Chapter 1111: Lovers Advancement, Wizard Wedding, Hundred Flowers Returns Home! (7)

Wizards didn't believe in God, so there were no hosts like priests. They were usually hosted by their most important elders.

After a touching speech, the two newlyweds completed the wedding ceremony under the witness of the two primordial soul big shots.

After the ceremony, Elena hurried away.

"Sir Levi, it's great that you could come!" The Rose Witch's eyes were filled with gratitude.

Newt also hurried over to express his gratitude.

"Sir Levi, long time no see." Suddenly, a slightly familiar witch walked over flirtatiously. It was the Lily Witch.

Next to her was the Violet Witch, who was now a senior wizard of the third-circle and had yet to reach the fourth-circle.

Violet had a complicated expression on her face after seeing that Levi, whose realm was inferior to hers, was already a fourth-circle senior.

When the Lily Witch saw Anya, she went up to talk to her. Anya chatted politely, but stayed close to Levi. The Lily Witch knew that he was not interested in her, so she left resentfully.

More than a dozen beautiful witches walked towards them. Some of them even looked at Anya and Levi, who were chatting with Rose.

“Rose, who is this silver-haired wizard? He actually has a fourth-circle senior body-refining wizard as his guard?” The Butterfly Witch asked telepathically.

Rose did not know whether to laugh or cry. She said, “This is Wizard Anya, my friend. As for the other one, he is my benefactor. He is not a guard! His name is Levi. He is very powerful. Among us, no one should be his match other than Senior Rosa.”

“Really? Do you think I’m not his match?”

The Butterfly Witch looked unconvinced. She was a Water Element Child and was less than 200 years old. She had already reached the fourth-circle Perfection realm and was preparing to begin her crystallization.

In the annual competition of the 24 Flowers, her strength was second only to the older generation of Rosa Witch. Because of her exceptional talent, she was regarded by the outside world as Elena’s future successor.

“Believe it or not, I’m warning you. Don’t cause trouble. Today is my wedding,” said the Rose Witch. This Butterfly Sister of hers was good in every way, but she was a little competitive.

“Don’t worry. I was itching to spar. If he doesn’t agree, then forget it.”

The Butterfly Witch walked over to Levi confidently, her low V neckline revealing her charming curves.

Levi smiled and looked at the butterfly flower tattoo on the witch’s fair chest. He said politely, “Hello, I guess you’re a Butterfly Witch?”

The Butterfly Witch smiled and said,

“Hello, Sir Levi. I’m the Butterfly Witch, Pavreya. I’m also Rose’s sister. I heard that you’re quite strong and want to make friends with you. If there’s a chance in the future, we can spar.”

Before Levi could speak, Anya shook her head slightly and said helplessly, “Mistress, Sir Levi doesn’t like sparring. Besides, I advise you not to look for trouble. Otherwise, if you’re attacked, it might affect your mental state of cultivation.”

“Today is the day of the wedding. Let’s not talk about this, Your Excellency Butterfly. Let’s talk about it in the future,” Levi said indifferently.

He was not interested in sparring with children.

If he had the time, he might as well go to the Nightmare World to farm monsters. There was no lack of combat targets there.

“Alright, give me your contact number. Let’s be friends.” After being rejected, the Butterfly Witch looked a little embarrassed, and her curiosity was completely aroused.

Whether it was the words of the Rose Witch or Anya’s reaction, everything showed that Levi was extraordinary.

Levi was thinking about how to refuse when Elena’s calm voice suddenly sounded in his mind.

“I’m free now. Show me around the holy temple.”

In the sky, Elena had returned.

“I’m sorry, I have an emergency here. Let’s talk about it later.”

After a hasty farewell to his friends, Levi immediately flew into the sky and left the wedding venue side by side with Elena.

“Newt, am I seeing things... Did Levi fly away with the Flower Witch?” Xavier stood rooted to the ground, his eyes filled with disbelief.

“Sigh, I finally understand why Levi’s cultivation is so fast. I was too naïve after all. I thought he was a nomadic wizard like me...” Huffman sighed, feeling bitter.

The Butterfly Witch couldn’t react in time.

She thought it was Anya’s guard. Why was he so close to Lord Elena?

In Elena’s airship, Levi was sitting upright.

Elena broke the silence. She said, “The Butterfly Witch is a little competitive. Don’t mind her.”

Levi smiled and said, “I can understand that the Butterfly Witch doesn’t mean any harm. As a Child of the Elements, I naturally have some pride too.”

Elena looked over and smiled. “I’m also a Child of the Elements. Do you think I’m arrogant?”

“...No. You are approachable and completely different from the primordial soul wizards I imagined.”

Elena’s lips curled into a smile, but she said nothing. After returning to her room, she entered meditation. Like Levi, she wouldn’t miss a single moment of cultivation.

Chapter 1112: Advancement! Scarlet Divine Palace! (1)

They were in Nether Capital, inside Levi's Wizard Tower.

Elena's voice sounded, "Are you done packing? Let's hurry up and set off."

Levi closed the gate and the magic circle of the wizard tower and said embarrassedly, "Alright, sorry for making you wait."

He had planned to return in a few days after capturing the Great Horned Whale, but now that Elena suddenly wanted to visit the Dusk Holy Temple, he decided to change his plan and set off early.

"It's too late to find a wife for Leviathan again. Next time... Next time!" Levi swore in his heart.

The Great Horned Whale was not a migrating marine creature. Its territory was relatively fixed, and it could not run away. Very few wizards were in the Hundred-Eyed Demon Territory, so it should not be captured.

In short, it was not a big problem.

Elena was wearing simple leather armor today. It was thin and tight, and it could show off her perfect figure. She wore silver boots on her slender calves, giving her the feeling of a wonder woman.

She carried her greatsword and walked in front. This was not an ordinary greatsword but a wizard tool forged from a level six water-elemental metal. It could also be used as a knight's sword.

In the Sea of Stars, Interstellar Portal, after Levi paid the teleportation fee for the two of them, they returned to the human world.

On a small island in the outer sea, Elena breathed in the air of the human world and said, "I haven't been back for a long time. The elemental power in the human world has indeed recovered a lot. The Doomsday Era is about to go away. For those with talent, this is the best era... For most ordinary people, this is the worst era."

"Good and bad are not things that an individual can contend against. Only by constantly adapting to everything can one survive," Levi said.

"That makes sense."

