Chapter 1121: Rescuing Leviathan's Wife

“Island Master is too strong. As expected of a third-circle wizard. Even if Lord Morpheus was alive, he would only be so strong!”

“With the Island Master, my Whale Song Island will definitely rise again. One day, we will be able to gain a foothold in the inner sea region!”

“The Island Master is only a hundred and sixty years old, but he has already advanced to the third-circle. Such talent is terrifying!”

The low-level wizard and apprentices kept flattering him.

Jagri was pleased. After entering the third-circle, he finally experienced the feeling of being above others.

“Back then, those who entered the Wizard World with me were either old or died in war. Only I had the last laugh! After all, I’m the only one who has dual affinity. Everyone else had triple affinity, some were even Children of Chaos. How can they compare to me? Moreover, with my luck, I can turn danger into safety every time. As the saying goes, if you survive a great disaster, you will definitely have good fortune in the future. I will definitely become great in the future!”

The once timid commoner Jagri was no longer as calm as before.

After Morpheus' death, the Whale Song Island was destroyed by everyone. He led a group of people to escape and came to this sea area. He accidentally received the guidance of a mysterious wizard named Victor and entered the third-circle!

Senior Victor thought highly of his talent and was willing to make a deal with him, bestowing him with a powerful ancient body tempering technique, the 'Nine-Headed Hell Snake Body Tempering Technique'!

It was said that the ancient wizard who created this technique once mentioned that if someone could cultivate it to the Nine-Headed realm, their body would be invincible. They could tear apart pure-blooded dragons with their bare hands and punch Grand Wizards with their fists. Their mortal body would be comparable to a demigod!

Such a heaven-defying opportunity was obtained by him. If he wasn't the protagonist of the destiny, who was?

Jagri enjoyed the flattery of his subordinates, even if it was fake.

This was the beauty of power and status!

"Freeze!"

At this moment, there was a sound.

Jagri suddenly realized that he couldn't move, just like the Great Horned Whale that was trapped by his Wizard Tool.

A figure descended from the sky. He was wearing a plain white robe. He looked mature and steady. He had experienced the vicissitudes of life. His muscles were a little eye-catching under the white robe.

“Looks like this 40% increase in luck is quite useful. I actually hit it...”

This person was Levi. He stood in the void and muttered to himself.

After the paralysis effect wore off, Jagri’s expression changed drastically.

Just a single sentence from the other party was enough to render him, a third-circle wizard, immobile. What kind of terrifying spell was this?

Moreover, looking at this man’s appearance, Jagri felt that he was somewhat familiar, but he could not remember for a moment.

“Senior, this junior, Jagri, is...”

He planned to use his secret technique to ask Senior Victor for help while talking to the man.

Before Jagri could finish his sentence, the man flicked his finger and cast a Fire Dragon Tribulation. Jagri's third-circle protective force field as well as the Protective Wizard Tool... All his defenses were shattered!

In the fire, he turned into ashes without even a scream. The difference in strength between the two sides was too great.

"Run... The Island Master is dead." A group of low-level wizards fled in all directions.

Deep blue arms stretched out from Levi's body, grabbing all the fleeing wizards and freezing them into solid ice.

In the blink of an eye, all the survivors of Whale Song Island were killed by Levi.

With the principle that no matter how small a mosquito's meat was, it was still meat, after checking their storage bags, he put away all of them.

Levi still remembered the person he killed. He was the genius wizard Jagri from Whale Song Island.

"I didn't expect this kid to live until now. After killing Morpheus, I didn't bother about the remnants of Whale Song Island. Time has passed, and this former genius of Whale Song Island is already a third-circle wizard. His cultivation speed isn't slow... Unfortunately, he's nothing in front of me."

Levi did not have a good impression of Whale Song Island.

In the beginning, Jagri was a good person. If he had joined the Wizard World like Levi and joined the Gray Tower, they might have been friends.

Unfortunately, fate had led them to two completely different paths.

“Moreover, this kid should never have hurt Leviathan’s future wife so badly. If I hadn’t come a step earlier, it might have already died.”

Streams of scarlet mist emerged from his body and surged into the body of the Great Horned Whale.

Not long after, Levi mended the wounds on the Great Horned Whale’s body. Its physique was already strong, and the remaining injuries would heal very quickly.

In addition to some precious healing potions that he injected, Leviathan’s wife’s life was saved.

“Leviathan, this kid, sooner or later, he will understand the good intentions of his old father.”

Levi had never treated anyone so well, but he favored Leviathan!

“After this, there’s nothing else in the Endless Sea. I’ll go to Baghdad and tell him some things. Then, I can leave.”

...

In the depths of the Hundred-Eyed Demon Territory.

There was an uninhabited island thousands of miles away from Levi’s sub-dimensional teleportation portal.

This place was filled with scorched earth and no life force.

Deep underground, in a shelter. A purple-robed wizard finished his seclusion and opened his eyes. Lightning flashed in his eyes and the void exploded.

This person was Sorrett, who had a huge bounty on his head.

“My spiritual force has reached 800 points. This place is really not suitable for me to cultivate... But it is safer.”

Chapter 1122: Convincing Baghdad

“Also, this place is adjacent to a wild sub-dimensional teleportation portal, which is convenient for me to travel between the human world and the Endless Sea.

“Now, I have already mastered three third-circle talents, two fourth-circle talents, and two fifth-circle talents. Among the fifth-circle talents, I should be considered one of the best.

“Unfortunately, the third fifth-circle talent is too difficult. Even if I had the special talent [Thunder Heart], it would be extremely difficult to complete nine more talents.

“The lack of the fourth-circle talent could be made up for by finding sky-level Truth Oddity in the Dark Ancient Tower, but this fifth-circle talent... There’s no need to wait anymore after my spiritual force reaches Perfection. I’ll just break the crystal and try primordial soul!”

After experiencing the brutal beating in reality, he no longer hoped for a ninth talent to condense his soul to a primordial soul. It was enough for him to have an eighth talent!

