Chapter 1181: Renia Advances to Fifth-Circle

Year 1170 of the Holy Brilliance Calendar, Month of Flowers.

Dark Ancient Tower, fourth floor, Sea Continent.

After several years of development, the mainland, along with the surrounding Celestial Ring Celestial Ring Archipelagos, had been divided among the five forces of the 'One Surpassing Four.'

Sea Covenant, Burning Battle Group, Colossus Divine Tower, Thunder God's Hammer, Valley of a Thousand Winds.

Among them, the Sea Covenant led by the Six Towers of the Endless Sea and led by the Ocean School of Thought was the most powerful.

The fourth floor was the home ground of the Ocean School of Thought. However, due to the existence of the Sea Continent, the resources here didn't belong just to the Ocean School of Thought.

Therefore, the top wizard organizations of the other guilds sent a portion of wizards to guard the fourth floor.

Thus, the current situation of 'One Surpassing Four' was formed.

Of course, the Shadow School of Thought, Bronze School of Thought, School of Death, and others also had their own forces stationed there, but they were relatively weaker.

Without a powerful organization, only those who attained Perfection with fourth-circle or even fifth-circle were qualified to dominate the mainland and take a share of the profits.

Apart from that, although the Amethyst Race, Dragon Abomination, and the other races had a small number of people, they were powerful foreign tribes who always came to the Sea Continent to cause trouble.

In short, under the generally stable situation, undercurrents surged.

The ones who suffered the most were still the unorganized nomadic wizards and the weak foreign races.

The various forces had already divided up the cake, leaving nothing for them.

They were either searching for resources on the vast sea or sneaking around in the territory of these wizard organizations. Most of them chose to join large organizations and become their 'temporary workers' to earn some leftovers.

On the sea, ferocious and powerful sea beasts often appeared. There were even grade-6 aquatic beast kings hiding in the deep sea, dominating an area and turning many resource points into restricted areas!

The place occupied by the Sea Covenant was the Western Continent of the Sea Continent.

The six towers divided the resource points equally, each occupying some. They agreed not to disturb each other, but they could invade the 'Eastern Continent', which was the territory of the other 'top four'.

Thunder Mountains.

This was the territory of the Letney Family, one of the six towers. It was guarded by a fifth-circle wizard from the family, and there were dozens of fourth-circle wizards below. In reality, there were only five official members.

The person sent here by the Letney Family was the Golden Thrower Godfrey.

He was already more than nine hundred years old and was already in his later years as a fifth-circle wizard. However, he was still an ordinary fifth-circle wizard. It was difficult for him to make any progress and he did not have much potential in the future.

He had two children, the youngest son, Jeffrey Leo, and the eldest daughter, Renia.

Jeffrey Leo was two hundred and seventy years old, a fourth-circle ordinary wizard. His talent was not bad, and he should have no problem becoming a fifth-circle wizard.

Renia was different. She was 300 years old and had already attained Perfection in the fourth-circle realm. She had obtained an Earth-Grade Truth Oddity, [Dance of the Thunder Butterfly], in the Thunder Mountain Range a few days ago.

Now that she had refined it, today was the day she came out of seclusion.

Not long after, a golden light shot over and appeared in front of Godfrey.

It was Renia. She was two meters tall and had a well-proportioned body. She was holding a fifth-circle Wizard Tool, [Golden Thunder Spear], and golden lightning surrounded her like a Valkyrie.

Renia's rough voice said, "Father, I've already advanced to the fifth-circle realm. I plan to use a year to consolidate my realm before heading to the fifth level. This time, I will definitely bring honor to you and the family!"

Godfrey laughed heartily and was in a good mood. "Good, good. The student has surpassed the master. In another hundred years, your strength will surpass mine. Whether or not our branch can gain a firm foothold in the Letney Family and advance to the primordial soul realm depends on you, my daughter!"

"I'm still far from you, Father," said Renia modestly. "By the way, where's Jeffrey?"

Godfrey said casually, "He got a Contract Wizard Tool left behind by an ancient wizard a few days ago. He found a group of people and went to the sea to look for a level 4 sea beast."

“Although the sea is very dangerous, my brother does need some experience,” said Renia.

Godfrey smiled and said, “That’s all his talent can bring him to. He’ll only be able to advance to fifth-circle in his life, so I have let go of it... Renia, Father’s hope is all with you now. Work hard. I can’t accompany you too far in the future. I can only help you pave the way as much as possible. Don’t show off when you go to the fifth floor. Be with the main group. Safety first.”

“I understand, Father. However, don’t spread the news that I have advanced to the fifth-circle...”

“Understood. This is an ancient tower, so we must preserve some of our strength and trump cards.”

...

On the sea.

A small group of Flying Scythe Beasts was flying.

Their sharp gazes swept across the area.

Suddenly, the leading scythe beast found its target.

It was a giant turtle the size of an island. It was dozens of meters long and was probably at the peak of level 4.

It had a single horn on its forehead, and its head was like a giant dragon. It was lazily lying on a white beach, sunbathing.

According to Lord Scythe, this sea beast might contain something that he needed.

“Found it, found it.”

“Quick, quickly inform Lord Scythe.”

“Hehehe, our team discovered it first. Lord Scythe will definitely praise us!”

“That’s right! That’s right!”

....

Sea Continent.

Eastern Continent.

The Dark Elf Forest.

This place was rich in herbs, especially those plants that liked dark and damp places.

Chapter 1182: Attacking Shadow Circle

It was said that a powerful Dark Elf Mistress once lived here, and she was a rank 6 existence.

Tens of thousands of years ago, when the ancient tower was opened, this Mistress, for some unknown reason, had an intense battle with a primordial soul wizard from outside.

In the end, the primordial soul wizard killed the Dark Elf Mistress, and this place became a land without a master.

Elves were born to grow crops, and they were Master of Pharmacy. Many of the wizards' potions were imitated from the elves' knowledge.

In the middle of the forest, the Shadow Tower stood tall, and the flag of the Shadow Circle fluttered above it.

This was the Shadow Circle's base on the fourth floor. The leader was a fourth-circle wizard named Shadow Shark.

His expression was unsightly. Not long ago, Shadow Crocodile and Shadow Hound had died on the fourth level. He had sent people to search for clues, but they had found nothing.

“Shadow Crocodile’s strength is not weaker than mine. How could he suddenly die? He’s not stupid. He wouldn’t provoke a fifth-circle wizard or a member of the Amethyst Race. Even if it was Dragon Abomination, he had killed one before. How could this be?”

Shadow Shark was puzzled.

Suddenly, the rumbling of the array sounded outside the camp.

Shadow Shark hurriedly led his subordinates to fly out to investigate.

Outside the array, a huge crab flew over on clouds and mist. It spat out wind blades and attacked the array.

“What happened?” asked Shadow Shark.

“Sir, I’m not sure. A level 5 transcendent creature suddenly appeared and attacked our grand array.”

Shadow Shark frowned and said, “There are only so many level 5 transcendent creatures on this continent. We’ve never provoked them before... It must be the enemy who set us up!”

“Everyone, rely on the array to fight the giant beast!”

In an instant, more than ten fourth-circle wizards flew out from all over the place. They were all members of the Shadow Circle or temporary workers.