The two of them chatted as they hurried toward the Ancient Saint Plane.

Before long, they arrived at the entrance.

"Who set up the magic circle on the island?" Elena suddenly asked.

"It's me," Levi said after thinking for a moment.

As Elena returned to the holy temple, he could not hide the fact that he knew the formation from her. After taking the oath, they would be family once they joined the knight order. There was no need to hide it.

“He’s versatile... Not bad, not bad at all. However, this magic circle is very ingenious. It’s made up of seven types of fourth-circle magic circles that are layered and connected to each other to form a chain reaction. Even if a fifth-circle wizard comes, he won’t be able to gain any advantage. In today’s world, it can be said to be impregnable.”

As a primordial soul wizard, even though Elena did not study magic circles, she had sharp eyes and could tell that this magic circle was extraordinary at a glance.

“Something like that. As expected of a primordial soul wizard,” Levi said.

“Boss, you’re here.”

Ur, Blood Vampire, Coral Witch, and the others watching the door stood up one after another.

Suddenly, the Coral Witch’s expression changed, and a cold sweat broke out on her forehead.

It was because the person following her boss was a big shot named Endless Sea, whom she had seen in the newspaper!

Flower Witch Elena!

Elena was with the boss. So this was his power?

“I knew it. How could an ordinary fourth-circle wizard be a match for me? If it’s the junior of the Flower Witch, then it makes sense. I lost without any injustice. I admit defeat wholeheartedly,” the Coral Witch comforted herself.

“You guys go ahead,” said Levi. “I’m bringing a friend around the organization.”

The Coral Witch lowered her head as if she had been granted amnesty and quickly left.

Although a dark wizard on the Savages List, she was still a tiny fry before Elena.

Elena did not recognize her at all. She only thought that she was a magic circle guard hired by Levi, so she did not pay much attention to her.

They were stunned after passing through the array and entering the Ancient Saint Plane.

With interest, Elena looked at the fourth-circle formation, the Four-Sided Flame World. She smiled and said, “You’re stable. You installed formations on both ends.”

Levi chuckled and said nothing.

Then, Elena saw the four lizardmen, Ancient Sages, sitting in the formation. They were trembling, unable to calm down under the pressure of their souls.

Elena restrained her soul aura, and these guys felt slightly better.

“Lizardmen who are almost at the level of a Level 4? Why do you have this?” Elena asked.

“These are the natives of this small plane. I took them in to guard the door. I have more than 20 lizardmen like them on my side. Unfortunately, it’s difficult for them to advance to grade-5,” Levi said.

“Interesting,” Elena said. “This small plane isn’t simple. It allowed ordinary lizardmen to break through the shackles of life and evolve to the level four realm. I suspect that this place must have been the backyard of some powerful person. These lizardmen might be his experimental subjects.”

It was difficult to advance to level five because this small plane was born late, and its level was too low. Generally speaking, it was difficult for a small aircraft to give birth to a level-five existence. As for level six, it was even more impossible. A plane that gave birth to level six was usually medium-sized or above. A plane that gave birth to a level ten or above was large. Above a large aircraft, there were super-large planes, such as the Abyss...

The level of the plane determined the upper limit of the life level of the creatures born from it. This phenomenon was called [Plane Shackles].

If a plane wanted to upgrade, there were two ways.

One was that it would evolve, but the timeline was extremely long, with millions or tens of millions of years as the unit. Generally speaking, the more creatures that reached the shackles of the plane, the faster the plane would evolve.

Chapter 1113: Advancement! Scarlet Divine Palace! (2)

The fastest way for a plane to evolve was... The plane fusion that is about to be experienced is the [Nora Plane Convergence of the Heavenly Spheres Event].

In the future, when the planes meet, this small plane will be devoured by Nora and become a part of Nora. "At that time, you lizardmen will forever become Nora citizens, and there will be no more shackles. It shouldn't be difficult for you to break through to level 5. If you want to go higher, with the potential of the lizardmen, it might not be something that can be solved by plane upgrade."

"Thank you, sir!" Li Wei thanked him sincerely. "Thank you for enlightening me, sir! I'm eternally grateful!"

He could not come into contact with this kind of high-level knowledge at his level. To him, this was a priceless treasure!

Elena looked around and smiled. "But then again, you've really hidden yourself well. If I hadn't joined the Twilight Knights, I wouldn't have imagined that a mere fourth-circle wizard like you could own a plane, even if it's a small one. That's something amazing."

“Please keep this plane a secret, Ms. Elena,” said Li Wei. “This will be the cradle of our rise as knights. It will also be our base camp to deal with the future changes of the Dark Wave.”

Elena nodded and said, “Of course. I have already sworn to the truth. I understand your good intentions. Logically speaking, a small plane so close to Nora should be easy for me to discover when I travel. Was this plane deliberately hidden by some expert? This was a little similar to a plane I had visited some time ago... Wait, could this be Sauron’s masterpiece?”

Elena’s face suddenly changed. She looked at Li Wei and asked, “What’s your relationship with Sauron?”

“My lord, you are thinking too much. I have nothing to do with Sauron. I was just lucky to find this test site left by Sauron. By the way, where is the other place that Elena mentioned?” Li Wei keenly captured that Elena seemed to have been to a plane Sauron hid.

Elena thought momentarily and said, “The place I went to should belong to a medium-sized plane. It has the potential to develop into a large plane in the future. I can tell you about this place, but you have to keep it a secret. Sauron must have hidden these planes for a reason. We can’t break this peace. After all, the Wizard Congress is now in a foul atmosphere. It’s no longer the Congress left by Sauron.”

“I understand. We are a family. A family doesn’t lie to a family, and we definitely won’t do anything that harms our family!” Li Wei repeatedly emphasized that the Twilight Knights were a big family.

Elena nodded and said, “The plane I went to is called the Pan Plane. It has a long history and is completely different from our Wizard World. Sauron has also been there.”

They chatted as they walked.

From Elena, Li Wei learned about another beautiful world.

He muttered the keywords of the Pan Plane in his heart, “Energy Sect, Four Symbols, Bearman, Dao Law Nature, Heaven and Man Unity... Origin Holy Emperor.”

Origin Holy Emperor. He had heard of him from Morbius.

One of Sauron’s 18 fellows.

In Elena’s description, the Energy Sect was a very magical, extraordinary path. The founder of the Energy Sect was infinitely close to the Legendary Wizard realm, but he could not take the final step.

