

Wizard 1251

Chapter 1251: Nightmare Fog

After returning to the shelter, Levi continued to cultivate.

The ups and downs of Io Continent had nothing to do with him.

He only needed to pay attention to the projection occasionally and pay attention to Anya that kid's situation.

...

Year 1196 of the Holy Brilliance Calendar, the Month of Winter.

Dragon Palace Island.

...

In Levi's secluded cultivation area, endless black mist surged out of his body.

The fog exuded a mysterious, unknown, and terrifying aura. Within it, a black dreamy dragon could be vaguely seen circling, like the ruler of the fog.

On this day, the Nightmare Dragon's breathing technique finally reached level 15, the First Transformation of the Blood Source Realm!

The black mist that lingered around Levi and the Nightmare Black Dragon in the mist was his Bloodline Dharma Idol.

Levi immersed himself in it and carefully sensed the functions of the Bloodline Dharma Idol.

He could feel that the accuracy of his Nightmare Perception had increased further in the fog.

He went to the sky above the island, and the dense fog followed him.

With a thought, the fog expanded and eventually covered the entire Dragon Palace Island!

At the same time, the fog also spread and it continued to thin out.

"This shouldn't be the limit of the fog's expansion. However, if it continues to expand, the effect of increasing my perception will be greatly weakened."

Levi called the three brothers over and had them enter the black mist.

"Come find me," said Levi.

He stood in a corner of the fog and found that the three brothers were running around like headless flies. They could not find him at all.

After a while, they finally found Levi.

“Lord Dragon King, after we entered the fog, we couldn’t see into the distance. Our senses seemed to have been weakened and we couldn’t locate you,” said Ganster.

“This is just a small trick of mine. You may go back,” Levi said calmly.

“The Dragon King is mighty!” After flattering him, the three brothers left.

“This fog is formed by my Nightmare Dragon Dharma Idol. It has two functions: Firstly, it could increase my perception abilities. Second, it could weaken the enemy’s perception.”

Most dragons have weak senses, so they will be blinded by the mist the moment they enter. Wizards have stronger senses, but they are completely passive in the fog domain. Their Spiritual Perception will also be limited to a very small area. Once they are enveloped by my fog, it will be a one-sided massacre.” RANDBES

Levi realized that most of the skills related to the Nightmare Dragon were of the domain type.

He named it Nightmare Fog!

Of course, there was a price to pay for the Nightmare Fog's powerful ability.

The larger Levi's fog domain was, the faster the Nightmare Dragon's power was consumed. He could only last for a few minutes when the area covered the entire island.

Therefore, in battle, it was best to think of a way to close the distance. The best way to use it would be in a small area with the Nightmare Fog cast in a high concentration, and then activate the hunting mode.

Levi looked inside his body.

Golden Snake, Crimson Emperor, Sky, Scarlet, and besides the Death Ember divine palace, the sixth divine palace had already risen from the ground. This divine palace was wrapped in black fog, making it unfathomable and mysterious.

On the plaque of the divine palace was the word "Nightmare".

Within the Nightmare divine palace, within the endless black fog, the black dragon was hidden like a god.

“Today, the six great divine weapons and the six divine palaces have all been completed. Next, I look forward to the Golden Snake Breathing Technique advancing to level 7 and reaching the Fifth Transformation of the Blood Source Realm!”

Levi opened his proficiency panel.

Levi –

[Nightmare Dragon Breathing Technique: Level 15 (1/700,000). Special Effects: Nightmare Perception (Level 7), Danger Perception, Nightmare Lord, Heavenly Wind Heart.

Bloodline Dharma Idol: Nightmare Fog.

Exclusive Weapon: Nightmare Helmet (Level 2).]

...

“The Nightmare Dragon Breathing Technique is now equivalent to a level 4 in the knight realm. I wonder if the Lord level of my Nightmare World has increased?”

Thinking of this, Levi entered the Nightmare World and transformed into a ferocious little black dragon.

His body was much bigger than before. His wingspan was more than twenty meters, his body was more slender and well-proportioned, his limbs were stronger, his dragon teeth were sharper, and his scales were more dreamy, emitting a colorful black luster.

He opened his mouth, and black Nightmare Dragon's Breath shot out, blasting several miles away.

"As expected, I've already advanced from a little baby Dragon to a young Dragon!"

To the powerful Nightmare Dragon, a level 4 Dragon could only be considered a Dragon whelp, which meant that it had just begun to develop and was not even considered an adult.

Levi opened his proficiency panel again.

Levi –

[Nightmare Lord: Level 4]

[Nightmare Territory: Black Dragon Territory]

...

“I’m now a level 4 lord. Next, the recovery speed of the Mother Flesh Tree and the speed of producing Nightmare Creatures will also increase. When I reach level 5, I should have an army of Nightmare Creatures that has begun to take shape.”

On the other side, under the Flesh Mother Tree.

The Faceless Infant Dragon was lying on the ground. It sensed the arrival of its lord. It opened its eyes and said in a girlish voice, “My Lord, you’re here.”

“There have been no visitors in the territory recently, right?” asked Levi.

“Yes... A traveler from another plane who accidentally entered our territory was eaten by me,” said the Faceless Infant Dragon proudly.

Levi said, “The next time you encounter such a situation and if you have the strength, you can capture him alive. Wait for me to come back and deal with him. Don’t just eat everything.”

Chapter 1252: Shadow Hell

“Yes, My Lord,” the Faceless Infant Dragon said softly.

“Come, let’s do a routine physical examination.” Levi took out the big vat.

“Alright.” The Faceless Infant Dragon obediently stretched out its claws.

Levi started drawing blood. After filling up the three vats, Levi threw some Nightmare Creature Recovery Potions he had developed to the Faceless Infant Dragon and left.

“His Lord is quite nice.”

After drawing the blood, the Infant Dragon’s heart felt warm.

...

“Every time I draw blood, I can sleep soundly.”

Feeling drowsy, the Faceless Infant Dragon fell asleep. As a Nightmare Creature, it could freely control its own Dream. However, this time, it realized that its Dream was no longer under its control.

It stood alone in the Chaotic Wilderness, looking at the sky.

Under the red and black curtains, an immeasurably long Dream Black Dragon traversed the world. Its broken wings spread out, covering the sky and the sun. Behind it was an army of nightmares led by many powerful Nightmare Lords. Wherever the black dragon passed, the Nightmare Overlords submitted.

“His Lord... He’s so handsome and mighty!”

On the other side, Levi, who had returned to the real world, opened his eyes and smiled.

“As a qualified Nightmare Lord, you have to learn to bluff and show your divinity in your dreams.”

This was his new ability after becoming a level 4 Nightmare Lord. It had no practical use, but it was convenient to manage his subordinates and create his own persona.

...

Time passed quickly.

The path of cultivation was dull and long.

After the Nightmare Dragon broke through, Levi did not forget to study the fifth-circle gatekeeper array while he was cultivating.

