

Wizard 1191

Chapter 1191: Dragon Abomination Versus Bone King

Ann pouted and remained silent. Then she smiled and said, "Goodbye, Sir Evil Dragon."

She stood in the forest, and waves of water elemental power gathered around her. A clear spring water lifted her up and flew into the sky.

Levi looked at Ann, who was far away and muttered inwardly, "The Heart is really a magical thing. The path of the Energy Sect is indeed not simple. Unfortunately, it seems that this path has not been fated for me. The knight and wizard alone have already turned me incarnation a training robot.

"Ann is probably the successor of the Clear Spring Sect and cultivated the Clear Springs Qi. Looks like someone from the Panda plane has entered. Hundred Flowers will be very happy when she learns of this."

Everything was ready except for cultivation.

Levi checked the array and continued to order the undead spirits to stand guard, thus the undead, alchemical creatures, and transcendent creatures were on guard.

With a level 5 great commander like Sawkins, the Dark Elf Forest was impregnable.

...

Thunder Mountains.

Five powerful auras appeared here. There were men and women.

They were the people in charge of the other five towers on the fourth level. Their abilities were all at the fifth-circle level.

The Witch's Family sent an old woman here. She had white hair and a youthful face. Her voice was sharp as she said, "As expected, the rumors are true. Godfrey is dead. Otherwise, he wouldn't have given up on the Thunder Mountains."

Hurricane Steeple's fifth-circle male wizard had a grave expression when he said, "I didn't expect that there would be a Dragon Abomination hiding in the Sea Continent. Do you know where that Dragon Abomination is now?"

The witch from Lilith's Cabin shook her head and said, "I'm not sure. This Dragon Abomination must have a personal grudge against the Letney Family. Otherwise, he wouldn't only be looking for trouble with Godfrey."

The old man from the Seven Waters Steeple said, "Next, let's strengthen our defenses. If this Dragon Abomination is still in the Western Continent, we'll work together to eliminate it. We don't want any more trouble."

"However, if it is in the Eastern Continent, it would be a dream come true. Hahaha." The Ocean Abyss Alliance's body-refining wizard laughed.

The Eastern Continent was the territory of the Burning School of Thought, Church of Earth, Storm School of Thought, and Lightning School of Thought. The Ocean Abyss Alliance had been coveting it for a long time.

However, the other side had joined forces to resist them, so the Western Continent forces could not take them down for the time being.

“I suggest that the five of us split the Thunder Mountains equally. What do you think?” asked the old woman.

“Sure, it will be a win-win for all of us. This fourth level is the home ground of our Ocean School of Thought. The resources on the sea, continent, and even the sea will be divided between the five of us in the future. It’s also a good thing that we have one less Letney Family.”

Not long after, the five major organizations divided this place up.

At the same time, they also started to dispatch people to search for traces of Dragon Abomination.

It was just a pity that Dragon Abomination hid extremely well. This search lasted for three years, but there was no news of its whereabouts.

In the end, the Sea Covenant gave up on the search and tacitly agreed that Dragon Abomination had gone to the Eastern Continent.

In fact, that was indeed the case.

In the Dark Elf Forest of the Eastern Continent, Dragon Abomination had been cultivating for three years.

During these three years, there were always some nomadic wizards or small organizations that came to find trouble.

However, with Sawkins' large pincers, it was easy to catch them.

Gradually, through some lucky wizards who managed to escape, everyone knew that there was a level 5 crab in the Dark Elf Forest of the Eastern Continent. The forest was filled with undead creatures, making it extremely eerie.

For a time, the Dark Elf Forest became a forbidden area.

Some of them were secretly watching for the plant resources, but they did not act rashly.

Some of the wizards had seen the big green crab and the undead spirits on the third floor. They couldn't help but think of someone in the forbidden area of the third floor, the Giant Ax Canyon.

That's right! It was the infamous Evil Death Wizard, Bone King!

As a result, rumors spread.

"It's over. Bone King is on the fourth floor too. He's in the Dark Elf Forest!"

"D*mn it, why does he always follow us like a shadow? Can't he give us a chance to live?!"

"I suspect that the green crab has also been subdued by the Bone King. Who else is a match for the Bone King on the fifth level?"

"That's right. Even if a wizard managed to defeat the Dragon Abomination who killed Godfrey by himself, he might not be a match for Bone King."

"Speaking of which, who is more powerful? That Dragon Abomination or Bone King?"

"Dragon Abomination, right? He killed Godfrey, a fifth-circle veteran wizard."

"I feel that the Bone King is stronger. Up until now, no one has seen the Bone King fight because those who have seen it have all died... This is truly terrifying!"

...

Eastern Continent.

Rock King Desert.

At the Colossus Divine Tower.

The Colossus Divine Tower was jointly established by several top wizard organizations of the Earth School of Thought.

With a fifth-circle wizard in charge and the addition of many nomadic wizards, their influence was not small.

Under the desert, in a ruin built by the wizard who had explored this place before.

A fifth-circle wizard was cultivating. In front of him was a khaki-colored mystical object of truth, [Stone Snake Ring].

His nose twitched, and the Stone Snake Ring turned into a yellow light that surged into his body.

Then, he opened his eyes. He was in a good mood.

“I’ve finally refined this Truth Oddity. My third-circle talent is now complete. Three third-circle, two fourth-circle, one fifth-circle, six innate spells. That’s enough.”

Suddenly, he sensed a fifth-circle aura flying toward him from outside.

“Wizard Wanda, I’m Burning Army’s Commander Blazing Fire. Please come out for a chat.”

Wanda appeared in a flash and flew into the sky.

“Why did you come to my Rock King Desert, Wizard Blazing Fire?”

“Don’t worry, old friend. I’m not here to fight.”

Chapter 1192: Planning to Enter the Dark Elf Forest

“Speak quickly.”

“Wizard Wanda, have you ever heard of Pandora’s Root?”

“What about it? Blazing Fire, don’t beat around the bush, or I’ll chase you away.”

“Hehehe, I haven’t seen you for so many years, but you’re still so impatient and fiery. It’s not typical of the Earth School of Thought at all... According to my recent research, the Dark Elf Forest might contain Pandora’s Root. I wouldn’t have been willing to tell you about such a good thing. Unfortunately, a few years ago, a Death Wizard and a level 5 creature occupied the Dark Elf Forest, so I want to find some helpers to destroy this person and beast. At that time, we will split the Pandora’s Root and the other spoils of war equally. How about it?”

“I’ve heard of that Bone King. It’s said that he’s very powerful. Otherwise, he wouldn’t have been able to subdue a level 5 creature. Do you have any other helpers besides you and me?”

“The [Black Thunder Wizard] of the Thunder Hammer will also join.”

“Black Thunder Wizard... If he is coming, then we could give it a try. That old thing had mastered the legendary [Black Oblivion Thunder], which is a rare type of lightning. It’s said that its power isn’t inferior to the [Golden Lightning] unique to the Letney Family. With his thunder spell, we’ll be more confident in dealing with the School of Death wizard. Is there anyone else?”

“The three of us are enough to deal with all unexpected situations. If there are more, the spoils of war won’t be enough to split. I came to look for you because we’ve been friends for many years.”

“Then when do we take action?”