He left the place of seclusion, turned into a bolt of lightning, and disappeared into the sky.

When he reappeared, he was already above the Sea of Fire.

“The Thunder Fire Crystal Shattering Technique passed down from my Thunder Dragon Family requires the use of the power of the underground fire to attract the heavenly thunder. It relies on the power of the Thunder Fire to shatter the crystal and give birth to the primordial soul... Although I’m still quite a distance away from attaining fifth-circle Perfection, I can refine my spiritual force crystals in this land of underground fire in advance so that I can better prepare for future crystal fragments. Unfortunately, if I were a dual cultivator of thunder and fire, I would use the Thunder Fire Crystal Shattering Technique to shatter the crystals. The success rate would be the highest and the smoothest.”

Sorrett sighed. Although his talent was outstanding, it was only limited to the thunder element. He had no luck with the fire element.

He descended from the sky, activated the protective force field, and sat cross-legged on the shore. After setting up the array, he refined his spiritual force crystal in the high-temperature underground fire.

“Using an external force to break the crystal is ultimately a low-level method. Even if one steps into the primordial soul realm, there’s a high chance that they’ll be stuck at the sixth-circle realm for life. Just like a chick breaking out of its shell, relying on one’s own body to shatter the crystal is the right path. Only then would the soul that was nurtured be healthy and strong. It would have unlimited potential and have hope of becoming a seventh-circle, eighth-circle, or even a ninth-circle in the future... However, in the entire Endless Sea, how many people can break the crystal with their own soul without any external help?”

In front of the primordial soul checkpoint, whether it was Children of the Elements or a special talent, no matter how talented you were, this was a huge threshold!

Those who managed to do so would be famous in the Endless Sea, free and unfettered, and live for two thousand years!

Otherwise, he would die of old age in obscurity and regret for the rest of his life!

Many years later, everyone might remember the primordial soul wizards, but it was impossible to remember the fifth-circle Perfection wizards that were one step away from the primordial soul realm!

“My fate is decided by me, not by the heavens. In the future history of the Endless Sea, I, Sorrett, will leave a deep and colorful mark!”

...

In the outer sea region.

Area 9.

Levi once again arrived at the familiar Black Fire Island.

“A hundred years have passed, but the island is still here, and I’m still here... I hope that I can return here ten thousand years later and express such feelings.”

Area 9 was now under the control of the righteous wizard.

The new third-circle wizard organization was established here.

After leaving Black Fire Island, Levi arrived at a sea area.

This was the no man’s land between Area 8 and Area 9. It was here that he had subdued Gustav.

The lair of the Baron Deep Sea was also here.

Undersea.

Outside an ancient castle built on the mountain, two experts were currently fighting here. It was abnormally intense.

One of them was the Baron Deep Sea. He was now at level 4.

The other was also a member of the Sea Clan, but he was a soft-bodied one. He had an octopus head, eight legs, and eight blades.

“Baghdad, although you have reached level 4, your foundation is still shallow. How can you be my opponent? Quickly surrender!”

The Sea Clan’s swordsman used the powerful Eight Blade Sect’s Profound Meaning to attack Deep Sea Baron, Baghdad. He was as fast as lightning and won with speed!

“Hmph, Eight-Armed Demon Emperor has forgotten its ancestors and broken the alliance agreement. You’re going to be killed by the Sea God’s divine punishment one day!” Baghdad had immense strength, thick skin, and a halberd in his hand as he fought against this eight-legged swordsman!

“Why are you still stubborn? The so-called Sea God and the High Priest are nothing more than puppets used by the wizards to rule our Sea Clan! After ancient times, the true Sea God had already been exterminated! The crafty wizard deliberately left us behind to use us as a whetstone for the young wizard. Baghdad, in this world, there had never been a savior, much less a Sea God! Everything is a conspiracy of the wizards. We can only rely on ourselves!”

Baghdad’s expression froze for a moment before he stubbornly retorted, “It’s just an excuse for the Eight-Armed Demon Emperor to rebel.”

“What if there’s a Sea God? We have been oppressed by wizards for hundreds of thousands of years. Has the Sea God ever helped us? Eight-Armed Demon Emperor had already reached the most powerful realm of Sea Clans since ancient times. Moreover, the intersection of Heavenly Spheres was an unprecedented great change since antiquity times! We need to get rid of the wizard’s control and build our own home!” the swordsman said sincerely.

Seeing that Baghdad seemed to be convinced by him, the swordsman continued, “As of now, the Four Emperors of the Sea Clan, namely, Heavenly Qu Serpent Emperor and Ancient Black Whale Emperor, have already agreed to join Eight-Armed Demon Emperor. Deep-Sea Shark Emperor, whom you are loyal to, has been killed. What’s the point of your persistence? The Sea Clan had to end its division and achieve unity. Only then could we... survive!”

Chapter 1123 Attacking Baghdad

Baghdad panted heavily. He had just reached level 4 and was indeed no match for the eight-armed swordsman. Not only did the other party have a deep foundation, but he also had the royal bloodline. He was extremely talented and the quality of his weapon was much better than his!

"Leave. Even if the Sea God is fake, so what? After so many years, have we not seen the power of a wizard? Eight-Armed Demon Emperor wants to fight to the death. I think the fish will die, but the net will not break... I just want to live," Baghdad said dejectedly.

"You have already lost the bloodlust of the Sea Clan. The servility that wizard have imposed on you is deeply imprinted on your body. You are not worthy of being a man of the Sea Clan! If you're living like this, you might as well die!

"Eight Blades Sect's Profound Meaning, Tyrant God Stab!"

Boom!

As the eight rays of light merged into one, an attack comparable to that of a fourth-circle senior wizard struck!

Baghdad took a deep breath and used his halberd to block in front of him!

However, he knew that this sword would most likely kill him!

At the critical moment, a black giant phantom suddenly appeared in his body. The giant's head was like a shark, but more like a sturgeon. It had a dragon beard and looked majestic!

Bang!

After the stunning blade light, Baghdad crashed into the castle like a kite with a broken string. The city wall shattered and he flew far away.