Elena suddenly pulled out the giant sword on her back. She took out a wine gourd from somewhere.

“This is the spirit wine I brewed. It can be used to comprehend [Qi].”

Elena took a sip, and then a Vermillion Bird shadow appeared behind her.

“The Energy Sect’s inheritance I obtained is the Spirits Energy Sect. It is similar to the fire in the four elements of the wizard’s wind, fire, and water, but there are some differences. The Energy Sect’s inheritance is not limited to elemental affinity talent. They only have one requirement for the cultivator, and that is... [Heart].”

“I know this sounds illusory and mysterious, but it is. [Heart] can be innate or acquired through experience or epiphany.”

“In theory, regardless of race, anyone in this world could cultivate the Energy Sect.”

“For example, some bartenders look charmingly naive and stupid to us. They may not be wise but can return to their original state and have natural Dao techniques.”

“The Energy Sect Grandmaster required a heart that was as passionate as wine.”

“I will show you the unique skills of the Spirits Energy Sect. This unique skill is called ‘Dharmakaya Phoenix’s Prairie Fire’. Its power is second only to the sect’s exceptional talent, ‘Vermillion Bird Burning Heaven’.”

“Unique skills are similar to innate spells. There’s no level to them. As your realm increases, you can train them daily to increase their power!”

Then, Elena stood in the air and slashed.

In an instant, Li Wei felt an energy wave comparable to a fourth-circle innate spell pouring out.

It was a sword formed by the Dharmakaya Phoenix. It seemed to have come alive and swept away the clouds before it!

“This is the power of the Energy Sect. I’ve only cultivated to the intermediate stage of the Innate Conviction Qi, which is comparable to a fourth-circle wizard. Above that, there’s still the realm of the Shattering Void. At that time, just like a primordial soul wizard, the power of the Energy Sect’s battle can shatter the void of many planes. It can also use the ability of space to travel between planes. Have you realized your own heart?” Elena asked curiously.

Chapter 1114: Advancement! Scarlet Divine Palace! (3)

Li Wei’s eyes were filled with helplessness as he shook his head and said, “Looks like I don’t have a heart...”

Elena said, “If you want to learn the Energy Sect in the future, I can teach you a little when I’m not busy. You need to exchange your knight knowledge with me.”

“Alright, but I’ve already exhausted all my energy just by being a wizard and a knight. I’m only a fourth-circle wizard, and my lifespan is limited. I don’t think I have time to research a new path of extraordinary like you, lord,” Li Wei said.

“That’s true. Your top priority should be to break through to the primordial soul realm. My team member has already reached the primordial soul realm. As the team leader, how can you be weaker than me?” Elena joked.

Li Wei brought Elena to the Dusk Holy Temple, and they chatted and laughed. On the training ground below the temple, a group of muscular knights with well-developed limbs were honing their combat skills and sparring with each other. After seeing the black-armored knights in the sky, the knights stopped what they were doing and stood straight.

“Who’s that person besides the commander? Why do I feel like I’ve seen him before?”

“It’s a little like... Flower Knight.”

“Flower Knight? Isn’t she a figure from hundreds of years ago?”

“Are you stupid? The Flower Knight was a Blood Awakening Knight during the Doomsday Era hundreds of years ago. How could she not have some talent as a wizard? She must have become a wizard.”

“That’s true.”

Soon, God Light, Golden Lion, Silver Dragon, Dark Moon, Thousand Illusions, and the other official members arrived.

“Commander, you’re here. This... Could it be Senior Hundred Flowers?” Dinos was shocked. Although he was in the remote outer sea region, primordial soul wizards, especially elites like Hundred Flowers, were famous in the Endless Sea. They were popular in the newspapers, so he naturally knew them.

“That’s right, this is the Hundred Flower Knight,” Li Wei said proudly in his heart.

Immediately after, there was a series of gasps.

“It’s Flower Knight. I’ve been drinking Hundred Flowers Wine in the Glittering Tavern every day. I’ve finally seen him in person.”

“It’s too beautiful, even more beautiful than the portrait. I can’t recognize it at all!”

“What kind of man is worthy of a powerhouse like the Flower Knight?”

Li Wei coughed thoughtfully, “Today, the Flower Knight has joined our Knight Order. Everyone, welcome. We have another member in our big family!”

“Welcome, welcome!”

“Welcome, Flower Knight!”

The fierce men below shouted, their voices shaking the sky.

“Let’s go,” the Flower Knight said with a smile. “We haven’t seen such a scene for a long time.”

After they dispersed, Li Wei brought the official members to his Extreme Path Palace.

“Supreme Knight... Commander, you’re quite ambitious,” Elena said.

“You must be joking. It’s just that it sounds better.”

“These are the members with the most outstanding cultivations since the establishment of our temple,” he said after closing the door. Even Andrew had already broken through to the Blood Awakening Knight realm, and his title was “Steel Dragon Knight.” He had already begun to study the Level 1 Shield Brand.

Next, Li Wei brought the Flower Knight and held a roundtable meeting with the Twilight Knights. Ash, Saint Ape, the Goddess, and the Black Knight, who were far away in Middle-Earth, also participated in the meeting.

A total of thirteen official members gathered together. The Middle-Earth team was shocked when they discovered that the new member their leader had brought over was a primordial soul wizard comparable to a level 6 knight. To them, level 6 was too far away. The fact that their regiment commander could pull a level 6 off was genuinely unfathomable! He wondered what the regiment commander had used to move this top-notch expert. R

After that, Li Wei brought Elena to visit the Giant Beast Paradise. After seeing that Li Wei was cultivating transcendent creatures that specialized in producing secret potions for knights, Elena began to re-evaluate this black-armored knight who looked like he had “developed limbs.”

At this moment, Elena approved of this “weak” and “cautious” leader even more.

“The concept of sustainable development is straightforward. However, even the Wizard World could not achieve all of this. This is because the greed of the human heart is endless. No one would sacrifice their immediate benefits for the long-term benefits that they could not see in the future,” Elena said.

“That’s right. Therefore, this is only possible in a small ecological society where there is a high degree of concentration of power and orders are strictly enforced,” Li Wei said.

Elena nodded. “That makes sense. Many laws in the Wizard World are not implemented properly.”

After that, they visited the Ancient Dragon Empire. Elena was even more amazed after seeing the Psionic Academy Academy and the Ancient Saint Daoist Sanctum Li Wei had built for the lizardmen.

