Chapter 1141: Heaven Descends, Two Grand Seals, Ancient Tower Opens! (4)

“You’re courting death!”

Ye Lin watched as the two thieves infiltrated Heavenly Mountain and snatched away many treasures, but he was helpless.

“Goodbye, Ye Lin!”

Wood waved his hand, and a black light shot out towards the back of Ye Lin’s head!

Then, he left the place without looking back.

On Ye Lin’s body, white light shone brightly. The black light seemed to have entered a quagmire and was finally stopped by him.

It was a small black sword that was tainted with poison!

On the other side, Levi, who had obtained the treasure, had already left the range of Heavenly Mountain.

At this moment, something unexpected happened.

The Soul Fire of a level 5 Frost Bone Dragon under the Blue Frost Daughter began to tremble, and terrifying energy fluctuations leaked out.

Boom!

Accompanied by the explosion of bone fragments that filled the sky, the Frost Bone Dragon self-destructed with a wail!

Taking this opportunity, the Blue Frost Lord's daughter broke through the saint's seal. She quickly left the range of Heavenly Mountain, then opened the door of light and fled with the only Frost Bone Dragon.

"Damn it, I'll go first too!"

At this moment, half of the duke's body was gone. His intestines flowed out, and the holy light kept burning his body. He was already an arrow at the end of its flight.

Borrowing the power of the bone dragon's self-destruction, he quickly retreated. The devil earls were left behind and became cannon fodder.

Although Demon Wolf Castle Lord was unwilling, he knew that the situation was unforgiving. He could only retreat.

Unfortunately, it was too late.

The two saints used all their strength to stop the strongest old werewolf for a moment.

Heavenly Mountain had already reached its strongest state and was starting to fall!

The powerful pressure forced the indomitable Demon Wolf to lower its proud head and kneel on the ground.

In the next moment, the huge mountain descended. Demon Wolf Castle Lord and the capital that had already lost its vitality were completely reduced to dust. Flesh and blood flew everywhere.

“Teresa, please go after the Duke of Blood Lake. I’ll deal with the aftermath,” Ye Lin said coldly.

“Understood.” Teresa turned into a stream of light and chased after the Duke of Blood Lake.

Ye Lin looked at the disappearing Peacock City with a calm expression.

Killing a level 5 spokesperson of an evil god with the power of a city wasn’t a loss.

It had to be known that nurturing a fifth-grade spokesperson in the Prime Material plane would take one to two hundred years, and the price was not small.

To the Calamity Demon Wolf, in the following era of the Dark Wave Revival, "He" had already lost the qualifications to advance.

When the new spokesperson grew up, these veterans would already be divine servants.

"The Blue Frost Lord's daughter only has one bone dragon left. The Blue Frost Army has been completely wiped out, so they won't come to cause trouble for a while. As for the spokesperson of the Shadow Lord, Wood, he's just a thieving person in any era. He won't affect the overall situation of the world."

As for the dark wizard, Ye Lin only treated him as a follower of the demon wolf. It was not a big deal.

What they had snatched away was also unimportant to the Church.

This was because the real good stuff would not appear in the temple. Instead, it would be sealed inside the sacred object, Heavenly Mountain!

Ye Lin waved his holy sword, and devil ears withered under his sword, including Earl Sarlin, who had come to the human world to find his wife.

On the other side, the heavily injured Duke of Blood Lake fled all the way and soon arrived at the outer sea region.

Behind him, Saint Teresa followed from afar. With every tremor of the Earth Drum, the Duke of Blood Lake would become weaker.

Suddenly, in the void in front of the Duke of Blood Lake, snake-shaped runes flashed, and a Gray-Robed Wizard appeared. He held a ball of secret technique in his hand and had long finished chanting. He found the right time and released his spell!

Boom!

A red sun suddenly descended!

In his panic, the duke plunged into the depths of the explosion.

Accompanied by a terrifying wail, the Duke of Blood Lake, who was already at his wits' end, quickly weakened and turned into ashes in the flames.

"I didn't expect to meet a devil on the way. Evil demon, death is not worth pitying!"

The Gray-Robed Wizard put away the corpse of the Duke of Blood Lake and quickly disappeared from the surface of the sea without even looking at Teresa.

Seeing that the Devil Duke was already dead, Teresa did not pursue him.

This wizard seemed to have passed by coincidentally and wanted to eliminate evil for the people.

She felt a sense of danger from the other party. If she attacked rashly, it would not be worth it.

She turned around and left. In this battle, she had killed two level 5 powerhouses, dozens of devil lords, and tens of thousands of undead and dark creatures. It should be considered a great victory.

As for mortals, as long as they ensured their basic survival needs, they could be like chives, endless and inexhaustible.

When they returned to the ruins of the capital, Saint Ye Lin had already ended the battle. Heavenly Mountain had also returned to its original state, turning into a mini mountain and appearing in his hand.

“Is the Duke of Blood Lake dead?” Ye Lin asked.

“Yes, he’s dead. What do you plan to do next? I mean how to answer to the other citizens.”

“Give them holy water and make them forget about this city and their families. Make them start all over again...”

...

The Ancient Saint plane.

Emperor’s Palace.

Levi took out the spoils of war.

“In this operation, when I was at Heavenly Mountain, I disguised myself as a fourth-circle dark wizard beside the demon wolf. When I was hunting the Duke of Blood Lake, I was a righteous wizard who happened to pass by. I shouldn’t be discovered. I’m about to enter the ancient tower, so it’s better to avoid trouble.”

He first took out the corpse of the Duke of Blood Lake.

“This isn’t a devil’s body... Looks like it’s some kind of corpse puppet refined from a giant’s corpse. I was happy for nothing.”

Chapter 1142: Heaven Descends, Two Grand Seals, Ancient Tower Opens! (5)

Levi was a little disappointed after cutting open the corpse. If it was the body of a level 5 devil, it would have some research value.

Suddenly, he realized that the corpse's stomach was bulging and emitting a colorful light.

With a slash, he cut it open. Then, rays of light shot out and landed on the ground.

There were Wizard Tools, materials, and a black crystal the size of a fingernail.

"This... seems to be a Soul Stone."

Levi caressed the black crystal and felt the mysterious power within.

This power was different from elemental power. It was illusory... soul power.

Levi learned from the Flower Knight that after the primordial soul, wizards generally had two equivalents.

The first was the Aether Stone, which was the most commonly used.

Apart from that, there was also a currency that the primordial soul wizards recognized.

That was the Soul Stone!

The Soul Stone contained a trace of soul power. After a primordial soul wizard absorbed it, they could condense the primordial soul. The condensation of the primordial soul meant an improvement in the level of spiritual force. It had endless magical effects.

After the Essence Soul, cultivation became more and more difficult. Relying on the meditation supplementary potion, the progress was very slow. Therefore, the primordial soul wizards would try their best to find treasures that could increase their spiritual force.

