

Wizard 1331

Chapter 1331: Eating Dead Soul Dates

Levi left the Holy Grail and went to the botanical garden.

Transplanting herbs and plants was a real skill.

Levi did not dare to let the alchemical creatures do it.

“Let’s begin.”

In the botanical garden, Levi started to get busy.

Levi started with the level 1 herbs, and after all these herbs were successfully transplanted, he started to transplant higher-level herbs, and so on and so forth.

Apart from basic cultivation, Levi was fully immersed in this work, enjoying the joy of farming.

Returning to the garden and living in the fields was the life that he yearned for the most.

Time passed.

Another half a year passed.

Year 1210 of the Holy Brilliance Calendar, Month of Harvest.

During this harvest season, Levi had basically completed the transplanting of the plants.

Only the most precious things like the Saint Fruit, Dead Soul Date Tree, and Iron Tree had not been transplanted.

These plants had very high requirements for the environment. Levi had to find a suitable Element-Rich Land to plant them in the Ancient Banyan Fairyland.

Fortunately, with the help of the Holy Grail, this task was not difficult.

The first was Saint Fruit.

This was a strategic resource that Levi possessed, so he naturally could not be careless.

He referred to the environment of the Lost Swamp in the first layer and found a swamp with a radius of hundreds of miles in the south of the Ancient Banyan Fairyland. The fog here was hazy and the air was humid, which was most suitable for the growth of the Saint Fruit.

Number 2 large-scale Element-Rich Land: Dreamy Cloud Swamp

Number 1 was naturally Small Stone Pond where Levi lived.

As for the Iron Tree, it needed to grow in an extremely hot place, and it would be best if it was like the land of underground fire.

There were also such places in the Ancient Banyan Fairyland.

At the western edge of the Fairyland, there was a cluster of volcanoes.

Levi named it the 3rd large-scale Elemental-Rich Land, Flaming Mountain.

The Iron Tree was successfully transplanted. The small black tree stood silently on the ground.

Levi muttered, "Grow up quickly and let me see the legendary... Iron Tree blossoming."

Lastly, Levi temporarily placed the Dead Soul Date Tree and the flower pot Dharma artifact in the Small Stone Pond.

Levi was waiting to open up a special place for the Dead Soul Date Tree to grow in the future.

After the relocation of the botanical garden, the remaining transcendent creatures would be easy to deal with.

Although the Ancient Banyan Fairyland was small, it had all the necessary areas. The habitat of most transcendent creatures could be found.

Other than the guardians of the Eight Heavenly Dragon Prison, the other transcendent creatures were all sent to the Ancient Banyan Fairyland.

After everything was done, the Ancient Banyan Fairyland finally had some life to it.

There were a few immortal birds and strange beasts that appeared in various places.

“From now on, this place is... My world!”

Levi was like a god, sitting on the clouds and drinking wine.

It was already the 45th year since the ancient tower was opened.

Levi's spiritual force had already reached 720 points.

His next goal was to upgrade the Crimson Emperor Dragon to a fifth-grade knight and study his seventh talent.

As for the refining of the Meshus Winged Dragon, Levi planned to hand it over to Holy Infant.

In the place where he was in seclusion, Levi took out the Dead Soul Date from the Purification Elixir and put it into his mouth.

A bitter taste filled the tip of his tongue.

He could feel a warm current slowly flowing into his mind.

Then, it flowed through the Divine Ring Tower and into the seven-colored crystal.

Levi placed his hand on Klein Crystal Ball and found that his spiritual power was still 720.

"Looks like it's less than 1 unit, but my spiritual force has indeed increased."

This Dead Soul Date couldn't be compared to the Silver Scale Fruit.

A fruit like the Silver Scale Fruit would only bear fruit once in a sapling's life, and the yield was extremely low.

Moreover, it could only be consumed once.

The Dead Soul Date could be consumed multiple times, but its effect would decrease as the number of times increased until it completely lost its effect.

Of course, most wizards would not eat so many Dead Soul Dates. If they ate too many of them, they would easily be corroded by the negative energy, which was not conducive to a breakthrough.

However, Levi had the all-purpose Purification Elixir, so he only needed to soak in it for a while.

One Dead Soul Date was enough for Levi to refine for a while.

There were more than ten ripe fruits on the date tree.

Levi planned to take one every month.

After eating all of it, Levi had to wait for the next batch to mature.

If all the fruits were eaten, he could only wait for the next round to bear fruit.

...

Sea of Stars.

Fire Dragon Island.

Holy Infant was crafting [Golden Dragon's Blessing], which was the last Wizard Tool he was crafting for the Rust Dragon Wizard.

Holy Infant was very focused, sending spell runes into it without rest, he was extremely dedicated.

Although it was refined for others, Holy Infant also pursued high quality as much as possible.

This way, his proficiency in refining weapons would increase even more.

Several days later, the Golden Dragon's Blessing and the Iron Dragon's Blessing were completed. They floated above the flames and shone brightly.

"Another two small top-grade items," Holy Infant murmured.

Wizards divided fifth-circle Wizard Tools into ordinary, fine-grade, and top-grade.

However, there was still a gap between top-grade items.

Holy Infant divided the top-grade into minor top-grade and major top-grade.

What was a minor top-grade?

In terms of material, workmanship, and function, one of the three major factors had reached the peak of perfection, and that was considered 'minor top-grade'.

Take Circle of Ouroboros, which had its own Dimensional Door spell, was a minor top-grade item. Other than that, it was relatively mediocre.

It was the same for the Extreme Fire Wheel.

If there were two or more factors that reached peak of perfection, it would be a major top-grade item.

The Black Sun Compass, the Bell of a Thousand Winds, and the Ancient Burning Sky Umbrella were all like this.

After he was done, Holy Infant was not in a hurry to send a message to the Rust Dragon Wizard.

Holy Infant planned to rest for three days to relax his body and mind.

The next day at the Star Bazaar.

Fire Dragon Cabin.

After all these years of sales, Levi had run out of extra Wizard Tools. Moreover, the market was becoming saturated, so the Fire Dragon Hut was temporarily closed for business.

Chapter 1332: Opening A Pharmacy

Mia had also been in seclusion for more than half a year to try and advance to the fifth-circle realm.

In the secret room.

Inside Mia's mind.

A red, round crystal was spinning in her sea of consciousness.

Inside, the shadows of five innate spells could be vaguely seen.

As a nomadic wizard, being able to reach the Perfection for a third-circle innate talent was already a feat.

"Fifth-circle, done... The medicine refined by My Lord was too useful! Even an idiot like me can advance to the fifth-circle realm."

Mia was so excited that tears flowed out of her eyes. She couldn't control herself.

Advancing to the fifth-circle realm was the ultimate dream of many wizards.

After all, the possibility of attaining a primordial soul was unpredictable.

The fifth-circle realm was the end point for many genius wizards.

Mia's double affinity couldn't even be considered a genius.

It was even rarer to rely on time, accumulation, and some luck to advance to the fifth-circle realm.

“If I hadn’t met My Lord, I might have spent my entire life at the perfected fourth-circle realm.”

Mia was glad that she had performed well in front of His Lord.

Otherwise, she wouldn’t be where she is today.

“I only managed to attain fifth-circle at the age of 500. It’s already good enough for me to attain fifth-circle before I die.”

Mia’s self-definition was very clear. The primordial soul wasn’t something she should consider.

