Chapter 1091: Nightmare Dragon Form! Black Dragon Li Wei, Descends with Flower Knight! (4)

In that case, Elena definitely wouldn't stand a chance.

Well then, what's the point? Better go back and get some sleep.

"I can use my means, and instantly the sense of security comes up. Under normal circumstances, except for the Nightmare Lord and fifth-level Nightmare creatures, the ordinary beings of this world are not my opponents."

"Oh right, let's see if the proficiency panel can be opened," Levi thought.

This could be crucial!

The Nightmare World cannot be measured by common sense.

Levi—Nightmare Dragon Breathing Technique: Level 14 (1/600,000), Special Effect: ... Nightmare Lord (Nightmare Dragon form) ...

...

“An extra form of the Nightmare Dragon. I can come to the Nightmare World because of the Nightmare Dragon’s abilities, so I was born in the form of a Nightmare Dragon hatchling. The bloodline of the Nightmare Dragon is noble, although it is only the Second Transformation of the Blood Source, which is the level of a third-level Nightmare creature. However, it is inherently a ‘Nightmare Lord.’ And my identity in the Nightmare World is not ‘Levi Schneider,’ but... Levi Nightmare Zérg (Drogon)!”

Like the Death Ember Dragon, the Nightmare Dragon was created by Levi himself and did not truly exist in this world.

But ever since Levi’s Nightmare Avatar descended here, a noble bloodline, possibly comparable to a ninth-level Nightmare Overlord, or even a tenth-level Nightmare Monarch, has been born.

It was Levi!

Levi opened the Nightmare Dragon form.

In an instant, he transformed into a mini Nightmare Black Dragon.

“So that’s it, the Black Dragon is my true form in the Nightmare World!”

In the form of the Black Dragon, Levi found that there were changes on his proficiency panel.

He once again opened the Special Effect of [Nightmare Lord].

More detailed information surged through.

Levi—Nightmare Lord: Level 3 (can be enhanced, requires Nightmare Dragon Breathing Technique level 15).

Nightmare Territory: None

Nightmare Subjects: None

Nightmare Travelers: Elena, Maggie.

...

Maggie was the name of the Rose Witch, Levi understood now.

He closed the proficiency panel.

“It’s not safe here. I should find a place in the Chaotic Wilderness to establish a temporary territory first. Only after truly becoming a lord will I have the qualifications to bring in the Flower Knight...”

The principle Levi used to bring people in was similar to how the Man-Faced Spider, a Nightmare Lord, brought people in.

The difference was that the people Levi brought in only brought their consciousness, which returned automatically when the avatar died and did not affect the real world. r

But the Man-Faced Spider brought in their whole selves. Once they died, it was true death, disappearing without a trace!

“Perhaps the Dreamland Steeple was deceived by some lord of the Nightmare World. They thought they had discovered a new world, but little did they know, it was just a fishing expedition by the lords of the Nightmare World, and the so-called hallucinatory potions were just bait! Once they entered, the lords could decide at any moment whether to pull them in or not. At first, nobody noticed anything wrong, to lower their guard and attract more wizards into the Nightmare World. After all the Dreamland Steeple’s wizards had entered the Nightmare World, with just a thought, the lords could make them all disappear, reeled in like fish on a hook! This so-called ‘Pan’ must also be related to the lords.” Levi speculated.

He trusted the proficiency panel, otherwise he wouldn’t have come here.

Soon, Levi turned into a streak of blood and disappeared into the flesh and blood forest.

If he guessed right, this territory belonged to that Man-Faced Spider. If he lingered here too long, he might be discovered and sent back with a single blow.

After flying for who knows how long, Levi arrived above a black wilderness. Blood and flesh mountains stretched everywhere, and on the mountain walls, Levi saw strange characters.

Thanks to the Nightmare Dragon, he understood their meaning.

“Arachne Brick, Lord of Spider Nightmares. Trespassers beware!”

“Lord of Spider Nightmares, so this should be the Man-Faced Spider’s territory. Her name is Arachne.”

The lords of the Nightmare World would leave their names on the borders of their territories as a warning to the wanderers in the Chaotic Wilderness.

The basic order of this world consisted of the Chaotic Wilderness and the Nightmare Territory.

The distinguishing mark between the two was whether Nightmare Mother Trees were growing on the earth, like the flesh and blood tree Levi was born from.

The Nightmare Mother Trees could only propagate naturally and couldn’t be actively planted. Consequently, Nightmare Lords instinctively demarcated their territories using continuous ranges of Flesh and Blood Mountains, enclosing areas with Nightmare Mother Trees as their own, thus establishing their dominion.

After countless years of evolution, the majority of locations within the Nightmare World containing Nightmare Mother Trees were now under the ownership of these lords.

Conversely, unclaimed territories corresponded to desolate and barren regions known as the Chaotic Wilderness.

Typically, only Nightmare creatures of lord-level status possessed the entitlement to establish territories.

As a newcomer like Levi, a fledgling Nightmare Dragon, he could only initially establish a temporary shelter in the wilderness and gradually strategize towards claiming his territory.

“If I were to vanquish the Man-Faced Spider, perhaps I could usurp her position and ascend as the lord of Arachne’s domain. At that juncture, I would command a faction of Nightmare creatures, gradually solidifying my position in this realm.”

Chapter 1092: Nightmare Dragon Form! Black Dragon Li Wei, Descends with Flower Knight! (5)

As Levi pondered, he had already traversed the Flesh and Blood Mountains.

Ahead, the wilderness stretched endlessly, with towering black trees, but there was no sign of Nightmare Mother Trees.

Levi breathed a sigh of relief; at least here, he shouldn’t be targeted by the Man-Faced Spider.

Most of the time, Nightmare Lords confined their activities to their own territories, occasionally venturing into the Chaotic Wilderness to plunder wanderers and resources.

Suddenly, Levi's Danger Perception struck. He saw a monstrous nine-headed bird with wings spanning dozens of yards flying overhead.

"A Wailing Infant Bird... and it's at the ninth-tier level, at least level 4 Perfection. If it grows a tenth head, it'll be a fifth-level Nightmare creature. In extreme cases, there have been lord-level individuals with thirteen heads, equivalent to a typical sixth-circle wizard!"

Levi had read about this creature in the Dreamland Steeple's notes.

The bird looked at Levi, its body covered in wounds from some past attack. Sensing Levi as fresh prey, it descended immediately.

"Ah! Ah! Ah!"

It let out the eerie cries of baby-like wails.

"Level 4 bird, that's seeking death!"

Levi gripped the Crimson Dragon Slash, showing no fear.

But facing such a powerful Nightmare creature for the first time, he exerted all his strength.

The Heavy Water Barrier, Earth Dragon Barrier... various protective force fields emerged.

At the same time, he leaped high and slashed downward with his sword!

In an instant, three of the nine heads of the Wailing Infant Bird were severed.