After living beings died, most of their souls would enter hell and the Underworld. They would either become hell creatures or enter the Mother Stream to reincarnate.

However, there was also a portion that was left in the Prime Material plane by chance. Under the combination of complicated factors, rare Soul Stones were born.

“It’s said that only primordial soul wizards can refine and absorb the soul power inside, but I have the Divine Ring Tower. Perhaps I can do it too.”

Levi put it away for the time being. He still needed to read more documents before he dared to refine it without worry.

There were also many precious materials on the ground. It was obvious that they came from Hell.

“Wait... These materials are all advancement materials for the Book of the Undead. Combined with Madam Ghost, they can be used to refine a fifth-circle Book of the Undead!”

At this point, Levi understood.

Madam Ghost must have made a deal with the hell devil to be able to obtain such a rare Hell material.

That was why these guys could descend to the human world.

All of this was caused by Madam Ghost!

“I killed her to get rid of evil for the people. Otherwise, more devils would be released.”

Levi kept these materials. When he cultivated his Weapon Refinement liver to the fifth-circle, he would be able to Advance the Book of the Undead.

Then, he took out all the treasures he had snatched from the Church.

There were three types of level 4 elemental metal, a fourth-circle Wizard Tool, and some knowledge about wizards and foreign races. The grade was not high, but it was better than nothing.

He was more concerned about the Van Helsing family's heritage.

He opened the ancient scroll and heaved a sigh of relief after reading it.

This was indeed the transcendent inheritance of the Van Helsing family. It was mainly divided into two parts.

The first part was the basic knowledge of the Blood Clan. It introduced all kinds of Blood Clan in detail and the corresponding solutions.

The second part was the two seals recorded in it.

Purification Seal and Slaughter Seal Seal!

The Purification Seal could dispel one's negative state. It originated from the most classic First-Ring Spell of the Ocean School of Thought, Cleansing Spell.

Using the purest water to remove dirty things was a commonly used spell. Even Levi would occasionally use it.

The Slaughter Seal was an attack seals specifically targeted at the Blood Clan.

Levi naturally did not care about the effects of the two seals.

He was just a collector.

“With my current realm, these seals will cultivate to the limit. In a few days, they might be able to produce Special Effects.”

After returning from Heavenly Mountain, the 64th round table meeting was held the next day.

Levi looked at the round table that was more than half full.

“Fellow knights, I’ll be traveling for a period of time. During my absence, you must protect our territory. At the same time, don’t fall behind in your research on Talent Brands and combat techniques. I hope that when I return, I can see everyone’s improvement.”

“Understood, commander. Are you going to enter the steeple in the sky?” The Blood Knight asked.

Levi nodded and said at the same time, “In half a year, there will be a projection on the steeple. You can watch the exciting battles of wizards and foreign races from the projection. Take this opportunity to feel how big the gap between us and wizards is and where the gap is. We live in worry and die in peace. Everyone, remember this!”

“We understand!”

After the meeting, Levi went to Giant Beast Paradise and the Empire Senior State Assembly of the Ancient Dragon Empire to make arrangements for the next few decades before returning to the Emperor's Palace.

The ancient tower quietly floated in the sky, and time passed.

In the blink of an eye, half a year had passed.

In Levi's body, the key to the Dark Ancient Tower trembled more and more violently.

He also learned from the Flower Knight that the ancient tower would open in three days.

Although he stayed in the Ancient Saint plane, Levi could sense it from the news and newspapers.

The entire world was looking forward to the opening of the ancient tower three days later.

He calmed himself down and went about his business at a moderate pace.

In the Weapon Refinement room, Levi had refined the corpse of the Sea Clan swordsman into a new corpse demon after several years.

Levi had refined the precious materials he had obtained from Heavenly Mountain into this corpse demon.

The Sea Clan's bodies were strong to begin with, and this person was the son of a prince with a noble bloodline.

Chapter 1143: Heaven Descends, Two Grand Seals, Ancient Tower Opens! (6)

Therefore, after refining into a corpse demon, its quality was higher than that of the Poison Fire Corpse Demon and the Blood-Armored Corpse Demon.

Levi had kept the corpse demon's eight legs for himself. He had even used his Weapon Refinement skills to refine it again. It was enough to take on any Wizard Tool below the fifth-circle!

"I'll call you Demon Blade."

Old Eight was Levi. He was just kidding. That name was too awful for him to call him that.

"Three level four corpse demons and one level four alchemical creature. Just these methods are enough to make those geniuses suffer."

Levi put away the demon knife and injected the undead spirit into it after entering the ancient tower to wake it up.

In the last half a year, other than refining corpse demons, Levi was still cultivating the two seals. Soon, his liver had reached its limit.

Levi—

Purification Seal: Level 3 (Maximum), Special Effect: Gentle Water

Slaughter Seal: Level 5 (Maximum), Special Effect: Fear of the Blood Clan

...

Just as he had expected, these two seals also produced Special Effects after reaching the maximum.

Needless to say, the Gentle Water Special Effect was similar to Dance of the Fire God and Earth Pulse. It could increase Levi's elemental affinity talent.

This made Levi very sure that the Duncan family's legacy seals that he had yet to find were definitely of the wind attribute!

The four transcendent families represented the four attributes of Earth, Fire, Wind, and Water!

It was obvious that this was intentional.

Levi believed that there must be many unknown truths buried in the long river of history. The four great families were not as simple as they seemed.

As for the other Fear of the Blood Clan, the Special Effect was very simple and crude. It could increase Levi's damage to the Blood Clan.

Moreover, the Special Effect did not have a Blood Clan level restriction.

Theoretically speaking, if Blood River was also a member of the Blood Clan, Levi might be able to deal more damage by punching Blood River...

This Special Effect looked very useless, but if it was used well, it might have a miraculous effect.

"Currently, the seals of the three major families are all from the same Elementalist School and a combination of other factions. The Special Effects that are born are also related to the foreign races. Hell Apostle, Dragon Affinity, and Fear of the Blood Clan."

This made Levi, who originally only wanted to collect seals for fun, suddenly feel a sudden impulse.

He wanted to gather all eight seals of the four great families and see if he could discover anything.

He immediately added another mission to the Twilight Knights to search for clues about the Duncan family that had disappeared in the long river of history.

The next day.

Levi came out of his meditative state. The fingernail-sized Soul Stone in his hand suddenly turned into dust.

Correspondingly, two more stars condensed in his Divine Ring Tower, from 363 to 365.

“As expected, with the Divine Ring Tower, I can do whatever I want. I can completely refine and absorb this Soul Stone. Just like the Soul Artifact fragment, it increases my mental strength and saves me half a year of bitter cultivation. Unfortunately, the Soul Stone is a rare treasure even for primordial soul wizards. I’m lucky to be able to obtain this small piece.”

This thing could only be left to fate. There was no way to force it.

After he was done, Levi and Raja called him over.