“Let’s wait for another year. The Black Thunder Wizard has some matters to attend to recently.”

“Sure, contact me when the time comes.”

After the discussion between the two fifth-circle wizards, they left in a hurry.

A year later.

Thundercloud Swamp.

The sky here was covered by dark clouds all year round, and the purple electric net crisscrossed.

In the middle of the swamp, a giant black tree with a diameter of about ten meters reached the sky.

Kacha.

The sound was accompanied by a purple lightning bolt.

The giant tree was split open and burned.

A purple worm crawled out of the fire.

Lightning crackled on the flesh worm's body, and symbols flickered. It was obvious that it was not an ordinary object.

Suddenly, a large hand formed by black thunder came down and grabbed the meatworm.

"Tsk tsk tsk, the [Thunder Worm Chrysalis] is mine. My years of waiting have not been in vain."

The Black Thunder Wizard quickly took out a special bottle and sealed the purple meat worm with a spell.

At this moment, a message rang out from the communication Wizard Tool.

[Black Thunder, Wizard Wanda and I are ready. How's the situation on your side? We can't drag this out any longer. If the Bone King discovers the existence of the Pandora's Root, it will be useless even if we go. – Wizard Blazing Fire]

Black Thunder Wizard pondered for a moment before leaving the Thundercloud Swamp to meet up with Wizard Blazing Fire.

...

Year 1174 of the Holy Brilliance Calendar, Month of Harvest.

Year 9 of the Dark Ancient Tower Calendar.

The Dark Elf Forest.

The giant green crab was swallowing and exhaling the wind elemental power. It looked like it was cultivating.

The Dragon Turtle beside it did the same, swallowing and spitting water elemental power.

The wind and water converged, causing the forest to be covered in fog.

Meanwhile, Raja and Night Fang were still trying to procreate. Night Fang's cries echoed throughout the forest.

The Crimson Horn and Qing Niao couple were also resting.

The undead spirits were on sentry duty, and the corpse demons were diligently collecting herbs, searching for possible hidden treasures in the Dark Elf Forest.

It was chaotic outside, but it was peaceful here.

For the past four years, Levi has held a roundtable meeting every year.

He could use the meeting to understand the situation in the ancient tower.

He also knew that he was rumored to be a Three-Headed Dragon Abomination, and he could not help but sigh in his heart. He had really become an Evil Dragon Abomination now...

Everything was fine at the Dusk Holy Temple, and nothing major had happened recently. The positions of the last three official members were still vacant.

The Black Knight's divine weapon was also freshly made. It was called the [War Hammer]. It was a heavy hammer that suited his style.

Elsa's weapon was [Evernight Spear], which inherited her previous weapon name.

The other level 3 members were still searching for their own materials.

After the creation of the divine weapon and after testing it, they found that an ordinary level 3 knight with a divine weapon was enough to fight against a wizard of the same realm, but they were still not a match.

Perhaps, they would only be able to compete with the wizard after they entered level four and formed their Dharma Idol.

As for the human realm, there were constant conflicts between the Nine Nations Continent. They were still fighting for that small piece of land.

The current situation in the Forsaken Land of the God was unknown. In short, the Black Dragon Empire could sweep through the human realm at any time.

Apart from the Ancient Saint plane, Levi did not forget about the Black Dragon Territory ruled by the Nightmare Dragon.

The Nightmare Mother Trees was recovering. At the same time, more and more Nightmare Creatures were born.

These creatures were born as Levi's subjects and were used by him.

With more manpower, the efficiency of searching for the Nightmare Dragons had greatly increased.

Levi believed that it wouldn't be long before his Nightmare Dragon breathing technique would be on the right track.

After four years of cultivation, Levi's strength had increased day by day.

Three years ago, he had already cultivated the Crimson Emperor Dragon Breathing Technique to level 16 and entered the Fourth Transformation of the Blood Source realm.

The special effect of [Flame Dragon's true form] had reached level 4.

This caused his strength to increase by a lot.

After that, the strength rune also entered the tenth level, and its power increased by 90%!

Coupled with the 50% increase brought by the level 4 Crimson Dragon Slash, he no longer knew what level of attack he would be able to unleash after activating his full form.

The Crimson Emperor Dragon Breathing Technique was so powerful that it gave Levi the illusion that his strength had undergone a qualitative change even though it was only a small increase in realm.

Chapter 1193: Pandora's Mother Tree

He was intoxicated by this abundant strength.

If he were to meet the three Amethyst Race members again, he felt that he would be able to defeat them without even using the Six Heavenly Gods!

Under normal circumstances, Levi's strength was already at level 5. With the Crimson Emperor Dragon advancement, if he activated the Six Heavenly Gods, he would be able to fight against a fifth-circle senior wizard!

The improvement of the Crimson Emperor Dragon was only a part of it. Just this year, his Sky Dragon Breathing Technique also followed closely behind and advanced to level 16.

His exclusive divine weapon, Wind Thunder Wings, had also been successfully trained to level 3.

As a result, Levi's endurance attribute also increased greatly.

Coupled with the [Wind and Thunder Surge] Dharma Idol, he was like a legendary perpetual motion machine with an inexhaustible strength rune.

Now, Levi had pushed the Golden Snake, Crimson Emperor Dragon, and Sky Dragon to the Fourth Transformation of the Blood Source realm.

Further advancement would be the fifth transformation realm, which was comparable to a fifth-circle wizard.

This kind of major realm increase would definitely bring about another qualitative change in his strength.

After he had completed all five transformations of his breathing technique, he would be almost invincible among those below the primordial soul realm!

This was not even taking into consideration his ability as a wizard. Perhaps he could remove the word 'almost' from his words.

The path of knights grew rapidly, while the path of the wizard was slow and progressed steadily.

His spiritual force had already reached 430 points, and he was still 100 points away from reaching his limit.

In the future, if he could find some oddity items or Soul Stones that could directly increase his spiritual force, Levi estimated that within 20 years, he would be able to advance to the fifth-circle realm at the age of 200!

Even if he cultivated arrays, medicine, weapon refinement, knight, and rune language, he could still be far ahead of those so-called wizards favored by the heavens.

This was the power of the panel. With the snowball effect, the further one went, the slower the others would be cultivating. However, Levi was overtaking them at every turn and was constantly speeding up!

Moreover, Levi's sixth talent, Ice Dragon Prison, had also been upgraded to level 10.

Now, Levi's other five talents, as well as the fourth-circle protective force field, Earth Burst Barrier, had all reached Perfection.

Once he reached the fifth-circle realm, its power would automatically increase to the level of the fifth-circle.

It could be said that the past four years have been a qualitative change for Levi.

In order to survive on the fifth floor, which was filled with experts, he had to be fully prepared.

The gap between the fifth-circle wizards was huge.

He would not be complacent just because he had defeated a few ordinary fifth-circle cultivators.

He had seen through the projection that many of his powerful enemies had also arrived at the fifth level.

For example, the Red Bone Wizard with fifth-circle at Perfection, and the Fire Bull family's wizard with fifth-circle at Perfection as well, not to mention the powerful Amethyst Race.

Godfrey and the others were completely incomparable to them.

Once these people were prepared and had the right opportunity, they could reach the primordial soul realm in an instant.

