Chapter 1131: The Thunder Dragon's End, Ten Million Wealth! (6)

Finally, Levi wanted to try to collect the materials for the Seven Kings of Hell's array. It was very difficult to gather materials for such a large-scale array, but he could let his subordinates handle it slowly. It wouldn't delay anything. When he returned from the ancient tower, he would refine another set and carry it with him in case of emergencies.

Sorrett didn't have many things. Other than the Aether Stone and casting materials, the rest were a pile of spell model crystal balls and knowledge slates.

"So many... It's not just the Lightning Faction, there are many other factions' books. Sorrett loves to learn too."

Levi unceremoniously recorded all of these spells into his specialized knowledge base.

Among them, there were more than ten fifth-circle spells. These were all priceless treasures that were difficult to buy in a place like the wizard market.

"Hmm? What is this?"

A piece of small metal suddenly appeared in Levi's hand.

The metal was mainly blue with white stripes, looking quite strange.

Electric arcs danced in it, and air currents swirled around it.

“How magical... Wind and thunder elements are gathered together. Could this be the legendary Wind Thunder Meteorite Iron?”

Even Levi, who was experienced and knowledgeable, could not help but feel excited.

The Wind Thunder Meteorite Iron was a level-five metal, and it was an extremely rare metal with both wind and lightning elements!

With the same amount, even his Black Flame Meteorite Iron was far less valuable than the Wind Thunder Meteorite Iron.

After all, wind and lightning elements were rare. The combination of the two was even rarer!

In this era, even primordial soul wizards might be tempted by this piece of metal.

“I’m rich! I thought that Sorrett was just a poor man, but I didn’t expect him to be a treasure giver. The divine weapon of the Sky Dragon Breathing Technique is about to be born! Moreover, this Wind Thunder Meteorite Iron is pure and has already been refined. It can save me a lot of time.”

Then, as he flipped open a book called “Augustine’s Hammer”, his expression became excited again.

“A fifth-circle weapon-making inheritance book...”

He quickly flipped through it to calm his excited mood.

Another priceless piece of knowledge!

As Levi continued to search, his expression became more and more animated.

“Lightning Melting Crystallization Technique, Thunder Fire Crystal Shattering Technique...”

Levi was getting more and more excited!

Sorrett loved to learn. His wealth was all knowledge!

“The Lightning Melting Crystallization Technique, a second-grade crystallization technique, was created by the ancestral wizard of the Thunder Dragon, the founder of the Thunder Dragon Family, who was a peak sixth-circle primordial soul wizard. He relied on the high temperature and energy of lightning to quickly melt the spiritual force liquid and fuse it into one under the powerful electric current to create the embryonic form of a spiritual force crystal. Then, he continuously polished the crystal with lightning to create a perfect spherical crystal!”

“There are two types of spiritual force crystals. One is irregularly shaped and considered an ordinary crystal. The other is a perfect sphere. Normally speaking, spherical crystals are more conducive to nurturing the primordial soul, so they are the current mainstream. Irregular crystals are formed by the ancient crystallization techniques.”

Levi looked at the introduction in the book, his eyes sparkling.

“In the Witch’s Family, the third-grade High-Pressure Crystallization Technique is used to condense irregular crystals. Even so, it still costs a million Aether Stones, and that’s with organizational discounts. My Lightning Melting Crystallization Technique is worth at least two to three million!” ㄹ

This was also why Fifth-Circle Wizards had very little cash. Most of their money had to be exchanged for expensive knowledge.

Before Levi could calm down, the Thunder Fire Crystal Shattering Technique made his breathing quicken!

“It turns out that the crystal shattering technique is needed for fifth-circle wizards to advance to the primordial soul stage... This is the knowledge that many fifth-circle wizards would go crazy for. If I pair it with a specialized soul-condensing technique, I will have all the methods needed to advance to the primordial soul level.”

The crystal shattering technique was extremely rare. Even in a top wizard organization like the Witch’s Family, there were only a few of them. Its value required many Fifth-Circle Wizards to save up for hundreds of years before they could afford it.

As for the market, knowledge of such a level was not circulated. Occasionally, it would appear at large auctions, where countless people would fight for it crazily, just like the primordial soul breakthrough potion!

However, after reading it, Levi frowned.

“So there is such a saying. Breaking crystals with external force is a low-level method. Breaking crystals with one’s soul and spiritual force is the best way. However, among the primordial soul wizards in the Endless Sea, 70-80% of them use external force to break the crystals. Forget it, this is too far away for me, so I don’t need to consider it for now.”

Levi solemnly put away these two techniques.

This time, the harvest was incredibly bountiful. In comparison, that one million Aether Stones was a drop in the ocean.

The total value of the fifth-level metal and this knowledge had long exceeded ten million Aether Stones.

Of course, there was another reward that had to be mentioned, and that was Sorrett, the senior fifth-circle slave!

Thinking of this, Levi called Sorrett over.

“Master!” Sorrett lowered his head and said.

Levi asked calmly, “Tell me briefly about your experience after you left the auction.”

Levi needed to know who the forces behind Sorrett were so far to prevent being targeted.

Levi practiced the breathing technique while listening to Sorrett’s story.

With the overbearing Scarlet Contract, Levi was not afraid that Sorrett would hide anything or deceive him!

Three days later, Sorrett finished speaking.

“You have the key to the Dark Ancient Tower?” Levi asked.

Sorrett nodded, and then a small pagoda appeared out of nowhere.

“Sure, take it. You said that your ancestor once found a Thunder Pool Secret Realm on the seventh floor of the ancient tower, and there was a Morning Star-level Truth Oddity inside?”

“It’s true. However, there’s a level-seven thunder elemental lord in the secret realm. My ancestor knew he wasn’t a match, so he could only leave.”

“With your strength, you shouldn’t be able to reach the seventh level. After the sixth level, only those at the primordial soul level can reach it,” Levi said.

“That’s why I told the Molten Gold Wizard King about this,” Sorrett said. “I used this as a trade in exchange for the safety of my family. Three years later, he will arrange for a primordial soul wizard to lead a team and bring me to the seventh floor... However, I didn’t tell him about the thunder elemental lord.”

Levi was deep in thought. Then, he smiled and said, “Interesting. You dare to plot against a primordial soul wizard. You’re bold. As expected of you... In that case, you can continue with your plan.”

Chapter 1132: Wind Thunder Wings, Sixth Talent, Level 10 Awakening, Eve of Prosperity! (1)

Levi did not have much hope for Sorrett’s plan.

But he could give it a try.

If it succeeded, the value of a Morning Star-level Truth Oddity was immeasurable!

With such a treasure, Levi would have a greater chance of advancing to the Advancement primordial soul in the future!

Levi would not participate in Slade's operation. His focus was still on the first five floors. He did not have a primordial soul wizard willing to bring him to the sixth floor. Even if someone brought him there, he would not go!

With his strength, going to the sixth level was too risky. He knew his limits.

"However, if there's a primordial soul wizard who can secretly help Sorrett, his plan still has a high chance of success... Why don't I ask the Flower Knight? She doesn't seem to have any intention of entering the Dark Ancient Tower. I might as well take out a key to the Dark Ancient Tower and make a deal with her. She'll help Sorrett, and I'll give her the right to enter. Of course, if she doesn't want to enter, then forget it."