He wanted to set it up on Dragon Palace Island. That way, the island’s defensive ability would be even more monstrous. If he went out, he could also provide good protection for the transcendent creatures.

The current blueprint of the Seven Kings of Hell Array was divided into seven modules.

On Dragon Palace Island, the Rolling Stone Hell was presided over by the Earthquake Dragon; the Inferno Hell was presided over by the Crimson-Horned Fire Python; the Wind Blade Hell was presided over by Sawkins with the help of the Wind-chasing Green-winged Birds; the Dead Sea Hell was presided over by the Dragon Turtle and the Giant Lobster; the Ice Hell was temporarily vacant; the Lightning Hell was presided over by the Wind Thunder Winged Dragon; and the Blade Mountain Hell was vacant.

Next, Levi planned to add one more module to the Seven Kings, which was the Shadow Hell, which would be overseen by Raja's wife, Night Fang.

Then, he would rely on his fifth-circle array skill to upgrade the entire Seven Kings of Hell. He would use the existing materials to create a new set of protective arrays!

The research of the new array did not need him to start all over again. It was just a partial upgrade and adjustment. The materials needed for the Seven Kings array were upgraded or replaced according to the actual situation, and Levi's current materials were replaced.

The only troublesome thing was the research on the Shadow Hell.

Just like that, a year passed.

Year 1197 of the Holy Brilliance Calendar, Month of the Northern Wind.

Dragon Palace Island.

Levi's consciousness entered the fifth floor of the Divine Ring Tower.

After two years of hard work, the seven-colored crystal seemed to have grown a little stronger, but it was hard to notice with the naked eye.

He placed his hand on the Klein Crystal Ball.

[Spiritual Force: 620/1070]

[Spell Power: 62,000]

...

"After attaining fifth-circle, cultivation is indeed much more difficult than when I was in the fourth-circle realm. Fortunately, I have the proficiency panel. At my current speed, if I take the meditation supplementary potion, I'll be able to reach Perfection for my fifth-circle in about 80 years and prepare my primordial soul." *íaNóBĚŞ*

The fifth-circle was the last obstacle before the primordial soul. Even a genius would be thwarted here.

If it were any other wizard, they might have spent a whole day thinking about it, but in the end, they would have found nothing. Their lives would have been wasted.

With the panel, no matter how hard he worked, he would reap benefits. He was improving every day!

After completing his meditation homework for the day, Levi continued to head to the weapon refinement room.

In the past year, the focus of his work had been to refine new arrays.

In the weapon refinement room.

Phoenix was breathing fire, providing the conditions for Levi to refine the array items.

This was the advantage of having a Fire Elemental Spirit. If it was other wizards, they would either have to find a place with an underground fire or use their own spells to refine it. It would be time-consuming and laborious.

To wizards, time was life, and efficiency was money.

Therefore, Levi would never give Phoenix to anyone.

Phoenix kept the fire burning, and while Levi was cultivating, the one responsible for refining it was naturally the Holy Infant clone.

“Holy Infant, you should go rest first. I will finish the final work,” Levi said to Holy Infant.

Holy Infant slowly retreated. After replenishing his spiritual force, he went back to his talisman crafting skill.

In the flames in front of Levi, there were eight longswords of different colors.

On the earthen yellow longsword, there was a mountain dragon that looked like an Earthquake Dragon. It looked up at the sky and roared.

On the scarlet sword was a giant flaming dragon that was burning everything in its path!

The other swords were the same.

These eight swords were the core of Levi’s array.

Now, the first seven swords had been completely condensed.

The last longsword emitted a black light. One could vaguely see a Shadow Dragon eyeing it covetously.

Levi sat cross-legged and used his spiritual force to solidify the spell runes on the longsword. He was meticulous and orderly!

Several days later, the black longsword had also completely solidified, and the Shadow Dragon on it was lifelike!

“It’s done. The secondary array items will be much easier.”

Levi’s forehead was covered in sweat, and his spiritual force was exhausted.

After cultivating for a few days, he struck while the iron was hot and used a month’s time to complete the remaining work.

Levi heaved a sigh of relief, his face filled with joy as he chanted.

Chapter 1253: Capturing Thunder Elemental Spirit

Eight main swords and eighty-one secondary swords were rotating in the weapon refinement room.

These were array items, but there was a distinction between primary and secondary.

The complexity of this new array far exceeded the Seven Kings of Hell. Of course, its power was also much higher.

This was a genuine fifth-circle array!

Even among the fifth-circle, it was considered a high-quality array!

“This array can be called the ‘Eight Heavenly Dragon Prison’!” Levi muttered.

...

On this day, he arrived above the island.

As he chanted, the eight swords and the eighty-one swords all turned into light and disappeared into the surroundings of the island.

Next, Levi and Holy Infant continued to adjust the 80,000 large array nodes and 810,000 small array nodes on the array.

A few days later, his spiritual force, which had just entered the fifth-circle, was almost exhausted. He finally completed the setup of the Eight Heavenly Dragon Prison!

He breathed a sigh of relief and drank the potion to meditate to recover his spiritual force.

“As expected of a large-scale fifth-circle array. Under normal circumstances, this would take at least four fifth-circle array wizards and many fourth-circle array wizards a few days to complete.”

From the outside, the island looked normal. However, if an enemy were to enter, they would discover that this place was a terrifying Dragon Hell!

In Hell, Levi called Sawkins and the other transcendent creatures over.

“Next, find a place where your attributes are compatible and cultivate normally. Three brothers, go to the Earth. Crimson Horn, go to the flames...”

After making the necessary arrangements, Levi looked at the scene with satisfaction.

In the following month, under his command, these transcendent creatures continued to adapt and train in their respective Hells, becoming qualified guardians of the array.

Dragon Palace Island had become a mysterious forbidden area in the sea.

...

Several days later, Levi ended his cultivation and looked in the direction of the Io Continent.

“Now that the Eight Heavenly Dragon Prison is protecting the Dragon Palace, and my Nightmare Dragon has also given birth to a Dharma Idol, its strength has increased further. It’s time to save the thunder elemental spirit. Let me think, which avatar should I use?”

“Holy Infant’s current strength is not very good. Other than the spells of the Burning Faction, the rest are average.”

“My Gandaph avatar is quite powerful.”

“Other than that, it would be the Three-Headed Dragon Abomination.”

“It is better to use the Dragon Abomination avatar. This would be more taboo. After all, Gandaph is an amiable and chivalrous Kane ranger. His character can not be destroyed. ʀANöĬÊƆ

“Dragon Abomination has been silent for so long, it’s time for him to come out and take a breather.”

On the island, Prime Minister Dragon Turtle Ratti was cultivating intensely.

Now that there were more and more level 5 existences on the island, it felt a sense of urgency.

Originally, this old turtle would take some time off to sleep every day. Now that Ratti had started to roll, it did not sleep at all. Ratti was crazy and could be called the second generation of Levi!

Levi called Sawkins and the three Earthquake Dragons over.

