

Wizard 1271

Chapter 1271: Black Beast Tide

He did not have these things for the time being, and he could not replace them.

However, the fifth floor was vast and rich in resources. Finding it was only a matter of time.

...

In the blink of an eye, a year had passed.

Year 1201 of the Holy Brilliance Calendar, the Month of Flowing Fire.

Holy Fire Plateau.

...

Sky Fire Fortress.

The wizards were in the fortress, looking into the distance, ready for battle.

Simon floated on the city wall, his ribbon dancing in the wind.

According to the intelligence, a few days ago, there were some small intersections that were attacked by the black beasts. Some of the nomadic wizard markets were directly destroyed.

This made the Nine Cities Alliance immediately go into a state of alert.

The commander said calmly, "The black beast tide has arrived. Everyone, get ready. Protect the Sky Fire Fortress at all costs! If you discover a level 6 black beast overlord, withdraw all your forces and immediately report to Lord Roman. A primordial soul wizard will take action!"

The Holy Fire Plateau was vast and boundless. What the Nine Cities Alliance occupied was just the tip of the iceberg. In the wilderness, countless black beasts were wandering around.

Because black beasts could not be tamed, their will was chaotic, and they were highly corrosive, even if wizards could defeat them, they would hide far away to avoid wasting their energy.

As a result, the number of black beasts had never decreased.

Moreover, the Kane Empire had driven the black beasts from all over the world to the intersection, and the black beasts continued to multiply, which eventually led to this beast tide. $\Re\alpha N\hat{O}\beta\epsilon\acute{s}$

Now, these black beasts began to attack the headquarters of the various large organizations crazily without any warning.

The sky, the earth, birds, and beasts swept over.

There was no lack of level 5 black beasts in the black beast army.

“Activate the grand array!” ordered the commander.

In the next moment, the high walls around the Sky Fire Fortress burst into flames.

These flames formed a huge barrier that protected the entire city.

“Everyone, rely on the fortress and attack the black beast! Simon, if there is a level 5 black beast attacking the grand array, you are responsible for killing it to prevent the grand array from being over-exhausted,” said the commander.

Simon nodded. He was ready.

For a moment, the black beast’s spell-like ability and the wizards’ spell collided in the wilderness. It was like splendid fireworks blooming!

Some powerful black beasts even broke through the wizards’ spell blockade and pounced on the grand array, madly charging at it. Then, they would be instantly killed by the wizards.

On the city wall, the eyes of the Blood Demon Tower Master flickered. He was paddling to attack the black beast while thinking.

“I didn’t expect that the opening of the ancient tower would be met with the black beast tide of the Io Continent. The heavens are helping me. During this period of time, the city will be in chaos, and the defense of the Dead Soul Date Tree will be weak. With my strength as a fifth-circle senior wizard, I will immediately leave after snatching it. I will escape to the outer sea region and find a volcanic island to cultivate.”

During his time in the Sky Fire Fortress, the Blood Demon Tower Master realized that this place wasn’t as good as he had imagined.

Over here, he was ordered around by Simon. Simon was just a junior, but Simon did not show any respect to the Blood Demon Tower Master just because Simon was recognized by a primordial soul wizard. This made the Blood Demon Tower Master very unhappy.

‘I’m a dark wizard who does all kinds of evil. How can I endure this grievance?’

Even if he didn’t snatch the Dead Soul Date Tree, the Blood Demon Tower Master didn’t want to stay here anymore.

“But now is not the best time. I’ll take action when the conflict gets worse!”

The Blood Demon Tower Master was very patient. He had never made a move. Once he made a move, he was certain that he would win!

“Quack quack quack!”

In the sky outside the city, a strange black flame bird emitting a powerful aura rushed toward the grand array.

The bird’s head was bald, revealing its pale white bones. Its bird eyes emitted a terrifying aura.

From its appearance, it looked like a crow, but it had long red tail feathers on its back, like clouds.

The most unique thing was that there were two pale ghost hands on its wings, holding something like a bone staff.

A fifth-circle wizard went forward to stop it, but the strange bird spat out blue flames and forced him to retreat. The wizard used all his methods, but he was no match for the strange bird. He could only return to the city dejectedly.

After hearing about this, Simon stood up and started spinning the chess piece in his hand. He said, “Let me take a look at this beast.”

“Sir Simon, it’s best to be careful. The flames of this strange bird are a little odd. They actually restrain my combustion spells. I suspect that it’s a rare and unusual flame,” said the fifth-circle wizard who had escaped.

Simon’s expression was calm as he said, “Got it. I’ll handle it. Don’t worry.”

He flicked his fingers and chess pieces flew out, quickly surrounding the strange bird.

The strange bird flapped its wings, and flames swept over as it whistled.

“Suppress!” Simon said coldly.

The fifth-circle array began to exert its power.

At the same time, fire beams shot out from his eyes and arrived in an instant!

Two large holes were burned out of the flaming bird’s chest.

It let out a strange cry and waved the two bone staffs on its claws while muttering something.

At the same time, a strange blue flame appeared. The array that Simon was so proud of began to tremble after being attacked by the blue flame. Not long after, the array actually collapsed.

Simon's expression changed slightly.

"Interesting. Looks like I have to use my true abilities."

He patted his chest, and the image of a Fire God appeared.

As Simon clenched his fist, the Fire God's phantom also clenched its fist!

"Flame Fist!"

Boom!

He threw a punch in the air and a crimson fist shadow shot out!

The strange bird used the blue ghost fire to resist and actually managed to block the attack.

The Blood Demon Tower Master and even the commander were shocked. They didn't expect the strange bird to be able to fight against Simon.

Chapter 1272: Picking Up Trash

Picking Up Trash

"Flame Sword!"

Simon's expression was ugly. The World Extinguishing Flame Sword appeared in the Fire God's hand and slashed at the strange bird!

Rumble!

This time, the strange bird finally couldn't hold on any longer. The blue flames were broken. It cried out strangely and kept retreating. However, one of its legs was cut off by the sword light. Black blood dripped onto the Earth and melted into a deep pit.

The strange bird spat out countless corrosive gases. Simon did not dare to take it head-on and quickly dodged.

However, he discovered that the strange bird had already fled and was hiding in the black beast army. It didn't dare to show itself and was only driving the other black beasts to their deaths.

...

This scene was not only happening in the Holy Fire Plateau, but also in the Sea of Stars, the Million Mountains, and other large intersections.

However, the wizard organization had all obtained some clues through their own intelligence network. Thus, they had all set arrays in advance. They could basically get through the first wave of black beast tide safely.

...

Dragon Palace Island.

Because it was quite far from the intersection, the black beast tide had yet to reach this place.

Levi was as steady as a rock here.

Half a year had passed.

In his spare time, he would further improve his original Wizard Tool design. Everything was ready. All that was left was the materials and refinement.

Currently, Levi's spiritual force has reached 642 points, and the Golden Snake Breathing Technique is not far from its limit.

After his seclusion, Levi checked the projection in the ancient tower.

In one of the projections, he saw Anya's figure.

Looking at the scene, it seemed to be in the sky above Deep Blue Wizard City.

A Giant Whale with tens of thousands of tentacles floated in the sky like an island.

