

Wizard 156

Chapter 156: Sweep the Castle! (1)

In Snow Valley City, Levi was hiding in a room, holding and observing a hammer.

He toyed with the handle of Lion King's Pride.

It was shrinking in and stretching out.

"This hammer handle can be adjusted in length."

Even though Levi had seen many good things, he still could not help but smile as he looked at the hammer.

"A legendary weapon! This is a legendary knight's weapon! This is the closest I, Levi, have ever been to becoming a legend."

Lion King's Pride was one of the world's most potent knight weapons!

It would at least be a divine weapon like Heavenly Sword or Dragon Slaying Saber in Wuxia novels.

Just like his Frost Giant Armor, calling it a peerless divine weapon was not an exaggeration.

"Of course, this world was not a Wuxia novel. Here, weapons of this level were called legendary weapons!"

Two conditions had to be met to fulfill the requirements for a legendary weapon.

One was that a legendary Blacksmith Master forged it, and the materials used were rare and peerless.

The second was that a legendary knight had used it.

Although the quality of the Frost Giant Armor was comparable to the Lion King's Pride, the person who wore the Frost Giant Armor was a grand knight far less famous than a legendary knight. Moreover, the Frost Giant Armor was a defensive piece of equipment, not a weapon.

Therefore, strictly speaking, the Frost Giant Armor could not be called a legendary weapon.

Defensive equipment was no less valuable in a battle than weapons. It was even more helpful.

However, as time passed, everyone could only remember the weapons a specific legendary figure used. No one cared about the defensive equipment that silently protected this legendary figure.

Of course, the Frost Giant Armor was also a legendary weapon in Levi's heart. He might have been in danger several times if not for it.

He would not have dared to face so many Snow Demons if he did not have the Frost Giant Armor.

There was a small mechanism on the Luminant Gold handle of Lion King's Pride. This mechanism could adjust the length of the hammer.

It allowed the Lion King's Pride to be a long-handled sledgehammer that could be used for 80 points or a short-handled sledgehammer that could be used for 40 points.

With Levi's current height, it was a little difficult for him to use a 1.5 -meter-long sledgehammer. Therefore, he adjusted the length of the sledgehammer slightly and made it slightly longer than a meter.

On the hammer of the Lion King's Pride, the majestic and handsome silver lion roared silently, domineering and unreasonable!

Of course, Levi was most concerned about the mysterious runes on the hammer. This was the work of a wizard.

Unfortunately, this hammer had no manual like the Frost Giant Armor.

"It should be some shockwave-type spell. Its power is a little stronger than the Frost Giant's Sigh. The Frost Giant's Sigh is a control-type spell, and this is a

Lethality-type spell.”

Thinking about the power of the hammer , Levi felt terrified.

The Snow Demon had no strategy, so he used the spell randomly.

If he had struck Levi when he was close to him, he would have been heavily injured even if he did not die. At that time, he would not be able to escape. “It seems that some spell is needed to activate it.”

Levi carefully observed the Lion King’s Pride, but in the end, he could not find any enchantments.

There were no clues about Duke Bluefeather either. Besides the Lion King’s Pride, everything else on Duke Bluefeather had turned to dust.

"D*mn it; this spell can't be wasted like that, right?" Levi was speechless.

He was unwilling to accept this. Although the Lion King’s Pride was already mighty, where a single hammer strike would break the bones of a platin-armored grand knight, the most powerful thing was still its spell. “I have to go back and look for it. I think there should be some clues.”

"Since Duke Bluefeather can use it, he must have found the spell of the Lion King's Pride. The answer might be in that castle."

"Now that Duke Bluefeather is dead, the danger in the castle should be gone.

We should be careful."

"Right, I forgot about the Magic Shark."

Levi went to the battlefield to loot the corpses but found nothing. They were all scrap metal.

He did not dare to delay and immediately went to look for Magic Shark.

On the other side, in a corner of the city, Magic Shark had been forced into a

Desperate situation by many Snow Demons.

Snow Demon crawled all over its body. The energy in the Magic Shark's body was almost depleted.

If Levi had not forged a set of mithril armor for it, perhaps Magic Shark would have been gone by now.

However, from the looks of it, even with the mithril armor, he was about to die. He would be eaten by these Snow Demons sooner or later.

At this moment, the earth and mountains shook. A figure holding a sledgehammer jumped up on the roof in the distance with a loud bang. The house collapsed, and ice shards and dust flew everywhere!

"Swish!"

Levi shouted!

An earth-shattering smash!

Boom!

Although he did not have any spells to support him, with Levi's terrifying strength and Lion King's Pride, he could unleash a powerful attack!

The shockwaves still sent the Snow Demons flying.

"Thankfully, I got here in time. Otherwise, how would I explain to his brother,

Demon Mountain!"

Levi's hammer smashed onto the body of a Snow Demon and flattened it. This was the power of a mithril hammer!

The Snow Demon immediately fell apart. Levi took out the Core of the Undead, single-handedly pulled down a Snow Demon, and pressed it to the ground!

"Die!"

Another hammer strike!

The Snow Demon split open, and so did the earth.

Its Core of the Undead was safe.

The material of the Core is rigid. It will only become fragile when the energy of the armillary shell is exhausted..
