Chapter 132: The Pot of Equal Value, Meditation Technique! (1)

"Money makes the world go round. The ancients did not deceive me."

Levi had only wanted to experiment, but he had never expected that he would be able to do so.

Gold could harm evil spirits.

Although the damage is relatively weak, this was a significant breakthrough.

This was equivalent to discovering the secrets of these evil creatures.

Knowing this secret was highly advantageous.

Levi could rely on his powerful defense to slowly grind the evil spirit to death.

He was not afraid of low damage.

"In that case, I'll have to forge a set of golden innerwear. No, it's the Golden

Holy Garment.”

Levi would not wear the Golden Holy Garment on the outside. He wanted to wear it on the inside.

This set of Golden Holy Garments would not be very thick. It would be made to be as thin as gold paper.

"This way, I'll have more confidence when facing evil spirits in the future.”

He had saved a lot of money and forged the golden sword with 10,000 gold coins.

He uses the remaining gold coins for the Golden Holy Garment.

Levi took full advantage of his forging skills and began to arm himself.

RIAJ0 days later, Levi was wearing gold and silver, looking like a nouveau riche as he stood in the shelter.

"No, the gold is still too dazzling. It's jeweled and easy to be targeted. I have to apply some paint.”

Levi painted the Golden Holy Garment black.

The Black Holy Garment was not bad, either.

The golden sword was also wrapped in cloth by Levi.

Otherwise, it would be too conspicuous to bring it out. It would likely get robbed.

"Such a valuable piece of equipment; it doesn't make sense that it doesn't have a name."

"The Black Holy Garment will be called... Golden Robe."

Originally, Levi wanted to name it Golden Armor, but he felt it did not sound good.

"The golden sword shall be called the Remnant Sound of Gold."

From now on, Levi would always have two swords on him.

In his left hand was the mithril sword, Frostmourne. This was his primary weapon.

In his right hand was a golden sword, the Remnant Sound of Gold. This was his secondary weapon.

Mithril killed people and spirits, while gold killed evil spirits and evil spirits!

The two swords had a clear division of labor.

After all, gold's hardness was average and unsuitable to be used as a primary weapon.

"Perfect. With my skills, I could be considered a Spirit Exorcist." Black gas, Seal of Dragon Might, and the Remnant Sound of Gold.

They were all effective against evil spirits.

In the future, even if he encounters a powerful evil spirit, he should have the strength to fight.

"Gold is great. Not only can it give me a sense of financial security, but it can also give me a sense of physical security," Levi sighed.

He still had to earn more money.

In the future, he would build a golden house for himself.

That was the true invulnerability of evil spirits.

"Now that my strength is pretty good, I can dig out that snuff bottle. I want to see what's inside."

"It's most likely an evil spirit. However, it could be that a wizard's prank was hidden inside."

"Let's wait for another month. Let my Frost Giant's Sigh cool down first." Just like that, Levi waited for a month.

During this month, he had been cultivating non-stop to strengthen himself further. The black ghostly claw mark that Naiad had scratched him with had also slowly disappeared, making Levi relieved.

Finally, the Frost Giant's Sigh's cooldown was over, and he could use it again.

"Let's begin. I'm ready to open the snuff bottle."

Everything was ready, and Levi had already made his utmost preparations.

Although there was still a certain amount of risk, Levi felt he could try it to understand the wizarding world.

He did this based on his strength, although in terms of physical strength, he might still be a little inferior to existence like the Fist of the Empire.

However, he might not necessarily be more powerful than him in terms of techniques.

If an evil spirit was sealed in that snuff bottle, he should be able to fight.

Besides, Spider Sensing had not reacted to the snuff bottle.

All in all, Levi thought it was worth a try after considering all the conditions.

He went to the mountain behind the shelter and dug out the snuff bottle where he had buried it.

Levi had already prepared the Seal of Protection and Dragon's Might.

He had already thought it through. It did not matter if there were evil spirits inside.

The moment he opened the lid, he first put on the Seal of Protection and cast the Seal of Dragon's Might into the air.

"Breathe. "

Levi took a deep breath and checked his equipment one last time.

Frost Giant's Sigh, Poison, Frostmourn, Remnant Sound of Gold, Frost Giant Armor, Golden Robe, Casting materials, Magic Shark, Demon Mountain...

On Levi's chest, the Black Snake Seed spiraled around his heart.

Level 7 Siren, Giant Rhinoceros, Blood Whale, Level 6 Man-Faced Spider.

They were all ready to attack!

Black gas surged into Levi's limbs and bones. His entire body was enveloped in black flames, and his hair stood on end, making him look like Saiyan.

Magic Shark held the snuff bottle and waited for Levi's instructions.

Levi was three meters away from Magic Shark and the others. This way, he would have a chance to escape if he encountered any attacks.

"Open!" Levi said.

Magic Shark unscrewed the lid of the bottle.

At the same time, a scolding voice came from the snuff bottle.

A twisted shadow came out of the snuff bottle.

"Didn't I tell you? It would be best to use a spell to call the main body out, not in this way.. Moreover, wasn't the previous deal completed?"