Of course, if there was a chance, she would grab it without hesitation!

And her chance was Lord Ace.

“Hehehe, I want to share this good news with My Lord. When I return from the ancient tower, I can work for My Lord. My Lord must be a proud son of some hidden force. The thought of joining this organization actually makes me a little nervous.”

Mia did not know that her fifth-circle ability was already considered top-notch in Lord Ace's organization.

When she arrived at Fire Dragon Island, Lord Ace was lying lazily on the beach, sunbathing.

This was the first time she saw Lord Ace so lazy. The sunlight shone on his handsome face.

"You've advanced to the fifth-circle realm?" Holy Infant stretched and asked.

Mia raised the corner of her mouth and nodded like a chick pecking at grains. Her excitement was obvious.

"Congratulations, congratulations. From now on, you don't have to call me Lord. Just call me Ace," said Holy Infant.

Mia smiled and said, "I'm used to it. I can't change it. It's better to call you 'Lord'."

After a long silence, Mia asked, "Sir, can I join you now?"

Holy Infant opened his eyes and said, "Of course, but you'll have to make an oath when the time comes."

"I understand. Big organizations are all like this," said Mia.

After some thought, the Holy Infant said, "I discussed this with my pharmacist friend some time ago. He intends to rent my Fire Dragon Hut and take on the business of refining potions. As long as the customer provides the ingredients and formula, he can refine the fifth-circle breakthrough potion."

Mia was delighted.

"The market for potions in the Sea of Stars is much larger than that of Wizard Tools. Among my friends, there are a few who are stuck in the perfected fourth-circle realm. They can't advance to the fifth-circle realm because they don't have any potions. Your friend will definitely earn a lot of money."

Holy Infant replied, "You'll be in charge of this. I can ask my friends to provide some samples first. You can put it on display. His pharmacist level is definitely not a problem. It's just that he doesn't have a registered pharmacist certificate."

"Alright, leave it to me," said Mia.

Holy Infant said, "As for the remuneration for the pharmaceutical commission, as long as it's something of equal value, it's fine. Precious plants, transcendent creatures, ores, Aether Stones, knowledge, and even accurate information and clues about treasures are all fine."

"I understand."

When they left, Mia turned around and secretly glanced at Lord Ace.

This friend of Lord Ace, could it be himself... Otherwise, why didn't that friend come personally to the White Robe Wizard Association?

If that's the case, Lord Ace was proficient in making weapons and medicine. He was not inferior to Simon!

A few days later.

At the Star Bazaar.

The signboard of the 'Fire Dragon Hut' had been removed and replaced with 'Mia Pharmacy'.

[To undertake the custom-made work of rare potions such as the fifth-circle breakthrough potion, you need to provide materials and potion formulas, as well as the corresponding equivalent items, including but not limited to herbs, transcendent creatures...]

In the window of the small pharmacy, there were rows of fifth-circle red, blue, and green potions displayed.

These potions were mainly used to prove the strength of the pharmacist.

Mia, who was already a Gray Robe Palace wizard, personally guarded the store.

Moreover, she had a pretty face and a myriad of flirtatious temptations.

As soon as the store opened, it attracted many wizards.

However, the fifth-circle pharmacist behind the store was not very famous. He didn't have a registered pharmacist certificate, so he had been open for a few days but aside from some inquiries, no one was willing to commission him.

This troubled Mia, but Holy Infant didn't care.

To him, this was a way to collect resources and information, not to rely on medicine to support himself.

Several days later.

A portly wizard walked into the shop with a question in his mind.

“Hello, Ms. Mia. My name is Beckman. I want to make a fifth-circle breakthrough potion.”

Mia was delighted. She smiled sweetly and asked, “Sir Beckman, what kind of potion do you want to make?”

“Stone-condensing Potion.”

“You only need to provide the ingredients for this potion. The pharmacist behind our store already knows the formula.”

Mia had used the same potion to break through to the fifth-circle realm. It could increase her success rate by about 15%, which was not bad.

Chapter 1333: Nine Cities Alliance Negotiation Falls Through

“You need to prepare enough materials to refine it three times. If we fail to refine all of them, we won’t charge you a Request reward. We’ll even pay you a certain percentage of the Aether Stones,” Mia said when Beckman hesitated.

Beckman thought for a while and finally took out the materials to refine the Condensing Stone Potion. There were exactly three sets.

He then took out a small medicine box. There was a dried yellow flower inside.

“This is a withered heart petal, a sixth-circle medicinal herb. It is extremely rare. It should be enough to be used as a reward for refining the potion,” said Beckman.

“No problem. Let’s sign the agreement.”

Mia’s enthusiastic service made Beckman feel like he was dreaming.

As a fifth-circle wizard, it was rare for Mia to have such an attitude.

This also meant that the pharmacist behind Witch Mia must be more powerful.

It was said that he was a friend of the Fire Dragon Wizard. To be able to be friends with a powerhouse like the Fire Dragon Wizard, one could imagine his strength.

Seeing that she had secured her first business deal, Mia was finally relieved.

Everything was difficult at the beginning. As long as the pharmacy’s reputation was spread, it would soon be able to gain a foothold in the Star Bazaar.

On the other side.

On Fire Dragon Island.

Rust Dragon Wizard had arrived.

“Master Fire Dragon, I heard that you’ve already refined it?” Rust Dragon Wizard asked expectantly.

Holy Infant nodded and replied, “My luck was not bad. These two Wizard Tools can be considered top-grade.”

His wrist and necklace floated in the air, emitting a precious light.

Rust Dragon Wizard’s eyes widened.

“Thank you, Master!” Rust Dragon Wizard said sincerely.

Rust Dragon Wizard handed over the Request reward that he had already prepared to Holy Infant.

A piece of level five metal and a book.

“Master, I still have some things to do, so I won’t disturb you anymore.”

Rust Dragon Wizard left in a hurry after obtaining the Wizard Tools.

Perhaps it was also to prepare for the advancement to the primordial soul realm.

There was no news about Wizard Silverbeard who was rumored to be in seclusion. Even his disciple Biggs did not know anything.

From the looks of it, Silverbeard had probably failed to advance to the primordial soul realm and had probably died in the three calamities and four disasters.

The level five metal that Holy Infant had obtained was the Water Elemental Gold. It was not very big and was not enough to refine alchemical creatures.

Holy Infant planned to give it to his main body so that he could reforge the Golden Dragon Heavenly Shield. Coupled with the level 5 amethyst, it could make the shield even stronger.

During the battle with Venerable Blood Scales' incarnation, the shield had been deformed by Levi. Although it had been repaired later on, it was still not perfect.

Divine weapons were like this. They had to be reforged frequently and added with even rarer materials to gradually increase their quality.

The book that was given to Holy Infant was a popular science book called “Ten Thousand Gold Reference”.

There were tens of thousands of different types of rare ores in the Multidimensional Planes recorded on it.

Not only elemental ores, but there were also other unique ores.

This was very important to a refiner. It could be used for future plane trips.

The break ended.

Holy Infant began to get busy again.

This time, it was to refine the Meshus Winged Dragon.

Now that the ores and other materials were all prepared, all that was left was to refine it.

As for the main body, Levi cultivated in peace.

...

Several months passed in the blink of an eye.

Year 1210 of the Holy Brilliance Calendar, the Month of Winter.