Those jellyfish-like tentacles kept releasing lightning. Tens of thousands of lightning bolts fell, causing the array of the wizard city to tremble.

"This is a peak level 5 black beast?" Levi's expression changed slightly.

Other than a perfected fifth-circle wizard, an ordinary fifth-circle wizard would not be able to fight against such a black beast.

Anya only appeared briefly before disappearing. He was probably overshadowed and the live broadcast only showed the battle between a perfected fifth-circle wizard and the Giant Whale. Thus, Anya was not the main character of this projection. RANÔBĒS

Levi heaved a sigh of relief.

“I heard from Madam Triss that there were a few times in history when the ancient tower opened and coincidentally bumped into the black beast tide that would only appear after a long time in the ancient tower. In those few times, most of the wizard organizations suffered heavy casualties. This time, the opening time coincided with the black beast tide.”

For most people, this was definitely bad news.

The first thing that came to Levi's mind was that he had found the materials for crafting divine talismans and Wizard Tools!

Of course, the possibility of a large-scale black beast tide appearing in the place he was at was low. After all, this was not the intersection area.

However, he could not let his guard down. There were definitely some unknown intersections in the vast sea. At that time, there might be black beasts attacking.

Thinking of this, Levi inspected the Eight Heavenly Dragon Prison grand array thoroughly.

He summoned all the transcendent creatures and the undead spirit army.

“All departments, enter a state of alert. There might be a strong enemy coming soon. I'm going to leave for a while. You guys take care of the house!”

After Levi instructed them, everyone returned to their respective posts and began to be on guard.

In the next few days, Levi could confirm through the projection that this was a large-scale black beast tide that swept across Io. It was as severe as the sea beast tide in the Endless Sea with the black beasts at the peak of level 5 appearing frequently.

Levi planned to go to some of the intersections in the south of Io.

He was going to pick up the trash. After all, very few people wanted black beast materials.

Whether it was creating talismans or forging weapons, he needed high-quality black beast materials.

He arrived outside Deep Blue Wizard City. Hermit Rune flickered as he watched from afar.

Anya and his teammates were inside the array, casting spells to attack the black beast outside.

“With Deep Blue Organization’s strength, they should be able to withstand the first wave of the black beast tide. Anya’s role in the organization is to use long-range precision missiles. He usually attacks within the grand array. As long as the Deep Blue Organization doesn’t fall, he’ll be safe,” Levi muttered.

In the next few days, he mingled on the battlefield and tirelessly picked up trash.

He had picked up a lot of level 4 black beast materials effortlessly. There was even a level 5 black beast material.

The Giant Whale at the peak of level 5 retreated to the Deep Sea after realizing that it could not take down this place.

Levi sighed in pity and left quietly, heading to the next place.

...

A month later.

Levi wandered around, mainly picking up trash. Occasionally, he would kill black beasts and collect a large pile of black beast materials.

“What a pity. There are no fire-type level 5 birds, nor is there the dragon skin I need.”

Several days later, a vast ocean appeared before his eyes.

To be more precise, it was a “big lake”.

On the surface of the lake, there were many islands.

In the distance, Levi saw a black two-legged dragon that was spitting flames, circling above the lake. Wherever the flames touched, it was turned into charcoal.

A fourth-circle wizard force field did not last long before he died on the spot.

“Black Fire Dragon, a mixed-blood dragon. Looking at its strength, it should be close to the fifth-circle senior level. Unfortunately, it’s a black beast... This thing can’t be tamed using conventional methods. It’s not worth it to waste a Scarlet Contract slot. Let’s not dwell on it. Let’s just kill it and skin it alive. I can use it to refine the Ancient Burning Sky Umbrella.”

Levi had a regretful expression. He had tried to use his Dragon’s Might to tame the mixed-blood dragon race before, but he had failed.

It was unrealistic to purify such a giant creature with a Purification Elixir like the totem insect.

Chapter 1273: Fighting Black Fire Dragon!

If the Ancient Saint plane were to be filled with Saint Fruit in the future, a ‘black beast purification base’ could be built to purify the valuable black beasts and turn them over a new leaf.

With that thought in mind, Levi casually changed his appearance into that of a deputy wizard and flew over.

...

Sea of Stars.

In the outer seas.

A few fourth-circle nomadic wizards fled in panic under the Black Fire Dragon's raging flames.

...

"Has the Arctic Wizard not arrived yet?"

"No, he was stopped by another level 5 black beast. The one who is coming over here as support is a newly advanced fifth-circle wizard, Biggs. I heard that he is Lord Silverbeard's disciple."

"That's good. As the disciple of a perfected fifth-circle wizard, he should be able to contend with this black beast."

The Black Fire Dragon charged forward as if it had entered a no-man's land. A small team of wizards hiding on the island was discovered. The six nomadic wizards were like birds frightened by the twang of a bow, they quickly fled. The terrifying dragon breath condensed again, and the high temperature scorched the world.

"It's over."

These people were in despair.

A giant hammer condensed from flames charged over and blasted the Black Fire Dragon away!

The next moment, a short and stout wizard rushed over. He said calmly, "I'll fight this big guy. You guys can attack from a distance."

The nomadic wizards were overjoyed and heaved a sigh of relief.

"Phew, that's great. Lord Biggs is here. We're saved."

"We will be in charge of controlling it and creating conditions for Sir Biggs to attack."

They no longer ran away but fought alongside Biggs.

The Black Fire Dragon shook its head. The spell just now had made it dizzy, but its body was fine. It was only partially charred.

It was a fire dragon, so its fire resistance was not low.

“Flaming Hammer!”

Biggs continued to use his strongest fourth-circle talent. He had just advanced to the fifth-circle realm a few years ago and had not even mastered the protective force field, let alone a fifth-circle talent.

However, he believed that with his own abilities, even if he could not defeat the black beast, he would be able to hold it back until the Arctic Wizard arrived.

Seeing this, the Black Fire Dragon flapped its wings, and a black flame storm swept out, swallowing the giant flame bull.

The giant bull disappeared completely, but the black flame storm did not slow down. It attacked Biggs.

“Oh no, why is this black beast so powerful?”

He had just entered the fifth-circle and was overly confident. When he really fought, he realized that he did not seem to be that strong...

Boom!

His fourth-circle protective force field was shattered. Immediately after, his fourth-circle defensive talent lit up, and he barely blocked this attack.

“Everyone, retreat first. I’ll cover you. This black beast is quite powerful. I’ve just entered the fifth-circle. I might not be its match.”

With his fifth-circle strength and status, it was very embarrassing to say this. However, for the safety of these nomadic wizards, he had no choice.

The expressions of the other nomadic wizards changed. They had thought that this fifth-circle wizard would be able to block the black beast. However, they hadn’t expected to be forced to retreat after just one exchange.

“Roar!”

Seeing that the newcomer’s strength was average, the Black Fire Dragon opened its mouth and flames poured out.

Biggs cast spells to block the attacks while covering the retreat of the nomadic wizards.

The Black Fire Dragon pursued relentlessly. Its wings were completely ignited, and its speed increased!

“Run!”

“It’s over. I’m going to stay here in the ancient tower forever.”