High up in the sky, Levi used the Hermit Rune to hide in the white clouds.

“Sawkins is really my good brother. If there’s anything, he’ll really go for it.”

Levi was in a good mood. He did not need to do it himself, and it was comfortable.

And the price he paid was gold.

Money can make the devil turn the millstone. The ancients really did not lie.

“Quick, the array can’t hold on any longer. Which b*stard set up this array? Why did it only last for a short while?” Shadow Shark’s cursing voice sounded.

“Sir, I was the one who set up the array. There should be no problem. There should be another array expert nearby who tampered with the array!”

“Who are you lying to? There’s only one crab nearby. Don’t tell me that crabs know arrays too!” Shadow Shark’s voice was low.

“It is not impossible...”

“Get lost! Hurry up and set up the array again!”

While the crowd below was in chaos, Levi was quietly watching the show.

He learned the location of the Shadow Circle’s base from Shadow Crocodile.

There were quite a number of resource points on the fourth floor. Levi planned to hide here for a while and collect some resources before heading to the fifth floor.

He would just let Sawkins do whatever it wanted and let Sawkins do all the bad things.

It didn’t take long for the inferior array to be broken by Sawkins.

The big green crab waved its huge pincers and killed a group of fourth-circle wizards.

Only Shadow Shark could fight against the Green Crab. The other wizards could not dodge the attack and were directly cut in half.

A wizard took advantage of the chaos to escape the attack range of the big green crab and was about to escape.

Seeing this, Levi sneered and disappeared into the Scarlet Dark Dimension.

The fourth-circle wizard flew a hundred miles in one breath and could not help but heave a sigh of relief. He was the only array wizard.

“D*mn it, the Shadow Circle has offended a big shot. I’ll lie low for now.”

As he flew, the Scarlet Dark Dimension behind him cracked open and a pitch-black dragon claw extended.

“Who is it?”

A moment later, this array wizard had vanished into thin air.

Levi returned to the top of the cloud and took out the item to take a look.

“Not bad, there’s actually a fourth-circle array inheritance and so many herbs. It seems that the Shadow Circle has earned quite a lot here. These d*mn top-tier organizations don’t give ordinary nomadic wizards a way out. Today, I’ll beat up the local tycoons, divide the land, and rob the rich to help myself!”

Levi did not have a good impression of the Shadow Circle. That was because their people had been trying to assassinate him several times now.

It reminded him of the days when he was targeted by the Bird of Death’s Voice in the human world.

Not long after, Sawkins had killed all the wizards in the Shadow Circle’s encampment.

Its huge pincers were bathed in blood and turned into a red crab.

Sawkins arrived at the top of the clouds, and Levi’s figure appeared.

He collected the spoils of war on the ground and found that there were indeed some dusty Fate Coins in these people’s storage rings.

“I didn’t lie to you, right? We’re family, so we won’t lie to each other!”

Levi handed a box of Fate Coins to Sawkins, who moved back and forth and happily swallowed all the Fate Coins into his body.

It was still eager to try more.

The white Elder Flying Scythe Beast in charge of translation said, "Sawkins asked where we should go next."

Levi patted the big green crab's head and said with a smile, "Let's take a rest first. There's no hurry. This will be our base from now on. Protect this place well."

Sawkins nodded.

Before Levi could see what was in their storage rings, he suddenly heard the voice of the Flying Scythe Beast in his mind.

"Lord Scythe, Lord Scythe, our turtle has been taken away!"

"Lord Scythe, Number 233 is dead..."

It was as if his mind had exploded. There was a Flying Scythe Beast communicating with Levi.

“Sawkins, stay here. No one is allowed to approach this area!”

The big green crab waved its pincers, indicating that it understood.

Chapter 1183: Lightless City

Levi left three corpse demons and a group of undead spirits here to assist Sawkins while he brought Leon and tore open the Scarlet Dark Dimension, quickly flying towards where the Flying Scythe Beasts were.

His expression was cold. How dare someone kill his Flying Scythe Beast believers? No matter who it was, they had to pay the price!

Otherwise, wouldn't he be humiliated as the God of the Flying Scythe Beast?

...

Nora.

In the Dark Realm.

This was the dojo of the Shadow School of Thought.

The Shadow School of Thought had once been glorious because they once had a Legendary Wizard. Of course, now the Shadow School of Thought was considered a second-rate school.

Other than a few Grand Wizards who held positions in the Central Realm, there were no Legendary Wizards.

In the entire guild, there were only three top wizard organizations. The Shadow Circle was one of them.

“What happened? Why would a level 5 Transcendent creature attack our base?” One of the wizards was puzzled.

“I don’t know. This is too unfair.”

“That’s right. A level five bullying a level four is nothing. The keeper of order doesn’t care.”

“That big crab might be a native creature. It can attack as it pleases. No one cares. Someone must be controlling it from behind.”

“I’ve seen this crab before. It was originally on the third level... Why did it suddenly reach the fourth level?”

“Someone must have brought it over. This is cheating!”

Shadow Tower.

A black-robed wizard who was hidden in the shadows watched this scene with a cold expression.

Their Shadow Circle's branch on the fourth floor was completely destroyed in just a few months...

"Shadow Crocodile died a few months ago, and Shadow Shark and the others also died. There must be some connection between them. It should be the doing of that Dragon Abomination who killed Shadow Crocodile... Preposterous!"

This large Green Crab was a Lord-tier creature on the third floor. Over the years, there had been wizards who had tried to take it away through a contract, but all of them had ended in failure. Even the fifth-circle wizard had returned resentfully.

They don't know what method this d*mn Dragon Abomination used to abduct the crab away!

This Dragon Abomination, he speculated that it should be the Three-Headed Dragon Abomination that had gained some fame some time ago.

That guy fought three people alone and killed three Amethyst Race members. His strength was indeed not bad. He should be at the level of a fifth-circle ordinary wizard.

“I’ll let you be arrogant for a while longer. When you enter the fifth level, someone will naturally follow the tracking mark to finish you off.”

He had already sentenced the Three-Headed Dragon Abomination to death in his heart!

He didn’t think that Dragon Abomination, this kind of brawny and simple-minded creature, could get rid of the tracking mark.

On the fifth floor, there were five fifth-circle wizards in the Shadow Circle, and one of them had attained perfection in the fifth-circle realm!

Unless this Dragon Abomination invited the elders in their race to take action, it would die without a doubt!

...

Dark Ancient Tower.

Fifth level.

In the southern part of the Io Continent, where the Montenegro Mountain met, the Lightless City.

As the name suggested, this city had no light.

The intersection of Montenegro Mountain was covered by dark clouds all year round, and the sun could not be seen.

The cultists, evil mages, foreigners, and other forces wanted by the Order of Chaos gathered here.

The dominant religion here was the [Mountains Church].

This was a cult that believed in the [Lord of the Mountains]. The head of the cult was a level 6 existence, the [Deer Head Sage]. The residents of Lightless City called him the “Mountain God”.

In a mansion in the city, a few wizards dressed in aboriginal clothing were plotting something big.

The leader was a bald old man who looked old.

He was the commander of all the fourth and fifth-circle wizards in the Shadow Circle of the ancient tower.

Shadow Dragon Seidyaz.