On this day, Levi left the place of seclusion.

He arrived at the center of the Dark Elf Forest. After finding a spot, he suddenly turned into a bloody mist and burrowed into the ground.

He kept diving, diving... He didn't know how long he had been diving. Finally, his figure appeared in an underground square.

This place was extremely spacious and deep underground.

After studying Shadow Shark's items, Levi found out that there was an underground plaza located in this area.

On the underground square, there was a fixed array pattern that looked extremely profound and complicated.

However, with Levi's fourth-circle peak level of array formation, he was able to comprehend a thing or two.

In the past four years, he would come here every once in a while to comprehend the array. Every time he comprehended something, his array proficiency would increase by a lot.

Now, his array skill had almost reached the limit of the fourth-circle stage. If he wanted to improve further, he would have to advance to fifth-circle and refine a true fifth-circle array!

According to his knowledge, the array on the square should be a sixth-circle sealing array.

The target of the seal was a skeleton in the middle of the square.

The skeleton was long dead. Levi only dared to stay in the underground square after confirming that there was no danger through his Danger Perception.

After all, an existence that could be sealed by such a grand array was definitely an existence in the primordial soul realm.

After looking through the information, Levi concluded that this skeleton should be the legendary Dark Elf Mistress who had been killed by a primordial soul wizard.

He looked at the skeleton from afar. In the middle of the skeleton, there was a root-like thing that pierced through it.

It was obvious that she had been stabbed to death by this tree root when she was alive.

Levi did not know what this thing was, but he felt that it was somewhat similar to the aura of the Magic Tree in the Witch's Family. He guessed that it had something to do with the Pandora's mother tree.

The Pandora's mother tree was the God of all elves, including the dead Dark Elf Mistress.

His intuition told him that this was some kind of treasure, but he had been wandering around here for four years and had never dared to take it.

It wasn't because of the sealing array.

This sixth-circle array had been in disrepair for a long time, and most of its functions had already lost their effectiveness. Only a portion of it was still operating.

After four years of comprehension, although Levi did not know how to refine the array, he could temporarily crack it and enter it.

However, he felt that the skeleton of the Dark Elf Mistress was a little creepy.

She was clearly dead, but perhaps it was the lingering might of a powerful being that prevented Levi from approaching.

To put it bluntly, Levi was traumatized by the existence of the primordial soul and was always worried about accidents like possession.

In the end, Levi resisted the temptation of the treasure and silently studied the array.

While he was comprehending, he used the recording slate to draw some blueprints of arrays, node designs, and other knowledge. It was obvious that he was immersed in the knowledge and could not extricate himself.

Several days later, Levi was sweating profusely, his mind spinning at high speed, and his spiritual force was empty.

“The knowledge of the sixth-circle array is too profound. I keep learning and gaining, and there’s an endless stream. It’s a pity that I can’t take it with me. Otherwise, I would definitely benefit greatly if I took it back and comprehended it,” Levi sighed.

This array had to be observed on the spot to understand its profundity.

“However, my array skill can be considered to have reached Perfection for the fourth-circle. Next, I’ll have to wait to advance to fifth-circle.”

He looked at the scales that had exploded and the lingering sense of danger, his expression calm.

“Looks like these people from the Eastern Continent cannot help but want to attack me... In that case, don’t blame me for being impolite. I originally only wanted to win a win-win situation with you as friends, but now, there’s no need.”

He turned around and left to set up the battlefield.

Underground, the skeleton that had been pierced by the tree root was motionless. There was no sign of life.

The scars on the bones told of the cruelty of the war tens of thousands of years ago.

Chapter 1194: Fleeing Dark Elf Forest

Year 1174 of the Holy Brilliance Calendar, Month of Northern Wind.

Dark Ancient Tower, fourth floor, Sea Covenant Headquarters.

The fifth-circle wizards from the five towers gathered together.

“I heard that Wanda, Blazing Fire, and Black Thunder have left for the Dark Elf Forest.”

“Dark Elf Forest? Other than some herbs, there shouldn’t be anything else there. Herbs are gone after one round of harvesting. Before the ancient tower closes, the second round won’t grow. Why are the three of them going there?”

“I’m not sure. But since they’ve made their move, there must be some secrets in the Dark Elf Forest that we don’t know about.”

“Could it be related to the Dark Elf Mistress?”

“It’s possible... However, there’s a fifth-circle wizard from the School of Death who calls himself the Bone King. His strength is unfathomable. Coupled with that level 5 creature, Blazing Fire and the other two might not be able to take it down easily with their strength.”

“Everyone, I think this is a good opportunity. I have a suggestion. The five of us will set up an ambush around the Dark Elf Forest. We will wait until the Blazing Fire and Bone King are both injured before we reap the benefits. As for the treasures hidden in the Dark Elf Forest, we will also split them equally.”

“That’s a good suggestion. The five of us are all from the Endless Sea. We should advance and retreat together to maximize our benefits. After we kick out all the other small fries, we can join hands to go to the sea and kill the sea beast lords near the resource points. We can divide the resources equally.”

“There’s no time to lose. Let’s go.”

The five wizards were talking and laughing on the surface, but no one knew what they were thinking on the inside.

The structure of the Sea Continent had been formed, but it was not stable.

On the seemingly calm continent, undercurrents were surging.

...

Fifth level.

South of Io Continent.

After passing through a lush bamboo forest, there was a cliff that was thousands of feet tall. The Heavenly Waterfall fell into a large lake at the foot of the mountain. Water vapor pervaded the air, and clouds covered the area.

The impact of this waterfall was extremely strong. This water flow was the legendary [Extremely Heavy Water]. Even the protective force field of a fifth-circle wizard could not last long.

However, if one were to pass through this waterfall and pass through a secret passage that was filled with mechanisms and traps, they would be able to enter a completely different world.

It was a secret realm.

In the secret realm, flowing water flowed and mountains floated in the void like isolated islands.

On the island, there were dense peach blossom forests and bamboo forests, forming a sea of red and green.

At the center of the secret realm, on the highest mountain peak, stood a magnificent palace.

On the eaves of the four corners of the palace, there were carvings of four creatures. They were the four mythical beasts that the Four Symbols Sect had made up, including the Vermillion Bird of Fire.

A middle-aged bearman dressed in a linen robe, who gave off the majesty of a king, stood in the air. He looked at the palace with a shocked expression.

He muttered to himself "It's said that the 59th generation Holy Emperor Cang Shan once went to a faraway world and entered the Land of Peach Blossoms by mistake. He received a great fortune and broke through the void to find a way to save Panda.

"Could it be that the Land of Peach Blossoms refers to this place? From ancient times until now, there was only one person who could establish the Four Symbols Heavenly Imperial Palace as a palace, and that was the First Holy Emperor... This is where Origin Holy Emperor once set foot!"

This bearman was the strongest expert in the Panda Empire, the current Holy Emperor, and Clear Spring Sect Master Zhou.

He had already cultivated the Water Energy Sect to the peak of the Heaven-Man Connection realm. He was just one step away from Shattering Void and becoming a level 6 master like Elena. He could travel to the Land of Darkness and the Multidimensional Plane.

However, this last step had troubled him for a hundred years.

“Miss Elena once said that there might be opportunities for me in the ancient tower. It’s true!”