“Hold on a little longer, the Arctic Wizard will be here soon!”

Those who fell behind were instantly devoured by the Black Fire Dragon.

In the end, the Black Fire Dragon got closer and closer, and the terrifying dragon breath was brewing again!

All the wizards present felt despair.

Suddenly, the surface of the lake exploded. The water dragon roared and spiraled into the sky, binding the Black Fire Dragon.

The Black Fire Dragon’s dragon breath was interrupted and it was immediately silenced.

The flames around its body burst the water dragon.

High up in the sky, a gray-robed wizard looked at it with an indifferent gaze.

The Black Fire Dragon roared in anger, and its dragon wings swept forward with raging flames!

“You overestimate yourself!” Levi sneered.

With a wave of his hand, another water dragon flew out and wrapped around the Black Fire Dragon.

He had successfully angered the Black Fire Dragon by playing around with it again and again.

It had advanced to level 5 a long time ago, and it was a black beast. Its strength was not inferior to a sub-dragon like Ganster.

The flying dragon spat out black flames and headed towards Levi.

Behind Levi, a pitch-black bronze statue appeared, and the Rock Demon Giant appeared. It broke through the terrifying black flames and pounced on the dragon, smashing its fists into the dragon’s flesh!

“Sir, let me help you!”

Biggs saw that the Black Fire Dragon was stopped by the gray-robed wizard and wanted to help.

“No need. Leave this beast to me. You guys should leave,” Levi said calmly.

“Alright then. I won’t disturb you any further. Be careful, Sir. This black beast’s strength is extraordinary.”

Biggs wasn’t angry at being rejected. With the other party’s strength, he had the right to be arrogant.

He led the other nomadic wizards and retreated helplessly.

Levi kept controlling the dragon with his Water Dragon’s Song, while the Rock Demon clamped the dragon’s head with its legs, giving off a strong heroic aura!

In the distance, Biggs and the group of nomadic wizards watched everything in shock.

“The body of a wizard, punching a flying dragon, is this still human?” A nomadic wizard sighed in his heart.

“That’s right, that’s so strong. This is a real man, he has the grace of an ancient body-refining wizard!”

Even Biggs fell silent. The other party's spiritual force was higher than his, but it was not by a lot. However, the combat strength displayed by the other party was much stronger than his.

As the dragon's wails gradually died down, it did not take long for the dragon's head to be smashed flat.

Levi dismembered the corpse and stored the useful materials in his ring.

He didn't pay attention to the nomadic wizards who were watching from afar. Levi directly left the place.

"Sir, please wait." Biggs' voice rang out.

"What's the matter?" Levi turned around and asked with a frown.

"Sir, you must be a nomadic wizard."

"So what?"

"I am Biggs from the White Robe Wizard Association. I would like to take the liberty of inviting you to join us. We will face the black beast tide together and also fight against those top-notch wizard organizations that are oppressing us."

“Not interested.”

Levi turned around and left.

“Sir, this is the introduction of our organization and my contact information. You can take a look. If you’re interested, you may contact me at any time.”

A slate flew over and floated in the air. Levi thought for a moment, then told the Rock Demon to put it away and leave.

Chapter 1274: White Robe Wizard Association's Manual

Sea of Stars.

Biggs and the group of wizards stood where they were, watching the gray-robed wizard disappear.

“How arrogant. he didn’t show any respect to Lord Biggs polite invitation,” said a wizard.

“With his strength, he doesn’t need to join any organization. As long as he’s careful, he’ll be able to do well in Io Continent,” said another wizard.

“Let’s go back,” Biggs sighed.

On the way back, he met the Arctic Wizard.

...

“Have you dealt with the black beast?” Arctic Wizard asked apologetically.

Biggs replied, “Thank you for coming, Sir. It’s been resolved.”

The Arctic Wizard was shocked. He could not help but praise Biggs, “Sir Biggs is indeed Silverbeard’s disciple. You have just entered the fifth-circle, but you can already defeat a level 5 black beast. It’s indeed the world of the young.”

Biggs shook his head and smiled bitterly. He said, “You flatter me. When I rushed over, the black beast had already been taken care of by a wandering wizard who passed by.”

After hearing that, Arctic Wizard said, “I heard that the black beast is a mixed-blood dragon. With the constitution of the Dragon Clan and the brutal personality of the black beast, he must be a fifth-circle senior wizard to be able to deal with it so quickly.”

Biggs said, “Judging from his spiritual force, he shouldn’t have reached the standard of a fifth-circle senior, but he’s indeed much stronger than me. As for his innate spells, he should be focusing on body refinement and then cultivating the spells of the Ocean School of Thought. He did not reveal much of his other abilities, so there was no way to determine if he was a fifth-circle senior wizard. However, I’ve already sent him an invitation. As for whether he wants to join or not, it’s up to him.”

Several days later, the first wave of black beast tide in the Sea of Stars gradually faded.

The five white-robed elders and the other fifth-circle wizards gathered on Gandaph Island.

When they heard from Biggs that a powerful body-refining wizard had passed by, killed a black beast, and saved a group of secret practitioners, the Magical Lady hurriedly asked, "From your description, that black beast should be a Black Fire Dragon. It should be the strongest of the mixed-blood dragon clan. If it doesn't die prematurely, it has the chance to become a peak level 5 black beast. It seems that this nomadic wizard is quite powerful. Did you send him an invitation?"

Biggs replied, "I invited him, but he refused on the spot. I gave him the organization manual... He should be the kind of nomadic wizard who is used to freedom. He has a lot of concerns and has a temperament that keeps strangers away."

"Heh, he's just a fifth-circle senior wizard. He sure knows how to put on airs. It's up to him whether he wants to come or not," Wizard Farrell said coldly.

Although he was a member of the Fire Bull family, he didn't want to join the Nine Cities Alliance, so he was here.

As the saying goes, it was better to be a big fish in a small pond than a small fish in a big pond. Here, he was the high and mighty "Five Elders". In the Nine Cities Alliance, his status would definitely not be as high as here.

Red Bone Wizard said, "It's not up to us to decide whether he will come or not. There's no need to mention this again. This is only the first wave of the black beast tide. We should take advantage of the gap between the tides and invite as many fifth-circle wizards as possible. This way, it will be easier to pass through the black beast tides."

...

They left the Sea of Stars.

Levi continued to fly towards some of the larger intersections.

After killing this Black Fire Dragon, he only needed the bones and tail feathers of a level 5 fire bird to start refining the Ancient Burning Sky Umbrella.

He planned to go to the Holy Fire Plateau in the south to try his luck.

On the way, he casually browsed through the White Robe Wizard Association's handbook.

Suddenly, a familiar name entered his eyes. His expression was strange as he muttered,

"Gandaph? Isn't this my avatar?"

After reading the manual, Levi didn't know whether to laugh or cry.

Back then, he only wanted to prevent himself from being recognized by Anya. In addition to his bad taste, he changed into Gandaph's identity and saved a group of nomadic wizards.

Who would have thought that a few years later his unintentional action was remembered by so many nomadic wizards?

They even used his "Gandaph" name to establish a so-called "White Robe Wizard Association".

"You're using my alias name casually and not giving me money for it?" Levi ridiculed.