...

Three days later.

Levi arrived at the Giant Beast Paradise and released the Great Horned Whale from Alice's ring.

Melina quickly flew over and said with heartache, "She's injured... It looks so painful."

"Yes, but she's fine. Send someone to take care of her and heal her injuries. I'm relieved that Leviathan has a wife." Levi said with a smile.

"Yes, I'll take good care of them." Melina nodded.

In the sea, Leviathan looked curiously at the Giant Whale, which was much larger and more imposing.

The Great Horned Whale stared at Leviathan vigilantly and warned it.

Leviathan did not dare to approach her. It only let out a sympathetic cry when it saw the wounds on her body.

The whale looked at Leviathan and swam into the sea.

Leviathan looked at Levi, confused.

Levi smiled and said, "Hurry up and go. Kid, are you planning to be single for the rest of your life?"

However, their families were incompatible before this kid advanced to level 3. It would probably be very difficult for him to attract the Great Horned Whale.

Transcendent creatures would instinctively choose stronger individuals to ensure the excellence of their genes and bloodlines.

Of course, this kid had an advantage. He was a mixed-blood Dragon Clan member. Perhaps he could rely on this to win the heart of a beauty.

Leviathan nodded and followed the Great Horned Whale quietly.

When the Great Horned Whale stopped, it also stopped. When the Great Horned Whale moved, it also moved.

“Send someone to keep an eye on them. Don’t let anything happen to them,” Levi said and turned to leave.

After returning to the Emperor’s Palace.

Levi took out the Wind Thunder Meteorite Iron and examined it carefully.

“Now, knight divine weapons already have capes, armor, longswords, and shields... As endurance-type divine weapons, they are most compatible with my Wind and Thunder Surge Dharma Idol.

The Wind and Thunder Surge Dharma Idol operation required a large amount of Wind Thunder Power. The operating principle was also a magical version of wind power generation.

“Why don’t I just create a divine weapon resembling a windmill? No, it’s too ugly. It doesn’t match the handsome style of my knight... Wait, I think I can forge a wing-type divine weapon. I can rely on the flapping of my wings and the vibration of my feathers to continuously produce Wind Thunder Power and inject it into the Storm Dharma Idol, making my endurance invulnerable!”

Levi immediately started working on the forging of the divine weapon.

In addition, there was research on the sixth innate spell and the refinement of the Sea Clan's swordsman and corpse demon.

...

Time passed like a white steed passing through a crack.

Half a year passed in a flash.

Holy Brilliance Calendar Year 1162, Month of Winter.

Earth Realm, Midland Continent, Northern Plains.

The climate here was relatively cold. The snowy peaks were continuous, and the people were fearless.

In the small village, blood flowed like a river.

A muscular young man with dark skin was lying in front of his parents' bodies, crying bitterly.

Just yesterday, a wandering dark wizard came here and massacred an entire village to refine his Black Wizard Tool.

Such an innocent and wanton slaughter of mortals would be despised even among dark wizards.

After all, many dark wizards just didn't agree with the righteous wizards, but they also knew that mortals were the foundation of the wizard civilization and wouldn't easily slaughter mortals.

The young man went hunting in the mountains and avoided a calamity. When he returned, he discovered this tragedy.

"Despair?"

"Helpless?"

"Do you want revenge?"

"Do you desire strength?"

Vaguely, there seemed to be countless voices echoing in the young man's ears.

"Which Wizard Lord is this? Please accept me as your disciple. I'll do anything!" The young man shouted at the vast world.

A majestic figure wearing a black crow feather cloak slowly walked over in the snowstorm. Behind him, Dark Raven followed. Endless distorted shadows hid inside like a demon's den.

Beside him were a few strange-looking wizards in black robes.

"Lord, please accept me as your disciple!" The youth knelt on the ground and begged. His tears dripped onto his parents' cold corpses as he clenched his fists tightly.

"What is your name, my child?" The stalwart figure's face could not be seen clearly.

"My name is Reese Guest," he said.

"Child, I can sense a unique aura from you," the tall figure said kindly.

"I... I'm a descendant of the Snake King Guest family. I'm a knight. Unfortunately, I'm nothing in front of a wizard." The young man said bitterly.

Chapter 1133: Wind Thunder Wings, Sixth Talent, Level 10 Awakening, Eve of Prosperity! (2)

“Don’t belittle yourself. You have powerful potential. You’re an unpolished jade. I see that you’re extremely talented. You must be a genius who cultivates the path of a wizard. I have a powerful technique here. Are you willing to learn it?”

When the young man heard this, his heart skipped a beat and he gradually calmed down. He asked, “Father said that there’s no such thing as a pie falling from the sky. All the gifts given by fate have been secretly marked with a price. May I ask, Wizard Lord, what price do I have to pay?”

“You’re very smart. I admire you very much, but I don’t need you to pay any price. Just work hard to cultivate and become stronger!” he said.

The black-feathered figure stretched out his hand. A black feather shot out and shot into the youth’s forehead. He fell asleep.

When he opened his eyes, the men in black were long gone.

“The Nine-Headed Hell Snake Body Tempering Technique is both a meditation technique and an attack technique. It points to the Grand Wizard realm?”

Although the young man had never cultivated, he had heard about it from some wandering Wizard Lords in the tavern.

Great wizards were extremely high realms among wizards. They could be said to be experts who stood at the top of the world!

In the snowstorm, the young man's figure slowly disappeared.

In the clouds, that figure revealed its face. It was the Black Feather Demon King, Victor!

"Lord Victor, can this technique really be cultivated to the Grand Wizard realm?" A black-robed figure asked.

Victor said, "This technique and the Eight-Armed Demon God Body Tempering Technique, the Ten-Winged Heavenly Dragon Body Tempering Technique, and the Thousand-Eyed Titan Body Tempering Technique are known as the four great ancient body tempering techniques. They can all be cultivated to the peak of the eighth-circle. In theory, if one is talented, it's not impossible to reach the ninth-circle."

"I see."

"The Eight-Armed Demon God Body Tempering Technique imitates the Sea Clan, the Ten-Winged Heavenly Dragon Body Tempering Technique imitates the Dragon Clan, and the Thousand-Eyed Titan Body Tempering Technique imitates the Giants. Do you know which existence created this Nine-Headed Hell Snake Body Tempering Technique?"

The black-robed subordinate shook his head.

Victor smiled and said, "This was created by a certain existence in the Abyss. I spent so much effort to find fated people everywhere just to complete his mission."

The black-robed subordinate sighed.

“The technique created by the Abyss Lord became the body tempering technique of the Wizard World...”

Victor said, “That lord was a big shot in the Wizard World when he was alive. It was just that for the sake of greater power and a longer lifespan, he gave up the path of a wizard and turned to the Abyss... Let’s continue. A seed planted some time ago died. We have to spread the net.”

A nine-headed snake statue appeared in Victor’s hand. The nine heads of the statue pointed in different directions, guiding Victor to the place where the body-tempering genius was suitable to cultivate the Nine-Headed Hell Snake Body Tempering Technique.

The next direction was surprisingly in the south of Midland Continent.