Having only briefly clashed, the Wailing Infant Bird realized it was no match for the tiny opponent before it and attempted to flee!

Levi sneered, "Too late, I need a mount, and you'll do just fine!"

He jumped onto the bird's back, thrusting his sword infused with Nightmare Dragon power into it, then stomped forcefully!

The Wailing Infant Bird plummeted from the sky like a kite with its string cut!

Boom!

The wilderness trembled, and the earth shattered, revealing its flesh-like soil and blood-like underground water.

Many weak Nightmare creatures were scared out of hiding. They were destroyed by the aftermath of the battle between two powerful beings, turning into grains of Nightmare Crystals the size of rice.

The Wailing Infant Bird, pinned down by Levi, struggled incessantly.

Ordinary physical attacks were almost negligible to it, but Levi's attacks were all imbued with the power of the Nightmare Dragon, causing it unbearable pain and constant wailing.

The level of power was so high that it filled the bird with fear. It had encountered lord-level Wailing Infant Beasts before, but compared to the overwhelming presence of this tiny creature before it, they paled in comparison.

"Crimson Contract!"

At this moment, Levi directly released Claire, a level 3 member of the Blood Clan, and attempted to form a contract with the Wailing Infant Bird.

Meanwhile, in the real world, inside the Greenfield Immortal House, Claire regained his freedom. He went from being lost to being fierce, preparing to wreak havoc inside.

"D\*mn humans enslaved me for so long! Just wait! I will have my revenge!"

Claire was ultimately a member of the Primary Blood Clan, not like Andrew, a member of the Secondary Blood Clan. Once released from the contract, he immediately reverted to his Blood Clan nature and did not completely submit to Levi as Andrew did.

“Blood Clan, don’t be foolish,” the Mind Flayer said coldly.

The Blood-Armored Corpse Demon also stepped forward, silent, staring at Claire.

“Hehe, being enslaved and not even realizing it, fool. If you’re capable, kill me. After all, Lord Blood River is immortal, and Primary Blood Clan members are indestructible!” Claire laughed arrogantly.

Blood Clan members never feared death; in their creed, death was also a rebirth. Returning to the embrace of Lord Blood River was not a bad thing!

“I’ve never seen a request like this before in my life... Well then, I’ll grant it for you.” The Poison Fire Corpse Demon opened its mouth, spewing level 4 poison fire, scorching the space.

Claire, a mere level 3 Blood Clan member, was no match for the Poison Fire Corpse Demon and quickly turned to ashes in the flames.

From the ashes, a blood-red light emerged, soaring into the sky.

“Hahaha, I’ll come back again!”

Klein's true soul was ready to return to Blood River for reincarnation.

A strong suction force came, and the next moment, the blood light plunged into the gaping maw of Leon, the monstrous bug.

"Ugh... tastes like wax," Leon grumbled.

If Levi saw this, he would surely be surprised. Even now, Leon didn't spare the true souls of the Blood Clan members.

As if in a chain reaction, those contracted by Clair, then those contracted by them, the Primary Blood Clan members, also awakened.

And then... they met the same fate as Clair.

Before entering the Nightmare World, Levi worried that his Blood Clan members would rebel after he withdrew the contracts. So, he had placed them in the Greenfield Immortal House, under the care of the corpse demons. If such a situation arose, they would be exterminated directly.

As for the territory where Schinn resided, Levi had already dealt with it.

From then on, his territory belonged to the Ancient Saint plane.

Whatever happened in the mortal world was their business, unrelated to Levi!

Meanwhile, in the Nightmare World, Levi successfully contracted the Wailing Infant Bird and rode it into the sky.

“From now on, I’ll call you... Nine Infant,” Levi said, stroking the bird’s head.

The three severed heads had already grown back, and now, they meekly showed affection towards Levi.

Finally, Levi found a relatively secluded valley.

It was a branch of a mountain range from a certain boundary mountain.

“I wonder if I can set up an array here...”

Levi took out the array items from his wizard tools and began casting the spell. To his relief, it succeeded.

“It seems that the Nightmare World also has elemental power...”

## Chapter 1093: Nightmare Dragon Form! Black Dragon Li Wei, Descends with Flower Knight! (6)

Soon, a simple shelter concealed by an array took shape.

Levi entered it and transformed into a black dragon, using the power of the Nightmare Dragon to leave his lord mark within the valley.

Soon, the unique words of the boundary mountain appeared on the walls of the valley.

[Blackwater Domain, Levi Nightmare Drogon]

Levi opened the proficiency panel.

Nightmare Lord: Level 3

Nightmare Domain: Blackwater Domain (Temporary territory in the Chaotic Wilderness)

Nightmare Subjects: Wailing Infant Bird (Level 4)

...

“As I suspected.”

Levi closed the panel.

By marking the Flesh and Blood Mountains, he could become a true lord.

However, because there were no Nightmare Mother Trees in this territory, his subjects consisted only of the Wailing Infant Bird he had just contracted.

After transforming into a Nightmare Dragon, intermittent information seemed to come to his mind.

“In places where Nightmare Mother Trees gather, there will always be a Nightmare Main Tree. Leaving the lord mark on the Nightmare Main Tree can control all Nightmare creatures born from the Nightmare Mother Trees. Those creatures will be the lord’s subjects, making one a true Nightmare Lord. There’s no other way. Let’s transition here for now. I’ll bring the Flower Knight over and kill that Man-Faced Spider!”

Having obtained the territory smoothly, Levi immediately used the abilities of a Nightmare Lord to create avatars for the Flower Knight.

A fleshy altar began to appear on the earth, blood-red hands waving within it.

Levi felt the mark left on the Flower Knight and the power of the Nightmare Dragon crossing the Nightmare World, connecting to the real-world Flower Knight.

In the Witch's Family, Elena, who had been waiting for half a day, suddenly showed a smile.

"What's wrong?" Triss asked.

"Levi is ready," Elena said with a smile. She lay down beside Levi, looking at him as he slept.

Her long eyelashes trembled as she closed her eyes.

"Three people, sleeping side by side. If the Nightmare World is still accessible... I want to go too," Triss muttered.

Nightmare World.

Levi's complexion grew paler.

"It's a bit challenging... The Flower Knight's realm is too high. It seems that I need a level 5 Nightmare Dragon realm to pull her over purely with the power of the Nightmare Dragon." ζ

Levi had already anticipated this. He took out a storage ring, which was filled with piles of Nightmare Crystals.

“I need to reserve some Nightmare Dragon power. Otherwise, if we run out of strength just after pulling her over, and we both have to retreat, it would be a waste of effort.”

Eventually, a figure formed from coagulated blood began to appear in the flesh altar.

She had a curvaceous body, a perfect waistline, rounded breasts, slender and closed thighs, beautiful collarbones, and flawless feet.

Then, her skin, as white as jade, emerged from the figure.