“I’m going on a long journey for a while. You guys take care of the pl, make good use of the array, and protect our comrades on the island.”

‘Crab General’ Sawkins nodded repeatedly.

The eldest Earthquake Dragon, Ganster, promised, “Don’t worry, Lord Dragon King. The three of us will guard the first level, Rolling Stone Hell. We won’t let anyone else enter the Dragon Palace!”

After joining the Dragon Palace, the Dragon King fulfilled his promise. Not only did he not harm them, but he even healed their injuries and gave them precious medicines to promote their growth.

Moreover, the Dragon King even took care of the three brothers himself. He regularly gave them blood tests to check their health.

This feeling of being cared for by the Dragon King made the three brothers know that they had not lost anything by following the Dragon King!

As for the shiny gold coins and diamonds that the three brothers liked, they had more than enough.

In their eyes, Dragon Palace was a true paradise!

Levi nodded. He was very assured about these transcendent creatures.

The first stage of the array was guarded by the three brothers. The three sub-dragons, together with the array, could be said to have the right timing, the right place, and the right people.

Even if a fifth-circle senior wizard came, he would not be able to gain any advantage. There was a high chance that he would run away in defeat.

Levi had brought Holy Infant, Phoenix, and Leon with him on this long journey.

The first two were used as trump cards in the battle, just in case. Leon was responsible for the aftermath.

Levi estimated that after devouring a few more level 5 souls, Leon should be able to advance.

After everything was ready, Levi rushed towards the Thunder Basin.

He first went to Deep Blue Organization on the way and turned into a nomadic wizard to visit Anya.

The young man had already recovered and was full of energy. He was currently regrouping and working hard to cultivate.

This time, he didn't meet the two witches who picked on him.

Because they were killed by Simon.

Wasn't it a kind of happiness to be killed by the person you liked?

...

Several days later.

At Thunder Basin, in a secluded area.

There were six wizards sitting opposite each other, plotting something big.

The six of them wore white robes with Golden Lightning tattoos on them.

The leader was a fifth-circle wizard. The other five were all fourth-circle senior wizards, and they were all at the level of a perfected fourth-circle wizard.

There was no doubt that this was an elite wizard team.

It was the Letney Family from the Deep Blue Organization!

“According to our intelligence, Archmage Thunderbolt has already left the Thunder Punishment Tribunal. However, there is still a Thunder-Sky Archmage guarding the Thunder Pool.

“Next, I will be responsible for luring Thunder-Sky away. The five of you will use the [Thunder King’s Palace] array given by the organization to suppress the level 5 thunder elemental spirit. Then, you will use the Wizard Tool I gave you to forcefully form a contract with it. After that, you will immediately escape and head to the organization’s base.”

Chapter 1254: Attacking Thunder-Sky

The leader of the fifth-circle wizards said all these to the team.

“Understood. With the Team Leader taking action, this operation will certainly be successful.”

“That’s right. These natives dare to call themselves Archmage. They’re simply laughingstocks. In front of the elites of our Golden Lightning family, they’re nothing but chickens and dogs.”

“You can’t put it that way. It’s said that the Snow Lotus Witch had fought with Archmage Thunderbolt before and was no match for him.”

“How can this be the same? We are the Lightning School of Thought. Among all the schools, other than the Burning School of Thought, who can compare to us in terms of killing? Our team leader even advanced to the fifth-circle as a child of the thunder element. He also has a fifth-circle wizard weapon bestowed by the organization. His strength is not something that an ordinary fifth-circle wizard can compare to. Do you understand the value of a genius fifth-circle wizard... Besides, the Archmage guarding the Tribunal is much weaker than Thunderbolt.”

The fifth-circle wizard coughed and said proudly, “Although what you said is true, we wizards should not be arrogant and complacent. I, Gabriel, have cultivated for 250 years and have only reached the fifth-circle realm. Up until now, I have only grasped seven innate spells. In front of a true genius, it is not worth mentioning. The Golden Light Wizard is our role model!”

...

Gabriel appeared humble on the surface, but he was actually humble-bragging.

After all, he was a fifth-circle wizard, the son of the thunder element, 250 years old, and had reached perfection with six talents that were at third-circle and fourth-circle.

These conditions added together would make him a genius in the eyes of the public.

It could only be said that he was still a little lacking from a top-notch genius.

“Alright, let’s act according to the plan. This thunder elemental spirit is something that the Commander-in-chief is determined to obtain. After capturing it, it’s obviously going to be given to the Golden Light Wizard to help him increase his strength. Perhaps there are wizards from the neighboring Thunder Divine Hall who have taken a fancy to this thunder elemental spirit and are waiting for an opportunity to capture it.”

Gabriel's words came true.

At the edge of the Thunder Basin, a fifth-circle wizard from Thunder Divine Hall had already led a team to attack.

"Thunderbolt has left. Next, it's time for us to put on a spectacular performance."

However, neither side expected this.

A figure had already arrived at the Thunder Punishment Tribunal before them!

Above the Thunder Pool, Levi hid in the lightning clouds, the Hermit Rune concealing his figure.

"Hmm? It seems that Archmage Thunderbolt is not around... I originally wanted to use him to practice, but I can only give up now. This is good too. It'll be easier for me to take away the thunder elemental spirit."

Thunderbolt was a senior level 5 mage, so it was indeed troublesome to deal with him.

However, Levi could sense that there was another level 5 Archmage in the Tribunal, but he was much weaker than Thunderbolt.

Levi had already sent his Holy Infant clone somewhere in the basin to be on standby, just in case.

“Anya, I’m here to make things difficult for you!”

Levi’s robe exploded and turned into ashes under the black flames. Savage black scales began to appear, and his body began to grow until he was three stories tall. ~~RAN~~^ÑBES

“Phew, I haven’t fought in a long time. Let’s warm up first.”

Boom!

He swooped down and caused the airflow to explode rapidly, scattering the thunderclouds in the sky! The black flames formed a tail gas that flew across the sky like a plane and did not dissipate for a long time!

In the Tribunal.

In a basement that looked like an ancient Roman public bathroom.

An extravagant aura filled the air, and the alluring voice sounded wave after wave.

It was a bald Archmage with thick eyebrows and big eyes. He had an extraordinary aura and a strong body. He didn't have the aura of a mage at all. In the bathroom, he was fighting with eighteen nuns who were practicing thunder magic in disheveled clothes. The battle was so intense that it was dazzling.

As the junior brother of Archmage Thunderbolt and also the disciple of Lightning Supreme Mage, he was naturally extraordinary... strong and big.

It was rumored that he was born with a special constitution. It was said that he could promote the growth of his spiritual power by connecting with the opposite sex. Therefore, he had nurtured eighteen female lightning mages, known as the "Eighteen Nuns".

He spent every night partying and studying the legendary dual cultivation path.

He was only 300 years old, but he was already a level 5 Archmage.

The strength of dual cultivation was evident.

Of course, he didn't forget to be vigilant when he was having fun.

