Chapter 153: Legendary Weapon, Lion King's Pride! (2)

Beneath the tower stood a tall, imposing figure draped in a white fur cloak. He was the Duke Bluefeather, and all that was left of him was his ice-blue bones.

The owner of this castle...

Besides him, 13 knight-level Snow Demons stood on both sides, their expressions respectful. Even the grand knight-level Snow Demons knelt as if worshipping their king.

The Thirteen Bluefeather Cavalry were the thirteen knight retainers under the command of Duke Bluefeather. The grand knight Snow Demon, Blue Mountain Knight, was the confidant of Duke Bluefeather, also known as the Duke's Left

Hand.

"His..." Duke Bluefeather roared.

It was as if he was giving an order to the Thirteen Bluefeather Cavalry.

He instinctively guarded this tower. When he woke up from his deep sleep, he realized that his people seemed to have decreased dramatically during the days he was asleep. This made him very angry.

He looked at the tower behind him, which was glowing with blue light. He left hundreds of mutated Snow Demon soldiers to guard this place.

He let out an angry roar, like the wails of the Undead from hell.

Then, a skeletal warhorse covered in ice-blue flames ran out of the tower. Duke

Bluefeather got on the horse and took the long-handled hammer from the Blue Mountain knight. It was Duke Bluefeather's favorite weapon when he was alive, Deep Blue Hammer!

The head of the giant hammer looked like a blue flame lion. It was arrogant and overbearing as if it could crush everything that came its way!

The hammerhead was even more magnificent. It was carved with gorgeous patterns and even some mysterious and complicated runes.

As for the hammer's handle, it was forged from the rarer material, Luminant gold!

The giant hammer was painted with a layer of frosty blue paint. As time passed, without the care of the craftsmen, the color gradually weathered and fell off, revealing the beautiful silver hammer head.

If it were someone who knew about it, they would be amazed.

How rich and prodigal was he to use so much mithril and Luminant gold to forge a heavy hammer weapon!

Few people knew the origin of this weapon. Only Duke Bluefeather knew how extraordinary it was.

It was the most potent weapon in the world that he could rely on.

Although it was now called the Deep Blue Hammer, this weapon had a more resounding name in the past.

"Lion King's Pride!"

This hammer was a legendary weapon because its owner was a legendary knight who had fallen.

Lionheart Knight, Rhine

This person's name appeared in the mouths of countless bards, knights, nobles, and even many commoners. It also appeared on the "Lion King Spirits" barrel in the Shining Tavern.

Duke Bluefeather held the heavy hammer that weighed hundreds of kilograms in his hand as if holding a knight's sword.

Then, he rode on the skeletal warhorse and led his Thirteen Bluefeather Cavalry, the knights who had once shocked the entire Evernight Kingdom.

They charged toward the unknown enemy!

Levi suddenly felt something was wrong.

He did not need to use his Advanced Vibrosensing to feel the earth shaking as if thousands of troops were charging at him.

At the same time, Spider Sensing began to alert him.

Levi's expression changed. He did not care about Snow Demons, whom he had yet to obtain the Core of the Undead. He immediately ordered the Magic Shark to cover the rear.

He quickly ran out of the castle, followed by the Magic Shark.

He heaved a sigh of relief and was ready to see what was happening.

He saw a blue skeletal giant riding on a skeletal warhorse. Its entire body was covered in blue flames, and it held a blue hammer that seemed to be able to kill an Earthly Dragon Beast. It led a team of elite Snow Demons and charged toward him.

What changed Levi's face the most was that these people f*cking rushed out of the castle's gate.

Hundreds of Snow Demons, led by the blue skeletal giant, charged forward.

"D*mn it; it seems like it's not that those Snow Demons can't leave the castle.

This intelligent Snow Demon Commander ordered them not to leave the castle. Now that Master has come out, they have also rushed out."

Levi analyzed the situation as he slipped away.

He felt that he could defeat the blue skeleton giant. The opponent should be Duke Bluefeather, a top-tier grand knight who was probably on the same level as the Earl of Silver Mountain. He should not be his match, even if he became a Snow Demon.

The problem was that the 13 retainers and the hundreds of Snow Demons following them were too many. Levi could not deal with so many Snow Demons.

"We must find a way to separate Duke Bluefeather from the other Snow Demons."

Thinking of this, Li Wei had the Magic Shark run in the opposite direction when they were at a crossroads.

Levi went to the right, while Magic Shark went to the left.

The Snow Demon army behind them shook the heavens and earth as they roared and howled, splitting into two.

A few of the retainer knights led most Snow Demons to chase after Magic Shark.

The rest of the knights, including the grand knight, followed behind Duke Bluefeather and continued to chase after Levi.

Rumble! Under Duke Bluefeather's giant hammer, the horse hooves smashed and crushed all obstacles, whether houses or walls!

"So strong, this is much stronger than the Magic Shark and Demon Mountain!" Levi was running in front, but he did not panic.

With his Top-tier Speed, it would not be a problem for him to escape if he could not beat the game..