Levi’s eyes widened as he beheld the naked woman before him.

She had her eyes closed, asleep. Only Levi, as her lord, could awaken her.

“So beautiful... I never expected to see the Flower Witch’s naked body. If her admirers found out, there would be enough people chasing me to form a high-level wizard organization... And if you add the admirers of the Flower Knight from the mortal world, there would be even more.”

Levi didn’t rush to awaken the Flower Knight. Instead, he watched with a critical eye.

“It’s no wonder they use the Flower Knight to describe someone’s beauty... Ah, so lovely. I’ll watch for another five minutes before waking her up.”

Five minutes later, “Or maybe three more minutes... Well, I can’t waste my Nightmare Dragon power. Five minutes is enough.” Levi muttered to himself.

Finally, he snapped his fingers, and the black power of nightmares covered the beautiful body of the Flower Knight.

The next moment, Elena, clad in light armor with a greatsword on her back, her golden hair shimmering, opened her eyes.

Levi wiped the sweat from his forehead and breathed a sigh of relief. “Finally succeeded. Welcome to the Nightmare World, Lady Elena!”

Elena subconsciously glanced at her body and breathed a sigh of relief upon realizing she was clothed.

She had heard that some similar projection avatars appeared naked at first.

After all, she and Levi weren’t very familiar yet, so she felt a bit uncomfortable being naked in front of him.

Of course, even if she knew in advance that she would be naked to explore the Nightmare World, she would accept it without hesitation. She wasn't the kind of shy girl who would hesitate.

"Thanks a lot, Levi. After successfully killing that Nightmare Lord, I owe you a favor," Elena stepped out of the altar, smiling.

"Haha, to receive a favor from a primordial soul wizard like you, I couldn't ask for more," Levi joked, trying to ease the awkward atmosphere and conceal his own nervousness.

"Lady Elena, why don't you try casting a spell? I've tried it here, it should work fine," Levi suggested.

Elena nodded, and with a flick of her finger, a crimson rose appeared in the air.

"Flower Language: Love Burns!" she exclaimed.

The next moment, the rose exploded in the void ahead, and Levi felt an overwhelming sense of imminent death!

This kind of power was unstoppable!

Elena flicked her finger again, and another violet flower appeared, covering an area several miles wide.

“Flower Language: Beauty’s Captive!” she declared.

The terrifying explosion was completely blocked by a huge violet flower, without a single ripple leaking out.

Levi was shocked. It was the first time he had seen a primordial soul wizard use such power up close, energy fluctuations that even Caslot’s Eye couldn’t measure.

With the Flower Knight here, everything would be settled... He decided not to interfere.

“Let’s go, Levi. Let’s go meet that lord,” Elena said, striding forward.

Levi left Nine Infant to guard the territory and hurried to follow Elena. As he watched the primordial soul witch’s figure, he couldn’t help but recall the beautiful body on the altar.

Involuntarily, he imagined a scene of Elena casting the rose spell naked in front of him.

Quickly, he pushed the thought aside. A primordial soul wizard had a strong perception. If she sensed his impure thoughts, it wouldn’t be good.

Chapter 1094: Truth Oath! Hundred Flowers Joins the Team! (1)

Nightmare World.

Lord of Spider Nightmares.

A huge thousand feet tall blood-colored tree stood in the middle of the Blood Flesh Forest.

This was the Nightmare Main Tree!

In fact, every Nightmare Mother Tree in the territory germinated from the roots of the main tree, similar to a forest of banyan trees.

There was a pitch-black cave under the main Nightmare Tree.

Thousands of Nightmare Creatures gathered nearby. They were all natives of this territory.

Among them, there were even a few who looked no different from ordinary people. Judging from the style of their robes, they seemed to be from the Late Antiquity Era.

These people were all wizards. Their heads were filled with fungus-like creatures. Some grew out of their eyes and lost their vision, some grew out of their mouths and could not speak, and some grew out of their nostrils and cochleas.

What's more, there were even some that grew out from below. It was indescribable.

For example, Fungus Lady Patricia.

Black mycelium grew from Patricia's lower body and crawled all over the ground. Her plump upper body was weaving something with the needle and thread in her hand.

A fourth-circle wizard with mushroom eyes came to the cave. His name was Brant. In this territory, he was called the Unseen by the other subjects!

"Lord Patricia, the Crow Lady just reported that she saw traces of humans in the Chaotic Wilderness."

In the cave, there were dense white cocoons.

Inside these cocoons were many dead wizards or corpses of transcendent existences from other planes.

In some corners of the karst cave, there was a pile of various Wizard Robes, Wizard Tools, and transcendent items that he could not name.

"What's the man's strength, Brant?" Patricia asked without looking up.

"I don't know, but the Wailing Infant Bird that often offended our territory was defeated by that human. Perhaps even I might not be his match," said Brant.

“Tell Heartless Leonard that the patrol of the territory has been strengthened recently. There are more and more wanderers and travelers in the Chaotic Wilderness. During this period of time, Mistress Arachne has gone to the city of Blood Rain Overlord Wagner as a guest. Don’t cause trouble for the time being. We’ll talk about everything when Mistress returns,” Patricia said.

In the nightmare world, other than the indigenous Nightmare Creatures, many foreigners came here for various reasons.

Patricia, Brad, and Leonard were all like this.

They were all descendants of wizards who had come here a long time ago.

These parasitic fungi in their bodies were the work of Mistress Arachne.

By such means, they were controlled by Arachne, who administered the territory for them.

In the Blood Flesh Forest, Levi and Elena weaved through it.

Elena had some basic understanding of the Nightmare World through the Dreamland Steeple’s notes, but it was far from what Levi had grasped.

Ever since he came here, Levi felt that the memories in the Nightmare Dragon's bloodline seemed to be awakening bit by bit.

So much so that most of what he saw, before long, he would know its function and function.

"Careful, someone's coming," Elena whispered, stopping.

Levi did not sense anyone. The perception of a primordial soul wizard was much stronger than his.

Elena turned back to Levi and said, "Same rules. I'll put a barrier on you so you don't get killed by someone else and I'll be forced to go back to the real world."

"Flower Barrier!" Elena pointed with her finger, and the invincible barrier that had lasted for an hour returned.

'What do you mean by prestige? A primordial soul wizard personally put a shield on me. This is prestige!' Levi felt a little smug.

After a while, a strange-looking wizard appeared in front of Levi and Hundred Flowers. His body emitted a stench, and his chest was rotting. A bright red fungus grew out of it, looking like a heart.

"Have you seen my heart?" he asked woodenly.

Elena told Levi not to do anything for a while. She said, “No.”

“I don’t know where my heart went. Good Samaritan, I beg you. I thank you... Can you give me your heart?”

He suddenly said. His appearance was strange. The red mushroom on his chest opened its mouth, and monstrous blood gushed out.