He had attained Perfection in the fifth-circle realm and had once failed to break through to the primordial soul realm. He was lucky enough to survive, but he had also cut off the path to the primordial soul realm.

Now, in order to unleash the last of his glory, he, who was more than 800 years old, came to the ancient tower to collect resources for the organization.

He also had a younger brother, Shadow Wolf Matthias.

He said coldly, "Not long ago, the members we left on the fourth floor were all killed, including Shadow Crocodile and Shadow Shark, who had attained Perfection in the fourth-circle realm."

Another fifth-circle wizard was shocked and said, "It's already been five years, and there's still someone who can kill Shadow Crocodile and Shadow Shark on the fourth level?"

Shadow Dragon frowned and said, "There's a high chance that it's done by other wizard organizations stationed on the fourth floor. Because we're two worlds apart, I'm not sure if the tracking mark is effective. Everyone, pay attention. If the tracking mark is active, then the murderer who killed them must have come to the fifth floor. When the time comes, send two fifth-circle wizards to deal with him and snatch back our resources!"

"Understood!"

“Now, let’s get back to business. According to the intelligence, the Deer Head Sage will sleep for a period of time every hundred years. It’s said that his soul is communicating with the Lord of the Mountains. This period is the best time for us to make our move! Every thousand years, a sky-level oddity [Language of the Night Deer] will be born at the intersection of Montenegro Mountain. It’s the most suitable Truth Oddity object for the Shadow Faction. These natives don’t know how to refine the Truth Oddity at all, so they must have hidden it in the Church’s treasury.”

...

On the third floor of the ancient tower.

Levi hurried over and finally arrived at the place where the small group of Flying Scythe Beasts were.

Levi found these little guys in the Wind Disaster Stratum. They hid here, shivering.

In order to facilitate communication, Levi gave these Flying Scythe Beasts names, numbering them from “Number 1” to more than 1,000.

“What happened?” he asked.

“Someone stole the turtle we found first. Number 233 went to argue with them and was killed... Sob, sob.”

Chapter 1184: Avenging Number 233

Flying Scythe Number 222 cried.

It was also injured, but it had recovered.

“Who treated your injuries?” Levi asked.

“It was a bear...” Number 222 replied.

“Bear?” Levi pondered. It was still a little difficult to communicate with these little fellows. They were just like children.

“Bear Bear went to chase the bad guys, but it shouldn’t be a match for the bad guys. There are too many of them.”

“Where are the bad guys?”

“Number 203 is following the bad guys. Lord Scythe, please look for Number 203.”

Levi patted the Flying Scythe Beasts and comforted them.

“In the future, if you encounter bad guys that you can’t beat, hide in the Wind Disaster Wind Disaster Stratum. Don’t show off!” said Levi.

“Alright, Lord Scythe. Sob, sob, sob, you’re so nice.”

Levi’s figure flashed and he flew towards Number 203.

With the help of the Scarlet Dark Dimension, he soon caught up to Number 203.

He pulled it to the Scarlet Dark Dimension.

“Lord Scythe, you’re here. Those people are right in front. They took away the turtle we found, and Number 233 is dead too. Sob... Oh right, please quickly save Bear Bear. It saved us and healed our injuries. Now, it’s been captured by the bad guys.”

“I understand. Find a place to hide. There’s going to be blood next. Children can’t see it,” said Levi

Number 203 obediently hid in the Wind Disaster Stratum and nodded repeatedly.

Levi’s Hermit Rune flickered as he chased after them, his heart filled with killing intent.

There were four wizards flying ahead.

The leader was wearing a golden robe with sharp lightning patterns on it.

“The Letney Family? I think I’ve seen this person before. A long time ago, at the Nether Capital auction, this person fought with the Wildbone wizard for Madam Ye’s Heart Potion.”

Other than that, the other three wizards seemed to be nomadic cultivators.

There was even a fourth-circle senior wizard who was close to attaining Perfection in spiritual force, but he still followed the lead of this disciple of the Letney Family.

Beneath the feet of the four wizards, a giant turtle was riding the currents and flying in the air.

Upon seeing this, Levi’s eyes narrowed.

“Single-Horned Dragon Turtle, hiss... This isn’t a hybrid dragon. This is a genuine sub-dragon species that has hopes of advancing to the primordial soul realm in the future! D*mn it, how can I let you steal such a great opportunity from me?”

If it were anyone else, they might be afraid of his identity as a member of the Letney Family and not dare to make a move.

Levi was different. He had a lot of debt, but it didn’t weigh on him.

It had only been five years since he entered the ancient tower, but he had already offended the Hurricane Steeple, the Shadow Circle, the Amethyst Race, and even Dragon Abomination... After all, he had always been using the identity of Dragon Abomination to do bad things.

Besides, he wanted to avenge Number 233!

As long as Levi recognized them as his family, even if they were insignificant little beasts, they could not be bullied.

Behind one of the fourth-circle wizards, a chain was dragging a slightly round bearman. The bearman was covered in injuries and his breathing was weak.

The bearman looked like it was part of a fur clan, but they were fundamentally different. They were also wearing clothes similar to the ancient clothes of Levi's previous life.

Levi guessed that this might be the Panda Clan that the Flower Knight had mentioned.

"Looks like he saved my scythe beast. Forget it, I'll save him as well."

In front.

Jeffrey Leo was feeling very pleased with himself.

“Congratulations on capturing a sub-dragon as your pet today. From now on, you will soar to the sky!”
The strongest wizard complimented.

“Thank you, Sir Whitefield. If it weren’t for your help, I wouldn’t have been able to take down this peak level 4 Single-Horned Dragon Turtle. When I return, I will tell my father about this and put in a good word for you in front of him. From now on, you will be friends of the Letney Family. No one will dare to provoke you on the fourth floor.”

“Thank you, Sir Jeffrey Leo.” “Whitefield said with a flattering smile, “This One-Horned Dragon Turtle has a long lifespan, even Legendary Wizards can’t compare to it. Although it grows slowly, there are records of it advancing to level 8 in history. It’s a top-grade sub-dragon species. It’s also good at defense and is very suitable to be the guardian of the family. With this beast guarding Sir Jeffrey Leo’s bloodline, there might be a primordial soul guardian in the future. It’s really enviable.”

“Hahaha, I don’t have much hope for primordial soul. It’s enough if I can advance to the fifth-circle in my lifetime and be famous in the Endless Sea for a while!”

The group of wizards chatted and laughed. It was very lively.

Suddenly, a dragon claw poked out from the scarlet hole behind Whitefield.

The force field on Whitefield's body flickered, but it was instantly shattered. The dragon claw grabbed him into the scarlet crack, and with a miserable cry, Whitefield's breath cut off.

Seeing this scene, Jeffrey Leo's expression changed drastically. He took out a golden scroll without hesitation and tore it up.

Before the dragon claw could reach him, a golden bolt of lightning struck Jeffrey Leo.

In the next moment, his figure disappeared from where he stood, leaving behind a terrified and angry voice. "I don't care who you are. You offended my Letney Family. On the fourth level, you are seeking death!"

"Eh? Teleportation scroll? It seems like he's the child of a big shot. Although he's a good-for-nothing, he's decisive. He directly gave up on this sub-dragon turtle."