...

Holy Brilliance Calendar Year 1163, Month of Beginning.

The 62nd round table meeting was successfully held.

The Flower Knight did not participate in this meeting. It seemed that he had not returned from the Land of Darkness.

After the meeting, Levi continued his cultivation project.

A month later.

In the Weapon Refinement room.

Levi exhaled a long, hot breath and wiped the sweat from his forehead.

The difficulty of forging a Sky Dragon divine weapon was higher than all the other divine weapons combined.

Over the past half a year, Levi had personally gone into battle. Apart from researching innate spells, he had forged a total of three thousand feather blades that were as thin as cicada wings. ㄹ

To increase the ductility and toughness of the Wind Thunder Meteorite Iron, Levi also added a large number of other rare metals and materials.

Now, in front of Levi, the floor was covered with blue-white metal feathers.

These were all made from the Wind Thunder Meteorite Iron that was the size of a human head.

Levi picked up one of the feathers. It was wrapped in sharp energy and terrifying electric currents. Then, he gently slashed the floor with his feather blade. The floor was cut open like tofu.

“Not bad. It can also be used as a hidden weapon. Next, it’s time to assemble it.”

The most difficult step, forging, had been completed, and assembling it was very easy.

After setting up the skeleton, these feather blades were embedded into it piece by piece.

In the blink of an eye, another month passed.

During the Month of Germinal, the Sky Dragon divine weapon was completely assembled.

On the floor of the Weapon Refinement room, a blue and white wing with a wingspan of about three meters spread out.

Levi cut his finger and injected blood into it, quickly submerging the wings.

With his current physique, this bit of blood loss was nothing.

The wings quickly absorbed the blood on the ground and shrunk into Levi's body.

Above the divine palace in the sky, the floating White Feather Dragon opened its eyes. Blue and white metal feather blades whistled over and condensed into a pair of blue and white wings beside it!

Levi left the Emperor's Palace and arrived in the sky.

With a thought, 3,000 feather blades flew out and spun around Levi.

"It does match the 3000 Fallen Feathers Special Effect of the Sky Dragon Breathing Technique."

Levi muttered to himself.

"Assemble!"

With his order, the feather blades made of 3,000 Wind Thunder Meteorite Iron instantly formed a pair of translucent steel wings!

Lightning flashed on the steel wings, and air currents surged.

Endless strength surged into Levi's body. Even without using the Sky Dragon Dharma Idol, Levi could feel that his endurance had increased by 10%!

The enhancement of a Level 1 divine weapon on basic attributes was 10%. After that, every level up would increase by 10%. After level 3, it would increase by 20%.

Chapter 1134: Wind Thunder Wings, Sixth Talent, Level 10 Awakening, Eve of Prosperity! (3)

Behind Levi, the Wind and Thunder Surge Dharma Idol appeared.

The blue and white wings gradually overlapped with the Dharma Idol. Traces of Wind Thunder Power continuously gathered into the White Feather Dragon phantom and turned into an endless source of power.

Levi's wings flapped rapidly. Air currents rubbed against each other, and lightning grew!

Lightning flashed as the Sky Dragon Dharma Idol became more and more condensed!

Even without the Lightning School of Thought's spells to recharge, Levi could still feel the vast and abundant power.

The divine weapon wings made of Wind Thunder Meteorite Iron were the best generators.

Moreover, as Levi's speed increased, the frequency of its wings' vibration increased, and the power it gathered increased!

"The Sky Dragon's Dharma Idol and divine weapon have formed an almost unsolvable endurance circulation system. Before the wind and thunder elemental power in the divine weapon is exhausted, it's equivalent to me having my own charger. If the wind thunder elemental power is exhausted, I can also rely on high-speed flight and battle to continuously generate electricity. Under such circumstances, although the energy input cannot compare to the energy I consume, it can still increase my endurance!"

A man had to be persistent!

Not only could the Sky Dragon divine weapon increase endurance, but it could also slightly increase Levi's speed, which was compounded with the Scarlet Cloak's speed bonus!

Moreover, these feather blades were extremely elastic. They looked thin, but their defense was very strong.

At critical moments, the feather blades could also cover Levi's entire body like a bird to protect him.

Lastly, Levi could also rely on his powerful spiritual force and blood qi to control these feather blades for a short distance.

He waved his hand.

The feather blades on his back all shot out. 3,000 attacks covered the sky and earth densely.

Relying on the Wind Thunder Power, the speed of these feather blades was extremely fast, comparable to the legendary... flying swords in his previous life!

“Gather!”

The 3,000 feather blades all soared into the sky.

In the process of falling, they fused and turned into a blue and white greatsword that was about 30 feet long!

Terrifying power of lightning spread across it.

Rumble!

When this sword struck the ground, the earth cracked, the soil and rocks were charred, and the trees burned.

On Caslot’s Eye, the value came back: 131 Cas!

“What powerful power. Although this is an endurance-type divine weapon, with its powerful quality and my control, the explosive power is actually not much inferior to the Fire Dragon Tribulation!”

Therefore, apart from increasing endurance, the Sky Dragon divine weapon could also attack and defend. It was truly heaven-defying!

All of this was thanks to Sorrett, the treasure delivery boy, for sending the top-grade Wind Thunder Meteorite Iron to his door!

Otherwise, it would take Levi ages to find such a suitable material for the Sky Dragon Breathing Technique.

In the end, Levi named this divine weapon:

Wind Thunder Wings!

Crimson Dragon Slash, Golden Dragon Heavenly Shield, Scarlet Shadow, Indestructible Armor, Wind Thunder Wings!

Among the six dimensions, other than perception, divine weapons of other dimensions had already appeared.

“The five gods are equipped. I’ll continue to jungle and continue to develop!”

Levi had already thought of a divine weapon for the Nightmare Dragon breathing technique.

That was the helmet!

As a knight, how could he not have a helmet?

On one hand, the helmet could protect the most important head. On the other hand, it was also a divine weapon that was most compatible with Perception! R A

Levi fantasized about his appearance after his six Gods were fully equipped.

He was wearing pitch-black armor and a helmet, holding a Crimson Flame Longsword, wearing blood-colored skin, carrying a golden round shield on his back, and riding Raja. This was the legendary Dragon Knight. Only such a look could match his current status!

After putting away his divine weapon, Levi realized that the Mind Flayer had sent him a message.

After reading it, he fell into deep thought.

“On the first day of year 1165, the three major factions besieged Heavenly Mountain! There are less than two years left. The Dark Ancient Tower should open in the middle of year 1165.”

He sent a message to the Mind Flayer and continued to spy and probe.

The Mind Flayer said that he had already become a medium-sized commander in this operation.

Furthermore, the Demon Wolf Castle Lord allowed the Mind Flayer to use its terrifying soul seizing ability to spy on the Church and wait for the decisive battle to open the barrier of Heavenly Mountain, allowing the three major factions to kill their way in!

“When the time comes, I can take a look and think of a way to scam the Duke of Blood Lake. Then, I can take the Van Helsing family’s inheritance from Heavenly Mountain. The rest has nothing to do with me.”

Levi could not help these foreign races attack Heavenly Mountain.

Although he was not on good terms with the Church, he was not a traitor.