The swordsman was slightly shocked. He stopped attacking and pointed his sword at Baghdad from above. He said coldly, "You are indeed a descendant of Dragonbeard Sturgeon Emperor... If it wasn't for the protection of your ancestral bloodline, you would have died from this slash. Have you woken up from your dream? Come with me when you wake up. As you've already awakened your bloodline, you have a bright future. I don't want to kill the talents of the Sea Clan. My father needs you, and so does Eight-Armed Demon Emperor. Hand over the Poseidon Trident. I could have my father put in a good word for you in front of the Demon Emperor. With the support of the Demon Emperor, you could recover the former glory of Dragonbeard Sturgeon Emperor one day!"

Baghdad coughed and weakly said, "As I said, I don't have the Poseidon Trident. I lost it a long time ago. If I had it, it's just a useless item to me, why wouldn't I give it to you?"

The Poseidon Trident was passed down in his family for generations. He didn't know what it was used for. It had been lost hundreds of years ago, and he didn't know where it was now.

"You..." The eight-armed swordsman was almost angered to death.

Eight-Armed Demon Emperor had been searching for the legendary ancient Monarch's Treasure all his life. Recently, he finally found some clues and found the location of the treasure. However, he discovered that he needed to gather a total of 12 tokens to open the treasure vault.

These tokens were passed down by the twelve emperors of the Sea Clan who made the [Alliance of Emperors] in ancient times.

The twelve emperors ruled over twelve Sea Clans. After a long period of history and the ancient war of the wizard, more than half of the emperors had fallen. Today, only the four tribes and the emperor of the Sea Clan were left.

After researching, they found out that Baghdad, who was a baron in this godforsaken outer sea region, was a descendant of one of the emperors, the [Dragonbeard Sturgeon Emperor].

He came to find them because he wanted to recruit talents. After all, he was the descendant of the Dragonbeard Sturgeon Emperor. If he was nurtured well, he would become a great general in the future!

Of course, the most important goal was to take the token, the Sea King Halberd.

With this thought in mind, the swordsman of the Sea Clan knew that Baghdad would not give in, so he did not hold back. He closed his eyes, and when he opened them again, his killing intent was awe-inspiring!

"Eight Blades Sect's Profound Meaning, Demon God Octet!"

With a swoosh, the Sea Clan's swordsman split into eight!

Eight identical swordsmen surrounded Baghdad.

At the same time, above Baghdad's head, the projection of an eight-armed demon god appeared. It was a hundred feet tall, with eight thick arms, a face full of tentacles, and a pair of demonic wings on its back. The demon god held a huge sword in his hand and descended with a bang!

"Slash!"

The Sea Clan's swordsman closed his eyes and sighed inwardly.

Almost no one below the fifth-circle could block this attack.

Allowing Baghdad to die like this was his last respect for his Sea Clan's compatriots.

Boom!

Following the earth-shattering blow, the castle completely collapsed and turned into fragments.

However, the expected death of Baghdad did not come.

Under the indomitable Eight-Armed Demon God, a white-robed figure with a calm expression placed his left hand behind his back. He held a sword in his right hand and stabbed upwards!

The scarlet longsword blocked the descending greatsword!

The shockwave shattered the white coat on his body, revealing the pitch-black demonic armor that covered his entire body!

Black flames rose in the sea, making this black-armored swordsman look even more like a real... Demon God!

"Destruction!" he said lightly.

Boom!

The sword Qi whistled and split the Eight-Armed Demon God's phantom into two. It rushed out of the sea and swept away the clouds in the sky!

Then, he looked at the eight-armed swordsman with a cold and murderous gaze.

Baghdad's breathing stagnated.

Since he was able to withstand the attack of the Sea Clan's swordsman so easily, his master must have reached level 5! In the Sea Clan, this was the strength of a duke!

"Who are you? I'm the son of a prince of the Sea Clan. This is a private matter of the Sea Clan. I advise you not to meddle in other people's business," the eight-armed swordsman said coldly.

Levi remained silent. He pointed his finger out and the Water Dragon's Song roared. Surging water wrapped around the eight-armed swordsman.

After the swordsman tore through the water, what greeted him was a dark blue ghostly shadow!

Deep Blue Sage's doppelganger had already attacked. Countless blue arms extended from his back and wrapped around the swordsman. His attacks became faster and faster, but no matter how many pieces he cut Deep Blue into, the other party could quickly reassemble.

He realized that he couldn't kill this thing.

"Today's matter is not over. Baghdad, just you wait!"

Chapter 1124: Preparing to Catch the Thunder Dragon

The swordsman spoke fiercely. His eight legs spun like a propeller and he quickly swam into the distance like a torpedo. His speed was extremely fast!

Levi was not flustered. The Scarlet Dragon Dharma Idol appeared and he entered the [Scarlet Dark Dimension] to chase after them.

"D*mn it, Baghdad actually betrayed the Sea Clan and sought help from the human race. Fortunately, I was fast, or else I would have died... That person is too terrifying. At the same realm, even the body-refining wizard of the Ocean Abyss Alliance is not one-third as powerful as him!" As he pondered, the eight-armed swordsman suddenly stopped.

A ferocious red wound appeared in the void ahead.

A blood-red giant dragon charged at him. Inside the giant dragon, the black-armored swordsman was silent as he slashed with his longsword!

“What kind of method is this?”

As the son of a prince, he was also considered to be knowledgeable, but he had never seen this person’s methods before!

With a clean and neat sword, he fell to the ground with a bang, dying.

“Tell me something useful. Perhaps I can spare your life.” Levi finally spoke.

The swordsman glared at Levi and said fearlessly, “If you kill me, my father will avenge me. One day, Eight-Armed Demon Emperor will overthrow this f*cking world. You will die too!”

Kacha.

Levi’s large hand pulled out the heart of the swordsman and crushed it.

“What does overthrowing this world have to do with me? I just wanted to ask what you’re doing here.”