Two Winged Dragons descended from the sky. Levi said, “Night Fang, I’ve left a tracking mark in your body. I’ll give you the key to the ancient tower. After you enter the ancient tower, immediately enter the Shadow Dimension and find my location. We’ll meet up successfully. As for Raja, I need to seal you in this book.”

The two Winged Dragons nodded. Levi immediately cast a spell and released Night Fang to let Raja in.

As a shadow creature, Night Fang's life-saving ability was extremely strong. As long as she entered the Shadow Dimension and did not take the initiative to cause trouble, her life was safe.

Raja couldn't. Its Wind Thunder Power was too eye-catching and could easily be captured.

Then, Levi dragged Leon out of his deep sleep in the House of Immortals.

"Go sleep in the Book of Seals."

This fellow ate and slept all day long. It was enviable.

"In that case, the Book of Seals allows me to smuggle in Leon, Raja, and the Crimson Netherworld Sparrow, three transcendent creatures. The Book of the Undead allows me to smuggle in Guillermo, Phoenix, Blood Lady, and the other undead."

As for the corpse demon's body and Tyrant IV, ordinary storage rings could be brought in.

Levi checked his luggage over and over again like a traveler on a long journey.

“Knight’s secret medicine, meditation potion, stamina potion, spell power potion, Demon Cage array, Wizard Tool... Inheritance knowledge book, everything is ready.”

Levi looked at the sky. He did not cultivate tonight. Instead, he lay here and lazily looked at the ancient tower under the starry night sky. It was quiet and beautiful.

” commander, you seem to be quite free today.” Flower Knight’s voice sounded. She appeared beside Levi and imitated Levi. She laid on the grass and looked up at the starry sky.

She stretched lazily and asked in satisfaction, “Is everything ready?”

Levi smiled. “Ready.”

Flower Knight raised his hand. A black faceless mask appeared and floated to Levi’s side.

“And this is?”

“This is the special Wizard Tool True Mask that Sister Triss asked me to give you. After wearing it, it’s very difficult for anyone below the level of a primordial soul wizard to detect your cultivation through your spiritual power fluctuations. This Wizard Tool can also hide your methods. Generally speaking, only assassin organizations in the Wizard World will use such a thing.”

“Thank you, Sister Triss. Thank you for coming all the way here,” Levi said sincerely.

Actually, after thinking about it, even if there was a projection, it would not affect him much. The world was so big, and he was so small.

With his current strength, other than the primordial soul wizards who were busy dealing with him every day, he was not afraid at all.

However, Madam Triss's intentions still touched him.

After delivering the masks, Levi and the Flower Knight fell silent again.

After a while.

"Are you still going back to the Witch's Family?"

"No, I will enter the ancient tower here tomorrow too."

Early in the morning.

Levi, Flower Knight, Sorrett, and Night Fang gathered together.

The ancient tower keys in their hands emitted a pillar of light that reached the sky.

Levi smiled and said,

“Everyone, everything is going well! Safety first. Life is more important.”

Sorrett and Night Fang nodded.

Flower Knight smiled and said, “Got it.”

Then, four pillars of light rose from the sky and disappeared in the blink of an eye.

In the land of darkness, the ancient tower lit up with a brilliant white light.

Deep in the Multidimensional Plane, countless faint lights seemed to be shining.

Gryus, who was snoring in front of the Dark Ancient Tower, suddenly woke up. He grinned, danced, and clapped.

“Let’s watch the show.”

Chapter 1144: Demon Sword Dragon Wizard, Treasure Iron Tree! (1)

Endless Sea.

At the Witch’s Family.

Triss looked at Anya, who had vanished in front of her.

“Mother, believe me, I can return safely.”

Anya’s words echoed in his ears.

Nether Capital.

The Wildbone Wizard held the black bow in his hand, looked at the skeleton on it, and disappeared from the spot.

In the human world, the Realm of Crimson, the Realm of Frost...

The wizards who pursued immortality and truth for their own future also embarked on the journey.

In the Multidimensional Plane, in the vast universe, all living beings were fighting to cross.

...

In the Dark Ancient Tower.

Level 1.

The endless swamp.

This place was filled with miasma, poisonous fog, and flying insects. It was extremely dangerous.

Three rays of white light descended from the sky and landed nearby.

In one of the white lights, Levi, who was wearing a gray robe, opened his eyes. He quickly adjusted his state to prevent himself from being ambushed.

He put on the True Mask. The mask fused into his face, as if it had grown together with his skin.

With a thought, Levi's appearance changed into that of a brawny man with short black hair.

The brawny man's skin was dark and well-defined. There were scars on his face and he looked like he was not to be trifled with.

With this mask, other than primordial soul wizards who deliberately probed, no one else could see Levi's true appearance, spiritual force fluctuation, voice, aura, and other personal characteristics through the mask.

Levi looked into his body and realized that the Dark Ancient Tower that had brought him in had already disappeared.

This was an admission ticket. He only needed to enter and leave. There were other ways to leave.

He looked around and slowly spread out his Spiritual Perception before leaving.

At the same time, two figures walked out from the two white lights.

They were two wizards wearing fiery red robes. One was fat and the other was thin. There was even a flaming bull tattooed on their robes.

This was the Realm of Crimson, the emblem of the Fire Bull family in the Blazing Mountain.

“Roy?”

“Jensen?”

They smiled at each other.

“Since we’re teleported together, it’ll be much easier for us to move. Let’s go meet up with the main force. With Lord Raphael leading the team, our family will definitely win this time!”

“Don’t be anxious. There’s another person here.”

Roy and Jensen secretly communicated through voice transmission, looking at the White Robe Wizard who was gradually leaving.

The two of them nodded in tacit agreement and quietly followed.

Levi’s expression was normal as he shuttled through the swamp, his spiritual force carefully scanning his surroundings.

Before he came, he had obtained a partial map of the first level from Triss.

Although that was 10,000 years ago, he could still tell that this should be the Lost Swamp mentioned on the map.

As one of the most dangerous places on the first level, there were a large number of low-level swamp creatures living here. There were even a large number of “swamp lords” who were comparable to Intermediate Wizards.

In the records from ten thousand years ago, there were at least several level 5 swamp lords occupying this swamp.

Of course, danger also represented opportunity. There were also a large number of rare plants growing in the swamp.

Although there were also natives of transcendent civilizations in the Dark Ancient Tower, their development was far inferior to that of wizards.

Thus, a large number of resources in the swamp were undeveloped.

After 10,000 years of accumulation, it must be a very optimistic number.

Levi’s luck was not bad. He landed at one of the resource points on this level. The other participants might be rushing here now.

Levi had to reap more before they came.

As a fourth-circle pharmacist, Levi was very knowledgeable about plants.

His eyes flashed. On the shore of the island in front of him, there was a thicket of dark green plants as tall as a person.