He released his spiritual force and sensed that there was no trace of Jeffrey Leo around. It seemed that he had been teleported to a distant place.

"Who are you? We are the external wizards of the Letney Family!" A wizard shouted, his face panicking as he frantically fled.

Chapter 1185: Collecting the Sub-Dragon Species

"Hehehe, I am Dragon Abomination!"

Levi's figure disappeared, and when he reappeared, he was already above the wizard's head.

He swung his spiked club!

The wizard's force field and Wizard Tool were all shattered, and he was killed in one hit.

In the end, there was only one wizard left sitting on the back of the Dragon Turtle.

"Don't kill me..."

He prostrated on the ground and begged for mercy, not daring to look directly at Dragon Abomination.

Levi grabbed him and entered the Scarlet Dark Dimension. After interrogating him for a while and understanding some of the situation, he killed him.

"Thunder Mountain, Golden Thrower Godfrey, and his son, Jeffrey Leo, I see..."

Now that he knew where the Letney Family was, Jeffrey Leo was definitely crying for his father.

The Golden Thrower was only a fifth-circle ordinary cultivator, far inferior to Sorrett.

However, the spells and Meditation Art of the Letney Family were more outstanding. In addition, he had lived for a long time, so his strength should be stronger than Madam Ghost's, but there was a limit to his strength.

"In that case, I'll go to Thunder Mountain after I'm done here. I'll kill that old thing so that they won't come after me and bother me."

Levi already had a plan in mind.

After its master escaped, the Dragon Turtle below remained rooted to the ground.

When Levi arrived in front of it, it actually wanted to attack Levi.

He released a terrifying dragon's might that swept toward the Dragon Turtle.

The Dragon Turtle was shocked. It controlled the water current and wanted to escape.

"It seems that this Dragon Turtle has been contracted by that kid with a Wizard Tool. Otherwise, the Dragon's Might that I just released would be enough to subdue it. I still have to deal with that kid first."

Levi had no choice but to go in front of the Single-Horned Dragon Turtle.

The Single-Horned Dragon Turtle charged at Levi. Levi stood in the air and put down his spiked club. His muscles bulged and black flames surrounded him.

Boom!

At the moment of collision, he grabbed the Single-Horned Dragon Turtle's head and picked it up. He flew high and smashed it into the sea!

"Little thing, you're no match for me. I happen to be lacking a mount, so I'll take you!"

After a round of fighting, Levi did not even breathe heavily, while the Dragon Turtle was exhausted and could not get up again.

It was not a match for Levi to begin with, and it had already exhausted too much of its stamina from Jeffrey Leo and the others.

"I'll take it home first and let Sawkins watch over it."

Levi carried the turtle and the bearman and then rushed back to the Dark Elf Forest.

...

Several days later.

Thunder Mountains.

Godfrey was counting the resources he had harvested today.

“That’s right. There are so many lightning-type herbs. Moreover, we’ve discovered a new lightning mine. It’s estimated that we can mine more than 100,000 cattles of lightning-refined iron in the future. Just the contribution points exchanged for lightning-refined iron are enough to exchange for a potion to break through to the primordial soul realm for Renia when we return to the family... In the next few decades, I’ll mine all the ores in peace. That’s enough.”

Suddenly, a figure with a gloomy expression and an aggrieved expression rushed in. It was Jeffrey Leo.

“Father, you have to seek justice for me!” Jeffrey Leo cried.

Godfrey rebuked angrily, “What is it? How can you be so flustered!”

His love for Jeffrey Leo was obviously not as great as Renia’s.

Jeffrey Leo said, "I... I was bullied by a Dragon Abomination. That fellow killed three of our external wizards. I used the teleportation scroll you gave me to escape!"

Godfrey's expression changed. "What? You actually used that precious teleportation scroll? You little b*stard, do you know how rare those scrolls are? I paid a huge price to get these two scrolls from the primordial soul elders. Your sister hasn't used them yet. She's letting you go out every day. Sigh, you're really making me mad!"

"Father, I almost lost my life. That's the main point!" Jeffrey Leo was furious. Why did his father still care about that scroll?

Was he not his biological son?

"Leave. You asked for it. The Dragon Abomination Clan is very powerful. It's impossible for me to provoke a powerful enemy just to avenge you. I have more important things to do now. If you stay in the Thunder Mountains, no one will do anything to you."

Godfrey's words were so heartless.

Jeffrey Leo's heart was like dead ashes. He said unwillingly, "I'm sure that it's only a level 4 Dragon Abomination. My sister who has attained Perfection in the fourth-circle realm is enough to kill it not to mention you! You're a fifth-circle wizard!"

Godfrey cursed, "Bullsh*t, you troublemaker. You still want your sister to avenge you? What kind of benefits would this bring? Your sister's only goal is to advance to the primordial soul realm, not to clean up your mess. Go and check the history of the Wizard World. How many families have been destroyed

because of a troublemaker like you? From now on, you are grounded in the Thunder Mountains until the Dark Ancient Tower closes. You are not allowed to go anywhere. After you return to the Endless Sea, you are not allowed to leave the house until you enter the fifth-circle!”

Jeffrey Leo’s heart was filled with anger and even a hint of killing intent!

He suddenly felt that he was a joke in his father’s eyes.

Outside the door, his sister, who was even taller than Jeffrey Leo, pushed the door open and said calmly, “Father, let me go. Jeffrey Leo is my younger brother. I won’t let the foreign tribes bully him. Level 4 Dragon Abomination, with my current strength, I can handle it.”

Godfrey replied calmly, “No. What if it has other level 5 partners? You’ve just entered the fifth-circle, so it’s absolutely impossible for you to be a match for a level 5 Dragon Abomination. You’re still young, so you can’t be too hot-headed. These insignificant losses, just accept it.”

Chapter 1186: Attacking the Letney Family

“What? Sister, you have attained fifth-circle?” Jeffrey Leo was shocked.

“Yes,” Renia said calmly.

“Father, I know you don’t care about me, but what I want to say is that I found an underage sub-dragon and successfully contracted it. Now that the sub-dragon has been snatched by that Dragon Abomination, I originally wanted to give it to Sister as a gift. Since that’s the case, forget it...”

“Why didn’t you say so earlier, you b*stard?” Godfrey’s expression changed.

“Because you kept scolding me, so I didn’t have the chance to say it.”

“You’re still talking back to me!” Godfrey said angrily.

Renia said, “Father, that level 4 Dragon Abomination is very likely to head to the fifth level. I’ll go to the teleportation portal to block him. You send people to look for him on the fourth level. If there’s a sub-dragon, our branch will definitely prosper for a long time!”

“Alright, go ahead. I can rest assured that you’ll do your job.” Godfrey laughed.

“You can stay in the Thunder Mountains for the next few days,” he said coldly to Jeffrey Leo. “Go mine with external wizards.”

“Alright.”

Jeffrey Leo was gloomy and left expressionlessly.

“With elder sister and father taking action, that Dragon Abomination will not be able to escape even if he has wings... That sub-dragon is mine too!”

...

The Dark Elf Forest.

Levi descended from the sky.

The One-Horned Dragon Turtle was thrown to the ground, and Sawkins came over upon hearing it.

“Sawkins, look after this turtle. I’m going away for a few days,” said Levi.

