

## Wizard 1311

### Chapter 1311: Origin Will

“From the moment I sprouted, I had only one thought in my ignorance: I want to see how high the sky is, how thick the earth is. I have seen enough of the Io Continent. I want to see... the world in Sauron’s eyes.” The ancient banyan tree let out a vast sound that was firm and powerful. Billions of leaves were cheering.

“Let’s begin,” the dragon said.

In the next moment, the leaves on the trunk of the ancient banyan tree began to dance and surge towards the dragon in the sky, turning into the scales of the dragon.

The dragon looked at Levi and said, “Thank you.”

Levi nodded and sat cross-legged beside the dragon and the giant tree, waiting quietly.

Just now, he had established a connection with the Holy Grail. The Holy Grail recognized him as its master, and a stream of information surged into his mind.

...

The Holy Grail told him that Mana wasn’t born a mutant. She was just an ordinary ancient banyan tree, a banyan tree that had lived for 50,000 years.

The Holy Grail was originally in the Ancient Saint plane, but it was in a slumber. It was unknown what existence in the Ancient Saint plane had brought it to the ancient tower. Somewhere along the lines, he arrived at the fifth level.

Here, it was lost in the wilderness, then wrapped in the aerial roots of a newborn banyan tree and hidden.

Due to the characteristics of the Immortal Banyan Dragon, the Holy Grail could automatically gather the elemental power of heaven and earth and some beneficial factors, giving birth to the so-called 'Spring Water of Immortality'.

Under the nourishment of the Spring Water of Immortality, the ancient banyan tree underwent some kind of mutation. It became thicker and taller and had already exceeded the scope of ordinary trees.

Not only that, but its spirituality became more and more intense until one day, it gave birth to an extremely rare plant-like humanoid consciousness.

It called itself Mana, which meant 'sunshine' in the language of the natives in this area.

Forty thousand years ago, there were two level 6 in the sky who fought over a leaf.

In the end, they died together, and the leaf fell on the ancient banyan tree.

Holy Grail had seen this leaf before as the Immortal Banyan Dragon.

It was the legendary 'World-Changing Leaf'.

In the myths of countless civilizations, there were divine trees similar to the World Tree, such as the mother tree of the Pandora civilization.

This was the case for the World-Changing Leaf, which came from the source of the divine trees in the myths of all civilizations.

The Tree of Origin.

It was also called the 'Origin Will' by the divine trees!

Even the Immortal Banyan Dragon had only heard of such a divine tree in its bloodline memories.

Every Immortal Banyan Dragon desired to live on the Tree of Origin.

After accidentally absorbing the World-Changing Leaf, Mana was no longer an ordinary plant with a humanoid consciousness.

It had the potential to become a divine tree. After a long period of time, space began to grow in its body.

This space grew larger and larger until it formed the 'Ancient Banyan Fairyland' that mortals spoke of.

Rose, on the other hand, had always thought that Mana's uniqueness came from the Holy Grail, which was why she always came to find trouble with Mana. A few years ago, she came again, but the kind Mana let her go.

However, the Holy Grail knew that this woman must still be paying attention to the situation here secretly. Rose was too persistent.

After understanding all this, Levi couldn't help but sigh, "I'm just here to take away Holy Grail of Immortality. Why do I feel like I'm getting an even more awesome existence? The Origin Will sounds very powerful.

"However, Mana's body actually had its own space, which was comparable to a medium secret realm... If I were to transfer it to the Holy Grail, it would be equivalent to me mastering a low-level legendary Wizard Demiplane in advance. My mobile botanical garden project has finally seen the light of day."

After thinking for a while, Levi sent a message to Holy Infant, asking him to hurry over and hide.

As for himself, he burrowed into the ground and created a shelter. After setting up an array, he protected the area and did not forget to cultivate his breathing techniques.

...

South of Io.

Storm City.

Hurricane Sky Island Residence.

The Sky Dragon Wizard looked at the projection that was transmitted back.

“This is Queen Banyan... What was wrong with it? Could it be that some strange object or treasure is about to appear?”

Thinking of this, he led his men and set off.

Regardless of whether it was true or not, he had to go and take a look. Otherwise, he might miss out on a huge opportunity.

At the same time, the dazzling figures on the ancient tower rankings of the Gale Steeple and the Storm Divine Tower also cast their gazes at the Youth Grassland.

Such a shocking phenomenon was very likely the appearance of a strange object.

In the southern wilderness, in a dark valley.

Black Moon, who was recuperating, looked at the message from his subordinate.

Some time ago, he went to the Youth Grassland to investigate the Holy Fountain of Youth. In the end, he was scared away by the big banyan tree, and then he was attacked by the Harpy Witch.

The worst thing was that he was almost killed by a passerby fifth-circle wizard that day. Thinking of this, he still had lingering fears.

“That Holy Grail must be some kind of treasure. Previously, it was guarded by that woman, and I couldn’t do anything about it. Now that the opportunity has come, I, Yanan, will definitely take this opportunity!”

Not only the wizards but also some of the foreign races wandering on the grasslands began to fly towards the strange phenomenon.

In the wilderness, a tall, slender, and wheat-skinned woman with elven ears looked at the dragon phantom in the distance.

It was Rose, who had disappeared for a long time. Her aura was as deep as the ocean. Those so-called geniuses were not worth mentioning in front of her.

“I knew it. This Holy Grail is an unimaginable treasure! With it, I can return to level 6, or even pursue a higher level!”

She laughed loudly and turned into a stream of light that shot into the sky.

...

Central Io.

Chaos City.

Supreme God Tower.

On the wall, the stone statue of the Supreme Archmage opened its eyes.

“Men!”

Not long after, an Archmage with a solemn expression and a deep aura arrived. Countless thunderbolts around him vanished, making him look extraordinary, like a god of thunder descending to the world.

“Lord Archmage, what are your orders?”

“Where’s Lightning Supreme Mage?” asked the Archmage.

“Teacher is currently leading a team to the Holy Fire Plateau to besiege the evil mages’ stronghold.”

The Archmage was silent for a moment and said, “Myriad Thunder, you will lead a group of Archmages to the Youth Grassland. There will be a grand performance coming soon... Wait for the right time and kill all the evil mages and demons in one fell swoop to retrieve the Holy Grail treasure.”

Myriad Thunder received the order and immediately mobilized a group of elite Archmages in the capital, flying towards the south of Io.

Youth Grassland.

The ancient banyan tree reached the sky, and the white dragon soared!

Wind and clouds were surging, and rain was coming!

Chapter 1312: Everyone Going to Youth Grassland

Dark Ancient Tower.

Fifth level.

Youth Grassland.

In the underground shelter.

Levi came out of his cultivation state, and his Danger Perception was constantly on alert.

He knew that the phenomenon here had already attracted the powerhouses wandering nearby.

...

However, from the looks of it, his Danger Perception wasn't too strong. There shouldn't be any level 6 existences.

High in the sky.

Levi could see that the dragon in the sky had already absorbed a large portion of Mana's leaves.

As the owner of the Holy Grail, he could feel that a small world was slowly expanding in the Holy Grail.

When this world completely solidified, it would be the day when the Ancient Banyan Fairyland in Mana's body would disappear.

At that time, the Ancient Banyan Fairyland would become the space of the Holy Grail.

Mana would also be in this space and be... reborn!

However, it was unknown whether Mana could maintain his strength at level 6.

Wizards with freedom desired sixth-circle, but the level 6 tree desired freedom.

