Chapter 127: Eternal Golden Vertical Pupil! (1)

At night, in Icewind City, the cold wind whistled like an unsheathed blade.

The slender Chained Prisoner was almost caught by the man's large hand covered in a black robe.

Levi's hand grabbed nothing.

Just as the evil spirit was about to be caught, it used its long chain to hook itself onto the chimney of a house. Then, it gently flew towards the chimney.

"Trying to run?" Levi sneered in his heart. His entire body shot up like a cannonball, and he jumped onto the roof with a boom.

The evil spirit relied on its body to walk through walls and hide in the house below.

"D\*mn, it's so tiring."

Levi stomped on the roof and shattered it.

He fell straight into the room below.

Unlike the other rooms, which were all abandoned, a couple was in the room, just about to get intimate.

The man exclaimed, "Ah ah! What are you doing..."

The lady hid under the blanket, not daring to show her face.

Levi ignored the two of them and looked at the evil spirit about to pass through the wall again.

Golden Cross Slash!

The Black Gas Entwined Frostmourne.

"Break! "

Levi slashed out with his sword like a lightning bolt and a rainbow pierced through the sun. It was so brilliant that one could not look straight at his sword!

Boom!

The cross-shaped slash wrapped in thick black gas cut the house's walls into four pieces.

The evil spirit's body became even more illusory after being slashed. It was like a candle flame that could be extinguished anytime in the wind.

It became even weaker!

Levi would have already used the Seal of Flame if not for the head priest behind them.

The flames were the same as the black gas. They both had a certain damage effect on the evil spirit.

Boom! The house collapsed, and Levi's figure had long disappeared.

The man looked at Levi's disappearing back and heaved a sigh of relief.

The lady also heaved a sigh of relief.

The male owner stood in the courtyard and could not help but sigh in relief,

"It's okay. I thought it was your husband, Richard, who broke in."

At the same time, a dark-skinned older man holding a greatsword and dancing with black gas hurried past.

The grey-robed wise man Adolf shouted angrily, "The two of you are naked in broad daylight. What a disgrace! Quickly put on your clothes!"

When did a grand knight appear in the Icewind City, and how could he be so fast?

"Could it be Silver Mountain? It doesn't look like him, though."

Adolf chased after them, but he was still doubtful.

On the other side, the evil spirit, attacked by Levi, was forced into a desperate state. It did not intend to escape anymore, and a faint low roar could be heard.

At the same time, the sound of metal clashing could be heard.

The 10-meter-long illusory chain charged toward Levi.

Black gas surrounded Levi. His entire body was like a wriggling black fog. A large hand stretched out from the black fog and grabbed the chain.

The sound of sizzling sounds rang out.

The illusory chain started to smoke under Levi's thick black gas.

"This feeling is like Snow Demons meeting mithril! As expected, the black gas was useful. No wonder the evil spirit ran away when it saw me. It couldn't defeat me!" Levi thought.

He grabbed with force, and the evil spirit was dragged over by his large hand along the chain.

Then, Levi's Golden Cross Slash sent out another sword light.

Ripple Slash!

Advanced Ripple Force bubbled, causing the black gas to become even more violent!

It was like a black demonic sword!

Kacha.

Levi felt like he had stabbed a red-hot sword into a large piece of pork.

The evil spirit's chest was burning.

Its figure became even more illusory, and its aura became weaker.

Levi did not let him off, slashing at him continuously.

Not long after, the evil spirit's figure resembled toilet paper soaked in water. It broke with a poke and was extremely fragile.

It used its ghost claws and chains in a futile attempt to break through the layer of black gas on Levi, but it was useless.

The black gas was too thick. It felt like it was grabbing onto a sea of black gas. It was overestimating its strength.

In the end, Levi used his black gas to tear the evil spirit's body apart, crumpling it into a ball and crushing it.

The evil spirit's figure completely disappeared, and that extreme resentment finally dissipated.

"Just this?" Levi was doubtful.

"Did I kill it or not?" For a moment, Levi doubted his life. It was his first time killing an evil spirit, so he did not have much experience.

Until Levi saw a pile of white powder on the ground, like ashes, scattered all over the ground.

"Evil Spirit Dust!" Levi was overjoyed.

Not far away, the black gas around Adolf gradually dissipated, revealing the body of an older man who looked capable.

He coughed and stood there, not daring to act rashly.

He knew that he was no match for this mysterious person.

In him, Adolf saw his younger self.

"Thank you for your help," Adolf thought for a moment and said politely.

The figure in the White Wolf Mask raised his head and looked at Adolf without saying a word.

Adolf smiled and stopped asking for trouble.

He turned around and left, dashing towards the church.

Watching the older man disappear, Levi quickly collected the Evil Spirit Dust and placed it in the prepared container.

"With so much powder, I wonder if I can raise the Seal of Dragon Might to level 2," Levi muttered, finally leaving the battlefield.

He returned to his residence, called Magic Shark and Demon Mountain, and left Icewind City overnight.

Because of the commotion from the battle last night, it was bound to attract the attention of the Earl of Silver Mountain. Levi did not want to go to jail for trespassing and intentional property damage..