"Saving the poor and saving the suffering, the heart of a ranger, not afraid of power, the light of a nomadic wizard... This comment is quite fair."

As he walked, Levi pondered. Originally, he did not have any thoughts of joining the White Robe Wizard Association, but now he suddenly had a new idea.

"I can let the Holy Infant join them. After all, with so many nomadic wizards, it's a complicated intelligence network. With the Holy Infant's status, he can become a high-ranking member of the wizard association. This way, whether it's searching for clues about the Holy Grail of Immortality or exchanging resources with other wizards to refine Wizard Tools and alchemical creatures, it can save me a lot of time."

Levi did not plan to let his main body join them. His main body still had to guard Dragon Palace Island.

Moreover, from the manual, two of the five white-robed elders were his former enemies.

“Farrah, Red Bone... Tsk, tsk, tsk, I’ll let you be proud for a while. When my strength improves, I’ll be able to take revenge for what happened back then.”

A month later.

Levi wandered around many small intersections and picked up a bunch of level 4 and level 5 black beast materials for free.

Unfortunately, the level 5 fire element bird he needed had never been found.

“In the south of the Io Continent, there are only two places that are most likely to have this kind of bird, the Million Mountains and the Holy Fire Plateau. Relatively speaking, the Holy Fire Plateau is easier to find, but we have to be careful of the people from the Nine Cities Alliance.”

Chapter 1275: Stolen Dead Soul Date Tree

After analyzing the pros and cons, Levi headed to the Holy Fire Plateau.

He didn’t give up on the Million Mountains either. He asked Mind Flayers to mobilize some people to help him search. This way, he could do it at the same time and it would be more efficient.

...

Holy Fire Plateau.

The first wave of the black beast tide had already passed.

With this fortress city, unless a level 6 black beast came out, it would be difficult to shake the layers of defense of the Nine Cities Alliance.

...

The ground was littered with the corpses of black beasts. Wizards from the Burning School of Thought were using spells to burn these corpses to prevent them from polluting the elemental power nearby.

If Levi was here, he would definitely curse at them for wasting these treasures.

Suddenly, another group of black beasts attacked from the horizon in the distance. This number seemed to be even greater than before.

“Quickly inform the commander that the second black beast tide is coming!”

The wizards quickly retreated into the city.

The price to pay for occupying such a large intersection was to face an even larger black beast tide.

Not only that but this time, among the black beast army, a mountain-like black goat was sweeping tens of thousands of black fog and tentacles towards the giant city.

“This... This is a black beast lord. Tell the City Lord directly! Only a level 6 existence can fight against this monster!”

For a moment, the entire Nine Cities Alliance entered an unprecedented state of alert.

One by one, the wizards quickly returned to their posts. When the Blood Demon Tower Master saw the black goat, his expression was heavy, but his heart was filled with ecstasy.

“The opportunity has come! Hahaha, this way Wizard Roman, who is the biggest threat to me, will also be restrained. Next, I’ll seize the Dead Soul Date Tree without any risk!”

On the other side, Simon frowned and looked into the distance.

A bald wizard wearing a flaming robe appeared behind him.

His face was calm, and he had a dignified temperament. His vast spiritual force made Simon feel as if he was facing an abyss.

“I’ll deal with the black mountain goat. Simon, you go protect the grand array and the fortress.”

“Yes, Lord Roman,” Simon replied respectfully.

In front of a level 6 powerhouse, a dazzling figure like Simon was nothing but a weed on the side of the road.

A huge shadow of a flaming snake appeared behind Lord Roman. It was hundreds of meters long and coiled in the air. It stuck out its tongue and looked at the black mountain goat.

“Primordial soul wizard form, Dance of the Fierce Snake!”

The giant flaming snake flew out and fought with the black mountain goat!

Boom!

The terrifying shockwave scattered all the surrounding black beasts.

In the sky, countless tentacles fell from the black mountain goat’s body. It was like a black forest, surrounding Roman!

Roman’s flaming snake spat out flames and turned the Black Forest into ashes.

This was a true showdown between the strong, and Simon's blood boiled as he watched!

Suddenly, he noticed that the black flame bird that had embarrassed him in front of everyone during the black beast tide had appeared again and was attacking the grand array.

"This time, you can't escape!"

His streamer stretched out and wrapped around the strange bird.

This unremarkable streamer was also a Wizard Tool.

Boom!

Caught off guard, the strange bird was bounded by the red ribbon and could not break free.

"Even a fifth-circle senior wouldn't be able to escape my Dragon Binding Belt, let alone a beast like you!"

This Dragon Binding Belt was a fifth-circle top-grade Wizard Tool, one of the most important Wizard Tools on Simon.

A great battle erupted!

After an unknown period, on the primordial soul battlefield.

“What a troublesome monster. I can only use my Soul Artifact.”

Roman wizard form’s giant snake suddenly spat out a mirror.

This mirror was ordinary. It looked like a magnifying glass with a bulge in the middle.

“To die under my Sky Strike Flame Mirror, it’s worth it for a monster like you to make a trip in this world!”

Roman waved his hand, and countless fire elements within a ten-mile radius gathered toward the mirror.

In the sky, it formed a huge funnel-shaped cannon barrel!

From one side of the cannon barrel, a ray of light shot out like a golden needle!

This attack tore through the void and arrived in an instant!

The body of the black mountain goat was split into two!

Immediately after, thousands of rays formed a huge net and enveloped him!

The black mountain goat's countless tentacles were all cut into pieces and exploded.

The terrifying shockwave sent Roman into the void and he teleported back to the fortress.

Most of the minced meat was destroyed by the Sky Strike Flame Mirror. A small portion of the minced meat actually grew strange wings and flew away.

"What the hell is this?"

Roman tried to keep the minced meat, but it was too late.

"After this battle, even if it survives, it won't pose a threat to Sky Fire Fortress," he muttered to himself.

On the other side, seeing that its boss had exploded, the strange bird also used all its strength to break free from Simon's restraint. It cawed and flew away.

"This time, I'll kill you!" Simon was furious.

He was a dignified dragon slayer. How could he let the strange bird escape twice in a row?

He was about to give chase when a fourth-circle wizard called out to him. The fourth-circle wizard said fearfully, "Master Simon, the Dead Soul Date Tree is missing. The Fire Crocodile City Master took advantage of the chaos to steal the treasure and left Skyfire City."

"What? You useless trash can't even look after a tree properly!"

Simon grabbed the wizard, his eyes blazing with fire.

He calmed down and threw this person to the side. Simon asked for the direction that the Fire Crocodile City Master had left in and chased after him.

The direction that Simon was heading towards was the Million Mountains.

The eyes of the wizard who came to report the news flashed with a barely noticeable blood-red light.

Several days later...

Chapter 1276: Hunting in Black Prairie

At the western edge of the Holy Fire Plateau.

The Blood Demon Tower Master was in a good mood. The blood-colored Specter shadow behind him carried the Dead Soul Date Tree.

“Tsk, tsk, tsk. That Simon must have gone to the Million Mountains to look for me. Unfortunately, I, the Blood Demon Tower Master, have been in the Wizard World for so many years. It’s not a problem for me to toy with a junior like you. I’m going to the West Sea. You can take your time to look for me... Hehehe, this Dead Soul Date Tree is fated with me. If I advance to the primordial soul realm in the future, I will definitely plant it in my wizard tower and have it accompany me through the long years.”