He closed the eyes of the Sea Clan’s swordsman. He didn’t even have a tracking method. How could his father find him for revenge?

“This corpse is not bad. It’s perfect for refining corpse demons.” This Sea Clan swordsman reminded Levi of the living dead [Little Octo] that he had refined during his time as a first-circle wizard. They were both swordsmen of the Mollusks clan.

“In the future, when you’re refined into a corpse demon, I’ll call you Old Eighth.”

Levi opened the dead swordsman’s storage bag and found a fourth-circle Wizard Tool inside. There were also many wizard relics. It seems that he had killed more than one fourth-circle wizard. Levi put them away without hesitation.

The remaining shrimp soldiers and crab generals had long been wiped out by Blood Lady.

“What’s wrong?” Levi asked the confused Baron Baghdad.

“He said that the Sea God is fake,” Bagdad said softly, “It’s a trick of the wizards. Master, is this true?”

“I don’t know either. Whether it’s true or not has nothing to do with you and me. Just live well. Tell me about that person’s situation and the ins and outs of the incident.”

“Alright.”

...

Undersea.

After listening to Baghdad's statement, Levi's heart was calm.

It was just that the Eight-Armed Demon Emperor wanted to rebel and unify the Sea Clan. It planned to go to the human world through a secret channel that it controlled. It planned to be independent from the rule of wizards.

"The human world is getting more and more lively. In the future, we have to guard against the sea race... However, with the Wizard Council around, I believe that this rebellion will be suppressed with the flip of a hand."

Counting the princes of the Sea Clan from all over the world, the entire Sea Clan was equivalent to a top-notch wizard organization.

"Your territory has been discovered. Give up this place and go to another sea area to find a place to start over. I have a mission for you."

"Sir, please speak." Baghdad knew that he had to cling onto Levi's thigh in order to survive in the chaotic world.

Levi told Baghdad about his plan.

Baghdad heaved a sigh of relief when he learned that he only needed to search for different types of sea beasts.

This was not too difficult for the Sea Clan.

He only needed to provide the coordinates of the sea beasts to the Giant Beast Paradise on a regular basis, and the paradise would naturally arrange for specialized beast-catching wizards to go and bring the sea beasts back to the Ancient Saint plane to raise them.

After giving his instructions, Baghdad led his men and left.

Levi immediately left for the Hundred-Eyed Demon Territory. After he returned to the human world, he wouldn't come to the Endless Sea for a long time.

...

Hundred-Eyed Demon Territory.

As he got closer and closer to the Sea of Fire, Levi's Danger Perception suddenly reacted.

“I didn’t have such a reaction when I came here, but I did when I went back. Could it be that someone is blocking me at the entrance of the sub-dimensional portal? No one else knows about this passage except me. Even if someone accidentally discovered it, it’s impossible for them to know that I’ve been here.”

Judging from the danger level, the other party should be a fifth-circle wizard without a doubt. Moreover, he was definitely much stronger than Madam Ghost and Patricia. It was very likely that he was a fifth-circle senior!

“With my current strength, as long as I’m not a primordial soul wizard, even if I can’t defeat the other party, I’ll definitely be able to escape. Why don’t I use the Hermit Rune to investigate first before making a plan?”

The Hermit Rune flickered as Levi stealthily moved. Soon, he arrived near the Sea of Fire.

With his current level of spiritual force, it would be very difficult for ordinary or experienced fifth-circle wizards to see through his invisibility.

Therefore, he saw the figure sitting cross-armed on the shore from afar.

“It’s him?”

Levi was a little surprised. That person was actually Sorrett!

The other party seemed to be cultivating, sitting alone by the sea of fire. It could be seen that there were some arrays set up beside him, and there might be other warning methods.

“Enemies meet on a narrow road.”

In an instant, memories flooded his mind.

Levi did not move forward. If he got any closer, Sorrett would definitely discover him.

The reason why the other party did not notice was because they were far away. Furthermore, Levi’s increased mental strength had also increased the effect of the Hermit Rune.

He turned around and left, flying in the direction of the Star Sea.

With his current strength, if he used the Six Heavenly Gods and gave it his all, he might be able to fight against Sorrett. However, that was not a confirmed outcome.

Therefore, he chose to leave.

However, he did not intend to let Sorrett go!

The Thunder Dragon family was the main culprit behind his wandering life. If it weren't for them, he would still be quietly cultivating in Riptide City or the Black Pearl Wizard Market.

He had also formed a feud with Sorrett because of the succubus snatching incident. Although the other party did not realize that it was him, it was still a hidden danger.

Furthermore, Sorrett was worth two fifth-circle Wizard Tools or a sky-level Truth Oddity.

For these reasons, Levi wouldn't let him go. This guy was hated by everyone in the Endless Sea. He must have used up all his trump cards. It was a good time to hit him while he was down.

This time, with the help of the Scarlet Dark Dimension, Levi returned to the Star Sea after seven days.

When he passed by the Witch's Family, he sent a message to the Flower Knight, but there was no response.

He came to Triss's cabin and learned that the lady had gone to a meeting.

However, he still managed to find out from Rose that the Flower Knight was not in Nora. Some time ago, she had been ambushed by a mysterious expert. After finding clues, she went to the Land of Darkness and took revenge.

He didn't want the Flower Knight to kill Sorrett. He just wanted her to cast a Flower Barrier on him.

Since she wasn't here, then forget it.

Levi took the teleportation portal and returned to the human world. Then, he rushed to the Ancient Saint plane without stopping.

He looked at the Seven Kings of Hell array and the four gatekeepers who were cultivating in it. "I'm going to put away the array. Come with me to a certain place to kill a powerful enemy!"

"Alright, Boss!"

Although these people didn't know who they were going to kill, with Boss's personality, since he had made a move, victory was definitely in his grasp.

Levi put away the array and replaced it with a set of normal magic circles.

He headed to the Ancient Dragon Empire and brought the Senior State Assembly's Ancient Saint along with the Purgatory Ghost Killing Array.

After finishing all of this, he went to the island where the wild sub-dimensional portal was located.