Before Senior Brother Thunderbolt left, Thunderbolt had warned him to be careful of the evil mage's revenge. He could not let his guard down.

Suddenly, his expression changed, and he immediately poked his head out from the crowd of women.

"How dare you! You've ruined my plans. When I catch you, I'll definitely let you taste the pain of lightning treatment!"

He turned into lightning and rushed out of the bathroom. The Eighteen Nuns were nervous.

"Will Lord Thunder-Sky be alright?"

"Don't worry, Lord Thunder-Sky has extraordinary strength. He also has the divine talisman bestowed by Lord Thunderbolt. Ordinary evil mages are no match for him!"

"I hope so. If Lord Thunder-Sky dies, we will have no one to rely on in this chaotic world."

Outside, Thunder-Sky saw the enemy.

It was a Black Scale Dragon Man that descended from the sky.

“Oh no, it’s actually a demon dragon!”

Thirty years ago, the Supreme Archmage had once prophesied, “A jinx has descended. Heresy like the evil mage, demon dragons, golems, and other heretics are about to bring disaster to Io. Tell all the churches and monasteries to be prepared.”

The demon dragon was referring to the Dragon Abomination.

They were extremely ferocious and bloodthirsty. Together with the golems and demons, they were known as the “Three Demons of Io”.

Seeing this, the demon dragon charged over.

“Hehehe, die!”

Thunder-Sky waved his staff, and countless purple lightning bolts swept toward the demon dragon!

“Evil demon, the one who will die is you!”

Boom!

A level 5 thunder technique exploded!

The monastery was trembling.

“This bit of attack isn’t even enough to scratch my itch!”

The demon dragon carried the purple lightning and rushed out of the range of the explosion. Black flames surrounded his body and repelled the purple lightning!

Chapter 1255: The Fight Against Thunder-Sky

He swung the spiked club in his hand!

A terrifying wind swept out!

Thunder-Sky used all his strength to form a thunder barrier!

Kacha.

The strong wind tore through the barrier and disappeared.

Thunder-Sky shot out and raised his staff high. In the sky, thunderclouds gathered and lightning bolts as thick as water tanks fell!

...

The demon dragon was struck to the ground and fell into a huge pit.

“You’re bluffing. You can’t even withstand a single blow!” Thunder-Sky laughed coldly and continued to use his lightning technique.

In the next moment, he suddenly became absent-minded and instantly regained his clarity.

Just now, he seemed to have seen a giant spider that could support the heavens and the earth.

As for him, he was entangled in the spider web.

Just as he was in a daze, a black shadow suddenly appeared behind him. The spiked club in his hand struck forward!

“This is bad!”

Thunder-Sky’s expression changed, and his protective force field flashed.

At the same time, he threw out a purple divine talisman carved with a myriad of lightning without hesitation and it exploded instantly.

Divine talisman – Thunder Crash!

Boom!

The divine talisman exploded.

Tens of thousands of purple thunderbolts fell and exploded in a radius of a mile. This was an all-round attack without blind spots!

In an instant, the monastery was razed to the ground, and the Eighteen Nuns inside were instantly vaporized.

The high temperature of the lightning melted a giant lava pit on the Earth.

The power of one attack was so terrifying!

“Heh, you want to fight me? I’m the disciple of Lightning Supreme Mage. How can I not have a trump card?” Thunder-Sky sneered.

Every level of the divine talisman could be divided into four grades in Kane’s system.

Low-level, medium-level, high-level, and absolute!

The one he just had was a rare level 5 high-level divine talisman. It was made by the eldest disciple of Lightning Supreme Mage, an Archmage who was even more powerful than Thunderbolt. `aNØßES

His name was Archmage Myriad Thunder, and he was the most trusted disciple of Lightning Supreme Mage. He was a potential successor!

So what if it was a demon dragon? It would still be killed!

At the bottom of the pit, a figure rose from the sky, and around the demon dragon's body, there were a total of six giant dragon Dharma Idols revolving around it.

His body was in pieces, and countless flesh sprouts were growing crazily.

Other than his head, there was not a single part of his body that was intact.

Even his heart was exposed and was beating rapidly.

However, in the blink of an eye, as ashes danced around his body, his damaged body had already recovered!

Levi let out a breath of turbid air and sighed in his heart.

“This instant-cast the way of divine talisman is really impossible to guard against. The six great Dharma Idols and the divine weapon’s protection, coupled with the Golden Snake Scales at the peak of level 4, can’t even block it... Could it be that the person who created this divine talisman is an Archmage who has attained Perfection in the fifth-circle realm? If it were anyone else, they would have probably died.”

Seeing that the demon dragon was unharmed, Thunder-Sky’s expression changed drastically in disbelief.

“How is that possible? This is a divine talisman personally made by Archmage Myriad Thunder. This Dragon Abomination... Does he actually have the legendary immortal body?”

One had to know that Myriad Thunder had used this divine talisman to kill a level 5 demon dragon!

Even the most powerful golem among the Three Demons of Io was severely injured by this attack and fled in panic.

In the next moment, the figure shot over. How did it look like he had been seriously injured?

“A mere serious injury is nothing! Go to hell!”

The spiked club smashed into Thunder-Sky's barrier and shattered instantly. Thunder-Sky was at his wit's end and could only flee frantically.

Other than the divine talisman, he couldn't even break the other party's defense with any other means. How could he fight?

Boom!

Another shocking attack.

Thunder-Sky was hit by the spiked club like a baseball. He crashed into the white jade pillar that had just been repaired. The pillar cracked and Thunder-Sky was crushed into pieces.

A level 5 Archmage... Dead!

The thunder elemental spirit was dumbfounded.

Levi picked up the ring and looked up. He said calmly, "If you come with me, I'll let you go. If you don't want to, you can die with him."

In the next moment, Thunder Roc nodded his head crazily like a chick pecking at rice.

“Is it that easy? I’m not used to it. It seems that you’ve been taught harshly for a long time.”

Levi used his dragon claws to tear the chains apart, and the Thunder Roc descended from the sky. It spread its wings and crouched on the ground, lowering its head.

It was very perceptive and took the initiative to send the spirit contract into Levi’s mind, successfully recognizing him as its master.

“Very good. I like birds like you. You’re much better than some birds.”

Chapter 1256: Before the Dragon Abomination, Claiming Genius Is Futile! (1)

Thunder Basin

The Thunder Punishment Tribunal.

In the void, the Supreme Eye slowly appeared, gazing at the Dragon Demon. Levi ignored it, and before long, the Supreme Eye silently dissipated.

“Great, all three of my aliases are now wanted by the Kane Empire... Truly a united family in everything they do,” Levi muttered to himself.

Above the Thunder Pool, the Thunder Roc opened its mouth wide, like a sea-swallowing whale, attempting to absorb all the elemental power of the thunder.

Through the spiritual contract, Levi learned that the Thunder Roc had been exploited by the Thunder Punishment Tribunal for years, weakening its strength. Now it needed to absorb the elemental power of the Thunder Pool to recover.

...