The Holy Emperor felt grateful.

“It’s a pity that I don’t know where that girl, Ann, has gone. There are still other clansmen..... Sigh, we’re separated by the heavens. However, with the help of [Heart Connection], we can still meet again in the future. The bearman clan leader has been isolated from the world for a long time, so they do need some experience.”

The people he had brought in this time were the elites of the four great Energy Sect, and they all had the strength to enter the fifth level.

As long as they were careful, they should be able to protect themselves.

Surrounded by streams and clear springs, he flew cautiously toward the hall.

...

The Dark Elf Forest.

Levi was busy.

He chanted a spell, and all the undead spirits hidden in the forest flew into the Book of the Undead.

The corpse demon and alchemical creatures were stored in the ring.

The transcendent creatures were all lying on Sawkins' back.

He then erased all traces of his life.

It was as if he was fleeing for his life.

In fact, that was indeed the case.

“Now that the battlefield has been set up, I'll leave this place to you.”

Levi's heart was calm. He did not set up any arrays here.

Everything looked as if he had fled.

“Something that could alarm these fifth-circle powerhouses must be something in the underground square. Whether it’s the remains of the Dark Elf Mistress or the Pandora’s Root, they must be extraordinary. Although my Danger Perception didn’t give any warning, based on my years of intuition, there’s definitely something wrong with that skeleton!”

Danger Perception was not absolutely accurate. Some experts could block this kind of prediction.

For example, when he was ambushed by the mysterious organization in the Nether Capital, there was no warning.

Therefore, for four years, Levi did not dare to look into it even though he knew that it might be a treasure.

Chapter 1195: Entering the Dark Elf Forest

Both the primordial soul wizard and the Dark Elf Mistress were genuine level 6 experts.

How could Levi guess their methods?

Therefore, Levi planned to use this opportunity to let those guys test the waters first.

If there were no problems, he would pay a visit and snatch it back.

If there was a problem, then he could avoid a disaster.

In short, to Levi, the remains and roots were not necessities.

Even if he didn't get it in the end, he wouldn't regret it. At most, he would feel a little regretful.

After finishing all of this, Levi left the Dark Elf Forest and found a barren mountain range to hide himself and the transcendent creatures.

He opened the Teatime Round Table and pulled the Blood Knights who were training in the Dusk Holy Temple over.

"Moving forward, arrange for some people to monitor the projection on the fourth floor of the ancient tower. Focus on monitoring the battles between the level 5 experts." After Levi finished speaking, he sent over the information he had collected on the experts of the Eastern Continent and the Western Continent.

He wasn't sure who it was, but it was definitely the person in charge of those large organizations.

"Understood." The blood knight nodded and left the round table.

Levi exhaled and smiled.

"Let me see who it is that wants to mess with my Bone King! At that time, my Bone King's good brother, the Three-Headed Dragon Abomination, will definitely pay a visit!"

This empty city tactic was to first test the strength of the remains through these people.

Secondly, through his Danger Perception, Levi could confirm that there was more than one fifth-circle wizard. Otherwise, with his current strength, he would not have such a strong sense of danger. Thus, he needed to avoid them.

Thirdly, if Levi were to fight against those people in the Dark Elf Forest, his Bone King identity and the Three-Headed Dragon Abomination identity would definitely be linked together. At that time, it would be inevitable for people to guess that Bone King and Dragon Abomination were the same person, and then guess that Dragon Abomination was a wizard in disguise. Although it was unlikely that they would be able to find Levi through this relationship, it was better to avoid such a situation.

Now that everything was ready, there was still the most critical problem.

That was how to make it such that these people's actions would be projected on the livestream.

According to his current observations, he had already concluded the pattern of the ancient tower's projection.

First of all, not every battle would be projected by the ancient tower.

The activation of the ancient tower's projection was mainly divided into the following situations.

First, the battle between the participants of the ancient tower.

Second, the participants of the ancient tower would fight each other at the teleportation portal on each floor.

Third, the battle between the ancient tower participants and the lord tier natives, for example, the giant green crab, which was a Boss-level monster on each level as well as fighting ordinary natives on that floor would not trigger the projection.

For this reason, Levi had already made some insignificant changes to the array in the underground square.

If these people really went there, it would definitely give them a big surprise.

At the same time, there were a few inconspicuous Flying Scythe Beasts in the Wind Disaster Stratum, acting as Levi's eyes and ears.

Everything was set up properly, waiting for the enemy to enter.

...

Three days later.

Above the Dark Elf Forest.

Three auras surrounded him from three directions.

Three powerful spiritual forces scanned the Dark Elf Forest like radar.

After an unknown period of time.

These three auras gathered together, and their expressions were solemn.

“Have you found any traces of Bone King?” asked Wizard Blazing Fire with a puzzled expression.

The Black Thunder Wizard shook his head.

Wanda had a fiery temper. He directly said, “It seems that Bone King is not worthy of his reputation. Perhaps he heard the news that we are coming and has already escaped.”

Wizard Blazing Fire said with a solemn expression, "If he really escaped, that would undoubtedly be for the best... I'm just afraid that this is a trap deliberately set by Bone King. Forget it, since we're already here, the three of us should be on guard to prevent Bone King from ambushing us."

"Hmm, let's continue. When I was investigating just now, I felt that something was wrong in the middle of the forest. There should be something underground," said the Black Thunder Wizard.

After saying that, black lightning surrounded his body and turned into a bolt of lightning that entered. It seemed that he was also bold.

Wizard Wanda and Wizard Blazing Fire quickly followed to prevent being beaten.

After the three wizards entered the underground.

In the void high up in the sky, a large eyeball suddenly appeared and blinked.

Thousands of miles away.

In a hidden place.

The old woman from the Witch's Family's forehead split open and a strange eyeball opened.

ers eyeballs were like a projector, projecting images into the void.

“Granny’s eye-bloodline technique is really powerful. Those three fellows didn’t even notice it.” The coquettish witch in Lilith’s Cabin praised. She was even more wary of this old woman. It was too convenient for her to peep at other people’s privacy with this kind of spell.

“Hmph!” The old woman withdrew the projection and said coldly, “This eye-bloodline technique consumes a lot of mental energy. I’ve paid such a huge price. Now all of you should know how sincere I am. The five of us should work together and don’t harbor any ulterior motives.”

“Of course. However, from the looks of the current situation, it seems that Bone King has already fled. Even his pet, the giant green crab, has fled... I was thinking of letting Bone King and them both suffer heavy losses while we reap the benefits, but now it seems that it won’t work,” the body-refining wizard muttered to himself. Runes flickered on his strong muscles, which contained explosive power.

The old man from the Seven Waters Steeple said, “I know a little about arrays. How about this? Everyone, follow me to set up the array. We’ll go catch an easy target.”

Chapter 1196: An Array Within An Array

“Sure.” The old woman nodded.

“However, every time this array is used, it will consume a lot of resources and Aether Stones...” The old man hesitated and smiled bitterly.

The glamorous witch said, "Aren't you just worried that you'll be at a disadvantage? We'll split and share the cost with you."

After hearing that, the old man heaved a sigh of relief and said with a smile, "Let's go then."