One by one, the array item sank into the seabed around the island.

After a few days, the grand array was finally set up.

Levi took some potions to recover his stamina and spiritual force and analyzed his current trump cards and strength over and over again.

“I was able to use the formation to kill Madam Ghost more than ten years ago. Now, be it the path of knights, the path of wizards, or the Rune Language, I’m far better than before. I’ve even mastered the [Six Heavenly Gods].

“The power of the Seven Kings Formation had also increased. The four formations of Earth, Fire, Wind, and Water now had a wizard in charge of them. If I had set up the trap beforehand, killing Sorrett would not have been a problem.

“I can take this opportunity to test my true strength before entering the Dark Ancient Tower. When I enter the Dark Ancient Tower, I’ll be able to know what to do when I face more powerful enemies!”

Thinking of this, he entered the crater and headed towards the Sea of Molten Lava on the other side.

The battlefield had already been set up. All he needed to do was to invite the enemy into the trap and shut the door to beat the enemy!

Last time, he had snatched the succubus in broad daylight.

This time, he was going to use the Heaven's Net to catch the Thunder Dragon!

Chapter 1126: The Thunder Dragon's End, Ten Million Wealth! (1)

Endless Sea.

Hundred-Eyed Demon Territory.

At the edge of the Sea of Molten Lava, Sorrett was adapting to the power of the underground fire in advance, preparing for the future crystal shattering.

He opened his eyes and exhaled a breath.

“Not bad. After this period of adaptation, I have some new insights. Among the four basic elements, the water element is the gentlest, while the fire element is the fiercest. The two could be said to be incompatible, but the intersection of water and fire gave birth to lightning. Thunder and fire originated from the same source. The Thunder Fire Crystal Shattering uses the heat of the fire and the swiftness of the thunder. The two combined burst out an even stronger energy to shatter the crystal.”

“However, if I don't handle this step well, not only will the crystal shatter, but my head will also shatter. Currently, given my talent, the success rate of using the Thunder Fire Crystal Shattering Technique to break through to the primordial soul, even with supplementary potions, is less than thirty percent... The difficulty of achieving the primordial soul is evident!”

“If I want to advance to the primordial soul safely, I will have to use the primordial soul wizards of the Letney Family to bring me to the seventh floor of the Dark Ancient Tower.”

“If I can obtain the Morning Star-level Truth Oddity mentioned in the ancestor’s inheritance, my Thunder Heart talent will evolve once again, and I can complete my innate spell. Then, my success rate of advancing to the primordial soul stage might be more than 50%!”

From the beginning, Sorrett never thought of handing the seventh floor’s Truth Oddity to the Letney family.

After all, this was a Morning Star-level Truth Oddity, something that even primordial soul wizards couldn’t achieve!

He had already fallen to the bottom of his life. If he wanted to turn things around, there was no other way except for a Truth Oddity that could change his fate.

“I should continue cultivating.”

Sorrett had just closed his eyes and casually scanned the surroundings with his spiritual force. Then, his expression changed.

“It’s him? Does this guy know about this secret passage? You cut your throat yourself. It just so happens that I’ve been short of cultivation resources recently. No matter how small a resource is, it’s still a resource. Hehe, it’s fate!”

Sorrett was even a little excited. All these years, he had been too aggrieved. He had been constantly being hunted down and was exhausted from running for his life. He had nowhere to vent his anger.

Now, this guy was courting death.

“After I catch him, I’ll interrogate Miraya for her whereabouts. She dared to betray me. I’ll capture her and torture her to death!”

Sorrett felt gloomy. He suddenly stood up and turned into a bolt of lightning, flying toward the center of the Sea of Molten Lava.

On the other side, a white-robed wizard was flying leisurely at the exit of the sub-dimensional portal. It was Levi.

Suddenly, there was an explosion in the sky, and the clouds surged apart.

A figure flew over from the lightning.

Sorrett used the Wizard’s Hand to conjure a giant palm of lightning that grabbed at Levi. Purple lightning chains flew out of his body, making rustling sounds. It seemed like he wanted to capture Levi alive! ⚡

Levi’s expression changed drastically, and he was extremely flustered. As he flew back to the sub-dimensional portal passageway, he shouted, “Senior, who are you? Why did you attack me?”

“Who am I?” Sorrett was furious. He grinned. “You were the one who caused trouble at my auction that day, right? You must be the subordinate of Blue Dragon Lady, I’ll capture you today and follow the clues to find that b*tch Elsie. I’ll let her know the price of offending me!”

Boom!

Bolts of lightning shot towards Levi!

Levi dodged and said innocently, “I didn’t... You must be mistaken, Senior.”

Sorrett was so angry that he laughed. “You still don’t want to admit it? Then, you should go to hell!”

The next moment, Levi’s figure disappeared into the sub-dimensional portal. A panicked voice sounded, “Don’t come over!”

Sorrett sneered. His protective force field flashed and protected him before he stepped into the vortex.

“The boundless Endless Sea allowed me to meet you. This is the guidance of the truth. You can’t escape!”

In his opinion, that guy must have accidentally discovered this sub-dimensional portal passageway. However, he did not expect that he would be here as well. Now that he was caught red-handed, it could be said that he had panicked and returned to the human world!

“Hahaha, I have my luck turned around!”

He didn't suspect anything and directly stepped in.

...

Nameless island.

On the shore.

Levi stood proudly in the air and looked down at the crater of the volcano.

In the next moment, the vortex swirled, and a purple figure flew out into the sky.

The figure looked around and then looked at Levi, only to see that Levi did not dodge at all and was fearless.

Earth countered thunder. Levi wanted to use this most important array at the final moment to ensure a one-hit kill. He would first use another array to exhaust Sorrett's trump cards and spell power!

In the Ice Hell, the world was vast and covered in frost and snow. This was a world of ice and snow.

Icebergs were everywhere, glaciers were everywhere, and the cold wind was howling.