Over at the Dusk Holy Temple, the Hundred Flower Palace that belonged to Elena had also started construction. It was right next to the Extreme Path Palace, showing respect to the strong!

Elena was in a high position, so she didn’t stay here long like other knights.

The next day, before leaving, Elena exchanged a lot of knight knowledge from the Knowledge Temple, such as bloodline runes, talent brands, Bloodline Dharma Body, and so on. In exchange, the holy temple had supplemented much understanding of the Ocean School of Thought and some plane knowledge from Elena’s travels.

“Don’t send me off, Knights. See you at the round table meeting in the future.” Elena smiled and turned to leave.

In just one day, Elena, who had little expectation, had gained a lot in this place. For some reason, she felt like she was “going home.” Perhaps it was because the knights were too enthusiastic, or maybe it reminded her of her memories in the human world.

Chapter 1115: Advancement! Scarlet Divine Palace! (4)

“Goodbye, come home often,” the Divine Light Knight said excitedly. The Flower Knight was her idol!

Although the Thousand Illusion Knight had never heard of the Flower Knight, he was also impressed by his charm and felt inferior.

As for the other male knights, only Andrew, the bookworm, was thinking about his talent brand.

Watching Elena leave the Ancient Sages Plane, Levi sighed in his heart. As he turned around to leave, Elena’s voice transmission sounded in his mind.

“In the future, you can call me the Flower Knight in the temple. It’s time to pick up this title again. As my master, you don’t need to call me lord or senior, which makes me look old!”

Levi was startled, but then he thought, “Alright.”

It seemed that the primordial soul witch of the Wizard World did not like to be called seniors, and Madam Triss was the same.

“Don’t be depressed. Go back and do your things. Everyone has left.” Levi smiled and returned to the Emperor’s Palace.

Time flew by.

Another few months passed.

During this time, Levi went to the Realm of Ice and bought a lot of magic knowledge from the School of Ice. He also spent 2,000,000 Aether Stones. Now, he only had about two million of them left!

If it weren’t for the fact that he was about to enter the Dark Ancient Tower, this money would have fallen below his safety cordon.

It was worth mentioning that the rebel army that controlled the Winter Tower suddenly retreated last month, including the eight-circle leader.

Then, the council sent an eight-circle School of Ice wizard from the Central Region to oversee the Ice Realm.

Levi guessed that this might have something to do with the spectacular return of a legend.

After learning that the Frost Witch had returned to the Wizard World, those dark wizards probably did not dare to stay here anymore.

In other words, the supporters of the dark wizards backed off in the face of the great powers. They retreated obediently before the conflict escalated.

No matter what, peace was restored in the Ice Realm.

On the first month of the Year 1162 of the Holy Brilliance Calendar, Levi met the Flower Knight again at the 61st round table meeting of the Twilight Knights.

Besides researching the Nightmare World and the Man-Faced Spiders, she had no urgent matters to attend to, so she had time to participate in the meeting.

Of course, the deeper reason was that after visiting the Dusk Holy Temple, the Flower Knight had begun to acknowledge this insignificant knight organization even though they were primordial soul wizards.

She wondered how far the Dusk Holy Temple could go under Levi's leadership.

This reminded her of the glory days when the ancestor of the wizards, Soran, led the ancient wizards to fight against the gods and establish the Wizard Council.

Thirteen official members passionately discussed and imagined the future of the holy temple. After a big shot like the Flower Knight joined, Levi could feel that everyone was hopeful and enthusiastic.

In the past half a year, the Flower Knight had already cultivated the Bloodline Dharma Body to the third realm and created her own Dharma Body.

Her realm was too high. She was from a strategic position, utterly different from Levi's low-realm exploration.

To Levi's surprise, Flower Knight's Bloodline Dharma Body was a creature similar to the Fire Phoenix from his previous life. It was resting on a giant tree that looked like a World Tree. The big tree was full of flowers, similar to Hundred Flower's Wizard Form, Hundred Flowers and Thousand Trees.

As for the phoenix-like creature, it was somewhat similar to the mythical beast, Vermilion Bird, from the inheritance of the Spirits Energy Sect!

The cultivation of the Energy Sect depended on the heart. The appearance of the Bloodline Dharma Body was also related to the cultivator's heart. It seemed that the two had something in common.

Under Levi's suggestion, the Flower Knight gave her Bloodline Dharma Body a nice name.

"Dharmakaya Phoenix Perches on Thousand Trees!"

This was in line with the characteristics of her Dharma Body, and it could also echo her wizard form.

Besides Hundred Flowers, many official members had their Bloodline Dharma Bodies.

The Black Knight's Bloodline Dharma Body was a vast "minotaur." He had mastered it even earlier than Levi, but Levi caught up to him later due to his talent as a wizard. His avatar was called [Black Sky Ox Demon].

The Bloodline Dharma Body of the Golden Lion Knight was a majestic lion with a mane like a golden sword. Its name was [Golden Sword Lion].

The Saint Ape Knight's Bloodline Dharma Body was a khaki-colored demonic ape. As it fought, it became more and more brave. It held a massive rod and was called [Indestructible King Kong].

On the other hand, the Goddess Knight was a beautiful giant bird that emitted a cold aura and was imbued with seven-colored aurora. It was also known as the [Dazzling Frost Bird].

Besides Levi and the Flower Knight, the other people's hearts were the same as their ancestral breathing techniques.

Perhaps because Levi's two lives influenced his broader view of the world, Levi and the Flower Knight's hearts did not wholly rely on breathing techniques.

After the meeting, Levi went to a secret room in the Emperor's Palace.

He had made a small portion of [Purification Potion] some time ago.

Although he had a substitute for the [Saint Fruit], it was a relatively rare level five herb called the [Vermilion Pattern Fruit].

Its production was not high, and it wasn't easy to buy even with money. Purification potions were challenging to mass-produce.

Therefore, he could only purify some small items. Purifying the Golden Aberration Insect was challenging, but purifying spores was not a problem.

Chapter 1116: Advancement! Scarlet Divine Palace! (5)

After a month of purification, Levi confirmed that these spores had no imprints and could be used commonly.

According to the book "The Art of Fungus," he had already prepared the culture medium, nutrient solution, various magic circles, and essential equipment for spore development.

He took a small portion of the spores. They were so tiny that mortals could see them with their naked eyes.