Holy Infant had been summoned to the Five Elders Palace. The Rust Dragon Wizard had a big announcement to make.

Inside the hall, the red and blue dragons, the Red Bone Wizard, and Madam Miracle were also there.

In addition, more than twenty fifth-circle wizards from the White Robe Hall and Gray Robe Palace were also present.

Rust Dragon Wizard said, "Everyone, some time ago, the Nine Cities Alliance relied on the Sky Fire Fortress to repel the Empire's coalition forces of the Lightning Supreme Mage. Lightning Supreme Mage was injured and fled.

"The last round of negotiations between us and the Nine Cities Alliance has also broken down.

"As for the reason, I'm sure you all know that the Nine Cities Alliance only promised to give us 15% of the spoils of war after destroying the Tomb Clan and the Amethyst Race."

“How shameless. We sent out half of our forces, but we only get 15%. How is this enough? We nomadic wizards are only half a person in their eyes, right? If they look down on us so much, why do they look for us to cooperate with them?”

“That’s right. If this negotiation falls through, then let it fall through. In any case, I won’t participate in the operation to annihilate the Amethyst Race. I just want to quietly wait for the ancient tower to close.”

Everyone was furious.

Rust Dragon Wizard said, “I understand how everyone feels, but the reality is cruel. The Nine Cities Alliance may send troops to attack our White Robe Wizard Association at any time. Everyone must be mentally prepared.

Moreover, there are at least two level 5 Amethyst Race members hiding in the Sea of Stars. They are still doing evil. These are also hidden dangers.”

After the meeting ended, everyone dispersed with worried hearts.

The Red Dragon Queen brought the Blue Dragon Lady to Holy Infant.

“Master, do you have any time recently?” Red Dragon Queen asked telepathically.

“What is it about?” asked Holy Infant.

He could feel that the Red Dragon Queen’s spiritual force should be close to 900. At that time, she would be a true perfected fifth-circle wizard.

Blue Dragon Lady was slightly weaker, but she was still much stronger than the Fire Crocodile City Master.

“The two of us found traces of a level 5 Amethyst Race member some time ago. It was entrenched in the red danger zone. We want to cooperate with Master and kill the Amethyst Race member together to ensure that nothing goes wrong.

“That guy has occupied a mine that might produce level 5 fire elemental ores. We can’t let the foreign races have such good things.”

After thinking for a while, Holy Infant said, “Alright. We’ll split the spoils of war according to our contribution.”

“No problem. Thank you, Master! We’ll set off tomorrow to avoid any more trouble.”

“Alright.”

Holy Infant went back to Fire Dragon Island.

Chapter 1334: Nine Cities Attack Begins!

Holy Infant continued to make preparations to refine the Winged Dragon.

“I wonder how the mine’s output is. If there are enough level 5 ores, I might be able to refine Fire God.”

As the news of the negotiations breaking down spread, the entire White Robe Wizard Association felt as if a storm was brewing.

The next day, Holy Infant and the two women left the safety zone and began to venture deep into the dangerous area of the Sea of Stars.

...

Holy Fire Plateau.

Above the Sky Fire Fortress.

Groups of wizards were ready to go.

They were in groups of twenty, led by a fifth-circle wizard. There were a total of 500 wizards and 25 fifth-circle wizards.

Among them, there were five powerhouses whose auras were at the perfected fifth-circle level.

This included Wizard Farrah from the Fire Bull Family.

This person was a typical fence-sitter who would fall at the sight of the wind.

Roman, a primordial soul wizard, stood in front of the team and lectured, "As the saying goes, to resist foreign aggression, one must first stabilize the interior. Before we stepped into the Dark Ancient Tower, the Wizard Council had already taught us this.

"No matter what faction, no matter if it is a nomadic wizard or an organization, we have to unite. We have to unite against the outside world first before competing with each other!

"However, some people are selfish and only care about their immediate interests.

"They turned a deaf ear to the long-term interests and collective interests of the wizard civilization!

"I'm talking about those people from the White Robe Wizard Association. A bunch of short-sighted people!"

“What they don’t know is that the Amethyst Race is so powerful that we need the wizards from the south to join forces to barely win.

“We extended an olive branch, but they responded to our sincerity with silence.

“Since that’s the case, we’ll first remove these malignant tumors of the wizard civilization.

“Eliminate these people who did not care about the overall situation!

“For the congress, for the wizard civilization!

“Everyone, attack!” Roman raised his arms and shouted.

His voice echoed throughout the entire Sky Fire Fortress.

Simon opened his arms and descended from the sky.

His aura grew stronger and stronger.

Simon's spiritual power had already reached the fifth-circle senior realm!

"For this battle, Wizard Beske Taylor will be the commander, and Wizard Simon will be the deputy commander," said Roman.

Wizard Beske came from Ceylon City in the Nine Cities.

Wizard Beske was wearing a gorgeous robe that seemed to be woven from the feathers of some kind of rare bird, and it was filled with treasure light.

Wizard Beske was now 900 years old. Two hundred years ago, he had already reached the perfected fifth-circle realm. His strength was unfathomable.

On the other side, Simon looked very young.

Simon was half-naked, and the ribbons danced as he stood in the air.

"Lord Roman, I have no ill intentions. Although Sir Simon was famous at a young age, his cultivation base is only in the fifth-circle senior realm. Isn't it a little inappropriate to appoint him as the deputy commander?" Wizard Farrah lowered his head and asked.

Wizard Farrah had thought that he would be the vice-commander.

After all, he was a perfected fifth-circle wizard and was a member of the Fire Bull family.

Simon narrowed his eyes and looked at Farrah. He didn't say anything, but the corners of his mouth curled up.

"I've already considered what you said. However, as a young hero, Simon also needs the opportunity to gain experience. It would be meaningless if I arranged for all the old guys," said Roman with a smile.

What else could Farrah say? He could only keep his mouth shut.

Farah cursed in his heart, "Those b*stards from Nine Cities, are they looking down on our Twenty-Four Mountains?"

No matter the social class or social circle, there would always be a chain of contempt.

Simon looked at the defeated Farrah and smiled. He said, "Sir Farrah, I've only cultivated for less than 200 years. In terms of experience, I definitely can't compare to you. Please take care of me and guide me."

Farah's face darkened and he said with a fake smile, "I can't say that I am able to guide you. We will be learning from each other."

This Simon was truly such a show-off!

Simon was two hundred years old, and his spiritual force had already reached the fifth-circle senior realm.

At this speed, Simon would probably be able to attain Perfection in the fifth-circle realm in his 300s!

This kid said that on purpose to mock him for having nothing but experience...

Farrah closed his eyes.

“Let’s go!” Beske said calmly. He threw out a fish-shaped airship.

This was the level 5 airship [Void Kraken] produced by the Nine Cities Alliance.

Its speed, defense, and attack were all top-notch. It could even teleport in the air for a short distance.

It was just that the cost was too high, and an ordinary fifth-circle circle wizard could not buy it.

After everyone boarded the ship, Void Kraken split the sea of clouds into two and sped away!

On the airship, Simon asked his subordinate, "Is there anyone else in the White Robe Wizard Association who has perfected fifth-circle and below, other than the Blue Dragon Lady and the Red Dragon Queen?"

The subordinate replied, "I don't think so. There's one called Ace, the Fire Dragon Wizard. He's said to be quite strong. He and the Red Dragon Queen teamed up and killed an Amethyst Race member that was close to the peak of level 5."