Countless distorted shadows emerged from the blood and flew towards Levi and the others.

Elena did not use any innate spells. She casually conjured a very basic spell like the Wizard’s Hand.

A huge hand that was about an acre wide slapped the blood away. Elena grabbed the strange wizard’s body and held it in her palm.

In front of Elena, lilacs fell from the sky and surrounded the strange wizard.

“Flower Language—Purple Memories!”

In an instant, the purple sea of flowers triggered the memories in this strange wizard's mind. They kept replaying like a movie film.

"Too powerful... This is a primordial soul," Levi muttered in his heart.

So far, he had already seen Elena's three innate spells represented by flowers.

Red rose, violet, and lilac.

Roses were like flames, mainly attacking and killing. Violets were quiet, mainly imprisoning and controlling. As for lilacs, they were abilities similar to soul searching.

It was similar to his innate spell, Dragon.

Chapter 1095: Truth Oath! Hundred Flowers Joins the Team! (2)

Levi saw in the memories of this strange wizard that he had spent his entire life in the Nightmare World.

"There are still wizards who survived in the Nightmare World and have reproduced to this day. Moreover, from their spells, there are traces of the School of Dreams. It seems that they are descendants of the Dreamland Steeple... However, he has already been controlled by Arachne using some kind of fungus."

Elena stared at the fungus-infected heart, her heart heavy.

It was hard to imagine that the wizards of the Dreamland Steeple still survived in this terrifying world after a long time, although they had already deformed into monsters.

The tenacity of life was lamentable!

"I know from his memory that Arachne is not in the territory now. She went to the Blood Rain City where Blood Rain Overlord Wagner is. Wagner is the overlord of a large area of 50 Nightmare Territories. He's at level 9 and extremely powerful. The gathering might take a year to end," Elena said with a frown.

"Nightmare Overlord, this is going to be troublesome. If we go to Blood Rain City, I'm afraid we won't be able to return. If we continue to stay here, it will be a waste of time. However, even if we kill those small fries under Arachne, we won't be able to save Rose. We might even alert the enemy and alert Arachne. If we alert the other lords of Blood Rain City, it will be even more disadvantageous for us. Why don't we retreat first and come back a year later? Since Arachne isn't in the territory, Rose Witch should be safe for the next year," Levi said.

"Yes, but I have to get rid of this person. With Arachne's strength, he should be able to tell that I've done something to him. I might as well destroy his corpse." Elena flicked a petal with her finger and it landed on the strange wizard's body, burning it into ashes.

Then, she grabbed a storage bag and threw it to Levi without even looking at it.

"This person also has level 5 strength. I think there are some good things inside that are useful to your current realm. Treat it as your reward this time. You should have a way to bring it back to the real world, right?" Elena asked.

“Yeah.”

“Let’s retreat. I’ve already established an anchor point. It’ll be more convenient for us to enter the Nightmare World next time,” Levi said.

The anchor point was guarded by a peak level 4 Nine Infant, so it was fine.

The Nine Infant was considered an elite monster even in the Chaotic Wilderness.

Because this was his first time here, he was not sufficiently prepared. He had consumed a lot of the power of the Nightmare Dragon.

The next time would be the decisive battle with Arachne.

“I’ll take you back.”

“Okay, thanks.”

Levi sent Elena out of the Nightmare World with a thought.

Elena disappeared into the fissure in a cloud of black mist.

He came to the Chaotic Wilderness and looked at the nightmare creatures everywhere. He incarnated into the Nightmare Black Dragon and began to hunt.

Although the Nightmare Dragon was only level 3, it was lethal to nightmare creatures.

In the future, he might need to use the Nightmare Dragon form to fight. He had to adapt to this dragon's fighting style first.

A mini black dragon flapped its wings and spat out dreamy black Dragon Flames.

Wherever the dragon flames swept, the weak low-level nightmare creatures died.

When the dragon flames extinguished, the black dragon pounced forward with its body. Its wings, claws, tail, and sharp teeth were all its offensive weapons.

Until Levi felt that the power of the Nightmare Dragon was about to be exhausted. On the ground were Nightmare Crystals. Levi put these crystals away.

He came to his Blackwater Domain. The Nine Infant obediently coiled around it, guarding the altar.

“Nine Infant, I’ll be leaving for a period of time. Guard this place well and get your underlings to help me keep an eye out for Nightmare Dragon Clans similar to mine in the Chaotic Wilderness,” Levi said as he stroked the Nine Infant’s middle head.

“Ah ah ah...” The Nine Infant nodded repeatedly, indicating that it understood.

Levi checked the storage bags of the strange wizard and then used the power of the Nightmare Dragon to wrap the storage bags and those Nightmare Crystals. He turned into a black fog and left the Nightmare World.

...

Endless Sea.

At the Witch’s Family.

Triss Hut.

Levi opened his eyes slowly and realized that three beauties were all looking down at him.

“Great, Levi is awake!” The Rose Witch heaved a sigh of relief.

“How long was I asleep?” Levi asked.

“It should be similar to the time you spent in the Nightmare World. The flow of time is the same. In fact, in the entire Multidimensional Plane, except for a few special places, the flow of time is the same.” Elena seemed to have guessed Levi’s thoughts and had already answered him.

“Thanks a lot.” Levi stood up. He was in a good mood.

After coming into contact with it, the Nightmare World was no longer that terrifying to him. Indeed, the greatest fear came from the unknown!

Although he did not kill the Man-Faced Spider Arachne during this exploration, he obtained plenty of information about the Nightmare World.

“Next, after killing Arachne, I’ll find time to go to the Nightmare World to find the descendants of the Nightmare-type Dragon Clan and resolve the cultivation predicament of the Nightmare Dragon breathing technique.” Levi was now full of confidence in the future.

Triss asked him and the Hundred Flowers knight to understand the Nightmare World’s situation. Her eyes were filled with curiosity. It was obvious that she was tempted.

However, with Levi’s current Nightmare Dragon level, he could at most bring one primordial soul over. Two primordial souls could not squeeze him dry.

“What are you going to do next?” Elena asked.

Chapter 1096: Truth Oath! Hundred Flowers Joins the Team! (3)

“I’ll cultivate in Hades City for a year. At the very least, I’ll leave after dealing with the Human-Faced Spider,” Levi said.

“Alright, I’ll look for you at your house in a few days.” Elena waved goodbye to everyone.

“Levi, if there’s a chance in the future, bring me along. I’ll personally experience it. If there’s no problem with safety, I’ll send Anya in to train. Of course, I’ll also pay you,” Triss said.

Levi’s heart stirred. Triss’s words had reminded him that the Nightmare World was more like a huge ‘virtual world’ to him.

In the future, he could train in the Nightmare World and test his spell abilities. He could even let the members of the Twilight Knights enter to train and find resources for himself!

In the Chaotic Wilderness, there was no lack of training targets.