"Let me witness the Art of Fungus. Don't disappoint me."

Levi planted the spores in the cultivation base, closed the door, and left the Ancient Saint Plane.

Levi immediately left the outer seas. It had been long since he came to the Seven Kingdoms Continent. He only knew that many people would appear here. More and more forces were splitting up the lands of the original Seven Kingdoms, and the Church could not cope.

The two most prominent were the Benevolent Father Empire and the Frost Empire.

His destination, the Black Forest, had been a no man's land before the awakening of the Dark Wave. At that time, there were often rumours of evil spirits or powerful ferocious beasts.

Now that the Dark Wave had revived, it was within Levi's expectations that this place would become a forbidden zone.

"The old werewolf in the Black Forest has the blood of the Calamity Demon Wolf. His strength is estimated to be at the level of a five-circle senior or even perfected. We have to be careful when we sneak into the Black Forest."

The Calamity Demon Wolf was a powerful ruler of the multi-dimensional plane and the god of all werewolves. It was said that it had once bitten and swallowed an astral god.

This old werewolf represented this existence in the human world, similar to the role of the Church's saint.

Not long after, Levi arrived at the Black Forest.

He disguised himself as a bald, Dark wizard, holding a black staff like Voldemort.

In this place where werewolves, vampires, and dark wizards lived together, his original “bright and upright” appearance was easily misunderstood.

He used the Hermit Rune to adjust his aura to around Level 3. This way, he wouldn't be troubled and could avoid being noticed by the old werewolf. With his current spiritual power level of 341 points, no one could detect anything unusual unless the old werewolf deliberately used his spiritual power to investigate the city carefully.

A giant black city was hidden in the Black Forest in Black Wolf City.

This was the city of darkness and chaos. The evil villains in fairy tales lived in seclusion here, huddling together for warmth.

Outside the city gate, there were piles of bones and corpses lying on the side of the road. An evil dark sorcerer slowly walked over.

“What is the Church of Holy Light protecting?” Levi looked at the human bones on the ground and was speechless.

At the city gate, a level-3 werewolf guard was sniffing the scent of travellers.

The werewolf called out to the bald, dark wizard, "Stop? Who was it? What are you doing here?"

"Hehehe, I'm a Montenegro Mountain wizard. I'm here to trade. Isn't this a market?" The bald wizard laughed coldly, his aura extremely arrogant.

"Montenegro Mountain wizard? I've never heard of it. If you want to enter, bring a treasure and offer it to the city lord as the entrance fee." the guard said.

"I have a second-circle Wizard Tool here called the [Misty Soul Pearl]. It can attack the soul and mind. I'm a wizard, I don't have anything else of value."

The bald wizard took out a bead and handed it to the werewolf.

The guard saw that his opponent was tactful. After putting away the Wizard Weapon, he let the bald wizard in. Even the Church wouldn't dare to be presumptuous here, let alone a mere wild wizard.

After entering the city, Levi's gaze wandered around the various monsters.

Werewolves, Blood Clan, Ghouls, Vampire Birds, Dark wizards...

A towering castle was a thousand feet tall in the city's centre.

Inside, there lived an old werewolf named Adelet. The city's residents generally called him the "Demon Wolf Castle Lord."

The Demon Wolf Castle Lord gathered these dark creatures who fought independently to form Black Wolf City to fight against the Church.

On the street, a werewolf butcher was selling meat. Although there were ferocious beasts, most of them were humans.

On the stall, there were intestines, ribs, calf meat, thigh meat, breast meat, human penis, human heart, kidney...

Everything was sorted out with intense detail.

Chapter 1117: Advancement! Scarlet Divine Palace! (6)

Levi was expressionless. Such a thing could happen in the Church's territory. It was magical.

After three days in this city filled with blood and chaos, Levi finally found some clues. Seven days later, the Demon Wolf Castle Lord invited all the experts in the town to the castle as guests, including a Blood Clan expert.

"It should be that level four Blood Clan member."

For seven days, Levi wandered around the city until the seventh day.

In the sky above Black Wolf City, black smoke suddenly cut through the sky, and wild laughter came from within.

“Hahaha, Demon Wolf Castle Lord, I, the Duke of Blood Lake, am here. Aren’t you going to welcome me?”

A wisp of black smoke appeared in the air and transformed into a giant with a pig’s head and a human body.

Besides the giant, Earl Sarlin and the other masters also showed up.

An old laugh came from the Black Wolf Castle.

“Friends from hell, welcome.”

A white-haired aristocrat with a hunched body appeared at the top of the castle. He held a walking stick and emitted a powerful aura. Behind him was a faint shadow of a giant black wolf with its upper jaw reaching the sky and its lower jaw supporting the ground.

The old noble smiled, “There are many eyes outside the castle. Duke, please follow me to the meeting hall for a detailed discussion.”

“Guillermo, use your identity as a Mind Flayer and blend in. See what they are discussing.”

“Understood, Master.”

Guillermo himself was an Abyss Demon, an utterly dark creature. Blending in should not have been a problem for him.

Arriving at a street, Guillermo revealed his proper form as the Mind Flayer and headed to the Demon Wolf Castlegrandlyr.

“Stop right there. Do you have an invitation?” A castle guard stopped him.

“Tell your master that I am the great Mind Flayer Guillermo. A mere third-level wolf cub is not qualified to stop me,” Guillermo sneered. At the same time, a powerful spiritual force swept towards the guard.

The guard was so frightened that he stammered. He hurriedly went back to report. Not long after, he came out and smiled apologetically. “Lord Guillermo, please come in.”

The castle’s meeting hall had a huge, long dining table that could accommodate dozens of people.

It was filled with delicacies, soul dishes, human sashimi, raw pickled intestines...

The table was already filled with dark creatures of all shapes and sizes.

In the middle were the old werewolf and the Duke of Blood Lake.

The old werewolf looked at Guillermo, who had just entered and smiled happily. "I didn't expect that there would be an Abyss Demon living in my Black Wolf City. Please take a seat."

Abyss Demons were synonymous with chaos. They were existences that the Church feared the most!

Especially the Mind Flayers, who were good at stealing souls. If they were on his side, the following plan would be smoother.

"Thank you, City Lord," Guillermo said with a smile. He sat down unceremoniously, grabbed a giant eyeball of some unknown creature, and started eating.