"Fire Dragon wizard? Could he be a dragon descendant wizard?" Simon raised his eyebrows.

"No, it's just that his title has the word Dragon on it," said the subordinate.

"How is his cultivation?"

"He should only be a fifth-circle senior wizard. His strongest point is that he is a weapon craftsman. He might have several top-grade Wizard Tools on him, but his power is average."

"Then I'll just take care of him when I'm there. My main target this time is the two dragon descendant witches."

Simon looked at the sea of clouds in front of him with confidence.

He hated Dragon Clans, including dragon descendants.

In his eyes, they were a bunch of pitiful creatures who were neither human nor ghost, immersed in the fantasy of possessing the Dragon's bloodline.

In reality, it was extremely fragile and could be shattered with a single strike!

...

Sea of Stars.

In the depths.

The red zone.

In the fog, Holy Infant and the two women walked side by side.

"This fog will affect your Perception. Master, please be careful," reminded the Red Dragon Queen.

Holy Infant nodded. His Spiritual Perception was indeed affected.

Chapter 1335: A Fight Against Roda

If his true body was here, it shouldn't have much of an impact.

Suddenly, a beast's roar came from the fog.

The lake water exploded, and a black shadow flew out from it, attacking Holy Infant.

Just as the Red Dragon Queen was about to attack, Holy Infant flicked his finger.

A lively fire dragon baring its fangs and brandishing its claws collided with the black shadow.

Boom!

The explosion swept through the area, dispersing the fog within a radius of a mile.

The black shadow was not big, only the size of a calf.

It was a slender black beast that looked like an otter. Its body was covered with extraordinary fur that was shiny and oily.

Judging from its aura, it was a level 5 black beast.

“It’s actually a Black Otter. Its fur is most suitable for refining level 5 divine talismans.”

Holy Infant’s Fire Dragon Tribulation took out half of the Black Otter’s life. The fur on its chest was charred, revealing a deep black wound.

However, because of the black beast’s brutal nature, it did not escape. Instead, it continued to attack Holy Infant.

Its speed was extremely fast, like a phantom. It was estimated that even an ordinary fifth-circle senior wizard could not compare to it.

The Extreme Fire Wheel appeared under Holy Infant’s feet. Holy Infant turned into a fiery red light and dodged the Black Otter’s attack.

The Black Otter missed. It clearly did not expect that it, which was good at sneak attacks, would actually fail twice.

Before the Black Otter could take any further action, a fiery red ring broke through the fog and descended from the sky.

In an instant, it was bound!

Then, Holy Infant said, "Queen, lend me your sword. This beast's fur can be used as a practice material when I refine weapons. It's a pity to waste it."

The queen understood. She waved her hand and the Lava Secret Sword descended, beheading the Black Otter.

Level 5 black beast, dead.

"I was wondering why you didn't continue to use your spells, Master. So it's because you were afraid of damaging its fur. However, won't the fur of the black beast corrode one's mind when refining weapons?" asked the Red Dragon Queen.

"I'm only using it for practice. I can't use the Wizard Tools I refined from it. The weapon-making industry is too expensive. I don't have the financial resources to practice with normal materials," Holy Infant explained with a bitter smile.

"As expected of a master. You really know how to live," the Red Dragon Queen said with a smile.

Holy Infant laughed and didn't say anything. He put away the black beast's corpse.

Not long after, they met another Black Otter beast, also at level five.

Holy Infant said, "It is said that these black beasts usually live in groups. I'm afraid we've entered the black beast's nest. Be careful, I will need your help to kill the black beast in the future. After this is done, I can refine a fifth-circle Wizard Tool for both of you for free."

"Are you serious?"

Red Dragon Queen was overjoyed, and even Blue Dragon Lady couldn't hide her joy.

It was their dream to have Fire Dragon Master refine a Wizard Tool for them for free.

After all, Master's refining fee was truly somewhat exorbitant.

"Yes, I'm serious," said Holy Infant with a smile.

"That's easy to handle. Leave the black beasts to us sisters. Master can just watch the show."

Red Dragon Queen snickered as the Lava Secret Sword danced in the air and flashed!

The Flame Bolts sliced the level 3 and level 4 Black Otters into two. Even the level 5 Black Otters couldn't last long.

It was even more convenient for Blue Dragon Lady. Countless ice blades shot out of her ice sword, cutting through everything.

Holy Infant picked up the corpses behind him, having a great time.

"It's still more comfortable to be a boss," Holy Infant sighed in his heart.

As they got closer to their destination, the number of Black Otter beasts increased along the way.

Half a day later, Holy Infant had already three level 5 ones, collected more than twenty level 4 ones, and hundreds of low-level ones.

"This black beast meat is enough for Long to eat for a while."

To Holy Infant, the black beast was a treasure.

Therefore, after he became a wizard of the White Robe Hall, he used the power in his hands to completely take over the handling of the black beast in the Sea of Stars.

This way, there would be an endless stream of black beasts entering his pocket every month.

Otherwise, with just Levi and Holy Infant, Long would definitely have a hard time.

“Roar!”

With a roar, the Blue Dragon Lady’s expression changed and she jumped up.

In the lake below, a hundred-meter-long crocodile that looked like a dead tree rushed out of the water!

“What a huge crocodile!” exclaimed the Red Dragon Queen.

When Holy Infant saw the giant crocodile, he was delighted and said, “Please don’t hurt the crocodile’s heart. I have a use for it.”

Red Dragon Queen replied, “Understood. This crocodile is quite strong, it’s almost at the peak of level 5, and it has the aura of a dragon. Blue Dragon, let’s join forces!”

Blue Dragon Lady nodded. Behind her back, the secret ice sword flew out and buzzed. The phenomenon of an ice mountain appeared.

At the same time, a volcanic phenomenon appeared around the Red Dragon Queen's Lava Secret Sword.

Holy Infant did not make a move. With the two women's strength, it would definitely not be a problem for them to kill the Sea Overturning Crocodile Dragon.

The Sea Overturning Crocodile Dragon was similar to the Black Fire Dragon that Levi had killed before. They were both existences that stood at the top of the pyramid of mixed-blood dragons.

The reason why Holy Infant wanted to keep its heart was not to refine weapons, it was for Gustav.

Gustav's body contained two very powerful mixed-blood dragon bloodlines.

One was the Sea Overturning Crocodile Dragon and the other was the Heavenly Armor Mist Dragon.

He planned to use the Crocodile Dragon's heart to extract the original bloodline crystal and refine the bloodline potion.

In this way, Gustav would have a chance to completely return to his ancestors as a Sea Overturning Crocodile Dragon in the future, and eventually grow into a giant beast at the peak of level 5.

Levi had never been stingy with his family.

Gustav had made great contributions to Levi's growth.

Moreover, after Gustav reached rank 5, he could continue to benefit the knights.

As for Levi himself, only the sub-dragon species could catch his eye.

On the other side, the two swords combined!

Red and blue spell rays slashed out!

In the end, the Sea Overturning Crocodile Dragon was no match for the two women and was beheaded.

"Thank you, both of you."

Holy Infant took out the heart and used a spell to protect it. Then, he put the dead Crocodile Dragon into his storage ring.

"Hehe, you're welcome. We're doing this because you promised us a Wizard Tool," Red Dragon Queen said with a smile.