Five figures left the area and snuck into the Dark Elf Forest, setting up an array in the center.

This array covered a very wide area. From the looks of it, it was probably a fifth-circle array.

The five wizards each took out a large pile of Aether Stone and injected them into the array.

And underground.

Three figures had already appeared at the edge of the square, blocked by the grand array.

When they saw the tall and slender skeleton of a humanoid creature in the middle of the square, they were all shocked.

"It really is a Dark Elf. It's been tens of thousands of years, but its bones are still as smooth as jade. It's no wonder it's a level 6 expert. Even I feel uncomfortable from the residual power it's emitting," said Wizard Wanda.

The Wizard Blazing Fire said, "Look at the remains of the Dark Elf, There's a tree root there, isn't it? That's the legendary Pandora's Root! This was the Origin Root that had been cut off from Pandora's mother tree. 300,000 years ago, when the congress was founded, a Grand Witch once obtained a similar

root from Lord Sauron. 300,000 years later, the root of the source has grown into a Magic Tree, protecting the Witch's Family for 300,000 years!"

Wanda said, "It takes 300,000 years to grow into a magic tree... Legendary wizards would have died 30 times already..."

"If that's the case, Wizard Blazing Fire go get it, and we'll split it equally," said the Black Thunder Wizard.

The Wizard Blazing Fire smiled and said, "Although I don't understand array, I can see that this remains was sealed by a level 6 array. Everyone, let's not hold back. We will attack the array together. The power of the array is less than 10% now. It should not take long to break it."

"How do we divide the root?" asked Wizard Wanda.

Wizard Blazing Fire thought for a moment and said, "If we can cut it open, we'll split it into three. We'll each take a piece. If we can't... then I don't want the root anymore. I want the remains of the Dark Elf Mistress. You two can split the root among yourselves. It doesn't matter if I suffer a little. The important thing is not to hurt our relationship."

The other two looked hesitant. They looked at each other. Then Wizard Wanda said, "Let's do that for now. If there are other treasures, we'll split them equally."

"Sure," said the Wizard Blazing Fire.

They each chose their positions and their innate spells appeared.

Behind the Wizard Blazing Fire, a giant red centipede shadow appeared and circled behind him.

Black thunder balls appeared in the Black Thunder Wizard's palm.

Wizard Wanda waved his hand, and a ten-story-tall stone statue appeared.

Three attacks attacked the array.

Boom!

As the array trembled, the three wizard's faces lit up.

"As expected, array no longer has the power of a sixth-circle spirit beast."

The next moment, something unexpected happened.

The array emitted light, and array items shot out, automatically starting to set up.

This array item did not have an ancient aura. It was obvious that it was newly refined.

Wizard Wanda's expression changed. "Oh no, that Bone King is indeed up to no good. He hid his array in an ancient array. The moment we made a move, we triggered the array restriction. D*mn it, we've been tricked!"

The broken sixth-circle array burst out with a dazzling light and instantly enveloped the three wizards.

On the other side.

Levi sat cross-legged in the shelter. He had already learned about the situation here through the video and the Flying Scythe Beasts.

"The Burning Battle Group, the Colossus Divine Tower, the Thunder God's Hammer, and the Sea Covenant. A total of eight fifth-circle wizards came. Fortunately, I retreated in advance."

He used the array he had set up as a primer to activate part of the power of the sealing array. It was enough for these three fifth-circle wizards to suffer a little.

Of course, with their strength, they would be able to break through it very quickly. Levi did not expect them to stay.

He was curious about what would happen if the three underground met the five above.

...

Underground.

The three fifth-circle wizards displayed their abilities and finally broke free from the restraints of the array.

The Black Thunder Wizard said gloomily, "It seems that the Bone King has been here before. It's just that he didn't take away the remains and roots. Perhaps he was afraid."

Wizard Wanda cursed, "D*mn it. This Bone King couldn't get it, so he set a trap to disgust us. He's really despicable. I better not meet him!"

Wizard Blazing Fire said, "But from the looks of it, the power of this broken array won't be able to cause us too much trouble. Be careful. It shouldn't be a problem to take away the Pandora's Root and the remains of the Dark Elf Mistress."

After saying that, the Wizard Blazing Fire entered the center of the array. He smoothly put away the remains and pulled the Pandora's Root out of the ground.

This thing was still alive, so he couldn't put it in his storage ring.

He thought for a moment, and the Flaming Saber appeared on his finger.

The flaming saber that could cut through gold and jade did not cut off the Pandora's Root.

He hesitated for a moment and handed it over to Wizard Wanda, who was eyeing it covetously.

"I keep my word. This thing is yours."

Wizard Wanda held the Pandora's Root and looked at the Black Thunder Wizard. He said, "Let's retreat first. Then we'll discuss how to distribute it. This place feels a little strange."

The Black Thunder Wizard nodded in agreement.

Chapter 1197: The Effect of Pandora's Root

The three of them immediately flew out.

Suddenly, the Wizard Blazing Fire's expression changed.

"Wait, there's someone outside."

The three of them quickly flew out of the ground.

In the next moment, there was a rumbling sound.

However, they realized that they had fallen into the trap of the array.

“Blazing Fire, hand over the treasure and I will let you go,” the old woman sneered.

The five wizards of the Sea Covenant had surrounded the three of them from all directions.

“You think you can trap us with this trashy fifth-circle array?” Wizard Blazing Fire sneered.

“Cut the crap. Kill these three and we’ll split the treasures equally,” said the beautiful witch.

The array was activated. In an instant, the scene was in chaos as the two sides fought.

At this point, it did not matter whether the Wizard Blazing Fire or the others had obtained the treasure or not.

For the Sea Covenant, they were only looking for an opportunity to destroy the organizations in the Eastern Continent.

In this way, the entire fourth floor would be controlled by the five big organizations of the Endless Sea.

Soon, the inferior fifth-circle array was torn apart by the energy fluctuations of the battle.

The battle between the eight fifth-circle wizards was earth-shattering.

Through the projection, Levi could see the methods of these people so that he could revisit them in the future.

Not long after.

The battle in the Dark Elf Forest had reached its climax.

Although the Sea Covenant had the advantage in numbers, the Wizard Blazing Fire and the others were doing their best to survive.

Levi looked at the damaged plants with heartache and cursed these people as beasts. They did not know how to think about the future. If they wanted to fight, they should have fought outside. ㄹNŌBĚŠ

Soon, the battle situation changed. Black clouds suddenly gathered in the sky. Then, a ball of black heavenly lightning descended and exploded in the sky above the forest.

The old woman's expression changed drastically.

"D*mn it, this is... Black Annihilation Thunder Explosion!"

Seeing that the situation was not good, the Black Thunder Wizard did not want the Pandora's Root anymore. He directly exhausted all the Black Oblivion Thunder in his body, forming a terrifying explosion, forcing everyone back, and then he fled.

The power of the Black Annihilation Thunder Explosion was something that even fifth-circle senior wizards would be wary of.

The old woman and the beautiful witch were both infected by the black thunder, and they could not get rid of it no matter what.

"I, Black Thunder, will remember today's grudge!"

The Black Thunder Wizard fled, and the pressure on Wizard Blazing Fire and Wizard Wanda increased exponentially. It seemed that they would not be able to hold on for long.