"Everyone, we've all been on the fringe of the Church of Holy Light for a long time. We've had enough of being suppressed by the Churchy day. I'm sure everyone knows the purpose of inviting everyone here today."

"Three years later, I, the Duke of Blood Lake, and the Daughter of Blue Frost will join forces to attack Heavenly Mountain of the Church of Holy Light. This time, we are going to uproot and destroy the Church the land of the Peacock Kingdom become our paradise!"

“Those who are willing to attack the Church me will receive my reward and gratitude after the matter is settled... As for those who are unwilling, you already know my plan. In order to prevent the plan from being leaked, the Duke of Blood Lake and I can only kill you.”

The old werewolf suddenly changed the topic and revealed his 30-meter-tall werewolf form. He had five pairs of dark green eyes on his face, and his wolf claws could tear apart all armour and force fields! The phantom of the Calamity Demon Wolf behind him condensed. Its bloody mouth could devour an entire world and create the Twilight of the Gods!

A level four Blood Clan elder laughed, “Hahaha, I’ve been waiting for this day. I, Faylence, will join!”

“I’ll join too,” Guillermo raised his hand and said.

“Good, good. With the Blood Clan and the Mind Flayer joining us, I’m more at ease.”

The old werewolf retracted his terrifying actual body and returned to his white-haired old man appearance. He had a kind expression and laughed loudly.

In the end, all the participants of the banquet agreed without exception!

He even swore before the [Wolf God Statue] that the old werewolf took him out. It was said that the divine punishment of the Wolf God would kill those who broke the oath.

After the meeting, the old werewolf and the Duke of Blood Lake explained the plan to attack Heavenly Mountain to the dark experts. The castle was filled with weird laughter.

Chapter 1118: Advancement! Scarlet Divine Palace! (7)

After that, it was a night of promiscuous parties. The Mind Flayer took the opportunity to enjoy their sexual desires with an evil witch.

..

The next day, it was not until dawn that the powerhouses left their seats, leaving Levi to look up at the sky in his residence.

“So they are plotting to attack Heavenly Mountain. Just as I had guessed. I didn’t expect these guys to actually join forces. The Church of Holy Light was probably going to collapse soon. The devil, Blue Frost, and Dark Creatures had a level 5 expert on each side. The old werewolf and the Blue Frost’s daughter had divine bloodlines and were extremely powerful. Even with the help of the Church of Earth, it would be difficult for them to resist. Why don’t I kick them when they’re down?” Levi thought.

Since the Mind Flayer had successfully infiltrated the enemy’s ranks, he would watch from the sidelines when the Mind Flayer joined forces. When the two sides were at a stalemate, he would rush into Heavenly Mountain and steal the Fan Family’s inheritance and some valuable treasures. At that time, the Dark Ancient Tower would open immediately. Wouldn’t it be great to run directly to the Dark Ancient Tower?

Suddenly, blood-red bats flew towards a direction in the city. These were all Blood Clan members and the leader was a giant bat. Without a doubt, it was the level four Blood Clan powerhouse.

“Forget it. Let’s talk about this later. The advancement of the Scarlet Dragon is more important.”

Levi’s Informant Rune flashed, and he quickly disappeared from Black Wolf City.

It didn’t take long for him to catch up to the group of Blood Clan members.

The level 4 Blood Clan, Faylence, didn’t know he was about to die. He looked very proud. “I’ll accompany the old werewolf to destroy the Church of Holy Light and release the Lord Nine-Eyed Blood Lord sealed in it. Then, I’ll attack the Church of the Stars and the Church of the Dragon God to take revenge. It’s a perfect plan!”

In the next moment, the silver snake runes in the air flickered and disappeared. A bald dark wizard cackled as a Fire Dragon Tribulation came crashing down.

Boom!

It was accompanied by an explosion that soared into the sky!

As Levi’s spiritual energy increased, the power of the Fire Dragon Tribulation increased, too.

The level four Blood Clan’s defence was shattered with just one attack. He revealed his proper form, a two-headed, blood-red giant.

He forced Levi out of his invisibility with a casual strike and revealed himself.

If it were in Black Wolf City, he would not have made a move because of the old werewolf.

However, this was the wilderness. The Duke of Blood Lake could do whatever he wanted!

The physical body of a fourth-circle body-refining wizard was much better than the giant he used now.

Since Madam Ghost's death, the trade with the Duke of Blood Lake had been forced to end. Now, this bald wizard was like charcoal in the snow!

Levi looked calm and collected. He took out the Secret Fire Sphere and smiled.

The next moment, as the Spell Power surged into it wildly, the fifth-circle Wizard Tool suddenly expanded and traversed the sky!

"Solar Aggregation!"

Boom!

An earth-shattering explosion of a fifth-circle spell accompanied it.

A bright red sun rose above the Black Forest!

The Duke of Blood Lake did not dare to take it head-on. If it were his body from hell, he would not be afraid. The problem was that he could not unleash his full strength in this human body. r

When the explosion disappeared, the bald wizard vanished, leaving only a laugh that echoed between heaven and earth.

“The Duke of Blood Lake, right? I, Sorrett, will remember you!”

The Duke of Blood Lake’s eyes twitched. Were fourth-circle wizards this powerful these days? Did any random one of them have a fifth-circle Wizard Tool?

The name Sorrett was undoubtedly fake. Who would use their real name to threaten people these days?

“Duke, what’s the situation?” Duke Sarlin asked.

“I’m fine,” the Duke of Blood Lake said arrogantly. “I just fought with a fifth-circle wizard. He ran away.”

Another Red Tooth Count quickly flattered, "The Duke is mighty!"

As for Levi, he had already used Wind Dragon Scamper, Scarlet Escape, and Thunder Dragon Flash to leave the Black Forest and return to the Ancient Saint plane.

As for Guillermo, Levi had him stay in Black Wolf City to continue gathering intelligence.

In the Emperor's Palace, Levi looked at the life force he had burned up once again and had already written the Duke of Blood Lake down in his little notebook for revenge.

"I was hesitating whether I should go to Heavenly Mountain. In that case, there's nothing to hesitate about. Duke of Blood Lake, just you wait. I can't defeat you in hell, but this is my home ground in the human world!"

With his strength, if he used his full strength, the power of [Six Heavenly Gods] could match the Duke of Blood Lake.

However, he was about to enter the Dark Ancient Tower, so he did not want to cause more trouble. Moreover, there was an old werewolf in Black Wolf City, not far away. The gains would not make up for the losses if he were alarmed.