Relying on the proficiency panel and his powerful Nightmare Dragon bloodline, those who entered would not really die. At most, they would return to the city.

Then, with the altar and the Nightmare Dragon crystal, they could even resurrect!

Levi had to make use of such a huge treasure trove.

Of course, all of this could only be carried out after careful testing.

Levi said, "No problem... I'll go back first. Madam Triss, contact me anytime if you need anything. Rose Witch, try not to sleep this year to prevent the Man-Faced Spiders from returning."

"Okay, thank you, Levi!" Rose nodded gratefully.

Levi returned to his home in Hades City. Black fog spread out from his hand, and the strange wizard's storage bags and Nightmare Crystals appeared one after another.

Then, the power of the Nightmare Dragon in his body was exhausted. His face suddenly turned pale, and it took him a while to recover.

"I can bring it out. The power of the Nightmare Dragon is too magical."

He opened his storage bags.

There were not many things inside, nor were there any Aether Stones. However, there were many Nightmare Crystals.

Among them, there were a few fist-sized Nightmare Crystals that should be level 4 grade.

“I’ll collect more Nightmare Crystals in the future. This way, I won’t have to expend my Nightmare Dragon power. I can also create a clone for Elena.”

Immediately after, Levi found a huge ax that seemed to be made of flesh and blood from his storage bags.

There was a beating heart on the handle of the huge ax, emitting a thumping sound.

“This is his Wizard Tool... It’s so strange. It’s like a living creature. They call it the Bizarre Device. It’s refined from the corpses of powerful nightmare creatures.”

Levi slashed the ax with the Crimson Dragon Slash. What surprised him was that the ax appeared to be made of flesh and blood, but when it collided with the Crimson Dragon Slash, the surface would instantly turn into an extremely hard crystal.

The Crimson Dragon Slash was repelled, but the huge ax was safe and sound.

“This is good stuff. Although I don’t know how to use it... just its sturdiness is comparable to a Fifth-Circle Wizard Tool! It can be used to cut people. I’ll call it Blood Ax.”

He put away the blood ax. He planned to study this thing and see if it could be used as a reforging material for his Scarlet Shadow cloak.

If it didn't work, he would refine it for Blood Lady as her attack method.

Compared to an ax, he was more used to using a sword.

After calming down, Levi could not help but start thinking about this trip to the Dark Ancient Tower.

He was thinking about how to avoid being broadcasted live, or being broadcasted live, so that others could not lock onto his identity based on his ability.

As for his appearance, he just needed to change it slightly. The projection would be his appearance after modification.

He gave serious thought to a group of people who had seen his abilities.

Firstly, they were from the Ancient Saint Plane. There was no need to worry about this. They had all sworn an oath under Excalibur and were loyal to him.

Secondly, it was someone who had seen his methods and had not been killed by him.

“I don’t fight in public easily, but when I do, I’ll kill them. Almost everyone I’ve seen has died... No, there are still those two fifth-circle Perfection wizards in the Realm of Crimson. But if it’s just the two of them, it’s fine.”

Levi heaved a sigh of relief. He was a little stressed.

He was used to hunting in the dark. Suddenly, he might be watched by so many people. The first thing he thought of was whether he would be exposed.

“I still have to be careful in the Dark Ancient Tower this time. I must avoid exposing too much of my abilities to avoid being targeted by people with ulterior motives. If I want to fight, I have to end the battle quickly! I have to disguise myself. Sauron, too. This projection function...” He felt helpless.

It seemed that Sauron, the ancestor of wizards, was not as serious as he had imagined.

Of course, it was also possible that Sauron wanted to use this method to motivate all wizards to pursue higher, stronger, and stimulate the potential of wizards!

It was just like the Olympic Games in his previous life. In front of billions of viewers, how exciting would it be to show off one’s heroic bearing?

“There’s always a way out when the time comes. I’ll quietly search for treasures on this trip to the ancient tower. I’ll strive to cultivate the Lovers Rune to level 5 before entering the ancient tower. This way, my luck will increase by 40%... I have a feeling that the Lovers Rune will shine in the ancient tower.”

...

The next day, Levi read the paper.

As the Dark Ancient Tower approached, the page was almost filled with information related to the ancient tower.

[Shocking! Hurricane Steeple announced in a high-profile manner that “Son of Hurricane Van Dis” will lead a team to the Dark Ancient Tower this time!]

Chapter 1097: Truth Oath! Hundred Flowers Joins the Team! (4)

[Recently, the Wizard Council has established the Dark Ancient Tower Rankings to motivate the wizards to climb the tower. This time, the rankings are divided into Earth Rankings and Sky Rankings. At that time, professional judges will grade the wizards based on their combat projection performance, and the speed at which they climb the tower, and the Sky Rankings will only list the wizards with primordial souls. The wizards below primordial souls will be listed on the Earth Rankings. Those ranked at the top of the Sky Rankings and the Earth Rankings will receive corresponding rewards...]

Levi’s head was pounding as he read the news.

“The Dark Ancient Tower has become a celebration in the Wizard World. However, the rewards for the so-called Earth and Sky Rankings are only so-so. I reckon those with the strength to enter the top of the rankings, such as me, don’t care about that little reward.”

In Levi's opinion, those people were more interested in the honor of this ranking.

After all, those who could participate in the battles for their respective organizations were not ordinary people.

They could compete with the prodigies of the various wizard organizations.

Moreover, they could also let all living beings witness miracles through the projection of the plane. Just thinking about it made their blood boil.

Even Levi, who kept a low profile, had a strong desire to show off, let alone other wizards.

[Exclusive! The All-Knowing Tower has collected intel from many parties and sorted out a portion of the list of participating wizards in the fourth-circle and fifth-circle of the Dark Ancient Tower. Do you want to spend 1,000 Aether Stones to unlock it?]

A headline party news caught Levi's eye on one of the panels.

He spent 1,000 Aether Stones to open it. He also wanted to see which experts were in the Dark Ancient Tower this time.

"It seems that the wizard organizations have done a good job of keeping the name list of the primordial soul wizards a secret. On one hand, there are very few primordial soul wizard participants, to begin with. On the other hand, the real highlight for the major organizations is the primordial soul. Every primordial

soul is a well-known figure and has a lot of intelligence and information outside. If they leak it in advance, they will probably be targeted by the primordial souls of their competitors and enemy forces.

“As for the fourth-circle and fifth-circle, it can only be said to be a bonus. The major organizations also want to take this opportunity to train their members and deliberately show their strength. Therefore, the leaked portion might be done on purpose to build momentum for their organization in advance!”

There was not much information on the list. Levi looked at it and saw that they were all the younger generation of the major organizations.

The fifth-circle referred to those under 300 years old, while the fourth-circle referred to those under 200 years old.

Other than the Fifth-Circle Wizards that Levi had to avoid, the fourth-circle wizard ranked first was a wizard from the Burning School of Thought.