The heavy punch from the body-refining wizard made Wizard Wanda vomit blood. His protective force field had been shattered, and he could only use the Pandora's Root in his hand to block the attack of the body-refining wizard.

Boom!

In the next moment.

Along with the sound of bones breaking, the Pandora's Root was forcefully injected into Wizard Wanda's body.

Blood and flesh flew everywhere as he let out a heart-wrenching scream.

Then, something even more terrifying happened. With the appearance of a green light, the blood in Wizard Wanda's body began to be sucked dry in an instant.

As for the Pandora's Root, it took root and sprouted in his body!

Soon, Wizard Wanda's body was hollowed out, and a humanoid tree root creature appeared.

The tree roots formed her skeleton, the tree bark formed her flesh and skin, the leaves formed her thick hair, and the flowers became her organs.

Her ears were pointed, and her figure was tall and slender. Her waist was slender, and her slender branches bore fruit. She had long, slender legs with golden proportions, and her healthy tanned skin revealed a different kind of wild beauty.

“Phew, I’ve finally seen the light of day again. Thank you, Pandora Matriarch. Thank you, little cuties... Now, all of you will become nourishment for me.”

Behind her, roots grew wildly and spread out, turning into tentacles that attacked the fifth-circle wizards.

Wizard Blazing Fire who was closest to him was the first to bear the brunt of the attack. His expression changed drastically.

“How is that possible... The Dark Elf Mistress has been dead for tens of thousands of years.”

He used his force field to resist the tentacles.

Kakaka.

Cracks appeared on the force field, but it managed to withstand them.

Wizard Blazing Fire was overjoyed. He knew that Mistress Rose had yet to recover her full strength. From the looks of it, she was only at the fifth-circle senior level.

However, if she absorbed more flesh and blood of the fifth-circle wizards, she would probably become even stronger.

The five wizards from the Sea Covenant also began to run when they saw that something was wrong.

It was obvious that the old monster who had been killed and sealed for tens of thousands of years had been resurrected!

Although this was against common sense, at this point, they could only run!

“Trying to run?”

Rose screamed in horror.

At the same time, she opened her mouth and spat out a white spider web. Like lightning, it trapped the old woman of the Witch’s Family.

She exerted force and the old woman was pulled over. Her branch-like fingers stabbed into her body.

Not long after, the old woman turned into a dried corpse. The dried corpse was already hollow as if it was woven by tree roots. Green leaves and white flowers grew on the surface of the corpse.

Her aura rose a little more, but it was not as obvious as before.

In just a short while, two fifth-circle wizards had fallen.

The other fifth-circle wizards scattered in different directions.

Rose picked up the spoils of war on the ground, randomly picked a direction, and chased after a wizard.

Suddenly, the Dark Elf Forest fell silent.

Levi, who was watching the projection from afar, gulped.

“D*mn it, I knew there was something strange, but I thought there was something wrong with the remains. Now it seems that there’s something wrong with the roots! She had been dead for tens of thousands of years. How could she be resurrected? Or could it be that this matriarch is not dead at all?”

Levi couldn’t figure it out. Anyway, it had something to do with the Pandora’s Root.

“It’s over now. These guys released a demon. The fourth level won’t be peaceful anymore.”

Chapter 1198: Pitting Opponents Together

Levi did not dare to have any ideas about the Dark Elf Mistress.

What a joke. Even if a former sixth-circle existence had fallen to the fifth-circle realm, all kinds of unfathomable methods must have emerged one after another.

Moreover, this Mistress might recover her strength to the sixth-circle realm in a few days.

“I can’t stay in the Sea Continent anymore. I might as well go to the sea and cultivate for a period of time.”

Thinking of this, Levi left the continent with Sawkins.

Next, the continent was going to be in chaos. Let those top organizations fight with that Mistress first.

He continued to watch from the sidelines to prevent himself from being implicated.

Several days later.

At a remote sea area on the fourth level.

Levi found a place to stay, it was an uninhabited island.

He set up the array and placed the transcendent creatures in place before starting his cultivation.

In the blink of an eye, a month had passed.

Levi's Chariot Rune had been upgraded to level 10, and its speed had increased by 90%. He could run even faster now.

When Levi was not cultivating, he would watch the projection battle on the fourth floor.

He saw that the fifth-circle wizards of Lilith's Cabin, the Hurricane Steeple, the Burning Army, and the Seven Waters Steeple were all killed by Rose and turned into dried corpses. Rose's strength was getting stronger and stronger, and she should be close to attaining Perfection in the fifth-circle.

The most recent projection was of Rose appearing at the portal. She had an argument with the wizards near the portal and turned them into dried corpses before entering the portal.

This made Levi puzzled and he thought, "What is Mistress Rose doing on the fifth floor?"

Based on his current observations, Rose did not kill the innocent. She had only killed a few fifth-circle wizards and raised her strength to Perfection in fifth-circle before quickly heading to the fifth floor.

RÂNÓBĚş

But no matter what, he was finally relieved.

Just like the foreigners, a native like Rose couldn't return to the lower levels from the upper levels.

Ever since she was resurrected, Rose had killed six fifth-circle wizards.

It had a profound impact on the power structure of the fourth level.

The resource points that originally belonged to these top organizations were quickly divided up by the remaining organizations.

Thunder Hammer, Valley of a Thousand Winds, Ocean Abyss Alliance.

These three families became the final winners.

This made the leaders of the top wizard organizations in the outside world scold their own wizards for being stupid.

They just had to collect resources obediently. Why did they have to cause trouble and explore the dangerous ancient sealed land?

Now, they had lost both money and manpower, and the last three forces had benefited in exchange for nothing.

Levi was on an isolated island overseas, sitting on the mountain and watching the tigers fight.

Now, the only great enemy that could threaten him had already gone to the fifth level.

The plan to get the powerful opponents to fight and eliminate each other was complete. Although there were some errors, it was not a big deal.

The time to clear the accounts was up!

Next, it was time for the three-headed evil dragon to appear!

“Sawkins, look after this place and protect everyone. I’ll be gone for a while.”

He threw a bag of Fate Coins to Sawkins and the giant green crab nodded in satisfaction.

Then, Levi’s figure flashed and disappeared.

The first place he headed to was Thundercloud Swamp. That was the Thunder Hammer's resource point. There was a high chance that the Black Thunder Wizard would be hiding there.

...

Thundercloud Swamp.

Outside a pitch-black wizard tower, layers of array protected it.

The Black Thunder Wizard was currently cultivating.

His complexion was not bad, and he looked high-spirited.

He was glad that he had left the battle earlier. Otherwise, if Rose had resurrected, he would have died on the spot.

At that time, there were a total of eight wizards at the scene. Except for him and the one from the Ocean Abyss Alliance, the others all died miserably, turning into dried corpses covered in green leaves and flowers.

From the clues he had obtained, Rose had already left the Sea Continent and was most likely heading to the fifth floor.

After the reshuffle, there was only a handful of fifth-circle wizards in the entire Sea Continent, including the hidden Bone King.

And Black Thunder Wizard's true strength should be one of the best among these people.

After he was done with the organization's matters, he was going to start refining the oddities he had obtained previously.

He took out the Thunder Worm Chrysalis. The purple worm struggled in his hand, but it could not escape.