Therefore, he used his fifth-circle Wizard Tool to force the Duke of Blood Lake to retreat, then quickly retreated.

This way, the other party could not see through him at all. After all, he had not used his signature ability.

The Secret Fire Sphere was a standard fifth-circle Wizard Tool. Even if a wizard from the Burning Faction came, he could not determine Levi's identity based on the magic tool, let alone a Duke of Hell.

This was also the reason why Levi rarely used the Fire Ouroboros. This Wizard Tool was not a standard one; if he used it too much, it would be easy for others to remember it.

Levi began his closed-door cultivation after preparing the potion to upgrade the Scarlet Dragon Breathing Technique.

After the Scarlet Dragon advanced, he would fulfil his promise and help Leviathan find a wife, the Great Horned Whale.

Then, before entering the Dark Ancient Tower, only one thing needed to be completed: the research of the sixth talent.

Time flew. In the blink of an eye, three months had passed.

It was the Moon of Flowers; the revival of all living things was the time for reproduction.

In Giant Beast Paradise, Raja and the two winged dragons, Night Fang, were lovey-dovey. Raja would sing and dance in the sky all day, making courtship sounds.

Elena said there was hope for the two winged dragons to get together, but she didn't know if they could mate and give birth to offspring.

Some of the other supernatural creatures in the park had entered estrus and began to create life.

In Dusk Holy Temple, the construction of the Flower Hall had been completed, and it rose from the ground next to the majestic Extreme Path Palace.

Another Ancient Saint expert had been born in the Ancient Dragon Empire, and the Senior State Assembly now had twenty-eight members.

In the Imperial Palace, Levi's powerful body had absorbed entirely the potions used for Blood Refining.

The Scarlet Dragon Seed underwent another transformation. Its body became even more streamlined, like a red shuttle. A pair of powerful blood-red claws that could tear everything apart supported it.

Behind the Crimson Emperor Divine Palace, Golden Snake Divine Palace, and Sky Divine Palace, a blood-red divine palace stood in Levi's body. On it were the words [Scarlet]!

The Scarlet Dragon stood at the top of the Divine Palace, in a world of blood, like a proud king.

Before the third-circle array that Levi had set up could react, the dragon had already flown out of the palace and into the sky.

Accompanied by the whistling of the wind, the airflow was like a knife. Everything in his field of vision was retreating, faster and faster, turning into an illusion!

When the red dragon's speed reached a certain critical point...

They instantly disappeared into the air, and one could vaguely see that they had entered a blood-colored world.

In a strange blood-colored dimension similar to the Shadow plane, a red dragon appeared.

Levi looked around. This was a world of red. Other than that, there was nothing!

To be precise, this was not a world, but a different dimension of the same world.

Ordinary people cultivated in the normal dimension, and they grew old, sick, and died...

On the other hand, the Shadow School of Thought wizards could use their spell to enter the Shadow Dimension!

The Shadow Dimension was different from the Shadow plane. The Shadow plane was an independent and complete world, while the Shadow Dimension was another dimension of the Multidimensional Plane.

The dimension that Levi was currently in was called the [Scarlet Dark Dimension], and its principle was similar to the Shadow Dimension!

The Shadow Dimension was the common dimension of the Shadow School of Thought wizards, or other transcendent beings who had mastered shadow abilities. It was a public highway, a shortcut for a group of people!

For example, Levi's Shadow Winged Dragon could escape into the Shadow Dimension to fight and move.

Unlike the Shadow Dimension, the Scarlet Dark Dimension was the exclusive dimension of the Scarlet Dragon! It was the [Private High-Speed VIP Channel]!

The difference between the two was that one might encounter other existences in the Shadow Dimension.

However, such a situation was impossible in the Scarlet Dark Side!

That was because, before Levi, there was no such thing as the Scarlet Dragon or the Scarlet Dark Dimension.

After he created the Scarlet Dragon, he possessed the abilities of the Scarlet Dragon, which was why he had the Scarlet Dark Dimension

In the Scarlet Dark Dimension, Levi's speed would be twice that of the normal dimension!

Suddenly, there was a thump!

Levi felt that the Scarlet Dragon Dharma Idol had collided with something.

He raised his head and realized that he seemed to have reached the end of the Scarlet Dark Dimension.

Here, he saw a large, thick wall that looked like a beehive. It was translucent, and through the wall, he could see the dark land outside and the plane that shone within. ❖

"I actually flew to the crystal wall of the Ancient Saint plane so quickly... Wait a minute, generally speaking, the closer one is to the crystal wall, the stronger the wind disaster in the sky. Ordinary fourth-circle wizards would find it difficult to get close, and only fifth-circle wizards could barely stand in front of the crystal wall to withstand this kind of wind disaster.

"Only primordial soul wizards could ignore the wind disaster and use the spell of the Dimensional Door to open a temporary spatial passageway to travel between planes. I'm only a fourth-circle wizard, and I'm already in front of the crystal wall. Moreover, why do I have a feeling that I can pass through the crystal wall and enter the Land of Darkness..."

For a moment, Levi looked at the dark land outside the crystal wall and hesitated.

“Forget it, curiosity killed the cat. With my current strength, the risk of entering the Land of Darkness is too great. Even if I can pass through the crystal wall, it’s meaningless.”

Levi shook his head and quickly returned to the Scarlet Dark Dimension

Only when he activated the Scarlet Dragon Dharma Idol could he travel through the Scarlet Dark Dimension. However, the Dharma Idol’s duration was limited. He had to leave the wind disaster layer and return to the surface before the Dharma Idol disappeared.

Soon, in the blue sky, the red dragon squeezed out of the Scarlet Dark Dimension and arrived in the normal dimension.

“In an instant, I had already covered tens of thousands of feet and reached the top of the Green Hell. In just a moment... As expected of the Scarlet Dragon Dharma Idol. Not only could it move freely in the protective array, but it could also appear and disappear in the Scarlet Dark Dimension. It is simply a divine escape and stealth skill. If I encounter a strong enemy, I could probably try to escape into the Scarlet Dark Dimension! This fourth Dharma Idol shall be called the [Scarlet Ruler]. The Scarlet Dragon is the ruler of the Scarlet Dark Dimension!”

As Levi muttered to himself, he dispersed his Dharma Idol and descended from the sky. He sat cross-legged on the peak of a mountain.