[Fire Dragon Destroyer, Simon, the number one genius in Norn City in the past 3,000 years. He's about 140 years old, in the realm of the fourth-circle Perfection, Child of the Fire Element. He has a second special talent and is suspected to be the Prince of Fire. He's also a part-time array wizard and weapon craftsman. He once won first place in the Nine Cities League of the Nine Cities Alliance and obtained the sky-level Truth Oddity, Fire God's Gaze. He once killed a level 5 mixed-blood Dragon Clan with an array alone in the mystic realm, so he called himself the "Fire Dragon Destroyer". It's said that evil dragons attacked the village he lived in when he was young. His pregnant mother gave birth to Simon in the dragon flames. Therefore, Simon hates all the Dragon Clan and dragon descendants! Now, hundreds of mixed-blood Dragon Clan members have died under him!]

Levi could not help but frown. He thought to himself, “Heresy! It doesn't conform to my path of green sustainable development and destroys the ecological balance of the Wizard World. There aren't many

mixed-blood Dragon Clans to begin with, and you even killed them all. It's simply a waste of natural resources. Don't let me meet you, kid. You won't have a good time!"

Levi looked down and realized that more than half of the names on the list were Children of the Elements.

"Golden Light Wizard, Sea Aristocrat, Son of Hurricane, Black Sun's favorite disciple, Black Moon... Geniuses that are rarely seen usually are starting to appear. Interesting."

It had to be said that the Wizard World was too big. There were a few people on this list that even Levi had to take seriously.

"We have to adjust our mentality. For this expedition, we can't treat these geniuses as fourth-circle cultivators. We must treat them as fifth-circle enemies to prevent them from failing."

Levi did not want to lose face in front of billions of people.

After understanding the information, Levi began to meditate like an old monk.

His current mental strength was already 335 points, and he was getting closer and closer to the maximum of 510 points.

At the same time, this also meant that in theory, if Levi entered the invisible state of the Hermit Rune, even ordinary Fifth-Circle Wizards would find it difficult to see through him.

If he used it well, he could even kill a Fifth-Circle Wizard!

A month later, Levi was cultivating.

Suddenly, a message woke him up.

[Levi, I'm here.]

"It's Lord Elena."

Levi did not dare to be negligent when the Essence Soul had deigned to come to his house. This was a necessary respect for experts!

He went to the door and opened it. He found that Elena seemed to have changed her hairstyle today. Her long blonde hair was tied up, making her look more heroic and capable.

"Welcome to my wizard tower, Lord Elena."

“Aren’t you going to invite me in?” Elena joked.

“Please come in.”

“It seems that you rarely invite witches to your house.”

“To be precise, there are very few wizards and witches. I’m used to living alone and being quiet.”

“I can tell. Triss said that you have a cautious and steady personality. It can be seen from your dense arrays...” Elena looked at the three layers of defense in Levi’s wizard tower.

Chapter 1098: Truth Oath! Hundred Flowers Joins the Team! (5)

“Lord, are you here to discuss the path of knights with me?” Levi asked.

“That’s right. When I reached the end of the path of knights, I was already a legendary peak knight in the human world. I searched everywhere for a way to break through the shackles, but in the end, I found nothing. In the end, I came to the Wizard World, but I realized that... there was also no place for a knight there, and no one would study that small path of knights. I can only say that there’s a silver lining. My talent as a wizard was not bad in the end, so I embarked on the journey of a wizard.” Elena sighed.

“It’s also because of some coincidences that I occasionally obtained a way to break through the shackles of a knight. Actually, with your primordial soul-level knowledge, you might be able to break through the shackles yourself soon,” Levi said.

“Perhaps... I don’t like to beat around the bush. I want your technique to break through the shackles. I wonder what the price is? Aether Stone, Wizard Tool, rare materials, feel free to name them. I can satisfy any request that’s not too much!” Elena’s expression was calm and serious.

In fact, with her primordial soul-level strength, she could have taken it by force, but she wasn’t that kind of person. Besides, Levi was Sister Triss’s person.

Levi thought for a moment and said, “Lord Elena, I can teach you the technique. I have some requests, but I don’t know if I should tell you...”

“Cut the crap,” Elena said. “If you have something to say, say it.”

Levi said, “After I obtained the method to break through the shackles of legendary, I established a knight organization to open a path for knights. I also set some goals. If I want to obtain this method, I have to join the knight organization and swear that for the safety of my organization and myself, the method can’t be easily passed down. I hope you understand... As a wizard with a primordial soul, perhaps my request is a little too much for you.”

“That’s it?” Elena asked with amusement, looking at Levi.

“Ah... that’s it.” Levi felt uneasy.

The power that the primordial soul unintentionally emitted made him feel suffocated.

“How about this, show me the contents of the oath. If it’s not too much, I’m willing to swear the Truth Oath!” Elena said.

“The Truth Oath?” Levi was shocked.

Even if he had not entered the primordial soul, he had heard of this oath.

There were several types of oaths in the Wizard World.

One was the most commonly used contract slate in the Wizard World. It relied on a Legendary Wizard Tool similar to the Heart of Skynet as a supervisor. This Wizard Tool was the Sauron Codex, also known as the Contract Codex.

The principle of the Contract Codex was that anyone who possessed the contract slate could use the spiritual force imprint as a signature. Then, the contract ability and spiritual force imprint would be monitored by the Contract Codex. If one party violated the contract, they would be punished by the Contract Codex. The strength of the punishment would be determined according to the seriousness of the violation of the contract terms. The most serious punishment would be to directly destroy the soul through the spiritual force imprint and achieve the death penalty!

The advantage of the contract law was that it had a wide audience and could be used by countless people in the Wizard World. However, as the wizard realm increased, the binding power would become weaker and weaker. Basically, it was mainly targeted at low-level and Intermediate Wizards.

After the primordial soul, this binding effect was already formal and meaningless.

In addition to the legendary Contract Wizard Tool of the official congress, some powerful wizards and organizations would have their own Contract Wizard Tool to strengthen the binding power. Levi's Excalibur was also based on the same principle.

The second way was to use the extremely cautious Truth Oath between primordial soul wizards.

He swore to the unfathomable truth that could never be touched!

This was an oath that could not be violated. To wizards, this was tantamount to violating the truth!

At best, it would hinder the pursuit of the truth. At worst, it would die. Even a primordial soul wizard would not be spared!

Levi did not expect Elena to value the path of knights so much.

He thought for a moment, then imprinted the contents of the oath on the slate and handed it to Elena.

Elena read it calmly and said, "It's alright, but there are some clauses that I need to modify. I'll modify them once. Take a look again. As the price of modifying the clauses, I'll pay you an additional million Aether Stones." R&

"Will do."

This scene made Levi feel as if he had returned to the business negotiation table in his previous life. Both sides were in a tug of war.

Elena edited it seriously. Levi didn't dare keep quiet.

