

Wizard 116

Chapter 116: Battle of the Grand Knights! (2)

"What? I don't know."

Crack! The soldier's head turned 360 degrees.

Levi found a new person. This person seemed to be a team leader with the strength of a Quasi-Knight.

Of course, he was like a chick in front of Levi, unable to retaliate.

"Tell me, where is the Wild Boar Knight?" Levi asked.

The team leader struggled, 'Who are you? Let go of me! Do you want to die?'

It was not until Levi crushed his shoulder blade that he finally quieted down.

"I'll ask you again, where is the Wild Boar Knight? My patience is limited. Don't disappoint me," Levi asked coldly.

The team leader quickly said, "I'll talk, I'll talk... Please don't kill me. The vice president sent Wild Boar Knight to execute missions. I don't know where he went exactly. I'm a small team leader, and the Wild Boar Knight oversees the equipment department. I don't know where he is...."

"Where is your vice president? What strength is he at?" Levi asked.

"Our vice president is on the battlefield. He has the strength of a grand knight."

"Alright, you may die now."

Levi killed the team leader and hid in the wilderness.

"Good heavens, when did the Wilderness Brotherhood become so strong? The vice president is already a grand knight?" Levi was puzzled.

"Why is it so difficult for me to take revenge on the Wild Boar Knight?" Levi was speechless.

"Forget it; let's wait and see how strong this vice president is. Why haven't I seen him since he came to the battlefield?"

Levi secretly observed the battlefield.

At the same time, his sharp eyes noticed that Silver Mountain Knight, who was fighting with the four Ilce Rhinoceroses, did not notice that in the corner of the battlefield, a bald figure riding a warhorse,

wearing armor, and holding a huge axe was advancing savagely. The Silver Mountain soldiers who blocked his way were sent flying; some were split into two by the huge axe.

"Die!"

The bald man sneaked an attack on the Earl of Silver Mountain!

The axe landed on the Earl of Silver Mountain's back.

Even though the Earl of Silver Mountain had already dodged in advance, he was still hit.

The axe surrounded by black gas did not split the Leviathan Armor.

However, the huge impact sent the Earl flying, and he spat out a mouthful of blood on the spot. When the other commanders saw this, they immediately opened the city gates. Hundreds of heavily armored cavalymen shook the sky and earth as they charged forward with spurs in their hands.

Even the bald man had no choice but to dodge.

The Earl of Silver Mountain looked gloomy. He took this opportunity to stand up, holding his silver spear and looking at the proud bald man.

The Earl of Silver Mountain asked after coughing, "Who are you? I didn't expect there to be a grand knight in the Northern Territory that I didn't know."

"Hehe, it's normal for a grand knight like the Earl of Silver Mountain not to know a nobody like me. But soon, you nobles will know my name."

"Remember, I am the gravedigger of your nobles! Warrior Yatos!"

The bald man got off his horse and leaped over the crowd. He swung his axe toward the Earl of Silver Mountain with a heaven-splitting posture.

"A mere rat! Die!"

The Earl of Silver Mountain was not afraid at all. He raised his spear and charged forward!

The spear and axe collided. No one dared to approach where the two grand knights were fighting. If they got close and were scraped, they would die instantly.

The heavy responsibility of dealing with the Giant Rhinoceros eventually fell on the Silver Charging Team and the other high-level and peak knights who defended the city. They were the left and right arms of the Earl of Silver Mountain, and their strength was extremely potent.

Levi sat on the mountain and watched the tigers fight. He originally did not want Icewind City to be breached. If the defenders could not hold on, he did not mind helping and killing those beasts.

However, the current situation was not too bad. It was obvious that even if the bald vice president had ambushed the Earl of Silver Mountain and injured him, he was still not a match for the Earl. After several rounds of confrontation, the bald man had already fallen to the ground.

"This should be the difference in breathing techniques. The bald man's combat techniques are not inferior to the Earl of Silver Mountain's. However, the Earl's breathing technique is of perfect grade, so the bald man must be of excellent grade," Levi commented.

After observing the battle between the two of them, Levi was confident. Even if he did not use the Frost Giant's Sigh, with his current top-tier defense, speed, strength, and Golden Cross Slash, he should be able to fight the bald man.

In addition to the seals and poison techniques he had mastered, his chances of winning should be above 70%.

If he used the Frost Giant's Sigh, his chances of winning were 99%.

He did not say 100% because Levi was more conservative and worried that something beyond his control would happen!

Of course, even so, Levi would not underestimate his opponent. He would go all out and attack with full force!

Levi continued to observe the battlefield. He did not want the bald man to die here. He still needed to interrogate him and make him confess the whereabouts of the Wild Boar Knight.

Sure enough, it did not take long for the bald man to realize he could not beat the Earl of Silver Mountain. On the one hand, his breathing technique was inferior. On the other hand, his armor was also inferior to the Earl of Silver Mountain's Leviathan Armor. In just a few moments, it was pierced by the Earl of Silver Mountain's mithril spear. He was also stabbed in the abdomen, and blood flowed out.

This made the Earl of Silver Mountain realize how invincible the armor forged by Master Tyra was!

Yatos, the vice president of the Wilderness Brotherhood, decided to escape and let the Ice Rhinoceroses continue charging at the Silver Mountain Knight.

He hid himself in the army and disappeared.

After advancing to the grand knight rank, he thought he would be on par with Silver Mountain Knight. However, he had underestimated his opponent's strength. The Silver Mountain Knight's battle armor was much stronger than his own. It was obvious that it was a Blacksmith Master's work!

This made Yatos hate him. If it was ordinary battle armor, then his axe at the beginning might have been able to injure his opponent severely!

He was not the commander of this battle, to begin with. He was only here to execute the beheading operation. Now that the beheading operation had failed, he could only retreat first and make plans later.

Levi was hiding in the army in the dark. He needed to get close to the bald man to cast the Frost Giant's Sigh.

Very quickly, the vice president had already left the battlefield with a small team.

"D*mn it; the Silver Mountain Knight must have been hiding his strength." Yatos was very unconvinced.

At this moment, his sharp senses as a grand knight detected an aura rapidly approaching.

At the same time, the sound of arrows piercing the air could be heard.

He turned around and saw that his men had all fallen.

A figure wearing a White Wolf Mask rushed over at an excessive speed.

A cross-shaped sword light attacked, but Yatos blocked it with his giant axe, surrounded by violent black gas!

"You're Silver Mountain's man? Die!" He roared and exploded with great force!

Metal clashing, Levi's body grew larger and larger amidst the crackling sounds, and white smoke filled the forest.

Under the mask, Levi smiled.

The cold wind whistled, and the shadow of a mighty Frost Giant rose with a sigh behind him. The Giant looked at Yatos and snapped his fingers as if staring at an ant..