Levi's figure changed. Black scales covered his body, and the arrogant Dragon Abomination stood on the ground.

The first to arrive was a fourth-circle nomadic wizard.

The nomadic wizard looked at the shocking scene in front of him from afar and saw the burly Dragon Abomination standing in front of the big tree.

Dragon Abomination said indifferently, "Get lost!"

The nomadic wizard looked at Dragon Abomination who was rubbing his fists, his expression uncertain.

“If that Dragon Abomination wants me to get lost, then I’ll get lost... I didn’t expect that there was already a level 5 Dragon Abomination who had gotten there first. It seems that there are indeed treasures here. Unfortunately, I’m not fated to find them. My life is more important.”

The nomadic wizard sighed in his heart and quickly turned around to leave, disappearing into the horizon.

The nomadic wizard was very tactful and avoided a bloody disaster.

“How much longer will it take?” asked Levi.

“At least another month. Can you hold on?” Mana asked.

“Let me try. These people aren’t all without weaknesses. I have a plan that requires the two of you to cooperate with me,” said Levi.

Mana replied, “Tell me about it.”

...

Time passed.

More and more people came here, but there were no level 5 existences for the time being.

After these people saw Dragon Abomination's figure, their expressions froze.

Dragon Abomination did not conceal his powerful level 5 aura at all.

Seeing that Dragon Abomination did not seem to have the intention of taking the initiative to attack, they did not leave either. Instead, they found a remote place and gathered in groups of three to five, waiting quietly.

It seemed like the treasure had yet to fully appear. It would be unwise to attack now.

Seeing this, Levi did not make a move. Instead, he sat alone at the side, and no one dared to approach him.

Ever since the ancient tower was opened, no one had ever taken away the Holy Grail.

These people definitely wouldn't have thought that the Holy Grail had already recognized him as its master.

As long as the transformation was completed, he could immediately escape with the Holy Grail.

The current plan was to stall for as long as possible.

No matter how strong he was, it was impossible for him to be enemies with so many people.

Several days later, a familiar figure descended. It was the Harpy Witch. When she saw Dragon Abomination, she immediately said, "Leave. The treasures here are not something you can touch."

"Why can't I?" Levi asked with a frown.

Harpy Witch replied, "Only wizards can make full use of the treasures of heaven and earth. You barbaric races are wasting the treasures of heaven and earth."

Levi smiled and said, "It's my own business to waste it. The treasure hasn't appeared yet, so I'm too lazy to waste my energy. I advise you to be sensible and leave obediently. Otherwise, I'll tear you apart."

Harpy Witch's expression turned cold. She was about to attack when she heard a crisp female voice coming from the ancient banyan tree.

"I am Queen Banyan, the guardian of Youth Grassland, and also the master of this Holy Grail. I want to use the Holy Grail as a furnace and the Holy Fountain of Youth as a raw material to collect elemental power and refine the [Holy Immortality Water]. Now that the refinement is at a critical moment, if you

want to fight, you have to at least wait for me to finish refining the holy water... If you spoil my plans, even if I can't leave this grassland, I'll think of a way to capture you and punish you. If you are willing to protect me, I can give you some Holy Immortality Water when the refinement is completed."

After she finished speaking, Queen Banyan emitted a level 6 prestige that shocked everyone present.

In fact, she was just bluffing, but no one dared to probe the strength of a level 6 existence.

Fresh and sweet spring water gurgled out of the Holy Grail.

A whiff of it would make one feel relaxed and happy.

Harpy Witch gulped and whispered, "Didn't you say that the Spring Water of Immortality is only useful for mortals?"

Queen Banyan laughed and said, "I'm refining the Holy Immortality Water, not the Spring Water of Immortality. I have cultivated for tens of thousands of years and collected countless treasures just for today."

After Harpy Witch heard that, she thought, "Queen Banyan is a well-known and kind existence in the Youth Grassland. She never kills or lies. Moreover, she was still a level 6 existence. There was no need for her to use such a low-level trick... This matter is most likely true. That Dragon Abomination probably obtained Queen Banyan's promise, which is why he didn't massacre wantonly and waited quietly."

Thinking up to here, she remained silent and led the team to the side far away from Dragon Abomination and set up camp.

Seeing this, Levi closed his eyes and rested.

Not long after the Harpy Witch arrived, a handsome wizard with a long horn on his forehead and a white robe led a team to the place.

Upon seeing this person, Levi muttered to himself, "The Sky Dragon Wizard is here... That's right, the eastern part of Io is the Storm Faction's territory. They are the ones who can easily discover the movements here."

Chapter 1313: More Powerhouses Join

Sky Dragon Wizard looked at the Holy Grail in the air.

"It seems like these strange phenomena are caused by this Holy Grail."

He was just about to grab the Holy Grail from the sky.

Suddenly, a thick wall of wind formed and blocked him.

Sky Dragon Wizard looked at the Harpy witch and asked coldly, "What's the meaning of this?"

Harpy Witch said to Sky Dragon Wizard, "It's not time to take the treasure yet. Can't you see that Dragon Abomination hasn't made a move as well?"

...

She repeated Queen Banyan's words to Sky Dragon Wizard.

Sky Dragon Wizard thought for a moment and also led a team to camp beside the Harpy Witch. It seemed that they had secretly reached some kind of cooperation.

Accompanied by the sound of wind chimes, a blue-clothed witch with an otherworldly temperament, dressed in a light veil, floated down.

"Sky Dragon Wizard, Harpy witch, both of you are here. Now that the three families of Storm City are here, the next operation will be easy."

The witch smiled sweetly and flirtatiously, causing all the nomadic wizards present to take a second look.

She was the Wind Witch, a top-notch genius of the Gale Steeple, ranked 45th on the ancient tower rankings.

After seeing Dragon Abomination over there, she smiled and said, "As Dragon Abomination, you actually dare to stay here. Your race is really as arrogant as ever."

Dragon Abomination smiled with a crooked mouth and asked, "You're dissatisfied with that?"

The Wind Witch's expression turned cold. Killing intent rose in her heart, but she did not act rashly.

That was because Sky Dragon Wizard had already told her about the situation here.

Murderous intent was hidden in her heart.

“When this matter is over, it will be your death.”

After a period of trapping and killing Dragon Abominations, seeing a Dragon Abomination was already very rare. The Wind Witch herself had killed two level 5 Dragon Abominations, which was why she was so confident.

Levi closed his eyes. Out of sight, out of mind.

Next, accompanied by the wild laughter in the sky, a strong expert from the Amethyst Race appeared.

He exuded a powerful aura, much stronger than the one the Holy Infant had killed some time ago.

Gal, an expert from the Amethyst Race!

“Oh my, so many wizards have come.”

As a powerhouse comparable to a perfected fifth-circle wizard, Gal came alone, but he did not panic at all.

The geniuses from the top organizations looked at each other and were all on guard, but they did not take any further action.

If he attacked now, it would be a waste of energy and he might even benefit others.

Gal looked at the Holy Grail in the sky and smiled.

“Although I don’t know what this is, I think it’s not wrong to take it away.”

His body burst out and turned into a purple light. His purple hand grabbed at the Holy Grail.

“Stop!”

Before Levi could make a move, Sky Dragon Wizard, Harpy Witch, and the Wind Witch had already blocked Gal’s path.

Boom!

The three innate spells of the Storm School of Thought were cast at the same time, forcing Gal to retreat.