In the end, Elena handed the modified version and a million Aether Stones to Levi.

Levi looked at the contents of the oath. The parts that Elena had modified did not have much of an impact. She did not modify the core clauses to protect himself and the organization. She only removed some of the overlord clauses and format clauses that Levi used to manage ordinary members. It was reasonable. It was already good enough that a primordial soul wizard was willing to swear. How could she agree to Levi's overlord clauses?

"I agree, but I don't want the Aether Stones anymore. I can already feel your sincerity, Lord!" Levi returned the Aether Stones to her.

Elena glared at him and said, "Are you asking me, a primordial soul wizard, to take it back? Don't I care about my reputation?"

Levi took it back resentfully.

Elena began to swear by the oath.

“Upon the truth, the knowledge is appraised...”

After swearing, she extended her hand and said, “Give it to me. Hmph, if not for Triss’ sake, you brat... Forget it, let’s not talk about it. I still have to rely on you to bring me into the Nightmare World in the future.”

Chapter 1099: Truth Oath! Hundred Flowers Joins the Team! (6)

Levi chuckled and hurriedly handed the technique he had prepared to Elena. He asked, “May I ask, what breathing technique do you cultivate, Lord?”

“Banyan Dragon Breathing Technique.”

Levi pondered in his heart. He already had an idea of the subsequent potions for the breakthrough of the Banyan Dragon Breathing Technique. When the time was right, he could hand them over to the Flower Knights.

The so-called Banyan Dragon was the Immortal Banyan Dragon. With the status of the Hundred Flowers, they might be able to obtain the bloodline essence of the Immortal Banyan Dragon. Their future cultivation of the path of knights would not be slow.

Elena quickly finished reading the cultivation technique. Her expression changed from calm to slightly shocked, as if this was the first time she had seen the Spirits Energy Sect’s inheritance.

“I see! Hahaha, I understand!” Elena laughed without the image of a lady. She suddenly said to Levi, “I’ll borrow your training room.”

“Will do.”

Levi accompanied the Flower Knight to the training room.

Elena pulled out a huge sword, and blood qi, which was already at the peak of the Blood Awakening realm, surged out. This blood qi was colorful, like a flower, sprouting on the huge sword!

“Levi, I feel like my opportunity to break through has arrived. I need to go into seclusion immediately. Is it okay to stay with you for a few days?” Elena asked.

“As long as you swear an oath and join the Twilight Knights, you’ll be a family... Lord, please do as you please and treat it as your own home. There’s no need to stand on ceremony. If there’s a chance, I’ll introduce the other members to you,” Levi said.

In the training room, Elena hurriedly set up the level 6 protective array she had brought with her in the training room and entered seclusion.

Returning to his room, Levi smiled smugly. “Successfully recruited an epic-ranked card [Flower Knight Elena]!”

...

Seven days later.

In the training room, Elena opened her eyes and looked at her jade-like palm. Then, she used her sword to cut open a wound.

She didn't use any spells. A moment later, the wound healed itself.

"What a powerful self-healing physique. It's comparable to a professional second-circle healing spell. Apart from that, my body has become even stronger, similar to that of a second-circle transcendent creature. Is this the feeling of breaking through the shackles of legendary?"

With Elena's current realm, this increase in strength was insignificant. However, this was only the beginning. There was still a long way to go in the future!

"Congratulations, Lord Elena, for breaking through the legendary barrier," Levi congratulated.

"Thank you for your technique. Don't worry, I'll abide by the oath. After all, I'm now a member of the Twilight Knights, don't you think so?" Elena smiled. 

"It's a blessing for the Knights to have you join us. We hold a team gathering every year. If you're interested, you can participate," Levi said.

“Alright, then I’ll leave first. I have to make some preparations to deal with Arachne. Goodbye... commander!” Elena looked at Levi with a faint smile.

“I’m not worthy. Lord, you can call me Levi.” Levi smiled bitterly.

“In the path of wizards, I’m your senior. In the path of knights, you’re my senior. The two of us have our own opinions and don’t contradict each other.” Elena smiled and patted Levi’s shoulder before leaving elegantly.

Levi stood rooted to the ground, pondering the meaning behind those words.

“There doesn’t seem to be a problem. I’m a level 4 knight, two realms higher than the Flower Knight.”

After returning to the wizard tower, Levi continued to cultivate.

...

Time flew by.

In the blink of an eye, a year had passed.

Holy Brilliance Calendar Year 1161, the first day of the Month of Beginning.

Levi woke up from his seclusion as usual.

In his mind, there were already 350 drops of spiritual force dew in the Divine Ring Tower!

He felt an indescribable sense of comfort as he felt his mental strength growing stronger.

Apart from strengthening his spiritual force, Levi's spell cultivation also did not fall behind.

The fourth-circle protective spell, Earth Burst Barrier, had successfully reached level 9. Its defense had increased greatly, and the power of the explosion had also increased significantly.

The innate spell, Thunder Dragon Flash, was already level 10.

He had previously gone to the Nightmare World to test that the speed of the level 10 Thunder Dragon Flash was already comparable to the speed of his Scarlet Cloak's scarlet breathing technique.

As for the Thunder Dragon Flash, level 10 was not the maximum. It could continue to cultivate until level 11.

At that time, Levi's Thunder Dragon Flash's speed would probably be no different from that of an ordinary fifth-circle wizard. Only a life-burning escape technique like the Scarlet Blood Escape could suppress it steadily.

The remaining ordinary fourth-circle spells, Thunder Dog, and Sun Splitting Strike had all stepped into the level 10 realm.

As for the Wind Dragon Scamper, it was still a distance away from level 9.

"It'll be perfect if I can figure out the sixth innate spell before the Dark Ancient Tower opens."

After entering the Dark Ancient Tower, he might have to be busy looking for opportunities and fighting with others. Levi probably did not have time to study spells.

Therefore, he decided that in the last four years, he would focus on the sixth innate spell and place his focus here. The rest would be slightly behind.

"Earth, Burning, Storm, Ocean, Thunder... The sixth innate spell will be Frost. After I reach the fifth-circle, I'll choose the Bronze School for the seventh innate spell." Levi had already made a plan.

After killing Arachne, he would go to the Frost Realm again to collect a wave of spells from the Frost Faction and come back to study them.

In addition to the million Aether Stones of the Flower Knights, he still had a total of five million Aether Stones. If he could not convert them into combat strength before entering the Dark Ancient Tower, it would be a waste to stay inside. After all, no one would make a normal transaction with Levi in such a chaotic place.

“Sir Mobius, I have a meeting.”

“Will do.”

This year was the 60th round table meeting.

When they entered the meeting, all 11 official members were present.

Unfortunately, as Elena was busy in seclusion, preparing to deal with Arachne, Levi didn't dare disturb her. Otherwise, it would have been twelve.

“How's the situation at the holy temple now?” Levi asked.