“Where am I?” The bearman woke up and asked in confusion. Hearing the bearman’s voice, it was actually a young girl’s voice...

“What’s your name?”

A hideous, ugly, perverted, and crazy face of Dragon Abomination appeared in front of her.

“Monster!”

She immediately fainted again.

“Keep an eye on her too,” Levi said helplessly to Sawkins.

He left this place and headed west. A few days later, he arrived at the Thunder Mountains.

At this moment, in the Thunder Mountains.

Godfrey was cultivating in seclusion. He had already sent out a portion of the external wizards to search for traces of the Dragon Abomination.

However, the hope of finding it was not high. The one most likely to find it was Renia.

At the same time, in the sky above the Thunder Mountains, Levi was flying towards the wizard tower in front of him with the help of the Hermit Rune.

He had a vague feeling that there was a fifth-circle existence over there. It must be Jeffrey Leo’s father.

Jeffrey Leo’s Contract Wizard Tool should be with him as well.

Before he could get close to the wizard tower, a powerful spiritual force swept over.

“Looks like he’s discovered me. After all, he’s an old fifth-circle wizard.”

In an instant, rays of light shot into the sky. The sky above the wizard tower was suddenly covered by black thunderclouds.

At the edge of the thunderclouds, terrifying golden lightning kept falling like a curtain, protecting the ten miles around the wizard tower.

Wizards flew out one after another. The leader was an old man wearing a gorgeous golden lightning robe. It was Godfrey!

“Fifth-circle array, Realm of Thunder.”

Levi muttered in his heart. The headquarters of such a top-notch wizard organization definitely had a fifth-circle array. Levi had already expected this.

“Dragon Abomination?”

Seeing the newcomer, Godfrey’s expression changed slightly.

He guessed that the guy who bullied his son Jeffrey Leo had come to him. It was all this unfilial son’s fault for causing trouble for the family!

“Dragon Abomination, I don’t care what grudge you have with my Letney Family. Now, immediately return the sub-dragon you stole from my son to me and leave quickly. The Letney family can spare your life. You’re quite strong, but you’re far from being my opponent,” said Godfrey calmly.

Right now, he only wanted stability and did not want to make enemies, but that did not mean that he was afraid of a level 4 Dragon Abomination.

Hearing the commotion, Jeffrey Leo flew over from the mine.

Seeing that Dragon Abomination, he revealed joy. “Father, it’s him. It’s him who snatched my Single-Horned Dragon Turtle! Kill him quickly!”

“Noisy!”

Levi sneered and suddenly shot out. He waved his spiked club high and smashed it towards Jeffrey Leo!

“Father, save me!” Jeffrey Leo’s face changed.

“Stop!”

With an angry roar, a golden lightning chain filled the sky and took Jeffrey Leo away.

Levi's attack missed. He looked at the father and son and revealed a sinister smile.

He swung his spiked club at the fifth-circle array.

Terrifying energy poured out, and the array trembled continuously, but it managed to defend against Levi's attack.

"You can't even break the array. Don't waste your energy. I'll give you one more chance. Hand over... Monster, don't you dare!"

Before Godfrey could finish, he saw Dragon Abomination suddenly charge towards the mine.

Those thunderstruck ores were his lifeline and his daughter's hope of advancing to the primordial soul realm!

"Kekeke!"

Levi let out a strange laugh and smashed down with his spiked club!

The mine below began to tremble, and cracks spread. Fourth-circle wizards fled frantically.

At the same time, the old turtle Godfrey who was hiding in the array was forced out.

“A mere level 4 Dragon Abomination is actually so arrogant. I’ll kill you today as a warning to others! Otherwise, do you really think that my Letney Family is easy to bully?”

Behind Godfrey, golden lightning formed an electric net and enveloped Levi.

...

In the Endless Sea.

Lightning Sea Area.

The Letney Family.

“Too arrogant! This d*mned Three-Headed Dragon Abomination actually dares to challenge our Letney Family’s estate!”

“Do you really think that you can ignore a fifth-circle just because you defeated a few peak level 4 Amethyst Race members? You’re too naive!”

Chapter 1187: Attacking Godfrey the Golden Thrower

“I’ll wait for Lord Godfrey to teach him a lesson and let him know that a fifth-circle wizard cannot be humiliated!”

This time, it concerned the interests of the clan. All the wizards of the Letney Family were watching the battle.

Each and every one of them was filled with righteous indignation, wishing that they could personally go into battle and electrocute that damned Dragon Abomination to death!

Witch’s Family.

In the misty bathroom.

In her spare time from work, Triss, who relied on her bath to relax, lay in the bathtub. She looked at Anya’s photo and heaved a sigh of relief after confirming that Anya was fine.

“What has Levi been up to recently? It has been five years and he has not shown his face. Could it be that he is really dead... If something really happened, wouldn’t this kid make me feel uneasy? After all, he went in because of me.” Triss was faintly worried, and her expression didn’t look too good.

She only cared about three participants in the ancient tower: Anya, Levi, and Elena.

So far, other than Levi, the other two were fine.

“Or rather, this kid has disguised himself and has been fighting. It’s just that I didn’t notice it... I still don’t know much about him.”

Triss waved her hand, and the ceiling began to project the scene of the ancient tower in the sky.

The moment she turned on the “live broadcast”, she saw a Dragon Abomination on the fourth level laughing maniacally in front of the Letney Family’s estate.

“It’s him again. This Dragon Abomination is really arrogant.”

People who frequently watched the live broadcasts would be familiar with this Dragon Abomination.

This was because this guy had always been a high-end opponent.

He had single-handedly killed three Amethyst Race members. Later on, he even turned the remains of the Amethyst Race members into a spiked club. When he met his enemies, he would always kill them in one hit.

“Although I also hate the Letney Family, objectively speaking, this level 4 Dragon Abomination is definitely not a match for Godfrey. Level 4 and level 5 are ultimately different...” Triss wiped her slender and fair legs as she commented.

Meanwhile, in the Land of Darkness outside the ancient tower.

The Dragon Abomination Venerable's projection stood high in the sky and revealed a satisfied smile.

"Not bad, not bad. As expected of my child. What trash Letney Family? I have lived for more than 100,000 years, but I've never heard of it. So what if those two level 10 experts from the Lightning School of Thought came? Our Dragon Abomination should be like this!"

Untamed, abnormal, crazy, and evil, these were the traditional virtues of the Dragon Abomination Clan!

...

Dark Ancient Tower.

The fourth level, at the Thunder Mountains.

He saw Godfrey charging out.

Levi revealed a bloodthirsty smile. He used his spiked club to block a wave of attacks.

His body began to expand, and pitch-black dragon horns appeared.

Black flames gathered around his body and shot into the sky like a pitch-black curtain hanging down from the sky.

The curtains were pulled open, and the show began.

In the sky, a pitch-black giant that reached the heavens and the earth appeared!

The giant had three heads and six arms. Black flames covered the sky, and obsidian-like scales covered its entire body. Its muscles bulged, and its blood surged!

Behind him, 3,000 black feathers formed a true dragon wing that covered the sky!

Among the Six Heavenly Gods, this was the form of the Three-Headed Dragon God!

The Dragon God's three heads spat out black flames and dragon breath to neutralize the golden lightning net.