At the very least, the mortals under the rule of the Church could still survive. However, under the rule of the werewolves, Blood Clan (members), devils, and blue frost, humans could only be reduced to food. Even if they lived, they would be pigs in a slaughterhouse, worse than the Church.

Levi did not want the scene in Black Wolf City to happen in the Peacock Kingdom.

No matter what, the Duke of Blood Lake had to die!

When he arrived at the spore cultivation laboratory, Levi realized that the spores planted some time ago had not germinated.

“I hope that when I return from the ancient tower, I will be able to harvest it.”

After leaving the laboratory, Levi patrolled the Ancient Saint plane.

In the Giant Beast Paradise, Leviathan followed the Great Horned Whale like a shadow. The Great Horned Whale ignored it.

Levi had no choice but to let nature take its course.

Raja and Night Fang’s relationship was progressing well. When Levi arrived, Raja was doing something indescribable to Night Fang.

Melina said that Raja and Night Fang had already mated many times.

Chapter 1135: Wind Thunder Wings, Sixth Talent, Level 10 Awakening, Eve of Prosperity! (4)

However, so far, no fruit of love was born.

She explained that if both sides were mixed-blood Dragon Clans, the chances of them giving birth to offspring were lower.

Two Dragon Clan bloodlines that were evenly matched but completely different could easily clash and offset each other.

This caused Night Fang to be unable to fertilize for a long time.

On the other hand, Leviathan and the Great Horned Whale could easily give birth to the next generation.

At the same time, this was also the reason why pure-blooded Dragon Clans were so rare.

The Dragon Clan was really a strange existence. For pure-blooded Dragon Clans, many of them could not find a second pure-blooded Dragon Clan of the same species from the moment they were born until they died of old age. However, it was not easy for other pure-blooded Dragon Clans to give birth to descendants.

This caused many pure-blooded dragons to have nowhere to vent their desire to reproduce.

As a result, there were all kinds of mixed-blood Dragon Clans and dragon descendants.

As time passed, the pure bloodline was constantly diluted.

Of course, this did not mean that Raja and Night Fang were infertile.

However, it was relatively difficult. As long as he tried more, there would always be hope.

Levi did not disturb Raja and his wife's business. He silently left Giant Beast Paradise and headed to the holy temple.

In the Combat Techniques Research Committee, new battle techniques were produced over the years. There were also a few level 2 battle techniques. They were all very good.

Levi put it away. He planned to create his own level 5 combat techniques through actual combat in the ancient tower. These combat techniques could be used as references.

On the other hand, the Talent Brand research team had also produced fruitful results.

There were already Level 1 Shield Brands and Battle Sword Brands that were popular among knights above Level 1.

Steel Dragon, Knight, Thousand Illusions, Divine Light, Dark Moon, Silver Dragon, Halberd, Blood Knight, eight official members joined the team to study the Talent Brand.

On the other side, the Midland Squad was also growing healthily.

After Levi sent another message to the Flower Knight, the Flower Knight responded.

In front of the Teatime Round Table, Levi and Hundred Flowers sat opposite each other.

“What’s the matter, commander?” Flower Knight smiled.

“Do you want to enter the Dark Ancient Tower?” Levi asked.

Flower Knight nodded. “I do want to enter, but I don’t have the key to the ancient tower. Why? Don’t you plan on entering? I remember Triss gave you the key.”

“To be honest, I still have a key here. I want to make a deal with you,” Levi said.

“What deal? Let’s hear it.”

Levi explained Sorrett’s plan to the Flower Knight.

All in all, Levi gave the key to Flower Knight, and Flower Knight was in charge of helping Sorrett obtain the Truth Oddity.

The Flower Knight's other gains in the dark ancient tower all belonged to her.

After thinking for a moment, the Flower Knight said, "Deal! I can't ask for more than to scam the Letney family!"

The Flower Knight had been bullied by the Molten Gold Wizard King. According to her personality, she would definitely want to take revenge.

However, the disparity in strength was too great, and he never had the chance.

And now, the opportunity had come!

"Then I'll leave the rest to you, Flower Knight. I've been on the Ancient Saint plane for the past two years. You can come and get the key from me anytime."

"No problem!"

After trading with Hundred Flowers, Levi was in a good mood. For a Morning Star-level Truth Oddity, it was worth it for him to give up an ancient tower key.

According to the previous rules, Morning Star-level oddities could only appear on the sixth level and above!

It was already not bad if a sky-level strange object could appear on the fifth level and below.

One price for doing this was that Levi needed to bring one less transcendent creature. However, this was not a big problem. The Dark Ancient Tower was a world on the first floor. With Levi's strength, it was not a big problem for him to go to the fifth floor.

There were a total of five worlds. He did not believe that he could not find the secret medicine to cultivate the breathing technique.

Month of Flowers.

The Flower Knight came to the Ancient Saint plane again. She came to the Emperor's Palace.

Levi was already waiting for her there. In her hand was a shining key to the Dark Ancient Tower.

"Happy working with you, commander!" Flower Knight smiled charmingly.

"Be careful. The Truth Oddity is only secondary. The most important thing is our lives. I don't want to lose every member... If possible, protect my wizard enslavement so that he doesn't die inside," Levi said.

“Don’t worry, commander, stop nagging... Oh right, you should be careful in the ancient tower too. If you need help, contact me as soon as possible. The ancient tower can only be up and not down. If I enter the higher levels, I won’t be able to help you.” Flower Knight kept the key and turned to leave.

Levi watched as the Flower Knight disappeared and returned to Emperor’s Palace to continue his seclusion.

...

Time was like an arrow, and the sun and moon were like shuttles.

A year passed quickly.

In the Land of Darkness.

There was an c-like plane.

The crystal wall of the plane emitted a strange purple color, which was especially eye-catching in the dark land.

The sky here was light purple.

In the middle of the plane, there was a huge purple mountain.

On it stood a holy temple that was tens of thousands of feet tall.

In the square in front of the holy temple stood a amethyst statue as tall as the holy temple.

Under the statue, purple figures were standing upright.

The Amethyst Plane was different from Nora.

Here, there was only an absolute centralized military empire!

The Amethyst Empire!

The ruler of the empire was the Amethyst Saint who had lived for 100,000 years!

He was both an emperor and a god in the eyes of the Amethyst Race!

This group of Amethyst Race were generally more than three meters tall. Some were even more than ten meters tall.

Chapter 1136: Wind Thunder Wings, Sixth Talent, Level 10 Awakening, Eve of Prosperity! (5)

They were a humanoid race, and their amethyst skin shone brightly. The Amethyst Race did not differentiate between men and women, so their appearances were neutral.

More than a hundred Amethyst People were standing here. The weakest was at the peak of level 4.

The strongest were the five hundred-meter-tall Amethyst People. Each of them had an aura comparable to a primordial soul wizard!

In the Amethyst Empire, all existences above rank 6 were generals of the empire: Major General, Lieutenant General, General, and Marshal.

There was only one person above the Marshal, Amethyst Saint!

This was an empire where everyone was a soldier. Other than having fewer people, there were no other shortcomings.

The average strength of each race was one of the best in the entire Sauron Plane!