“Absorb to your heart’s content. I will protect you,” Levi said.

He went to the ruins of the Thunder Punishment Tribunal, searching for the loot left by those minor mages.

“Even mosquito meat is still meat.”

Suddenly, Levi’s expression changed. He flickered away from his original position.

From the distant horizon, a purple Thunder Snake struck with lightning speed!

Boom!

Thunder roared and arcs of lightning danced!

“Dragon Abomination, leave at once!”

A cold, unfeeling voice came from afar, belonging to a figure in thunder robes.

“A member of the Divine Tower? It seems the Thunder Divine Hall is here. Are they also after this thunder elemental spirit?”

He had previously killed a Black Thunder Wizard, who was also a fifth-circle member of the Divine Tower.

This organization was one of the major groups within the Lightning School of Thought.

Levi asked, “Why don’t you ask her if she wants to go with you?”

The Thunder Roc shook its head vigorously, clearly unwilling.

“You coerced it with force. Naturally, it wouldn’t want to go. Now, as a wizard of the Thunder Divine Hall, I formally declare that it belongs to the Divine Tower. I’m in a good mood today and don’t wish for a massacre. You, outsider, should leave.”

Behind the Thunder Wizard, several fourth-circle wizards began to form ranks, clearly prepared.

But it was evident that their bodies were trembling.

After all, they were likely facing a fifth-circle Dragon Abomination, a notorious and ruthless killer!

Yet, with the Thunder Wizard, who had ascended to the fifth-circle twenty years ago, leading them, their fear gradually subsided.

“This thunder elemental spirit is useless to a Dragon Abomination like you. I advise you to leave it,” the Thunder Wizard continued, clearly unwilling to start a fight with the Dragon Abomination. **ŘĀNobĚš**

Levi stood in front of the Thunder Roc, smiling, “How is it useless? I could tame it and ride it!”

“In that case, die. Everyone, form ranks!”

At the Thunder Wizard’s command, the light of their magical array shot into the sky.

Levi remained calm, thinking, “This is an intricate wizard combat array... interesting.”

In an instant, the aura of all the fourth-circle wizards connected, their spell power surged into the array.

Countless bolts of thunder converged, forming a towering purple giant, tens of meters high.

The giant wore armor and wielded a warhammer, its entire form bathed in lightning, resembling the legendary Thunder God!

Combat Array: Thunder Giant!

Harnessing the power of at least five senior fourth-circle wizards, this array conjured a phantom of the Thunder God, nearly reaching the fifth-circle level!

“Impressive for a large organization to possess such an array. Compared to this, the Purgatory Ghost Killing Array from the magic mirror feels outdated... The path of the wizard is the path of collective wisdom, and the ancients cannot compare to the present.”

Levi's thoughts churned, yet he remained unperturbed.

The Thunder Roc chirped, asking Levi if it should stop absorbing the power of the Pool of Thunder and flee.

She could sense the tense atmosphere.

“Keep absorbing. With me here, no one will disturb you,” Levi communicated.

This situation was entirely within his control.

Reassured by Levi, the Thunder Roc continued to absorb the power of the Thunder Pool without distraction.

Levi gripped his spiked club, standing in front of the Thunder Roc, exuding an aura of invincibility!

“Use the array to kill the Dragon Abomination!”

The cunning Thunder Wizard did not attack directly. He let his subordinates test the Dragon Abomination’s strength first.

“Let this backwater outsider witness the true might of the Thunder God and the power of knowledge!”

The five fourth-circle wizards stood in the void at the head and limbs of the Thunder Giant, controlling the thunder mech as one.

Boom! With every movement of the Thunder Giant, purple lightning followed, crashing toward Levi like a tidal wave.

Around Levi, black flames rose, forming a high wall!

Boom!

Thunder and fire clashed, creating an earth-shaking explosion.

“A mere Dragon Abomination.”

Seeing the Dragon Abomination only holding its ground against the Thunder Giant, the Thunder Wizard breathed a sigh of relief. Standing afar, his innate spell took the form of a giant thunder wolf, which howled and charged forward!

Levi shot out, and simultaneously, six Dharma Idols appeared!

His spiked club collided with the left hand of the Thunder Giant!

The Dharma Idols clashed with the thunder dragon, roaring thunderously!

The giant's hand was shattered by Levi's spiked club!

The fourth-circle wizard within the left arm groaned, clearly injured.

The thunder wolf vanished, and the Thunder Wizard's expression changed, surprised that the Dragon Abomination could still counter his sneak attack!

"This combat array is impressive but still falls short of a true fifth-circle wizard. I haven't even used any form enhancements, just my basic Flame Dragon's true form... To wield fifth-circle power with five fourth-circle bodies, this array is truly remarkable. It should be mine!"

Chapter 1257: Before the Dragon Abomination, Claiming Genius Is Futile! (2)

Levi fought and analyzed simultaneously.

The next moment, after consuming a potion, the fourth-circle wizard endured the pain in his spiritual force and restored the giant's hand. Thunder exploded from the giant's palm, blinding Levi with its brilliance.

"Nightmare Fog!"

Instantly, like an octopus spewing ink, a thick mist enveloped the Thunder Giant.

The lightning in the giant's palm blasted a hole in the mist, but Levi was nowhere to be seen.

In the dense fog, the terrifying roar of a dragon echoed.

...

“Everyone, get out of the mist!”

The Thunder Wizard outside quickly cast a wide-area thunder spell, trying to dispel the fog. He could feel that within the mist, spiritual perception was greatly diminished, rendering the wizards blind...

But it was too late.

The Thunder Giant thrashed wildly, discharging bolts of lightning aimlessly. The five wizards within it were engulfed in fog.

“What’s happening? My perception range is only a few hundred meters?”

“Same here... I sense great terror in the fog!”

“Focus on a direction and escape!”

“Yes, find a direction!”

The Thunder Giant broke through the mist, charging ahead. Logically, its speed should have easily allowed it to escape the fog.

Yet, after flying in circles, they found themselves back where they started, as if trapped in a legendary ghost wall.

This was the horror of the Nightmare Fog—not only did it weaken perception, but it also deceived those with lower spiritual force!

Such was the hallmark skill of the Nightmare Lords!

“Kill! It’s just an illusion!”

“Attack with all your might; the Dragon Abomination must be hiding in the fog!”

“Use wide-area thunder spells!”

They attacked frantically, hundreds of lightning balls exploding like fireworks.

Soon, the Thunder Giant’s momentum began to wane. The combat array that formed its fifth-level strength consumed vast energy and couldn’t be sustained. RÄNÓ BĚŠ

Before Levi could act, they were already falling apart!

Levi, grinning menacingly, appeared before one of the fourth-circle wizards like a phantom and shattered him. In the mist, Leon madly devoured souls.

A Fourth-Circle Wizard wandered through the mist, sweat dripping from his forehead.

“Come out! Is this all you can do? Hiding behind tricks? Face me, you outsider!”

Just as he finished speaking, a towering figure emerged behind him. From the dragon claw, black flames spewed forth.

