Chapter 117: Instant Kill, Level 2 Hell! (1)

The shadow of the Frost Giant appeared behind the White Wolf Mask. It was tall and imposing, like a demon looking down on all living beings.

This shocking scene was forever fixed in the mind of vice president Yatos.

Crack, crack.

The blood in his body began to cool down rapidly and coagulate.

The water vapor in the air condensed on the surface of his body, forming layers of frost.

However, a powerful Life Seed resembling a goat roared in his heart.

Endless black gas shot out with a bang, like a warm current, protecting his heart.

This gave him a chance to live.

His stiff body seemed to be recovering.

However, that was all.

In the next moment, Levi was singing in a low voice.

The scorching yellow-white flames carried a burning airflow, and the high temperature assaulted his face!

Yatos struggled desperately, trying to avoid all this, but his body did not listen.

This feeling of watching danger come but not being able to dodge it was too terrifying!

His armor was scorched black. The high temperature made Yatos want to scream, but his frozen throat could not make a sound.

This pain was like a ghost pressing down on his bed, making him feel a long-lost fear.

After advancing to a grand knight, he had far more power than ordinary people, so he rarely felt fear.

Even though he was disadvantaged against the Silver Mountain Knight, he knew his life was fine. He was only slightly injured.

However, the situation before him made him realize that he had met a truly powerful enemy.

The other party might not even be a knight!

It was more like the legendary...wizard!

A wizard who specialized in close combat!

Under the sudden attack of the other party's spell, Yatos had no power to resist. From the beginning of the battle, he had fallen into a passive position.

Yatos was anxious. He also had a supernatural trump card like the other party.

A snuff bottle could summon a "Lord Lamp Spirit" to fight for him. It was a powerful evil spirit.

However, the unfortunate thing was that not only could he not move, but his throat could not make any sound!

He had never felt so hopeless!

After the fire, the cross-shaped sword light that was as dazzling as the stars, with invincible high-level ripple power, shattered Yatos' armor.

Levi's Frostmourne had already pierced through Yatos' chest.

Yatos's Life Seed, the goat-like monster, desperately used black gas to repair his heart, but it was useless.

The poison of the Man-Faced Spider's Tear had already spread through his body.

The battle had ended at this moment. Yatos was on the verge of death.

Levi used a dagger and arrows to nail the bald man's limbs to a tree.

"Hey, have you heard of the Wild Boar Knight?"

A hoarse and deep voice came from under the mask.

The desperate Yatos were full of doubts. He knew that he was going to die soon.

He wanted to summon the Lord Lamp Spirit but could no longer make a sound.

Levi thought that Yatos did not want to answer him.

"If you refuse to speak, go to hell."

Levi, who was under the mask, could not help but sigh. He had crushed Yatos' heart, and the Life Seed in the shape of a goat was burned to ashes by the flames.

Levi panted.

He was still very nervous when he fought against the grand knight. He had to focus and could not relax.

This time, to fully unleash the power of the Frost Giant's Sigh, Levi was very close to Yatos. The terrifying frost instantly froze Yatos.

Even a grand knight could not fight back.

Levi let out a breath of cold air. The spell would not hurt him, but he could still feel the cold.

Levi was cleaning up the battlefield. The soldiers were all very weak, and they were not even knights. They were out fighting, so they naturally had nothing valuable on them. Li Wei piled them up and burned them.

Even the vice president, who seemed to be called Yatos, had nothing valuable on him. He only had a few gold coins, which was better than nothing.

"The most valuable thing is his corpse."

"My Seal of Hell is about to reach level 2. I can command two living dead and two grand Imights to protect me by then. This is a treatment that only the King and the Pope can enjoy."

Levi was delighted.

Suddenly, something rolled down from Yatos's body and caught Levi's attention.

It was a black snuff bottle.

"What is this?" Levi frowned in his heart, and at the same time, he became vigilant.

His Spider Sensing did not respond, so it should be safe.

However, Levi was not sure. After all, Spider Sensing was not completely accurate.

At the same time, Levi noticed that some of the patterns on the snuff bottle seemed familiar.

"Right, it's similar to the pattern on the Frost Giant Armor."

Levi lifted the bottle and compared it to the Frost Giant Armor.

As expected, although the content of the picture was different, the style was indeed the same.

"This snuff bottle seems to have been enchanted with a spell."

"This could be a wizard's item?"

Thinking of this, Levi became extra cautious. He could not stay here for long. He prepared the Seal of Protection and left with the snuff bottle and Yatos' corpse.

The battle lasted for a day and a night.

Without Yatos, the grand knight, to hold the line, Silver Mountain Knight and his Armor-Breaking Crossbow on the city wall successfully took care of the four Ice Rhinoceroses..
