

Wizard 129

Chapter 129: Giant Rhinoceros Breaks Limit! (1)

Looking at the distracted Earl of Silver Mountain, Adolf sighed and said, "Sigh, I'm old. I have to admit."

"Forget it; let's not disturb him. In short, this mysterious expert doesn't have any ill intentions."

"However, the church priests are so shameless. Holy water? What bullsh*t?

Bah, it was us, the knights, who should take credit."

The grey-robed wise man, Adolf, walked away unhappily.

The Earl of Silver Mountain smiled bitterly. This head priest was probably the one with the most personality among all the members of the church that he had ever met.

He was also one of his few church friends.

When he was young, he was indeed a top-notch grand knight.

The Earl of Silver Mountain sighed, "Sigh, it's such a pity that such an expert doesn't go out and make a name for himself but hides in the secular world."

Then, he went to study how to deal with Snow Demons.

He was determined.

The Month of Germinal in the year 1011 of the Holy Brilliance Calendar was chilly because the weather was getting colder in spring.

This year, the grass and trees sprouted a little later than usual.

The war between the North and the South continued. The flames of war raged on, engulfing most regions.

The Duke of Montenegro had been stopped by the Southern Coalition Army and the Royal Family, but he was still holding on.

Meanwhile, in the Tuva Empire, thousands of miles away, the civil war had ended, and the rebels had taken over the country.

The younger brother of the Lord of the Empire became the new Lord of the

Empire. He no longer established the so-called "Fist of the Empire" position.

Under his leadership, he destroyed the societies and organizations that fanatically believed in the First of the Empire.

He tried to erase the traces of the Fist of the Empire's existence.

The Fist of the Empire was nowhere to be found.

No one knew where he went.

Some people speculated that the Fist of the Empire had already become a legend.

Some people guessed that the Fist of the Empire had concealed his identity and gone to another country.

In short, Fist of the Empire fans would never believe that he was dead.

They believed that Storm's Birth, the unparalleled God of War, would not die.

The Wilderness Brotherhood could no longer hold on.

The difference in strength between them and the church was too great.

They could only rely on guerrilla warfare to resist the church and destroy some small churches in some places.

Therefore, they returned to the wilderness and gradually disappeared from the public's sight.

However, they were still secretly spreading the faith of the "Lord of the Wilderness."

Chaos would eventually return!

Levi's enemy, the Bird of Death's Voice, had no news.

Levi had hoped that the Bird of Death's Voice would continue to send assassins after him. It would be best if the Pale Shadow came personally.

This way, he could get to know this d*mned organization better.

After a month of cultivation, Levi's Seal of Dragon Might gained 50 Proficiency points.

The power was a little stronger than before.

As for the remaining 50 sets of casting materials, Levi could no longer use them for cultivation.

This was for actual combat.

The cultivation of the seal itself was not very difficult.

However, the speed of the cultivation depended on the amount of casting materials, so Levi could not fully display his subjective initiative.

Therefore, Levi still preferred cultivation.

This month, he reached level 5 of the Flying Fish Breathing Technique.

After fusing with the Siren Breathing Technique, it achieved some breakthroughs in its limits.

It had reached three-fifths of the breakthrough.

The level 6 Mountain Troll Breathing Technique, which had also been pushed to the limit, had also successfully allowed the Giant Rhinoceros Breathing Technique to break through.

[Giant Rhinoceros Breathing Technique: Level 7 (1/50000), Special Effect:

Top-tier Strength.]

"It won't be long before the Giant Rhinoceros Breathing Technique reaches the peak of level 8. At that time, it will be another extraordinary power." "I'm looking forward to it.

Levi recalled the Fist of the Empire. It was obvious that the opponent had extraordinary powers.

It was simply too exaggerated for a mortal to be on par with an Earthly Dragon Beast.

Although his current strength was great, it was still far inferior to the Earthly Dragon Beast or the Ice Rhinoceroses.

His strength was more similar to the three brothers.

"Even though both are strength-based breathing techniques, there is still a gap. Although Demon Shark and Demon Mountain are grand knights, their combined strength is still inferior to the Fist of Empire."

"Perhaps there is a difference in extraordinary power. My realm is too low, so I can't show it yet."

"It's about time to go and meet Naiad."

"If I can't beat it, I'll run. It's not that embarrassing."

"Naiad should be stronger than that evil spirit."

This was Levi's instinct.

Hence, Levi began to prepare the items to deal with the evil spirit.

"The mithril sword is effective against the Undead, but it seems ineffective against evil spirits," Levi remembered how he had dealt with Chained Prisoner that night.

He had tried it before. If the mithril sword were not wrapped in black gas, the physical attack of the mithril sword would be ineffective against the evil spirit.

Therefore, he used the Golden Cross Slash to kill the evil spirit not because of the mithril but because of the black gas.

"Mithril won't work, but I don't know if silver will work. After all, in some literary works in my previous life, a female warlock killed people with an iron sword and killed demons with a silver sword.'

Silver had always been a metal used by some cultures to deal with dark creatures such as evil spirits or vampires.

"We'll know once we try."

Levi immediately forged a silver sword.

"Eh, why don't we try using gold? What if silver doesn't work?"

Levi began to brainstorm.

The fact that mithril could deal with the Undead gave him a lot to think about.

"I might as well make a golden sword.."