Gal's face turned icy, and his aura began to soar. He smiled sinisterly and said, "You dare to stop me?"

Right at this moment, Queen Banyan's gentle voice rang out, "Thank you for your help. After I finish refining the Holy Immortality Water, you will all receive a portion."

Gal felt the astonishing aura of a level 6. He thought for a moment and stopped for the time being.

"I'll let you be smug for a while," Gal sneered in his heart and found a remote place to wait alone.

Some time ago, the Amethyst Race had found a place rich in minerals in the Hundred Thousand Mountains. Now, they were devouring rare minerals to increase their strength.

It wouldn't be long before more level 5 Amethyst Race members were born.

At that time, it would be easy to flatten these wizard organizations!

In the following days, the strange phenomenon in the sky continued, and the fragrance from the Holy Grail drifted into the distance.

More and more people arrived, including an expert of the Tomb Clan who was wearing bronze armor and holding a halberd.

He was like a terracotta soldier dug out from an ancient tomb. He stood there silently. Seeing that everyone was waiting with tacit understanding, he did not make a move.

Everyone stared at the Holy Grail.

The number of leaves on the ancient banyan tree decreased.

Correspondingly, Levi could sense that the space within the Holy Grail was getting bigger and bigger.

The next day, a handsome male wizard wearing a red robe rushed over. It was Holy Infant.

As soon as Holy Infant appeared, he could feel a cold gaze staring at him.

He looked over and saw a black-robed wizard with a crescent mark on his forehead sitting on a huge rock in the corner. He was surrounded by a group of wizards from the Black Sun Steeple.

“I didn’t expect that you would still dare to appear in front of me,” said Black Moon.

“This isn’t your home. I can come whenever I want,” Holy Infant smiled and retorted.

“Last time, you ambushed me first. This time, I will let you know the price of offending the Black Sun Steeple!” Black Moon threatened.

Seeing that Black Moon did not make a move, Holy Infant found a place and sat down.

Levi thought to himself, “Holy Infant is here. The next move will be more secure.”

Not long after Holy Infant arrived, a sudden change occurred.

Suddenly, a pitch-black vine in the distance grew longer and longer. It passed through countless experts and extended toward the Holy Grail in the void!

“Mana, looks like you’ve encountered some trouble... Hahahaha, this Holy Grail is mine!”

Rose's sharp voice rang out. Vines surged and danced wildly all over her body like a demon god!

Just as the vine was about to touch the Holy Grail, a pitch-black dragon claw reached out from the void and collided with the vine!

Boom!

The black flames burned along the vines, and the dragon claw was also repelled by the huge force.

Levi made his move.

Rose's attack failed, and she looked at Levi coldly.

"You dare to stop me?"

"Who do you think you are? How dare you snatch my Holy Immortality Water!"

Chapter 1314: Escape!

Dragon Abomination said that disdainfully, his aura filled with arrogance.

“What Holy Immortality Water?” Rose asked with a frown.

She looked at the wizards and foreign races sitting around her and understood. She suddenly shouted, “Mana, you bitch! You really do have a treasure! Hand over the Holy Immortality Water and the Holy Grail. Don’t force me to make a move. You shouldn’t have time to spare right now. Don’t think that you can stop me with just a bunch of motley crew!”

In an instant, the atmosphere became tense.

Everyone could feel that the new elf woman had the strongest aura among everyone present.

Even the Amethyst Race member at the peak of level 5 was probably inferior to Rose.

...

“Everyone, this person is my mortal enemy. She wants to disrupt my refinement. Kill her quickly!” said Queen Banyan.

Rose sneered, “Who dares to kill me? Who can kill me!”

Just as the crowd fell silent, Holy Infant blended into the crowd, pointed at Rose, and said righteously, “Everyone, this elf is infinitely close to level 6. If we don’t kill her first, we will be defeated one by one by her. The elven civilization is just a defeated opponent of our wizard civilization. Let’s join forces and defeat the powerful enemy first! Long live the wizards! Long live Sauron!”

In an instant, Holy Infant’s words seemed to have lit a fuse.

Hundreds of fourth-circle wizards and more than ten fifth-circle wizards were all moved.

That's right, Rose was just a peak level 5 elven Mistress. There were so many fifth-circle wizards here, what was there to be afraid of?!

"That makes sense. Rose, right? The last time I was at the fourth-circle realm, I was ambushed by you. Now that I am at the fifth-circle realm, let's exchange some blows, Mistress of bygone days!"

A handsome silver-haired male wizard in a white robe stood out. It was the Sky Dragon Wizard.

"Hehehe, let me try too. How does the legendary Mistress feel?" A fifth-circle veteran wizard with a perverted expression stood out.

Even Black Moon had surrounded Rose. Black flames coiled around his fingertips, ready to strike.

All of a sudden, all the wizards turned their attention to Rose.

Rose laughed in anger and said, "I was originally feeling too lazy to fight with you guys. Since that's the case, I'll turn all of you into my fertilizer!"

Tens of thousands of vines split out from her body, and the sound of air being torn apart was loud. The long whip formed by the vines killed in all directions!

“Everyone, attack!”

The Sky Dragon Wizard waved his robe, and a series of wind blades flew toward Rose.

There were hundreds of wizards present, and the weakest of them was a fourth-circle senior wizard. At this moment, they all attacked together, creating a huge commotion. Rose’s strength alone quickly fell into a disadvantage.

Especially the Sky Dragon Wizard and his pet, the Thunderstorm Wolf Dragon. One man and one beast, they worked well together. The Wind Thunder Power burst forth, shattering countless vines, causing Rose to complain endlessly!

This made Levi feel lucky that he did not choose to fight against the enemy alone.

Rose’s face was ashen. She used the vines to choose a weak point to attack.

Some of the weaker fourth-circle wizards had their force fields shattered on the spot, turning into dried corpses. Mistress Rose’s rapidly depleting stamina had finally recovered a little.

“Quick, she can absorb the blood to become stronger. Everyone, don’t hold back. She’s dying!” A wizard shouted.

Everyone's attacks became fiercer and fiercer.

Rose glared at Queen Banyan with resentment. With a sharp cry, she broke through the blockade and left quickly.

With her ability, no one could stop her if she wanted to escape.

"Thank you for your help, everyone. I am extremely grateful. The Holy Immortality Water will be ready soon. Please wait patiently," said Queen Banyan.

After Rose left, the situation returned to a delicate balance.

Some of them wanted to cause trouble, but they were also killed by the level 5 experts on the scene in minutes.

As for experts of other races like Gal and Levi, if they didn't take the initiative to cause trouble, no one would take the initiative to start a dispute.

Just like that, more than ten days passed quickly.

On this day, the phenomenon of the giant dragon and the giant tree in the sky began to change.

At this moment, the ancient banyan tree had already become bare. All the leaves had become the dragon scales of the giant dragon phantom.

At the same time, Levi discovered that a small world had been completely formed inside the Holy Grail.

Blue sky, white clouds, forests, mountains, oceans... The space in Alice's ring was nothing compared to this small world.

This was the Ancient Banyan Fairyland.

It could be said that this was the embryonic form of a plane with its own system, and not any secret realm or living space attached to the main material plane!

This was exactly what Levi dreamed of!

"Levi, are you ready?" the voice of the Holy Grail rang in Levi's mind.

"I'm ready."

Levi took a deep breath and looked at the expectant gazes around him.