On the plant, there were vermilion fruits the size of quail eggs that emitted a sour and sweet fragrance.

“It’s actually the Legendary Saint Fruit! I’ve really searched high and low for it. I didn’t expect to find such a material in the Dark Ancient Tower!”

Even Levi was extremely excited.

In order to find the Saint Fruit and its substitute, he had put in a lot of effort. After nearly a hundred years, he had barely managed to develop a substitute Vermilion Pattern Fruit.

The problem was that there was too little Vermilion Pattern Fruit to satisfy Levi’s needs.

Golden Aberration Insects, black beast corpses, many things needed him to purify and study...

“I’ve struck gold.”

Levi took out a special small box. This thing was used to store potion ingredients and could preserve its medicinal properties for nearly a hundred years.

He picked a Saint Fruit and popped it into his mouth.

The juice exploded. It was sweet and sour, and it was especially delicious.

The Saint Fruit could be eaten directly. It could clear one’s mind and calm one’s mind. It was good for one’s body, but it was a little wasteful.

In no time, Levi finished picking the Saint Fruits on this bush.

Looking at the bare little fruit tree, Levi fell into deep thought.

After he came in, he tried Alice’s ring and Greenfield Immortal House, but he couldn’t open them.

Otherwise, he could try to transplant the Saint Fruit Tree inside.

The Saint Fruit Tree could also be considered a living creature. It had the “spirit” or “life” that could be defined as a living creature. It was not like the medicinal herbs that were processed and only had “medicinal properties” left.

He thought for a moment, dug up one of the roots, and placed it in the special Pharmacy box.

Then, he put it into his storage ring. Not long after, he took out the medicine box and opened it.

He looked at the Saint Fruit Tree. It was still green, but the “life” in it had disappeared. This was already a dead tree. There was no way to transplant it.

It was the same for the Saint Fruits that he had placed inside.

Chapter 1145: Demon Sword Dragon Wizard, Treasure Iron Tree! (2)

However, the “medicinal effects” of the Saint Fruit were still there, so it would not delay his use.

Ordinary storage rings could only store dead things. Things with life could not be stored, be it plants or beast eggs. If they were forcefully stored, they would become ‘dead things’.

Therefore, Levi had always used Greenfield Immortal House to store medicinal herbs that needed to be alive and vigorous.

In order to prevent them from being brought in, Levi even refined these medicinal herbs into medicine in advance.

Every time this happened, Levi would be envious of the storage rings in some online novels in his previous life. They said that they could only store dead things, but in the end, living things like beast eggs could also be placed inside.

As he complained in his heart,

Levi spread out his spiritual force and continued to search for the Saint Fruit Tree.

Not long after, he found another Saint Fruit Tree on a small island.

However, on this fruit tree, the Saint Fruits that no one had picked had all withered, leaving only seeds the size of rice grains scattered around.

Levi had an idea. He collected the seeds, wrapped them in a sturdy bag, and swallowed them.

With his control over his body, he wouldn't be able to digest these bags.

"This way, I can carry a bag of Saint Fruit seeds with me without losing its vitality. I can try planting them when I get back."

Considering that he had to fight, Levi did not dare to casually place these seeds outside his body. If they were destroyed because of the battle, his heart would ache to death.

According to Levi's information, when the ancient tower closed, all those who entered would be automatically sent back to their plane.

Only when they entered would there be a restriction on the number of key slots. When they returned, they could bring back anything they carried with them.

This way, the participants could even bring back the transcendent creatures in the ancient tower.

Of course, the premise was that he had to have the means to "carry" transcendent creatures with him.

As for the "carry-on" judgment, it was fine as long as it was by the participant's side and was controlled and controlled by them.

"If only there was a living space that could be opened by any plane. This way, I could plant a small medicinal garden with me. In the future, when I encounter some precious plants during my plane travels, I could also transplant them back and plant them on the Ancient Saint plane.

"Unfortunately, even if there is such a treasure, it's not something that someone at my level can come into contact with."

After sighing, he looked behind him and saw two figures rapidly approaching him.

Roy and the wizard Jensen stopped and bowed with a smile.

“We’re wizards from the Fire Bull family. May I know which school and organization you’re from? This place is filled with danger. Why don’t we cooperate?”

“I’m not interested in cooperating. Please leave,” Levi said politely.

His principles for this trip to the ancient tower were:

If he could, he would try his best not to make a move to avoid being projected and broadcasted live.

When the two of them saw that Levi refused to mention the sect, they knew that there was a high chance that he was a nomadic wizard without any power or backing.

In such a dangerous place, most organized wizards would think of using the name of the organization to intimidate some enemies and meet up with the organization’s exploration team as soon as possible to avoid trouble.

“Now!”

Sun Splitting Strike!

Fire Dragon Guide!

Two fourth-circle spells instantly attacked Levi.

Actually, these two people did not want to cooperate. They just wanted to launch a sneak attack when he was unprepared!

But how could Levi be unprepared?

Wind Dragon Scamper!

Air currents swirled around Levi's body. With a flash, he disappeared from the spot.

When he reappeared, he was already behind the two of them.

His expression was cold, and the strength in his body erupted. A powerful aura shattered the ordinary robe he used to disguise himself, revealing the pitch-black demonic armor inside.

The Crimson Flame Longsword slashed horizontally, and Sword Qi rippled like the crescent moon!

“What?”

These two wizards from the Fire Bull family were both at the fourth-circle level. They were powerful and had been specially trained. They had a tacit understanding of each other.

However, to their horror, they discovered that in front of this person’s longsword, the force field they were holding up shattered like paper.

In an instant, the two Fourth-Circle Wizards were cut in half at the waist and devoured by the Crimson Emperor Dragon Flames.

At the same time, the Sun Splitting Strike and Fire Dragon Guide exploded, and the flames engulfed Levi.

As the flames faded, Levi stood unscathed.

He retracted his sword. The entire process was completed in a flash. It could be said to be an instant kill!

“An ordinary fourth-circle cultivator dares to cause trouble for me... Looks like my attire isn’t fierce enough.”

It wasn't that Levi was arrogant, it was just that these people overestimated themselves.

He deliberately hid his spiritual force fluctuation to pretend to be unfathomable so that other wizards would guess that he was a primordial soul wizard to avoid trouble.

In the end, the two of them were too tactless and actually followed Levi all the way, trying to kill her and snatch her treasure.

He could only kill them in self-defense and quickly put away their storage rings.

He took a cursory glance and didn't find anything good that tempted him.

He left this place and continued to search for other Saint Fruits in the swamp.

...

The Ancient Saint plane.

The knights of the Dusk Holy Temple trained while looking at the sky. It could be said that they were multitasking.

Suddenly, an image appeared on the first floor of the ancient tower.

“Look, it’s finally out. Looks like the first battle has begun!”

On the screen, two red-robed wizards cast terrifying fire spells that swept forward.