Sensing the enemy at last, the wizard swallowed hard, trembling as he spoke, “The Thunder Wizard will avenge us. In the face of a true wizard genius, you are nothing!”

The flames consumed him, and Levi sneered, “He doesn’t even dare come in to rescue you.”

Before long, as the mist dissipated, all the Fourth-Circle Wizards lay dead.

Meanwhile, the Thunder Wizard, afraid to get close, stayed at a distance, protected by a Fifth-Circle defensive wizard tool, casting spells at the fog. His forehead was drenched in sweat as he shouted, “Face me, you bastard!”

It was a scene akin to a frightened mortal shouting into the dark to bolster their courage.

The Thunder Wizard knew that if he recklessly approached and lost his advantage as a wizard, his fate would be similar to that of the Fourth-Circle Wizards.

“Dragon Abomination, you’ve killed so many wizards of the Divine Tower. There will be no place for you on the Io Continent!”

“Anyone can talk tough. If you have the guts, come over here,” Levi taunted.

At that moment, he frowned.

On the horizon behind him, another group appeared.

It was Gabriel and his five companions!

Seeing the situation, Gabriel quickly realized that the Archmage of the Thunder Punishment Tribunal was likely dead. Now, the Dragon Abomination was clashing with the Divine Tower’s forces.

“This is the perfect opportunity. Let’s capture the thunder elemental spirit!” Gabriel urged.

The five wizards charged toward the Thunder Roc.

A wall of black flames spread out, blocking their path.

“Anyone who enters the Pool of Thunder will die!”

Levi retracted his hand, his voice cold.

“How dare you, Dragon Abomination! Are you trying to stop me?” Gabriel shouted.

“Get lost!” Levi retorted coldly.

Gabriel’s face turned livid with anger.

He glanced at the Dragon Abomination and then at the Thunder Wizard.

“Sir, although we are rivals, we are both wizards. In this situation, why don’t we join forces to kill the Dragon Abomination first? Then we can compete for the thunder elemental spirit based on our abilities,” he suggested.

“That’s exactly what I was thinking!” The Thunder Wizard finally found a way out of his predicament.

Alone, he doubted he could defeat the Dragon Abomination without significant cost. But combined with the young Fifth-Circle wizard from the Letney Family, their chances improved drastically.

As a child of the elements in the Thunder Divine Hall, the Thunder Wizard was among the best of his generation.

The Thunder Roc looked at Levi, unsure of what to do.

“Continue. I won’t let them disturb you,” Levi communicated to the Thunder Roc, his voice calm and reassuring.

The Thunder Roc nodded, urging Levi to be careful.

Levi felt a sense of comfort. Unlike Phoenix, who always wished for his demise, the Thunder Roc was considerate.

“Two genius Fifth-Circle wizards from top organizations. Looks like I’ll have to get serious today.”

Levi took a deep breath. As he watched the wizards closing in from both sides, an endless black flame erupted from within him. The black flames soared into the sky, forming the colossal and formidable figure of the Three-Headed Dragon God!

Chapter 1258: Before the Dragon Abomination, Claiming Genius Is Futile! (3)

Outside the Dark Ancient Tower, countless eyes were drawn to the intense battle unfolding on the fifth level.

Every time wizards clashed with outsiders, it captured the eager anticipation of the wizarding community.

Watching wizards annihilate outsiders was a thrilling spectacle. However, witnessing wizards being overpowered by formidable outsiders was far less enjoyable.

On this day, the long-forgotten Three-Headed Dragon Abomination reemerged before the world!

And what awaited him were two genius Fifth-Circle Wizards from the Divine Tower and the Letney Family!

In the Ancient Saint plane, familiar with the appearance of the three-headed creature, the knights once again gathered together.

...

“The monster is back. This time, I’m betting on the monster to win.”

“I think the wizards will win this time. These two are said to be the elite of the wizards. If they lose to the monster, where would the wizards’ pride be?”

“Shall we place a small bet?”

“Better not. The commander said to stay away from gambling!”

In the mortal realm, Estella, the Saint of the Church of the Stars, was currently discussing important matters with her ally, “Dragon.”

To combat the Forsaken Land of the God and preserve the Seven Divine Fire Seeds, the major churches had formed a loose alliance known as the “Seven Gods Alliance.” Within this alliance, there were smaller factions like the Church of the Stars and the Dragon God, and others like the Earth and the Holy Light.

“Dragon, what do you think of this Dragon Abomination?” Estella asked.

“Through the ancient tower, I can’t see clearly... but I can sense that this Dragon Abomination is somewhat extraordinary. Perhaps it isn’t as simple as it seems.”

“The Dragon Abomination Venerable claims that this Dragon Abomination is his child. Do you believe that to be true?” Estella inquired.

Dragon chuckled, “That’s just a tactic he uses to oppose the Dragon Clan. It’s not to be taken seriously.”

Dragon continued, “I believe that this battle will end with the Three-Headed Dragon Abomination’s victory.”

Estella asked, "Do you have that much faith in him?"

Dragon replied confidently, "A dragon is inherently powerful!"

Meanwhile, in the Endless Sea and the Realm of Thunder, the wizards of the Letney Family and the Divine Tower eagerly awaited the battle.

They had all been harmed by the Three-Headed Dragon Abomination on the fourth level, and their organization's branches had been destroyed by him.

Now, they finally had a chance to seek revenge!

The Electric Eel Wizard watched the projection with a cold gaze.

As soon as he heard that the Three-Headed Dragon Abomination had appeared, he immediately tuned in to the live broadcast. As a scion of the Wizard King, his sense of family honor was intense!

"Although Gabriel is not as skilled as the Golden Light Wizard, with the Thunder Wizard's assistance, defeating the Dragon Abomination is almost guaranteed," he analyzed internally. **☞aNObEs**

Previously, on the fourth level, the Dragon Abomination had flaunted its power for far too long.

Now, fate had brought the Dragon Abomination face-to-face with the elite of the fifth level.

This time, the Three-Headed Dragon Abomination was destined for doom, with no chance of escape!

As the infamous Dragon Abomination, who once stirred the world, reappeared, all the wizard organizations that had been oppressed by him turned their attention to the battle.

Across the Pan-Plane, the only one hoping for the Dragon Abomination's victory was the Extreme Evil Dragon, the Dragon Abomination Venerable.

The Dragon Abomination Venerable laughed heartily, his laughter causing the Land of Darkness to tremble.

"Slaughter them, my child! Finally, something interesting in the dull fifth level!"

Inside the ancient tower, the Three-Headed Dragon God descended from the sky, a black flame spreading out behind him!

Levi, hidden within, had a fierce gleam in his eyes.

"Let's use you to test the results of my Heavenly Dragon Sword Codex!"

The spiked club had long disappeared, replaced by the freshly forged Crimson Dragon Slash!

The Dragon God's muscles swelled, six arms gripping the greatsword of black flame, channeling immense strength into it!