“We’ll be there soon. Master, let’s make our preparations. The peak level 5 Amethyst Race is not something that this black beast can compare to,” Blue Dragon Lady reminded.

Holy Infant nodded. In the fog in the distance, the outline of a huge island could be vaguely seen.

Three figures flew forward quickly.

After a while, before they even got close to the island, a purple light shot into the sky and swept away the fog!

As the world became clear, a one-armed purple figure sneered at the three of them. It was Roda.

Red Dragon Queen’s expression was grave as she said, “Looks like you’ve already discovered us.”

Roda laughed.

“Of course. In fact, the last time the two of you passed by this place, I had already discovered you. I guessed that you were going to ask for reinforcements, but I didn’t expect... I’m so disappointed that you only brought a fifth-circle senior wizard. Among the three of you, there’s not even a single one with a perfected fifth-circle. It’s really not fun killing you guys!”

The instant he saw the Amethyst Race member, killing intent rose in Holy Infant's heart.

This person was the Amethyst Race member who had blocked the teleportation portal back then!

"Enemies meet on a narrow road! I will avenge myself!"

Chapter 1336: Fighting Roda

Dark Ancient Tower, fifth floor.

Sea of Stars.

Holy Infant and the others looked at Roda.

"Why would I need to use a perfected fifth-circle expert to kill you? You think too highly of yourself."

Red Dragon Queen had always been as good at talking as anyone else.

It was an eventful time. Most of the fifth-circle powerhouses were stationed in the encampment, facing the possible enemies together with the other wizards.

Therefore, after the Red Dragon Queen and the others discussed with the Rust Dragon Wizard, they decided to invite Master Fire Dragon to kill the Amethyst Race member.

Master Fire Dragon had previously exterminated a level 5 Amethyst Race member with a single strike. It could be said that he had left a deep impression on her.

“Very good. You humans are soft everywhere, but only your mouth is hard and stubborn... I am Roda, the witness to your deaths!”

Roda clenched his single arm tightly, and a terrifying aura spread out.

Just this invisible aura was enough to tear through the fog.

His terrifying strength was evident.

Holy Infant muttered to himself, “I’m so f*cking fierce. I can actually take a punch and not die.”

The person in front of him should be the strongest enemy he had ever encountered.

It was similar to the Amethyst Race member that he had encountered during the Battle of the Holy Grail.

Although he had lost an arm, he was still a perfected fifth-circle wizard.

If Holy Infant had faced it alone, he would probably have run away.

Fortunately, he had two teammates this time. From the looks of it, they were very reliable.

“Master, Blue Dragon and I will pin this person down. You just need to attack from the back. At the critical moment, use your trump card again and try to kill him here.”

After the Red Dragon Queen spoke, she turned into a streak of red light and shot into the sky.

Ice swords danced around the Blue Dragon Lady as she attacked from the other side.

One blue, one red.

Two figures surrounded Roda.

Roda’s body flashed and he moved extremely quickly.

Bang!

The purple cannonball was already flying towards the Blue Dragon Lady.

“Sacred Skill, Moon in Palm!”

Roda’s single arm turned into a blade and his palm slashed out!

A circle of energy ripples in the shape of a full moon spread out.

The [Ice Dragon’s Ring Dance] field lit up around the Blue Dragon Lady.

First Talent, Ice Rhinoceros Finger!

An icy finger emitting a destructive aura condensed in the air and shot out!

Boom!

The ripples collided with the jade-like fingers, and snowflakes scattered!

The Red Dragon Queen pointed at the sky like a commander.

Meteor Stars!

Meteor after meteor descended from the sky, forming a giant meteorite that was engulfed in flames.

Holy Infant hid at the back and clenched his right hand.

The Crimson Dragon Ring turned into a fire dragon and whizzed out, wrapping around Roda.

Although this was the first time the three of them were taking action, they had a tacit understanding.

Roda did not expect that a fifth-circle senior wizard would have such a treasure.

Caught off guard, Roda was bound and unable to move.

In the next moment, Roda had already used brute force to break through the Crimson Dragon Ring.

However, with the opportunity created by Holy Infant, the giant meteorite crashed into Roda's head!

Boom!

Roda's head was smashed in like a turtle retracting its head.

The flames burned his body, and the flames soared into the sky.

However, Roda was not afraid. Instead, he enjoyed it.

As a member of the Amethyst Race, he yearned for battle too much.

Roda raised his single arm high, holding the meteorite and bursting with power.

“Sacred Skill, Mountain Fusion!”

The extreme power destroyed all techniques. The meteorite was shattered by Roda and turned into ashes!

Roda's falling body finally stabilized.

Not only that, but Roda's head which had shrunk into his body popped out again.

Holy Infant frowned slightly. The Amethyst Race was really troublesome.

If Holy Infant's main body was here, it would be easier to deal with Roda. After all, Holy Infant's main body had many treasures.

However, since Holy Infant was here as a support, he would watch the two women fight.

If he encountered danger, he would not hesitate to use the Extreme Fire Wheel to escape.

Even Roda shouldn't be able to catch up to him.

Holy Infant released the Crimson Dragon Ring.

He pointed out and the crimson fire dragon roared and exploded around Roda.

The energy was released, the flames soared into the sky, and the surface of the lake boiled!

In the face of a genuine fifth-circle senior wizard attack, Roda's body was only charred black on the surface and did not suffer any major injuries.

Roda didn't even look at Holy Infant.

This filled Holy Infant with a sense of defeat.

The Amethyst Race had high spell resistance, and Roda was at the peak of level 5.

Moreover, Roda's body was impervious to blades and spears, as well as water and fire.

Almost all of the body tempering techniques in the Wizard World paled in comparison to this innate goldstone body.

"Just you wait."

Holy Infant gave up on using the Fire Dragon Tribulation and no longer wasted his spell power.

Instead, he focused on using the Crimson Dragon Ring to disgust Roda.

In the sky.

Roda was once again trapped by the Crimson Dragon Ring. Then, the red and blue attacks smashed into his body.

“D*mn it, I can’t dodge it at all. Although my body is invincible, I can’t keep getting beaten up like this. That male wizard has to be dealt with first!”

Roda realized the seriousness of the problem.

After he broke the ring, he sent the fire meteor flying with one punch and shattered the ice dragon with another.

“Sacred Skill, String Break!”

Roda leaned forward like a fully drawn bow.

Bang!

Along with the sound of the bowstring being snapped, Roda charged forward at an unimaginable speed!

“Oh no! He went to ambush Master Fire Dragon.”

Red Dragon Queen and the Blue Dragon Lady used their own methods to stop Roda.

However, Roda's move was too fast!

When they reacted, huge waves exploded on the lake in front of them.

Roda's body stood upright, surrounded by countless flames.

The flames above his head transformed into Holy Infant's figure.

He was born with a fire elemental body, so he was still immune to many pure physical attacks.

However, the purple light on Roda's body was similar to blood qi and could cause real damage.

Chapter 1337: Teaming Up to Attack Roda

Holy Infant's face was pale as he stepped on the Extreme Fire Wheel.

The Crimson Dragon Ring flew out, buzzing as it wrapped around Roda.

"Is this the only move you know?" Roda roared like a giant being harassed by flies.

“There’s still this move!”

An ancient umbrella appeared above Levi’s head!

As the nine streams of flowing flames danced in the air, a sense of crisis filled Roda’s heart.

