

Wizard 143

Chapter 143: Fierce White Wolf! (2)

The team had no peak knight, let alone a grand knight.

Seeing this, Levi was relieved.

He had already used the Siren Breathing Technique to change his body shape.

He was currently 1.8 meters tall, and his body shape was standard. He was average and not very eye-catching. Compared to those muscular, athletic men who cultivated strength-based breathing techniques, Levi seemed a little petite.

However, it was evident that no one dared to underestimate the man wearing the White Wolf Mask based on the aura that Levi emitted.

In particular, Levi was followed by a burly man who looked like he was not to be trifled with. Therefore, everyone stayed far away from Levi and dared not approach him.

In the eyes of these rookies, Levi was at least a high-level knight, and Magic

Shark beside him should be a peak knight.

With such a combination, no one dared to be snubbed.

This was also the effect that Levi wanted to achieve. He did not want to attract too much attention.

However, he did not want to be looked down upon by others, which would cause unnecessary trouble.

Not long after, the captain in charge of this hunting operation walked out of the camp. He was a captain of the Queen's guards of the Evernight Kingdom and had the strength of a peak knight. This time, he was ordered to lead this mob to hunt Snow Demons.

He glanced at everyone and paused momentarily when he saw Magic Shark and Levi before continuing.

He coughed and said, "Knight from afar and brave warriors! I am Knight Kader, the leader of this Demon Hunting Operation. First of all, on behalf of the Snow Queen, the daughter of God, I would like to express my heartfelt respect to all of you!

"No matter where you come from or what purpose you have come here for, you can stand here bravely today and wage war against the evil Snow Demons that threaten the survival of humanity!

"This action had already obtained the Queen's approval!

"After successfully defeating and eliminating Snow Demons, all the brave warriors who participated in the hunting operation would be rewarded by the Queen!

"This time, we are going to Snow Valley City, north of the capital. Many citizens of the kingdom are trapped in the city and urgently need our help.

"Before we set off, I need to warn everyone that in the wilderness between Snow Valley City and Snow City, there might be some Snow Demon remnants that have not been exterminated or even some Snow Demon nests.

"Don't fall behind on the road, don't act on your own, and don't split up!

"There are a lot of Snow Demons in their nests. Some of them might even be Imights or grand knights. Trust me, with your mithril swords with poor purity, you could barely defeat so many Snow Demons, no matter how skilled you are. Before you grind them to death bit by bit, they would have killed you 10 times!

"Therefore, you are not allowed to act on your own!

"Snow Valley City has already fallen, and a large number of Snow Demons might wander inside. If you want to keep your life, listen to my commands once you enter the city. Otherwise, don't blame me if you die!

"If you still have any questions, you can ask me. If you are afraid, you can withdraw. If you have no comments, we will set off immediately!"

Although the wandering knights would be a powerful force if they were to gather, the biggest problem was that they were a group of people who were unrestrained and undisciplined. Hence, a significant problem was that they did

Not obey discipline.

And to kill a terrifying existence like the Snow Demon, everyone had to obey the command to carry out the task.

That was why Knight Kader had come up to emphasize this point again and again, and Levi also agreed with this point.

After reorganizing themselves, under the lead of Knight Kader, the team set off towards the city's outskirts.

Outside, it was a world of ice and snow. Everyone had prepared enough rations to not starve to death in the wilderness.

In a world of ice and snow, even if one were proficient in hunting, one would still face the awkward situation of being unable to cook without rice.

Therefore, most of their luggage was used to store dry rations.

As for water, they did not lack it. If one was thirsty, he could eat some snow.

Levi had only brought little rations.

Before setting off, Levi had already filled up the whale sac.

Under normal circumstances, he would not starve to death even if he did not eat or drink for three months.

Even if he had to use breathing techniques frequently, it would not be difficult to persist for ten days to half a month.

It was more than enough for him to go out and hunt monsters.

Learning the Blood Whale Breathing Technique was the best choice for Levi. In this era where technology was not advanced, and there were no legendary storage items, having a whale sac was too convenient!

In the cold wind, the team marched forward. According to Kader's description, reaching Snow Valley City at its current speed would take about two days.

The current situation in Snow Valley City was not optimistic. Although the citizens and the army tried their best to resist the Snow Demons, their equipment and strength were not good enough. In front of the indestructible Snow Demons, they might be unable to hold on for long.

"Buddy, my name is Bray. What's your name? We can take care of each other for this operation, hehe."

A big guy appeared beside Levi and smiled, revealing his big front teeth. He looked a little silly.

However, Levi knew that as a wandering knight, no one could be a fool if they could cultivate the high-level knight realm. These were most likely just appearances.

"No need. I can take care of myself," Levi refused.

With his strength, he did not need to form a team. That would only drag him down..