“Everything is fine. Moreover, we have recently developed some level 1 combat techniques,” the Blood Knight said.

He took out three books.

Spiral Sword Slash, Breaking Hammer, Meteor Spear Technique.

There were sword skills, hammer skills, and spear skills.

“Not bad. Keep up the good work.”

Levi copied these inheritances and collected them. He could also refer to them when he was free.

As the saying goes, “When three people walk together, there must be a teacher.” The wisdom of an individual must have its own unique aspects.

“In addition, a new Blood Awakening Knight was born in the organization called the Halberd Knight. He was the one who created this Meteor Spear Technique,” the Blood Knight said.

“I have an impression. We can arrange for him to join the round table meeting in the future. In addition, there’s a new heavyweight member who has joined our organization. I’ll introduce her to you at the next meeting,” Levi said.

“Alright, I’m looking forward to it. Even the commander said that she’s a heavyweight. She must be a big shot.” Emperor Mu’s face was filled with anticipation.

The other members were also guessing what kind of person it would be.

Next, the members discussed some cultivation problems and information.

After the meeting, Levi went to the secret room of the wizard tower.

In the past year, he had gone to the Nightmare World several times and collected a lot of Nightmare Crystals.

Moreover, based on his Danger Perception, he deduced that Arachne should have returned to the territory.

He felt that it was time to team up with Elena and head to the Nightmare World again. The sooner he dealt with Arachne, the sooner he could become a true lord.

It should not be difficult to find the Nightmare Dragon Clan with a territory of Nightmare Creatures.

Otherwise, relying on himself and the Nine Infants would be too slow.

Elena came out of seclusion three months later, smiling knowingly as she looked down at the message Levi had left for her.

## Chapter 1100: The Might of Hundred Flowers! King of Nightmares! (1)

[Lord Elena, when are we going to explore the Nightmare World again? Arachne should be back—Levi]

[Let's go. I'm fine. Let's meet at Triss' cottage at the Witch's Family—Elena.]

After sending the message, Elena put away the Communication Wizard Tool.

In the past year, she had specially targeted Arachne and researched a few tricks. Next, she could try out her moves.

...

Levi rushed over to Triss' cottage.

"I haven't seen you in a year, but your mental strength has improved again. Not bad," Elena said.

"I'm guessing Levi's next sentence is: I only gained a little." Triss looked at Levi with a playful gaze.

After dealing with Levi for a long time, Triss had already figured out Levi's words.

“Haha, interesting.” Elena couldn’t help but laugh.

“Forget it, I won’t joke around anymore. Go quickly, solve the problem as soon as possible, and return as soon as possible... If possible, bring back a portion of the Nightmare Lord’s body material and let me study it to see if I can make some potions for the Nightmare Lord. If the Nightmare Lord invades in the future, we can also prepare in advance,” Triss said.

“Thank you, ma’am.”

Levi was envious.

‘Anya is so lucky to have such a mother, unlike me, who was born an orphan and grew up relying on myself and the panel.’

‘This kid still doesn’t know Triss’ good intentions. I have to find an opportunity to teach him a lesson in the future.’

When they entered the Nightmare World this time, Rose was not there. She was with Newt. Now that the anchor point had been established, Levi did not need Rose anymore.

“Lord Elena, I’ll make a move first.” After saying that, he lay on the bed.

Elena nodded and said, “Be careful. I’ll wait for you to pull me.”

...

In the red and black Nightmare World.

In the Chaotic Wilderness.

In the valley, the Nine Infant was sleeping on the ground. Its nine heads were snoring.

Suddenly, black smoke appeared on the altar. Then, a ferocious-looking and small black dragon appeared.

The Nine Infant hurriedly ran over and expressed its goodwill to the black dragon.

Levi felt that he did not even need the Scarlet Contract to tame this guy.

He transformed into his human form and wore the pitch-black magic armor.

“Nothing happened while I was gone, did it?” Levi asked.

The Nine Infant nodded.

Levi did not waste any time. He placed all the Nightmare Crystals he had prepared on the altar.

Using the power of the Nightmare Dragon as a catalyst, the next moment, all the crystals began to melt. The flesh and blood began to condense, bones, skin... Finally, Elena's figure appeared in front of him. She was wearing an armor-type Defensive Wizard Tool. She carried a huge sword on her back and closed her eyes. R

"Wake up... My members!"

Elena opened her eyes. She studied herself, then looked at Levi.

"Why do I feel like... this time is faster than last time?" she suddenly asked.

"Because I'm more proficient this time," Levi said without hesitation.

"Just to be on the safe side, I'll get my pets to scout around over there before we head over," Levi said.

"Sure."

Levi immediately ordered the Nine Infant to fly towards the Lord of Spider Nightmares.

He had set up a tiny monitoring array on the Nine Infant. It could share the Nine Infant's vision in real time.

After an unknown period of time, they arrived at the Lord of Spider Nightmares. The flesh forest was right in front of them.

From afar, the Nine Infant saw the phantom of the huge creature above the forest.

The huge creature had the body of a spider, and its eight legs were like pillars supporting the sky. It was ten thousand feet tall, and eight female faces looked in all directions.

One of the faces suddenly discovered the distant Nine Infant.

The next moment, white spider silk tore through the void and appeared in front of the Nine Infant, piercing through it. The Nine Infant's aura rapidly vanished as it fell to the ground.

"As expected of the Man-Faced Spider. Its Perception is so strong. Even the Nine Infant and the phantom were discovered from a thousand kilometers away."

As for the huge spider phantom, it was just some kind of illusion. It was not Arachne's main body.

Unfortunately, the Nine Infant...

Just as Levi was mourning for the Nine Infant, he realized through the Scarlet Contract that the Nine Infant was not dead!

The next moment, a strange bird flew over from the horizon. It was the Nine Infant.

However, it only had eight heads now, and its strength was only at the level of a fourth-circle senior.

The Nine Infant flew to Levi's side. Its body was still trembling. It was frightened.

Levi was shocked.

This chap seemed to have more than one life.

After communicating with the Nine Infant, he learned it had nine lives. It had probably been killed by the means Arachne had set up... but had revived.

However, the price was one head, and it could not grow back in a short period of time like Levi when he was cut off.

He still needed a long time to recover to the nine-headed realm. At that time, he would have another nine lives.

“Damn it, if you have such an abnormal ability, why are you more cowardly than me?”

Of course, the prerequisite for this rebirth was that all nine heads had not been destroyed.

The souls of Wailing Infant Birds were extremely special. As the number of heads increased, their souls would also split correspondingly.

In other words, the Nine Infant's soul was scattered among the nine heads. As long as it was not killed all at once, the Nine Infant would not die. It was like putting eggs in a basket.

After encountering a fatal attack, the Nine Infant would use one of its heads and use a soul inside as a scapegoat!

In this way, the other eight souls survived.