“Quack quack quack.”

Suddenly, a familiar voice came from behind.

The Blood Demon Tower Lord’s expression changed as he looked at the heavily injured bird.

...

“This strange bird is too odd. Even Simon failed to kill it twice. With my strength as a fifth-circle senior, it’s not difficult to kill it. However, I won’t do anything that will make me lose money. Retreat!”

He turned into a blood-red stream of light and left quickly.

The strange bird missed its target and continued to wander around the area, hunting other black beasts to recover from its injuries.

On its back, under the black feathers, there was a piece of black flesh. It extended its tentacles and stabbed into the strange bird's back.

...

A month later, Levi's figure appeared on the Holy Fire Plateau.

"D*mn it, what happened? Lovers Rune, can you do it? Quickly arrange a fire bird for me," Levi cursed in his heart.

It had been a few months since he left Dragon Palace Island. Along the way, he had killed a few mixed-blood dragons and picked up trash. In the end, he didn't see a single level-five fire-type bird.

"I must have obtained too many Truth Oddities and used up all my luck... Or is it because I haven't done many good deeds recently and don't have enough merit?"

Levi cursed and swore, only daring to search at the edge of the Holy Fire Plateau.

If he went deeper, on one hand, he would easily encounter the black beast army. On the other hand, he might encounter the experts of the Nine Cities Alliance.

“If I can’t find it within a month, I’ll go back to Dragon Palace Island and refine the other Wizard Tools first. I’ll think about this Ancient Burning Sky Umbrella later.”

...

Several days later.

In a desert forest in the west of the Holy Fire Plateau, countless black plants grew on the ground, emitting a high-temperature aura.

This was the Black Prairie, where black beasts often roamed.

A group of wizards arrived.

Judging from their uniforms, they were all from the Nine Cities Alliance. The leader was an old fifth-circle wizard who looked extremely shrewd.

His name was Timothy, and he was a fifth-circle weapon craftsman.

“Focus your spiritual force. If you ruin my plans, don’t blame me for being rude,” Timothy said coldly.

“This Space Cracking Beast is only a level 4 creature. What does Master want this thing for?”

“Don’t ask about things that you shouldn’t. I have my own uses for it.”

Several days later, Timothy and the others arrived at the Space Cracking Beast’s nest. It was a deep cave that led to an unknown place.

“Next, you guys will use the array to seal off this area. The Space Cracking Beast is extremely alert and fast. It also has a rare ability similar to a primordial soul wizard’s Void Teleportation ability. As long as it escapes, even a fifth-circle wizard will not be able to catch it. If you ruin my plan, don’t blame me for being terrible!”

“Understood!”

The group began to set up traps and arrays here to prevent the Space Cracking Beast from escaping!

Timothy lit up his protective force field and entered the cave.

Not long after, a small beast with a translucent body that looked like a pangolin flashed out and entered the range of the array.

It was panicking. Its sharp claws drew a circle in the air, and sparks flew everywhere. The void was actually cut open, and a teleportation door was already half-formed.

“Seal!”

A voice rang out.

The portal suddenly extinguished and disappeared.

“Squeak, squeak, squeak.”

The little beast was flustered and struggled frantically, but it was suppressed by the array.

A specially-made glass bottle suddenly enlarged, and a suction force came over, sucking him in.

Timothy laughed.

“Even if you have the ability to teleport, it’s useless in front of the wisdom and knowledge of a wizard. Your claws are mine.”

He put away the jar and hid it in his robe.

In the depths of the dark cave, black tentacles of flesh and blood wrapped around the place. A strange bird opened its eyes.

...

Three days later, above the Black Prairie.

A huge black beast that looked like a bat was leading a group of fiery red bats. They were like a burning cloud as they surrounded and attacked a gray-robed man in the air.

Soon, a group of bats piled up and surrounded him.

“Three Dragons Flaming Kill!”

As the three-colored flames exploded in this area, the group of bats turned into ashes in the explosion.

Only the leader was heavily injured but not dead.

As the long sword slashed down, it was cut in half, and blood splattered in the sky.

Levi peeled off the intact part of the bat's fur, then pulled out the feather-light but extremely tough scarlet bones from its wing membrane.

"The bones of this Giant Fire Demon Bat are not bad. It can be used as a substitute to refine the Ancient Burning Sky Umbrella."

Levi put them away. By relying on the Bronze Statue body tempering technique, he was quite immune to the negative energy of radiation and corrosion carried by these black beasts. If it were any other wizard, with his fighting style, it would definitely cause some negative effects on his body over time.

"Let's go. After exploring this place, we'll return to Dragon Palace Island."

He continued to venture deeper into the Black Prairie, only to discover that his Danger Perception seemed to be warning him about something.

Chapter 1277: Fighting The Strange Bird

"It seems like there's a level 5 existence hiding here. Moreover, it's slightly stronger than the Giant Fire Demon Bat."

After some thought, he continued to venture deeper. If he encountered something he couldn't defeat, he would use the Circle of Ouroboros to teleport away.

Not long after, Levi encountered the source of the danger.

It was a strange bird with a skeletal bird head. Under its black wings, there were human hands. It held a bone staff and had nine red tail feathers that looked like phoenixes.

The strange bird seemed to have sensed the battle here and rushed over. Then, the two sides met.

Even though Levi was a self-proclaimed expert in transcendent creatures, he was not sure what kind of monster it was.

...

"Forget it, it's a bird anyway... I've spent so much time and effort trying to find it but I inadvertently chanced upon it. Your tail is mine!"

Levi stretched out his hand and pointed. A water dragon rose and coiled around the strange bird.

The strange bird was very alert and moved quickly, dodging Levi's attack.

"You have some strength."

This was also the first time Levi had encountered an enemy who could dodge his Water Dragon's Song.

“The true strength of this strange bird is probably not weaker than a fifth-circle senior wizard.”

Behind Levi, the Rock Demon Giant appeared and roared as it charged at the strange bird.

However, the strange bird’s speed was clearly a notch faster. It kept swimming around, using the strange blue flames to attack the Rock Demon.

Even the surface of the Rock Demon’s body, which had magic resistance comparable to a Gargoyle, was cracked from the heat. This was enough to show that the blue flames were extraordinary.

“Is this some kind of powerful flame?”

Levi became serious. While the Rock Demon was busy dealing with the strange bird, he took out a purple flag without hesitation.

“Fifth-circle array, Thunder King’s Court!”

As a fifth-circle array wizard, he was able to cast this spell with ease. It was not something that those fourth-circle wizards could compare to.

In an instant, a huge lightning divine temple descended.

The array enveloped the strange bird, and the suppressive force slowed it down.

Taking advantage of this opportunity, countless bronze spikes burst out from the Rock Demon's body!

Whoosh, whoosh, whoosh!

In an instant, the strange bird's body was filled with spikes and it wailed in pain.

It let out a strange cry and waved its staff. The blue flames expanded in all directions with itself as the center, like a blue sun.