He thought to himself, "Thank you for guarding the Holy Grail for me. If there's a chance in the future, I'll definitely repay you!"

"Run!" said the Holy Grail.

Boom!

In an instant.

The giant dragon's shadow suddenly collapsed and turned into white light spots that filled the sky.

At the same time, the ground within a radius of hundreds of miles cracked open, and smoke and dust covered the sky and earth!

The wizard were like birds, startled by the fissures of the earth and flew into the sky. Many cautious people turned around and ran.

Queen Banyan's massive body and tens of thousands of roots all appeared and floated up!

A huge crack appeared in the void. In an instant, Queen Banyan was sucked into it and disappeared!

The rain fell from the sky, and the fragrance was refreshing.

A wizard licked it and said, "This is the Holy Fountain of Youth, not the Holy Immortality Water. D\*mn it, we've been deceived!"

Along with the rain, there were also streams of light.

Chapter 1315: Fighting Black Moon

There were Wizard Tools, medicinal herbs, and potions among them. It was a dazzling sight.

Mana's weak voice echoed in the sky, "Everyone, this is your reward for protecting me. I'm sorry. I lied."

This was the first time Mana had lied in 50,000 years. For the sake of freedom, she could only do this!

In the sky.

The Holy Grail turned into a ray of light and entered Levi's body.

Levi's Hermit Rune flickered as he prepared to escape.

...

A spell exploded in the sky, forcing him out.

“Leave behind the treasures!” Sky Dragon Wizard said coldly.

Levi took a deep breath and clenched his fists. His bones and muscles rang out, and black flames wrapped around his body like a demon god!

“From now on, anyone who blocks me will die!”

As soon as he finished speaking...

Under the sky, on the top of the clouds, six dragons with different expressions and exuding powerful majesty looked down at the living beings below. They were like Gods, their golden eyes cold and heartless.

This was an illusion created by Levi’s powerful Dragon’s Might. Not only could it be used to subdue dragons, but it could also intimidate enemies!

In an instant, the group of fourth-circle wizards was suffocated by the Dragon’s Might. Their faces were filled with horror.

“What a terrifying Dragon’s Might. Just what kind of existence is this Dragon Abomination?”

“I’ve seen an immature pure-blooded dragon before. Its Dragon’s Might was far inferior to this Dragon Abomination!”

Wizards were like this, let alone ordinary dragons from Dragon Clans.

The Thunderstorm Wolf Dragon tucked its tail between its legs and lay at the feet of Sky Dragon Wizard, trembling.

If not for its master’s presence, it might have directly defected to the enemy at light speed.

Taking advantage of this opportunity, Levi unleashed his Six Great Dharma Idols to protect his entire body.

Then, he withstood a bunch of spell attacks and escaped into the Scarlet Dark Dimension!

Things have reached a point of no return, and the only choice left was to run away!

From the disappearance of Queen Banyan to the fall of Wizard Tools and herbs from the sky, to the appearance of the six dragons in the sky, and finally, Dragon Abomination escaping.

All of this was done in one go.

As a result, many people who were still looking forward to the [Holy Immortality Water] were dumbfounded.

“Uh... Did Queen Banyan refine the holy water and go back on her word?”

“D\*mn it, we’ve been fooled. We’ve been deceived by Queen Banyan and that Dragon Abomination!”

“This fourth-circle Wizard Tool is fated with me. Who dares to snatch it from me?”

“This level 5 Red Lantern Grass is mine!”

For a moment, the scene was in chaos.

There were those who snatched the Wizard Tool and herbs, and there were also those who coveted the Holy Grail treasures on Dragon Abomination’s body and were prepared to make a move.

They waited for a month and ended up letting that Dragon Abomination gain everything. Harpy Witch’s face turned red. An indescribable sense of shame emerged. She said hatefully, “D\*mn Dragon Abomination! How dare you threaten us!”

This fellow had been acting with Queen Banyan from the very beginning!

Before Harpy Witch arrived, he had already made some kind of unspeakable deal with Queen Banyan, a level 6 existence.

She really couldn't understand why Queen Banyan, a dignified level 6 existence and the Goddess of Youth in the mouths of countless mortals, would run away with an incomparably ugly Dragon Abomination. What was he planning?

Sky Dragon Wizard turned into a storm and chased after Dragon Abomination.

After the people present came to their senses, more than a dozen streams of light flew toward the direction where Dragon Abomination disappeared. This included the Amethyst Race and Tomb Clan's level 5 experts. Holy Infant was also mixed in with the chasing crowd, waiting for an opportunity to make a move.

Black Moon's cold eyes looked into the distance. His pupils emitted some kind of golden light.

One could vaguely see Dragon Abomination flying in a strange dimension a hundred miles away.

"You can't run!"

A black disc appeared under his feet.

As soon as the round plate appeared, it brought him away at a speed that far exceeded that of ordinary people!

On the other side.

In the Scarlet Dark Dimension, Levi looked behind him, slightly surprised.

Behind Levi, there were five streams of light. Each displaying their abilities, they actually caught up to Levi.

One of them was Black Moon.

There was also the Wind Witch, Sky Dragon Wizard, and the Tomb Clan expert with the halberd.

After flying for a while, Levi realized that these people were still following him closely.

“You guys forced me to do this.’

Among these people, there was someone who had the means to see through Levi in the Scarlet Dark Dimension and lock onto Levi's position. If Levi didn't get rid of these people, he wouldn't be able to return to Dragon Palace Island.

With that thought, the power of the Golden Snake surged and covered his entire body.

"Kill Black Moon first. He seems to have cultivated some kind of eye-bloodline technique."

In the blink of an eye, Levi had already put on the [Brilliant Golden Dragon Armor].

However, in order to hide it, the dragon armor was now like black demonic armor!

"Don't run anymore, Dragon Abomination, I know you're there!" Black Moon sneered.

The disc beneath him was moving at an extremely fast speed and was far ahead. Even Sky Dragon Wizard and the others were left behind.

In the next moment, Black Moon's expression changed.

Dragon Abomination stepped out of the void and stood in mid-air. He held a longsword in his hand and wore black flesh armor!

A majestic golden divine palace descended from the sky and pressed down on Black Moon!

“Black Sun Transformation!”

Black Moon lifted the sky with one hand, and his robe fluttered in the wind.

A black sun soared through the sky and flew toward the divine palace!

Before the two of them could collide, an earth-shattering sword light cut the sun in half.

Endless black flames splattered out and exploded in all directions. Poisonous smoke filled the air!

The golden divine palace finally descended and suppressed Black Moon!

At this moment, it was as if a big mountain was pressing down on Black Moon, and he was instantly unable to move.

A strong sense of danger surged into his heart, and his eyes were filled with horror and fear.

In his line of sight.

An unstoppable golden light that could destroy everything shot over!

Whoosh!

This time, Black Moon was not as lucky as last time.

Chapter 1316: Dragon Battle In The Wild

The golden light tore apart Black Moon's protective force field, defensive spell, and Wizard Tool... Black Moon's head was blown off.

Then, the golden light pierced through the clouds and pierced a hole in the sky before disappearing without a trace.

Black Moon's aura instantly dissipated. The headless corpse fell and was casually put away by Dragon Abomination.

In just a few breaths, a top-notch genius was instantly killed.

At this moment, the expressions of the Wind Witch, Sky Dragon Wizard, and the Tomb Clan expert changed drastically!

Under the golden light, they also felt the threat of death.

...

“I told you, those who stop me will die!”