Amethyst Mountain was the empire's sacred mountain. The holy temple on the mountain was the residence of the empire's ruler!

Everyone stood there as if they were in military training, waiting for the arrival of that existence. They remained silent!

Suddenly, the temple door that was thousands of feet tall slowly opened.

From among them, a purple giant with his hands behind his back and a naked upper body slowly walked out.

His body was covered in wounds, and every scar revealed the traces of thousands of years.

The remnants of legendary spells and the divine power of the gods were still lingering on some of the scars!

These scars were Amethyst Saint's medals, proof of his invincibility!

"By the saint!"

"By the saint!"

One figure after another knelt on the ground and worshipped the saint!

The saint looked at the young figures below. His ancient eyes swept across everyone.

“My children, you will go to the Ten Realms Ancient Tower in a year. That is the paradise of the strong, the battlefield of the myriad races. You must remember that you are from the Amethyst Race! You have this saint backing you up!

“Therefore, use your iron fists to smash every enemy who dares to challenge our authority, especially those wizards. Before the empire was established, we were enslaved by wizards for more than a hundred thousand years. Now, it’s time to counterattack. Let those weak bodies of flesh and blood see what true invincibility is! Kill, kill, kill!”

Amethyst Saint’s voice was like thunder, shattering the purple clouds within a radius of 5,000 kilometers!

“Kill!”

“Kill!”

One Amethyst Warrior after another roared as though they were on steroids!

...

Half a year later.

In another place in the Land of Darkness.

The lifeless Tomb Plane.

The ground here was filled with ancient battlefields and piles of bones.

Suddenly, a huge bronze dragon claw tore through the Earth and extended from it.

Accompanied by the terrifying roar of the giant dragon, the earth within a radius of 5,000 kilometers split apart, and the earth's crust began to shift.

Nine dragons of different shapes and sizes rose from the ground and spread their wings to fly high.

Some of them looked like snakes, some looked like wolves, and some looked like giant birds... Most of them looked like classic giant dragons. When they were alive, they were all pure-blooded Dragon Clan members!

Their entire bodies were covered in bronze armor that emitted mottled traces of time rust. Chains were wrapped around their bodies.

The nine chains straightened and pulled a huge golden Chariot that was like a mountain behind them.

In the Chariot, there was a golden-haired figure wearing a black imperial robe. Although his eyes were closed, he exuded a powerful kingly aura.

What kind of person could make nine pure-blooded Dragon Clan members pull a carriage for him?

As the Earth split apart, underground palaces rose from the ground and ancient coffins appeared. Figures in bronze armor opened their eyes from their long slumber. They sensed the aura of an emperor!

The blond king on the Chariot was the ruler of the Tomb Dimension!

The Nine Dragons Emperor, Saint Keith!

A level 10 existence that had been sleeping in the depths of the Tomb Plane for a long time!

“The emperor has ordered that all summoners of the ancient tower must gather at the Nine Dragons Emperor Palace to meet the emperor!”

The herald's sharp voice spread throughout the Tomb Plane, awakening the sleeping Ancient Tomb clansmen!

...

Holy Brilliance Calendar Year 1164, Month of Winter.

Dragon Abomination Plane.

In the sky, a ferocious, twisted, and crazy black dragon opened its eyes.

On the ground below, evil black scale figures that looked like dragon descendants knelt.

They were Dragon Abominations. Just like the God Abominations that were born from the gods, the gods abandoned ghosts and hated them. They were not tolerated by the heavens and earth!

They were even despised by the pure-blooded Dragon Clan that gave birth to them. Once they were discovered, they would be killed immediately!

It was said that the Dragon Abominations was an extremely unstable mutated individual born after the Dragon Clan mated with a powerful foreign race.

They were stronger than dragon descendants, crazier, and bloodthirsty!

They were extremely destructive, bringing calamity, despair, and dusk.

The huge black dragon in the sky was the guardian of all the Dragon Abominations, the Patronus.

Dragon Abomination Venerable Otharus!

He also has several titles:

The Father of Dragon Abomination, the Black Dragon Destroyer, the Star Devouring Dragon, the Extreme Evil Dragon...

Its notoriety resounded throughout the plane!

There were too many powerful warriors who tried to suppress it, but they only made it stronger and stronger!

It hated the Dragon Clan. Since ancient times, the number of pure-blooded Dragon Clan members that had been devoured by it could not be counted with two hands.

As time passed, there were fewer and fewer giant dragons in the Sauron Plane, and this was the main culprit!

Even a Legendary Wizard would not provoke this Dragon Abomination for no reason!

On the ground, the Dragon Abominations crawled under the black dragon's wings.

“Go and spread my glory. Go and tear apart the dragon descendants and the Dragon Clan! Devour their noble bloodlines, suck their delicious bone marrow, and trample on their so-called dignity! Let the reputation of Otharus spread to the ears of those arrogant Dragon Clan and dragon descendants. Tell them that the end of the Dragon Clan is my doing!”

Chapter 1137: Wind Thunder Wings, Sixth Talent, Level 10 Awakening, Eve of Prosperity! (6)

...

Deep in space.

There was a spherical plane that looked like a red giant star.

On its surface was a high-temperature airflow that could instantly melt steel, as well as flames and magma.

The entire plane was filled with rich heavenly fire element and Earth Fire Elemental Power. However, even the wizards of the Burning School of Thought did not want to, much less dare to, cultivate here.

There was no normal land, sky, or water here. There were no resources for other wizards to survive. There was only fire and... another form of life.

Fire Elemental Spirit!

This was a country formed by fire elements.

Giant Whale, long snake, phoenix, turtle, insects, humanoid creatures... All kinds of Fire Elemental Spirits lived here comfortably.

It was at the core of the Red Plane, the hottest place in the plane!

A red-haired giant clad in red armor was sleeping soundly. His thunderous snores reverberated throughout the plane.

As if sensing something, he woke up from his deep sleep and sat alone in the center of the earth. Suddenly, he smiled, as happy as a big child who had lived for nearly a million years.

“The ancient tower is about to open. Oh ho ho, we can watch the show again!”

He danced with his hands and feet, and the earth trembled. Even the Red Plane seemed to be shaking because of this. The fire particle storm kept pouring into the Land of Darkness.

“It’s a pity... Sauron, who watched the show together, is no longer around. The young people around us are not as interesting as Sauron. Hmph!”

His memory returned to a long, long time ago:

A mature, steady, confident, and handsome White Robe Wizard dragged a huge black snake that seemed to contain Earth, Fire, Wind, and Water and encompassed the Greater World to the Red Plane, waking him up from his slumber.

“Why did you wake me up? I’m the Master of the Fire Element, the Fire God beneath the Astral World, the Son of the Sun God, and the Fire Sovereign, Gryus! Little bug, tell me your name!”

“Uh, Sir Gryus, hello. I’m Sauron, an unknown wizard. I want to ask you to help me refine a treasure.”

As the great Fire Sovereign, even the gods had to give him some face! How could Gryus work for others casually!

A great battle broke out.

After a not-so-intense battle.

“Tell me, what should I do?”

“It’s very simple. Use your extreme flames to burn this snake and melt it into the shape of a ten-story ancient tower. I’ll do the rest myself.”