Roda broke the ring and wanted to escape.

Seeing this, the Blue Dragon Lady spat.

A blue smoke turned into an inescapable Heaven’s Net and trapped Roda once again.

The Third Talent, Frosty Mist Moon!

“Sacred Skill, Mighty Star!”

Roda’s purple light shone brightly and turned into a purple star above his head!

The stars rotated, and the huge force tore the smoke net apart!

However, what greeted him were nine crimson divine dragons baring their fangs and brandishing their claws!

Boom, boom...

Nine consecutive booms!

It was as if a nine-petaled red lotus had bloomed on the surface of the lake.

Under the earth-shattering attack, a body that had melted and distorted rushed over in anger.

“Die!”

Roda gathered his strength and punched in Holy Infant’s direction!

The Ancient Burning Sky Umbrella landed on Holy Infant’s head. The crimson fire dragons surrounded it, forming layers of protection.

Kacha kacha.

The force field shattered layer by layer. Relying on this chance to stop him, Holy Infant flashed and moved away.

He then cast a Crimson Dragon Ring on the spot and trapped Roda within it.

“I’m going to kill you!”

Roda had gone crazy after being played with time and time again.

The person in front of Roda had a low cultivation level, but he was able to fool him with these three Wizard Tools.

This was unprecedented!

The two witches saw a great opportunity.

The Red Dragon Queen and the Blue Dragon Lady each used their top-grade secret swords!

“Lava Secret Sword!”

“Ice Secret Sword!”

The two secret swords combined into one and played the song of ice and fire!

Ice and Fire Dragons appeared.

On the left was the world-extinguishing flame dragon, who was covered in lava armor.

On the right was a dreamy ice dragon that was emitting a cold aura!

“Molten Twin Dragons!”

The two dragons of ice and fire charged toward Roda, releasing energy waves that were much stronger than the Nine Dragons Tribulation!

Ice and fire were two heavens. Two giant dragons danced on the surface of the lake, forming a magnificent spectacle.

Even though Roda was from the Amethyst Race, he was still severely injured by such an attack.

It was all that d*mn wizard's fault that Roda was unable to use his defensive Sacred Skill.

The extreme cold caused his body to continuously collapse, and the sudden high temperature caused him to begin to expand.

The amethyst structure that formed his body also began to become unstable.

Kacha.

His indestructible body actually cracked open.

Like a statue shattering, pieces of amethyst fell to the ground.

The two women did not dare to be negligent and continued to attack. The two swords combined and used it again!

“Sacred Skill, Fusion!”

The amethyst on the ground began to melt and then condensed together like liquid.

Before the attack hit Roda, a huge purple palm split the world apart!

“I’ve said it before, you guys are... Not qualified!”

Roda turned into a purple ape, pounded his chest, and stomped his feet like a mountain!

However, the surface of his body was like shattered glass. It was obvious that he was at the end of his rope and was not invincible.

Seeing this, the nine dragons appeared on Holy Infant’s umbrella again.

On the foreheads of the two women, fine red and blue scales appeared.

The same happened to their palms, arms, and chests.

The two women cut their fingers with their secret swords, and the lava blood and ice water blood flowed into the swords at the same time.

The magma and ice swords turned into a lifelike lava dragon and an ice dragon!

Roda, who had lost his mind, collided with the two dragons.

Rumble!

This explosion was so terrifying that even a perfected fifth-circle wizard would have to avoid it.

The cracks on Roda's body spread again, and the lava and ice dragons' breath drowned him.

Holy Infant's second Nine Dragon Tribulation had already been unleashed!

The three energies fused around Roda and exploded.

Rumble!

The wind and clouds changed color, and heaven and earth were shocked!

Roda's violent ape body shattered once again. His true soul was destroyed and he lost his vitality completely.

Only a diamond-shaped amethyst was left on the spot where he was standing. The amethyst was beautiful.

“Phew.”

The three of them heaved a sigh of relief in unison.

“He’s finally dead. This Amethyst Race is really too difficult to deal with.”

Red Dragon Queen’s chest heaved up and down as she sweated profusely.

“After all, Roda was a peak level 5 Amethyst Race member, and we don’t even have a cultivation base of the perfected fifth-circle realm. It definitely wouldn’t have been easy for us to kill Roda.”

Even the usually calm Blue Dragon Lady couldn’t hide her excitement.

Killing a peak level 5 Amethyst Race member was definitely something to be proud of!

This meant...

With the two of them working together and being supported by Master Fire Dragon, they could be considered invincible under the primordial soul realm!

After all, there were only a few level 6 experts like Rose whose realm had fallen.

The peak level 5 Amethyst Race was already the peak of the fifth-circle battle prowess.

However, Holy Infant felt fine.

If his original body was here, he felt that if he used all his methods, he should be able to kill the Amethyst Race member alone. However, he would have to take some risks.

The three of them didn't waste any time. They collected the amethyst and the scattered wizard relics on the ground.

"That amethyst belongs to Master. After all, we're not weapon craftsmen, so it's not of much use to us. As for these wizard relics, we sisters will take 80%, and Master will take 20%. How about that?" asked the Red Dragon Queen.

"No problem. Thank you."

Holy Infant smiled and put away his spoils of war.

In short, the two women had contributed more in this battle. Holy Infant was there mainly to assist and control the situation.

Holy Infant was already satisfied with the amethyst.

Chapter 1338: Dividing the Spoils of War

In fact, among these wizard relics, there were not many that were truly valuable. The most valuable thing was still the amethyst.

The Red Dragon Queen's actions were also an opportunity to build a good relationship with him.

In the long run, after they become familiar with each other and they find him to make some weapons for them, they would probably be able to enjoy the friendship price.

Holy Infant was also happy.

"In this way, the danger posed to our Sea of Stars will be reduced by one. Let's go to that mine. I wonder how many resources there are."

Holy Infant nodded and followed.

On a red island, the Earth was filled with deep pits, like scars.

In these deep pits, there were some fragments of rare ores that had probably been swallowed by Roda.

However, the island was very large.

The three of them had gained quite a lot.

Holy Infant had obtained a large pile of level 5 Scarlet Heart Flame Metal Ore.

After refining it, it should be enough to refine one of the twelve gods, the 'Fire Phoenix'.

Looking at the expressions of the two women, they must have gained a lot.

The Red Dragon Queen smiled sweetly and said, "Let's go back, Master. Don't forget our agreement."

Holy Infant smiled and replied, "I've benefited a lot from following the two of you this time. Thank you."

"You're too polite, Master," Blue Dragon Lady smiled.

Red Dragon Queen took out the airship and invited Holy Infant to enter.

She and Blue Dragon Lady sat together, while the Holy Infant was reading the Ten Thousand Gold Reference with a focused expression.

Red Dragon Queen suddenly asked, "Master, do you have a partner?"

Holy Infant shook his head and replied, "I'm already too busy with weapon-making and cultivation. I don't have time to find a partner."

"Well, that's pretty lonely," whispered the Red Dragon Queen.

"It's okay once you're used to it."

"If you ever want a partner, I can pull some strings. In our dragon descendant priory, there are many fifth-circle dragon descendant witches who are single and beautiful..." Red Dragon Queen said half-jokingly.

Holy Infant laughed and politely replied, "Thank you, Queen."

He was just a tool for the main body.

'Before my career is completed, how can I dare to talk about love?'

