Chapter 131: Giant Rhinoceros Breaks Limit! (3)

"Good!"

Levi had cast the hand seal!

A palm strike was thrown out, accompanied by Levi's low murmur!

"Dragon's Might!"

Boom!

Golden flames erupted in the void behind Levi, and a pair of golden eyes appeared !

A huge wave of mental energy shook the ice.

Dust flew up from the ground and rolled backward!

Countless water plants were instantly shattered, and Naiad, rushing over, was sent flying.

Evil spirits were imaginary creatures, but spiritual power was illusory.

The Seal of Dragon Might was specifically targeted at evil spirits!

Levi activated the Seal of the Dragon, and the effect was overwhelming.

Naiad's body became lighter after that attack.

Levi, who had fought against Chained Prisoner, knew this weakened its strength.

He did not waste any time and unleashed a barrage of attacks.

Please take advantage of its weakness and take its life!

The second attack of the seal had already formed. Boom!

The third attack!

The fourth attack!

Five solid Seals of Dragon Might caught Naiad off guard. The seals shattered the water plants on her body as soon as they appeared. At this moment, her body was already broken into pieces.

Levi continued to attack.

The attack range of the Seal of Dragon Might was very wide. It was a spreading spiritual fluctuation, so it would surely strike the target.

Naiad seemed to know that she was no match for Levi.

She started to flee. She floated and wanted to return to the Black Water River.

How could Levi allow her to escape? Who knew when he could find this fellow again if she escaped?

Levi's speed burst forth, and the Siren Seed fully activated!

Top-tier Speed!

Levi was like an arrow that had left the bow. Before Naiad jumped into the water, his large hand, covered in black gas, had already grabbed her neck.

"Get over here! " Levi shouted.

He grabbed Naiad's neck, and the surging black gas attacked her.

Naiad's terrifying attacks continued to assault Levi.

She wailed, disturbing Levi's mind.

She even used his ghost claws to tear apart the black gas defense that Levi was so proud of, wanting to drill into Li Wei's body and possess him!

"Dream on!"

Levi again used the black gas he had released to clamp Naiad's claws but still felt a sharp pain in his chest.

It was obvious that all the physical defense armor, leather armor, and even the Frost Giant Armor he wore had no defensive effect.

So far, only black gas could defend against evil spirits!

The Black Snake Seed was pushed to the limit by Levi, and the Giant Rhinoceros Seed, Siren Seed, Blood Whale Seed, and Man-Faced Spider Seed all exploded!

These five types of black gas gathered together and attacked Naiad.

This made Fairy wish she was dead!

She was grabbed by Levi's large hand, which was covered in black gas.

The terrifying attacks of the ghost claw continuously brought waves of pain to

Levi's chest.

Cold, pitch-black ghostly claw marks appeared on Levi's chest.

Even though the Black Snake's Transcendent Defense was powerful, Naiad could not compare to weak, evil spirits like the Chained Prisoner.

Thus, Levi's defense was still broken.

Despite the immense pain, Levi would not let all his efforts go to waste.

Massive amounts of black gas continuously attacked Naiad, and Seal of Dragon Might might have shot out one after another.

After ten Dragon's Might, Naiad's body was already extremely transparent, like a piece of paper that could be broken with a single touch.

She was grabbed by Levi's large hand and no longer had the strength to resist.

A terrifying evil spirit was subdued by Levi just like that.

"Now let me see what you are!"

Levi grabbed Naiad tightly with one hand.

With his other hand, he pulled out a silver sword.

Levi started stabbing Naiad.

Naiad seemed to be fine. "Silver won't work? Let's try my peach wood sword!"

Levi started stabbing again!

"D*mn it. The golden sword!"

Levi took out his golden knight's sword, shining with a Legendary golden light! This stab put Naiad in excruciating pain. Her body trembled, and her figure became even fainter.

"Hehe, so gold can restrain evil spirits! Hahahaha!" Levi laughed sinisterly.

Then, he wrapped black gas around the golden knight's sword.

In just a few strikes, the evil spirit Naiad, already on the verge of death and could not move, was under the double of gold and black gas.

Ultimately, she completely dissipated, leaving behind a pile of pale white powder that slid down Levi's fingertips, leaving a huge pile on the ground.

Levi quickly packed up the powder. Otherwise, the wind would blow it away, which would be a huge loss.

After collecting all of them, Levi compared his gains with those from the Chained Prisoner.

"It's more than five times the amount."

If the amount of this powder represented the strength of the evil spirit, it meant that Naiad was several times stronger than the Chained Prisoner.

The difference was too great.

No wonder Chained Prisoner could not break through his Black Snake defense.

However, Naiad, whose Seal of Dragon Might had weakened, could break through his black gas defense.

Thinking of this, Levi felt a sharp pain in his chest.

He immediately brought the two useless companions back to the shelter.

He lifted his armor and checked his chest. A few black claw marks were deeply imprinted on his flesh like ghost claws.

Levi could not help but frown. The attacks of the ghost claws did not cause him any bleeding or other external injuries, but they were extremely painful.

"I don't know if it can be cured. Evil spirit spirits are troublesome.

Unfortunately, there's too little information about evil spirits in the Spirit Exorcism Manual. The Winchester family must know about it very well."

"But for now, these injuries do not affect me. I'll take a look after a while."

Levi did not know what to do, so he ignored his injuries.

Levi had gained a lot from the battle with Naiad.

On the one hand, Naiad, who had traumatized Levi's childhood, was finally eliminated. The Black Water Valley was finally free of this hidden danger. On the other hand, he had also obtained a large amount of Evil Spirit Dust,

Which could probably allow up his Seal of Dragon Might by 600 Proficiency points. It was still not bad.

The most important gain was that Levi had finally discovered the evil spirit's weakness.

"Gold.."