Opposite them was a fierce-looking, tall, and burly Gray-Robed Wizard.

His figure flashed and disappeared before their eyes as if he had teleported. When he reappeared, he was already behind the two of them.

Chapter 1146: Demon Sword Dragon Wizard, Treasure Iron Tree! (3)

Black flames filled the sky, his gray robe exploded, and his demonic armor appeared. He unsheathed his Crimson Flame Longsword and casually slashed the two of them into two. The flames engulfed them. The next moment, that person walked out unscathed, as if the explosion that could shatter the fourth-circle force field was just an illusion!

“This person is so strong! No wonder our commander asked us to look at the projection in the sky more. This sword really feels like it has returned to its original state. It can break all techniques with its strength!”

“Erm... Why do I feel like this person is our commander?”

At the same time.

At the Witch's Family.

Triss looked at the black-armored swordsman who had killed two Fourth-Circle Wizards with one strike.

When the Wizard World appeared, Levi always appeared as a wizard, and he had never used knightly means to fight in front of Triss.

Even Triss, who knew a lot about Levi, did not associate this person with Levi.

However, such powerful explosive power and Sword Qi meant that this person's physique had already reached an extremely powerful level.

In such a situation, they either had powerful bloodlines, such as dragon descendants, Sea Clan, and other foreign bloodlines, or their body tempering technique cultivation realm was extremely high.

Therefore, she vaguely guessed that this person might be Levi, but she was not sure.

"If this person is Levi, that would be for the best. If not... I hope Anya and Levi don't meet him. Otherwise, I'm afraid it will be dangerous. The opening of the Dark Ancient Tower has attracted too many monsters."

Triss sighed.

...

Central Realm.

The wizard in charge of compiling the Dark Ancient Tower's ranking list was in trouble.

He was a Grand Wizard of the Ocean School of Thought, known as the Dragonfly Wizard.

He was powerful, had sharp eyes, and was a fair person. His slogan was:

He would definitely not be biased. It was definitely not a bad judgment!

They were often invited as judges by the top wizard leagues of the various schools of thought in the Wizard World.

"Have you found out what organization this person is from?"

"No, he seems to be a nomadic wizard, and he must have changed his appearance. From his appearance alone, we can't confirm his true identity. We checked the list of the past wizard leagues and screened the outstanding ones. The keywords include [Sword Wielding], [Black Armor], [Dual Cultivation Body Tempering Technique], [Dragon Descendant], and so on... We found a suspicious person."

“Who is it?”

“Demon Sword Dragon Wizard Soderos. It’s said that this person is a dragon descendant of the level 10 Purgatory Black King Dragon. Because he loves the sword skills of mortals, he once learned sword skills from a legendary knight in the human world. Later, he became a wizard of the Burning School of Thought and Dual Cultivation Body Tempering Techniques. At the age of 200, he had already reached the Perfection of the fourth-circle. He even created the Purgatory Demon Sword and combined sword skills and spells. In the same realm, he has always killed his enemies with one strike, also known as the One Sword Demon Wizard. He was the champion of the Nine Cities League for three consecutive years. Later on, he suddenly disappeared from the public’s sight. Some said that it was to pursue the ultimate Sword Dao, some said that it was to avoid the enemy of the primordial soul, and some said that because his mother was harmed by the devil, he killed his way into Hell to take revenge. In short, he disappeared for more than a hundred years. After he disappeared, no one was re-elected as the champion of the Nine Cities League.”

“Bring me his information.”

“Will do.”

After reading it, the dragonfly wizard fell into deep thought.

“There are some details that don’t match, but there are indeed many similarities between the two of them. How about this? Let’s treat him as the Demon Sword Dragon Wizard. Anyway, no one can testify against him.” ㄖㄢ̀ㄢ̀ㄝㄝ

Just like that, the Earth Rankings on the Dark Ancient Tower's wizard ranking appeared.

First place on the rankings:

Demon Sword Dragon Wizard Soderos!

For a moment, the gazes of the various wizard organizations focused on him.

In particular, the famous Nine Cities Alliance was in an uproar.

"Extreme Swordsman Soderos, that monster, is back..."

...

Lost Swamp.

Levi still did not know that his battle was actually the first one to happen in the Dark Ancient Tower.

Many people saw how he killed two Fourth-Circle Wizards with one strike.

He had inexplicably become the first on the Earth Rankings, even though he was impersonating someone else.

Levi was not in a hurry to go to the next level.

Firstly, he had to wait for Night Fang to meet up with him.

Secondly, it was the first day of the opening of the ancient tower. He could imagine that there was a group of fifth-circle, primordial soul-level wizards gathering at the entrance of the next level. When the time came, there would be a lot of people, and fighting would be inevitable.

To him, what he cared about the most wasn't the Truth Oddity, which other wizards flocked to.

The thing he cared about the most when he came to the Dark Ancient Tower.

One was the scarce medicinal herbs and resources outside, such as the "Saint Fruit".

Secondly, he had to think of a way to bring back some of the transcendent creature resources that had gone extinct outside, especially the high-level mixed-blood Dragon Clan he needed.

Thirdly, there were some rare minerals that would facilitate his future Advancement of divine weapons.

Finally, it was the Holy Grail of Immortality that he had been thinking about.

Other than that, everything else was up to fate.

It was best if he could get it, but if he couldn't, he could completely accept it. The less he looked forward to it, the less disappointed he would be.

Three days later.

The void around Levi suddenly fluctuated. A ferocious Black Winged Dragon flew out of the Shadow Dimension. After seeing Levi, it circled around him intimately.

"That's great."

Levi stroked Night Fang's head.

This way, he could continue exploring without any worries.

In the following days, Levi hid in this Lost Swamp and searched for medicinal herbs. His harvest was quite bountiful.

He had already plucked more than a thousand Saint Fruits and had achieved his initial freedom!

Chapter 1147: Demon Sword Dragon Wizard, Treasure Iron Tree! (4)

Other than Levi, everyone else treated the Saint Fruit as an ordinary plant and only Levi treated it as a treasure.

At the same time, as time passed, all kinds of conflicts continued in the Dark Ancient Tower.

Soon, the number one spot on the rankings of the ancient tower was pushed down.

...

Time passed quickly, and half a year passed in the blink of an eye.

Lost swamp.

“Fifth-circle medicinal herbs and spider silk fruits. Not bad.”

Levi picked it up and put it away. Suddenly, the miasma behind him churned, and a giant spider the size of a house shot towards Levi.

“As expected, there must be spider-type transcendent creatures guarding the spider silk fruit.”

Levi recalled the introduction of the medicinal herb illustration and slashed with his sword.

The spider was destroyed by the Sword Qi and its juices scattered.

This was just a level 2 transcendent creature.

He removed the spider’s fangs and poison sacs and collected them.

His Deep Blue Sage clone could absorb different types of poison to strengthen its poison.

Suddenly, there was movement from the Twilight Round Table, and the Flower Knight appeared.

