Chapter 154: Legendary Weapon, Lion King's Pride! (3)

He did not believe that Duke Bluefeather could keep chasing him.

These Snow Demons would have left the city long ago if that was the case.

Since they had not left yet, it meant that there was something in the city that they wanted to protect.

Levi jumped on the eaves like a nimble gibbon.

Duke Bluefeather rode on his skeletal warhorse and turned into a bulldozer. Houses collapsed, and the earth shook.

"D*mn, that heavy hammer...It seems to be made of mithril, and its purity is extremely high. Perhaps it's even higher than my Frostmourne?" Levi's eyes were blinded by the fading blue hammer in Duke Bluefeather's hand.

"A top-grade weapon! So much mithril! Although it can't compare to my Frost Giant Armor, it's still priceless!" Levi was shocked.

The mithril used to make this hammer was enough to forge many Frostmourne.

"I have to find a way to get this hammer."

"You're a mere Undead Snow Demon. I don't believe I can't subdue you!" As Levi ran ahead, Duke Bluefeather seemed angered by Levi's escape.

He muttered non-stop as he rode on the skeletal warhorse.

Then, Levi's Spider Sensing attacked, and he sensed extreme danger.

The sense of danger did not come from the duke!

It was the hammer in his hand!

Levi's heart skipped a beat.

The Siren Seed in his body had exploded entirely!

His entire body was like an arrow that left the bow. With a bang, he jumped from one house to another.

At the same time, Levi cast a spell.

"Seal of Protection!"

Boom!

A bright silver light spun around Levi, protecting him!

With the support of Bright Silver Protection, Levi suddenly turned around and ran in another direction.

On the other side, Duke Bluefeather seemed to have finished his rambling.

He held the blue hammer the next moment and leaped up from the skeletal warhorse.

Behind Duke Bluefeather, a giant shadow appeared. It was yellow, muscular, round, and strong as if made of stone. Duke Bluefeather held a heavy hammer in his hand as if the giant shadow was carrying a heavy hammer!

Then, he descended from the sky.

The giant roared silently.

The heavy hammer smashed into the ground!

Boom!

It was as if an earthquake had occurred.

Levi's sense of danger reached its peak.

It was already infinitely close to the feeling of facing the Fist of the Empire back then.

Within a 30-meter radius of the fan-shaped area in front of Duke Bluefeather, the sky collapsed, and the earth cracked. Houses collapsed as if they were sent flying by a massive shock wave!

A large wall flew towards Levi, shattering the Seal of Protection.

The remaining force hit Levi's body and sent him flying.

He could feel the incredible power being transmitted to him and could not help but groan.

"Spells! This was also a weapon that was enchanted with magic! It's the same as the Frost Giant Armor!"

Levi was surprised and delighted.

He was shocked that the power of this spell was even more terrifying than the Frost Giant's Sigh. If he hadn't run fast, coupled with the Seal of Protection and the layers of layered armor, even if he was a grand knight, he would have suffered severe injuries and broken bones if the shockwave had hit him! He could even be shattered into pieces!

He was happy he had decided to come to Snow Valley City this time.

Initially, he had only wanted to grind to gain Proficiency skills for the Seal of Hell. He did not expect such a good thing. "Since that's the case, I'll play with you!"

"This kind of spell must have a long cooldown time. I should be able to finish him off if I deal with it carefully."

Levi first distanced himself from Duke Bluefeather.

"We have to finish the Snow Demons as soon as possible!"

"Otherwise, my Transcendent Endurance wouldn't be able to wear them down." Levi thought of a countermeasure.

Rumble! Duke Bluefeather and his retainers were unstoppable, chasing after Levi, the enemy that they instinctively felt threatened by.

Levi stomped his foot and jumped up. The house under his feet collapsed, and Levi jumped into the sky.

"You're not the only one who knows spells!" Levi snapped his fingers.

Behind him was a sigh, and the tall and indifferent Frost Giant's phantom appeared out of nowhere!

Levi smashed the ground and used Frostmourne to pierce through the head of a retainer knight.

At the same time, he struck out with the Seal of Flame!

The terrifying high-temperature flame instantly melted the snow under his feet, and the snow flowed!

Then, the Frost Giant behind him snapped its fingers, and a lonely sigh echoed in the street.

In the next moment, everything was frozen!

The already cold temperature dropped sharply again!

Levi knew this spell would not substantially affect Snow Demons, but he only needed the Frost Giant's Sigh to restrict their movements for a while!

The snow water froze the knights' feet once again.

Of course, it was only time before they escaped.

Levi fully activated his Advanced Vibrosensing, and a strong wind rushed over. He narrowly dodged, and the terrifying dark blue hammer smashed into the ground. The ice surface cracked, and the floor tiles below also broke. The cracks spread far away.

"What great power."

Levi's Frostmourne slashed out.

Golden Cross Slash!

Advanced Ripple Force!

Duke Bluefeather raised his hammer and attacked again.

This slash was aimed directly at the skeletal warhorse beneath it!

Smash!

The warhorses that could destroy houses were like burning hot iron blades slicing through wax statues in front of Levi's high-purity mithril Frostmourne!