Several days later, they were getting closer and closer to the encampment.

Suddenly, the Red Dragon Queen's communicator rang.

When she saw the message, her expression changed and she said, "We have to hurry. I just received news from the Five Elders Palace that the Nine Cities Alliance has already led an army to the border. I heard that more than five hundred wizards have come. There are more than twenty fifth-circle wizards. Even Simon the Fire Dragon Destroyer has come personally!"

Blue Dragon Lady's expression turned icy as she said, "The Nine Cities Alliance is really aggressive. They just repelled the mages of the Empire and they're already attacking us without stopping. We just want to develop the Sea of Stars in peace. Why are they so unreasonable?"

Holy Infant smiled and said, "There is no reason in this world. Fists are the reason. What do you two plan to do next?"

He had long expected this day to come.

Red Dragon Queen replied, "We need to go back. The Rust Dragon Wizard is our benefactor. We won't abandon the wizard association. What about you, Master?"

Holy Infant thought for a moment and smiled as he said, "I'll come along and take a look at that legendary... Dragon Slayer!"

...

Outside the ancient tower.

Sleeping Dragon Realm.

At the headquarters of the dragon descendant priory.

The president of the dragon descendant priory was a blond wizard who looked burly and strong.

His name was Meonia, the strongest wizard in the dragon descendant priory. He was at the peak of the eighth-circle realm and was also known as 'Sir Golden Dragon'.

"Alexandra's strength is getting stronger and stronger. She was able to join forces with Elsie and kill a peak level 5 Amethyst Race member with the help of a fifth-circle senior wizard. This kind of battle record really gives us dragon descendants much pride."

With that thought, he picked up the video and stepped into a teleportation portal.

Behind the teleportation portal was a boundless crimson world.

As far as the eye could see, the Earth was filled with volcanoes and lava.

There was an island in the middle of a huge lava lake.

To be more precise, it was a dragon covered in lava scales.

It was thousands of meters long, and its back was like a mountain ridge, continuous and uneven.

The dragon breath it spat out turned into the lava of this world.

It spread its wings like clouds that covered the sky.

Its blazing golden pupils were like a lake of lava, reflecting Meonia's figure.

"Lord Leodes," Meonia greeted respectfully.

Even though he was an eighth-circle wizard, he had to lower his noble head in front of this person.

This was because Lord Leodes was a pure-blooded adult dragon, a living legendary creature, and also the biggest backer of the dragon descendant priory.

Lava Dragon Leodes!

He was the Red Dragon Queen's father.

Almost all dragon fathers would become scum dragons after giving birth to pure-blooded dragon descendants with humans, leaving their mothers and descendants.

On one hand, it was because it was difficult to have true feelings between humans and dragons.

On the other hand, even if they had feelings for each other, with the long lifespan of the dragon race, whether it was his spouse or his children, they were destined to die before him.

Leodes was an exception. Ever since he had matured sexually, he and many human women had given birth to dragon descendants.

Most of these dragon descendants died in their human mothers' wombs because of his powerful bloodline.

As long as a dragon descendant was born, he would not let it go. Instead, he would try his best to be a dragon father.

Alexandra was his descendant born 400 years ago.

She was a Child of the Fire Element, and with the Lava Dragon bloodline in her body, her cultivation progress was naturally not slow.

Now that she was close to attaining Perfection in the fifth-circle realm, Leodes believed that Alexandra had a chance of becoming an primordial soul.

Chapter 1339: Preparing to Attack White Robe Wizard Association

In that case, his daughter would be able to accompany him for a longer time before dying of old age in front of him...

Therefore, every time Leodes woke up from his deep sleep, he would pay attention to what his daughter was doing.

The life of a dragon was so boring.

The video in Meonia's hand was playing the video of a man and two women fighting against the Amethyst Race member.

“It’s only been a few hundred years, but my little Alexandra can already take charge of her own affairs. Time sure flies.”

Leodes’ voice was like that of a kind old man. It did not match his body shape and appearance at all.

Different Dragon Clans and different individuals had huge differences in their personalities.

It wasn’t the evil dragon that many people thought it was.

The lifespan of pure-blooded dragons was usually between 30,000 to 50,000 years if they did not die prematurely.

And some of the races might even be higher.

For example, if the Lava Dragon was healthy, its lifespan would be close to 80,000 years.

A few hundred years was just a little bit of its long dragon life.

“Yes, time flies,” said Meonia as he smiled bitterly. He sighed at the longevity of the Dragon Clan that did not care about the passage of time at all.

Leodes asked, “Who is this wizard? Alexandra’s male partner? Who is this dragon descendant witch?”

Meonia was sweating profusely. Leodes had slept for too long and didn't know much.

"That's the Blue Dragon Lady. Her father is the Ice Dragon Munos. Uh, she is also Alexandra's partner... This male wizard is probably a companion that Alexandra met in the Dark Tower," replied Meonia.

Leodes muttered, "Munos, I think I've heard that name somewhere before... What? The Dark Ancient Tower has opened?"

Leodes had just woken up and was unable to react in time.

"Yes, it has been open for 45 years," said Meonia.

Leodes said, "When I wake up again, Alexandra will already have her primordial soul."

Watching the dragon close his eyes, Meonia left silently.

...

Dragon Palace Island.

Ancient Banyan Fairyland.

In a huge karst cave filled with lightning, a giant beast that looked like a wolf or a dragon woke up.

Its head was wrapped in a medicinal bandage.

As it woke up, the bandages fell off, revealing the scabbed wounds.

The Thunderstorm Wolf Dragon that had been smashed half to death by Levi had completely recovered.

It growled and walked out of the cave, looking at the unfamiliar world.

A majestic figure stood in front of it.

It was Levi.

“You’re awake?” asked Levi with a grin.

Before Levi could use his Dragon’s Might to threaten and intimidate the Thunderstorm Wolf Dragon...

Plop.

The Thunderstorm Wolf Dragon knelt on the ground with its front legs, tucked its tail between its legs, lowered its head, and let out a sobbing sound of submission. ʘ̂NŌ̂Ē̂

“I’ve been wandering for half my life, muddleheaded, and deceived by others. Now, I’ve finally met the noble person I’m destined to meet... Blenis greets Master!”

The Thunderstorm Wolf Dragon’s excited voice sounded in Levi’s mind.

Levi was stunned.

‘You didn’t even give me a chance to show off my Dragon’s Might, and you’re already submitting?’

Thinking of this, six dragon images appeared and stood in the sky behind Levi.

Levi said sternly, “Very good. A wise man understands the times. Blenis, follow me and join the Dragon Palace. I will ensure that you can safely advance to level 6 and grow!”

“Thank you for taking me in, Master.”

“You can continue to recuperate. I won’t disturb you anymore.”

After establishing his might, Levi left the Ancient Banyan Fairyland.

The Thunderstorm Wolf Dragon had just recovered from a serious illness, so he did not draw its blood for testing.

Looking at his master’s back, Blenis heaved a sigh of relief.

“He’s too terrifying. Fortunately, I can take it up and let it go. I’m flexible and optimistic.”

Blenis returned to the cave and continued to recuperate.

Dragon Palace Island.

In a cool valley.

Aya was cultivating alone here.

Although she had only trained for a year, her spiritual force was already at the later stage of a low-level apprentice wizard and she had even mastered three apprentice cantrips.