She said, “As far as I know, the Letney Family has already reached the sixth level. I’m still on the fifth level. Which floor are you on? Some of the wizards from the Witch’s Family have already reached the third floor.”

“The first level... Speaking of which, why are you guys leveling up so quickly?” Levi was speechless.

He was happily picking Saint Fruits in the Lost Swamp.

“Uh... Alright, I thought you were at least on the third level. I have a map of the teleportation portal before the fifth level. You should enter the fifth level as soon as possible. The first four levels are only the transition and screening stage of the ancient tower. The fifth level is the final battlefield for all the participants below the primordial soul.”

“Understood. Be careful too,” Levi said gratefully.

“Will do.”

Hundred Flowers nodded and her figure gradually dissipated.

Levi stood on the spot and muttered to himself, “With the Flower Knight’s ability, it shouldn’t be a problem to enter the seventh level. The eighth and ninth levels are very difficult. Basically, only seven-circle or even eighth-circle wizards have hope.”

In half a year’s time, there were more and more people in the Lost Swamp, but they were basically all weaklings. The strong had already entered the upper echelons.

Levi now avoided the others as soon as he saw them, to avoid a battle being broadcast live.

After killing the two wizards, there was no more battle with the other participants. This made him drop off the rankings very quickly.

Be it wizards or foreign races, they gradually began to fight on the first level.

The rankings of some wizards began to soar.

But now, putting aside the Fifth-Circle Wizard, the number one fourth-circle wizard on the Earth Rankings was firmly occupied by the Burning School of Thought's Fire Dragon Destroyer Simon.

In half a year, this genius of Norn City had killed seven level 4 aliens and five Fourth-Circle Wizards.

Every battle made the audience of the Wizard World's blood boil.

The Burning School of Thought was especially proud.

The Burning School of Thought occupied one-fifth of the top 100 seats, and Simon was the only wizard to enter the top 10 with four environmental worlds!

In addition, the Golden Light Wizard, the nobles of the Sea Clan, and other geniuses also appeared at the front.

As for the Demon Sword Dragon Wizard that appeared briefly at the beginning, everyone had already forgotten about him other than the members of the Dusk Holy Temple who roughly knew his true identity.

There were too many geniuses in this year's Dark Ancient Tower. It was completely different from the past. Dark horses appeared every day.

Without absolute strength, it was difficult to suppress everyone.

...

In the blink of an eye, a year passed.

Holy Brilliance Calendar Year 1166, Month of Grass.

In the Lost Swamp.

Levi moved like the wind and instantly killed another insensible swamp monster. After collecting the materials, he looked at his proficiency panel.

Levi—

Thunder Dragon Flash: Level 11 (Maximum)

Wind Dragon Scamper: Level 9 (1/150,000)

Ice Dragon Prison: Level 8 (136,78/100,000)

...

“The Maximum of the Thunder Dragon Flash. It’s not easy. It’s indeed difficult to cultivate a Fourth-Circle Talent to Perfection. With my talent, I’ve already cultivated for so long.”

In addition, his Wind Dragon Scamper had also broken through to level 9. As for the Ice Dragon Prison that he had just learned, although he had improved, he was still far from advancing to Advancement.

Lost swamp was a natural botanical garden.

In the past year, Levi had found at least a hundred medicinal herbs and resources here. A third of them had already disappeared from the Wizard World.

Levi found a way to collect some of the medicinal herbs and stored them in his body, just like the Saint Fruit.

As for the Saint Fruits, he had collected thousands of them. Even if he failed to plant them in the future, it would be enough for him to use for a long time.

Through Sorrett, Levi learned that the Letney family's primordial soul wizard had already entered the sixth level of the ancient tower.

However, even a primordial soul wizard would need to spend a lot of time to enter the seventh level.

Three days later.

Levi finally left the Lost Swamp that he had stayed in for more than a year.

There was indeed nothing good on the first level. Levi brought Night Fang along and hurried on with all his might.

A few days later, he arrived at the teleportation portal on the first floor.

Near the teleportation portal, a large group of wizards and foreign races were gathered. Levi used Perception and found that many of them were level 3.

He must have obtained the key by luck and had never been discovered by other experts. Or rather, he had a special containment method.

All in all, these wizards were frowning as they looked at the teleportation portal, at a loss for what to do.

On both sides of the teleportation portal, there was an earthen-yellow stone statue that was motionless.

Chapter 1148: Demon Sword Dragon Wizard, Treasure Iron Tree! (5)

A Third-Circle Wizard suddenly steered his flying Wizard Tool and flew straight towards the teleportation portal.

The immovable rock guard suddenly opened its eyes, and a fourth-circle aura erupted.

One of the two guards held a long sword, while the other held a huge shield.

Boom!

The protective force field of the Third-Circle Wizard who tried to barge in was shattered by the guard's huge shield. He was sent flying like a kite with a broken string and left dejectedly.

However, it was obvious that the rock guard had held back. Otherwise, he would have been smashed into pieces.

After dealing with the intruder, the rock guard immediately returned to its statue form and closed its eyes.

When some Third-Circle Wizards saw this scene, their expressions turned ugly.

“What should we do? We can’t beat them alone. If many people join forces, the rock guards will also become stronger. This round is to reject us Third-Circle Wizards.”

“Forget it, let’s continue exploring the first level. The treasures after that have nothing to do with us.”

Previously, there was a level 3 alien race who didn’t care about ethics and joined in when others were challenging the level. He tried to create the illusion of joining forces so that others would fail too.

Then, this person’s leg was broken by the rock guard. It was a tragic sight.

Clearly, these rock guards were the Order Guardians of the first level. No one dared to cause trouble here!

At this moment.

A burly dragon wearing black armor and carrying a long sword on his back strode over. Every step he took seemed to cause the Earth to tremble.

“Another one... The ancient tower has already been open for a year, but he’s still messing around on the first level. His strength probably isn’t that strong.”

A wizard mumbled, waiting to see the black-armored burly man make a fool of himself.

Levi pulled out the Crimson Dragon Slash, and the two rock guards opened their eyes again.

With a whoosh, he turned into a gust of wind and flew towards the teleportation portal.

The giant shield guard used his shield to protect the teleportation portal, while the greatsword guard used his terrifying greatsword to slash forward, leaving a chasm in the ground!

With their coordination, even ordinary Fourth-Circle Wizards could not break through, let alone those third-circles.

“Destruction!”

An incomparable sword light attacked with unstoppable force!

The huge sword that slashed over suddenly shattered and scattered into soil and rocks.

As for the huge shield, it was destroyed by the aftershock of the Sword Qi and collapsed!

The two rock guards were instantly killed by the aftershock of the Sword Qi!

Another slash, and the battle was over.

In the next moment, the black-armored swordsman disappeared from everyone's sight.

Before long, the two rock guards recovered and stood in front of the teleportation portal again, waiting for the next challenger.