“Sure, but let me be clear. I’m willing to help others, not forced to do so. I was careless in that battle just now.”

“Thank you for your kindness. You have obtained Sauron’s friendship.”

“Hmph!”

He thought that it would be a piece of cake, but it took him ten thousand years.

That giant snake had an extremely rare and powerful Chaos God’s Authority. Even though it was only a small portion, it was far from being comparable to the portion owned by the Lord of Chaos. ¶

However, it still made the giant snake invulnerable to fire and water after its death!

Gryus could not imagine how Sauron had killed such a powerful creature that even a god would find difficult to deal with!

I, Gryus, have only slept for a short while, but humans have already become so powerful?

Ten thousand years later.

The embryonic form of the ancient tower was completed, and Sauron arrived as scheduled.

“Thank you, Sir Gryus. I won’t forget your help.”

The moment the ancient tower was built, another majestic wonder appeared in the Land of Darkness!

Some people called it the tenth miracle of the Land of Darkness!

When the ancient tower opened for the first time, Gryus and Sauron watched the show together. They guessed who was more likely to obtain some kind of treasure on a certain level.

However, from the second time onwards, he never saw Sauron again.

He thought that Sauron was probably dead.

Soran always lamented that there was not enough time and that life was too short. Even his realm was just a fleeting meteor in the vast Multidimensional Plane.

A human's tiny head sure thinks a lot.

His thoughts returned to the present.

Gryus stood up and strode out of the Red Plane. Every step he took could cross a distance that mortals would never be able to cross in their entire lives.

After an unknown period of time, he saw the familiar ancient tower. He could not remember how many times he had watched the show alone.

It seemed that among the level 10 existences in the surroundings, only he would be so bored.

He looked at the dark ancient tower that was no longer moving, and Nora plane in the distance. That was Sauron's hometown.

He rested his chin on his hands and sat in the void. A huge volcano appeared under his butt.

He stared at the walls of the ancient tower like a village child waiting for a movie to be shown in the village. He was lonely and expectant.

...

Central Realm.

At the congress headquarters.

In the general plane observation department.

There was a huge ball about a thousand feet in diameter.

This was the Legendary Wizard Tool, Eye of Sauron!

Many noble and powerful wizards were watching from the side.

“The ruler of the Red Plane is here again. He’s really free. It’s good to live for a long time... Should I report this to the Grand Council Chairman?”

“There’s no need. He comes every year. He’s just an observer. There’s no danger in not provoking him.”

...

In the human world.

The Ancient Saint plane.

Time passed quickly, and a new year arrived.

Holy Brilliance Calendar Year 1165, Month of Beginning.

It was also the first year of the Dark Ancient Tower’s opening.

The ancient tower was no longer moving. It floated quietly in the Land of Darkness, waiting for the fated person to enter.

That year, Levi turned 175.

In his mind.

The fourth level of the Divine Ring Tower rotated slowly, and the spiritual power stars inside had already spread throughout the heavenly cycle, reaching 360!

Although this spiritual force level was still 140 points away from the universal fourth-circle maximum of 500 points, 360 points were already considered late-stage wizards among the fourth-circle.

In addition, on the Divine Ring Tower, another Frost Divine Dragon that emitted a sharp cold aura appeared.

The Divine Dragon was lifelike and beautiful. If one looked carefully, they would see that it was formed by countless spell runes and nodes.

This was Levi's sixth innate spell:

Ice Dragon Prison!

Ice Dragon Prison was a rather special domain spell.

Its inspiration came from the Coral Witch's innate spell, the Rainbow Barrier.

After casting the spell, an ice domain with a radius of one mile was formed with Levi as the center.

Within the range of the domain, the enemy would suffer from extremely terrifying low temperature domains. Their movements and even their spiritual force would stagnate. Even the operation of spell power would be affected to varying degrees according to their realm.

Levi, on the other hand, would be in an extremely good state. He would always be awake, rational, and calm. He would not be shocked even if the sky collapsed!

Not only that, but the Ice Dragon Prison could also generate attack spells and defensive spells from the School of Ice, but their power was average. Their main function was to increase the negative status of the enemy and stack buffs on themselves!

This was also the most complicated and high-level spell Levi had researched so far! Domain-type spells were extremely difficult to master, and there were very few people who could master them!

If used properly, it would become Levi's ultimate weapon when he entered the Dark Ancient Tower!

Levi arrived outside the Emperor's Palace and looked at the sky.

A huge Dark Ancient Tower phantom was traversing it.

The key in his body was buzzing and shaking, reminding him that a super event across the Multidimensional Plane was about to begin!

“There’s one more thing.”

Levi did not have the time to attend the meeting. He left the Ancient Saint plane and entered the Scarlet Dark Dimension, flying towards the Peacock Capital.

The battle of Heavenly Mountain had begun!

Chapter 1138: Heaven Descends, Two Grand Seals, Ancient Tower Opens! (1)

The Ancient Saint plane.

Emperor Square.

The Ancient Saints of the Senior State Assembly looked at the Dark Ancient Tower in the sky.

“Miracle... This is a miracle! It must be the emperor’s mighty power that summoned this divine tower!”

“This is too shocking!”

At this moment, the Dark Ancient Tower in the sky could be seen from the southern sea, the western desert, the Intis Mountain Range, and everywhere in the Ancient Dragon Empire.

Giant Beast Paradise.

Melina looked up at the sky excitedly.

“The Dark Ancient Tower has descended. Sir Levi should be able to enter, right?”

Dusk Holy Temple.

The knights who were training could not help but stop.

“What is this?”

“I don’t know. It should be the work of a wizard. However, the supreme knight said that if we see the ten-story ancient tower in the sky in the future, don’t panic. We just have to continue training!”

At this moment.

Outside the Ancient Saint plane.

In the human world, the Wizard World, and even the Sauron Plane, one could see the huge black tower traversing the starry sky.

...

Peacock Kingdom.

In the sky of the capital, strong winds blew and dark clouds covered the sky.

The Dark Ancient Tower stood there. Mortals looked up at the sky from the streets. They were confused, frightened, and curious!

A strange frost began to fall from the sky.

In Shining Tavern, the wandering knight stretched out his hands. His expression changed slightly as he muttered to himself, "This isn't snow... This is blue frost."

When the blue frost descended, there would definitely be a calamity!

"It's going to change."

An old knight who had been fighting with blue frost all year round sighed with a solemn expression.

Peacock Capital.

The king looked at the snow outside the palace and said anxiously, "Quickly bring me to see the head priest."

Not long after, the king came to the Holy Brilliance Church that had stood for a thousand years.

The door was tightly shut. Not long after, the head priest's indifferent voice sounded. "It's just some evil forces trying to take the opportunity to cause trouble. Just be at ease and be your king. With Lord saint guarding the capital, what are you worried about?"

"But..." The king wanted to say something but hesitated. Then, he sighed and silently retreated.

In the church.

Heavenly Mountain's barrier.

At the peak of the saint mountain that towered into the clouds, a man and a woman saint stood in the temple.

Saint Teresa and Saint Ye Lin were the spokespersons of the Holy Mother and the Father.

“Do you have the Drum of Earth?” Ye Lin asked.

“Yes, I did. Let’s take this opportunity to end it. It can also intimidate some rats who are secretly watching,” said Triss.