Dragon Abomination grinned hideously, his temperament crazy.

The Tomb Clan expert hesitated for a moment before leaving. The black-robed human wizard was not weaker than him, but the wizard was killed in one hit. If he stayed here, he would be doomed.

“Hand over the Holy Grail!”

Sky Dragon Wizard’s expression was grave. Fine pure white scales appeared on his forehead, and countless clouds and mountain winds gathered above him.

First Talent, Skysoar Mist Claw!

In the clouds, a dragon claw that was a thousand feet long formed by air currents reached out and grabbed at Levi with terrifying power.

Wind chimes appeared in the hands of the Wind Witch.

The wind chimes danced, and hundreds of tornadoes emerged from them, forming a sea of wind that surrounded Levi.

Levi was fighting two enemies at once, and the Brilliant Golden Dragon Armor took the Skysoar Mist Claw head-on.

A terrifying explosion swept out, tearing the armor apart.

Levi had to admit that the strength of a top genius like the Sky Dragon Wizard was not something that an ordinary fifth-circle senior wizard could compare to.

“Levi, are you okay?” The voice of the Holy Grail rang in his mind.

“I’m alright.”

The dragon armor shattered, turning into light and dissipating, revealing Dragon Abomination’s figure within.

“Quick, the Dragon Abomination’s secret technique time limit is up. It should be in its weakened state now,” the Wind Witch urged.

Sky Dragon Wizard whistled, and thunder flashed in the clouds.

An awe-inspiring thunder giant wolf roared. Countless thunderbolts burst forth, enveloping Dragon Abomination.

“Furious Dragon Lord!”

“Giant Dragon Warrior!”

“Nightmare Descent!”

Under the pitch-black night sky, his body began to expand, and a dragon horn appeared on his forehead.

Black flames soared into the sky. After the smoke, a three-headed dragon god that was twenty stories tall appeared. Six divine weapons and six Dharma Idols were all born!

The Dragon God stood tall in the Sea of Wind, its six arms holding a black flame sword as it slashed down!

After the heaven-splitting slash, the Sea of Wind that bound Levi was completely torn apart!

“My [Hurricane Domain] is something that even a fifth-circle senior wizard can’t break through. This Dragon Abomination is probably already at the peak of level 5!” The Wind Witch was shocked.

On the other side, the Thunderstorm Wolf Dragon’s purple lightning covered the Dragon God’s body.

The Dragon God didn’t care at all. The Feather Dragon phantom behind him continuously converted the power of thunder into its endless power.

The Dragon God was not even afraid of the combined attack of two genius wizards from the Lightning School of Thought. Although the Thunderstorm Wolf Dragon was powerful, it could only be reduced to Levi’s power bank.

Wind Witch looked at the Dragon God who was getting braver and braver, and finally realized that something was wrong.

“Tell your wolves to stop attacking!”

Sky Dragon Wizard naturally noticed something was amiss, but it was too late.

The Dragon God’s hand grabbed the Thunderstorm Wolf Dragon’s tail and punched it in the head, knocking it to the ground.

The Wolf Dragon's head almost split open. It whimpered in pain and fell to the ground. Blood flowed out of its seven orifices.

This punch would not take the sub-dragon's life. It would only make it stop for a while.

Ignoring the fallen Wolf Dragon, the 3,000 feather blades behind the Dragon God shot toward the Sky Dragon Wizard.

Sky Dragon Wizard's expression changed drastically. The most difficult battle he had ever fought was against the Fire Dragon Destroyer.

In the end, with the help of the Thunderstorm Wolf Dragon and his teammates, he won.

However, he discovered that compared to this terrifying Dragon Abomination in front of him, Simon seemed to be... average.

This was not an ordinary Dragon Abomination, but a top-notch genius among Dragon Abominations!

The Dragon Abomination's invincible body was enough to fight against the Amethyst Race.

The Dragon Abomination's innate abilities and secret techniques were also endless.

Even though Sky Dragon Wizard had many methods and trump cards, he did not have the slightest confidence that he could kill this Dragon Abomination.

After calmly analyzing the pros and cons, Sky Dragon Wizard made a decision.

He closed his eyes and put his palms together.

The seventh talent, Sky Stops From Mist!

In the next moment, other than Sky Dragon Wizard, everything else seemed to have been paused.

This was the seventh innate spell that the Sky Dragon Wizard had comprehended after advancing to the fifth-circle realm.

It was also his most powerful spell to date.

This wasn't Time Freeze, but rather, it relied on the absolute control of the airflow in this space to seal all targets except him!

However, this kind of immobilizing effect was extremely short-lived. The stronger the opponent was the weaker the effect.

He didn't dare to hesitate. He didn't even care about the Thunderstorm Wolf Dragon on the ground. Instead, he used his top-grade Wizard Tool to travel through the void and escape.

Obviously, Sky Dragon Wizard had a life-saving Wizard Tool similar to the Extreme Fire Wheel.

A moment later, the black flames that engulfed the world exploded, and the void seal was broken. The Dragon God regained its mobility.

Soon after, the Wind Witch resumed her movements. She did not have time to curse Sky Dragon Wizard for abandoning her and escaping. That was because the Dragon God's longsword was already slashing down!

"Ding, ding, ding."

Wind chimes surrounded it, forming an invisible protective force field.

The wind chime was a top-grade Wizard Tool that could be used for both offense and defense. Although the Dragon God's attack was fierce, it couldn't take down the opponent for the time being.

Wind Witch no longer had any fighting spirit at this time. She was alone, and it was impossible for her to be a match for Dragon Abomination.

Chapter 1317: Battle of the Holy Grail

She used wind chimes to defend herself and continued to flee. Dragon Abomination chased closely behind, and streams of Sword Qi swept over!

“B\*tch, weren’t you very arrogant before? Why do you only know how to run away?!” Levi sneered.

“You won’t be able to be happy for long. Most of the Dragon Abomination on the Io Continent have been eliminated by us. One day, you will die in my hands!” Wind Witch was still stubborn.

While the two of them were engaged in a chase, a red-robed figure hurried over.

“How dare you, Dragon Abomination! Hand over the treasure and I’ll spare your life!”

The red-robed male wizard said sternly. He was handsome and extraordinary. He was Holy Infant.

...

“Where did this sissy come from? How dare you sneak attack me!” Levi cursed at Holy Infant.

Seeing this, the Wind Witch sent a voice transmission to the Holy Infant, “My fellow friend from the Burning School of Thought, let’s join forces to kill this monster and divide his treasures equally. What do you think?”

The red-robed male wizard said, "That's exactly what I'm thinking. I'll use my Wizard Tool to launch a sneak attack later and control him. My Lady, please kill him quickly. My Wizard Tool can only last for three breaths."

The red-robed wizard clenched his fist in the air.

A fiery-red ring descended from the sky, binding Dragon Abomination within.

"D\*mn it, despicable wizard, sneaking an attack!" Levi cursed.

Seeing this, the Wind Witch was overjoyed. She chanted an incantation, and the wind chimes around her flew into the sky like stars as if they were going to set up some kind of array.

Three seconds was enough for her to use a powerful trump card that could instantly kill a fifth-circle senior wizard!

She believed that under this attack, even if that Dragon Abomination did not die, he would also be heavily injured!

However...

A sudden change occurred!

Accompanied by Dragon Abomination's furious roar, it only persisted for less than a breath before that ring suddenly collapsed, turning into light spots that filled the sky.