"Gasp... He instantly killed two fourth-circle guards with a single strike. This is at least the strength of a fourth-circle Perfection deity. Those who are about the same strength as him are already on the third level. Why is he still on the first level?" ʘANÓŦĚ s

"I'm not sure. Perhaps it's a nomadic wizard body-refining wizard. Without a map, we won't be able to find this place for a while."

At the same time.

A projection began to appear on the first wall of the ancient tower.

A black-armored swordsman turned into a stream of light. After another ordinary strike, the rock guard that had stumped many Fourth-Circle Wizards collapsed.

The Fire Sovereign Gryus, who was watching the show with his chin in his hand, looked away from the projection of the higher-ups and looked at the projection of the first level. He suddenly smiled and said,

“Interesting. A year has passed, but this little fellow is still on the first level. That strike just now was a pure power slash. It’s simple and unadorned, but it’s very powerful. I really hope that he can fight those stone men from the Amethyst Race.”

Dusk Holy Temple.

“It’s been a year... Our commander has disappeared from sight. Have you seen our commander’s projection?”

“No, our commander only appeared once at the start of the game and disappeared... Could he be in danger?”

“That’s right. It’s boring to watch wizards fight. I just want to see our commander fight. His fists hit the flesh and his sword flashed. He wants to show the heroism of a knight!”

Suddenly, the projection of the first level lit up again, and the figure of the black-armored swordsman appeared again!

He killed the enemy with another sword strike and easily passed the checkpoint!

“It’s our commander... This sword is too cool! However, why is he still on the first level? I think the Flower Knight has already killed a foreign race warrior on the sixth level.”

“What do you know? This is our commander’s strategy. We’ll give them a few levels first. Then, when they think that they’re going to win, he’ll kill his way to the top!”

...

The ancient tower.

The second floor.

Levi stepped into this place and felt a scorching heat the moment he entered.

In the shadows behind him, Night Fang’s figure appeared and turned into a Black Winged Dragon.

The second level of the Dark Ancient Tower was similar to the Realm of Crimson, with rich fire elemental power.

The Burning School of Thought would be like a fish in water here.

Levi spent a few months searching the various resource points according to the map given by Triss. He did not find any Truth Oddity, but he obtained some rare fire element herbs.

On this day, in a black Catacomb filled with the smell of sulfur.

This was not a resource point. Levi had chased a mixed-blood Dragon Clan and appeared here.

At this moment, his eyes were shining with excitement.

In front of him was a fiery red shrub that was as tall as a person. It emitted a metallic luster and was exceptionally beautiful.

Around the bushes, there was also a crimson-scaled python with a fiery red horn and a slender body. It was about 200 feet tall. It raised its head and hissed in warning.

“I just casually caught a level 4 Crimson-Horned Fire Python, but I didn’t expect to pick up a level 6 Iron Tree seedling for nothing... Looks like the two of you should come with me. Could it be that the Lovers Rune is working?”

Chapter 1149: Demon Sword Dragon Wizard, Treasure Iron Tree! (6)

The Crimson-Horned Fire Python was a level 4 mixed-blood Dragon Clan. Levi had to cultivate the Crimson Emperor Dragon Breathing Technique.

Actually, the secret medicine reserves he had on him were enough for him to enter the fifth level. However, he naturally wouldn't let go of the opportunity to obtain a mixed-blood Dragon Clan in advance.

The Crimson-Horned Fire Python spat out a fiery dragon breath. Levi strolled leisurely in the high-temperature dragon breath like a demon king.

The fire python trembled as its body leaned against the wall!

Suddenly, it shot out, its horn stabbing at Levi.

Levi grabbed the horn with his big hand and threw it over his shoulder.

Boom!

The Catacombs trembled, and the giant snake rolled and wailed.

“Come with me. I’ll only say this once,” Levi said calmly.

Even if a level 4 mixed-blood Dragon Clan could not speak, their intelligence was definitely not low.

The Crimson-Horned Fire Python was terrified and stunned on the spot. Clearly, it was under stress.

The Shadow Winged Dragon appeared in the shadows behind Levi.

He then released the Wind Thunder Winged Dragon from the Book of Seals.

“I’m also a member of the Dragon Clan. We’re a family. I won’t do anything to you. Look at them. Aren’t they living very well? It’s so boring to stay in this small world all day long. If you follow me, you can enjoy more scenery.”

He used both hard and soft tactics.

The Crimson-Horned Fire Python finally submitted. Its body suddenly shrunk and wrapped around Levi’s arm like a black ring.

“Interesting. You actually know spells of different sizes. Looks like your bloodline is not bad.”

Levi touched the snake’s head and came to the Iron Tree.

He used the Crimson Dragon Slash to quickly dig up the Iron Tree and the land it was on.

Then, his body kept expanding. In the blink of an eye, he had already become a black-armored giant that was three stories tall.

After storing the Iron Tree, he swallowed it.

Actually, wizards had a specialized general spell, shrinking spell. It was a low-level spell that could shrink objects and make it easier to carry.

However, just like the storage ring, it was only limited to inanimate objects. If one forcefully shrunk a living creature, it would only lose its vitality.

Levi had no choice but to enlarge and swallow it with his body.

“That’s right. When we return this time, we’ll plant it on the Ancient Saint plane. It can be called the home-guarding divine tree!”

Although the Iron Tree was small now, in theory, it could grow to a thousand feet!

According to its growth cycle, on average, the Iron Tree would grow ten feet every hundred years. After ten thousand years, it would completely mature. ῥΆΝΌΒΕς

At that time, the Iron Tree would stop growing. From then on, it would bloom and bear fruit every year, giving birth to a medicinal ingredient called Rust Fruit.

This fruit was the main ingredient for many level six potions. It was especially necessary to refine some body-refining potions needed by body-refining wizards!

Consuming it all year round could also strengthen the body-refining wizard at the primordial soul level, giving birth to Rust Runes to protect his body.

The current Iron Tree could only be considered a seedling. It looked like it had only grown for less than a hundred years.

But from Levi's point of view, its value was not inferior to the Truth Oddity.

If it really was a complete Iron Tree, he wouldn't be able to take it away.

After finishing all this, Levi left the place.

“Currently, the ancient tower has been open for a year. Most of the primordial soul wizards have already gone to the sixth level and above to search for their own opportunities. There should only be fifth-circle and Fourth-Circle Wizards left on the first five levels. To me, as long as I'm careful, my life should be safe next. There's no need for me to hide at the bottom. Let's hurry to the fifth level.”

According to the information, the first four levels of the ancient tower represented the four elements: earth, fire, wind, and water.

The fifth level was the aggregation of Earth, Fire, Wind, and Water. It was extremely vast, larger than the first four levels combined. Its area was comparable to some large planes. There were many precious plants and animals, mineral resources, and even Truth Oddities.