Levi had the Rock Demon transform into Water Ghost form and stay away from the strange bird.

At the same time, under his control, the Thunder King's Court kept shrinking and the pressure increased.

Boom!

Following an earth-shattering explosion, the Thunder King's Court array was completely torn apart. Even the array flags were severely damaged.

Water Ghost ran fast so it only suffered some injuries, but it was not a big deal.

Even Levi's expression changed slightly when he saw the power of this attack.

The strange bird's aura was a little weaker. It must have consumed a lot of energy.

Levi put away the array and continued to control the Rock Demon with the Water Dragon's Song Roar.

At the same time, he released Phoenix and piloted the Feathered Serpent in the direction of the strange bird.

Wind and fire swept out!

The Feathered Serpent's air cannon charged up and blasted out!

The terrifying impact pierced a large hole in the strange bird's chest.

It didn't die. Instead, it flapped its wings and wanted to escape!

“Leave the feather behind!”

Levi shot out a few Wind Dragon Scamper in a row, paired with Scarlet Dark Dimension, before landing on the strange bird’s head and grabbing its tail.

“Phoenix, Rock Demon, hold it down!”

Levi’s body expanded, and black flames surrounded him as he transformed into a dragon-scaled giant. He even used the Furious Dragon Lord and Giant Dragon Warrior forms.

“Dragon God!”

Levi shouted loudly, and the Three-Headed Dragon God descended. Its six arms grabbed all the tail feathers of the strange bird.

It was not easy for him to find suitable materials. He could not let the strange bird go so easily!

With that, the Dragon God, Rock Demon, and Feathered Serpent subdued the strange bird.

Levi held the Crimson Dragon Slash and activated the Heavenly Dragon Sword Codex!

The terrifying crimson dragon sword qi slashed down at the strange bird's head!

The strange bird wailed and used its staff to block, but it was shattered by the Sword Qi.

Crack!

Its head was chopped off by the Sword Qi.

The strange bird did not die as Levi had imagined.

That sense of danger did not disappear.

He noticed that on the back of the strange bird, there was a piece of black flesh that emitted a fishy smell. The tentacles on it were rooted in the strange bird's body.

"So this is where the danger comes from!"

On the other side, the Dragon God's tremendous strength erupted, completely plucking off the tail feathers.

Levi had entered the Dragon God's body, and the Dragon God had mastered the Crimson Dragon Slash!

An even more powerful crimson dragon Sword Qi slashed down!

Boom!

The strange bird that was suppressed by the Rock Demon and the Feathered Serpent was cut in half.

The mass of black flesh and blood suddenly burst out, emitting a strange spiritual fluctuation.

Levi was already prepared. The Nightmare Helmet emitted a black light, blocking the shockwave.

Some of the residual waves were easily shattered by the bell sound of the five-story Divine Ring Tower in his mind!

"A mere lump of flesh and blood has such a powerful spiritual force impact. It seems that the owner of this flesh and blood should be a level 6 existence."

Levi was on guard and did not panic.

If this flesh could possess or control him at will, it wouldn't be holding onto the strange bird so tightly.

It was because the bird was dying that it wanted to control Levi with its spiritual force and possess him.

However, Levi had so many tricks up his sleeve that it had returned empty-handed!

"I don't care what you are, I'll smash you!"

The three heads of the Three-Headed Dragon God spat out black flames. The greatsword slashed down with unstoppable force!

The black flesh transformed into a black mountain goat the size of a small mountain. Every strand of wool was a black tentacle.

"It's just a bluff! I also know how to use the Heaven's Net Deception"

Chapter 1278: Space Cracking Beast Claw

With a thought from Levi, a spiritual force fluctuation spread out.

A giant spider appeared, and its spider web covered the black mountain goat!

The Dragon God used Sword Qi to attack, while Levi used Fire Dragon Tribulation to support his attacks. He also threw out a bunch of level 3 divine talismans.

Under such a saturated attack, the mass of black flesh and blood was continuously melted and finally turned into nothing.

At the same time, the sense of danger that lingered around Levi finally dissipated.

“Is this the attitude of a level 6 existence... Even if a piece of meat falls from their body, they have to do their best.”

...

At this moment, Levi deeply realized the gap between the primordial soul and the fifth-circle realm.

“There are as many prodigies as there are clouds in this Dark Ancient Tower. There is Dragon Slayer, Sky Dragon Wizard, Snow Lotus Witch... But with so many people, how many people can safely reach the primordial soul stage?”

On the path to attaining a primordial soul, many difficulties and obstacles kept rejecting geniuses.

“Perhaps, in the eyes of the primordial soul wizards, the so-called geniuses are just child’s play.”

Levi came to the strange bird’s corpse.

He asked the Rock Demon to dismantle the skeleton and collect all the usable materials from the strange bird.

Phoenix flew over and found a blue crystal in the head of the strange bird. It was emitting a scorching heat.

At this moment, he was looking at Levi with a smug expression, obviously waiting to be praised.

“Well done.”

Levi picked up the blue crystal and observed it carefully.

“What is this? Could it be some kind of energy crystal similar to a fifth-circle wizard?”

Levi had never heard of such a crystal growing in after a transcendent creature reaches level 5. He had killed so many, but he had never seen one.

Sensing the rich fire element within, Levi guessed that this should be some form of a strange flame, similar to the Black Oblivion Thunder that he had refined.

After the original host was killed, both the lightning and fire would automatically be released.

However, this flame happened to appear in the form of crystals.

Levi analyzed in his head and thought, “No matter what, this is definitely a good thing. That eerie blue flame is too strong. Phoenix’s flames are completely suppressed. It feels like it can restrain ordinary flames.”

Levi carefully placed the blue crystal into a jar filled with a high-concentration of the Purification Elixir.

“What a pleasant surprise! My luck has returned!”

Killing a strange bird not only replenished the materials of the Ancient Burning Sky Umbrella but also obtained a strange flame.

Levi was in a good mood and continued to search through the pile of rotten meat in front of him.

He was looking for the stomach of the strange bird. He had the experience of finding a treasure in the giant pig’s stomach last time.

Every time Levi killed a black beast, it would be as though he was opening a surprise treasure chest as he searched for treasures in the belly of the giant beast.

As expected, when he opened the strange bird's stomach that was filled with corrosive liquid, he was shocked by what was inside.

A small pile of Wizard Tools, rings, and some undigested corpses...

"I knew there was something good. During the black beast tide, who knows how many wizards have lost their lives because of it?"

Levi looked smug.

He picked up all the undigested things and washed away the mucus on them.

"So many storage rings. This strange bird has eaten quite a number of people. Unknowingly, I've done another good deed. I've avenged these dead souls."

Levi opened the rings one by one and took out all the items inside.

"There's actually a fifth-circle Wizard Tool, the Secret Fire Sphere. It seems like it's a fifth-circle wizard from the Nine Cities Alliance. And this 'Book of Kane' is the same as mine."

In the end, after a rough count, he had obtained over a million Aether Stones. In addition, there was a pile of fourth-circle Wizard Tools, a fifth-circle Wizard Tool, and several spell crystal balls.

“I picked up a lot.”

He put away the spoils of war he had picked up.