Six arms were holding the newly made level 4 divine weapon, Crimson Dragon Slash!

The surging black energy surged into the sword's body endlessly!

Behind the Dragon God, five giant Dragon Dharma Idols of different shapes and sizes appeared.

The powerful aura made all the creatures in the Thunder Mountains tremble!

"I, the mighty one, came here for nothing else but to tell all the foreign tribes in the ancient tower that our Dragon Abomination is the invincible race! Be it the Amethyst Race or the human race, they will all be our Dragon Abomination's stepping stones! Long live Dragon Abomination, long live Dragon Abomination Venerable!"

Levi laughed out loud, his heroic spirit soaring to the sky. The Three-Headed Dragon God raised his Black Flame Greatsword high!

Boom!

Godfrey's expression changed drastically as he swung his sword that could tear the world apart.

"This... This isn't a level 4 Dragon Abomination, it's a level 5 Dragon Abomination!"

He immediately felt fear in his heart and wanted to escape. If it was a level 5 Dragon Abomination, this would require at least a fifth-circle senior wizard to defend against the Dragon Abomination.

However, when he thought of the large mine struck by lightning and his daughter's future, he hardened his heart and calmed down.

"You're not at level 5. It's just a secret skill. It must be a forbidden skill that burns your bloodline and consumes your life force. Let's see how long you can last!"

A golden lightning spear condensed in Godfrey's hand.

"Today, I'll let you experience the might of the Golden Thrower!"

Boom!

More than 200 bolts of lightning shot out around the Three-Headed Dragon God as if it were plated with a layer of golden armor!

The [Wind and Thunder Surge] Dharma Idol behind the Dragon God flashed crazily!

The [Nirvana Dragon] Dharma Idol was constantly injecting the power of regeneration into the Dragon God's body.

Such a seamless combination, coupled with the Dragon God's powerful defense, made the Three-Headed Dragon God immortal under the terrifying lightning attack and extremely durable!

If it was another sect's fifth-circle wizard, Levi would not dare to be so presumptuous.

However, he had the Wind and Cloud Dharma Idol, and the one that he could most restrain was the Lightning School of Thought!

Seeing his father's innate spell blocked by Dragon Abomination. Jeffrey Leo, who was hiding in the array, was stunned.

"How is that possible? My father is a fifth-circle wizard... This is impossible!"

He was unable to believe that this Dragon Abomination could be compared to his father.

He and Dragon Abomination were similarly at level 4. Why was the disparity between the two sides so huge? Why?

On the battlefield, Godfrey threw lightning spears crazily, but Levi managed to neutralize them one by one.

On the other hand, Godfrey's defensive force field finally couldn't withstand the Three-Headed Dragon God's continuous sword slashes and shattered.

"Thunder Robe, protect me!"

The golden robe he was wearing shone with golden lightning, forming a new protective force field. It was a fifth-circle Wizard Tool!

The Three-Headed Dragon God ignored Godfrey's attacks and slashed down.

The fifth-circle Wizard Tool also started to tremble, and Godfrey struggled to hold on.

Looking at this scene, Jeffrey Leo didn't know what to do.

At this moment, a voice sounded in his mind.

"Run quickly, little b*stard. I'm not a match for this Dragon Abomination. Run as far as possible. The array will be broken by him sooner or later. Staying here is just waiting for death... Go find your sister and ask her to bring you to the fifth level. Gather with the main forces of the family and tell your sister not to avenge me or look for the sub-dragon. You must leave the ancient tower alive. Nothing else is as important as that!"

Hearing his father's words, Jeffrey Leo's blood boiled and his head heated up.

He hated his father for being biased and even hated him. However, at this moment, he looked at his father who was constantly being suppressed.

He wanted to charge out and fight to the death with that Dragon Abomination!

In the end, he calmed down and used all his strength to fly out.

Behind him, the Three-Headed Dragon Abomination was like a world-destroying demon god, imposing and undefeatable in the world!

His father went all out, his robe billowing. The golden net of lightning covered heaven and earth. He was doing his best to stop Dragon Abomination.

"Father, I'm sorry. I'll live on with Sister."

Jeffrey Leo regretted that he had lured the enemy here.

Suddenly, a strange black bug pounced on Jeffrey Leo and bit him.

With a terrifying chewing sound, this fourth-circle wizard was easily killed by Leon.

Before Jeffrey Leo's soul was devoured, he saw the night fall on the Thunder Mountains, and the Three-Headed Dragon God's aura rose to another level, almost transforming into a demonic dragon!

The 3,000 black tail feathers on the dragon's back turned into a storm of feather blades and fell from the sky like a waterfall, drowning his father!

He saw Dragon Abomination sitting high up on the cloud, blue veins popping out. The huge black greatsword in the six-armed devil dragon's hand pressed down horizontally until only that black mass of sword qi was left in the world!

He saw his father, who had been in the fifth-circle realm for hundreds of years and had supported him and his sister, roar indignantly, "Evil dragon! You dare to kill my son! One day, you will definitely be killed by the Letney Family!"

The sword qi fell, and the earth split open. It plowed thousands of feet before it stopped!

The Golden Thrower was dead!

Chapter 1188: The Strength of Dragon Abomination

In the Endless Sea.

The Letney Family.

At this moment, the wizards of the family were all silent.

They did not understand how that Dragon Abomination could kill Godfrey, a fifth-circle senior wizard.

“This projection is definitely fake. Haha, fake. It’s just an illusion cast by the alien race.”

“Our Letney Family is righteous and is the proud Golden Lightning. How can an evil monster defeat us?”

“Don’t worry, unless this monster continues to live on the fourth level and doesn’t step into the fifth level, once he enters the fifth level, he will be killed by the powerful fifth-circle elders of the family. Lord Godfrey is still an ordinary fifth-circle wizard, and it has been too long since he fought. Adding on the fact that he underestimated his enemy, this Dragon Abomination would not have been his match!”

“That makes sense. A momentary loss doesn’t mean anything.”

In the crowd, a cold-faced, stony-faced fifth-circle wizard stood out and said, “If this Dragon Abomination dares to appear in the Endless Sea, I, Ooi Vander, will definitely kill him!”

“If the Electric Eel Wizard were to take action, it would be a piece of cake. You don’t even need to do it yourself. Your pet [Wild Electric Dragon Eel] is enough to subdue it.”

“Isn’t that so?”

The group of wizards began to flatter him. Presumably, this Electric Eel Wizard had a high status in the Letney Family.

In fact, that was indeed the case.

He did not participate in Dark Ancient Tower not because he was weak.

On the contrary, he was a thunder Child of the Elements. When he was born, there was a phenomenon of heaven and earth fusion, and he was followed by a sub-dragon species, the Wild Electric Dragon Eel.

His great-grandfather was the Molten Gold Wizard King, one of the four wizard kings of the Letney Family. He was the most powerful figure in the Endless Sea.

He was less than 400 years old, but he already had attained Perfection in the fifth-circle realm.

Such a quasi-primordial soul talent naturally did not need to enter the Dark Ancient Tower.

If he died, it would be a great loss to the Letney Family.

...

Star Tower.

Law Enforcement Department.