“I’ve been silent for too long. These guys have underestimated me.” Ye Lin smiled slightly and stood with his hands behind his back confidently.

Around Heavenly Mountain were saints and saints who were like heavenly troops. They formed a phalanx to protect Heavenly Mountain.

In the suburbs of the capital.

In a valley a hundred miles away, a blood-colored wound appeared in the sky.

A bald wizard in a black flame robe appeared.

“I didn’t expect to come a little early. The battle hasn’t started yet.”

The bald wizard was Levi. After setting up the array to watch the show, he sat on the ground with a relaxed expression.

“The last time I watched a show like this was 130 years ago. At that time, although I was also a figure in the human world, I was still a younger brother in front of the Church. I only dared to watch the show and didn’t dare to attack. It was a pity.”

And this time, Levi was ready.

Not only did he want to watch the show, but he also wanted to take advantage of the situation!

“However, after a hundred years, the strength of the saints will generally be at level five. Coupled with the Sealing Sacred Objects, they will be comparable to level five seniors or even Perfection.

It was said that Groudon, the first saint, had most likely become a level six divine servant.

It had to be said that the growth speed of this transcendent path that relied on gods to obtain power was really terrifying.

Unfortunately, such power came from the gods, who could take it away at any time.

Even if he became a level nine angel, he would only be a puppet beside a god. What was the point of going to jail in a divine kingdom?

For most mortals, the path of wizards and the path of knights was the right path.

“The path of the Energy Sect might work too. Unfortunately, [Heart] and [Qi] are too illusory.”

The path of the Energy Sect was closer to the immortal Dao culture of Levi’s previous life. When cultivated, it was very elegant and otherworldly.

As Levi was lost in his thoughts, he suddenly felt three terrifying auras coming from three directions.

“Here we go.”

His Hermit Rune flashed. His spiritual force was now as high as 360 points.

In theory, unless one deliberately investigated, ordinary Fifth-Circle Wizards below the primordial soul would not be able to discover Levi’s existence.

On the east side of the capital, dozens of black smoke billowed over. The leading black smoke gradually condensed into a ferocious and terrifying pig-headed devil. It was the Duke of Blood Lake.

“Hehehe.”

Dozens of strange laughter resounded in the sky.

This was the devils’ signature laughter, evil and savage.

In the north of the capital, a huge blue door of light suddenly formed, and two Frost Bone Dragons with wingspans of 100 meters appeared.

On the bone dragon’s head, a proud silver-haired swordswoman stood upright.

Blue Frost Spell Caster, Blue Frost Knight, Blue Frost Bone Beast... Tens of thousands of Blue Frost Undead swarmed out and descended from the sky!

The duke said with a smile.

“We’re only missing that old wolf. We’re already here, so why isn’t there any reaction from the Church? It looks like they already know our plan. They might be thinking of a way to ambush us. It doesn’t matter. Our strength will crush them. Any schemes are useless!”

As soon as he finished speaking.

The Earth trembled as huge black wolves ran out of the forest and sped over, stirring up dust.

Among them were some other dark creatures, dark wizards, Blood Clan, ghouls, and other foreign races.

Chapter 1139: Heaven Descends, Two Grand Seals, Ancient Tower Opens! (2)

The sky suddenly turned black, and a pitch-black demon wolf the size of a small mountain landed in the sky above the capital.

“Gentlemen, it seems that the Church has long known of our plan. Now that the arrow is on the bowstring, we have no choice but to release it. We will use our own methods to flatten Heavenly Mountain!” Demon Wolf transformed into the appearance of an old noble and said with a steady aura.

“That’s right. With such a large-scale movement, the other party will definitely discover it. They must be hiding in Heavenly Mountain and don’t dare to come out. As for these mortals, they have already been abandoned. This is the Church... They were dignified in the peaceful era and cowards in the chaotic era!” The Duke of Blood Lake was extremely disdainful.

“In that case, let’s use the million living beings in the capital to perform the Blood Sacrifice!”

The three parties immediately charged towards the unarmed mortals.

Levi hid in the valley and remained silent.

“Is the Church really going to give up the people of a city? Give up this country? The foundation of the Heavenly Father’s faith in Nora plane is gone... Nora is a large plane. This place of faith shouldn’t be abandoned, right?”

It was impossible for him to make a move. Firstly, it had nothing to do with him. Secondly, he was powerless.

The capital was filled with sorrow.

A werewolf noble came to the Shining Tavern, grabbed a knight, and put him into his mouth.

In the palace, the king looked at the Frost Bone Dragon circling in the sky and trembled.

“It’s over... It’s over. We’ve been abandoned by the gods. Hurry up and invite Lord Divine Light Knight. She’s a legendary knight. Only she can save us now.”

“My king, the Divine Light Knights have disappeared for many years...”

“What should I do? What should I do?”

At this moment, in Heavenly Mountain.

Teresa asked, “It’s about time. Can we take action now?”

“Yes, let’s give these idiots the illusion that we don’t dare to fight and abandon the mortals. When they all enter the range of Descent of Heaven, we’ll catch them all in one fell swoop,” Ye Lin said with a smile.

“That’s true. Fishing always requires some bait. The sacrifice of these mortals in exchange for the peace of billions of people is worth it. Heaven is waiting for them.” Teresa’s gaze was pious.

“Let’s begin. Take out the Earth Drum,” Ye Lin said.

He suddenly came to the sky above Heavenly Mountain. The Saint Power was like the radiance of the sun, continuously surging into Heavenly Mountain below.

Rumble!

The entire Heavenly Mountain began to tremble and expand!

Heavenly Mountain was essentially a Sealing Sacred Object!

This Sealing Sacred Object was incomparably powerful. Even the fifth-grade Saint Ye Lin could not mobilize it alone.

That was why he needed to invite Teresa over and use the Earth Drum of the Church of Earth to assist in the activation of the Heavenly Mountain!

“Teresa!”

Ye Lin said loudly.

Teresa nodded. The seal Earth Drum floated in midair.

Teresa’s saint power turned into a drumstick and kept hitting the drum.

Thud!

Thud!

Thud!

Like the beating of a heart, rhythmic drumbeats resounded throughout Heavenly Mountain!

Buzz!

A white halo spread out from Heavenly Mountain, and ripples spread in all directions.

With the sound of a mirror shattering, the sky above the capital began to shatter... A thousand-foot-long sacred mountain appeared out of nowhere. Wisps of holy light enveloped the capital, sealing off everything within a hundred miles.

Levi looked at the Holy Light Barrier in front of him and heaved a sigh of relief.

“I was so close. I was also enveloped. What level of Sealing Sacred Object is this? It’s too terrifying. I’m afraid only a Soul Artifact can have such power,” he muttered to himself.

In order to wipe out these three evil forces in one fell swoop, the Church could be said to be serious.

Levi silently moved five kilometers away from the Sacred Radiance Barrier to prevent it from expanding and enveloping him.

The expressions of the three Level 5 experts changed drastically.

“He actually used Heavenly Mountain? Is he crazy? It’s said that every time Heavenly Mountain is activated, it consumes the souls of a million believers. The Church has completely abandoned the mortals in the capital. In terms of evil, I’m ashamed of my inferiority!” Demon Wolf Castle Lord shouted.