Behind the Dragon God, the 3,000 feather blades turned into a storm and tore through the world, heading toward the Wind Witch!

Her strongest defense was that set of top-grade wind Wizard Tool. Now that the wind chimes were used for attack, her defense was only left with ordinary protective force fields and Wizard Tool.

Seizing this opportunity, Levi launched an attack!

Crimson Dragon Sword Qi opened the way!

Three Dragons Flaming Kill exploded!

3,000 feather blades harvest!

The Wind Witch's force field and Wizard Tool were shattered, and her graceful body was cut into pieces.

Her frightened face froze, and the red-robed wizard's exclamation could be heard from behind her.

“This is bad. My Lady, please run quickly. This Dragon Abomination is too powerful. My estimation was wrong. I could only control it for one breath!”

The Wind Witch closed her eyes unwillingly and died!

After dealing with the two top-notch geniuses, Dragon Abomination panted heavily. He looked at the Holy Infant with a cold smile and said, “Now it’s your turn. Die, sissy!”

Holy Infant’s expression changed drastically, and he immediately used half of his spell power, sending nine fire dragons toward Levi.

Levi pretended that he did not dare to resist and left the place.

After the soaring flames, the Holy Infant had already used the Extreme Fire Wheel to escape.

“Don’t let me find you!” Levi said as he quickly cleaned up the battlefield.

He had the Dragon God carry the Thunderstorm Wolfdragon, whose head was still buzzing, and throw it into the Holy Grail of Immortality. Mana used the branches to tie him up.

All of a sudden, the Danger Perception rang in Levi’s mind!

“Leave the treasures behind!”

A streak of purple light as fast as a shooting star struck. It was Gal, an Amethyst Race member at the peak of level 5!

Levi’s expression changed slightly. With his current strength, it would not be a problem for him to deal with those top-notch geniuses.

However, facing a peak level 5 Amethyst Race member was no less dangerous than facing Rose alone.

Moreover, Levi had just experienced a great battle and had consumed a lot of energy.

If Levi was entangled with the Amethyst Race member, it would be difficult for him to escape and then even more people would arrive and surround him.

Just as Levi was about to carry out the next step of his plan...

An even stronger sense of danger than before appeared.

In the sky, eight purple divine talismans descended from the sky and enveloped the surroundings. There was no way to dodge!

“Thunder Hive Stone divine talisman and there’s even eight of this talisman... The Empire’s mages are here too!”

Rumble!

Terrifying thunder exploded, and the area within a radius of several miles became an ocean of thunder!

In the sea of thunder, the Golden Snake Divine Palace descended once again to protect the Dragon God, and the Dragon God protected Levi within it.

The Golden Dragon Heavenly Shield, 3,000 feather blades, Scarlet Cloak, and the six Dharma Idols appeared.

The Dragon God’s body was in tatters, and some of the divine weapons were severely damaged.

It roared at the sky and used its last sword to tear open the Scarlet Dark Dimension and disappear!

On the other side, Gal’s body glowed purple.

“Sacred Skill, Splitting the Sky!”

He pushed out with both hands, and a purple pillar of light tore through the sea of thunder, revealing a huge lava pit melted by lightning and a half-melted Purple Crystal body.

“Golem, die!”

In the sky, a huge airship tore through the void and descended in shock.

Myriad Thunder Archmage held a golden Thunder Staff in his right hand and a purple Thunder Drum in his left. He was like a Thunder God standing at the bow of the ship.

Gal’s face was filled with madness and murderous intent. He said, “You actually let the Dragon Abomination escape. You should be the one to die, old thing!”

Myriad Thunder ordered, “Everyone, split into two groups. One group will surround the Youth Grassland and capture all the evil mages and demons in one fell swoop! The other group will use the airship to chase after the Dragon Demon and take back the Holy Grail. I’ll deal with this golem myself!”

In the next moment, the two peak level 5 experts fought. Lightning and purple light collided in the sky!

...

Outside the ancient tower.

Realm of Divine Wind.

In the Gale Tower.

The wizard was silent.

Just now, the top genius of their organization that they had high hopes for, an existence who had dominated the ancient tower for more than 40 years and made outstanding contributions, Wind Witch... She had actually died at the hands of a Dragon Abomination.

And this Dragon Abomination was none other than the Three-Headed Dragon Abomination that stirred up the wind and clouds previously.

“Three-Headed Dragon Abomination, heinous crime!”

“And that d\*mned red-robed wizard. If it wasn't for him, Lady Wind Witch wouldn't have died.”

...

Hurricane Sky Island.

The communication device of the seven-circle wizard, Heavenly Domain Wizard King, rang.

The one who sent the message was his old rival, Weather Controller, Master of the Hurricane Steeple in the Endless Sea.

[As the top genius of the Wizard World, as the pride of your Sky Island, the Sky Dragon Wizard actually abandoned his teammates and fled in front of the Three-Headed Dragon Abomination... Is this your trump card? I'm so disappointed, old friend!]

After reading it, the corner of the Heavenly Domain Wizard King's eyes twitched. He sighed and said, "I knew this old thing would gloat... Sigh, just what is the background of this Three-Headed Dragon Abomination? Could he really be the son of the level 10 Dragon Abomination Venerable?"

Ever since the ancient tower opened 44 years ago, the top geniuses have relied on the protection of the organization and their powerful strength to have a smooth journey.

After the Battle of the Holy Grail, including Black Moon, there were already two top-notch geniuses who had fallen. Moreover, they had all died at the hands of the Three-Headed Dragon Abomination.

Heavenly Domain Wizard King knew that the top-notch geniuses who once sat on top with ease were no longer carefree.

Currently, on the Io Continent, the weak were gradually eliminated, and the situation of the strong standing side by side had already formed.

Io's native civilization, who had been watching coldly, joined in.

The great era of heroes had begun!

Chapter 1318: Embryonic Miniature Plane

Storm City.

Hurricane Sky Island Residence.

Sky Dragon Wizard finally heaved a sigh of relief when he returned home.

Ever since he entered the ancient tower, the number of times he had encountered a life-and-death crisis could be counted on one hand.

He did not expect that he would be forced to such a state by a Dragon Abomination this time.

"What's going on?" asked the commander-in-chief.

...

“Queen Banyan colluded with a Dragon Abomination and ran away with him. The Holy Grail was also taken away. I went to chase after the Dragon Abomination, but I was no match for him, so I retreated,” Sky Dragon Wizard said concisely.

The commander-in-chief was silent for a moment. He sighed, “Forget it. It’s fine as long as you’re fine. The Holy Grail doesn’t matter.”

“Thank you for comforting me. That Dragon Abomination’s strength is many times stronger than those we hunted previously... In the end, I only cared about running away, and I also left the Thunderstorm Wolf Dragon behind. Now, it should be more or less dead.”

“It’s fine. It’s just a sub-dragon. There’s still a chance next time... In the Dragon Valley of the Nine Cities Alliance, there is one dragon which is one of the strongest sub-dragons. You just focus on cultivating and becoming stronger. We’ll find an opportunity to snatch it back. That Simon barks all day long. I’ve been unhappy with him for a long time!”

On the other side, the commander of the Gale Steeple stared at the shattered soul token in his hand.

“The Wind Witch is dead... I’ve already said that these top geniuses shouldn’t have come here to take risks. Now that she’s dead, I hope her primordial soul great-grandma won’t blame me.”

...

Youth Grassland.

Earth was in a mess.