Sorrett stood there with a gloomy expression. Suddenly, he looked up at the sky and laughed wildly. "My Thunder Spear will be played by a Fourth-Circle Wizard one day... Good, good. Did he think that a mere four-circle array could trap me without any worries? You're too naive!"

Chapter 1127: The Thunder Dragon's End, Ten Million Wealth! (2)

As soon as he finished speaking, icicles fell from the sky, covering the entire world!

Sorrett's lightning protective force field kept flashing, and the icicles were shattered one by one.

Looking at the increasingly dense icicle attack, Sorrett closed his eyes, and then his spiritual force surged!

The Third Talent, Three Thousand Lightning Annihilation!

With Sorrett as the center, the area within several miles was surrounded by purple lightning balls.

This was an AOE attack spell formed by 3,000 lightning balls.

Rumble!

All the lightning balls exploded.

Lightning filled the air, and the ice balls were all shattered into dust.

If it was the previous version of the Seven Kings of Hell's array, the Ice Hell would have been broken by this attack.

However, after Levi obtained higher-level knowledge of the Book of Cypher from Fire Wolf, he upgraded the Seven Kings Hell's array.

With this attack, although the Ice Hell trembled non-stop, it was not broken.

Rumble!

The icebergs and glaciers that made up the scenery were all squeezing toward Sorrett from all directions.

The entire map seemed to come alive.

Seeing this scene, Sorrett cursed in his heart.

“D*mn it, this seems like a four-circle array, but it’s almost the same as a five-circle array. I have to break through the array, find that guy, and get rid of him. Otherwise, it won’t end!”

That guy was able to set up such a Heaven’s Net-like grand array!

Second Talent, Lightning Retaliation!

Sorrett put his palms together, like a believer praying for God’s mercy!

His purple robe fluttered in the cold wind!

A circle of purple ripples spread out with him as the center!

At the same time, a powerful repulsive force swept out!

Crackle!

Under this force, all the icebergs, glaciers, and all the attacks were repelled!

Boom!

Accompanied by the sound of the world of ice shattering, Sorrett leaped up. He wanted to use his extremely furious thunder to smash Levi into pieces!

After a few seconds, he had already arrived in a world with blue seas and clear skies.

At first glance, he thought that he had returned to the outer sea region.

However, Sorrett's eyes did not relax.

"He hasn't left yet..."

His expression was solemn as he exhaled a mouthful of turbid air. Then, the lightning in his hand-gathered into a spear. This was the innate spell that Sorrett used the most.

First Talent, Lightning Spear!

Seawater poured in from all directions, covering the sky and the sun. The entire ocean seemed to have turned into a huge blue hollow water ball.

Among them, Sorrett was as insignificant as an ant.

He used the same trick again, using the Lightning Retaliation spell to expel all the seawater that was forced over!

Suddenly, in the waves behind him, a calm face appeared!

An incomparably gorgeous sword aura attacked Sorrett.

Sorrett shot out a lightning ball. The lightning ball exploded a mile away, and his figure instantly disappeared from where he was and reappeared at the spot where the lightning ball exploded!

Fourth Talent, Lightning Shift!

“I know that you hid in this sea and wanted to ambush me. Do you have the right to do so?”

Sorrett shouted as if he was disdainful, but it was more to hide the panic in his heart.

As the Thunder Snakes ran amok, the extremely oppressive Dead Sea Hell completely cracked open!

“I’m going to kill you!”

Sorrett, who had turned into lightning, roared in the air.

However, no one responded.

“D*mn it, how many layers of arrays are there? There’s no end to it!”

Sorrett did not act rashly. His eyes were filled with disbelief.

His nose twitched, and a burning smell filled the air. He looked up at the sky.

An endless shower of Meteor Fire and Blazing Sun Fire Balls descended from the sky.

Explode, explode, explode!

Boom! Boom! Boom!

Explosions were everywhere, and there were flames everywhere!

Inferno Hell descended!

Lava hung upside down in the sky, and the flames purified everything!

Not only that.

It was with Sorrett as the center!

Below him, it suddenly turned into a sea of lightning. Countless Thunder Snakes swam in it, and cracks covered it.

In front of him was a wind wall that reached the sky and the earth. It was like the most terrifying great hurricane in the Endless Sea. Thousands of Wind Blades were whistling over.

Behind him were metal blades that emitted killing intent. They were long swords, and each of them was emitting a cold light! And here, there were more than ten thousand?

Behind him, a giant hundred-meter dragon that connected the sky and the sea appeared out of nowhere!

The giant dragon had wings on its back, and its entire body was made of lightning. There was a sharp horn on its forehead that could pierce through the sky!

Behind the Thunder Dragon was a carriage, like a god's carriage!

Sorrett sat on the carriage, holding the reins in his hand. Electric snakes filled the air behind him, and his hair stood on end. He was like a Thunder God!

The Thunder Dragon roared, its voice piercing through the clouds and rocks.

The terrifying thunder dragon rushed into the sword rain. The high temperature of the lightning instantly melted all the swords, turning them into molten iron and causing them to fall.

The Wind Blades cut through the Thunder Dragon, but Sorrett did not care. He only cared about breaking out of the encirclement.

The Meteor Fire collided with the giant dragon, resulting in the most violent shock wave. As for the Lightning Hell, Sorrett did not have to worry about it.

After all, he was a Fifth-Circle Wizard from the Lightning School of Thought. His control over lightning was far beyond that of ordinary people.

However, in the sea of lightning, a sinister face suddenly appeared. Levi had launched a sneak attack from the weakest spot!

The Black Flame Void and the Crimson Emperor Dragon Flames formed a twin dragon strike!

Boom!

A black and red mushroom cloud rose from the sky!

The fifth-circle explosion made the Thunder Dragon unable to bear the burden and turned it into ashes.

However, relying on the Thunder Dragon Chariot, Sorrett had successfully broken through the siege of the Four Great Hells!

“You’re finally willing to show up!”

Sorrett had been waiting for this moment.

If Levi had quietly stayed in the array, he might have been able to live a little longer. However, he had tried to sneak attack him time and time again. He was simply courting death!