“Quick, end the battle quickly and kill the adulterous couple at the top of Heaven Mountain!” the Duke of Blood Lake said sternly.

The two bone dragons of the Blue Frost Lord’s daughter had already charged towards the saint!

In the Peacock King City.

Men, women, young, old, in all walks of life, civilians, nobles, knights... even the Peacock royal family. Millions of people were bathed in the holy light.

“Honey, come and see heaven.”

“Wow, it’s Holy Light. It’s so warm. Holy Light is sheltering us. I knew that the gods wouldn’t abandon us.”

“Light will eventually defeat Darkness. This is an unchanging truth!”

“Do you see that? Those dark creatures are afraid, fleeing, and melting because this is... paradise!”

Tears streamed down the king’s face as he watched all of this.

“We’re saved. We’re saved. Our people are saved. Just like before, the saints descended and annihilated the demons!”

The moment Heavenly Mountain’s enchantment shattered, the Mind Flayer that possessed a head priest were dumbfounded.

“Wait, I haven’t opened the door yet?”

He quickly left the Church and hid in the crowd.

He saw countless mortals smiling in the holy light. They prayed sincerely and sang!

Then, souls emerged from the bodies of these mortals.

In the blink of an eye, tens of thousands of souls entered the Heavenly Mountain. Corpses fell silently and turned into light spots that surged into the Heavenly Mountain.

The souls and flesh of these mortals were not wasted at all and turned into firewood!

Chapter 1140: Heaven Descends, Two Grand Seals, Ancient Tower Opens! (3)

“A bunch of lunatics.”

The sealing power coming from Heavenly Mountain was increasing continuously. He hurriedly flew towards the edge, his speed becoming slower and slower, as if he was carrying a huge mountain!

His desire to live made him move forward with all his might until he could no longer run. He was still several miles away from the sealing barrier.

“Aye.”

He sighed. He knew that he was about to die. He was unwilling and helpless.

Suddenly, a burly figure appeared outside the barrier. The blood-colored dragon phantom appeared behind him!

The blood-colored dragon’s dragon claw stabbed into the light barrier and suddenly exerted force, tearing a hole.

At the same time, the dark blue arm suddenly elongated, pulled up the Mind Flayer, and quickly retreated.

Outside the barrier, the Mind Flayer looked at the black-robed wizard and said gratefully, “Thank you, Master!”

“It’s fine. Go into Alice’s ring and stay there,” Levi said calmly.

The Mind Flayer was very useful. He would not abandon him so easily.

The Mind Flayer was overjoyed. The ring was his shelter.

“I have to say that this Scarlet Dragon Dharma Idol is too strong. With it, although this barrier sealing ability has an effect on me, it’s not fatal. I should be able to retrieve the treasure later.”

Looking at the mortals dying one after another, Levi shook his head and sighed alone.

“So this is heaven.”

On the other side.

Naturally, the three level 5 experts would not sit and wait for death. They had the advantage in numbers and had their own trump cards.

Demon Wolf Castle Lord had already turned into a ten-story-tall black wolf. He opened his bloody mouth and did not attack Heavenly Mountain. Instead, he aimed at the mortals who were constantly dying.

“Quick, kill these people and send them to Hell. Otherwise, their souls will be taken away by Heavenly Mountain. Heavenly Mountain will become stronger and stronger until we are suppressed here and completely crushed!” Demon Wolf Castle Lord said hurriedly.

The bone dragon circled around, and the Frost Dragon Flames swept towards the mortals.

The duke of Hell even used his big hands to stuff a bunch of mortals into his stomach like catching ants.

They either killed or ate humans. This was... a foreign race!

“All saints and holy knights, kill the dark creatures quickly! Teresa, attack with all your might. The Heavenly Mountain has been activated. It can operate on its own now,” Ye Lin said calmly.

Teresa nodded.

The two saints leaped down, emitting waves of divine might as they fought with the three powerful beings of the alien races again.

The battle here was so intense that no one paid attention to Levi, who was watching the show on the other side.

He took this opportunity to carefully observe the methods and strength of the various factions.

“Saints are strong in all aspects and the Sealing Sacred Objects. That old werewolf has an unparalleled physique and can fight head-on with the Sealing Sacred Objects. The Blue Frost Lord’s daughter and the Devil Duke are average.”

After looking around, Levi was afraid of only the saint and the old werewolf.

Rumble!

At the foot of Heaven Mountain, the battle continued for a long time.

Relying on the suppression of Heaven Mountain, the two saints gradually gained the upper hand.

Tens of thousands of Blue Frost Undead were completely annihilated. In addition, werewolves, Blood Clan, devils, and countless dark creatures died.

Of course, the army of saints and knights of the church also suffered heavy casualties and were not much better.

The key to this battle lay in the Level 5 experts!

Currently, the Level 5 experts were engaged in a fierce battle.

Levi could already see the trembling temple on Paradise Mountain.

There were treasures shrouded in light in the temple.

“It’s about time. We can move.”

Levi took a deep breath and the Hermit (Rune Language) rune flashed. Just as he was about to take action, he sharply noticed a shadow quickly passing through the void above Heavenly Mountain.

“Is that someone else?”

His heart skipped a beat, but he did not act rashly. It seemed that he was not the only one secretly paying attention to the battle at Heavenly Mountain.

As expected, Saint Ye Lin’s roar came from Heavenly Mountain in the next moment. “Wood, you are courting death!”

“Ye Lin, I’m just here to retrieve the sacred relic that should have belonged to our Bird of Death’s Voice! Hahahaha, to think that you would have such a day!”

A sharp laughter resounded through the battlefield. A level five expert in black leather armor, mask, and hood, who looked like an assassin, appeared from the Shadow Dimension.

The dagger in his hand that emitted a dim light easily tore open a portion of the cover of the sealed treasure and reached out to take it.

Teresa, who was fighting the old werewolf, felt a chill in her heart.

Shadowhand Wood.

He was the spokesperson of the Shadow Lord, a Level 5 expert who had risen up all these years.

He was elusive and was good at assassination, stealth, disguise, and a myriad of changes. He was elusive and impossible to guard against!

Shadowhand was about to leave after picking up the items.

However, he discovered that a scarlet crack had appeared in the void opposite the temple. A black-robed wizard appeared from it with a strange laugh.

With a casual strike, a Crimson Fire Divine Dragon swept over, shattering a cover and taking out a scroll. Then, he glanced around and took out some other treasures.

Wood and the bald wizard looked at each other and smiled. They tacitly did not disturb each other.

After all, both parties needed different things. There was no competition.

Levi did not need those Sealing Sacred Objects. He could not use them even if he brought them over. He might even be targeted by the gods.

He took out a scroll with the words "Van Helsing" written on it, as well as some precious materials or knowledge from the Church.

Then, the bald wizard glanced at Wood and disappeared with a strange smile.

Wood was a little afraid. "With my stealth and perception as a Shadowhand, I actually didn't sense that person's existence. His stealth ability is even higher than mine... There are indeed hidden dragons and crouching tigers in the human world. It seems that wizards will gradually return to the human world. It will be even harder to survive then."