The place where Queen Banyan originally sat was now filled with ravines and valleys.

Queen Banyan lived for tens of thousands of years and was thousands of feet tall. Its roots had long spread over a radius of hundreds of miles.

Her departure affected the entire situation and completely changed the landscape here.

The Empire's airship hovered in the sky above this place.

After paying a considerable price, the mages of the empire basically won the war.

They killed six level 5 wizards and foreign races on the spot, as well as dozens of level 4 existences, and seized a large number of spoils of war.

However, Myriad Thunder Archmage was not happy at all.

In the battle with the peak level 5 golem, he had used all his methods and even the trump card his teacher had given him, but he still couldn't stop the golem. He had even sustained some injuries.

What made him even angrier was that the Dragon Demon who stole the Holy Grail had also escaped.

Even though those id\*ots were piloting the Empire's airship, they still couldn't catch up to the Dragon Demon.

Myriad Thunder had killed many Dragon Demons, but he had never encountered such a monstrous existence.

"If we don't get the Holy Grail back, the Archmage will definitely be furious. How unlucky."

Myriad Thunder was at a loss.

It was now the time when the Empire and the evil mages were at war.

He didn't have any extra manpower to search for that Dragon Demon.

"Just you wait. I believe that you will definitely appear again. Next time, you will not be able to escape!"

Myriad Thunder boarded the airship and left with his team.

...

As the saying goes, some people will be sad and some people will be happy. Happiness will not disappear, but will only be transferred to others.

Levi took a long detour on the Io Continent. After making sure that he had shaken off all the enemies, he hurried back to Dragon Palace Island.

Today, it was the year 1209 of the Holy Brilliance Calendar, the Month of Flowers.

He was all smiles, looking at the island's current situation with the joy of a good harvest.

Arrays, transcendent creatures, the botanical garden, and Aya who was cultivating alone... Everything was fine!

Seeing this, Levi heaved a sigh of relief and returned to his seclusion.

“Although this trip is a little dangerous, it's worth it to be able to obtain the Holy Grail!”

Levi reviewed this operation in his head. In general, it was a surprise but not dangerous. It was all within his expectations.

Levi was the one who had given Mana the Wizard Tools and herbs that had fallen from the sky. The purpose was to reduce the pressure on him to escape.

There was no need to talk about herbs. He also chose some regular standard Wizard Tools, the kind that could not be traced back to its origins.

This move was very useful.

Most of the wizards stayed where they were and fought over the items.

Only a small portion of them managed to catch up with Levi using special Wizard Tools or methods.

“It’s a pity that my Crimson Emperor Dragon is not at level 5. Otherwise, it would be a piece of cake for me to deal with those top-notch geniuses. Even if I were to face the level 5 Amethyst Race member, I would still be able to fight them!”

After Levi finished reviewing his day, he looked at the Holy Grail of Immortality with excitement in his eyes.

“Hahaha, here I come!”

Levi turned into a stream of light and entered the Holy Grail on the floor.

When Levi reappeared, he was already in the Holy Grail Space.

This was different from Alice's ring where he could only enter it with his consciousness.

Levi's body could enter the Holy Grail.

After the Holy Grail devoured the Ancient Banyan Fairyland, it was essentially an embryonic form of a miniature plane.

Of course, although it was just an embryonic plane, its actual size was comparable to Nora's medium-sized secret realm.

Blue sky, white clouds, mountains, lakes, and the towering giant tree in the center of the fairyland, Queen Banyan, Mana.

Mana's aura was unstable after she transferred the Origin Space to the Holy Grail. It was fluctuating between level 5 and level 6.

The green leaves on the branches had all disappeared. Now, they were bare and lifeless, like dead wood.

“Senior, how do you feel?” asked Levi.

“I need some time to stabilize my realm, but you don’t have to worry. Even if my realm falls, it’s my own fault. I won’t blame you,” said Mana.

Levi thought, “I’m worried that if you fall to level 5, I’ll lose a big level 6 support!”

“Senior, is there anything that can help you stabilize your cultivation to level 6?” Levi asked seriously.

Mana remained silent.

At this moment, the sound of the Holy Grail rang out in the space.

Chapter 1319: Importance of Pandora's Root

“Naturally, there is. However, with your current strength, you should not be able to obtain it...”

“Pandora’s Root?” Levi asked.

The Holy Grail said, “That’s right. Rose was transformed from Pandora’s Root. The Pandora’s mother tree is a level 10 existence, a true divine tree. If we could use the Origin Root to make up for Mana’s deficiency, Mana should be able to stabilize her level 6 realm... However, Mana was too kind and

couldn't bear to do anything to Rose. Otherwise, she would have had many opportunities to take Rose down and improve herself."

Holy Grail said all these with a disappointed tone.

On the ancient banyan tree, the figure of a young girl appeared. Compared to before, it was much thinner.

This meant that Mana had indeed injured her core, and her vitality was greatly damaged.

...

"I might have to sleep for a while to reduce the loss of my origin. If you're going to hunt Rose, be careful. After all, she was the Mistress of the Dark Elf in the past. Now that her realm level has fallen, she's still not easy to deal with."

"Alright, Senior, you should rest," said Levi.

Mana smiled bitterly and returned to the bare ancient banyan tree.

"During Mana's slumber, you can use normal plant nutrients to replenish her nutrients and reduce the loss of her origin," said the Holy Grail.

"I understand."

Levi immediately got busy. No matter what, he had to protect Mana's level realm.

He used his knowledge of botany and pharmaceuticals and used various rare materials to formulate nutrient fluids to infuse into the giant tree.

“For a level 6 existence like Senior, these nutrient fluids are probably better than nothing.” Levi frowned.

Finally, after a moment of hesitation, he took out a purple fertilizer and asked, “Diuxis, this nourishment comes from the accompanying spiritual creature of a Truth Oddity. I wonder if Senior Mana can use this?”

The Holy Grail’s voice echoed in the world, “There’s rich life force in this. It should be fine.”

“After the plants consume these nutrients, their growth speed will increase by a lot... However, I’m not sure if it will have any adverse effects on a special divine tree like Senior Mana. I’ve tested it on animals before, and they all died without exception.” Levi voiced his concerns.

“Are you worried that forcefully accelerating the growth of plants will reduce Mana’s lifespan?” asked the Holy Grail.

“That’s right,” said Levi.

Holy Grail replied with a smile, "You're overthinking things. Mana is a banyan tree and has a long lifespan. I've also nourished her with the Spring Water of Immortality for tens of thousands of years. She has already mutated.

"Moreover, after devouring the World-Changing Leaf, she had already become a potential sapling of the divine tree. Her lifespan can no longer be measured with common sense.

"The life of a mortal is but a moment in front of her. Even the lifespan of a Legendary Wizard is just a period of time for her.

"To a certain extent, you can understand it this way. Mana is immortal. As long as she has enough energy, she can continue to grow until she becomes a World Tree like Pandora's mother tree and becomes the ruler of a plane.

"When that time comes, if she were to fuse with a large plane, she would be able to live as long as the heavens and earth and shine as brightly as the sun and moon. Many powerful rulers of Multidimensional Planes use this method to extend their lifespans.

After hearing this, Levi was shocked and said with a bitter smile, "Wizards pursue immortality and truth. I didn't expect Senior Mana to obtain it so easily..."