The Indestructible Armor transformed into sinister black scales covering his entire body, emitting black flames.

Three thousand feather blades swirled around the Dragon God, forming a stormy force field!

The Nightmare Helmet became the head of a black dragon in the center of the Dragon God's three heads.

A Scarlet Cloak stretched behind the Dragon God, forming a blood-red river that spanned the sky.

A golden shield was hurled by the Dragon God, whistling through the battlefield like a flying disc!

The six divine weapons, in perfect harmony with the Three-Headed Dragon God, adapted to his fighting style, changing as needed to maximize their power!

Today, the six divine weapons and six dharma idols had reached perfection.

The Three-Headed Dragon God was fully equipped with attack, defense, control, and movement abilities!

Facing two opponents at once, he remained unafraid!

“What... is this Dragon Abomination?”

Seeing this scene, both Gabriel and the Thunder Wizard were shocked.

After entering the fifth level, they had fought other Dragon Abominations, with varying results.

The Dragon Abominations they had encountered primarily relied on innate spells and rough physical techniques. Occasionally, some mastered powerful secret techniques. But compared to this Dragon Abomination, those techniques seemed pitifully weak.

This secret technique even made them feel like they were facing a primordial soul wizard form.

“We need to give it our all.”

In Gabriel's mind, a purple necklace appeared.

It bore mysterious spell runes, clearly a Fifth-Circle Wizard Tool.

"The captain is using the Thunder Cloud Necklace right at the start of the battle. This Dragon Abomination is truly formidable," murmured the Fourth-Circle Wizards, realizing a tough battle lay ahead!

As Gabriel brought out the Thunder Cloud Necklace, thunder continuously gathered around him, enveloping him in a dense golden thundercloud, boosting his aura.

Golden lightning formed chains in his palms, extending towards the Dragon God!

On the other side, a round shield made of purple shell danced around the Thunder Wizard.

This wizard tool was named "Thunder Shell Shield."

Chapter 1259: Before Dragon Abomination , Claiming Genius is Futile! (4)

After reaching the Fifth-Circle Wizard realm within the ancient tower, the organization's supreme commander, an experienced Fifth-Circle weapon craftsman, used a rare Fifth-Circle transcendent creature from the Io Eastern Sea, the Eastern Sea Thunder Shell, to refine two Fifth-Circle Wizard Tools: the Thunder Shell Shield and the Thunderbreaker Pearl.

The Thunderbreaker Pearl was an exceptional Fifth-Circle Wizard Tool with immense power, currently in the possession of the Divine Tower's top genius, the Thunder Wizard. The Thunder Shell Shield, although of high quality, was slightly inferior but still a coveted treasure among many Fifth-Circle Wizards.

With the Thunder Shield and protective force field ensuring his safety, the Thunder Wizard transformed into a bolt of lightning, creating distance between himself and the Three-Headed Dragon God.

Simultaneously, he pointed a finger, and a solid lightning ball shot forth from the void!

Fourth-Circle Talent: Annihilation Lightning Ball!

This strike was formidable, possessing 250 Cas of power, but it still paled compared to Levi's Fire Dragon Tribulation.

...

The two wizards dared not underestimate their opponent and unleashed their most powerful techniques right away.

The Dragon God raised his hand, transforming three thousand feather blades into a hurricane, slashing toward the golden chains.

The Golden Dragon Shield flew out, intercepting the lightning ball nearby!

The lightning ball exploded, causing the Golden Dragon Shield to tremble. Had Levi not reforged it, the shield might have reverted to its original form and retreated to heal.

However, the Golden Dragon Shield had been nourished for a long time, already a Level 4 divine weapon. Levi continuously added new rare materials, increasing its power day by day.

Meanwhile, the Letney Family's Fourth-Circle Wizards had surrounded Levi, taking advantage of the two Fifth-Circle Wizards engaging the Dragon Abomination.

But as an array wizard, Levi had long anticipated their actions.

Before the array could activate, the Three-Headed Dragon God suddenly accelerated, executing three consecutive sword strikes with the Heavenly Dragon Sword Codex!

Three Sword Qis.

One aimed at the Thunder Wizard.

One aimed at Gabriel.

The final one tore open the Scarlet Dark Dimension.

In the sky, a hundred-meter-long red wound appeared.

The Dragon God's massive body dove into it, vanishing from sight!

"D*mn it, what kind of technique is this? Why doesn't this Dragon Abomination follow the usual patterns?" Gabriel thought, alarmed. He quickly used the thundercloud to block the terrifying Sword Qi.
RĀNÖbĒş

Boom!

The Thunder Cloud Necklace erupted with golden light, successfully blocking the Sword Qi attack.

This necklace was a high-quality Fifth-Circle Wizard Tool; otherwise, it couldn't have withstood Levi's Sword Qi attack so easily.

"Be careful, everyone! This Dragon Abomination knows some deceptive tricks and loves to ambush others!" the Thunder Wizard warned.

By then, the Fourth-Circle Wizards had completed their array

A massive thunder palace descended from the sky, sealing off the surroundings!

The Fifth-Circle Array: Thunder King's Court!

Even a Fifth-Circle Wizard, if trapped within, would struggle to escape for a considerable time, finding it hard to dodge spells, and would be left at the mercy of relentless magical attacks.

“You useless fools, can’t you move any faster? The enemy’s already escaped!” Gabriel shouted angrily, looking at the empty array where the Dragon Abomination had been.

This Dragon Abomination reacted too quickly, as if it knew they were about to set up the array. Its intelligence was far superior to that of other Dragon Abominations!

Gabriel spread out his spiritual force, scanning the surroundings to prevent any surprise attacks.

Suddenly, his expression changed. He saw a tear open behind one of the Fourth-Circle Wizards!

“Watch out!”

As he spoke, a lightning spear shot forth!

Boom!

But it was too late.

The longsword pierced through the Fourth-Circle Wizard's force field, killing him instantly!

With his death, the Fifth-Circle Array collapsed on its own.

The Three-Headed Dragon God reappeared, raising a giant shield to block the lightning spear. Some of the lightning still struck the Dragon God, causing arcs of electricity to dance across its body. A normal Fifth-Circle Wizard would have been in serious trouble.

But the Dragon God smiled, and a shadow of a Sky Dragon appeared behind him, absorbing all the electric arcs.

"D*mn, this guy can actually absorb lightning power!" the Thunder Wizard exclaimed, halting the attack he was about to launch.

"Use your true power. Ordinary attacks won't kill him; they'll just make him stronger. We need to overwhelm him with a barrage of attacks to take him down!" Gabriel shouted.

"Got it!"

The two wizards, in a rare show of coordination, prepared their next moves. Gabriel's golden spell power surged wildly.

A massive golden lightning pillar shot forth, giving the Dragon Abomination no time to react as it was blasted away!

Fifth-Circle Talent: Instant Thunder Strike!

This move was incredibly fast and accurate, almost impossible to dodge, and it was Gabriel's signature skill!