"You're just a rare Earth-grade Oddity. It's your honor to let me refine it. When I complete my third-circle talent, my strength will improve. With the Black Oblivion Thunder, I'm almost invincible to those below the fifth-circle senior level. Hahaha!"

At this moment, he suddenly felt a powerful aura flying over without any concealment.

"Oh no, could it be that the Mistress has returned?"

He immediately opened the wizard tower's grand array and flew out. He saw a ferocious Dragon Abomination shooting over in midair. In its hand, it suddenly held a purple spiked club!

Boom!

Purple light burst forth, and a terrifying force swept out!

The array around his wizard tower was destroyed in an instant.

Under this extreme force, the array was as fragile as paper.

"Level... Level Five Dragon Abomination?" He was terrified and released his innate technique at the same time.

Rumble!

Black thunder pervaded and descended from the sky, striking the Dragon Abomination.

"Even a fifth-circle senior wizard would not dare to take my Black Oblivion Thunder head-on. Arrogant alien race, die!"

Just as he finished speaking, Dragon Abomination's body suddenly swelled in the lightning light, and dragon horns appeared.

His speed was like lightning, appearing in front of the Black Thunder Wizard.

"Eat this stick!"

Boom!

The Black Thunder Wizard dodged quickly, his force field flashing.

As the spiked club fell, the ground cracked and the swamp trembled!

"You... Are you the Three-Headed Dragon Abomination that destroyed the Letney Family branch?"

He suddenly remembered the incident four years ago.

Chapter 1199: Attack of the Dragon Abomination

"D*mn it, this Dragon Sin is actually still on the fourth level. Could it be that he got lost and still hasn't found the teleportation portal?"

He dodged while retreating.

Levi raised his spiked club high and charged forward. The wizard tower was turned into dust under the impact of the spiked club!

Levi shouted arrogantly, "Don't run, human. Come and fight me like a man!"

"You're the one who forced me!"

The Black Thunder Wizard, who had been suppressed and fleeing like a rat, roared angrily. His face was ashen, and his veins were bulging. He was a dignified fifth-circle wizard, and he had his dignity!

"Black Annihilation... Thunder Explosion!"

He did not hesitate to use his most powerful innate spell.

Last time, he had used this move to repel the people from the Sea Covenant and escape.

"Good!"

Five giant dragon Dharma Idols appeared behind that Dragon Abomination. Terrifying thunderstorms covered heaven and earth, unable to be avoided, drowning Dragon Abomination within!

“Die!”

The Black Thunder Wizard panted heavily. This move would use up all of his [Black Oblivion Thunder]. This was his strongest trump card. Without this thunder, he would be an ordinary Lightning School of Thought wizard!

Suddenly, the shadow of a three-headed dragon god that was as black as ink and as tall as a 20-story building appeared in the black lightning sea!

The Dragon God wielded his sword and slashed down! The surrounding lightning and thunder were swept back by the sword qi and destroyed!

Levi sat on the Six Heavenly Gods' head, safe and sound. He was a little shocked. “This Black Thunder Wizard is quite capable. The thunder just now was a little strange. To be safe, I should use Six Heavenly Gods to kill him.”

Originally, Levi had wanted to see if he could kill a fifth-circle without using the Six Heavenly Gods, but he decided against it.

Seeing this scene, the Black Thunder Wizard did not hesitate at all. He immediately turned into a bolt of lightning and fled.

If the other party could take his strongest move head-on, then what was the point of attacking him? Even a fifth-circle senior wizard might not be his match!

“Do you think you can flee?” Levi sneered.

With a wave of his hand, the Six Heavenly Gods strode forward, wrapped in black flames, tearing apart the Scarlet Dark Dimension and chasing after him.

His current speed was faster than the Black Thunder Wizard!

In the distance, the Black Thunder Wizard suddenly stopped in front of him.

The Three-Headed Dragon God descended from the sky and slashed down with his sword. A black ribbon filled the sky. In his field of vision, there was only this extremely resplendent sword qi! **RâNθβES**

At the same time, the cloak, golden shield, 3,000 feather blades, and other divine weapons sealed it up!

This sword had locked onto him!

The fifth-circle wizard weapon revolved around him, and a massive amount of spell power surged into the force field.

Boom!

This was accompanied by a shocking explosion!

The Wizard Tool was cut in half by the black flame longsword. The runes on it dimmed, indicating that it was broken.

The Black Thunder Wizard could not care less about his heartache. He drank some precious potions to recover his strength and used his force field defense.

However, the force field also lasted for a moment before it shattered.

Three thousand feather blades shot out, turning the Black Thunder Wizard into a sieve!

The Black Thunder Wizard's eyes were unfocused, and the light in his eyes eventually faded. He had died.

After clearing the battlefield, Levi said calmly, "Another boring one."

In the past, he would be excited for a long time because he had killed a fifth-circle. Now, he was no longer excited.

These ordinary fifth-circle wizards were no longer challenging.

After four years of hibernation and the advancement of the Crimson Emperor Dragon, he also gained the support of the Six Heavenly Gods, the Strength Rune, and other special forms. His attack power had already reached an extremely terrifying level, and he could easily tear through these people's defenses.

After dealing with the other small fries, Levi collected all his spoils of war and left the Thundercloud Swamp.

"The next place is the Valley of a Thousand of Winds."

...

Realm of Thunder.

The home of the Black Thunder Wizard, the Thunder Divine Tower.

"This Three-Headed Dragon Abomination has a grudge with our Lightning School of Thought, right? Last time, it was the Letney Family. This time, it's us. They're bullying our Lightning Faction! This is too infuriating. Does he think that our Lightning Faction has no one?"

"He's too arrogant. He's simply detestable. Seniors on the fifth level, you must kill him... Otherwise, how would our Thunder Divine Tower have any pride left?"

In the Wizard World, a storm was brewing.

Especially the Lightning School of Thought, they were all puzzled as to why Dragon Abomination was always targeting them.

Could it be that he was a competitor of another sect? For a time, conspiracy theories were rampant.

Several days later.

Dragon Abomination appeared in the Valley of a Thousand of Winds again. The Valley of a Thousand of Winds' base was destroyed. The fifth-circle wizard from Hurricane Sky Island finally self-destructed, but he was unable to hurt Dragon Abomination.

After that, the wizard of the Ocean Abyss Alliance heard the news and rushed to the fifth floor overnight, completely giving up on the fourth floor.

At this moment, the wizard realized that this Dragon Abomination was not targeting the Lightning School of Thought, but the top organizations of the entire Wizard World.

It was as if he was saying that what they were sitting on was trash!

They even saw that Three-Headed Dragon Abomination kill a level 4 Dragon Abomination that had angered him.

This guy even beat up his own people when he went crazy. With such a posture, he was definitely Dragon Abomination without a doubt!

...

Dusk Holy Temple.

The knights were silent, their blood boiling.

“What kind of peerless ferocious dragon is this? In just a few days, he has stepped on the entire Wizard World?”

“Dragon Abomination is too strong. Hurry up and cultivate to become stronger. Otherwise, when they invade in the future, we won’t have the strength to retaliate at all!”

...

Endless Sea, Witch’s Family, in Triss’s cabin.