His right hand turned into a claw and suddenly grabbed out.

A destructive thunder dragon claw descended from the sky.

Thunderous force, all destroyed!

Hell's cycle.

The last hell, Rolling Stone Hell, also appeared!

In the sky, comets came from a faraway place to join this slaughter feast!

Earth spikes rose from the ground to welcome the arrival of the comet!

Come, let's fight!

"Sorrett!"

Levi stood between heaven and earth, gazing at the thunder dragon claw descending from above!

“Six Heavenly Gods!”

His body stretched out freely, entering a realm of transcendental ease!

The white robe melted like paper under the pitch-black demonic flames.

A towering black-armored knight appeared, his hands plunged into the earth as he chanted incantations!

In this Rolling Stone Hell, Levi was the sovereign ruler!

At the array cores guarded by the “Four Heavenly Kings”, Ur, blood vampire, Coral Witch, and others, it was astonishment reigned.

“Is this Boss’s true strength? A fourth-circle body on par with a fifth-circle?” Ur’s gaze was shaken. If he hadn’t seen it with his own eyes, he could never have imagined that such a terrifying aura could emanate from a fourth-circle wizard.

“You don’t understand. He is a prodigy of a major power. Last time, that primordial soul witch was likely his backer. His strength can’t be measured by common standards. But wait... that purple-robed wizard seems familiar... I think I’ve seen him on a wanted poster. Thunder Spear Sorrett! A dark wizard worth

two Fifth-Circle Wizard Tools ranked 144th on the Savages List. That's close to the top 100 of the deadliest. And now, he's being suppressed by Boss?"

The Coral Witch's shock surpassed Ur's.

Sorrett's ability to remain unscathed under the pursuit of so many Fifth-Circle Wizards was proof of his strength.

No wonder Boss had taken such drastic action. He aimed to defeat a powerful fifth-circle senior wizard with only a fourth-circle realm!

It was beyond imagination, defying common sense!

The Coral Witch knew of some heaven's chosen, like the Golden Light Wizard of the Letney Family and the nobles of the Sea Clan of the Ocean Abyss Alliance, who had killed fifth-circles.

But they had only defeated disabled fifth-circles, limited to ordinary ones. They dared not provoke fifth-circles who had mastered at least six innate spells.

"Too powerful, that's Boss! I knew it. My judgment was spot on!"

Blood vampire's excitement surged as if he were the one battling the fifth-circle!

In Rolling Stone Hell, as Levi's hands pierced the ground, the six arms of the Six Heavenly Gods followed suit.

"Rise!"

Levi personally presided over the Rolling Stone Hell array, lifting the entire land, quickly rolling and folding it!

Rumble!

Sorrett's thunder dragon claw was instantly destroyed by the lifted crust.

"Assemble!"

As the earth moved, the earth wall rose, and a huge colosseum was built in an instant.

Sorrett looked terrified. This person's attacks had completely merged with the array.

His every move had the boldness of a primordial soul wizard who could wield the elemental powers of the world!

The Celestial Divine Weapon Soldier swung its greatsword, knocking away all the Thunder Spears. Electric arcs rampaged across its earthen yellow armor, shattering pieces. Just as the defense was about to be penetrated, an endless stream of earth elemental power surged into the armor. It was simply cheating!

The human and array became one!

This method was known as “combining one’s body with the array” in the array!

This was Levi’s upgrade of the Seven Kings Hell’s array, marking a transformation in his mastery of Array Path!

Strength and Chariot flashed on the surface of the Celestial Divine Weapon Soldier!

Not only that, Nightmare Descent, Giant Dragon Warrior, Furious Dragon Lord... With Levi as the center, all these forms were stacked onto the Celestial Divine Weapon Soldier!

This made the Celestial Divine Weapon Soldier look like an armored Dragon Man with antlers on its head!

At this moment, Levi was immersed in unprecedented strength.

It was overwhelmingly powerful!

Then, the Dharma Idol of Wind and Thunder Surge, specifically targeting Sorrett, appeared!

All of Sorrett's attacks, as long as they did not completely defeat Levi, would only make him stronger!

The proud White Feather Dragon in the sky continuously absorbed power from Sorrett's lightning attacks and fed it back to Levi.

The more Levi fought, the braver he became. His Sword Qi was unparalleled, like an inexhaustible machine gun!

The more Sorrett fought, the more panicked he became. His spell power was being consumed at an alarming rate.

Moreover, he could sense that Levi was absorbing and converting part of his attack, allowing him to endure so long!

The ground was full of cracks and ravines. On the four walls of the Colosseum, Sorrett's figure kept dodging.

He was caught between fighting and fleeing.

There was only one thing he could do!

That was to escape!

That's right, a senior fifth-circle wizard, now facing the attack of a fourth-circle senior wizard, wanted to escape. It seemed unbelievable, yet it was happening!

He had seen many prodigies, and he was one himself, but he had never encountered someone so monstrous and exaggerated.

In his opponent's attacks, he saw the methods of body-refining wizards, the spells of the four major factions of Earth, Fire, Wind, and Water, and even the techniques of his own Lightning Faction!

In addition, this was the most troublesome array.

What else was there? Was there anything he couldn't do?

Was this a human?

Even if one was extraordinarily talented and extremely hardworking, it was impossible to master all professions and all sects within a limited lifespan!

If that were the case, the distinctions between factions and occupations that had existed in the Wizard World since ancient times would be a joke!

However, the scene before him told him this was not a dream. Someone had indeed accomplished all of this.

The most important thing was that even with such terrifying talent, he remained nameless.

In the entire Endless Sea, no one had ever heard of such a person.

Sorrett fled, and the Celestial Divine Weapon Soldier pursued him!

His force field was torn apart and reformed again and again under Levi's violent attacks.

His spell power was rapidly depleting. If this continued, he would be exhausted to death here.

Rumble! Sorrett was about to shatter the Colosseum's earth barrier with the might of lightning.

Levi summoned the Circle of Ouroboros, it was time to end this!

