed was much faster than before.

At this speed, before entering the Dark Ancient Tower, he could reach level 15 with the Scarlet Dragon Breathing Technique and step into the Third Transformation of the Blood Source realm.

Of course, the prerequisite was to prepare the corresponding Advancement Potion.

The requirements for the Scarlet Dragon's Advancement Potion were not high. It only required a level 4 Blood Clan and some supplementary ingredients.

This could be found in the human world. Now that the upheaval had intensified, the Blood Clan had already made a comeback after lying low for a period of time.

Levi did not have any psychological burden about killing the Blood Clan.

Levi looked at the panel and muttered to himself,

"In the Scarlet Contract slot, the Blood Clan Klein can be abandoned at any time. When he meets a suitable candidate, he can just replace him. If it doesn't work, he can contract the weak Phoenix to prevent this guy from having ulterior motives."

As for the succubus and Mind Flayer, Levi felt that he could keep them for the time being. After all, these two demons could advance to level 5 or even the demon lord. They might be useful if he encountered an invasion of the Abyss in the future.

After coming out of seclusion, Levi inspected the three major departments every day. After everything was fine, he continued his seclusion.

For the next seven years, he didn't go anywhere else other than helping the Flower Knight enter the Nightmare World.

He cultivated well in the human world.

...

Endless Sea.

Area 5, inner sea region.

Hundred-Eyed Demon Territory.

On a desolate and uninhabited island, there was another world.

A purple-robed wizard was sitting cross-legged and meditating. In front of him was a book.

Augustine's Hammer.

This was a fifth-circle weapon-making inheritance book.

It came from Sorrett's fifth-circle weapon craftsman friend.

Sorrett admitted that he had never mistreated this friend of his, and they had even gone through life and death together.

That was why Sorrett let him refine the Fifth-Circle Wizard Tool for him.

However, he did not expect that his friend would still betray him.

He would leak his whereabouts to the dark wizard hunters in exchange for benefits.

Fortunately, Sorrett had discovered it in advance. He had killed this friend on the spot and snatched his things, including this fifth-circle weapon-making inheritance book.

"In this world, there's no one I can trust anymore... Victor betrayed me, Miraya betrayed me, and my best friend also betrayed me! The only thing I can trust is a snake... What a joke!"