A week later, he arrived at the teleportation portal on the second level. Similar to the first level, there were still a bunch of unwilling wizards blocked outside.

However, after screening, there were no more Third-Circle Wizards here. They were all Fourth-Circle Wizards.

The teleportation portal on the second level was located in the middle of a terrifying Lava Sea.

In the Lava Sea, Levi saw many Fire Elemental Spirits hiding.

A weak fourth-circle wizard had just stepped in when he was knocked away by a giant fire boar at the peak of level 4. He left with a face full of dust.

Levi rushed into the Lava Sea. With his sword in hand, he killed the Fire Elemental Spirits one by one and they fell into the Lava Sea below.

By the time he reached the teleportation portal, four level 4 Fire Elemental Spirits had been killed.

These guys would not really die. They were the creators of the ancient tower, which Sauron had nurtured using a special array.

Here, they were immortal and indestructible, similar to the rock guards on the first level.

Under everyone's envious gazes, Levi stepped into the teleportation portal and disappeared from the second floor.

As soon as he arrived at the third level, Levi's Perception suddenly warned him. Layers of protective force fields lit up.

A sparkling amethyst fist slammed into Levi's force field.

With just one punch, all Levi's force fields were shattered!

His scales exploded and his bones broke. Without hesitation, he entered the scarlet dimension and quickly disappeared.

At the exit of the teleportation portal, a level 5 Amethyst Race expert about 100 feet tall descended from the sky. He looked at his fist and was clearly a little surprised.

“Interesting. You can actually block my full-strength attack.”

Chapter 1150: Scythe Breath Oddity, Number One Expert in the Pan-Plane! (1)

Dark Ancient Tower.

On the third floor of the teleportation portal exit, the Amethyst Race expert watched Levi escape and did not chase after him.

His name was Roda. The organization had arranged for him to block the door here.

Not long after, the teleportation portal rippled again.

A half-dragon and half-human monster covered in pitch-black scales barged in.

Roda did the same thing and threw another simple punch.

The Amethyst Race’s physique was unparalleled; they had already unleashed their strength to the limit!

Boom!

Accompanied by a shocking collision,

Roda retreated a few steps, and the Half-Dragon Man monster did a backflip and landed steadily.

“Who are you? How dare you frame me? I’m going to tear you apart!”

This Half-Dragon Man monster was a level 5 Dragon Abomination and was equally powerful.

“Level 5? With your strength, why are you still on the second level?” Roda frowned.

Although they were foreign races, they spoke the common language of wizards in this ancient tower. This was the main language of the entire Sauron Plane and was as popular as the level 10 transcendent civilization system created by wizards!

“I’m lost!” This Dragon Abomination cursed righteously.

He roared at the sky. His body expanded, and his scales rustled. Terrifying black flames soared into the sky.

Swoosh!

He shot out like an arrow.

“You’re courting death!”

Roda was fearless. His purple fist collided with the black dragon claw!

Crack!

With just one punch, the sound of bones breaking came from the dragon claw.

Dragon Abomination was shocked. He knew that his physical body could not compare to his opponent’s, so he relied on his speed advantage to deal with him.

Furthermore, unlike the Amethyst Race, as a Dragon Abomination, he had grasped many powerful spell-like abilities.

This way, the strength of the two powerful level 5 foreign races was barely on par. However, it was obvious that the Amethyst Race was better. The level 5 dragon flames of the Dragon Abomination only burned a layer of Roda’s purple outer skin. He was covered in blood and knew that he could not defeat the other party. He immediately said fiercely, “Don’t let me meet you on the fifth level!”

After saying those harsh words, he quickly left.

Roda laughed coldly and did not chase after him. Instead, he continued to wait here.

Suddenly, wind and clouds gathered in the sky.

A translucent eagle with a wingspan of hundreds of meters appeared. Its sharp eyes looked down at Roda.

“A level 6 wind element lord... There are really Order Guardians in this ancient tower. Retreat!”

Roda felt a strong sense of danger. His expression changed and he immediately left the teleportation portal. He turned into a purple light and disappeared into the horizon.

The giant eagle looked into the distance and raised its wings. A green feather appeared.

There was a whoosh.

The green feather cut through the sky and disappeared into the purple light in the blink of an eye.

“Ah!”

Roda screamed.

An arm that emitted a purple glow broke and fell to the ground.

The giant eagle did not seem to have any intention of killing it. It stopped attacking and closed its eyes. It slowly dissipated into the world and became a whirlwind that swam on the third level.

After an unknown period of time, a group of wizards appeared at the teleportation portal.

The leader was the fifth-circle leader of the Fire Bull family, Wizard Farrah.

Back then, he and the Red Bone Wizard chased after Levi together, but Levi escaped.

“Roy and Jensen, those two idiots, were killed as soon as they came in. It’s a disgrace to the Fire Bull family!”

Farrah’s heart was gloomy. He had brought a total of five Fourth-Circle Wizards this time. Before he could show his skills, their soul tokens shattered.

This caused the lineup that he had meticulously arranged to be incomplete all of a sudden, unable to display its full strength.

If he couldn't bring enough gains back to the clan this time, he would definitely be punished by the strict Lady Green Robe with the Bullwhip.

Fortunately, the second level was the Burning School of Thought's home ground.

He had gained a lot here.

Needless to say, a large amount of medicinal herbs were used for the Burning Faction's cultivation.

In an abandoned resource point, he also picked up a large number of weapon-making materials and a piece of level 5 fire element metal, Flowing Fire Molten Gold.

This way, he wouldn't return empty-handed.

However, these gains were far from enough. At the very least, he had to bring a Truth Oddity out to make this trip worthwhile.

Farrah said coldly, "Hurry up and follow me. Head to the fifth level."

A fourth-circle senior wizard asked, "Lord, are we not going to search for the third level?"

Farrah said, "The third level is a Land of Wind Element. Even if we can find the Truth Oddity, there's a high chance that it's an Earth-Grade wind-elemental treasure. Furthermore, we can't avoid conflict with the Storm Faction. To our family, other than the second level, the fifth level is the true treasure land. Time waits for no man. If we were late, those resource points that are easy to explore would have long been looted by others."

"Understood!"

The four of them quickly headed to the entrance of the fourth level.

"Eh, this is?"

Farrah looked puzzled. He grabbed at the air and a purple pillar landed in his hand.

This pillar was crystal clear, and there were patterns similar to skin on its surface. At the other end of the pillar was a clenched fist.

"This looks like the arm of the Amethyst Race... It looks like it was dropped by the Level 5 Amethyst Race. This is a rare level 5 material. It can be said to be superb when used to make a Wizard Tool. Hahaha, so there's really such a good thing as a pie falling from the sky. My luck has finally changed!"

He had a strong feeling that he would gain a lot on the fifth level. When he returned, Lady Green Robe would definitely reward him well!

...

On the third floor, a scarlet hole suddenly split open in midair.