In the hazy fog, he opened the proficiency panel.

Levi-

[Scarlet Dragon Breathing Technique: Level 15 (1/700,000). Special Effects: Scarlet Poison Body (Level 3), Scarlet Contract (3/4), Thousand Faces, Boiling Blood, Scarlet Escape. Bloodline Dharma Idol: Scarlet Ruler. Exclusive Weapon: Scarlet Shadow (Level 4:1/20000).]

...

In addition to the powerful Bloodline Dharma Idol, Levi's Scarlet Contract quota had increased by one with the advancement of the Scarlet Dragon Breathing Technique.

Currently, Levi's three spots were occupied by Guillermo, Miraya, and the Nine Infant.

The fourth spot was reserved for the fated person in the future.

"I wonder which lucky person will benefit."

In addition, Levi discovered that after long-term use and nurturing, the Scarlet Shadow Cloak made from level 4 Blood Demon Crystals had unknowingly reached level 4.

After reaching Level 4, the Scarlet Shadow had increased Levi's speed by a terrifying 50%!

Chapter 1120: The Great-Horned Whale

Moreover, every time he advanced one level, his speed would increase by 20%.

"In this way, I'm even faster!"

In addition to the 80% increase in speed from the Chariot Rune, the total was 130%!

Even if he did not use the Scarlet Escape and did not enter the Scarlet Dark Plane, his current speed should be comparable to the normal speed of an ordinary Fifth-Circle Wizard. This undoubtedly made the journey to the Dark Ancient Tower safer!

Furthermore, the Scarlet Shadow was also made of level 4 materials. After reaching the peak of level 3, there was no limit to it. It would smoothly reach level 4.

This meant that the Scarlet Dragon's level was lower than the Crimson Emperor Dragon. Therefore, a level 4 Blood Demon Crystal could completely withstand the power of a level 4 Scarlet Dragon!

After the Scarlet Dragon broke through, Levi returned to his own weapon refinement room.

He took out the level 4 Blood Clan corpse he had obtained earlier.

It was a huge two-headed beast with wings on its back.

“Blood Artifacts are made from the remains of the Blood Clan. The ribs of the Blood Clan can be used to refine the [Moonlight Greatsword] and the [Blood Feather Bow]. The rest can be made into the [Blood Imprisonment Axl]. This way, Blood Lady’s weapon will be upgraded to a level 4 Blood Artifact.”

The difficulty of refining a Blood Artifact paled in comparison to a Wizard Tool.

Levi even suspected that a Blood River wizard had plagiarized the production techniques of the Blood Equipment.

With Levi’s current weapon refinement skills, it was a piece of cake for him to reforge these Blood Artifacts.

He only needed to make slight changes to the original foundation. There was no need for major changes.

A month later.

The three Blood Artifacts were refined again, and they were now at level 4.

After Levi gave Blood Lady the equipment, he had her spar with Tyrant IV and found that the effect was quite good.

Blood Lady was now a fourth-circle senior wizard.

After doing all this, Levi left the Emperor's Palace and went to Giant Beast Paradise.

In the sky, Raja and Night Fang were chasing each other. It was very lively.

Melina carefully recorded the data of these two big guys.

"How is it? What's the situation?" Levi asked with concern.

"Soon. After all, they are of different species, but they have similar blood relations, so it won't be that easy. Moreover, Raja's strength is weaker than Night Fang's. It's always at a disadvantage when in a game with Night Fang," Melina said with a smile.

Levi nodded. That was good. He was just afraid that Raja would be ruthlessly rejected and never recover.

"What about Leviathan?" Levi asked.

Melina brought Levi to the beach and saw Leviathan playing alone in the sea, spraying water to create rainbows.

“Heartless... It’s been single for so long, but it’s still able to have so much fun on its own.”

He then looked at Gustav. The young male was currently chasing a level 3 [Black-Armored Crocodile], a native of the Ancient Saint plane.

“Very good, the lads’ spring season has arrived.”

Satisfied, Levi left the Paradise. Everything was fine at the holy temple.

He set off for the island with the wild sub-dimensional portal. From there, he would enter the Endless Sea, which was the closest to the Hundred-Eyed Demon Territory. R

Levi stepped into the crater of the volcano and continued to sink. After the world spun, the familiar sea of lava appeared.

“I met Phoenix here. It probably didn’t expect that I would take it down one day. This is the charm of time!”

As Levi sighed, he flew toward the coordinates of the Great Horned Whale.

...

Hundred-Eyed Demon Territory.

In a certain sea area.

The waves rolled. There were still traces of demonic aura left in the world. It would take a long time to completely purify it.

Wizards rarely gathered here to cultivate. As time passed, the transcendent creatures here were relatively dense.

A melodious whale song rose and fell.

A Giant Whale that was nearly 40 meters long was swimming in the blue sea.

On the forehead of this Giant Whale, there were two horns that looked like a buffalo. Compared to Leviathan's horn, it was extremely thick.

The Great Horned Whale, also known as the 'Bull Whale', was either a hybrid dragon or a pure whale.

The Great Horned Whale was a social creature. It used to be seen everywhere in the Endless Sea. However, because the horns on its forehead were often used as materials for Wizard Tools, these whales were hunted down and few were left. Only a few groups were scattered in the vast sea.

It sang in this sea all day long, hoping to find its other half, but to no avail.

And today, after the whale song was released as usual, it finally received a response.

Not long after, it followed the sound and came to a shallow harbor. It chirped happily.

However, there were no Great Horned Whales in the harbor.

It was a human wizard, using a conch-shaped Wizard Tool to play.

He was wearing a blue whale-patterned robe and a black crow feather cloak. His brows revealed the aura of a superior.

This was a third-circle wizard!

Wizard Jagri said sternly, "The Great Horned Whale has entered. We can draw in the net now. Everyone, go and control the array to trap the Giant Whale!"

A group of blue-robed wizards took their positions, and the light of the array soared into the sky.

Second-circle array, Beast Trapping Field!

The enchantment that resembled the ancient Roman Colosseum enveloped the whale, and it was unable to move for a moment.

“It’s your honor to be of use to me!” Jagri chanted an incantation, and a web-like Wizard Tool flew out and expanded, trapping the whale in its net!

“Retract!” Jagri injected his spell power into the net and it began to shrink. All kinds of attacks landed on the Giant Whale.

The Giant Whale’s skin was torn open, and it wailed in pain.