Meanwhile, hundreds of lightning balls appeared before the Thunder Wizard.

These lightning balls quickly flew towards the Dragon Abomination, transforming mid-air into armored thunder soldiers!

Each soldier had the power of a Third-Circle Wizard, and together they formed a formidable force, their collective power causing a qualitative change that was extremely terrifying.

This move was similar to Levi's way of the divine talisman!

Fifth-Circle Talent: Thunder Soldiers!

"Dying under the might of my strongest Fifth-Circle Talent is your honor!" the Thunder Wizard declared.

These Thunder Soldiers were the Thunder Wizard's trump card. Because it required gathering hundreds of soldiers and consumed a lot of energy, he seldom used it. But every time he did, it never disappointed!

"This is the power of a genius," the surviving Fourth-Circle Wizards thought, their eyes filled with awe. Under such a grand and majestic thunder attack, any evil was nothing to fear!

Outside the ancient tower, Watching the Dragon Abomination being engulfed by the Thunder Soldiers and the golden lightning pillar, the onlookers murmured, "It's over..."

The wizards of the Letney Family and the Divine Tower cheered with joy.

Chapter 1260: Before Dragon Abomination , Claiming Genius is Futile! (5)

"With that strike, even if it doesn't kill him, it will surely leave him gravely injured. The Three-Headed Dragon Abomination stands no chance now!"

The Electric Eel Wizard sneered, "Seems I overestimated him. The Thunder Wizard's Fifth-Circle Talent is quite impressive, with limitless potential for the future. He truly deserves a spot in the top fifty of the ancient tower rankings."

Even the saint of the human realm and the Dragon furrowed their brows.

"Did I misjudge?"

Only the Dragon Abomination Venerable believed in the Three-Headed Dragon Abomination. He murmured to himself, "The secret technique that forms the Feather Dragon behind him can absorb thunder, combined with the Dragon Abomination's invincible body. He can't be taken down so easily."

Sure enough.

...

The sea of golden and purple thunder was torn apart, and a figure bathed in lightning broke through the Thunder Soldiers' blockade, laughing arrogantly.

It was the Three-Headed Dragon Abomination!

His scales were shattered, his defenses breached, and his flesh was charred, with arcs of electricity coursing over him.

Yet, his aura was stronger than ever!

Behind Levi, the Dharma Idol of Wind and Thunder Surge swelled, growing stronger with the accumulated thunder energy. Its power now dwarfed even the Crimson Emperor Dragon's Dharma Idol!

Growing fiercer with each battle, his scales bristled, and his strength was boundless!

"Heavenly Dragon Sword Codex!"

This time, the Sword Qi's power increased by thirty percent compared to before!

This strike aimed at the Thunder Wizard! The dragon-shaped Sword Qi shot forth!

The Thunder Wizard, expending all his spell power, conjured hundreds of lightning balls once more!

"Your immortal body has limits; you can't be invincible forever!"

An even more ferocious wave of Thunder Soldiers surged forth!

At the same time, he raised the Thunder Shell Shield to block the incoming Sword Qi.

It was this shield that had previously blocked the opponent's Sword Qi attack. He trusted in the defense of this Wizard Tool!

Sword Qi collided with the shield.

It felt like a massive river crashing against him.

“Crack.”

A terrifying sound echoed.

The Thunder Wizard suddenly realized that the shield he had trusted, capable of withstanding the full strike of a senior Fifth-Circle Wizard, had shattered.

The Thunder Shell Shield broke in half, its runes dimming, clearly destroyed.

Without the Wizard Tool’s protection, his newly learned Fifth-Circle protective force field was shattered by the residual Sword Qi. He was engulfed by the Sword Qi, completely overwhelmed. ㊦αÑŃβξξ

As the Sword Qi dissipated, blood rained down, pattering softly.

The genius of the Divine Tower, the Thunder Wizard, was dead!

“How is this possible? One strike shattered a Fifth-Circle Wizard Tool?”

Witnessing this, Gabriel panicked.

If the opponent could break the Thunder Shell Shield, he could also destroy Gabriel's Lightning Cloud Necklace.

"The Dragon Abomination used a secret technique to boost its power, growing stronger with each fight. It's unstoppable!"

Gabriel transformed into lightning, attempting to flee.

Behind him, the Fourth-Circle Wizards fell like cabbages, slain by the Dragon Abomination, whose power had peaked, body crackling with thunder.

Desperately fleeing, Gabriel realized the Dragon Abomination had turned into a black flash, slipping into the shadows and pursuing him swiftly!

Though he couldn't see the Dragon Abomination, he knew it was getting closer!

The terror of death closing in step by step was overwhelming!

Soon.

He halted, and a crimson rift tore through the sky ahead, with the Dragon God squeezing out, longsword slashing down!

From the Dragon's horns, an invisible spiritual force attack surged!

Nightmare Dragon's Breath!

Gabriel was momentarily dazed but snapped back to his senses.

The Sword Qi had already descended!

His Lightning Cloud Necklace resisted frantically, golden clouds thickening, becoming tangible!

"Break!"

Nightmare Descent, the sky turned pitch-black!

Levi, enhanced in various forms, channeled terrifying strength through his longsword into the lightning cloud barrier!

Boom!

The cloud barrier shattered.

The necklace dimmed, clearly broken as well.

In his Dragon Abomination form, Levi was a destroyer of Wizard Tools!

“Thunder God’s Protection!”

Gabriel’s last protective force field flickered, his final struggle.

He exhausted his last bit of strength, summoning a terrifying golden lightning bolt!

But it was futile!

“Three Dragons Flaming Kill!”

Three-colored flames converged before him, exploding.

They engulfed him and the golden lightning bolt.

Gabriel, dead!

Gathering his spoils, the Dragon God returned to the Thunder Roc, slowly dissipating.

Levi sat cross-legged by the Thunder Pool until the Thunder Roc absorbed all its power.

The Thunder Roc's aura peaked, feeling even stronger than the Phoenix.

With the battle concluded, Levi quickly left after clearing the battlefield.

He regrouped with the Holy Infant in the distance.

This battle would have been much easier with the Holy Infant and Phoenix's assistance.

However, Levi didn't want to reveal his Dragon Abomination identity, so he never used wizard techniques.

Otherwise, why bother with all this?

“Even without wizard techniques and external aids like arrays, my current knight skills, perfected with six divine weapons and six Dharma Idols, are enough to handle two Fifth-Circle Wizards alone... Though these two were from the Lightning School of Thought, countered by my Sky Dragon Dharma Idol. It might not be as easy with other schools.”

Leaving the Thunder Basin, Levi found a secluded place to recover and assess his gains.

Meanwhile, outside the ancient tower, in the human realm, the Dragon smiled, “I knew he would win. He has the potential to become a true Dragon!”

Estella pondered deeply before sighing, “Luckily, the Dragon Abomination Plane isn’t part of this convergence, or it would have caused much trouble.”

In the Wizard World, the spectators were silent.

Especially the Letney Family and the Divine Tower’s representatives.