A pair of sharp claws belonging to a transcendent creature came into view. The edges of the claws were emitting a green light.

It seemed that the owner of the claw had already been digested, leaving only the undigested claw in the strange bird’s body for the time being.

Levi picked up the claw and gently swiped it, only to discover that there were faint ripples in the surrounding void.

His breathing hastened. He had never been so excited even when he had encountered a great Earth-Grade Oddity.

“This... Don’t tell me this claw belongs to the Space Cracking Beast?”

The Space Cracking Beast was a famous transcendent creature that had already gone extinct in the Wizard World.

Its strength when it was mature was only at level 4. Moreover, it did not have any attack abilities and was not good at fighting. It was considered a small creature.

However, as the name implied, this transcendent creature had an extremely heaven-defying innate ability.

It could use its claws to tear apart the void of the Prime Material Plane and teleport a short distance!

This was the signature ability of primordial soul wizards.

Of course, the teleportation distance of the Space Cracking Beast was far inferior to that of a primordial soul wizard.

However, this was already heaven-defying enough!

If he could combine the claws of the Space Cracking Beast with his unique knowledge of weapon crafting and refine them into a Wizard Tool, he could make a short-distance teleportation Wizard Tool.

As long as a Wizard Tool had this function, even if its other functions were trash, it would still be considered top-grade. For example, the Circle of Ouroboros.

“I’m so lucky.”

Levi was grinning from ear to ear. After thoroughly checking everything, he turned the rotten meat into ashes and left.

The goal of this long journey had been achieved, and he was returning home!

...

Dragon Palace Island.

Levi rushed over.

Seeing that the grand array was safe and sound, he knew that no one had come.

“This place of mine is really not bad. Even the black beasts don’t come to play with me... I originally wanted to use the grand array to kill some black beasts and take their skin to make talismans,” Levi sighed slightly.

Chapter 1279: Refining Ancient Burning Sky Umbrella

In the weapon refinement room.

Holy Infant was still making talismans.

Levi opened his proficiency panel and found that his talisman crafting skill was only about half a year away from reaching level 4.

“Let’s start refining. First, I’ll refine the Extreme Fire Wheel. Now that I have the claws of the Space Cracking Beast, I’ll have to change the original design.”

In the following days, Levi, the Holy Infant, and Phoenix spent all their time in the weapon refinement room.

Levi was completely immersed in the weapon refinement process, unable to extricate himself.

...

Time passed quickly. In the blink of an eye, half a year had passed.

On this day.

Holy Infant’s brush was like a dragon and a phoenix. His spiritual force was highly concentrated as he drew runes on the beast’s skin, and his spell power continuously surged into it.

Levi also temporarily stopped his work and focused on creating talismans.

After a while, Holy Infant and Levi exhaled at the same time.

“It’s done,” they said in unison.

A fiery-red divine talisman drawn on the skin of a level 4 fire bat floated in the air. There was a lifelike red dragon pattern on it.

“Level 4 Fire Dragon Tribulation talisman!”

Levi opened his proficiency panel.

Levi-

[Talisman Crafting: Level 4 (1/20000)]

...

“Hehehe, the way of divine talismans will now be cultivated to reach level 5. This is a painstaking effort. If it can’t be completed in a short period of time, Holy Infant won’t have to go to jail with me.”

However, the Wizard Tool that Levi had prepared for Holy Infant had not been completed yet.

“Holy Infant, your next goal is to refine 1,000 level 4 Fire Dragon Tribulation talisman.”

He handed a storage ring to Holy Infant. Inside was a mountain of fur from various fire-elemental black beasts that he had already peeled. All of them were at least level four. This was his biggest gain from picking up trash!

Levi did some calculations. After Holy Infant finished making a thousand level 4 talismans, Holy Infant’s Wizard Tool would be almost done refining.

Holy Infant naturally did not complain and continued to devote himself to the boring work of making talismans.

The corner of Phoenix’s eyes twitched as he thought, “This lunatic. He’s crazy enough to exploit himself! Unreasonable!”

Levi continued to focus on researching Wizard Tools.

During this period, other than the usual meditation and breathing techniques, all other work was temporarily put on hold.

...

Time always passed quickly when one was cultivating.

In the blink of an eye, three years had passed.

Year 1204 of the Holy Brilliance Calendar, the Month of Winter.

It was the 39th year since the Dark Ancient Tower opened.

In the past three years, it was a difficult three years for the top wizard organizations.

The black beast tide was becoming more and more frequent, and more and more concentrated.

Level 5 black beasts appeared frequently. Even peak level 5 and level 6 black beasts had descended.

After entering the ancient tower, everything had been smooth sailing. But now, the powerful top-tier wizard organizations had more or less suffered losses.

Some of the top wizard organizations had no choice but to temporarily evacuate their bases from the intersection. They only gradually returned to their bases when the black beast tide began to weaken.

Under the chaotic situation, some nomadic wizards profited from this and got a share of the pie.

In order to resist the black beasts, more and more weaker wizards joined the White Robe Wizard Association in the Sea of Stars.

This posed a threat to the other top organizations.

The covetous ones were waiting for an opportunity.

In the past three years, someone claimed to have discovered a new intersection on the Holy Fire Plateau.

There were many mixed-blood dragons living there, and there were even traces of sub-dragons.

This intersection was in a bottomless rift valley. Wizards called it the “Dragon Abyss” or “Dragon Valley”.

Some wizards went there out of curiosity, trying to capture some mixed-blood dragons.

In the end, they suffered heavy casualties and basically did not return.

According to the descriptions of some wizards who were lucky enough to return, there was a black-scaled beast that was as big as a mountain in the abyss. Under the breath of flames, even the fifth-circle wizards could only flee in panic without any resistance.

The experts of the Dragon School of Thought had identified this giant beast as the Black Lotus Beast!

It was said that this was the most powerful sub-dragon species in the Multidimensional Plane.

This was because the one who gave birth to this sub-dragon species was a powerful level 10 Mythical Creature known as the Red Lotus of the End and the King of Fire Dragons.

“Red Lotus Dragon!”

This kind of dragon had long disappeared in the long river of time. No one had ever seen its traces in the general plane.

The Black Lotus Beasts that were born from it were also extremely rare and were suspected to be extinct.

Although the Black Lotus Beast guarding Dragon Valley was not yet mature, its strength was comparable to a fifth-circle wizard with its powerful bloodline.

The wizards gradually gave up on exploring the Dragon Valley, and some of the Dragon Abominations hidden in the darkness began to cast their sights there.

As time passed, the black beast tide gradually receded.

On the Io Continent, the power structure was being reshuffled.

The Barbarian Race, the Demon Race, and the Human Race were all in turmoil.

In the Kane Empire, the fully armed mages of the empire set out on their journey, obeying the will of the Supreme Archmage and wiping out the evil mages and foreign tribes wandering on the continent!

In the deepest part of the mountains, black divine temples rose from the ground, and the silhouettes of demon kings that were as tall as mountains looked into the distance.

The situation in Io was getting more and more tense.

In the entire world, there was only one place with beautiful scenery... It was the Dragon Palace Island, which was in the middle of nowhere.

Three years, a total of three years! No black beasts found this place!