Holy Grail said, "You don't have to be discouraged. Wizards have short lifespans because they choose different paths. If Sauron had combined with Nora and become the God of Nora, he might have been able to live until now. However, he did not do so. That was not what he was pursuing.

"Remember, any immortality that can be easily obtained comes with a huge price.

“This was the case for the gods of the astral world, and it was the same for some of the rulers of the Multidimensional Planes.

“The difference is that the astral world is a big cage, while the plane is a small cage.

“The Multidimensional Plane is infinitely exciting and has infinite possibilities. The universe is vast. Only by truly being free and unfettered and transcending everything would one be able to obtain true eternal life!”

Levi pondered and found that it made sense.

Those longevity species often had all kinds of costs and restrictions.

They seemed to have a long lifespan, but in the long run, they were still not as powerful as the wizard civilization.

“Thank you for your explanation. Then I’ll put all these nutrients by Senior Mana’s side to help her recover her strength. When I’m strong enough, I’ll find a way to find Rose and bring the Pandora’s Root back,” said Levi.

He had previously accumulated a lot of ‘Golden Fertilizer’ and had originally planned to use it in the Ancient Saint plane.

Now that he had a portable space, he might as well tidy up this place.

There was a high chance that the Ancient Saint plane would be integrated into the Nora plane in the future, becoming a part of it and exposed to the world.

At that time, it would be uncertain whether Levi could defend the Ancient Saint plane.

In comparison, the Ancient Banyan Fairyland that came with the Holy Grail was more suitable.

During this period of communication, he also knew the use of the Holy Grail of Immortality.

The Holy Grail was collecting elemental energy and other beneficial factors from the world.

Then, the Spring Water of Immortality would be born within it.

The Spring Water of Immortality could reduce the number of illnesses, prolong life, and maintain vitality for mortals. With each generation, the probability of elemental and special talents being born would gradually increase.

Chapter 1320: Potential of Ancient Banyan Fairyland

To wizards, the Spring Water of Immortality was actually useful.

It was just that the Holy Immortality Water needed to be taken for a long time, and it was difficult to show any effects in the short term.

Long-term consumption of the Spring Water of Immortality could gradually strengthen a wizard's physical fitness and Machinery Heart.

Moreover, in most potion formulas, the Spring Water of Immortality could be used to replace pure water.

Adding the Spring Water of Immortality to the refining of the potion would increase the success rate and medicinal properties of the potion.

Using the Spring Water of Immortality to irrigate plants for a long time would cause Evolution mutation of the plants.

...

Mana had grown from a mortal tree to a transcendent tree after thousands of years of nourishment. She had even developed a human-like consciousness.

In short, the effects of the Spring Water of Immortality could not be seen in a short period of time.

This was a treasure that would benefit the present and the future.

For Levi to cultivate his own forces and build a botanical garden, the Spring Water of Immortality was indispensable!

In the center of the Ancient Banyan Fairyland, within the green mountains and clear waters, there was a small stone pool, from which a clear spring was bubbling.

Levi held a handful of it in his hands and drank it in one gulp. It was very sweet.

In the sky, the Holy Grail's voice sounded, "As I fused with the Ancient Banyan Fairyland, there are a total of 118 spring spots in this small world that give birth to the Spring Water of Immortality.

"Among them, there are 10 large-sized spring spots, 36 medium-sized spring spots, and 72 small-sized spring spots.

"The density of elemental power near these springs would be higher than in other areas of the Fairyland.

"Different springs have different levels of density.

"I estimate that the elemental power near the large springs is as dense as some of the secret realms used by top-tier wizard organizations for cultivation."

When Levi heard this, he was ecstatic.

Another reason why top-notch geniuses cultivated so quickly was that they often cultivated in places with extremely dense elemental power.

For example, the Witch's Family's base camp had much more elemental power than the outside world because of the Magic Tree.

Now, Levi had 118 such places!

The Holy Grail continued, "These places can be called [Element-Rich Lands]. They are divided into three levels: high, medium, and low. If you want to grow plants, cultivate transcendent creatures, or cultivate, you can arrange and use them reasonably."

Levi nodded and smiled, "This Ancient Banyan Fairyland is the true paradise."

The Holy Grail continued, "Me, Mana, and the Ancient Banyan Fairyland have already fused into one.

"As Mana grows stronger, Earth, Fire, Wind, and Water will continue to create new worlds.

"The boundary of the Ancient Banyan Fairyland will also continue to expand, and more Element-Rich Lands could be born.

“If Mana truly becomes a divine tree similar to the Pandora Mother’s Divine Tree, the size of the Ancient Banyan Fairyland might be similar to some smaller large-sized planes.

“In short, it won’t be worse than the Io Continent under your feet.

“At that time, even the Demiplane of an ordinary Legendary Wizard would not be comparable to the Ancient Banyan Fairyland.

“This is the special feature of the divine tree!

“The power of the [World-Changing Leaf] is far beyond your imagination.

“It was rumored that every leaf born by the Origin Will represents the birth of a plane embryo.

“Each leaf represents the withering and death of a plane.

“That is why many civilizations had the saying ‘one leaf, one world’.

“Of course, a Legendary Wizard’s Demiplane has its own advantages. For example, it could set its own “plane rules”. Those who violated the rules would be killed by the Demiplane. This is something that the Ancient Banyan Fairyland cannot do.”

After Holy Grail finished speaking, Levi felt a yearning in his heart.

Regardless of whether the rumors were true or false, he had witnessed the power of the World-Changing Leaf.

Mana, the World-Changing Leaf, and the Holy Grail of Immortality have combined perfectly to create a super treasure that Sauron had never imagined!

This treasure had unlimited potential. It might even become a treasure comparable to the Dark Ancient Tower in the future!

Levi chatted with the Holy Grail for a long time and learned a lot about how to use it.

For example, as the owner of the Holy Grail, he could open the door to the Ancient Banyan Fairyland at will around him.

If Levi were to encounter a life-or-death crisis, he could absorb an enemy he could not defeat and seal it in the Holy Grail, allowing Mana to deal with it in the Ancient Banyan Fairyland.

Of course, there were certain drawbacks to this. Fighting in the Holy Grail would inevitably cause damage to the flora and fauna of the Ancient Banyan Fairyland, the Element-Rich Land, and other ecological environments.

Thus, unless he had no other choice, Levi would not use this move.

However, Levi also thought of some solutions that could reduce the damage.

That was to set up a grand array in the Holy Grail.

Levi would throw the enemies outside into the array and seal them up. Then, Levi would close the door and beat them up to reduce the damage to the Ancient Banyan Fairyland.

Now, in the Ancient Banyan Fairyland, other than some naturally growing mortal plants and the occasional transcendent creatures that barged in, there was nothing else.

Levi's next plan was to gradually transform and develop the Ancient Banyan Fairyland while he was cultivating.

First, Levi had to move the plants he planted on Dragon Palace Island into it. Different herb gardens would be opened up in the elemental land for different plants. They were categorized and planted on a large scale, cultivated, and fertilized.

Secondly, he would send all the transcendent creatures he possessed into the elemental land, allowing them to grow and reproduce freely.

Thirdly, he would move the Eight Heavenly Dragon Prison grand array to the Ancient Banyan Fairyland and create an exclusive 'arena'. In the future, if Levi encountered a powerful enemy, he would directly send them in so that he and the transcendent creatures could fight the enemy together. After the enemy was killed, Long could even provide burial services. The corpses could be recycled and turned into fertilizer to protect the flowers. It could be said to be a 'one-stop' service!