Triss looked worried. The entire fourth level was in a mess because of Mistress Rose and the Three-Headed Dragon Abomination.

The original structure was completely broken.

At this point, all the branches of the top wizard organizations were either destroyed or escaped to the fifth floor.

Moreover, be it Mistress Rose or the Three-Headed Dragon Abomination, they did not take those resource points for themselves. Instead, they disappeared without a trace.

That Dragon Abomination seemed to only enjoy the process of killing and did not have the intention of occupying the mountain and becoming king.

The top-tier organizations had been destroyed. The nomadic wizards would be celebrating now.

“Sigh... If this Dragon Abomination reaches the fifth level, it will probably stir up a storm of blood!”

Triss was a little worried about Anya.

...

In the blink of an eye.

Two months passed.

Year 1175 of the Holy Brilliance Calendar, the Month of Vitality.

Year 10 of the Dark Ancient Tower Calendar.

The fourth level.

On the nameless island in the sea, the sea breeze blew and waves bloomed.

Levi sat comfortably in front of the thatched cottage like an old farmer, looking at the mountain of spoils of war in front of him.

“All the landowners have been exterminated. The fourth level is peaceful now. I can be considered to be working for the welfare of the lower class of the Wizard World.”

He only took away the most valuable and ready-made resources. Those that he did not have the time and energy to collect were left for the vast number of nomadic wizards. Almost all the resource points had become ownerless.

For a time, a bloody storm broke out on the sea continent.

All of this had nothing to do with Levi. He just wanted to slowly digest his gains on this uninhabited island.

In the days to come, facing the sea, spring would be warm and flowers would bloom.

Chapter 1200: Self-Created Combat Skill, Heavenly Dragon Sword Manual! (1)

Dark Ancient Tower, Fourth Floor, Sea Continent.

A few days later, Levi finished tallying the spoils he had seized in recent times.

In total, Levi had obliterated two wizard organizations, Thunder God's Hammer and Valley of a Thousand Winds, along with some nomadic wizards who were unfortunate enough to get caught in the conflict.

Despite the apparent excitement, the casualties were minimal. He had mainly taken down two Fifth-Circle Wizards.

Levi wasn't about to unleash a massacre on all wizards. Such a move would only backfire on him, considering the sheer number of wizards. If any were pretending to be weak, he would have been in trouble.

However, despite these considerations, the haul was substantial.

A total of three million Aether Stones. Levi's reserves now topped a staggering 15 million. Even during his time in the Wizard World, he had never been this affluent.

It could only be said that these top-tier wizard organizations were incredibly wealthy. They had brought so many Aether Stones into the ancient tower.

Additionally, Levi confiscated two Fifth-Circle Wizard Tools. One was contributed by the Black Thunder Wizard and the other by the Valley of a Thousand Winds.

Most other Fifth-Circle Wizards didn't even possess Fifth-Circle Wizard Tools, yet Levi now had more than he could use.

Furthermore, there were substantial resources of medicinal herbs and ores.

If these resources were brought back to the Wizard World, Levi could likely establish a fifth-circle wizard family from scratch.

Levi discovered that he had nearly perfected the formula for the Demon Soul Potion, used to aid meditation beyond the Fifth-Circle.

By the time he had advanced past the Fifth-Circle, he no longer had to worry about the meditation supplementary potion for that stage.

“It’s all thanks to the Dark Ancient Tower. If I were in the Wizard World, with my status, gathering so many materials would be as difficult as reaching the heavens!”

His knowledge of spells and the Three Arts of Wizardry had also expanded significantly.

Apart from the standard rewards, Levi was surprised to find two items on the Black Thunder Wizard.

One of these was a Truth Oddity.

He extended his hand, and a chubby purple worm appeared in his palm. It wriggled incessantly, occasionally sparking with lightning that even the force field of an Intermediate Wizards couldn’t withstand.

Consulting Levi’s Truth Oddity Illustrated Guide, he learned it was an Earth-Grade Oddity. It was the Thunder Worm Chrysalis.

This oddity could only form in places saturated with thunder elements under specific conditions.

The Thunder Worm Chrysalis was just the initial form of this oddity.

Given safe incubation for thousands of years in a thunderous environment, it could potentially evolve into a Sky-Grade Oddity, the Thunder Butterfly. Its capabilities would far surpass those of the Thunder Worm Chrysalis.

Of course, Levi couldn't afford to wait for centuries for its transformation. He needed to refine it immediately.

The second discovery was a constantly vanishing black lightning ball.

The lightning ball trembled in Levi's palm as if imbued with its consciousness.

Levi initially had no clue about this object, but within the Black Thunder Wizard's ring lay a tome titled "Illustrated Guide to Strange Thunder".

This book detailed nearly a hundred variations of lightning discovered by wizards of the Lightning School of Thought.

Most lightning in the world was basic purple lightning, the fundamental technique of the Lightning School of Thought, such as that used by the Thunder Dragon Family. **РаноbĚS**

However, beyond purple lightning, there existed a diverse array of peculiar lightning types.

These variants varied widely in power. Some surpassed purple lightning, like the Golden Lightning of the Letney Family.

Some had apparent power weaker than purple lightning, like one called Ten Thousand Poison Lightning. While its basic destructive force was poor, it possessed extremely strong negative energy toxicity, capable of corroding everything, even the primordial souls of high-level wizards!

The Black Thunder Wizard wielded a type known as Black Oblivion Thunder. Its lethality matched purple lightning, but its unique trait was its remarkable adhesion. When it struck, it inflicted continuous damage akin to maggots in bone, requiring prolonged efforts to remove. Thus, its actual potency rivaled even Golden Lightning.

These strange lightning variants resembled Truth Oddities, naturally occurring and nurtured phenomena.

Unlike oddities, if the owner of such lightning perished, it could reform and select a new master.

In terms of rarity, Black Oblivion Thunder even exceeded the Thunder Worm Chrysalis!

Levi carefully sealed it in a specially crafted container for future study, prioritizing the refinement of the Truth Oddity.

Drawing from his previous refining experiences, Levi found the process smoother this time. Half a year later, he successfully refined this peculiar item.

Inside the island, Levi opened his eyes, lightning gleaming within.

He introspected into his mind and discovered that within the Divine Ring Tower, 441 spiritual stars had already coalesced.

He placed his hand on the Klein Crystal Ball.

[Spiritual Force: 441/540]

[Spell Power: 20,250]

“Unfortunately, this oddity didn’t directly enhance my spiritual force,” Levi sighed.

It seemed not all oddities could boost one’s spiritual strength directly. Only exceptional items like Scythe Breath achieved that.

However, the Thunder Worm Chrysalis could enhance the potency of thunder element spells. Levi tested it and noted a significant increase in the Thunder Dragon Flash’s speed.

Moreover, for those with just two third-circle talents, the Thunder Worm Chrysalis could compensate for their deficiencies and complete their talents.

As a sixth-talented Fourth-Circle Wizard himself, Levi didn't require this function.

Yet, he sensed his Thunder Dragon Flash talent had subtly changed.

Presumably, for a wizard like him already brimming with talent, Truth Oddities could have compensated for inherent flaws and gaps in his abilities, which would have been beneficial for advancing his primordial soul.