Fifth-circle spell: World Burning Flame Snake!

Over 300 Cas of terrifying energy poured out, and the hundred-meter-long fire snake wrapped around Sorrett like a tracking missile.

“Thunder Fall!”

In the fire, Sorrett’s painful roar could be heard!

Rumble!

The sound of muffled thunder came from outside the array.

Thunderclouds covering several miles gathered above the uninhabited island.

A purple pillar of lightning descended with a destructive might that would make even fifth-circle wizards tremble!

The terrifying attack tore apart the Seven Kings of Hell’s array, allowing Sorrett to see daylight again!

Watching the Thunder Snake's teleportation trajectory, he stepped into the teleportation portal.

In the next moment, he was already in front of the Thunder Snake!

At this moment, his spell power had been exhausted, and he could no longer use any spells.

However, he still had the abilities of a knight!

Golden Snake Dance, Heaven Burning Crimson Emperor, Wind and Thunder Surge, Scarlet Ruler!

The four Dharma Idols surrounded him, and four giant dragons appeared!

This time, Levi gave it his all, unleashing another ultimate strike!

Boom!

The Sword Qi collided with the Thunder Snake, splitting it into two.

From within, Sorrett's pained cries could be heard.

“You... You know teleportation spells?” Sorrett was in utter despair.

All of his methods were countered by this person.

It was as if this person was destined to be his calamity!

“Ahhhh, Thunder God Strike!”

Sorrett seemed to have gone mad, and his terrifying lightning attacks poured down on Levi with all his might, as if he wanted to perish together with Levi!

Chapter 1130: The Thunder Dragon's End, Ten Million Wealth! (5)

Levi's four Dharma Idols and four divine weapons overlapped, covering his entire body in golden scales!

The earthen yellow armor of the Six Heavenly Gods completely shattered.

His Heavenly God's body was also covered in wounds and somewhat unstable.

Electric currents surged all over his body, and layers of Dharma Idols vanished. However, the Sky Dragon Dharma Idol always enabled Levi to gather his Strength again before his defenses were breached, turning danger into safety and resisting the attacks!

“Who are you?” Sorrett asked with a pale face. “Why are you deliberately targeting me?”

Levi calmly replied, “You’re mistaken. I’m not targeting you... I’m targeting the entire Lightning School of Thought!”

The Six Heavenly Gods launched their attack, and Levi’s sword struck once again!

After being drained in the array for so long and using his trump card, Thunder Fall, Sorrett was already powerless to resist!

He swiftly turned back. If he wanted to escape, he could only return to the island and flee through the sub-dimensional portal!

Levi entered the Scarlet Dark Dimension and chased after him!

“I’m almost there! I can’t die! I must enter the ancient tower and become a primordial soul!”

Sorrett was at his wits’ end, sustained only by the belief that he could survive. However, the evil blood-colored dragon behind him drew ever closer!

Finally, Sorrett saw the crater. However, what awaited him were twenty-four figures arranged in an array... Lizardmen?

Sorrett's pupils dilated. The Lizardmen's coordinated attacks transformed into a real fifth-circle assault within the Purgatory Ghost Killing Array!

Boom!

Caught off guard, Sorrett was sent flying!

Sorret was stabbed by Levi.

Levi's red longsword pierced through Sorrett's abdomen. He withdrew the sword and delivered a slap to Sorrett!

Sorrett was driven into the ground. Were it not for the final force field protecting him, he would die!

In the pit, Levi descended from the sky, seized Sorrett by the neck, and chanted a mysterious incantation!

Sorrett's pupils reflected a world drenched in blood.

In the crimson sky, a colossal Scarlet Dragon loomed like a mountain, gazing upon him.

“Submit to me!”

An unstoppable willpower shattered Sorrett’s psychological defenses.

Then, the Strength surged forth and branded the tracking mark of the Scarlet Dragon between Sorrett’s eyebrows!

Sorrett’s expression shifted from blank to normal. He then prostrated himself before Levi and bowed his noble Thunder Dragon head to both Levi and the Scarlet Dragon behind him! &

“I never expected my fourth contract position to be given to Sorrett. Fate truly works in mysterious ways.”

Levi breathed a sigh of relief. Without time to rest, he swiftly packed away the array and returned to the Ancient Saint plane after tidying up the battlefield.

...

Several days later.

He continued to add new modules, making the array more and more perfect.

At that time, relying on the array beneath his primordial soul, he could be invincible in the mortal realm!

Of course, other than the contribution of the array.

Levi's strength was also the key to winning this battle.

He had the thickest armor in the Endless Sea and the strongest attack of the Six Heavenly Gods!

There was also the Wind and Thunder Surge Dharma Idol that was specifically targeted at the Lightning Faction.

With the help of the Fifth-Circle Wizard Tool and the Ancient Saint of the Senior State Assembly, they were able to escape.

Killing Sorrett was only natural.

As such, he was even more confident in his trip to the Dark Ancient Tower.

He didn't plan to bring a large-scale array like the Seven Kings of Hell into it.

Firstly, this array was needed to guard the Ancient Saint plane.

Secondly, he didn't have the chance to prepare a large-scale array in the Dark Ancient Tower.

Here, it was an ambush battle. Inside the ancient tower, it was a contact battle. One had to adapt to the situation!

However, even without the Seven Kings of Hell, his current strength was not inferior to that of an ordinary fifth-circle wizard.

He might not be as good as Sorrett, but he could still retreat calmly!

After reviewing the battle experience, Levi opened Sorrett's storage bags.

"He's so poor. It's only a million Aether Stones...Has this guy fallen to such a state?"

Levi shook his head and sighed. He put away the Aether Stones. Levi's current reserves had increased to more than three million.

This money.

On the one hand, it was used to collect the basic knowledge of the various factions to prepare for the study of innate spells in the future.

On the other hand, Levi also needed to save some to buy a spiritual force's crystallization technique. With his cultivation speed, there was a high chance that he would advance to the fifth circle in the Dark Ancient Tower.
