

Wizard 158

Chapter 158: Sweep the Castle (3)

"Good stuff. It's worth over ten thousand gold coins in total. But it takes up too much space and can't be removed."

Levi looked at the paintings, antiques, and other artworks.

"I'll leave it here for now. Take it slowly in the future. First, find the breathing technique and the like."

Unfortunately, Duke Bluefeather was not a collector of breathing techniques.

Levi searched around but could not find any breathing techniques.

Levi circled the area, not missing a single corner.

He gently knocked on the wall, placed his palm on it, and carefully perceived it.

Suddenly, something caught Levi's attention.

"There's a secret room."

Levi was delighted.

He carefully came to the secret room and found a switch after searching for a long time. He activated the Seal of Protection and pressed the button.

There were no hidden weapons. A stone door slowly opened.

It was pitch black inside.

"Magic Shark, you go in front." Levi had Magic Shark walk in front while he held the casting materials for Seal of Protection, ready to activate his defense and run away at any time.

However, it was obvious that Levi was being paranoid.

There were no traps or monsters inside.

There is no mountain of gold and silver.

There was only a tightly closed treasure chest.

"Was it some kind of treasure chest?" Levi thought.

The treasure chest was made of mithril mixed with refined iron. It was even locked with a lock made of pure mithril.

And this place did not have the key to the treasure chest.

"This is the real treasure trove!"

Levi could not find the key from Duke Bluefeather either, which made him frown.

"I can't find the key now. I can only try to break it open by force. The box is too hard. It won't work if I use my Frostmourne to break it."

"We have to find a weapon made of metal that is stronger than mithril."

"Wait, I have something."

Levi was delighted.

"Magic Shark, give me the hammer."

Magic Shark silently handed Lion King's Pride to Levi.

Levi looked at the handle of the hammer.

"Made from pure Luminant gold, it should be the hardest thing in the world; there is no other!"

"With the Lion King's Pride and my Golden Cross Slash's high-level Ripple

Force, I should be able to break it open forcefully!"

Levi took the hammer and held the joint between the handle and the hammer head.

His veins bulged, and black smoke permeated the surface of his body. White smoke rose, and his entire person was like a steam locomotive about to start!

Rumble!

It was a resounding ring!

This was Levi's first use of a blunt weapon to execute the Golden Cross Slash!

With his current Advanced Waves realm, it should not be a problem for him to

Use blunt weapons or even his palm to unleash it!

However, Levi was still worried about using his physical body. He was afraid that he would lose 800 points if he killed 1,000 enemies.

He planned to wait until he reached the limit of the Black Snake before he tried to use the Advanced Ripple Force with his palm.

Boom!

The handle of Lion King's Pride trembled, and the space rippled.

This ripple power was second only to the Advanced Ripple Force!

The next moment...

Bang!

Levi's full-powered Ripple Slash shattered the entire mithril chain!

Levi quickly brought the hammer over and raised it high. White smoke came out from his mouth and nose.

Levi wanted to use the Lion Kings Pride to smash his opponent if there were any Undead monsters in this treasure chest! There was no response from Spider Sensing.

Levi was scaring himself again.

This was not the first or second time such a situation had happened.

"It's always right to be careful," Levi muttered as he got Magic Shark to open the mithril treasure chest.

There was only one item in the treasure chest.

It was a gray bag that emitted a bloody smell.

The more abnormal the situation was, the more cautious Levi was.

There were some veins on the surface of the gray bag. Looking closely, one could see it trembling slightly as if alive.

"What is this?" Levi was quite knowledgeable, so he was dumbfounded at this moment.

Spider Sensing showed that this thing should not be dangerous.

However, Levi's Advanced Vibrosensing allowed him to sense that the invisible tremor was coming from the gray bag.

'Magic Shark, go and take it.'

Levi quietly took a few steps back and hid behind Magic Shark. Seal of Protection in his left hand, Seal of Flames in his right, and the casting materials for Seal of Dragon Might in his pocket.

If this bag were up to something, he would directly use the seals!

Magic Shark silently picked up the bag with his big hand. Three cracks suddenly appeared on the pack's surface when he lifted it.

Two above and one below.

The crack on it slowly opened, revealing the strange red pupil inside.

Then, the crack below also opened, revealing a pair of white and sharp teeth.

Crack, crack.

Their teeth collided, producing a terrifying grinding sound.

"Babble, babble, babble, babble."

Levi could not understand a bunch of words from this thing's mouth.

Although Levi did not understand what it was saying, looking at its angry expression, he had reason to believe that this d*mned mouth was scolding him.

Crack.

Magic Shark gave the bag a big slap.

A black handprint was imprinted on its “face.”

"Shut up," Levi scolded angrily. The sound of this thing was too irritating.

Instantly, the bag fell silent.

Blinking its eyes, it looked at Levi with an angry expression.

"Interesting. It seems to be alive."

"A pocket monster?"

For a moment, Levi was unsure.

He took out his snuff bottle from his bosom.

Then he twisted open the lid of the snuff bottle, and a puff of black smoke filled the air.

The shadow of the bald man appeared in front of Levi.

In the next moment, the burly man was grabbed by Levi's black hand.

"Tuten, what is this?" Levi pointed at the pocket monster in Magic Shark's hand and asked coldly.

Tuten looked like he was suffocating and then looked in the direction Levi pointed.

When he saw the pocket monster, he was slightly shocked.

"This is something from our sect. Where did you find it?" Tuten asked.

"I'm asking you, what is this thing?" Levi asked coldly.

"This is... Bag of Gluttony," Teuton recalled some distant memories and said slowly..