The Molten Gold Wizard King watched his clan being destroyed with a calm expression. The purple bead that he had been holding in his hand was forcefully crushed.

The staff beside him didn't even dare to breathe loudly and left silently.

The Letney Family had always been high and mighty. They could turn the clouds upside down and control the life and death of others. It was rare for them to be defeated like this.

Only this kind of Dragon Abomination, who would not have any interactions with the Letney Family in the future, would dare to do this.

If it was any other organization in the Endless Sea, they would think twice before doing this.

Some people were worried, while others were happy.

Witch's Family.

Triss's cabin.

"Well done! I just like to see the Letney Family suffer. Hmph, bullying my sister Elena. Now you've got your retribution!"

Triss clenched her fists, looking as if she had succeeded.

"This monster is really stronger than I expected... However, it is not a good thing for the Wizard World to have such a genius born from the Dragon Abomination."

...

In the Land of Darkness.

The Dragon Abomination Venerable who was watching the battle felt proud.

"This kid is far away from home and didn't receive my guidance, but he can learn by himself and comprehend such a powerful bloodline secret technique... This shows that we Dragon Abomination are not simple-minded. On the contrary, Dragon Abomination has great wisdom! If he returns from the long journey and returns to my embrace, I can also pass on some of the secret techniques I had when I was young to him and revive the glory of the Dragon Abomination. This child will not shirk his responsibility! Those humans and dragons who look down on us and say that we Dragon Abomination are stupid, they will never be able to nurture such a genius in their lifetime!"

On the other side, Gryus seemed to have already expected that Dragon Abomination would win this battle. He said indifferently, "I wonder if he can still go so smoothly after gets to the fifth level."

Dragon Abomination Venerable snorted coldly in his heart and thought, "Of course, it will be smooth. My Dragon Abomination Clan is the strongest clan!"

...

Dark Ancient Tower, fourth floor.

Thunder Mountains.

The night faded like the tide, and light returned to the human realm.

Levi descended from the sky. He looked around the battlefield and locked onto the remaining disciples of the Letney Family.

Not long after, the Letney Family was completely destroyed.

There were also some foreign wizards who had long since disappeared, so Levi did not waste any more time looking for them.

It wasn't easy to work for others. There was no need to kill them all with a stick.

In any case, he was a Dragon Abomination. These people would not have the chance to seek revenge on him in the future.

After cleaning up the battlefield and searching for resources and treasures in the Thunder Mountains, he left.

It wouldn't be long before the other five top-tier organizations of the Sea Covenant learned of the situation here.

At that time, Levi would definitely not be able to fight against so many human wizards with his Dragon Abomination, who was isolated and hated by everyone. Therefore, he did not have the idea of occupying the Thunder Mountains, a place that wizards would fight for.

Moreover, it would take a long time to finish mining all these ores. Levi did not have the time to waste here.

The fourth level was just a transition. When his strength improved, he would head to the fifth level.

Relatively speaking, the Dark Elf Forest was more suitable as Levi's temporary stronghold. It wasn't a popular resource point. Otherwise, the Shadow Circle wouldn't have been able to take it down.

Several days later.

Levi returned to the camp.

Sawkins was pressing down on the Single-Horned Dragon Turtle.

The Single-Horned Dragon Turtle was already at the peak of level 4, and with its sub-dragon bloodline, its strength was not inferior to a fourth-circle wizard at Perfection.

Sawkins could easily subdue it, but one had to admit that this big crab had some skills.

Seeing that Levi had returned, Sawkins let go of the Single-Horned Dragon Turtle.

Levi found the Wizard Tool used to contract the Single-Horned Dragon Turtle from Jeffrey Leo's storage ring.

Chapter 1189: Continuous Upgrades, Soaring Strength!

After a series of actions, he canceled the contract.

The Single-Horned Dragon Turtle was restless and wanted to escape, but Levi pressed it to the ground.

The might of the six dragons poured onto the Dragon Turtle.

In addition, Levi's strength was far superior to it.

Therefore, it was not difficult to subdue it.

Even the sub-dragons with noble bloodlines were nothing in front of Levi.

"What's your name?" asked Levi. The sub-dragons could definitely communicate directly.

"Lord, my name is Ratti Ross."

"How old are you now?" asked Levi.

"Lord, from the time I can remember, I should be 2,000 years old."

"Two thousand years old..."

Levi suddenly sighed.

This was equivalent to the life of a sixth-circle primordial soul wizard.

As expected of a mixed-blood dragon clan and a turtle that was known for its longevity.

In the world of transcendent creatures, there was usually a way to determine the length of their lifespan.

Ordinary transcendent creatures had varying lifespans. Some had longer lifespans than wizards, such as turtles, while others had shorter lifespans than wizards, such as most insects, birds, and small transcendent creatures.

As for the mixed-blood dragon clan, because they inherited part of the Dragon Clan's genes, their lifespan was generally longer than that of a wizard of the same realm.

The average lifespan of a sub-dragon was several times that of a wizard. This was a typical longevity species.

There was no need to say much about pure-blooded dragons. In theory, under the circumstances of no illness or disaster, every pure-blooded dragon could rely on the accumulation of time to grow into a level 9 Legendary Creature. Their lifespan could easily start at ten thousand years. For example, the Immortal Banyan Dragon Lady of the Witch's Family.

A level 10 pure-blooded dragon like Otharus had lived for 100,000 years and was from the same era as the Amethyst Saint.

Ratti, who was a turtle and a sub-dragon, had two layers of longevity buff.

Therefore, even though Ratti was only a peak level 4 sub-dragon, it should be able to live for 10,000 years.

At that time, it should already be a primordial soul.

This would be a family heirloom in other wizard organizations, enough to kill generations of wizards.

“I wonder what is my current lifespan...”

Levi was depressed. He had the bloodline of a pure-blooded dragon, so his lifespan would definitely be increased.

It was a pity that there was no equipment that could measure one’s lifespan.

“Ratti, when will you be able to advance to the fifth-circle realm?” asked Levi.

“Master, if there’s no special opportunity, it might take another hundred years,” said Ratti after thinking for a while.

“Understood. Follow me and I’ll ensure your safety in the future. You don’t have to worry about being captured. If I become successful, I won’t forget you.”

“Thank you, Master! Ratti is extremely grateful!”

“You’re welcome... Come, let me draw some blood to test your health.” Levi took out three large vats.

“Master, do you need so many vats?” Ratti asked hesitantly.

“Do you know why your advancement is so slow, Ratti?” Levi asked earnestly.

Ratti shook its head and replied, “Please enlighten me, Master.”

“Because your blood hasn’t been regenerated yet. It’s always old blood. It has to go through the ‘blood transfusion’ process to stimulate your body to develop rapidly and give birth to new blood. I’m doing this to speed up your blood transfusion process. It’ll benefit you endlessly!” Levi said.

Ratti was enlightened. He quickly praised, “Master, you’re so cultured. I’m just a wild dragon turtle. I’ve been cultivating by relying on some shallow memories in the bloodline inheritance. I didn’t know that there was such a method to promote growth. Meeting you today is meeting a wise master!”

“No need to thank me. As long as you work hard enough and follow me, you won’t need a hundred years to advance to level 5,” Levi said calmly, looking confident.

“Master, are you serious?” Ratti was delighted.