This made Levi feel a little sad. He had originally wanted to wait for the black beasts to deliver themselves to him and rely on the array to automatically harvest the black beast materials, but it was his wishful thinking.

However, this was also good. After all, safety was the first priority. Nothing else was important.

During these three years, the Holy Infant had refined over a thousand level 4 divine talismans.

It consumed more than half of the black beast materials that Levi had accumulated.

According to Levi's tests, these divine talismans were grouped into groups of 100, and they were used together with an array with the array used to trap the enemy before throwing and detonating the divine talisman.

Unless an ordinary fifth-circle wizard had a heaven-defying trump card, they would definitely die! Ordinary fifth-circle senior wizards would also be in danger. Perhaps only those with perfected fifth-circle could escape unscathed.

This was Levi's way of divine talismans, which relied on quantity to win.

If one day, he could throw a hundred level 5 divine talismans at the same time, and all of them hit the target, then those below the primordial soul realm would have a slim chance of survival.

After Holy Infant completed his mission, Levi let him rest.

As for himself, he was fully focused on refining Wizard Tools.

In front of him were two completed Wizard Tools.

On the left was a golden ring made of two small rings. Its surface emitted a mysterious green luster, causing the surrounding void to distort. This was the [Extreme Fire Wheel].

On the right side was a fiery red ring with a diameter of about half a meter. It emitted a scorching aura. This was the [Crimson Dragon Ring].

As for the last item, he was still refining it. It was an ancient umbrella that floated in the air, slowly spinning.

There were nine red tassels on the ancient umbrella like nine fire dragons.

This was the most complicated and powerful Wizard Tool that Levi had ever refined.

Ancient Burning Sky Umbrella!

Chapter 1280: Golden Snake's Limit! (1)

Dragon Palace Island

Weapon Refinement Room

Levi concentrated deeply, refining the nine tassels on the edges of the Ancient Burning Sky Umbrella. These would be the main attack means of the Ancient Burning Sky Umbrella.

Thus, another half month passed.

On the last day of 1204, Dragon Palace Island was ablaze with fire.

Within the light, the fleeting shadows of nine crimson dragons could be faintly seen.

...

“Hahaha, such a phenomenon at the completion of the artifact! This must be a top-grade item,” Levi’s mad laughter echoed from the Weapon Refinement Room.

“If it weren’t for the Circle of Ouroboros’ teleportation spell, this so-called top-grade Wizard Tool wouldn’t stand a chance against my Ancient Burning Sky Umbrella!”

Levi held a red ancient umbrella and slowly ascended. The ancient umbrella exuded a faint treasure light, clearly not an ordinary item!

The umbrella's canopy was made from the skin of the fifth-level mixed-blood dragon clan's Black Fire Dragon, sewn from the hardest part of its chest. The Black Fire Dragon, being at the pinnacle of the mixed-blood dragon clan, had skin of guaranteed quality. Moreover, Levi had added many rare materials to enhance its defense!

On it was solidified a defensive spell that Levi considered top-grade within the Burning Faction, the Crimson Dragon Barrier.

This Crimson Dragon Barrier was not an existing spell of the Burning Faction. It was an original fifth-circle protective force field spell created by Levi after he advanced to the fifth circle, to refine a Wizard Tool for the Holy Infant, integrating various strengths and insights.

One could say that he learned the fifth-circle protective force field spell in passing to refine this Wizard Tool. Otherwise, given his current defensive capabilities, there was no immediate need to learn a protective force field.

The defensive capability of the Crimson Dragon Barrier was comparable to the defensive spells specialized in by the Earth and Ocean Factions. It was deserving of the title "top-grade spell" within the Burning Faction.

With such a defensive spell, coupled with the umbrella's strong defensive capabilities, the Holy Infant's inherent protective force field, and the damage reduction characteristic of the "fire element body," there were few on the Io Continent who could instantly break through its defense.

If the Holy Infant inadvertently provoked such a formidable enemy, Levi's true self would only be much help.

As for the umbrella's frame, it was made from the toughest bones of a monstrous bird, combined with some fifth-level fire element metal, and solidified with numerous spells before being refined.

There were a total of nine umbrella ribs, each connected to a crimson tassel.

These tassels were refined from the nine tail feathers of the monstrous bird, and they were the essence of the umbrella.

Levi handed the umbrella to the Holy Infant. The Holy Infant held it in his hand, and the umbrella automatically shrank to match his size. With a thought, the ancient umbrella could return to his body.

Holding the ancient umbrella, the Holy Infant flew into the sky and softly uttered a syllable, "Double Dragon!"

Suddenly, two of the umbrella's tassels ignited, and two Flame Divine Dragons with fifth-circle power surged forth, exploding in the air!

Flame energy wantonly unleashed!

The power of a single fire dragon was not something an ordinary Fifth-Circle Wizard could withstand. With this treasure, the Holy Infant could release multiple dragons simultaneously.

In theory, the Holy Infant could use this treasure to unleash nine fire dragons to attack the enemy simultaneously.

Levi named this move “Nine Dragon Tribulation!”

Of course, this move consumed a considerable amount of spell power. Even with the innate spell being more efficient than a regular spell, Levi, at his initial fifth-circle level, could only use “Nine Dragon Tribulation” twice.

The Holy Infant uttered a syllable.

“Nine Dragons!”

Vast, unmatched spell power surged from the Holy Infant’s body into the ancient umbrella in his hand. The umbrella trembled and buzzed as all nine tassels ignited. Nine crimson fire dragons burst into the sky and then roared towards a distant small island!

Boom!

The nine fire dragons exploded simultaneously, turning the sky red with their flames. The small island, about a mile in diameter, vanished without a trace. The shockwave from the explosion swept over several miles, evaporating the fish and seawater within, creating a small tsunami that spread outward!

“Who can withstand such an attack?” Levi called three brothers, standing still, letting them attack.

The ancient umbrella began to spin, and a crimson Divine Dragon appeared, layering over itself to form a barrier that protected the Holy Infant within.

The umbrella then closed, enveloping the Holy Infant entirely.

Boom, boom, boom!

The three brothers’ breaths and seismic waves all targeted the Holy Infant. The crimson dragon barrier trembled, one layer breaking, but there was always another behind it.

Under the umbrella, the Holy Infant conjured two golden rings on his wrists. He drew circles with his hands, causing a blue light to flicker and the void to tremble!

Before the second layer of the barrier shattered, a void teleportation portal formed from what seemed like sparks. The Holy Infant stepped into it and disappeared.

Hundreds of miles away, the Holy Infant reappeared, golden rings at his feet, spinning like Nezha’s Wind Fire Wheels. He transformed into a streak of crimson light and vanished into the horizon, his speed far surpassing his normal flight.

The three brothers were dumbfounded, not knowing what had happened.

Before long, the Holy Infant reappeared, throwing the Crimson Dragon Ring from his hand. The ring expanded with the wind, transforming into a crimson Divine Dragon that enveloped all three brothers.

“Retreat!”

The next moment, the crimson Divine Dragon began to condense and contract!

Caught off guard, the three brothers were bound together and collided violently.

However, being sub-dragons, seismic waves rippled from their bodies, quickly shattering the crimson Divine Dragon.