Even Levi was surprised by her speed.

He couldn't help but raise the rating of the special talent that showed the phenomenon of the [Crown of Darkness] to another level.

With Aya's speed, she could become an official wizard within ten years.

In terms of wizard talent, Levi felt that Aya was slightly stronger than Andrew, an Earth Elemental Child.

Her special talent was extraordinary.

In the place where Levi was in seclusion, he looked in the direction of the Sea of Stars.

"The Nine Cities Alliance is attacking. A war of this scale will probably last for some time unless a primordial soul wizard steps in to stop it."

Not to mention that Levi's Crimson Emperor Dragon had yet to advance to level 5. Even if it reaches level 5, Levi alone would not be able to defeat a group of wizards.

“If it really doesn’t work, I’ll let Holy Infant run away.”

Levi continued his closed-door cultivation as usual.

...

Sea of Stars.

Outside the White Robe Wizard Association’s encampment.

A giant airship traversed the sky.

More than 500 wizards surrounded the encampment like stars.

Five figures stood in the air.

The perfected fifth-circle wizards were Beske, Farrah, Yolanda, Breta, and Gomez.

Apart from Farrah, these people were all 'old fellows' that the Nine Cities Alliance had specially arranged for this trip to the ancient tower.

Every one of them was very old. The youngest was already 800 years old.

The other top wizard organizations also had the same arrangement.

For various reasons, these people had no hope of advancing to the primordial soul realm and were not too far away from their end.

Therefore, under the organization's arrangements, they continued to shine in the ancient tower.

Simon stood beside Beske.

"This battle is mainly to deter these people. If possible, subdue them and try not to harm their lives. After all, this battle would be projected in the Wizard World. If we go too far, it won't be good for the reputation of our Nine Cities Alliance."

Chapter 1340: Attacking White Robe Wizard Association

Simon smiled and said, "I understand. We have a good reason for this battle. It was because they were not united and selfish that we had no choice but to take action. If everyone had joined forces to fight against the outsiders, why would we have to fight each other?"

In front of the army of the Nine Cities Alliance, in the sky above the Sea of Stars.

The gray-robed experts, white-robed experts, and five elders from the White Robe Wizard Association were waiting to confront the Nine Cities Alliance.

Rust Dragon Wizard, Madam Miracle, and Red Bone Wizard all had solemn expressions.

At the back, the 700 wizards who had been guarding the encampment gathered together.

The commotion was so great that it was comparable to a small-scale regional wizard war.

Dark clouds covered the city, and the atmosphere was tense.

After a moment of silence, Basker shouted, "Rust! Don't struggle. We don't want to fight."

Beske exuded the aura of a perfected fifth-circle wizard, and his spiritual force had already reached 1000 points.

This aura caused the nomadic wizards of the White Robe Wizard Association to involuntarily suck in a breath of cold air.

"He has completely attained Perfection and is just short of advancing to the primordial soul realm. That's too terrifying."

“Don’t worry. We have Lord Rust here.”

“Since you don’t want to fight, why don’t you retreat?” asked the Rust Dragon Wizard with a puzzled expression.

Beske laughed softly and replied, “We can retreat, but you need to join the allied forces to fight against the foreign races. In the entire southern region, everyone has joined the allied forces except for your White Robe Wizard Association.”

“What if we don’t join?” Rust Dragon Witch’s eyes were emitting a dangerous aura. His personality was good, but it did not mean that he was a pushover.

“Then for the sake of the big picture, for the sake of our Nine Cities Alliance being able to focus on fighting against the foreign races, we can only eliminate the White Robe Wizard Association. Although this is a little cruel, I believe that what we are doing is for the greater good of the wizard civilization!” said Beske.

“You’re so long-winded. Aren’t you just finding a lousy excuse for your unjust war?” Rust Dragon Wizard sighed.

“Hmph, there’s no point in talking. Let’s fight,” Beske snorted.

In the wizard army at the back, someone took out a horn-shaped Wizard Tool and blew it.

Fourth-circle wizards charged toward the encampment as though they were on steroids.

In the next moment, the surroundings of the encampment suddenly lit up with arrays that connected the sky and the earth.

These arrays were like a great wall, blocking all the attacks of the Nine Cities Alliance.

Behind the array, a wizard was presiding over it.

“Fifth-circle array, the Great Wall of the Monarch Territory! You actually have such a large military array?”

Simon’s expression changed.

The so-called military arrays were usually specially made for large-scale wars.

The Great Wall of the Monarch Territory was one of them.

This kind of array was extremely difficult to refine. It required at least a fifth-circle perfected array wizard to refine it.

“So this is what you’re relying on,” Beske said coldly.

He had long heard that the Rust Dragon Wizard was unfathomable. He had lived for more than a thousand years and was extremely low-key.

Beske did not expect that this old fellow was actually a perfected fifth-circle array wizard. He was most likely a retired commander of a battle group. ʃANŎBĚŞ

Rust Dragon Wizard methodically mobilized the fourth-circle wizards. Some were in charge of controlling the array, some were in charge of attacking, and some were in charge of taking turns.

This kind of ability to remain calm in the face of danger was definitely not ordinary.

Rust Dragon Wizard sat alone in the center, observing the entire situation.

“Red Dragon and the others went to the dangerous area to hunt the Amethyst Race. They should be back soon. At that time, my pressure will be reduced a little,” pondered Rust Dragon Wizard.

Beske said to Simon, “Simon, I’ll send people to deal with the grand array and those perfected fifth-circle wizards. You lead a few experienced fifth-circle wizards and charge into the array from the weak spots on the side. If we encounter danger, our first priority is to protect our lives. Otherwise, we won’t be able to report to Lord Roman.”

Simon chuckled and said, "I know. Ciel, Giza, you two, come with me."

Simon turned into a streak of light and rushed forward.

Upon seeing that, Rust Dragon Wizard commanded, "Hunter, Hart, you two brothers and Arctic Wizard, go and stop Simon and the others. You must be careful. Simon's strength is not something that ordinary fifth-circle senior wizards can compare to."

"Understood. We brothers have long wanted to find an opportunity to beat this Simon up."

Hunter and Hart were both fifth-circle senior wizards. The two brothers had mastered some kind of joint combat technique, which allowed them to display the power of '1+1 is greater than 2'.

Although Arctic Wizard had entered the fifth-circle senior realm relatively late, he had lived for a long time, so he must have some trump cards.

These three should be enough to stop Simon and the others.

Simon came to the flank and prepared to use his knowledge of arrays to break through the Great Wall of the Monarch Territory.

An icy arrow tore through the air and arrived in front of his face.

“Old fellow.”

Simon looked at Arctic Wizard who attacked him and sneered.

Boom!

The moment the ice arrow hit him, a flame beam shot out and melted it.

At the same time, Simon’s eyes glowed red.

Two laser beams shot out, and Arctic Wizard’s protective force field was instantly shattered. A large hole was also pierced through his Wizard Tool.

Arctic Wizard narrowly avoided it, but the right side of his chest was still pierced through, and blood flowed out.

Arctic Wizard quickly consumed a potion to heal his wounds. At the same time, a Frost Giant appeared behind him.

“Fire God, destroy him.”

Simon did not even bother to look at Arctic Wizard. He was not interested in such an ordinary fifth-circle senior wizard.

He just wanted to find the two dragon descendant witches as soon as possible and make them his maids or kill them.