Levi nodded and said, “It’s only fifth-circle. It’s not difficult... Of course, the prerequisite is that you work hard enough. The path of the dragon is full of thorns. I can only be your guide and can’t walk it for you. Do you understand?”

“Thank you, Master!” Ratti was overjoyed and said gratefully, “I will definitely work hard in the future!”

Levi nodded and released Crimson Horn, Raja, Night Fang, and Netherworld Sparrow. Through them, the Dragon Turtle’s worries were further dispelled, proving that it could do well by following him!

When he subdued his subordinates, he would definitely make them convinced and not just suppress and bully them. That is how he would be able to last.

Then, Levi began to draw blood. After three large vats, the Dragon Turtle’s forehead was covered in sweat. It said resolutely, “Master, continue. I can still hold on. I want to change blood!”

Levi stopped the Dragon Turtle and shook his head. He said, “Ratti, remember this. Going too far is as bad as falling short. You can’t rush things. Three vats are just right.”

“Yes, Master.” Ratti nodded and chuckled, “Master is cultured and considerate.”

“These are some potions that can help you improve your cultivation. One each month. Come find me when you’re done.” Levi gave some potions to the Dragon Turtle.

Ratti swallowed it and preserved it.

It felt warm inside. Its current master was still the best, its master had its best interest at heart.

The previous master, Jeffrey Leo was weak and useless, and he didn’t care about it.

This was the difference!

After pacifying the Dragon Turtle, Levi praised the Flying Scythe Beasts and gave them some potions.

The Flying Scythe Beasts felt as if they had found a supreme treasure and called it a ‘divine medicine’. They were reluctant to consume it, but only under Levi’s strict orders did they drink it carefully, afraid that they would finish it in one gulp.

Chapter 1190: Cultivating at the Dark Elf Forest

With Levi’s current wealth, it would be easy for him to support these transcendent creatures. He was never stingy with his subordinates.

There was also the bearman who had helped the Flying Scythe Beasts. She had been unconscious the entire time. It seemed like she was really frightened.

Levi gave her some potions and waited for her to wake up. He wanted to ask her some questions.

After that, he began to cultivate. Apart from cultivating, he took stock of his gains during this time.

...

North of the fourth level.

There was a huge whirlpool with a diameter of a hundred miles, and the teleportation portal was located there.

In order to block Dragon Abomination, Renia guarded this place.

At this moment, she watched in disbelief as the soul token with Godfrey and Jeffrey Leo's names cracked in her hand and turned into powder.

"Father, Brother! How could this be? Father has been in the fifth-circle realm for hundreds of years. Even a fifth-circle senior wizard can't kill him easily."

She immediately got up and went to Thunder Mountains to find the answer.

Suddenly, the communication Wizard Tool on her body rang, and a voice message appeared.

[Leave the fourth floor and find the main group! I hope that you will soon become a famous primordial soul in the Endless Sea! Jeffrey Leo.]

The message was very simple. It was obvious that it was sent in a hurry.

Her younger brother had suffered inhuman torture, but he still sent her a warning before he died!

Renia's hair stood up, and Golden Lightning formed a huge butterfly shadow behind her. The net covered the sea, and countless sea beasts died in it!

She was wantonly venting her emotions on this sea.

"Who is it?!"

She roared at the sky, her voice shrill.

When she calmed down, she looked at the teleportation portal.

“You didn’t tell me who your enemy is because you don’t want me to take revenge. It seems that your enemy’s strength is above mine.

“Don’t worry, Father. Before I have absolute strength, I won’t seek death.

“However, if I don’t take revenge, I will regret it. How can I shatter my crystal and soul?”

When I leave the ancient tower, I will find my clansmen to dig up your death images. I will personally capture the sinners and take revenge!

“Goodbye, Father. Goodbye, Brother!”

After Renia finished speaking, the golden lightning vaporized all the guards of the teleportation portal and then stepped onto the fifth floor without hesitation.

...

In the blink of an eye.

A month had passed since Godfrey’s death.

During this time, the Dark Elf Forest was very quiet and no one disturbed them.

Sawkins was entrenched in the middle of the forest. Occasionally, there would be intruders, and it would immediately kill them for Fate Coins.

Slowly, some of the nomadic wizards around learned that there was a level 5 transcendent creature in the Dark Elf Forest, and they did not dare to come again.

Levi was able to cultivate peacefully.

Recently, Levi gained a lot from the destruction of the Shadow Circle and the Letney Family branch.

More than four million Aether Stones.

As for the Wizard Tools, he obtained more than ten damaged fourth-circle Wizard Tools and two fifth-circle Wizard Tools.

One of the fifth-circle Wizard Tools came from Shadow Shark. It was a magic weapon dagger called the [Life-Reaping Blade]. It could kill without leaving a trace, making it extremely suitable for assassination. Generally speaking, the School of Shadow liked this style of Wizard Tools.

As for Godfrey's Wizard Tool, it was a fifth-circle Wizard Weapon, Thunder Robe, which had been damaged by Levi.

Levi had also obtained a huge amount of herbs from Shadow Shark, many of which were materials for his fifth-circle meditation potion.

On Godfrey's side, there were also a few thousand kilograms of Thunderstruck Ore, which Levi accepted with a smile.

There was no need to mention the other intangible treasures such as spell models and knowledge inheritance.

"With Sawkins in the light and me in the dark, the Dark Elf Forest is impregnable. There are many experts on the fifth floor. I'll hide on the fourth floor for a while, at least until the main breathing technique is at level 16, then I'll enter the fifth floor." Levi made a plan for the future.

In reality, the resources on the fourth level were not little.

However, this side of the continent had already been divided up by the various large factions.

On the other hand, resource points on the sea were hard to find, and there were often powerful sea beasts occupying them. Therefore, it was a waste of time and a thankless effort.

Levi planned to pay a visit after his strength improved. It would be best if he could subdue a few mixed-blood dragons and sub-dragons.

The more these things, the better.

After a while, the bearman finally woke up. She packed her luggage and came to Levi.

“Sir, thank you for saving me.”

She spoke in the common language of the wizards. Without a doubt, this was a race that had been influenced by the wizard civilization.

“What’s your name?” Levi asked coldly, “Where are you from?”

“My name is Ann,” the bearman said evasively, “I’m from a distant and mysterious empire. Sir, you probably haven’t heard of me before, so there’s no need to mention me.”

“The Panda Empire?” Levi laughed strangely.

Fear flashed across Ann’s eyes. She quickly said, “I’m not. I’m not. I’m from... The Aotta Empire.”

“Oh, I see.”

Levi had already confirmed her identity, so he did not continue asking.

She didn't say anything because she was afraid of exposing her country and being invaded by an evil dragon like him. It was understandable.

“Sir, thank you for treating my injuries. I'm leaving. I still don't know your name. We bearman will definitely repay your kindness!” exclaimed Ann.

Levi mocked, “Get lost. As the honorable Dragon Abomination, how can you know my real name?”

Ann was shocked. She took two steps back quietly and whispered, “Thank you. I can feel that your heart is not as ugly as it looks. You don't have to pretend to be so fierce.”

“You're wrong.” Levi laughed evilly, “My heart is ten times uglier than my appearance. No, a hundred times uglier!”
